Cypress College is accredited by the Accrediting Commission for Community and Junior Colleges of the Western Association of Schools and Colleges, (3402 Mendocino Avenue, Santa Rosa, CA 95403 (707) 569-9177), an institutional accrediting body recognized by the Commission on Recognition of Postsecondary Accreditation and the U.S. Department of Education.

At Cypress College, student learning is our highest priority. We are proud of our reputation for academic excellence in both our general education/transfer courses and our vocational programs. Our award-winning faculty offer small classes, a variety of teaching approaches, and personalized attention—all designed to ensure student success.

In addition to our fine academic and vocational programs, we offer many support services to help students succeed: study skills classes, tutoring, learning centers, counseling, financial aid, and health services, to name a few. Students can also participate in student government activities, special interest clubs, athletic teams, and fine arts productions.

Cypress College is a culturally diverse institution that welcomes and celebrates the rich heritage and varied perspectives of all our students, faculty, and staff.

Thanks to the voters of the North Orange County Community College District, who passed a local bond measure in March 2002. Cypress College has embarked on an ambitious rebuilding and renovation plan. A new student center will be built and all classrooms and labs will be renovated. State bond monies will cover the cost of a new Library, scheduled for completion in 2005. These facility improvements will make Cypress College even more attractive and responsive to student needs.

We invite you to become a part of this exciting learning community, located on one of the most beautiful campuses in Southern California.

Welcome to Cypress College!

Marjorie D. Lewis
President

Cypress College is a member of the North Orange County Community College District (NOCCCD). The District also includes Fullerton College, the oldest California community college in continuous operation, and three Continuing Education Centers located in Anaheim, Cypress, and Fullerton.

The North Orange County Community College District came into existence on July 1, 1965, with Fullerton College already in operation and plans for a college in the western part of the district. Cypress College opened on September 12, 1966, just 74 days after the land was acquired.

Encompassing approximately 155 square miles, the North Orange County Community College District has a population of about one million. In general, the district includes the following communities: Anaheim, Brea, Buena Park, Cypress, Fullerton, La Habra, La Palma, Los Alamitos, Placentia, Rossmoor, and Yorba Linda. Portions of the following communities are included: Garden Grove, La Habra Heights, La Mirada, Orange, Seal Beach, Stanton, Whittier, and unincorporated territory in both Los Angeles and Orange counties. It serves, in its credit and non-credit programs, about 70,000 students each semester.

The North Orange County Community College District is part of the California Community College system, one of three segments of public postsecondary education in the state. A seven-member Board of Trustees, elected by the citizens of the district, governs all programs and activities of the NOCCCD.

Cypress College

EXCELLENCE IN EDUCATION

Cypress College emphasizes education for the individual student. Excellence of instruction and individualized learning laboratories enhance the possibility for students to achieve their highest potential. In addition, a staff of tutors and full-time counselors provides instructional support and extensive guidance information to aid students in their choice of programs and classes. For the student who plans to complete a Baccalaureate degree, the college provides a smooth transition from high school to colleges and universities.

Numerous occupational programs are available for the student who desires preparation for immediate employment. Each occupational program is planned with the aid of a local advisory committee to insure relevance to changing career opportunities in each area of employment.

The College is composed of twelve major instructional buildings located on a 110-acre site. The campus buildings contain conventional classrooms as well as laboratory facilities for science, art, computer technology, photography, automotive services, dental clinic, mortuary science, physical education and other specialized programs. The Educational Services and Roosevelt Center provide opportunities for students with disabilities to be fully integrated into various college programs.

In addition to these instructional facilities, the campus is provided support services by a bookstore, food service centers and a child care center. There are nine parking lots with an aggregate of 4,000 parking spaces designed to service students and staff, with an appropriate number of spaces reserved for the disabled.

Cypress College serves the educational needs of its entire community by providing a variety of occupational programs, transfer programs, and special interest classes. The College offers something for everyone, regardless of the student’s individual background or educational goals. Since opening in 1966, Cypress’ population has grown from an original enrollment of 1,200 to a student population of over 16,000.

Vision Statement
Building a college-wide learning community for student success.

Mission Statement
Cypress College is committed to promoting student success and contributing to intercultural understanding and the economic development of the surrounding community. The college offers certificate, degree, vocational, and transfer education, as well as developmental and student services programs, in a student-centered learning environment.

Strategic Plan Directions
Direction One: Designing and enhancing classroom instruction to promote student success and certificate, degree, vocational, and transfer education
Direction Two: Fostering excellence in a positive learning environment for student/staff success
Direction Three: Meeting the challenges of new technology and supporting its implementation, use, and staffing
Direction Four: Empowering college students and staff to cultivate a campus that understands and embraces diversity
Direction Five: Developing and coordinating new and existing physical, financial, and human resources for greater efficiency and effectiveness
Direction Six: Forming and maintaining collaborative relationships within the college and with other educational institutions and the community

Core Values
Cypress College is committed to:

Excellence — quality and high standards in instruction and student services, supported by professional growth for faculty and staff
Integrity — an ethical standard that emphasizes honesty, fairness, accountability, and trust
Collegiality — an environment that emphasizes teamwork, collaboration, communication, courtesy and respect both on campus and with the surrounding community
Inclusiveness — a community that embraces diverse individuals; provides an accessible, supportive climate; and encourages a variety of perspectives and opinions
Admissions

POLICIES AND PROCEDURES
The following people are eligible to enroll in Cypress College:
• Any high school graduate OR
• Any person possessing a California high school proficiency certificate OR
• Any person 18 years of age or older who can profit from instruction OR
• Any person under 18 years of age who can profit from instruction and has a recommendation from his/her parent, high school principal (See Bridge Program) OR
• Any person under 18 years of age not enrolled in school who can profit from instruction and has a recommendation from his/her parent and/or guardian. (See Bridge Program)

NEW AND RETURNING STUDENTS
WHO must apply?
Everyone who did not complete the enrollment process at Cypress or Fullerton College for the previous semester/session.

WHERE to apply?
At Cypress College Admissions and Records Office, first floor of the Administration Building. Office hours: Monday and Thursday 10 AM - 5 PM, Tuesday and Wednesday 10 AM - 7 PM and closed on Friday. Applications are accepted by mail. Please fill in the application completely and sign your name to avoid delay in processing. Mailed-in applications must be received four weeks prior to the start of classes.

WHEN to apply?
Applications are accepted for the Summer and Fall semesters beginning March 1, and for the Spring semester beginning October 1. Applications are generally accepted through the fifth day of instruction for full term classes.

AFTER you apply...
Assessment may be required for new students who plan to enroll in English and/or mathematics courses or those English/mathematics classes which have prerequisites. If you have taken prior college work and can submit evidence, it will be accepted for evaluation by a counselor. Obtain a class schedule. Review the information regarding your classes and other requirements of the college.

HIGH SCHOOL GRADUATES
Graduates of a high school or equivalent are eligible for admission and may undertake any program of study for which they are prepared.

THE BRIDGE PROGRAM
The Bridge Program is intended for high school students who wish to enroll part time for advanced or enrichment classes.

To be eligible for the Bridge Program the student must obtain recommendation from the principal for attendance during the summer session, the primary/secondary school’s governing board or authorized representative for attendance during the fall or spring semester, have parental or guardian permission, and approval from a Cypress College counselor. In certain circumstances the signature of a division dean and the college president is required.

Bridge students are required to have a 2.00 grade point average verified by a transcript and must meet all admission requirements, attend assessment/orientation and meet course prerequisites. Special approval is required for full time enrollment, students less than 16 years of age, persons under age 18 who are enrolled in school and enrollment into specific courses where content is deemed not appropriate for minors by the department. Additionally, students on an F-1 visa are not eligible.

Enrollment fees are waived only for all high school students (9th-12th) grade. Students are responsible for all other fees, i.e.: lab fees, health fee, non-resident tuition, parking permits, books and materials.

Students who complete courses at Cypress College under the Bridge Program will receive college credit only and are nevertheless required to satisfy all course requirements for high school. Bridge students must adhere to all college policies on admission, registration, course prerequisites, attendance, student code of conduct, and all other applicable policies and procedures.

Student records are protected under the Family Educational Rights and Privacy Act (FERPA). No one (including parents and high school officials) may access confidential information without the student’s written permission.

Students wishing to enroll under the Bridge Program must contact the Admissions and Records Office for an application and a Bridge Recommendation Form. The Bridge Recommendation Form is valid only for the current semester and a new form must be submitted for enrollment in subsequent semesters.

RESIDENCE REQUIREMENTS
This statement is a general summary of the principle rules on residency and their exceptions. It should not be construed as the actual expression of the laws used by admissions officers for residency determination. Reference should be made to Chapter 7 (commencing with Section 22800) of Division 16.5 of the Education Code, and regulations of the Board of Governors of the California Community Colleges in Chapter 1 (commencing with Section 5400) of Division 5 of Part IV of Title 5 of the California Administrative Code.

Resident - Any student who has legal residence in California for one year or more immediately preceding the residency determination date and who provides evidence of the intent to make California his/her home for other than a temporary purpose shall be classified as a resident.

Non-resident - Any student who has not had legal residence in California for one year or more immediately preceding the residency determination date, or who has had legal residence in California for one year or more immediately preceding the residency determination date but cannot provide evidence of the intent to make California his/her home for other than a temporary purpose shall be classified as a non-resident.
Residence Determination Date - The residence determination date is the day immediately preceding the first day of instruction of the fall, or spring, or summer term as set by the Board of Trustees, during which the student proposes to attend Cypress College.

Each person enrolled in, or applying for admission to, a California Community College is, for purposes of admission and/or tuition, classified as a “resident,” or a “non-resident.” If a student is classified as a resident, admission to the college will be accomplished without non-resident tuition. Students classified as non-residents will be required to pay tuition in an amount set by the governing board of the district of enrollment.

Generally, residency requires actual physical presence in California, coupled with an intent to become a resident. One’s state of mind is subjective; hence, it is necessary to look at objective indications of the student’s intent. Some examples of evidence that aid the college admissions officer in identifying that intent, but which are not individually decisive, are possession of a document of California origin such as a driver’s license, a receipt for registration to vote, a current lease, rental agreement, or rent receipt showing the student’s name and address and place of residence; a library card, state or federal income tax information, property ownership, or an active bank account. Any two or a combination of such examples gives some indication to the admissions officer of the student’s intent. Possession of the necessary intent, coupled with the durational requirement of one year, will satisfy the residency requirements, and the student may be classified as a resident student.

Unmarried minors (those under 18 years of age) are by law incapable of establishing their own residence notwithstanding their physical presence within California. An admissions officer will use the following guidelines for the determination of a minor applicant’s residence:

If both of the minor’s parents are living, the residence of the minor will be the residence of the parent with whom the minor is living or with whom the minor was last living. In cases where one parent is deceased, the minor’s residence will be that of the living parent. In cases of adoption or guardianship where neither natural parent is living, the residence of the adopting parent or the guardian is the residence of the minor.

A minor whose parents are not living and who does not have a legal guardian may establish an independent residence. However, a student who is a minor and has a parent living may not, by independent action, establish residence, nor will the appointment of guardian or the relinquishment of the parent’s right of control give that minor the ability to establish an independent residence.

Exceptions

If the student would otherwise be classified as a non-resident, but fits within one of the following exceptions, an exception classification may be granted until such classification is obtained.

The exceptions are:

- Minors who remain in California after their parents, who had previously lived within California, moved from the state prior to the resident determination date, and the
- minors continue full-time attendance at a tax-supported college in California, will retain resident classification.

- A student who is a minor and who has been self-supporting and in California for one year preceding the day before the term, will be granted resident classification if said self-support can be proven.

- A student who has not been an adult for more than one year prior to the resident determination date may add parental pre-18-years-of-age residence, if any, to the post-18-year residence to obtain durational requirement.

- A child or a spouse of a member of the armed forces stationed in California may be granted resident classification. A student who is a member of the armed forces not assigned to California for purposes of education will be entitled to resident classification until the one year necessary to establish residency has been spent in California.

- Adult aliens lawfully admitted for permanent residence and residents of California for one year after being granted permanent residency will be given resident classification. Minor aliens may use their parent’s durational presence to satisfy the one year requirement.

- A student holding a valid credential authorizing service in a public school and employed in a certificated position by a community college district will be given resident classification.

- A student who is an apprentice within the meaning of Section 3077 of the Labor Code is entitled to resident classification.

- Per the provisions of AB540, any student, other than a non-immigrant alien, who has attended a California high school for three or more years and graduated from a California high school may be exempt from non-resident tuition. Any alien student without lawful immigration status must file an affidavit stating that he/she has or will file to legalize his/her status. Students who qualify for this exemption are not eligible for state financial aid.

OUT-OF-STATE STUDENTS
Out-of-state applicants may be admitted to the college on the same basis as California residents except that they will be required to pay non-resident tuition prescribed by the Board of Trustees to partially cover the costs of instruction.

INTERNATIONAL STUDENTS
A limited number of international students may be admitted to Cypress College. An alien student must possess an F-1 student visa. The goal of the program for F-1 students is to provide educational opportunities so the International student will, upon completion of education and training, return to better serve the fellow citizens and country from which the student came. The following regulations govern the admission of visa students to Cypress College:

- The number of F-1 students admitted is limited to three percent of the day enrollment.

- F-1 students are required to pay a non-resident tuition and enrollment fee. This fee is determined by the Board
of Trustees each year and is due at the time of registration.

- Only persons who qualify for F-1 student visas are eligible for admission.

- Deadlines for the acceptance of applications from international students are June 1 for the fall semester and November 1 for the spring semester.

- The fee for the necessary special handling and processing of the application package of non-resident F-1 students is $25.00.

- The F-1 visa student is required to complete a full-time program (12 units or more) each semester of attendance. Failure to do so is reported to the Bureau of Citizenship and Immigration Services (BCIS) and the student may not be permitted to enroll for the next semester.

- Enrollment of F-1 students is limited to a maximum of six semesters.

- Criteria for acceptance of International Students:
  1. The applicant must possess knowledge of the English language sufficient to result in a Test of English as a Foreign Language (TOEFL) score of 500 or higher.

  2. The applicant must offer evidence of a degree of academic achievement the equivalent of an American high school education. The student must submit a transcript of an official school record accompanied by a notarized English translation. Evaluations of International transcripts and recommendations of The Country Index, The World Education Series of the American Association of Collegiate Registrars and Admissions Officers, or other sources.

  3. Applicant must offer evidence of financial responsibility.

  4. F-1 visa applicants who have attended other American schools or colleges may be considered for admission provided the applicant meets Cypress College admission requirements and can show proof of a valid immigration status with the Bureau of Citizenship and Immigration Services (BCIS). F-1 visa applicants who have completed two or more years of college will be advised to seek admission to an institution offering upper division courses.

  5. After the completion of the above requirements, the applicant will be considered for admission and will be notified of his/her acceptance or non-acceptance. If accepted, the applicant will also be sent an Immigration I-20 form and registration information.

  - The F-1 visa student shall be held to the same scholastic requirements and to the same college rules and regulations as other students.

  - F-1 visa students are required to purchase health insurance in the United States. Such insurance should include major medical coverage to protect the student against financial catastrophe. Students are required to provide proof of health insurance covering the full semester of current enrollment. Monthly or quarterly premiums are not acceptable.

  - F-1 visa students will be recommended for a work permit only in accordance with the rules and regulations established by the Bureau of Citizenship and Immigration Services (BCIS).

  - F-1 visa students will not be accepted for admission into any program when applications by qualified U.S. citizens exceed space available.

Exceptions to the international student regulations may be granted for extenuating circumstances by petition to the Dean of Admissions and Records.

**B-2 Visitor’s Visa**

Cypress College admits anyone who is in the United States on a visitor’s visa. Enrollment is limited to a maximum of six units, and the student is required to pay a non-resident tuition fee. (Note: This provision is currently under review under Federal statutes.)

**Permanent Visa**

Admissions requirements are the same as for United States citizens. Applicants must present their permanent visa cards at the time of application. Residency is based on one year from the date on the application for the visa or the permanent visa card, provided the individual has been residing in California for one year prior to instruction and can prove intent to make California his/her permanent residence.

**Other Visas**

Contact the Admissions and Records Office for further information.

**OPEN ENROLLMENT**

It is the policy of this district that every course, course section or class, wherever offered and conducted throughout the district, shall be fully open to enrollment and participation by any person who is eligible for admission to the college(s) and who meets such prerequisites as may be established pursuant to Chapter II, Division 2, Part IV, Title 5 of the California Administrative Code, commencing with Section 51900.

**Registration Procedures**

Registration is the process of becoming officially enrolled in college. At Cypress College, registration consists of the following steps:

1. **Filing an application in the Admissions and Records Office** - File a completed and signed application. Registration appointments are distributed on a first-come, first-served basis according to when an application is filed. All new and/or returning students must file an application for admission before they may register or add and drop classes. Deadline for applications for regular classes will be the 5th day of instruction after the start of the semester.

2. **Assessment** - Bring Basic Skills placement results from other college, or new students take the placement test listed in the Schedule of Classes.
3. Attending Counseling/Orientation - Attend the group counseling/orientation session for which an appointment is given after assessment. At this session students will receive help in preparing a class program for the semester.

4. Registration - Permits to Register which indicate the earliest date and time a student may register are mailed to new and returning students approximately three weeks before the first day of registration.

Continuing Students
Continuing students are those students who were registered in a class at Cypress or Fullerton College the previous semester long enough to receive a grade on a transcript. Continuing Students are given priority based on the number of units completed at Cypress and Fullerton College. The appointment date/time depends on the number of units/hours earned at Cypress and Fullerton Colleges.

New Students
New students are those who have never attended Cypress or Fullerton College. Registration priority is given in the order the Applications for Admission are received.

Returning Students
Returning students are those students who have previously attended Cypress or Fullerton College, but have not registered into a class during the previous semester. Registration priority is given in the order the Applications for Admission are received.

Priority registration is completed through WebStar and TeleStar. It is the simplest and most convenient method for registering into classes. Specific registration information is available in the current Schedule of Classes.

Late Registration
Students who did not enroll or obtain all their classes during regular registration may obtain classes during late registration. During the first five days of instruction, (excluding summer session) students may add open classes without instructor permission. However, closed classes must be petitioned with the instructor.

During the sixth day to the tenth day of instruction, all classes (except late start) must be petitioned.

Throughout the registration process (including class petitioning) certain deadlines must be established. These deadlines are necessary in order to comply with state attendance laws and must be followed by all students. Failure to comply with these deadlines may mean that the student will not be registered and will not receive credit for, or be allowed to attend classes.

Students must fulfill prerequisites as listed in the catalog and the schedule of classes. It is a student’s responsibility to meet class prerequisites, corequisites, and advisories. Verification of prerequisites completion will be checked at the first class meeting.

Admission to Cypress College is governed by the laws of the State and such supplementary regulations as have been prescribed by the Board of Trustees.

Fees
While all efforts have been made to present complete and accurate fee information, uncertainties in state funding may result in fee changes for the 2003-2004 academic year.

ASSOCIATED STUDENT BENEFITS CARD
There are many reasons for students to join the Advantage Services Card Program at Cypress College. For a cost of only $7.00, the card can be used at many businesses. Students who are Associated Student members are encouraged to utilize all the benefits, privileges and services to which they are entitled. Associated Student cardholders are entitled to a limited 10% discount at the Cypress College Bookstore. A portion of each card sale goes for grants to campus programs including fine arts, athletics, journalism, the Doorways to Discovery Workshop Series, Children’s Center programs, campus clubs, guest speakers and entertainers. Each cardholder is entitled to vote in Associated Student campus elections. For information on the Associated Student Benefits Card, visit the Student Activities Office, piazza level, Gymnasium II, or call (714) 484-7198.

