Dear Colleagues,

We are making progress in responding to the ACCJC recommendations! Here's the first document related to that progress: the draft District Integrated Planning Manual.

The manual was prepared in response to the highlighted portions of the three ACCJC recommendations for the District:

District Recommendation #1:
In order to meet the standards, the team recommends the district, in concert with the colleges, further define and align planning, governance, and decision-making processes to provide improved clarity to its structure, function, and linkages.

District Recommendation #2:
To fully meet the standards, the team recommends that district more clearly delineate its budget allocation model, communicate the model to campus constituencies, and provide clarity as to its link to district planning.

District Recommendation #3:
In order to meet the standards, the team recommends the district conduct regular analysis and evaluation of its district planning, governance, and decision-making processes in order to assess the efficacy of these systems and ensure their effectiveness. Results of these analyses and findings should be broadly communicated across the institution and used as a basis for improvement, as appropriate.

The process to develop this manual included (1) describing the processes and timeline for district plans (such as the District-wide Strategic Plan) and (2) developing processes for the components that were missing in district planning (such as a program review process for District Services).

There are two documents being prepared to address District Recommendation #2. An overview of the NOCCCD Resource Allocation Model is included in the District Integrated Planning Manual and a more detailed, technical explanation of the model will be included in a Resource Allocation Resource Handbook that is currently being drafted.

This draft District Integrated Planning Manual was prepared by a workgroup (members listed below). Workgroup members can be helpful in answering questions you may have regarding this draft. By means of this email, the draft is being circulated for District-wide review and comment. Please send your suggested changes to Deborah Ludford at dludford@nocccd.edu by November 18. Thank you for contributing to this important accreditation project!

Good afternoon colleagues,

Attached is a "draft" of the District Integrated Planning Manual which was prepared by a workgroup represented by folks from CC(Santanu, Rick Rams and Lisa Clark) FC and SCE. Please take the time to review it and if you have questions or need clarification regarding information included in the Manual, I would suggest contacting our representatives who served on the committee. If you are suggesting changes you would like the workgroup to consider please email them to Santanu by *November 18*.

Thanks for taking the time to review this document.
Mike

Additional information you may find useful:
The manual was prepared in response to the highlighted portions of the three ACCJC recommendations for the District:

*District Recommendation #1:*
*In order to meet the standards, the team recommends the district, in concert with the colleges, further define and align planning, governance, and decision-making processes to provide improved clarity to its structure, function, and linkages.*

*District Recommendation #2:*
*To fully meet the standards, the team recommends that district more clearly delineate its budget allocation model, communicate the model to campus constituencies, and provide clarity as to is link to district planning.*

*District Recommendation #3:*
*In order to meet the standards, the team recommends the district conduct regular analysis and evaluation of its district planning, governance, and decision-making processes in order to assess the efficacy of these systems and ensure their effectiveness. Results of these analyses and findings should be broadly communicated across the institution and used as a basis for improvement, as appropriate.*

The process to develop this manual included
(1) describing the processes and timeline for district plans (such as the District-wide Strategic Plan) and
(2) developing processes for the components that were missing in district planning (such as a program review process for District Services).
There are two documents being prepared to address District Recommendation #2. An overview of the NOCCCD Resource Allocation Model is included in the *District Integrated Planning Manual* and a more detailed, technical explanation of the model will be included in a Resource Allocation Resource Handbook that is currently being drafted.

Dear Colleagues,

We are making progress in responding to the ACCJC District recommendations! Here's the first document related to that progress: the draft District Integrated Planning Manual.

The manual was prepared in response to the highlighted portions of the three ACCJC recommendations for the District:

District Recommendation #1:
In order to meet the standards, the team recommends the district, in concert with the colleges, further define and align planning, governance, and decision-making processes to provide improved clarity to its structure, function, and linkages.

District Recommendation #2:
To fully meet the standards, the team recommends that district more clearly delineate its budget allocation model, communicate the model to campus constituencies, and provide clarity as to its link to district planning.

District Recommendation #3:
In order to meet the standards, the team recommends the district conduct regular analysis and evaluation of its district planning, governance, and decision-making processes in order to assess the efficacy of these systems and ensure their effectiveness. Results of these analyses and findings should be broadly communicated across the institution and used as a basis for improvement, as appropriate.

The process to develop this manual included (1) describing the processes and timeline for district plans (such as the District-wide Strategic Plan) and (2) developing processes for the components that were missing in district planning (such as a program review process for District Services).

There are two documents being prepared to address District Recommendation #2. An overview of the NOCCCD Resource Allocation Model is included in the District Integrated Planning Manual and a more detailed, technical explanation of the model will be included in a Resource Allocation Resource Handbook that is currently being drafted.

This draft District integrated Planning Manual was prepared by a workgroup (members listed below). Workgroup members can be helpful in answering questions you may have regarding this draft. By means of this email, the draft is being circulated for District-wide review and comment. Please send your suggested changes to Dr. Terry Giugni, Vice President for Instruction, at tgiugni@fulcoll.edu, by November 18.

The Integrated Planning Manual Workgroup is composed of the following members:

Ken Meehan - FC
Sean Chamberlin - FC
Lisa Clark - CC
Rick Rames - CC
Terry Giugni - FC
Vanithia Hubbard - SCE
Santanu Bandyopadhyay – CC

Yours sincerely,
