Hello Workgroup!

Here is the first draft of the Integrated Planning Manual. Please review and comment, sending feedback by whatever means works best for you. To have your feedback reflected in the second draft, please send feedback by next Friday, October 14th.

As you will see we used very unsophisticated circles and arrows (integrated planning model) and boxes and arrows (timeline/process charts) to describe District-level planning step-by-step so the processes are transparent. Groups that are being invented by the Decision-making group are referenced, such as the District Budget and Facilities Committee and Consultation Council. For your reference, also attached is the current draft of that document.

Thank you for your time and energy,
Eva, Nancy, Deborah