CAMPUS ID CARD
Students are strongly encouraged to purchase a Campus Photo I.D. card. Students pay a $2.50 service fee at the time of registration and receive a validation sticker upon payment of the fee. New and returning students may obtain a Campus Photo I.D. card upon presentation of a valid photo I.D. and their Schedule/Bill showing proof of payment of the fee. Continuing students can just place the validation sticker on their existing Campus Photo I.D. card. The Campus Photo I.D. card includes the student’s photo, signature, permanent number and a scanable bar code. The Campus Photo I.D. card is required for the following services: (1) all campus labs, (2) check or credit card purchases in the Bookstore, (3) Library, Financial Aid, Bursar’s Office, and Student Affairs. Cards not picked up by the end of the last day of the semester will be voided.

ENROLLMENT FEES
All students, residents and non-residents must pay the enrollment fee of $11.00 per unit ($5.50 per ¼ unit). However, the enrollment fee may vary, should the state legislature take action to change it.

GRADUATION & CERTIFICATE APPLICATION FEE
There is no fee required for graduation and certificate applications. Contact the Graduation Department of the Admissions and Records Office for further information.

HEALTH FEE
Pursuant to Education Code and district policy, Cypress College has a mandatory health fee. The health fee is $12.00 per semester ($9.00 for summer intersession) for each student regardless of the number of units taken.

Any student who depends exclusively on prayer for healing in accordance with the teachings of a bona-fide religious sect, denomination or organization, and students identified by the Financial Aid Office as qualifying for exemption under Education Code Section 72252.1 are exempt from paying the health fee. Upon request, the health fee will be refunded.
to any student who withdraws from all courses prior to the 10% date of the length of the course.

NON-RESIDENT TUITION
Non-residents of the state of California are charged tuition at $149 per unit. Citizens and residents of a foreign country are charged an additional $20.00 per unit capital outlay fee as provided in Educational Code Section 76141. Non-resident tuition is in addition to the enrollment fee required to be paid by all students. If you believe you should be reclassified as a resident student, it is the student's responsibility to request reclassification at the Admissions and Records Office prior to registering.

PARKING
Students who choose to use the campus parking lots are required to pay a parking fee, the amount of which is determined each year on the basis of parking needs. The parking hanger authorizes students to use any of the seven parking lots open to student parking and designated student parking on Circle Drive, as well as designated student parking at Fullerton College. The parking hanger does not guarantee a parking space, but will permit parking in designated spaces at both colleges. Revenue from parking fees is used exclusively to offset costs of campus parking.

REFUNDS
Enrollment fees, non-resident tuition fees, health fees and lab fees are fully refundable if withdrawal from classes is processed on, or before the end of the second week of classes. (See current semester schedule for exact dates). Refunds must be requested during the semester of attendance. After the second week, there will be no refunds for withdrawal. The same fees for Short Term classes are refundable if the student withdraws from class by the 10% date of the length of the course.

REFUND PROCESSING FEE
A refund processing fee of $10.00 per semester will be deducted from the enrollment fee refunds. The fee will be waived for students who are administratively dropped from class(es) due to cancellation of class(es), student disqualification or course repetition.

STUDENT REPRESENTATION FEE
All students are urged to pay this $1.00 fee. This fee will be used so that students may represent students’ views and positions at city, county, and district governments as well as state legislative offices and other governmental agencies.

TRANSCRIPT FEES
The first two copies of the student transcript are free and a $3.00 fee per transcript is levied thereafter. (NOTE: Fee is subject to change at any time.)

VERIFICATION OF ENROLLMENT
There is a charge of $3.00 for any verification of enrollment. These verifications may request Academic Standing, number of units carried at Cypress College, awarded degrees/certificates and/or dates of attendance. (NOTE: Fee is subject to change at any time.)

VERIFICATION OF ENROLLMENT
There is a charge of $3.00 for any verification of enrollment. These verifications may request Academic Standing, number of units carried at Cypress College, awarded degrees/certificates and/or dates of attendance. (NOTE: Fee is subject to change at any time.)

Academic Policies

ACADEMIC HONESTY
Students are expected to abide by ethical standards in preparing and presenting material which demonstrates their level of knowledge and which is used to determine grades. Such standards are founded on basic concepts of integrity and honesty. These include, but are not limited to the following areas:

1) Students shall not plagiarize, which is defined as stealing or passing off as one's own ideas or words of another and as using a creative production without crediting the source. The following cases are examples of what constitutes plagiarism:
   - paraphrasing published material without acknowledging the source.
   - making significant use of an idea or a particular arrangement of ideas, e.g., outlines.
   - writing a paper after consulting with persons who provide suitable ideas and incorporating these ideas into the paper without acknowledging the debt.
   - submitting under one's own name, term papers or other reports which have been prepared by others.

2) Students shall not cheat, which is defined as using notes, aids, or the help of other students on tests or exams in ways other than those expressly permitted by the instructor; and as misreporting or altering the data in laboratory or research projects involving the collection of data.

3) Students shall not submit an original paper or project to more than one class without approval from the second instructor. Instructors who do not accept previously submitted papers should so inform the students in the course syllabus.

4) Students shall not furnish materials or information in order to enable another student to plagiarize or cheat.

An instructor who has evidence that an act of academic dishonesty has occurred, after speaking with the student, is obligated to take the following steps:

1) Assign an appropriate academic penalty such as an oral reprimand (as in cases where there is reasonable doubt that the student knew that the action violated the standards of honesty); or assign an “F” on all or part of a particular paper, project, or exam (for example, where there was proof that it was a one-time occurrence). In cases where an “F” was assigned, report the incident to all appropriate personnel. (See Step 3).

2) In cases where the dishonesty was serious, premeditated, or part of an ongoing scheme, request an ad hoc review board made up of at least three faculty from the department or division of the instructor involved. This review board is to be appointed by the Academic Senate President or his/her delegate in consultation with the department coordinator, or if none is in place, with the members of the department. Supply to the review board the documents which are suspect and any other documents completed by the student which might help determine if academic dishonesty occurred. It would then be the responsibility of the review board to determine academic penalties as appropriate.
3) Report to the student involved, to the department coordinator, to the Division Dean, and to the Dean of Counseling and Student Development, the alleged incident of academic dishonesty, including relevant documentation, and recommendations for action that he or she deems appropriate.

4) The appropriate Division Dean shall maintain an academic dishonesty file of all cases of academic dishonesty with the appropriate documentation.

5) Students shall be informed when their names are inserted into the file and provided with copies of any appeals or disciplinary procedures in which they may become involved. The appropriate Division Dean may initiate disciplinary proceedings under Education Code, Article 3, Section 76030-76037: when two or more incidents involving the same student occur, he/she shall do so.

6) Students charged with violations resulting in disciplinary action have the right to appeal the findings to the Petitions Committee under the Rules and Procedures of Due Process.

**ACADEMIC HONORS**

**DEAN’S HONOR ROLL**
Those students who officially complete (as shown on their transcript) 12 or more units in letter grade courses in a semester and earn a grade point average between 3.0 and 3.74 are placed on the Dean’s Honor Roll.

**PRESIDENT’S HONOR ROLL**
Those students who officially complete (as shown on their transcript) 12 or more units in letter grade courses in a semester and earn a grade point average of 3.75 or above are placed on the President’s Honor Roll.

**ACADEMIC DISTINCTION**
Graduates with an accumulated GPA of 3.75 to 4.0 are graduated with Academic Distinction, and their diplomas are so noted.

**ALPHA GAMMA SIGMA HONOR SOCIETY**
Alpha Gamma Sigma (AGS) is the California state wide community college Honor Society which, according to our constitution, has the purpose of fostering, promoting, maintaining, and recognizing scholarship. While being of service to AGS, the college and the community, members will be able to develop civil mindedness, and leadership characteristics which will be useful throughout their lives. Students will also be able to attend chapter events, on-campus activities, and regional and state conferences with students from other colleges.

The Greek Letters in our name were selected because they are the initials from Greek words the mean Excellence, Knowledge, and Wisdom. Sigma Psi is the Cypress College chapter. We not only acknowledge our members as outstanding scholars, but also as humanitarians who devote their time to help our campus and our community.

Eligibility requirements
To be eligible for member in AGS you must meet either one of the following requirements:

1. Temporary Membership: You are a first semester college student and you are a life member of the California Scholarship Federation (CSF), or you graduated from high school with a cumulative GPA of 3.5 or higher.

2. Initial/Continuing Membership: You are a continuing college student who has completed at least 12 semester units with a cumulative GPA of 3.0 or higher.

**HONORS AT ENTRANCE**
A High School graduate entering Cypress College as a first time college student may qualify for “Honors at Entrance” by having earned a 3.5 GPA in high school, physical education grades excluded. The High School transcript must be on file in the Admissions and Records Office. This achievement will be indicated on the college transcript. Application to have this done should be made in the Admissions and Records Office during the student’s first semester of attendance.

**HONORS PROGRAM**
The Cypress College Honors Program is designed to encourage talent and ability in highly motivated students as they begin their academic studies and prepare to transfer to a four-year college or university. Students who complete the Honors Program and meet all major transfer requirements will have priority consideration for admission to specific four-year institutions.

Classes are taught by faculty interested in enriching the students’ academic experience with special projects, readings and class activities. The Program provides a unique, seminar environment with close academic and social interaction with outstanding faculty and other highly motivated honors students. Guest speakers, cultural events and field trips enhance the challenging and creative learning experience.

The Transfer Alliances
Cypress College is a member of the Honors Transfer Council of California. This group has established transfer alliance agreements with four-year colleges and universities.

Requirements for Entrance
- Minimum 3.25 GPA in high school course work or a minimum of 3.0 GPA in 6 units of college course work, verified by transcripts.
- Eligibility for ENGL 100 C.
- Completion of the Honors Transfer Program application.

To Continue in the Program
- Achieve grades of “C” or higher in all Honors classes.
- Maintain a minimum 3.0 GPA in all Cypress College course work.
- Complete a minimum of one Honors Course each semester.
- Complete COUN 160HC Honors College/University Transition and INDS 120HC Honors Theme.

To Complete the Program
- Complete six (6) Honors designated classes for a minimum eighteen (18) units.
- Complete the requirements necessary to be accepted by the transfer school in your major.
- Complete two extracurricular activities and a Service Learning component each semester.

Benefits for Students while Enrolled
- Increased Scholarship opportunities.
- Small classes with a seminar environment.
- Special counseling and advisement with the Honors Program Director and Honors Counselor.
- Library privileges at transfer colleges and universities.
- Invitation to special Honors Forums, seminars and social events.
- Membership opportunities with Alpha Gamma Sigma Honors Society.

Benefits of Completion of the Program
- Priority consideration for admission at the junior level to selected four-year colleges and universities.
- Special recognition at Commencement.
- Honors notation on the diploma and transcripts.

Applying to the Program
- Submit an application to the Honors Program Office. Applications are available in the class schedule, in the Transfer Center, or online at www.CypressCollege.edu/languagearts/honors/honors.html.
- Submit a current transcript and proof of eligibility for English 100 C.

Honors Program Office is located in the Transfer Center Fine Arts Building, First Floor, Room 100
(714) 484-7129 www.CypressCollege.edu

ACADEMIC RENEWAL POLICY
Cypress College is committed to meeting the educational needs of the community. Open entry encourages students of varied educational backgrounds to pursue their individual goals. Cypress College’s commitment to all students increases the likelihood of enrolling those who have failed in the past but who have shown their readiness to try again. To reduce the negative impact of past academic failure and to facilitate fair and equitable treatment of all students in pursuit of their academic goals, Cypress College supports Academic Renewal.

The function of Academic Renewal is to alleviate a student’s previously recorded substandard academic performance when such work does not reflect current demonstrated ability. As a consequence, Academic Renewal may gain for the student the benefits of his/her current level of ability and performance and not permanently penalize him/her for poor performance in the past. Academic Renewal encourages the student to continue efforts toward educational objectives when the weight of previously recorded substandard work would otherwise make the achievement of those objectives unlikely or unbearably burdensome. The regulations and procedures for course alleviation are:

- The student must submit a written application to the Admissions and Records Office for presentation to the Petitions Committee. This application should include transcripts showing previous substandard work (less than “C” or equivalent) which is to be disregarded.

- A maximum of twenty-four (24) semester units of substandard work taken during two (2) semesters, may be alleviated. This work will be disregarded in the computation of cumulative grade point average and in total unit credit. At least two calendar years must have elapsed since the most recent course work to be disregarded was completed.

- Since completion of the most recent course to be disregarded, the student must have subsequently completed, at any regionally accredited college or university, course work which amounts to at least fifteen (15) units at a minimum GPA of 3.0 or thirty (30) units at a minimum GPA of 2.0.

- A student may request academic renewal only once.

- Academic renewal by Cypress College does not guarantee that other institutions outside the North Orange County Community College District will accept such action. This determination will be made by the respective transfer institutions.

- Upon granting the petition of Academic Renewal, the student’s Cypress College permanent record shall be adjusted and annotated in such a manner that all work remains legible, ensuring a true and complete academic history. Cypress College cannot, however, line through or adjust and annotated in such a manner that all work remains legible, ensuring a true and complete academic history. Cypress College cannot, however, line through or annotate the permanent records of any other institution.

- The Admissions and Records Office shall maintain a record of action taken under Academic Renewal.
ADVANCED PLACEMENT CREDIT
A student who has attained a minimum score of “3” on College Board Advanced Placement Examinations will receive credit for those courses that are deemed equivalent to the courses offered by Cypress College. It is the student’s responsibility to petition for credit through the Admissions and Records Office. In that several universities require a minimum score of “4” or “5” in order to receive subject credit, it is strongly recommended that the student discuss the applicability of AP credit with a counselor prior to submitting the petition to the Admissions and Records Office.

ATTENDANCE
ATTENDANCE AT FIRST CLASS MEETING
It is very important that students attend the first class meeting of every class in which they are registered, since a full period of instruction will begin the first day of the semester. Instructors may drop students who do not appear for the first class meeting in order to make room for others who are present and want to take the class.

ABSENCES
Absences are handled as follows:

• After a student accumulates in any class more than a week’s absences (more than the number of times the class meets per week), consecutive or nonconsecutive, an instructor may file an Add/Drop Form in the Records Office requesting the student be dropped from class. When this request is approved by the Records Office, the instructor will be notified and the student will be dropped from the class.

• A student who must miss one or more classes because of a field trip or other authorized activity, such as athletics or music groups, will be issued an Authorized Absence Excuse (available in each division office) by the instructor under whose supervision the activity will occur. The student shall have this excuse signed by the instructors of the classes that will be missed before the absence occurs. It is recommended that these transactions be carried out at least two days before the activity. The signed excuse must be presented to the instructor in charge of the activity, who shall in turn file it with the Admissions Office upon the conclusion of the activity.

• No absence excuses a student from making up class work missed. Students should realize that undue absences may adversely affect their grades.

• In the event a student is absent for a prolonged period of time it is expected that contact will be made with the respective instructors immediately to advise the instructor of this absence and the reasons behind it. The instructor may then decide whether or not the student may continue in the class or withdraw. It should be noted that failure to make this contact and follow through with the decisions made at this time could result in the student receiving a grade of “F” in the class.

STUDENT RESPONSIBILITY
While an instructor may drop a student who has poor attendance, it is the student’s responsibility to officially drop. The student may drop a class either by calling TeleSTAR or logging on to WebSTAR during operating hours, or in person by submitting an Add/Drop form to the Admissions and Records Office during regular business hours. Failure to officially withdraw from a class can result in a grade of “F” or “NC” being assigned.

AUDITING
Enrolled students who wish to audit a class must file a petition in the Admissions and Records Office. Auditing is available for students who have successfully completed the class for credit. Upon consultation with the instructor and the Division Dean of the division involved, Admissions and Records may approve the petition under certain circumstances. For additional information, contact the Admissions and Records Office.

CALIFORNIA ARTICULATION NUMBER (CAN) CODES
The California Articulation Number (CAN) System is a statewide numbering system independent from course numbers assigned by local colleges. A CAN number signals that participating California colleges and universities have determined that courses offered by other campuses are equivalent in content and scope to courses offered on their own campuses, regardless of their unique titles or local identifying numbers. Thus, if a schedule of classes or catalog lists a course bearing a CAN number, students on one campus can be assured that it will be accepted in lieu of the comparable CAN course noted in the catalog or schedule of classes of another campus. For example, CAN ECON 2 on one campus will be accepted as meeting the requirement of the designated CAN ECON 2 course on other participating community college or university campuses.

The CAN numbering system is useful for students attending more than one community college and is applied to many of the transferable, lower division courses students need as preparation for their intended major. Because these course requirements may change, however, and because courses are continually being redefined, qualified for or deleted from the CAN database, students should always check with their counselors, articulation officer, or the transfer center director to determine how CAN-designated courses fit into their educational plans for transfer.

Students should consult the ASSIST database at www.assist.org for specific information on course agreements. The counselors and Transfer Center staff can help students interpret this information.

Following is a list of courses offered by Cypress College that have been CAN qualified at the time of publication. The CAN designators are also listed under the individual course titles in the catalog and the class schedule.

**CATALOG RIGHTS**

Students who have maintained continuous enrollment have the option of completing the program requirements in effect at the time they first enrolled at Cypress College or any subsequent catalog year up to and including the last semester of attendance in which the program requirements were completed. This policy supersedes all previous catalogs. This policy only applies to programs completed at Cypress College.

**CHALLENGING PREREQUISITES, COREQUISITES, OR OTHER LIMITATIONS ON ENROLLMENT**

Grounds for Challenge

Where a student is denied enrollment in a program or course on the grounds that the student does not meet a prerequisite or corequisite, or on the basis of other limitations on enrollment, the student may challenge such prerequisite, corequisite or limitation on one or more of the following grounds:

1. The prerequisite, corequisite or other limitation on enrollment has not been established in accordance with the district’s process for establishing prerequisites, corequisites, and other limitations on enrollment.
2. The prerequisite, corequisite or other limitation on enrollment is either unlawfully discriminatory or is being applied in an unlawfully discriminatory manner.

3. The basis upon which the district has established an enrollment limitation does not in fact exist.

4. The student has the knowledge or ability to succeed in the course or program despite not meeting the prerequisite or corequisite.

5. The student will be subject to undue delay in attaining the goal of his or her educational plan because the prerequisite or corequisite course has not been made reasonably available by the college.

Burden of Proof
The student shall bear the burden of proof in demonstrating that grounds exist for the challenge.

1. In the case of a challenge under Grounds for Challenge number 4, the student shall provide evidence of knowledge and/or skills, by virtue of placement/assessment testing, academic coursework, independent learning, experience, or a combination of these which are at least equivalent to the knowledge and/or skills the student would have possessed had he or she successfully completed the prerequisite or corequisite.

2. In the case of a challenge under Grounds for Challenge number 5, the student shall provide evidence that the student has declared a broad educational intent or specific educational goal and has developed a Student Educational Plan in conformity with the provisions of Section 55530(d) of Subchapter 6 of Chapter 6 of Division 6 of Title 5 of the California Code of Regulations.

Challenge Procedure
Filing of Challenge:
1. A challenge with respect to any prerequisite, corequisite or limitation on enrollment initiated pursuant to this policy shall be made upon the appropriate challenge form, which may be obtained from a counselor or the Office of Instruction.

2. The completed challenge form must be filed with the Office of Instruction in accordance with the following deadlines:
   a. for the Fall term, not earlier than Friday of the fifteenth week of the Spring semester and not later than the first day of instruction for the Fall semester;
   b. for the Spring term, not earlier than Friday of the twelfth week of the Fall semester and not later than the first day of instruction for the Spring Semester.
   c. for the Summer intersession, not earlier than the first Monday in May and not later than the first day of final examinations for the Spring semester.

3. In the case of a challenge under Grounds for Challenge number 4, the completed challenge form must be accompanied by appropriate evidence of skill or accomplishment such as placement/assessment results, transcripts from an accredited institution or appropriate foreign institution, work-related experience, or other evidence of relevant experience. To warrant consideration, any such evidence shall be of a clear and reliable nature.

