Subject: Decision Making Resource Manual

Hello Workgroup!

Directions for providing feedback and the due date for feedback on this draft are on the front page of the attached document.
As a reminder, we are preparing this document in partial response to the following ACCJC recommendation...and in the process of our discussion on September 16th, several good ideas for changing current practice were suggested that you will see in the attached.

Thanks again for being the first readers for this project!

Eva, Nancy & Deborah

District Recommendation #1: In order to meet the standards, the team recommends the district, in concert with the colleges, further define and align planning, governance, and decision-making processes to provide improved clarity to its structure, function and linkages.