CHANGE OF NAME OR ADDRESS
A student wishing to change his/her name on their official college record, must fill out a name change form at the Admissions and Records Office. Students who wish to file a change of address should file the appropriate form at the Admissions and Records Office as soon as possible. Picture identification is required. E-mail addresses can be updated by accessing www.CypressCollege.edu.

CLASS CANCELLATIONS
Cypress College reserves the right to cancel any class for which enrollment is not sufficient to warrant continuation, and to change the class hours and/or days as necessity demands.

CLASS TRANSFERS
A student may change from one section to another of an identical course with the same or different instructors provided the instructors approve. The change may take place at the same or different level in the same subject area at any time during the semester up through the 14th week, provided both instructors approve. The class must be of like duration, i.e., exactly the same length.

CLASSIFICATION OF STUDENTS
Students are classified as follows:
- Full-time: Enrolled in 12 or more units
- Part-time: Enrolled in fewer than 12 units
- Freshman: Fewer than 30 units completed
- Sophomore: 30 or more units completed

COMPUTING RESOURCES
ACCEPTABLE USE POLICY
PURPOSE: The purpose of this document is to explain the terms of use for instructional computing resources available to students of Cypress College. All computing resources are intended to support the research and educational mission of Cypress College; their use is a privilege and a responsibility. The use of computing resources is subject to all applicable local, state and federal laws, the general guidelines outlined in this document, and any specific guidelines in effect at individual campus computing centers. The district “Acceptable Use/Computer and Electronic Communication Systems” policy can be found at http://www.nocccd.cc.ca.us/10009.pdf.

DEFINITION: As used in this document, computing resources include (but are not limited to): Enterprise server terminals, personal computers, local area networks (LANs), wide area networks (WANs), printers, CD-ROM drives, cables, connections, software applications such as word processing, database and spreadsheet programs, library catalogs, full-text databases, telecommunications packages, all Internet resources and services, and all other computer equipment and software.

CAMPUS COMPUTING CENTERS: Individual computing centers maintain their own specific policies regarding the use of their resources. Users of individual computing centers are to follow these policies. Computing centers are
authorized to enforce both the campus Acceptable Use Policy and their own individual policies. Users who establish individual computer accounts for use of Internet e-mail or other applications will be required to sign an agreement to abide by the policies of the computing center issuing those accounts.

ENFORCEMENT: The acceptable use policy is intended to establish and declare the personal responsibility of every individual who uses any computing resource at Cypress College. By making this policy public and available to all users of computing resources on the campus, Cypress College and its designated representatives reserve the right to deny any or all computing privileges from any individual who refuses to follow the guidelines for responsible computing use. Cypress College also reserves the right to limit, restrict, or deny access to any and all computing resources as the individual situation may require.

GENERAL GUIDELINES: The following guidelines are to be followed by every individual who makes use of computing resources at Cypress College:

The use of computing resources and any resources accessed by them is for the instructional purposes of Cypress College. Individual computing centers reserve the right to restrict activities such as personal e-mail or games when instructional needs require the computing resources.

No tampering with the computing resources. This includes but is not limited to: connecting or disconnecting computer equipment, unauthorized loading of software on a computer, or otherwise altering the set-up of any computer or network of computers in any way.

No illegal use of computing resources. This includes but is not limited to: loading virus programs onto or from any computer system, using the Internet or other telecommunication-based resources to transfer illegal materials or unauthorized versions of copyrighted material, using the Internet to harass, terrorize, blackmail, defraud, or otherwise abuse another person, or using any computing resource in such a manner that it constitutes the breaking of a District or campus policy, or a local, state or federal law.

No use of computing resources for financial or political gain. This includes but is not limited to: sending “chain letters” or other unauthorized and illegal correspondence, advertising, marketing or selling of products, and campaigning for any political cause or individual.

No violation of other individuals’ privacy or rights. This includes but is not limited to: accessing another person’s account or any data stored and used by that person, sharing another person’s private correspondence with others, destroying or modifying data that belongs to someone else, or sending offensive messages of any kind.

Observe all regulations and rules of the individual computing centers. This includes but is not limited to: observing hours of operation, maintaining a reasonable level of quiet in order for others to work, and following all that center’s policies regarding food and beverage use, time limits, printing and downloading, and any other terms of use.

Failure to follow these guidelines may result in disciplinary action on the part of Cypress College and any of its designated representatives (including individual computing centers). Such action may include: restriction or suspension of computing privileges at any or all individual campus computing centers suspension of other campus privileges, including registration and enrollment, and notification of law enforcement officials.

CONTINUOUS ENROLLMENT
Continuous enrollment is defined as attendance in a course for at least one semester in an academic year culminating in the assignment of one of the following grades on the transcript: A-B-C-D-F-CR-NCR-W-I.

COURSE DOUBLE COUNTING
Students will be able to double count courses but not units of credit, to meet major and/or general education graduation requirements.

COURSE NUMBERING
Courses completed at Cypress College will transfer to other community colleges. Courses numbered 001 C-099 C are remedial, occupational and/or technical and designed in content and organization for students who do not intend to transfer for the Bachelor’s degree. Courses numbered from 100 C-299 C have been certified by Cypress College as being of baccalaureate level for the 2002-2003 school year and as such are transferable to any campus of the California State University system. The transfer institution, however, will determine the extent to which a course satisfies the requirements of a particular degree program. Credit not otherwise applied shall be acceptable as general electives to the extent that the particular degree objective permits. Students who plan to transfer to any campus of the University of California or other university or college should check with a counselor for transferable courses since some universities do not accept all courses numbered 100 C-299 C. All lower division courses numbered 001 C-299 C, excluding courses indicated as non-degree, are appropriate for the Associate degree.

COURSE PROGRESSION
Students are expected to take courses on an accepted progressive basis. Students will not receive credit for classes which are considered lower in degree of advancement than those already taken.

COURSE REPEAT ADJUSTMENT
In the case of a legally repeated course in which a student previously received a “D” or “F” grade at Cypress College, the original grade and grade points will be excluded from the grade point average ONLY upon request by the student. Grade Replacement Cards, which can be obtained in the Admissions and Records Office, must be filed by the student. Student records will be adjusted to reflect the subtraction of units attempted, units completed, grade points and change in GPA.

If approved, the student’s Cypress College permanent record shall be annotated in such a manner that all course work remains legible; however, Cypress College does not line through or annotate the permanent records of any other institution.
COURSE REPEITION
A course may not be repeated more than the approved number of times. A course in which the student has earned a grade of D, F, or NCR may be repeated only once. Performance or activity type classes may be repeated, but only for the designated number of times specified in the course description.

A course in which a grade of A, B, C, CR, or I has been earned may not be repeated, except for special circumstances which require the student to obtain approval through the college’s petitioning process. Petition forms may be obtained through the Admissions and Records Office.

CREDIT BY EXAMINATION
The basic purpose of Credit by Examination is to allow unit credit for prior or advanced knowledge of class material by the student. Currently enrolled students may be permitted to obtain Credit by Examination in subject matter fields in which they are especially qualified through previous training or experience for which credit or advanced placement has not previously been given. Examinations will be sufficiently comprehensive to determine that the student has essentially the same knowledge and skills as a student who successfully completes the course.

It is hoped that students will take advantage of this opportunity in order to enroll in more advanced courses in the subjects challenged. Credit by Examination is not intended for cases such as the following: a make-up examination for courses not completed and/or courses taken in high school. The student should contact the Dean of the appropriate division prior to the 9th week to initiate the process.

Except in extenuating circumstances, Credit by Examination and Proficiency Examinations may be taken only by students enrolled in the College. Only one challenge is allowed for each course, and a maximum of 12 units will be granted via Credit by Examination. Students may take a Challenge Examination if their Credit by Examination Petition is approved.

- Completed petitions will be received until the 9th week of each semester. Examinations will normally be administered during the 13th and 14th weeks only. Specific arrangements as to day and hour to be arranged with instructor.
- Criteria for petition approval will be determined by the appropriate division. General guidelines will include evidence of previous learning experience, evidence to indicate probable success in the examination, and future enrollment plans.
- Appeals on denial of student petition will be brought to the Petitions Committee at the student’s request. The Academic Divisions will determine which courses are eligible for challenge. Examination content and grade standards will also be determined by division faculty.

In instructor-administered examinations, results will be announced within two weeks after the examination week. The symbols Credit/No Credit will be applied. The student has the option to accept or refuse the symbol received via examination. If accepted by the student, the Credit by Examination symbol will be recorded (Credit and unit value) upon the student’s permanent record at Cypress College. A notation will be made on the transcript indicating the credit was obtained by Credit by Examination.

Some of these courses may be taken for letter grade. For courses which may be taken for a letter grade, students who plan to transfer to a four-year institution should not choose the Credit/No Credit grading option. Many transfer institutions will not accept Credit/No Credit graded courses to be applied toward major, minor and general education requirements. Students should check the catalog of the transfer institution and see their counselor for further information. There is a current rate per unit fee for taking the challenge examination.

The following courses may be challenged by examination:

16 / Academic Policies
CREDIT EARNED 
DURING MILITARY SERVICE
This institution will conduct an evaluation of all previous education and training for veterans and eligible persons certified for VA educational benefits. Appropriate credit will be granted and the VA and student will be notified accordingly. All other veterans may request military service credit upon completion of 40 units, including at least 12 units at Cypress College. Those with an average grade of "C" or higher may petition for military credit (the semester graduation requirements are completed) by submitting the DD214 (discharge documents) for evaluation along with other documents and transcripts representing completion of military training and/or completion of United States Armed Forces Institute (USAFI) courses in military-in-service training. All materials must be submitted to the Admissions and Records Office for evaluation. All credit for experience in the military service and courses completed in the USAFI will be allowed only as recommended by the American Council of Education. The awarded credit will be posted to the transcript upon graduation from Cypress College.

CREDIT/NO CREDIT GRADING
Students may choose to enroll in 6 units each semester on a Credit/No Credit basis. This option was designed to encourage students to explore courses in areas where they feel they have an interest but no special competence. Some of these courses may be taken for a letter grade. For such courses, students who plan to transfer to a four-year institution should not choose the Credit/No Credit grading option. Many transfer institutions will not accept Credit/No Credit graded courses to be applied toward major, minor and general education requirements. Check the catalog of the transfer institution. See the catalog of transfer institution and training for veterans and eligible persons certified for VA educational benefits. Appropriate credit will be granted and the VA and student will be notified accordingly. All other veterans may request military service credit upon completion of 40 units, including at least 12 units at Cypress College. Those with an average grade of "C" or higher may petition for military credit (the semester graduation requirements are completed) by submitting the DD214 (discharge documents) for evaluation along with other documents and transcripts representing completion of military training and/or completion of United States Armed Forces Institute (USAFI) courses in military-in-service training. All materials must be submitted to the Admissions and Records Office for evaluation. All credit for experience in the military service and courses completed in the USAFI will be allowed only as recommended by the American Council of Education. The awarded credit will be posted to the transcript upon graduation from Cypress College.

The following courses will be offered only on a Credit/No Credit basis:

EXAMINATIONS
Class instruction includes frequent examinations throughout the semester so that students can judge their progress. Final examinations are given in all courses during the last week of each semester. The final examination is a requirement for each course. All students must take these examinations at the scheduled time and place. Any exceptions to the above policy will be made only after consultation with the Division Dean.

GRADE CHANGE
Any change in a grade given by an instructor shall be subject to the Education Code Section 76224 (a): When grades are given for any course taught in a community college district, the grade given to each student shall be the grade determined by the instructor of the course and the determination of the student's grade by the instructor, in the absence of mistake, fraud, bad faith, or incompetency, shall be final.

Students having a grievance relative to a grade received from an instructor should follow procedures detailed under Petitions in this catalog; however, the student should be aware that no grade change will be made after five years from the date of the assignment of the grade. When a grade given in error has been corrected, the incorrect grade shall be expunged from the student's permanent record.

GRADE REPORTS
Students can access grades using the WebStar or TeleStar System. Grades are generally available three weeks after the end of the semester. However, the exact dates grades will be available are published in the Schedule of Classes.

GRADES AND GRADE POINT AVERAGE
Grades are based upon the quality of work completed; i.e., upon actual accomplishment in courses offered for credit. The GPA is computed by dividing all GPA hours/units into quality points received. The meaning of each symbol and its value in quality points is as follows:

<table>
<thead>
<tr>
<th>Grade</th>
<th>Description</th>
<th>Quality Points</th>
</tr>
</thead>
<tbody>
<tr>
<td>A</td>
<td>Superior or Excellent — (4 quality points). Honor grade indicating excellence earned as a result of consistently superior examination scores; consistently accurate and prompt completion of assignments; ability to deal resourcefully with abstract ideas; superior mastery of pertinent skills; and promise of success in field relating to the subject.</td>
<td>4</td>
</tr>
<tr>
<td>B</td>
<td>Better than Average — Good (3 quality points). Honor grade indicating competence earned as a result of high examination scores; accurate and prompt completion of assignments; ability to deal well with abstract ideas; commendable mastery of pertinent skills; and promise of continued success in sequential courses.</td>
<td>3</td>
</tr>
<tr>
<td>C</td>
<td>Average — Satisfactory (2 quality points). Standard college grade indicating successful performance earned as a result of satisfactory examination scores; generally accurate and prompt completion of assignments; ability to deal with abstract ideas; average mastery of pertinent skills; and sufficient evidence of ability to warrant entering sequential courses.</td>
<td>2</td>
</tr>
<tr>
<td>D</td>
<td>Passing — (1 quality point). Substandard grade indicating the meeting of minimum requirements only earned as a result of low examination scores; generally inaccurate, incomplete or late assignments; inadequate grasp of abstract ideas; barely acceptable mastery of pertinent skills; or insufficient evidence of ability to make advisable enrollment in sequential courses.</td>
<td>1</td>
</tr>
<tr>
<td>F</td>
<td>Failing — (no quality points). Non-passing grade indicating failure to meet minimum requirements earned as a result of non-passing examination scores; inaccurate, incomplete or late assignments; failure to cope with abstract ideas; inadequate mastery of pertinent skills; or repeated absence from class.</td>
<td>0</td>
</tr>
<tr>
<td>I</td>
<td>Incomplete — (no quality points, no GPA units). Incomplete academic work for unforeseeable, emergency and justifiable reasons at the end of the term may result in an I symbol being entered in the student's record. The condition for removal of the I shall be stated by the instructor in a written record. This record shall contain the conditions for removal of the I and the grade assigned in lieu of its removal. This record must be given to the student with a copy on file with the Registrar until the I is made up or the time limit has passed. A final grade shall be assigned when the work stipulated has been completed and evaluated, or when the time limit for completing the work has passed. The I may be made up no later than one semester following the end of the term in which it was assigned. Under unusual circumstances a student may petition for a time extension. An incomplete grade must be changed to a letter grade before it can be repeated.</td>
<td></td>
</tr>
<tr>
<td>IP</td>
<td>In progress — (no quality points, no GPA units). If a student making satisfactory progress in an open entry course has not finished a course at the end of a semester, the student shall be given an &quot;IP&quot; which indicates the student is in progress of completing the course. The student must re-enroll in the course if the student wished to continue working in that course.</td>
<td></td>
</tr>
<tr>
<td>RD</td>
<td>Report Delayed — (no quality points, no GPA units). The RD symbol may be assigned by the Registrar only. It is to be used when there is a delay in reporting the grade of a student due to circumstances beyond the control of the student. It is a temporary notation to be replaced by a permanent symbol as soon as possible RD shall not be used in calculating a GPA.</td>
<td></td>
</tr>
<tr>
<td>W</td>
<td>Withdrawal — (no grade points, no units attempted, no units completed). A “W” is a grade indicated when the student has withdrawn from college or dropped from a class section prior to the 14th week of a semester. The grade indicates the course has been cancelled from the student’s program of study without credit and is not included in the GPA computation. (See Withdrawal Policy)</td>
<td></td>
</tr>
</tbody>
</table>
**Cypress College 2003-2004**

| CR | Credit — (no quality points, no GPA units, but counts for units completed). Credit means that credit has been earned for the course although there are no grade points and the grade is not used in computing grade point average, and will reflect performance equivalent to a C or better under the letter grade system. |
| NCR | No Credit — (no quality points, no GPA units, no units completed). A No Credit means that neither units nor grade points have been earned. |
| MW | Military Withdrawal — (no quality points, no GPA units, no units completed). Military withdrawal means the student was forced to withdraw because of military orders. Students must submit a copy of their orders to the Admissions and Records Office. Military withdrawals are exempt from Progress Probation. |

**INTERNATIONAL TRANSCRIPT EVALUATIONS**

Students who have attended colleges and universities outside of the United States and believe they have successfully completed courses applicable to the Associate Degree/Certificate requirements must have their transcripts evaluated by an approved international evaluation agency before credit can be determined. A list of approved agencies is available in Admission and Records. Students who would like credit for ENGL 100 C will need to 1) have their transcripts evaluated, 2) achieve a satisfactory score on the English Assessment test, and 3) meet with a counselor.

**NON-DEGREE CREDIT COURSES (Basic Skills)**

Non-Degree Credit courses indicated as Non-Degree Credit do earn credit, but the credit is not counted toward the Associate degree. These classes are intended to help students gain the skills they need to perform in "college level" degree applicable courses. Non-Degree Credit classes do apply toward the following categories: Athletic Eligibility, Social Security Benefits, Work Study and Financial Aid, Associated Student Body Office and Full-Time Status.

The following are Non-Degree Credit courses:

- CIS 050 C Intro-Comp Software Concepts
- COUN 071 C Career Preparation & Life Management
- COUN 072 C Learning Disabilities Assessment
- ENGL 027 C Basic Study Skills
- ENGL 057 C Reading & Writing I
- ENGL 058 C Reading & Writing II
- ESL 052 C Intermediate ESL Grammar 1
- ESL 053 C Intermediate Grammar 2
- MATH 025 C Elementary Algebra Review
- MATH 045 C Intermediate Algebra Review
- NURS 091 C Strategies for Success in Nursing
- PHYS 021 C Problem Solving-Mechanics

All other Cypress College courses are degree applicable.

**PETITIONS AND APPEALS**

Petitions for general appeals that relate to policies on admissions, readmission after academic dismissal, graduation requirements, grades and credit, repetition of courses, academic renewal, or withdrawals, etc., should be directed to the Admissions and Records Office.

**PROBATION AND DISMISSAL POLICIES**

In accordance with state regulations, the following probation and dismissal policies have been established. The primary purpose is to insure that a student is making satisfactory progress toward an educational objective and to alert the student and the student's counselor to the possible need for additional counseling and/or special services.

**NOTE:** For the purpose of this policy, semesters will be considered consecutive on the basis of the student’s enrollment pattern, excluding summer session.

**PLACEMENT ON SCHOLASTIC PROBATION**

- **Academic Probation** - A student who has attempted at least 12 cumulative semester units will be placed on academic probation if the student has earned a cumulative grade point average below 2.0.

- **Progress Probation** - A student who has enrolled in 12 semester units will be placed on progress probation if fewer than one half of those units have been completed. For purposes of progress probation, grades of W, I or NCR are counted as incomplete work.

The college will make a reasonable effort to notify students who are placed on scholastic probation at the end of each term. Students who are on probation are also automatically considered conditional registrants, and their programs are subject to adjustment and/or restrictions.

**REMOVAL FROM SCHOLASTIC PROBATION**

- **Academic Probation** - A student who has been placed on academic probation will be removed from academic probation when the student's accumulated grade point average is 2.0 or higher.

- **Progress Probation** - A student who has been placed on progress probation will be removed from progress probation when the ratio of units completed is greater than one half the total units in which the student is enrolled.

**STANDARDS FOR SCHOLASTIC DISMISSAL**

- **Academic Dismissal** - A student who has been placed on academic probation and earned a cumulative grade point...
average of 1.75 or lower in two consecutive semesters will be subject to scholastic dismissal.

**Progress Probation** - A student who has been placed on progress probation for two consecutive semesters will be subject to scholastic dismissal.

The college will make a reasonable effort to notify a student who has been scholastically dismissed not later than the beginning of the fall semester each year. An entry will be made to the student’s academic transcript.

**READMISSION AFTER SCHOLASTIC DISMISSAL**
A dismissed student may be considered for readmission after filing a petition in the Admissions and Records Office.

If readmitted:

- Students are considered conditional registrants, and their programs are subject to adjustment and/or restrictions.

- Students dismissed for academics will remain on scholastic probation until a cumulative grade point average of 2.00 or higher has been achieved.

- Students dismissed for progress will remain on scholastic probation until the ratio of units completed is greater than one half of the total units in which the student enrolled.

**PROFICIENCY EXAMINATION**

**READING**
Proficiency in reading may be satisfied by ENGL 096 C, ENGL 102 C or ENGL 106 C, by CSU general education certification or IGETC certification, by a satisfactory score on the reading proficiency examination or by a Bachelors degree from a U.S. regionally accredited institution. (This policy supersedes all previous reading proficiency requirements.)

The Reading Proficiency Examination is administered at the Assessment Center. No units are given for passing the Reading Proficiency Examination, nor is the total number of units required to complete the Associate Degree lowered. Students who meet the area requirement by the proficiency exam are still required to satisfy the 60-unit requirement for graduation. Proficiency exams may be taken only once.

This exam will be administered during registration activities as published in the Schedule of Classes under STEP TWO, ENGLISH ASSESSMENT. Students should contact the Assessment Center for further information.

**MATHEMATICS**
A satisfactory score on the Mathematics Proficiency Examination waives the three-unit Mathematics General Education Requirement for the Associate Degree (Category B2). No units are given for passing the Mathematics Proficiency Examination, no units are posted to the student’s permanent record, nor is the total number of units required to complete the Associate Degree reduced. Refer to the Mathematics section in the schedule of classes.

**REMEDIAL LIMITATION**
The State of California has implemented a regulation limiting the number of units students can earn for remedial/pre-collegiate basic skills courses to 30 semester units. In accordance with those guidelines, the North Orange County Community College District has established the following policy (AB 1725 Chapter 973, Statutes of 1988).

**PRE-COLLEGIATE BASIC SKILLS COURSES**
Pre-Collegiate/basic skills courses are defined as those two or more levels below college level English and one or more levels below elementary algebra. The North Orange County Community College District has designated certain courses as remedial/pre-collegiate basic skills courses. These courses include reading, writing, computation, learning skills, and study skills designed to ensure acquisition of those skills necessary for successful completion of an associate degree, transfer and occupational courses.

**INFORMING STUDENTS**
Students shall be informed of the Policy for Remedial Limitation. Courses included will carry an appropriate designation in the Schedule of Classes and the Policy will appear in the College Catalog. Students enrolling in these courses will be informed of the limit during the matriculation/orientation process and instructors will be required to include this information in the course syllabus. These courses do count toward financial aid, work-study and athletic eligibility.

**PROCEDURES DURING REGISTRATION**
A non-exempt student who has completed 20 units in designated remedial/pre-collegiate basic skills courses shall be notified of the regulation limiting the number of remedial units. Information on the waiver and referral process will also be included.

**EXEMPTIONS**
All remedial courses taken by students enrolled in ESL (English as a Second Language) courses are exempted. Students identified by the District for learning disabled programs are also exempted. When, because of closed enrollment, students are unable to enroll in the next higher level ESL course, they do not lose their exemption status. Students with documented disabilities may petition the Office of Admissions and Records for exemption status on a case-by-case basis.

Students transferring to the North Orange County Community College District from other colleges/universities will begin with a clean slate with regard to the remedial limitation. However, since remediation is totaled within a district, students transferring between Cypress and Fullerton College will carry their remedial units with them. Only those courses taken at a regionally accredited college/university, that are determined to be associate degree level courses or higher, will be applied toward an AA/AS degree within the district.

**NOTIFICATION**
Upon completion of 30 units in designated basic skills courses, non-exempt students shall be notified that they will be unable to enroll in any additional remedial courses. Information on the waiver and referral process will also be included.
WAIVER
Students who show significant, measurable progress toward the development of skills appropriate to enrollment in college-level courses may petition the Office of Admissions and Records for a waiver of the limitation on remedial course work. Students will receive a response, in writing, indicating the granting/denial of the petition. If the petition is granted, students will be informed of the specific period of time or the specific courses approved beyond the 30-unit limit. Students will not be allowed to enroll in courses beyond the 30-unit limitation without a waiver, which will only be granted in extenuating circumstances for students who show significant, measurable progress. The 30-unit maximum enrollment limitation is based on end-of-term units earned with any grade.

ENROLLMENT LIMITATION
Students who do not attain full eligibility status for college-level work within the 30-unit limit will not be permitted to enroll in remedial/pre-collegiate basic skills courses unless a waiver is granted. Students will be referred to adult education noncredit courses per State regulations. The Office of Admissions and Records will explain to students their enrollment limitation status at the end of the semester.

REINSTATEMENT
A student may, upon successful completion of appropriate remedial course work, or upon demonstration of skills levels which will reasonably assure success in college-level courses, petition to be reinstated to proceed with college level course work. The petition is to be filed with the Office of Admissions and Records.

REPEATABLE ACTIVITY COURSES
A student may enroll more than once in an activity, performance, and/or studio art course that is designated as repeatable. Courses designated as repeatable are indicated with the statement: (May be taken for credit ___ times). The maximum number of times the class may be taken will be given in that statement. Courses that have a designated skills level (beginning, intermediate, advanced) may be taken for a combined total of four times. Example: a student who has taken beginning voice three times and intermediate voice once has completed the maximum number of repetitions allowed for the course, despite the different skill levels. This policy applies to all activity courses.

REVIEW AND RELEASE OF STUDENT RECORDS
In accordance with Title V (California Administrative Code) Chapter 6, commencing with Section 54600, and the Federal Family Educational Rights and Privacy Act, the North Orange County Community College District has established an official policy for student review of and release of student records. This policy allows for the student to review his/her records after contacting the Office of the President or designee. The policy also describes when student records will be released to a third party and allows the release of the student directory information unless the student informs the Office of the President or designee, that he/she does not want such information released.

This policy is available for student review and includes:

• the types of student records and information maintained;
• the official responsible for the maintenance of each type of record;
• the policies for reviewing and expunging records;
• the right of each student to access of his/her records;
• procedures for challenging the content of student records;
• the cost of producing copies of records;
• the categories of information designated as directory information;
• the locations of any required logs or records;
• definitions of officials and employees and legitimate educational interest and;
• the right of a student to file a complaint with the United States Department of Health, Education and Welfare.

Any student wishing to review this policy in its entirety may do so by contacting the Office of the President or designee.

STUDY LOAD
Most full-time students take 12-14 units. The minimum to be classified as a full-time student is 12 units. A maximum load for any student is 19 units, exclusive of work experience and guidance classes. After the first semester, a student may, with counselor’s approval, carry more units (exclusive of work experience) if during the preceding semester a grade point average of at least 3.0 for each unit of credit in a total program of 12 or more units was earned. It may be pertinent for students to consider the following semester unit requirements for particular privileges and activities.

Athletic Eligibility — 12 units, including PE classes.

Social Eligibility — 12 units per semester.

Work Study — 12 units required.

Financial Aid — Full-Time: 12 units per semester; 3/4 time: 9 units per semester; 1/2 time: 6 units per semester.

Veterans Benefits — Full-Time: 12 units per semester; 3/4 time: 9 units per semester; 1/2 time 6 units per semester.

Associated Student Office — 6 or more units per semester.

The faculty recognizes it is necessary for many students to work while attending college. However, it is expected that students demonstrate good judgment when enrolling under these conditions. Students who make no allowance for their employment and other outside obligations in planning their college programs will bear full responsibility for the resulting level of scholarship attained.

In order to maintain a proper academic balance, the following should be considered:

• Students should normally expect to spend at least three hours (one in class, and two outside of class) per week for each unit taken.

• Employment time and college time should not exceed 60 hours weekly.

• Students should distribute study time appropriately for each class. Often preparation for a lecture class differs from preparation for a laboratory class.
• Instructor office hours are designated to provide opportunities to consult with faculty frequently.

TITLE IX AND CIVIL RIGHTS GRIEVANCES
In instances of student grievances relative to Title IX (sex bias or sex harassment), Title VII (Civil Rights), students should contact the Office of the President or designee, within 60 calendar days of the alleged discrimination in order to be apprised of the procedures for filing a grievance.

Any repeated or unwarranted verbal or physical sexual advance, sexually explicit derogatory statement, or sexually discriminatory remark made by someone at school which is offensive or objectionable to the recipient or which causes the recipient discomfort or humiliation, or which interferes with the recipient’s performance constitutes sexual harassment and should be reported.

TRANSCRIPT OF RECORD
The Admissions and Records Office prepares and permanently retains a record of each student’s academic work. The transcript reflects all academic work attempted at Cypress College. It lists chronologically the courses, units, grades, grade points, cumulative grade point average, total units and other relevant academic data.

The normal processing time for transcripts is 14 – 21 working days. Forms for requesting transcripts may be downloaded from our website (www.CypressCollege.edu) or are available in the Admissions and Records Office. Transcript requests may be submitted in person or mailed. Mail requests must include the student’s current and previous names, date of birth, social security number, approximate dates of attendance, number of copies needed and a complete address of where the transcript is to be sent and the student’s signature. Requests with incomplete information may not be processed.

Students are entitled to two copies of their transcripts without cost. Subsequent copies and Hand Carry transcripts are $3.00 per copy. (Note: Fee is subject to change at any time.) Transcript requests must include full payment to be processed and requests will not be processed if there are outstanding financial obligations to the college. Checks or money orders should be made payable to Cypress College.

Cash payments are not accepted!
Requests should be mailed to:
Cypress College
Admissions and Records
ATTN: Transcripts
9200 Valley View St.
Cypress, CA 90630-5897

VERIFICATION OF STUDENT STATUS
The Admissions and Records Office verifies current term registration and full-time enrollment status for loan forms and other non-campus certifications beginning the first day of classes. Photo ID is required for this service. There is a $3.00 verification fee per request. (Note: Fee is subject to change at any time). Requests will not be processed if the student has an outstanding financial obligation to the college.

WITDRAWAL
It is recognized that, on occasion, students may have situations develop that force them to withdraw from a class prior to its completion. It is the student’s responsibility to initiate withdrawal procedures in the Admissions and Records Office. Failure to officially withdraw from a class can result in a grade of “F” or “NC” being assigned.

For the purpose of this policy, a “W” is viewed as an indication that the student has withdrawn from a course without affecting the student’s grade point average. A “W” is given, therefore, under the following conditions and in the manner prescribed:

Semester Courses
First Three Weeks of the Semester
Student or instructor may initiate a withdrawal. No notation shall be made on the student’s academic record.

Fourth Week through Fourteenth Week
The student or instructor may initiate a withdrawal. A “W” shall be recorded on the student’s academic record.

Remainder of Course
The student may no longer withdraw from college after the 14th week. The academic record of the student shall reflect a symbol grade other than W. In instances of extenuating circumstances, Ws may be granted after the 14th week by petition to the Dean of Admissions and Records.

Short Courses
Until the Day Prior to the First Census (first census is one-fifth of the way through the course)
The student or instructor may initiate a withdrawal. No notation shall be made on the student’s academic record. (See course instructor or Admissions and Records Office for the specific first census date.)

From the First Census Day of the Course Through the Withdrawal Date
The student or instructor may initiate a withdrawal up to the time three-fourths of the course has elapsed. (See course instructor or Admissions and Records Office for withdrawal dates for specific courses.) A W shall appear on the student’s academic record.

Remainder of the Course
A student may no longer withdraw from classes after the withdrawal date. The academic record of the student shall reflect a symbol grade other than W. In instances of extenuating circumstances, Ws may be granted if approved by petition to the Dean of Admissions and Records.

Weekend Seminars Until the First Day Prior to the First Day of the Seminar
The student or instructor may initiate a withdrawal. No notation shall be made on the student’s academic record.

After the Seminar Begins
The instructor may drop, with a W, those students who do not attend the seminar. Those who do attend must receive a symbol grade other than a W, except in instances of extenuating circumstances when “Ws” may be granted by petition to the Dean of Admissions and Records.
Summer Intersession Courses
First Week
Students should check with the Admissions and Records Office for appropriate withdrawal date.

Open Entry Courses
As often as possible, open entry courses shall be treated according to the regulations for Semester Courses, Short Courses and Summer School Courses as listed above.

Instructional Support Services

BUSINESS AND COMPUTER INFORMATION SYSTEMS LABS
The Business and Computer Information Systems Labs are equipped with business and office automation equipment including 10-key calculators, transcription equipment, and microcomputers with a wide range of business application software. The Business and Computer Information Systems Labs (B-111 and B-209) are available for business students who are concurrently enrolled in courses that require the use of the lab for enhancing and developing business skills. Please refer to the Schedule of Classes for hours of operation.

ENGLISH AS A SECOND LANGUAGE PROGRAM
Cypress College offers special classes in English for students who are non-native speakers of English. The classes are designed to improve reading, writing, listening and speaking skills. Students will have an opportunity to better understand the U.S. culture. They will also learn how to take exams, write essays and do transfer-level college reading and writing assignments. Individualized lab assignments will further build language skills.

LEARNING CENTER
The College Learning Center, located in Room H-303 of the Humanities Building, provides students with the opportunity to improve their basic learning skills, study foreign languages, and participate in a wide variety of telecourses. The Center offers testing, a wide variety of audio-tutorial packages, and a networked system of computers connected to the Internet. Students may drop in on their own or be referred by instructors or counselors. Students with a current student identification card may have access to its services.

LIBRARY
The library maintains a collection of approximately 68,000 books, periodical subscriptions as well as videos, CDs, DVDs, cassette tapes, maps, pamphlets, and several databases with selected full-text newspaper, magazine and journal articles. Students may access the World Wide Web, the library catalog and the extensive full-text EBSCO host periodical database via fourteen Internet stations located in the reference area. Remote access is available from any campus Internet computer by linking to the library homepage, and from off-campus with a user ID and password.

MATHMATICS-SCIENCE LEARNING CENTER
In the Mathematics and Science Learning Center, located in Room 209 of the Science/Engineering/Mathematics Building, the student will find instructors and qualified tutors available for assistance in solving problems and in understanding concepts in mathematics, chemistry and physics. This Center is open Monday through Saturday, and any student may have access to its services.

NORTH CAMPUS COMPUTER CENTER
In the North Campus Computer Center, located in Room 114 of the Science/Engineering/Mathematics Building, the student will find microcomputers available for general use. Tutors are also available for assistance with software operation and use of the computers. All of the computers in this center are connected to the Internet. This Center is open Monday through Saturday, and any student may have access to its services after paying the lab fee at the bookstore.

WRITING CENTER
The Writing Center, located in Humanities Room H-324, offers students many modes to improve writing and critical thinking skills. Besides the assistance of well-trained tutors, students have access to instructional software. All computers also feature word processing and Internet access. Students with a current student identification card may have access to its services.
Student Support Services

ADMISSIONS AND RECORDS
Admissions and Records is the first contact students will generally have with Cypress College. The Office provides clear and concise information to all members of the community, admitting and registering students in a timely and proficient manner. The Office provides information and supportive contacts with students, faculty, administration and the community, maintaining and retrieving records in an efficient and accurate manner. Admissions and Records serves as the final evaluator of all certificate and graduation applications, distributes student records (including grades and transcripts) certifying and reporting attendance data to appropriate agencies. This Office is responsible for reporting student characteristics and enrollment data as requested or required.

The Office of Admissions and Records is located on the ground floor of the Administration/Library Building. For information, call (714) 484-7000.

ADULT RE-ENTRY PROGRAM
The Adult Re-entry Program is a combination of services that helps provide opportunities for the adult learner to explore career, academic and personal issues in a supportive environment.

The Program offers:

• Classes - personal and career exploration, career testing, creative job search techniques, decision making and goal setting

• Counseling - career, educational, personal

• Community and campus resources - information and referrals

• Support Groups

• Workshops focusing on issues of interest to re-entry adults

• Information on non-traditional and traditional careers

The Adult Re-entry Program is part of the Career Planning Center and is located in the Tech Ed II Building, Room 207A. For information, call (714) 484-7120.

NORMAL HOURS OF OPERATION:
Monday - Friday 8:00am - 5:00pm

ASSESSMENT CENTER
The Assessment Center provides a variety of services to determine skill levels in grammar, reading, and mathematics. The Center is one of the main components of matriculation services offered to each student. The purpose is to place students in courses which match the students’ skills, needs, and goals with college courses, programs and services.

Testing dates, times, and location for course placement are published in the Schedule of Classes. The Assessment Center is located on the first floor of the Business Building. For information call (714) 484-7223.

BOOKSTORE
All textbooks and supplies will be available for purchase in the bookstore at least two weeks before each semester or mid-semester class begins. The bookstore also offers special orders for those books that students cannot find in area stores.

The bookstore also offers supplementary educational books and supplies. The supply section offers imprinted Cypress College logo clothing, gifts, greeting cards, snacks, candy, beverages and general merchandise.

NORMAL HOURS OF OPERATION:
Monday - Thursday 7:45am - 8:00pm
Friday 7:45am - 5:00pm

For your convenience the bookstore is open three consecutive Saturdays each semester beginning with the Saturday before the start of the Fall and Spring Semesters. Hours for the Summer session and holidays will be posted outside the bookstore as necessary.

BOOK BUYBACK
Students may sell their textbooks and certain workbooks back to the bookstore, or wholesale buyer, during the first three days of classes and during Fall/Spring Final Exams, and the first two days of mid-semester classes.

NORMAL BUYBACK HOURS:
Monday - Thursday 8:30am - 7:00pm
Friday 8:30am - 2:00pm

CAREER PLANNING CENTER
Visit the Career Planning Center to help you explore careers and majors, and to assist you in your occupational and educational success. The Center provides career counselors to help discover your career/major options, target your ideal career, clarify your preferred values, interests and activities, and perfect your job search.

The Career Center offers:

• Career counselors — FREE of charge

• Career classes

• Career assessments — personality, skills, interests, values

• Research library

• College catalogs

• Scholarship information

• Computers loaded with career software
• Assistance in job search, résumé preparation and interviewing techniques

• Workshops focusing on job search skills and deciding a college major

The Career Planning Center is located in the Tech Ed II Building in Room 207A. Counseling available on an appointment basis. For information call (714) 484-7120.

NORMAL HOURS OF OPERATION:
Monday – Friday 8:00am - 5:00pm

CENTER FOR INTERCULTURAL UNDERSTANDING

The Center for Intercultural Understanding (CIU) was formed to coordinate the programs of International Students, Study Abroad, and Multicultural Issues. The Mission is to enrich our learning community through intercultural understanding. The goals of the CIU are to 1) celebrate diversity, 2) promote human relations, 3) disseminate information, 4) provide a forum for dialogue, 5) build community relations, and 6) support globalization/internationalization of curriculum. The Steering Committee meets monthly during the academic year. For information, call (714) 484-7049 or 7050.

COUNSELING & STUDENT DEVELOPMENT

The College maintains a complete guidance service, including the orientation of new students to a successful college experience, counseling to meet the educational requirements for various careers, assistance in selection of courses of study, and individual guidance in matters of aptitude and personal adjustment as they are related to the student’s vocational and educational objectives.

Each student is assigned a counselor based on a major or area of interest. The counselor assists the student in planning a program of courses and is available to help in other matters affecting the student’s progress in college. Regular conferences may be scheduled during each semester to ensure that the student may gain the greatest possible benefit from the counseling service. Counselors can also be reached by e-mail at cypresscounselors@yahoo.com or through their individual e-mail address listed in the Programs and Course Descriptions section of this catalog under Counseling and Student Development.

Special courses are offered to assist students in gaining the maximum benefit from their college experience. For example, all students enrolled in more than two classes must enroll in COUN 140 C or COUN 140HC during their first semester of attendance. This course is designed to help orient students to college life and assist students in their educational and vocational planning. In addition, there are opportunities for students to take mini-guidance courses in Career Planning, Human Potential, Decision Making, and Women and Careers.

COUNSELING 140 C, 140HC

First-time students who are taking more than two classes or who plan to earn the Associate Degree, obtain a certificate, or transfer to a four-year college must include Educational Planning COUN 140 C, or COUN 140HC, in their schedule. This nine-hour course is taught by a counselor and the class is usually comprised of students with similar majors and/or interests. It is designed to assist the first-time college student with adjustments to college and meeting the educational demands of the college. A large component of the curriculum deals with planning the student’s program for the following semesters, depending upon whether the ultimate goal is to complete a vocational degree or certificate, or whether it is to transfer to a four-year college.

CRIME PREVENTION AND REPORTING

It is the intent of Cypress College to inform students and staff, in a timely manner, of any criminal activity or security problem, which may pose a reasonable threat to their safety. Such information will be distributed to students through brochures, student publications, and the student newspaper. (20 United States Code 1092 D/E).

Any criminal action or emergency may be reported to the Campus Safety Office, located in the Security and Information Building. The office is open twenty-four hours a day, seven days a week. (20 United States Code 1092 A).

CYPRESS COLLEGE FOUNDATION

The Cypress College Foundation is a non-profit, tax-exempt organization. It has been chartered to encourage philanthropic support for the College to supplement the State and to make scholarships and loans available to students. Funds are raised for this from corporate, business and individual donations as well as fund raising events such as the Foundation Golf Classic in the fall and the Americana Banquet in the spring. Students interested in these scholarships, or loans should contact the Financial Aid Office at (714) 484-7114. Prospective donors may contact the Foundation Office at (714) 484-7126.

CYPRESS COLLEGE PATRONS OF THE ARTS

The Cypress College Patrons of the Arts is a non-profit, tax-exempt organization that functions under the auspices of the Cypress College Foundation. It was founded to encourage community participation in the college’s fine arts programs and exhibits, foster cultural, visual, and performing arts activities at the college, to raise funds to provide scholarships to students, and to provide monetary grants to enhance the programs of the Fine Arts Division. For further information contact the Dean of Fine Arts at (714) 484-7139.

CYPRESS COLLEGE PUENTE PROGRAM

The Puente Program was established at Cypress College in 1996. The mission of the program is to assist students in transferring to universities. The Puente program is a statewide transfer program open to all students. The program consists of three components which serve to strengthen students’ academic success. The following three components are:

ENGLISH - Puente students take two consecutive writing classes, English 060 C and English 100 C, in a supportive and stimulating environment. Students work to build
confidence in their writing skills by exploring subjects and literature related to the Mexican American/Latino experience.

COUNSELING - Puente students take counseling classes and work closely with their Puente counselor to improve study skills, explore career options, develop an academic educational plan, and identify lifetime goals. Students also tour university and college campuses and attend an annual Puente Transfer and Motivational Conference.

MENTORING - Each Puente student is matched with a mentor and a peer mentor. Mentors are professionals from the business community who share their personal, academic, and career experiences with students and provide a window into “real life” work environments. Peer mentors are former Puente students who have successfully completed the Puente Program and are still working on accumulating their transfer credits. The peer mentors help to extend the feeling of familia from one generation of Puente students to the next.

In addition to the three main components, Puente students also participate in a number of special activities. Puente coordinates social and cultural activities such as field trips to local museums, bookstores, and theaters. The object of these special activities is to enrich the Puente students’ educational, cultural, and social opportunities.

This program is especially beneficial for first generation college students who need assistance in understanding the requirements of academic life and in learning about the many resources which are available on a college campus (such as financial aid, tutoring, etc.).

For more information contact the Language Arts/Social Science Counseling Department at (714) 484-7178, or the Language Arts Division at (714) 484-7169.

DISABLED STUDENT PROGRAMS & SERVICES
Programs and services are offered to students with verified disabilities who are enrolled in the college. Disabilities may include: mobility impairments, visual impairments, hearing impairments, learning disabilities, head injuries and psychological impairments. Programs and services are tailored to the student’s individual needs with the goal of integrating the student into all facets of college life. The Roosevelt Center is located in the Science, Engineering, Math Building on the first level, Room 129.

Typical services include:
Complete assessment /evaluation for learning disabilities
Academic, vocational and personal counseling
Information and referral
Registration assistance
Test taking assistance
Mobility assistance
Interpreters (oral and manual)
Alternate media

Special classes:
Adapted Physical Education
College Orientation
Career Preparation and Life Management
Wheelchair Basketball
Adapted Computer Classes

Special equipment: (located in our High Tech Center)
JAWS
Braille printer
CCTV
Large screen computers

Please call for office hours.
Phone (714) 484-7104
TDD (714) 761-0961
FAX (714) 826-4042

From its inception, Cypress College was designed as the ideal campus for physically disabled students. Flat and compact, it offers excellent access to all buildings, classrooms and offices.

EXTENDED OPPORTUNITY PROGRAMS & SERVICES (EOPS)
The Extended Opportunity Programs and Services (EOPS) is a state and college funded program designed to assist students with economic, linguistic, and educational challenges (as defined by Title V) enroll and succeed in higher education. Comprehensive support services are provided to promote access to college and once the student is enrolled, to increase retention and/or transfer to four-year universities and colleges.

These services include:

Outreach, Recruitment and College Orientation
Basic Skills Instruction and Special Math Classes
Service Tutoring Center
A High-Tech Computer Lab with Internet access
Counseling and Advisement
Priority Registration
Instructional Support
Book Service
Educational Supplies and Materials
University Application Fee Waivers
Health Fee Waivers
Computerized Instructional Programs

The CARE program provides additional services and grants to eligible single parents who are on public assistance. CARE is located in the Workforce Preparation Center.

The EOPS and CARE staff are composed of dedicated professionals and student workers who are committed to seeing you succeed in college. Services are free of charge to all EOPS eligible Cypress College students.

To find out more about us visit our website at: http://www.CypressCollege.org/sss/eops/, come to our office located in the Tech Ed II Building, Room 213 (south of the pool) or contact us at (714) 484-7368.

FINANCIAL AID
To assist students who have financial problems while attending school, the College has developed a comprehensive Financial Aid program that includes student loans, scholarships, grants, and part-time jobs. Students needing such assistance should make inquiries at the Financial Aid Office, located on the second floor of the Tech Ed II Building, Room 209.
Scholarships - A number of local scholarships are awarded to students each year. More information and applications for these scholarships can be obtained in the Financial Aid Office.

Federal Work Study - Under provisions of the Economic Opportunity Act of 1964, the United States Education Department guides the Federal Work Study Program on cooperating campuses. The program provides jobs to financially needy students. Some of the job opportunities available through this program are teacher aide, library aide, clerk-typist, vocational technical assistant, tutor, college recruiter and financial aid clerk. Eligibility must be established by the Financial Aid Office before a student can be placed on a job.

Educational Grants - Federal Pell, Federal SEOG, and EOPS Grants provide educational opportunity to students of exceptional financial need who, for lack of financial means of their own or of their families, would be unable to attend Cypress College without such assistance. Students can apply for grants through the Financial Aid Office.

Board of Governor’s Waiver - The State has provided funds to defray the enrollment fee for students with low incomes. Students should apply at the Financial Aid Office prior to registration.

Loans—Cypress College participates in the Federal Stafford Student Loan Program. Repayment begins after completion of the student’s education, providing he/she remains in school.

FINANCIAL ASSISTANCE
Student financial aid is available through the college for students who need financial assistance in order to pursue their college education.

Students are encouraged to contact the Financial Aid Office located in the Tech Ed II Building, Room 209 or call (714) 484-7114 to obtain information and required forms to receive financial assistance.

Financial Aid Programs Available
- Board of Governors Waiver (BOGW) – covers enrollment fee and health service fee
- Pell Grant
- Federal Supplemental Educational Opportunity Grant (FSEOG)
- Federal Work Study (FWS) - part-time employment on campus
- Stafford Student Loans
- Extended Opportunity Programs and Services (EOPS)

Key Eligibility Requirements (not limited to)
- U.S. Citizen or Eligible Non-Citizen
- High School Diploma or G.E.D.
- Declared Major
- Determined to have financial need
- Not on default on a student loan or owe a refund to a grant

Required Application Form
Submit a “Free Application for Federal Student Aid” (FAFSA) or apply on the web at: www.fafsa.ed.gov.

Standard Documents/Forms (not limited to)
- Student Aid Report (SAR) - results from FAFSA
- If required/requested prior year 1040 tax form

Required campus forms
- Application Timeline - Fall 2003 & Spring 2004
- Application Period: January 1, 2003 through April 1, 2004
- Priority Processing Deadline: June 30, 2003*
  *Students will be considered for maximum aid possible.

For Information:
Financial Aid Office (714) 484-7114
Cypress College
Tech Ed II Building, Room 209
9200 Valley View Street
Cypress, CA 90630

FOOD SERVICES
There are three areas of Food Services available on campus during day and/or evening hours; all are operated by “Food for Thought.” One location is on the first floor of the Culinary/Theater Arts building, the second is a convenience store located on the first floor of the Humanities building and the third is on the second floor of Gym II. Each offers patio seating accommodations. The Culinary/Theater Arts and Gym II locations provide a variety of hot and cold food menu items. The convenience store offers specialty coffees, cold drinks, and snack items.

HEALTH SERVICES
As a registered student at Cypress College you are eligible for basic health services at your center. The Student Health Services Center is an office responsible for the health and wellness of students on campus. Our goal is to promote physical and emotional wellness, prevent illness and injury, provide basic outpatient health services, and to educate students toward taking responsibility for their own health.

There is no charge to see the Physician, Nurse Practitioner, Psychologist and/or Nurse. Nominal fees will be assessed for lab tests, immunizations, medications, and special exam procedures. A full-time registered nurse and a full-time nurse practitioner are available at all times. Appointments are recommended to see the doctor and nurse practitioner. Emergencies are seen immediately.

All students are covered by an insurance policy which provides coverage for accidents while on campus during required attendance and while using college sponsored transportation to and from college activities (private insurance is primary).

To make use of any of these health services or to get further information, contact the Health Center located on the first floor of Gymnasium II building by calling (714) 484-7361, or stop by the Center.

JOB PLACEMENT SERVICES
JOB PLACEMENT CENTER - All students interested in utilizing the job placement service must first file an application with the office. Students should check the job boards daily. When an employment opportunity occurs for which a student is interested, he/she must sign in for a screen interview. The Job Placement Office receives employment...
opportunities for full time, part time, temporary and seasonal positions. Announcements are posted daily on the Job Placement board outside the office and in notebooks inside the office, and online computer job search. Job Placement is located in the Tech Ed II Building, Room 207B. For further information, you may stop by or call (714)484-7052.

LOST AND FOUND
Lost items that have been turned in may be claimed at the Security and Information Office, located just east of the Business Building.

MATRICULATION
Matriculation is a set of services provided to all students as a means of ensuring their academic success. It is legally defined as an agreement between the college and its students. This legislation ensures that every community college student will be afforded the same opportunity for services and to achieve academic success. The college goal is to make the institution a place of easy access and success for students to achieve their educational goals and economic gain. The five components or services which create an easy step-by-step process to introduce Cypress College students to higher education are:

Admissions: The information contained in the college application becomes part of the student's official record. This office registers students and records grades, program changes, graduation and transfer requirements.

Assessment: The purpose is to gather as much information as needed on new students. Counselors review assessment scores, transcripts, current study skills, language skills, goals, majors, career aspirations, and the need for special services. Testing may be necessary for a first time student if there are no previous records. Assessing student skills aids in making the best educational choices.

Orientation: Students new to Cypress College prior to registration have the opportunity to attend a one and one-half hour group orientation/counseling session. During this session the counselor will review the College Catalog, Schedule of Classes, services, programs, certificates, degrees, majors, general college procedures and college regulations. The counselor will review with the students their test scores, previous transcripts, course prerequisites, and course selection. On line orientation is available at http://www.CypressCollege.edu/~counseling/orientation. After registration, Educational Planning COUN 140 C is offered to assist the student in completing their individualized Student Education Plan.

Counseling/Advising: All students are encouraged to visit their counselor and confer with instructors periodically throughout the year. Counselors are also available through their e-mail address, located in the Programs and Course Descriptions section of this catalog under Counseling and Student Development. A student Educational Plan should be on file in each student's academic record after completion of 15 units. Faculty Advising is available through instructors' posted office hours.

Student Progress/Follow Up: Students who excel in their course work are placed on either the Dean's Honor Roll or the President's Honor Roll. Information regarding scholarship and Honors is available within this catalog. Students encountering difficulty in courses are referred to appropriate college services by counselors and instructors. Additional referrals are made to assist students with special needs.

Students may be exempt from the Matriculation services if a graduate from an accredited U.S. college or university with an Associate of Arts degree or higher; or matriculated at another College.

Student Rights
All matriculated students have the right to challenge or appeal any step in the matriculation process and may:

1. Enroll in any class where prerequisites are met.
2. Challenge course placement decision.
3. Request a waiver of prerequisites for a course, if it is offered, not validated, or if able to demonstrate previous knowledge.
4. File a complaint of discrimination if prerequisites are being applied in a prejudicial manner.

If you have questions regarding any aspect of these services, please contact the Matriculation Coordinator at (714) 484-7230.

PARKING AND TRAFFIC CONTROL
All campus traffic and parking regulations are enforced by the Cypress College Campus Safety Department. Students are advised to follow parking regulations and signs carefully.

Use of the campus parking lots is restricted to staff and to students paying a parking fee. This fee may be paid daily or a semester parking permit may be purchased at the time of registration or anytime during the semester. Those paying the semester fee will receive a parking lot permit authorizing use of the campus student parking lots and will also permit parking in student parking lots at Fullerton College. Payment of the parking fee does not guarantee a parking space, but will permit parking in designated spaces at both colleges.

The parking permit should be displayed in the car, and hanging from the rear view mirror at all times while in the designated parking areas. Lost permits cannot be replaced except by payment of another fee.

SAFETY AND SECURITY
Cypress College employs parking and security guards with training specific to these areas. For incidents requiring resources and services not available at Cypress College, Cypress Police Department and other agencies are summoned. (20 United States Code 1092C).

The Campus Safety Department is located in the Security and Information Building just east of the Business Building.
SERVICE LEARNING
Service Learning is a teaching method that promotes student learning through active participation in meaningful and planned service experience in the community that are directly related to the course content. Through reflective activities, students enhance their understanding of course content, general knowledge, sense of civic responsibility, self-awareness and commitment to the community. Check the current class schedule for courses that offer this option.

- Incorporate community service into your general education courses
- Apply course skills in a realistic environment
- Explore career options in a course setting
- Increase civic awareness of the community
- Experience a hands-on teaching method
- Strengthen the ethic of service
- Transfer service learning hours to a four year institution

For more information please contact:
Kathryn Sonne, Service Learning Director
www.ksonne@CypressCollege.edu
Service Learning Office is located in the Transfer Center
Fine Arts Building, First Floor Room 102
(714) 484-7452 www.CypressCollege.edu

STUDENT HOUSING
Housing is not available on the college campus. Students interested in off-campus housing should contact the Student and Campus Activities Office for suggested quarters. A listing of available housing is located on a bulletin board in the Student Activities Center, second floor of Gym II. For questions, call (714) 484-7198.

STUDENT SUCCESS PROGRAM
A Student Success Program has been implemented at Cypress College. The program is designed to improve the potential for student success and academic achievement. The goal of the program is to provide students with a timely notice of potential academic problems and give guidance as needed for students who need assistance in meeting the college’s academic requirements.

Faculty, on a voluntary basis, will contact students in their classes whom they believe would benefit from a student success early alert contact or a referral to an appropriate student service on campus. This early alert contact may be made in person with students attending class or by phone, e-Mail, letter or postcard.

STUDY ABROAD PROGRAM
The Study Abroad Program provides students the opportunity to enrich their educational experience by studying abroad for one semester or for a shorter period of time, depending on course offerings, while earning Cypress College units. The program is designed not only to enrich course content by their location in the country where they are offered, but also to provide students with a multi-cultural experience by living in a society and environment different from that of the United States. Cypress College is associated with the College Consortium for International Education and may offer programs jointly with other California Community Colleges, thus expanding the students’ opportunities for experiences abroad.

Classes offered will be Cypress courses, often taught by a Cypress College instructor, ensuring complete transferability to other United States colleges. There is an application process for interested students, with prerequisites, interviews, and the final selection. Interested students may contact the Center for Intercultural Understanding. For further information, call (714) 484-7049, or 484-7050.

TRANSFER CENTER
The Transfer Center assists students interested in continuing their education at four-year institutions with an emphasis on reaching the historically underrepresented transfer students. The Transfer Center offers students opportunities to meet with representatives from four-year schools for advisement and to attend workshops and Transfer Fairs. The Transfer Center houses an extensive transfer resource library including college catalogs, articulation agreements, reference books, college videos, and computer programs for student use.

For more information, visit the Transfer Center in Room FA-100 on the first floor of the Fine Arts building, or call (714) 484-7129.

VETERANS BENEFITS
Cypress College is approved as a degree-granting institution for the attendance of veterans under Title 38, United States Code. This includes the programs covered in Chapters 30, 31, 32, 35, and 106 of Title 38, which were formerly known as Public Laws 16 and 894 (rehabilitation of disabled veterans) and Public Law 634 (war orphans). The College is also approved for the attendance of California veterans’ dependents under the State program.

Veterans who plan to enroll in the College are urged to contact the Office of Veterans’ Affairs (Admissions and Records Office) well in advance of registration so necessary arrangements may be made with the Veterans’ Administration or the California Department of Veterans’ Affairs. The campus Office of Veterans’ Affairs works closely with academic counseling, the Student Employment/Financial Aid Office, the Student Educational Development Center and the various veterans’ agencies to provide the veteran with those services which will contribute to a successful educational experience. Veterans needing assistance should contact the VA Coordinator in the Admissions and Records Office. For further assistance, phone (714) 484-7348.

Veterans and eligible dependents/spouses, who are on academic probation (below a 2.00 grade point average), must show a continued improvement in their grade point average each semester after the below 2.00 GPA deficiency. A student who is on academic probation will have VA educational benefits payments suspended after two semesters without satisfactory progress toward the graduation requirement of 2.0 GPA. In such instances a student must petition for recertification and must provide a counselor approved program
indicating what course of action will be completed to maintain satisfactory progress toward graduation requirements.

WORKFORCE PREPARATION CENTER
The Workforce Preparation Center is designed to assist with placement of students into fast-track training programs. The center is located on the 2nd floor of the Tech Ed II Building, Room 215, or for more information, please call (714) 484-7237.

Programs available are:
CalWORKs------- California’s Work Opportunity and Responsibility to Kids
CARE---------- Cooperative Agencies and Resources for Education
FKCE ---------- Foster and Kinship Care Education
ILP ---------- Independent Living Program
TRAC---------- Training Resources to Achieve Completion
WOW---------- World of Work

Campus Life
CAMPUS CLUBS
Students are encouraged to broaden their horizons by participating in club activities at Cypress College. Clubs are organized to involve the student in specialized fields of interest or service to the college and community. The clubs and organizations at the college can be listed in four categories: academic achievement, cultural, special interest, and religious.

ACADEMIC ACHIEVEMENT
Alpha Gamma Sigma and the Honors club are the college’s academic clubs. There main goal is to increase and promote academic excellence among students. The clubs provide service to the school and hold fund-raising activities to earn money for scholarships. Sigma Psi is the campus chapter of Alpha Gamma Sigma and the Honors club is the support club for the Honors Program.

CULTURAL CLUBS
Cultural clubs provide students with an opportunity to experience other cultures as well as to meet students with similar backgrounds. In addition, they provide a link to the political and social events shaping the world of today.

INTEREST CLUBS
Interest clubs provide a place or event for students to share a common interest or a chance to experience something new.

RELIGIOUS CLUBS
Religious clubs promote a particular religion as well as provide a place for students to come together in their faith.

MEETING TIMES
The meeting times for all clubs can be obtained from the Office of Student Activities in the Student Center. The following is a complete list of Cypress’ campus clubs and organizations:

Alpha Gamma Sigma (Honor Society)
Black Student Union – Anime Club
Buddhists for World Peace
Campus Christians
Charger Chronicle
Court Reporting Club
C.C. Flying Team (Alpha Eta Rho)
Creative Arts Guild
Cypress Nursing Student Association (CNSA)
Dental Assisting Club
Explorer’s Club
Flight Attendants
Forensics
Funkollective Club (Music)
G.A.L.A.
Global Association of Culture and Peace
Hare Krishna Yoga
Honors Club
Hospitality and Travel Club
Human Services
Korean Christian Fellowship
Korean Student Association
Later-Day Saints Student Association
M.E.Ch.A.
Mortuary Science Club
Muslim Student Association
Native American Club
Outreach Ministries
Philosophy Club
Pre-Med Club
Progressive Students for Change
Psychiatric Technology
Psychology Circle
Radiologic Technology
Recording and Entertainment Club
Scholarship Club
S.A.D.H.A. (Dental Hygiene)
Spirit Club (Pep)
Vietnamese Club
Women’s Study Club

DRESS CODE
Students are expected to dress in good taste. Attending class or entering any campus building while barefooted or bare-chested is specifically prohibited.

INTERCOLLEGIATE ATHLETIC PROGRAM
The Cypress College Chargers are members of the Orange Empire Conference composed of Cypress, Fullerton, Golden West, Irvine Valley, Orange Coast, Riverside, Saddleback, Santa Ana, and Santiago Canyon Community Colleges. The Chargers compete in conference competition in the following men’s sports: baseball, basketball, golf, soccer and swimming. Women’s intercollegiate sports include: basketball, soccer, softball, swimming, volleyball and water polo. The Chargers also compete in wheelchair basketball. Cypress students may participate in football, cross-country and track at Fullerton College.
Athletic eligibility rules and regulations adopted by the conference and the California Commission on Athletics are rigidly enforced at Cypress College. In general, eligibility rules require an athlete be enrolled in 12 units or more at the time of competition. To compete a second season in a sport, an athlete must complete and pass 24 units with a 2.0 GPA between seasons of competition. These must be completed prior to the beginning of the second season of the sport. Transfers who have participated in athletics at another California community college must complete 12 units at Cypress College before becoming eligible. Since this is only a general guideline and athletic eligibility rules are rather complex, questions regarding eligibility should be referred to the athletic director for clarification.

INTER-CLUB COUNCIL (ICC)
The Inter-Club Council (ICC) is financed by the Associated Students of Cypress College and its chair is an elected, voting member of the Associated Student Council. The Inter-Club Council is composed of a representative from each of the recognized clubs on campus. Its function is to coordinate the activities of the various clubs and to provide an organized channel for club support of, or participation in, major campus events. For information regarding current clubs on campus, and/or the forming of new clubs, please stop by the Student Activities Office located in the Student Center.

PUBLICATIONS

OFFICIAL STUDENT PUBLICATIONS
Student publications are approved by the college through authorization of the President of the college and the assignment of a faculty advisor. Such publications are eligible for distribution on campus. All student publications are expected to reflect good taste, be written and edited by students of the college, and conform to editorial policies established by the college. These editorial policies shall include authority of the faculty advisor to exercise the right to disapprove materials with provision for the right of the student appeal to persons designated by the college President. Students who violate this policy shall be subject to suspension and/or expulsion.

UNOFFICIAL PUBLICATIONS
Commercial publications may not be distributed or sold on the college campus without specific permission from the President. Non-commercial publications, student or non-student, not sponsored or approved by the college may be distributed on campus under regulations as established by the college. Such regulations may pertain to hours and places of distribution, littering, the orderly operation of the college, the outrage of public decency, and an identification of the persons and/or organizations sponsoring the material. Unofficial publications which do not meet the criteria listed are considered unauthorized and may not be distributed on campus.

STUDENT ACTIVITIES
The Student Activities Program at Cypress College is intended to achieve the following objectives:

• to provide opportunities for students to share in governance activities;

• to provide students with the opportunity to create and administer their own organizations;

• to provide a leadership development program for credit that will help students learn the practical application of leadership and organizational theory.

Student Activities is an integral part of college life, and all students are encouraged to take an active role in some phase of the student activities program.

Activities include campus clubs, concerts, special interest programming, community awareness and involvement, Senior Day, World Fest, Welcome Back Week, and the annual Duck Pond Race. The Associated Students Council participates on Campus and District Shared Governance committees to represent student interests.

STUDENT CONDUCT AND DISCIPLINE
Reference: Education Code Section 66300, 76030, 76033, 76034, 76036

Cypress College students are expected to maintain satisfactory standards of citizenship at all times on the campus and in the community. The following are guidelines for minimum student conduct. Students enrolling in the college assume an obligation to conduct themselves in a manner compatible with the College’s function as an educational institution.

A student who violates the standards of student conduct shall be subject to disciplinary action including, but not limited to, the removal, suspension or expulsion of the student. Misconduct which constitutes “good cause” for disciplinary action includes, but is not limited to, the following:

1.1 Disruptive behavior, willful disobedience, habitual profanity or vulgarity; the open and persistent defiance of the authority of, or persistent abuse of, District personnel, or violating the rights of other students.

1.2 Failure to identify oneself when requested to do so by District officials acting in the performance of their duties.

1.3 Cheating, plagiarism in connection with an academic program (including plagiarism in a student publication), or engaging in other academic dishonesty.

1.4 Dishonesty, forgery, alteration, or misuse of District documents, records, or identification, or knowingly furnishing false information to the District.

1.5 Misrepresentation of oneself or of an organization to be an agent of the District.

1.6 Causing, attempting to cause, or threatening to cause physical injury or physical or verbal abuse or any threat of force or violence, to the person, property, or family of any member of the college community, whether on or off District property as defined above.

1.7 Willful misconduct which results in injury or death to a student or to District personnel, or which results in the cutting, defacing, or other damage to any real or personal property of the District.
1.8 Unauthorized entry into, unauthorized use of, or misuse of property of the District.

1.9 Stealing or attempting to steal District property or private property on District premises, or knowingly receiving stolen District property or stolen private property on District premises.

1.10 Causing or attempting to cause damage to District property, or to private property on District premises.

1.11 Unlawful use, sale, possession, offer to sell, furnishing, or being under the influence of any controlled substance listed in the California Health and Safety Code, section 11053 et seq., an alcoholic beverage, or an intoxicant of any kind, or any poison classified as such by Schedule D in Section 4160 of the Business and Professions Code or other State law defining controlled substance while on District property, or at a District function; or unlawful possession of, or offering, arranging or negotiating the sale of any drug paraphernalia, as defined in the California Health and Safety Code, section 11014.5.

1.12 Willful or persistent smoking in any area where smoking has been prohibited by law or by regulation of the District.

1.13 Possession, sale, use, or otherwise furnishing of explosives, dangerous chemicals, deadly weapons or other dangerous object including, but not limited to, any facsimile firearm, knife or explosive on District property, or at a District function, without prior written authorization of the Chancellor, college president, School of Continuing Education Provost, or authorized designee.

1.14 Engaging in lewd, indecent, or obscene behavior on District property, or at a District function.

1.15 Violation of municipal, state, or federal laws in connection with attendance in programs or services offered by the District, or while on District property or at District-sponsored activities.

1.16 Soliciting or assisting another to do any act (including the purchasing, transporting or consumption of any controlled substance), while under the supervision of a District official, which would subject a student to expulsion, suspension, probation, or other discipline pursuant to this policy.

1.17 Attempting any act constituting cause for disciplinary action as identified in the above sections of this policy.

1.18 Committing sexual harassment as defined by law or by District policies and procedures.

1.19 Engaging in harassing or discriminatory behavior based on race, sex (i.e., gender) religion, age, national origin, disability, sexual orientation, or any other status protected by law.

1.20 Engaging in physical or verbal intimidation or harassment of such severity or persuasiveness as to have the purpose or effect of unreasonably interfering with a student’s academic performance, or District employee’s work performance, or of creating an intimidating, hostile or offensive educational or work environment.

1.21 Engaging in physical or verbal disruption of instructional or student services activities, administrative procedures, public service functions, authorized curricular or co-curricular activities or prevention of authorized guests from carrying out the purpose for which they are on District property.

1.22 Stalking, defined as a pattern of conduct by a student with intent to follow, alarm, or harass another person, and which causes that person to reasonably fear for his or her safety, and where the student has persisted in the pattern of conduct after the person has demanded that the student cease the pattern of conduct. Violation of a restraining order shall, without more, constitute stalking under this policy.

1.23 Persistent, serious misconduct where other means of correction have failed to bring about proper conduct or where the presence of the student causes a continuing danger to the physical safety of students or others.

1.24 Engaging in expression which is obscene, libelous, or slanderous according to current legal standards, or which so incites students as to create a clear and present danger of the commission of unlawful acts on District property, or the violation of the lawful administrative procedures of the District, or the substantial disruption of the orderly operation of the District.

2.0 No student shall be suspended from a college or School of Continuing Education program or expelled unless the conduct for which the student is disciplined is related to college, School of Continuing Education or District activity or attendance.

3.0 Any violation of law, ordinance, regulation or rule regulating, or pertaining to, the parking of vehicles, shall not be cause for removal, suspension, or expulsion of a student.

4.0 The Chancellor shall establish procedures for the imposition of discipline on students in accordance with the requirements for due process of law. The procedures shall identify potential disciplinary actions including, but not limited to, the removal, suspension or expulsion of a student.

5.0 The Chancellor shall establish procedures by which all students are informed of the rules and regulations governing student behavior.

Administrative Procedures 5500 - Student Discipline Procedures
Reference: Education Code Section 66017; 76030 et seq. Penal Code Section 626.4

1.0 The purpose of these administrative procedures is to provide a prompt and equitable means to address violations of the standards of student conduct in a manner consistent with requirements of due process of law. Nothing in these procedures is intended to infringe upon the rights of students to engage in the lawful exercise of free expression as protected by the state and federal constitutions and by the provisions of Education Code section 76120.
2.0 Definitions

2.1 Administrator: A management employee of the District having significant responsibilities for formulating District policies or administering District programs.

2.2 District: The North Orange County Community College District.

2.3 College: Cypress College, Fullerton College, and the School of Continuing Education and their respective programs.

2.4 Student: Any person currently enrolled as a student at a College or in any program offered by the District.

2.5 Instructor: Any instructional employee of the District in whose class a Student subject to discipline is enrolled.

2.6 Student Discipline Officer: The official at a College who is responsible for reviewing and processing student discipline matters.

2.7 President: The President of Cypress College, the President of Fullerton College, and the Provost of the School of Continuing Education.

2.8 Day: A day during which the District administrative offices are open for business. The time limits set forth in these procedures for action by the Student Discipline Officer, President, hearing officer or panel, and Board of Trustees are guidelines; failure to strictly adhere to these time limits shall not invalidate any action otherwise appropriately taken hereunder.

2.9 Expulsion: The involuntary removal of a student from the District and all District programs for one or more terms, or permanently, by action of the Board of Trustees.

2.10 Formal Hearing: A hearing conducted before a hearing officer or hearing panel in accordance with section 4.0 of these procedures during which the student and the District may call and examine witnesses and present documentary evidence.

2.11 Informal Hearing: A meeting between the student and the Student Discipline Officer or designee in accordance with section 3.2.3 of these procedures to discuss the charges and provide the student with the opportunity to respond to the charges orally, or in writing.

2.12 Suspension: The involuntary removal of a student for good cause from one or more classes or from the college by the President or designee for a limited period of time, as follows:

2.12.1 Short-Term Suspension: Removal from one or more classes for a period of up to 10 consecutive days of instruction;

2.12.2 Long-Term Suspension: Long-term suspension may consist of:

2.12.2.1 Removal from one or more classes for the remainder of the academic term;

2.12.2.2 Removal from one or more classes for one or more academic terms; or

2.12.2.3 Removal from all classes and activities of the College for one or more academic terms.

A student placed on suspension from one or more classes may not, for the period of the suspension, be enrolled in any class or program at any College in the District that is substantially similar to the class(es) or program(s) from which the student is suspended.

A student placed on suspension from all classes and activities of a College may not be enrolled in any College or program in the District for the period of suspension.

2.13 Removal from Class: The involuntary removal of a student from class by an Instructor for a maximum period of two consecutive class sessions.

2.14 Removal from Facility: The involuntary removal of a student by an administrator from a District or College facility, or facility under the control of the District or College for a maximum period of two consecutive days.

2.15 Disciplinary Probation: A status between good standing and suspension or expulsion. It covers a stated trial period and disciplinary conditions required of the student. At the end of the trial period, it shall be determined, based on whether the probationary conditions have been met, whether the student is to be returned to good standing, suspended, recommended for expulsion, or subject to other disciplinary action.

2.16 Loss of Privileges: Disciplinary action involving the loss of certain student privileges, such as eligibility to participate in extracurricular activities, for a stated period of time.

2.17 Formal Reprimand: Written admonition or warning to cease and desist from conduct that has been determined to violate the standards of student conduct. A formal reprimand becomes part of a student’s permanent record and is considered in the event of future violations of the standards of student conduct.

2.18 Informal Reprimand: An oral admonition or warning to cease and desist from conduct that has been determined to violate the standards of student conduct. A record of the fact that an informal reprimand has been given may be retained as part of a student’s record for a period of up to one year and is considered in the event of future violations of the standards of student conduct during the period of retention. It is the student’s responsibility to request that the record be removed upon expiration of the period of retention.

2.19 Withdrawal of Consent to Remain on Campus: Withdrawal of consent by the President or the President’s designee for a student or other person to remain on a College campus in accordance with California Penal Code section 626.4 where the College President has reasonable cause to believe that the student has willfully disrupted the orderly operation of the campus.
3.0 Procedures for Implementing Disciplinary Action

3.1 Removal of Student From Class or From a Facility

3.1.1 Removal From Class by an Instructor: An Instructor may order a student removed from class for good cause. Removal shall be for a maximum period of two class sessions, which shall be the day of the removal and the next class meeting.

Removal From a Facility by an Administrator: For good cause, an administrator may order a student removed from a facility for the day of the offense and the next day.

3.1.2 The student shall be advised of the removal and the reasons therefore. The Instructor or Administrator shall immediately report the removal, through established College administrative channels, to the Office of the President and to the Student Discipline Officer for appropriate action and shall submit, through those channels, a written report describing the conduct warranting the removal to the Student Discipline Officer within ten (10) days of the removal.

3.1.3 The appropriate program administrator or the Student Discipline Officer shall conduct a meeting with the student. If the student is a minor, the Student Discipline Officer shall ask the parent or guardian of the student to attend a parent conference with the Instructor, if the removal was from class, or if the removal was from a facility, with the administrator who ordered the removal, as soon as possible. If the Instructor, administrator, or the parent or guardian so requests, the Student Discipline Officer shall attend the conference.

3.1.4 During the period of removal, the student shall not be returned to the class without the concurrence of the Instructor or, if the removal is from a facility, without the concurrence of the administrator who ordered the removal.

3.1.5 Nothing herein shall prevent the President or Student Discipline Officer from recommending further disciplinary action in accordance with these administrative procedures based on the conduct which prompted the removal.

3.2 Suspension or Expulsion

3.2.1 Except in the case of immediate interim suspension as provided in section 3.3 of these procedures, before implementing disciplinary action to suspend or expel a student, the student shall be provided with a written notice of the conduct warranting the discipline, which shall include:

3.2.1.1 The section(s) of the Standards of Student Conduct the student is charged with violating;

3.2.1.2 A brief statement of the facts supporting the charges;

3.2.1.3 The right of the student to an informal hearing with the Student Discipline Officer or designee to discuss the charges, or to respond in writing; and

3.2.1.4 The nature of the proposed disciplinary action.

3.2.2 The notice shall be provided to the student within thirty (30) days of the date on which the conduct occurred or the date on which an Instructor or other official of the District learned of the conduct; or, in the case of continuous, repeated, or ongoing conduct, the notice shall be provided within thirty (30) days of the date of the most recent occurrence. Within five (5) days of receiving the notice, the student may submit to the Student Discipline Officer a written request for an informal hearing, as provided in section 3.2.1.3. In addition to, or in lieu of requesting an informal hearing with the Student Discipline Officer, the student may submit a written response to the charges. Notice is deemed received as of the date it was personally delivered or three (3) days after it was placed in the United States mail.

3.2.3 If the student requests an informal hearing as provided in section 3.2.1.3, the Student Discipline Officer shall hold an informal hearing during which the student shall be given an opportunity to respond orally or in writing to the charges.

3.2.4 Within five (5) days after the informal hearing, or within ten (10) days after the student has received the written notice pursuant to section 3.2.1 and has declined or failed to request a meeting, the Student Discipline Officer shall provide the President with a written recommendation regarding the specific disciplinary action to be imposed, if any, which shall include the factual findings regarding the charges and conclusions as to the standards of student conduct that were violated, if those findings and conclusions differ in any material respect from the initial notice.

3.2.5 Within five (5) days after receipt of the recommendation of the Student Discipline Officer, the President shall render a decision regarding the disciplinary action to be implemented, if any, and shall provide written notice of the decision to the student. The President may accept, modify or reject the recommendation of the Student Discipline Officer.

3.2.5.1 Short-Term Suspension or Lesser Disciplinary Action

Where the decision of the President is to impose short-term suspension or some lesser disciplinary action, the decision of the President shall be final. The written notice to the student of the President’s decision shall specify the length of time of the suspension or the nature and duration of the lesser disciplinary action.

3.2.5.2 Long-Term Suspension

3.2.5.2.1 Where the decision of the President is to impose long-term suspension, the student shall have the right to request a formal hearing before the suspension is imposed.

3.2.5.2.2 The written notice to the student of the President’s decision shall specify the right of the student to request a formal hearing and shall include a copy of the formal hearing procedures.

3.2.5.2.3 Within five (5) days of receiving the written notice of the President’s decision, the student may submit to the President a written request for a formal hearing. Notice is deemed received as of the day it was personally delivered or three (3) days after it was placed in the United States mail. The hearing, if requested, shall be conducted in accordance with the provisions of section 4.0 of these procedures. If the student does not request a hearing within
five (5) days of receiving notice, the President’s decision shall become final.

3.2.5.2.4 Within five (5) days after receipt of the recommended decision of the hearing officer or panel, the President shall render a final decision regarding the disciplinary action to be implemented, if any, and shall provide written notice of the decision to the student. The President may accept, modify or reject the findings, conclusions and recommendations of the hearing officer or panel. If the President modifies or rejects the decision of the hearing officer or panel, the President shall review the record of the hearing and shall prepare a new written decision which contains specific factual findings and conclusions. The decision of the President shall become final.

3.2.5.3 Expulsion

3.2.5.3.1 A student may be expelled for good cause where other means of correction have failed to bring about proper conduct or when the presence of the student causes a continuing danger to the physical safety of students or others. Only the Board of Trustees may expel a student.

3.2.5.3.2 Where the decision of the President is to recommend expulsion to the Board of Trustees, the student shall have the right to request a formal hearing before expulsion is imposed.

3.2.5.3.3 The written notice to the student of the President’s decision shall specify the right of the student to request a formal hearing before expulsion is imposed.

3.2.5.3.4 Within five (5) days of receiving the written notice of the President’s decision, the student may submit to the President a written request for a formal hearing. Notice is deemed received as of the date it was personally delivered or three (3) days after it was placed in the United States mail. The hearing, if requested, shall be conducted in accordance with the provisions of section 4.0 of these procedures. If the student does not request a hearing within five (5) days of receiving the notice, the President’s decision shall become final.

3.2.5.3.5 Within five (5) days after receipt of the recommended decision of the hearing officer or panel, the President shall render a decision regarding the disciplinary action to be implemented, if any. The President may accept, modify or reject the findings, conclusions and recommendations of the hearing officer or panel. If the President modifies or rejects the decision of the hearing officer or panel, the President shall review the record of the hearing and shall prepare a new written decision which contains specific factual findings and conclusions.

3.2.5.3.5.1 Where the decision of the President is to impose suspension or some lesser disciplinary action, the decision of the President shall be final. The student shall be provided with a written notice of the President’s decision which shall specify the length of time of the suspension or the nature of the lesser disciplinary action.

3.2.5.3.5.2 Where the decision of the President is to recommend expulsion, the written recommendation of the President shall be submitted to the Board of Trustees for consideration in accordance with section 5.0 of these procedures.

The Board of Trustees shall consider the recommendation for expulsion at the next regularly scheduled meeting of the Board following the meeting at which the recommendation was received.

3.2.6 The College President shall report all suspensions of students to the Chancellor.

3.2.7 Whenever a minor student is suspended, the parent or guardian shall be notified in writing by the President or designee.

3.2.8 In cases of assault, the Chancellor or President shall, upon the expulsion or suspension of any student, notify the appropriate law enforcement authorities of any acts of the student which may be in violation of section 245 of the Penal Code.

3.3 Immediate Interim Suspension

The President or designee may order the immediate suspension of a student where there is reasonable cause to believe that immediate suspension is required to protect lives or property and to ensure the maintenance of order. Where a student is placed on interim suspension, the procedural time limits specified in these procedures shall not apply. The student shall be given prompt notice of the charges and all hearing rights, including the right to a formal hearing where a long-term suspension or expulsion is recommended, shall be afforded the student within ten (10) days of the imposition of interim suspension. The student shall not, without prior written permission from the President or designee, enter the campus of any College other than to attend the hearing. Violation of the interim suspension conditions shall be grounds for expulsion.

3.4 Withdrawal of Consent to Remain on Campus

3.4.1 The President or designee may withdraw consent for a student to remain on the College campus, in accordance with California Penal Code section 626.4, where there is reasonable cause to believe that the student has willfully disrupted the orderly operation of the campus. A student who is on campus at the time consent is withdrawn shall promptly leave or be escorted off campus. Whenever consent is withdrawn by an authorized designee of the President, a written report shall be promptly submitted to the President.

3.4.2 Consent shall not be withdrawn for longer than fourteen (14) days from the date upon which consent was initially withdrawn. The student from whom consent has been withdrawn may submit a written request for a hearing to the Student Discipline Officer. The request must be submitted within the period of the withdrawal. A hearing, if requested, shall be held within seven (7) days of the date of receipt of the request. The hearing shall be conducted in accordance with the provisions of this procedure relating to interim suspensions.

3.4.3 A student from whom consent to remain on campus has been withdrawn and who willfully and knowingly enters or remains upon the campus or facility during the period for which consent has been withdrawn, except for the purpose of attending a meeting or hearing on the withdrawal, is subject to arrest.
4.0 Formal Hearing Procedures

4.1 Hearing Officer or Panel

4.1.1 At the discretion of the President, a formal disciplinary hearing may be conducted using the services of a hearing officer, or the President may select an impartial hearing panel comprised of two educational administrators at the level of dean or vice president, one of whom shall be selected from another college within the District.

4.1.2 The President shall appoint one member of the panel to serve as the chair of the hearing panel. The decision of the chair shall be final on all matters relating to the conduct of the hearing.

4.1.3 No administrator who has any direct involvement in the matter to be decided, who is a necessary witness, or who could not otherwise act in a neutral manner shall serve on a hearing panel.

4.2 Notification of Hearing

The student, and the student’s parent or guardian, if the student is a minor, shall be notified by registered or certified mail or by personal service of the date, time, and location of the hearing.

4.3 Conduct of Hearing

4.3.1 Prior to the hearing, the members of the hearing panel shall be provided with a copy of the charges against the student and any written response provided by the student.

4.3.2 The hearing shall be closed and confidential.

4.3.3 The student shall have the right to represent himself/herself at the hearing or to be represented by a person of the student’s choice, except that neither the student nor the District shall be represented by legal counsel unless authorized by the hearing officer or panel, in which case both parties shall be entitled to be represented by legal counsel.

4.3.4 A record of the hearing shall be made by the District, either by means of tape recording or stenographic recording, and shall be the only recording made. In the event the record is by means of tape recording, the hearing panel chair shall, at the beginning of the hearing, ask each person present to identify himself/herself by name, and thereafter shall ask each witness to identify himself/herself by name. Tape recordings shall remain in the custody of the District at all times, unless released to a professional transcribing service. The student may receive a copy of the tape recording upon request.

4.3.5 Formal rules of evidence shall not apply. Any relevant evidence shall be admitted.

4.3.6 The hearing officer or panel shall not have the authority to issue subpoenas on behalf of either the District or the student.

4.3.7 Charges against the student, along with supporting evidence from witnesses or other sources, will be presented by the District.

4.3.8 The student shall be given the opportunity to confront and cross-examine witnesses.

4.3.9 The student shall be given an opportunity to present a defense, including witnesses and documentary evidence.

4.3.10 The District shall have the opportunity to cross-examine the student and witnesses called by the student.

4.3.11 Unless the hearing officer or panel determines to proceed otherwise, the District and the student shall each be permitted to make an opening statement. Thereafter, the District representative shall make the first presentation, followed by the student. The District representative may present rebuttal evidence after completion of the student’s presentation.

4.3.12 All testimony shall be taken under oath; the oath shall be administered by the hearing officer or hearing panel chair. Witnesses shall not be present at the hearing when not testifying. No witness who refuses to be recorded may be permitted to give testimony. Written statements of witnesses under penalty of perjury shall not be admissible unless the witness is unavailable to testify. A witness who refuses to be tape recorded is not unavailable.

4.3.13 The hearing officer or hearing panel chair may determine that requiring live testimony of a proposed witness would subject the witness to an unreasonable risk of psychological or physical harm. After such a determination, the witness may be permitted to provide a written statement under penalty of perjury in lieu of testifying at the hearing.

4.3.14 The burden shall be on the District to introduce substantial evidence to support the charges against the student.

4.3.15 Within fifteen (15) days following the close of the hearing, the hearing officer or panel shall prepare and submit a written decision to the President. The decision shall include specific factual findings regarding the charges, conclusions as to the standards of student conduct that were violated, and a recommendation regarding the specific disciplinary action to be imposed, if any. Failure of the hearing officer or panel to submit its written decision within fifteen (15) days shall not invalidate the decision.

5.0 Procedures For Consideration of Expulsion by Board of Trustees

5.1 The Board shall hold closed sessions when it considers disciplinary action regarding expulsion of a student. The Board shall notify the student, and the parent if the student is a minor, by registered or certified mail or by personal service of the intent of the Board to call a closed session to consider the expulsion. The notification shall specify the date, time and place of the meeting at which the Board will consider the disciplinary action and shall be provided at least three (3) days prior to the meeting. Final action by the Governing Board may be taken in closed session, provided that the action of the Board shall be reported in public session. The student shall not be identified by name or other designation that would disclose the identity of the student.
5.2 In considering a recommendation for expulsion, the Board may accept, modify or reject the findings and recommendations of the President and/or the hearing officer or panel. If the Board modifies or rejects the decision of the President and/or the hearing officer or panel, the Board shall review the record of the formal hearing, and shall prepare a new written decision which contains specific factual findings and conclusions. The decision of the Board shall be final. The student, and the student’s parent or guardian, if the student is a minor, shall be notified in writing of the Board’s decision.

STUDENT RIGHTS AND RESPONSIBILITIES
The California Education Code provides that, “The board shall have the power to adopt such rules and regulations, not inconsistent with law, as are necessary for its own government and to enable the board to carry out all powers and responsibilities vested in it by law” (Section 71020). The Board of Trustees has prescribed the following rules relating to students. These rules shall apply to each of the colleges of the District. Each College President shall be responsible for the development of procedures required on that campus to assure that these rules are in effect on that campus.

1. ACADEMIC FREEDOM POLICY:
A college community, consisting of faculty, students, and administrators, under authority of the Board of Trustees, has as its primary purpose the realization of the students’ growth and development through the dissemination and application of knowledge. Because it is only in the open exchange of ideas that this purpose can be achieved, students are encouraged to study any and all issues and problems. Freedom to think, read, question, and speak are necessary to the college community, but such freedoms must be exercised within the rules established under the general policies of the Board of Trustees.

2. STUDENT CLASSROOM RIGHTS AND RESPONSIBILITIES:
a. Students enrolled in a course accept the instructor’s authority in all matters pertaining to the classroom instruction and individual academic performance. Students have the right to:

   (1) Know the instructor’s standards for academic evaluation and classroom conduct.
   (2) Challenge, with normal courtesy, faculty statements of opinion.
   (3) Receive professional evaluation of their academic performance.
   (4) Expect professional treatment of their views, beliefs, or political associations.
   (5) Have reasonable access to members of the faculty on campus.

b. Students enrolled in a course accept the responsibility to:

   (1) Seek diligently to achieve the instructional objectives of the course.
   (2) Practice honesty and respect the rights of others.
   (3) Meet instructional and conduct standards as specified in 2.a.
   (4) Practice free and open exchange of ideas that this purpose can be achieved, students have the right to:

   a. Students have the right to:

      (1) Participate in the formulation and application of college policy which affects them in accordance with procedures established on each campus under the general policies of the Board.
      (2) Petition to organize interest groups pursuant to college and Board policies.
      (3) Join student associations approved pursuant to college and Board policies.
      (4) Invite and hear speakers as defined in the campus speakers policy.

   b. Students who violate the rights of chartered organizations shall be subject to the rules and regulations as published and distributed on each campus.

   c. Campus publications boards, or their equivalent, shall have the authority and responsibility for all college publications. Their authority and responsibility shall include, but not be limited to, providing written clarification of the role of student publications and the standards to be used in their evaluation. These standards shall be within the canons of responsible journalism and the limitations on control of their operations as established by the faculty advisor.

STUDENT GRIEVANCES
PETITIONS AND APPEALS
1. ACADEMIC APPEALS: Inevitably, with as many interpersonal transactions as occur on a college campus, disagreements with instructors may occur. Should that be the case, a student may take the following procedures:

PROCEDURES

   a. Discuss the matter with the staff member, preferably in private, and try to resolve the issue.
   b. Consultation with your counselor may also be helpful. If the problem cannot be resolved at that level, the following due process procedures are available to the student.
   c. Consultation with the Student Advocate at Associated Students may also be helpful. The Student Advocate is an elected member of the Student Government who can help the students to follow the procedures in presenting grievances.
   d. Students in Vocational programs may need to see the department Coordinator/Director. Programs that deal with patient/client safety and accrediting agencies have additional policies located in their program handbooks/regulations.
e. Students who have not been able to resolve classroom problems through an interview with their instructors and the department Coordinator/Director may consult with the Division Dean.

f. If the problem is not resolved to the student’s satisfaction the student may file an appeal with the Campus Petitions Committee. Petition forms are available from the division deans or from the Office of Instruction.

g. A student dissatisfied with the result of his/her appeal to the Campus Petitions Committee may appeal to the College President.

h. Student appeals from the College President may go to the District Chancellor.

i. Students dissatisfied with their appeal to the District Chancellor may make a final appeal to the District Board of Trustees.

2. ADMISSIONS AND RECORDS APPEALS: Appeals regarding College decisions or policies may be made through the Admissions and Records Office. Appeals include matters relating to admissions or a student’s records, application or registration deadlines, grades and credit, repetition of courses, academic renewal, tuition and withdrawals, and readmission after disqualification from the college.

PROCEDURES
a. Obtain a petition form from the Office of Admissions and Records.

b. Fill out the form giving all background information regarding the appeal and listing all specific extenuating circumstances. It is often helpful to obtain a written recommendation from a counselor and include that with the petition.

c. Submit the petition to the Office of Admissions and Records. Note that the petitioner has certain responsibilities in this process. If an appointment for a personal interview is necessary, the student will be notified.

d. A decision on the petition will be rendered by the Admissions and Records Office.

e. Contact the Office of Admissions and Records to determine the petition results.

f. Obtain a copy of the petition and the written decision and execute the appropriate action as directed.

g. Appeals and decisions of the Admissions and Records Office may be made through the Executive Vice-President of Educational Programs and Student Services.

STUDENT GOVERNMENT
Cypress College is committed to student government with the following objectives:

- promoting cultural, educational and social events
- enhancing and supporting class instruction
- recognizing student government as an integral part in the shared governance structure of the college
- facilitating participation in the college community

The governing body of the Associated Students of Cypress College is the A.S. Council, which consists of the Executive Board, the Student Senate, and the Programming Board. Elections for officers on these boards are held during the spring and fall semesters. The Student and Campus Activities Office on the Piazza level of Gym 2 houses the A.S. Council. Meetings of the Council are held on Mondays at 11:30 a.m. and are open to anyone who would like to attend.

The A.S. Council plans, organizes, promotes and finances many activities for the campus. A.S. Council officers serve on campus committees and participate in the California Student Association of Community Colleges (CalSACC) to represent student interests concerning campus, district, and state-wide decisions affecting community college students. Campus clubs are part of Inter-Club Council (ICC) which is administered by the A.S. Council. For further information, contact the Associated Students at (714) 484-7198.

NORTH ORANGE COUNTY COMMUNITY COLLEGE DISTRICT
NON-DISCRIMINATION STATEMENT
The North Orange County Community College District, in compliance with all applicable Federal and State Laws, does not discriminate on the basis of race, color, national origin, ancestry, marital status, age, religion, disability, sex, or sexual orientation in any of its policies, procedures, or practices.

Consistent with State and Federal law and District policy, the North Orange County Community College District forbids sexual harassment at any of its locations. The District will take preventive, corrective, and disciplinary action for any act that violates this policy or the rights and privileges it is designed to protect.

The District does not discriminate against any employees or applicants for employment on the basis of their age, or because of their medical condition; nor does the district discriminate on the basis of citizenship or sexual orientation, within the limits imposed by law or District policy. This non-discrimination statement covers admission, access, and service in District programs, activities, and application for and treatment in District employment.
The North Orange County Community College District is an affirmative action equal opportunity employer. Individuals who believe they are victims of discrimination and/or harassment, or have questions about our policies, may contact the Vice Chancellor of Human Resources, Mr. Jeff Horsley, at 1830 W. Romneya, Anaheim, CA 92801, (714) 578-8400.

It is the policy of the North Orange County Community College District that students and employees who are victims of sexual assault committed at or upon the grounds or facilities maintained by the District, shall receive treatment and information by contacting the Director of Health Services or any District/College administrator. The Policy on Sexual Assault is available in the Campus Health centers, in the Student Activities Offices, and in the Offices of the Vice President at Cypress College and Fullerton College, and in the District Human Resources Office.

The North Orange County Community College District is committed to providing an educational and work environment free of alcohol and illicit drugs. In keeping with this commitment, the North Orange County Community College District advises all students and employees that the appropriate legal and disciplinary action will be taken against any student(s) or employee(s) who knowingly violated federal, state, local or campus laws/rules relating to the sale, use, transfer, or possession of illegal drugs/alcohol on campus or in any District facility. For further information concerning these guidelines, please refer to the Policies Relating to Students which is available in the Student Activities Office, and the District Alcohol/Drug-Free Policy available in the Offices of the Vice President and the District Human Resources Office.

Students and employees who are victims of sexual assault or seek information or assistance with drug and alcohol related problems should contact the Director of Health Services at Cypress College, (714) 484-7361, or at Fullerton College, (714) 992-7414. All inquiries will be held in the strictest confidence.

Cypress College, a campus within the North Orange County Community College District is in compliance with the various Federal Laws and Acts related to civil rights. This includes compliance with Title VI and VII of the Civil Rights Act of 1964 and 1990; Title IX of the Education Amendments of 1972; Section 504 of the Rehabilitation Act of 1973, and the Americans With Disabilities Act (ADA) of 1990. The lack of English skills will not be a barrier to participation in vocational education programs at Cypress College. Matters concerning Title IX, Section 504, or ADA should be brought to Mr. Jeff Horsley, the District Alcohol/Drug-Free Policy administrator. A copy of the procedure may be obtained from the Vice Chancellor of Human Resources. Mr. Jeff Horsley, at 1830 W. Romneya, Anaheim, CA 92801, (714) 578-8400.

Declaración de no Descriminación
El North Orange County Community College District, en cumplimiento con todas aplicables leyes Federales y Estatales, no discrimina en ninguno de sus políticas, procedimientos, o prácticas con relación a asuntos de raza, color, origen nacional, linaje, estado matrimonial, edad, religión, desabilidad, sexo, o orientación sexual.

Cypress College, una institución dentro del North Orange County Community College District, cumple con varias leyes y actas Federales concernientes a derechos civiles. Esto incluye cumplimiento con Título VI y VII del Acta de Derechos Civiles de 1964 y 1990; Título IX de las Enmiendas Educativas de 1972; Sección 504 del Acta de Rehabilitación de 1973, y del Acta de Americanos con Discapacidades (ADA) de 1990. La limitación de habilidad en inglés no será obstáculo para participar en programas de educación vocacional en Cypress College.

Asuntos concernientes a Título IX, Sección 504 o ADA se deben de llevar al Sr. Jeff Horsley, coordinador oficial de tales. El Distrito tiene un procedimiento bajo el cual personas que creen han sido descriminado sobre asuntos de desabilidad pueden someter su queja. Se puede obtener una copia del procedimiento con el Sr. Jeff Horsley, Vice Chancellor of Human Resources, en 1830 W. Romneya, Anaheim, CA 92801, (714) 578-8400.

Student Right to Know Campus Security Act
In compliance with the Student Right-to-Know and Campus Security Act of 1990, it is the policy of the North Orange County Community College District and Cypress College to make available its completion and transfer rates to all current and prospective students. In fall, 1999, all certificate-, degree-, and transfer-seeking first-time, full-time students were tracked over a three-year period; their completion and transfer rates are listed below. These rates do not represent the success rates of the entire student population at Cypress College, nor do they account for student outcomes occurring after this three-year tracking period.

Based upon the cohort defined above, 20.8% attained a certificate, degree or became “transfer prepared” during a three-year period (fall 1999, to spring, 2002). Students who are “transfer-prepared” have completed 56 transferable units with a GPA of 2.0 or better.

Based upon the cohort defined above, 41.2% transferred to another postsecondary institution (CSU, UC, or another California Community College) prior to attaining a degree, certificate or becoming “transfer prepared” during a five semester period (spring, 2000 to spring, 2002).

More detailed information related to the reporting of criminal actions which have occurred on campus may be obtained from the President’s Office, Public Safety, Admissions and Records, Financial Aid, Bursar’s Office, Student Activities, Library and the website.
Student Rights under FERPA for Postsecondary Institutions

The Family Educational Rights and Privacy Act (FERPA) affords students certain rights with respect to their education records. These rights include:

(1) The right to inspect and review the student’s education records within 45 days of the day the College receives a request for access.

Students should submit to the registrar, dean, head of the academic department, or other appropriate official, written requests that identify the record(s) they wish to inspect. The College official will make arrangements for access and notify the student of the time and place where the records may be inspected. If the records are not maintained by the College official to whom the request was submitted, that official shall advise the student of the correct official to whom the request should be addressed.

(2) The right to request the amendment of the student’s education records that the student believes is inaccurate.

Students may ask the College to amend a record that they believe is inaccurate. They should write the College official responsible for the record, clearly identify the part of the record they want changed, and specify why it is inaccurate.

If the College decides not to amend the record as requested by the student, the College will notify the student of the decision and advise the student of his or her right to a hearing regarding the request for amendment. Additional information regarding the hearing procedures will be provided to the student when notified of the right to a hearing.

(3) The right to consent to disclosures of personally identifiable information contained in the student’s education records, except to the extent that FERPA authorizes disclosure without consent.

One exception, which permits disclosure without consent, is disclosure to school officials with legitimate educational interests. A school official is a person employed by the College in an administrative, supervisory, academic, or research, or support staff position (including law enforcement unit personnel and health staff); a person or company with whom the College has contracted (such as an attorney, auditor, or collection agent); a person serving on the Board of Trustees; or a student serving on an official committee, such as a disciplinary or grievance committee, or assisting another school official in performing his or her tasks.

A school official has a legitimate educational interest if the official needs to review an education record in order to fulfill his or her professional responsibility.

[Optional] Upon request, the College discloses education records without consent to officials of another school in which a student seeks or intends to enroll. [NOTE: FERPA requires an institution to make a reasonable attempt to notify the student of the records request unless the institution states in its annual notification that it intends to forward records on request.]

(4) The right to file a complaint with the U.S. Department of Education concerning alleged failures by State College to comply with the requirements of FERPA. The name and address of the Office that administers FERPA are:

Family Policy Compliance Office
U.S. Department of Education
400 Maryland Avenue, SW
Washington, DC 20202-4605
Programs of Study
Cypress College offers three basic program types:

OCCUPATIONAL PROGRAMS LEADING TO THE ASSOCIATE DEGREE
Associate degrees are commonly conferred by community colleges. This degree is awarded upon a student’s satisfactory completion of a program of study with a specific major. Students who have maintained continuous enrollment have the option of completing the Associate Degree requirement in effect at the time they initially enrolled or any subsequent catalog up to and including the last semester of attendance. The Associate Degree is one of two types, the Associate in Arts or Associate in Science. The distinction between the degrees lies in the majors. To earn an Associate Degree students must complete:

• All major course requirements with a minimum grade of “C”.
• At least 50% of the major course work must be completed at Cypress College;
• 25 units of Associate Degree General Education Graduation Requirements;
• Reading Proficiency requirement;
• At least one 3 unit course in cultural pluralism:
• Any elective courses to complete a minimum of 60 units with an overall Grade Point Average of 2.0

CERTIFICATE PROGRAMS
A program certificate is a verification of competency designed to make the student proficient and employable in a specific occupational skill. The certificate is awarded independently of the Associate Degree. Students who have maintained continuous enrollment have the option of completing the certificate requirements in effect at the time they initially enrolled or any subsequent catalog up to and including the last semester of attendance. At least 50% of all course work required for a Cypress College Certificate must be completed at Cypress. All required courses must be completed with a minimum grade of “C”.

Students wishing to use courses from another institution to meet Cypress’ requirements should meet with a counselor to review the necessary petitioning procedure. Program certificates will be noted on student transcripts.

TRANSFER PROGRAMS
Transfer programs include course work in an academic area, general education requirements, and elective work for transfer to a four-year baccalaureate institution. Transfer programs are designed to parallel the courses offered for freshmen and sophomores at other colleges and universities. In most cases, baccalaureate institutions prefer community college students to complete the lower division general education requirements and at least 60 or more transferable semester units. Generally, no more than 70 semester units earned at California community colleges will be applied toward a baccalaureate degree. Students entering such programs of study should have a minimum 2.5 GPA from high school. This guideline is used as an attempt to insure adequate academic strength.

TRANSFER CREDIT - BACCALAUREATE DEGREES
Cypress College certifies that the following classes listed (by instructional divisions) are baccalaureate-level classes and are transferable to any campus of the California State University system for credit toward its baccalaureate degrees:

Business and Computer Information Systems - All classes numbered 100 C through 299 C.
Counseling and Guidance - All classes numbered 100 C through 299 C.
Fine Arts - All classes numbered 100 C through 299 C.
Health Science - All classes numbered 100 C through 299 C.
Language Arts - All classes numbered 100 C through 299 C.
Physical Education - All classes numbered 100 C through 299 C.
Science/Engineering/Mathematics - All classes numbered 100 C through 299 C; Basic Electricity 051 C is transferable only for Industrial Arts Majors.
Social Science - All classes numbered 100 C through 299 C.
Vocational Technical Education - All classes numbered 100 C through 299 C; Aviation 050 C and Photography 050 C.
GRADUATION/EDUCATIONAL OPTIONS

HOW TO EARN AN ASSOCIATE DEGREE

Graduation Requirements
For this catalog year.

Graduation requirements for the Associate Degree are prescribed by the California Community Colleges Board of Governors and the North Orange County Community College District Board of Trustees. All lower division courses numbered 001 C-299 C, excluding courses indicated as non-degree, are appropriate for the Associate degree. An Associate Degree may be earned upon satisfactory completion of all of the following:

• English and Math placement testing or equivalent.
• one of the three Associate Degree options.
• a minimum of 60 units of degree eligible general education, major and elective course work at one or more regionally accredited institutions.
• the last 12 units, or a total of at least 24 units, at Cypress College.
• at least one 3 unit course in cultural pluralism.
• the reading proficiency requirement.

In order to graduate, students must submit a Graduation Application to the Admissions and Records Office. Students may apply for graduation during the semester they are completing graduation requirements or thereafter.

Courses taken at other regionally accredited Colleges and Universities to fulfill General Education requirements may be used to satisfy Cypress College General Education requirements only if they are used in the same category and are degree applicable at Cypress College. (This policy supersedes all previous catalogs and is effective 2001-2002 catalog.)

ASSOCIATE DEGREE OPTIONS

Option I - Liberal Arts
The Option I - Liberal Arts Degree is designed for the individual who desires an Associate in Arts Degree and transfer to a California State University or the University of California. This option also enables individuals to transfer to some private, four-year colleges and universities. This degree includes only transfer course work (see Course Numbering section for description of transfer course work).

Requirements for the Option I - Liberal Arts Degree include:
• Completion of the California State University General Education Breadth requirements (CSU GE Breadth) or the Intersegmental General Education Transfer Curriculum (IGETC).
• Completion of an additional 20 transferable units including one (1) unit of physical education for a total of 60 transferable units.
• A 2.0 (C) overall GPA.

• Fulfillment of all graduation requirements.
• Note: Completion of this option automatically meets the Reading Proficiency requirement.

Option II - Occupational
The Option II - Occupational Degree is designed for individuals who desire an Associate in Arts or Associate Science Degree with an occupational major. This degree may include transfer and/or non-transfer course work (see Course Numbering section for description of transfer and non-transfer course work) and includes completion of major requirements.

Requirements for the Option II - Occupational Degree include:
• Completion of 25 units of general education including one (1) unit of physical education. These units must be chosen from the classes listed in the General Education Requirements for the Associate Degree.
• Completion of Major emphasis courses listed in the catalog with a minimum grade of “C”. A minimum of 50% of these courses must be completed at Cypress College.
• Completion of additional degree eligible classes for a total of 60 units (see Non-Degree Credit Courses for description of classes that are non-degree eligible).
• A 2.0 (C) overall GPA.
• Fulfillment of all graduation requirements.

Occupational Degrees Offered by Cypress College are:
- Accounting
- Administrative Assistant
- Administrative Support
- Air Conditioning and Refrigeration
- Airline Customer Services
- Art - General
- Art - Advertising Design
- Automotive Technology
- Aviation Management
- Commercial Pilot
- Computer Applications
- Computer Information Systems
- Computer Programming
- Computer Science
- Court Reporting
- Culinary Arts
- Dance
- Dental Hygiene
- Drafting Engineering Technology
- Ethnic Studies
- Flight Attendant
- Food Service Management
- General Studies
- Geographic Information Systems
- Health Information Technology
- Hotel Management
- Human Services
- Legal Secretary/Administrative Assistant
- Liberal Arts
- LVN to RN
- Management
- Marketing
- Medical Staff Services Science
- Merchandising
- Mortuary Science
- Music
- Photography
- Physical Education
- Pre-Engineering
- Psychiatric Technology
- PT to RN
- Radiologic Technology
- Registered Dental Assisting
- Registered Nursing
Option III - General Studies
The Option III - General Studies Degree is designed for individuals who desire an Associate in Arts or Associate in Science Degree with a broad general education background. This degree may include transfer and/or non-transfer course work (see Course Numbering section for description of transfer and non-transfer course work).

Requirements for the Option III - General Studies Degree include:
- Completion of 25 units of general education including 1 unit of physical education. These units must be chosen from the classes listed in the General Education Requirements for the Associate Degree.
- Completion of additional degree eligible classes for a total of 60 units (see Non-degree Credit Courses for description of classes that are non-degree eligible). No more than 15 of these units can be in activity/laboratory only classes.
- A 2.0 (C) overall GPA.
- Fulfillment of all graduation requirements.

An Associate in Arts Degree includes at least 20 units in Social Science, Humanities and Arts courses. An Associate in Science Degree includes at least 20 units in Science, Math and Technical courses.

MULTIPLE DEGREES
Students may apply for more than one Associate Degree under Option I and/or Option II provided they meet the requirements. However students who have an Associate Transfer Degree, or are applying for an Associate Degree under Option I and/or Option II, may not apply for an additional degree under Option III.

General Education Requirements for the Associate Degree
General Education requirements at Cypress College are designed to introduce students to the many ways people comprehend the modern world. The subject matter presented in general education courses is designed to be broad, and frequently introductory, rather than specialized, narrow, or advanced. These courses form a pattern of learning experiences designed to develop the following insights and capacities in all students, regardless of their ultimate educational goals:

- Knowledge of the common principles, concepts, and modes of inquiry to the major disciplines;
- Appreciation and understanding of the environment, culture, society, and self;
- Ability to think and communicate clearly and effectively, critically and ethically both orally and in writing;
- Proficiency in mathematics, natural science, and analytical thinking;
- Understanding of the political and economic environment in order to be better informed and more responsible citizens;
- Desire to continue education throughout their lives.

Courses taken for general education must be on the Associate Degree General Education list at the time they are taken. Students may use only one English course numbered 001 C – 099 C towards meeting the general education requirements for an AA or AS degree. Continuing students should check with a counselor in planning completion of General Education requirements.

Students entering Cypress College in Fall, 1995, or later, must complete 25 units of General education (of the total 60 units required for the Associate Degree) taken from the following areas:

CATEGORY A - LANGUAGE AND RATIONALITY
(6 Units)
A1. Written Communication - A minimum of 3 Units
ENGL 095 C Effective Written Communication 3
ENGL 100 C College Writing 3
ENGL 100HC Honors College Writing 3

A2. Analytical Thinking - A minimum of 3 Units
CIS 111 C Computer Literacy - Intro to Info Systems 3
CSCI 185AC Computer Science I 4
ENGL 075 C Basic Literature and Writing 3
ENGL 103 C Critical Reasoning and Writing 3
ENGL 104 C Critical Analysis & Literature 3
ENGL 104HC Honors Critical Analysis & Lit 3
ENGL 135 C Advanced Grammar and Usage 3

ENGL 106 C Critical Thinking 3
ENGL 201 C Intermediate College Writing 3
PHIL 170 C Logic and Critical Thinking 3
PHIL 172 C Critical Thinking/Writing 3
SPCH 100 C Effective Oral Communication 3
SPCH 100HC Honors Human Communication 3
SPCH 135 C Essentials of Argumentation 3

CATEGORY B - NATURAL SCIENCES AND MATHEMATICS
(6 Units)
B1. Life Sciences and Physical Sciences - A minimum of 3 units.
Life Sciences
ANTH 201 C Physical Anthropology 4
BIOL 101 C General Biology 5
BIOL 101HC Honors General Biology 5
BIOL 102 C Human Biology 3
BIOL 103 C Human Ecology 3

READING PROFICIENCY
Proficiency in reading may be satisfied by completing one of the following:

- ENGL 096 C Preparation for College Reading
- ENGL 102 C Introduction to Literature
- ENGL 106 C Critical Thinking

A satisfactory score on a reading proficiency test. (Refer to the Schedule of Classes listed under STEP TWO, ENGLISH ASSESSMENT.)
- California State University (CSU) general education certification.
- IGETC certification.
- Bachelors degree from a U.S. regionally accredited institution. (This policy supersedes all previous reading proficiency requirements.)

APPLICATION FOR GRADUATION
Students may apply for graduation during the semester they are completing graduation requirements or thereafter. They do not have to be currently enrolled in Cypress College to apply for graduation. Those students who have maintained continuous enrollment have the option of completing the graduation requirements in effect at the time they initially enrolled or any subsequent catalog up to and including the semester their graduation requirements are completed.
Applications for graduation are available in the Admissions and Records Office and will be accepted through the third week of each semester for the Fall and Spring Semesters and through the third day of the Summer Session. If the application is not filed prior to the deadline date, the student must submit another application and will graduate at a later date. There is a $5.00 non-refundable fee for filing a graduation application.

It is the student’s responsibility to provide the Cypress College Records Office with official copies of all transcripts from other colleges which will be used to meet requirements for graduation. The transcripts become the property of the Records Department and will not be released.

Diplomas will be available approximately four months after the date of graduation and will be mailed to the address noted on the Graduation Application filed with the Records Office. Commencement is held on the lawn, east of Gymnasium II at the end of the Spring Semester. Commencement ceremonies are held for the prior Summer and Fall graduates and prospective Spring graduates. Guest passes for attendance are not required. Refer to the Schedule of Classes for date of ceremony.

HOW TO EARN A VOCATIONAL CERTIFICATE

A Vocational Certificate is a verification of competency designed to show that the student is proficient and employable in a specific occupational skill. Certificates do not require general education course work.

Requirements for Vocational Certificate Programs for the 2003-2004 Catalog Year include:
• Completion of a specific program of vocational courses listed in the catalog with a minimum grade of “C”.
• Completion of at least 50% of the required courses at Cypress College.
• Submission of an Application for Certificate in the Records Office.

Vocational Certificates offered by Cypress College are:

AIR CONDITIONING AND REFRIGERATION
Air Conditioning and Refrigeration

AIRLINE AND TRAVEL CAREERS
Basic Airline Customer Services
Basic Flight Attendant
Basic Travel/Tourism
Advanced Airline Customer Services

*Students must have previously earned an Associate Degree to be eligible for these certificates.

Students with disabilities requiring accommodations on state or national examinations should contact the department coordinator for further information. Requests for accommodations should be made prior to applying for any licensing or certification examination.

---

**DEPARTMENT CERTIFICATES**
Some vocational departments offer certificates of accomplishment in specialty areas. Students should see a counselor for specific information about department certificate requirements.

**APPLICATION FOR CERTIFICATES**
Students may apply for a certificate during the semester they are completing the certificate requirements or thereafter. They do not have to be currently enrolled in Cypress College to apply for a certificate. Those students who have maintained continuous enrollment have the option of completing the certificate requirements in effect at the time they initially enrolled or any subsequent catalog up to and including the last semester of attendance.

Students wishing to use courses from another institution to meet Cypress’ requirements should meet with a counselor to determine course equivalency.

Applications for certificates are available in the Admissions and Records Office and will be accepted until the deadline dates. If the application is not filed prior to the deadline date, the student must submit another application and will receive their certificate at a later date. There is a $5 non-refundable fee for filing a certificate application. Application deadlines are listed in the class schedule.

It is the student’s responsibility to provide the Cypress College Records Office with official copies of all transcripts from other colleges which will be used to meet requirements for certificates. The transcripts become the property of the Records Department and will not be released.

Certificates will be mailed approximately three months after the end of the semester in which the student applied and completed the requirements. Program Certificates will be noted on student transcripts.

**HOW TO TRANSFER TO A FOUR-YEAR COLLEGE**
A Transfer Program typically includes course work in an academic (major) area, general education requirements, and elective courses that transfer to a four-year baccalaureate institution. These programs are designed to parallel the courses offered for freshmen and sophomores at four-year colleges and universities.

Each college or university has its own admission standards and curriculum requirements. Students should decide as soon as possible on the transfer school in order to identify the courses that must be completed and the grades that must be achieved prior to transfer.

In general, students who attend Cypress College may transfer to a four-year college or university without loss of time or credits if, while in attendance, they accomplish the following:

- Satisfy the lower-division general education requirements prescribed by the transfer institution.
- Fulfill the lower-division major requirements prescribed by the transfer institution.
• Remove any subject or grade deficiencies incurred in high school, if required by the transfer institution for admission.
• Complete a minimum of 60 and a maximum of 70 transferable units.
• Maintain the appropriate GPA required by the transfer institution.

Grades are the best indicator of success in academic work. A minimum grade of "C" average in all transfer courses is a requirement for transfer to most four-year colleges. Grades in the major should be significantly higher. Students should confer with a counselor for the specific requirements of the school of their choice.

The following charts indicate the general education transfer requirements for those colleges and universities most frequently utilized by Cypress College students. These transfer agreements are subject to an ongoing review and revision by the transfer institutions. The transfer agreements listed on the following charts represent agreements at the time of publication. Students should contact a counselor or the transfer institution of their choice for current information.

CSU GENERAL EDUCATION BREADTH REQUIREMENTS

Students wishing to transfer to California State Universities should follow this plan.

Requirements for graduation from the California State University System include completion of certain courses in general education. Cypress College is permitted to certify that a student has satisfied the lower division 39-unit general education requirements established by the California State University System.

Students must apply for General Education Certification through the Admissions and Records Office during the semester in which requirements will be completed or thereafter.

To meet general education requirements and obtain certification, students must complete the pattern of courses in the five categories listed. A course or sequence used to satisfy a requirement in one area may not be used to satisfy a requirement in another area. Some state universities will not allow students to count courses in their major field as a requirement in another area. Some state universities may require two lab courses if a student is not fully certified.

A. COMMUNICATION IN THE ENGLISH LANGUAGE
(9 Unit minimum)

**INTERSEGMENTAL GENERAL EDUCATION TRANSFER CURRICULUM (IGETC)**

The Intersegmental General Education Transfer Curriculum (IGETC) is a general education program which community college transfer students may use to fulfill lower division general education requirements for the California State University (CSU) or University of California (UC) system. Completion of IGETC eliminates the need to take additional lower division general education courses after transfer.

IGETC is accepted by the University of California, California State University, and by many private institutions. Students wishing to transfer to the University of California or who are undecided about their transfer institution should consult a counselor before choosing this plan.
IGETC must be completed in its entirety prior to transfer and must be certified in order to be accepted by CSU or UC. However, if you are approaching readiness for transfer and, for good cause, are unable to complete one or two IGETC courses which are not required for admission to the university, you may be eligible to complete IGETC after transferring. You must present cause by petition and submit it to the Admissions and Records Office. Typical situations which constitute good cause are illness, unavailable or cancelled courses, military service, and unexpected hardships experienced in the final semester before transfer. You must complete the remaining IGETC courses before the beginning of the second full year of enrollment at your UC or CSU campus. In addition, there may be restrictions on when and where you may take the courses. See your counselor for more information.

Students must apply for IGETC certification in the Admissions and Records Office. Courses will be certified ONLY if they are on the official IGETC list during the catalog year they are taken. In addition to the course requirements for each subject area, full certification for the CSU must include completion of the Oral Communications requirement. With the UC, Oral Communications is NOT required, but the certification must include satisfactory completion of the Language Other Than English proficiency requirement. A course or sequence used to satisfy a requirement in one area may not be used to satisfy a requirement in another area. All courses must be completed with a "C" or better. Students must apply for IGETC Certification through the Admissions and Records Office during the semester in which requirements will be completed or thereafter.

It is NOT advisable for all transfer students to follow IGETC. Students pursuing majors that require extensive lower division major preparation such as Engineering, may not find the IGETC option to be advantageous. IGETC is NOT to be used if transferring to UC Berkeley School of Business or to UC San Diego Revelle or Eleanor Roosevelt Colleges. Students should see a counselor for advice and more complete information on the IGETC program.

* The courses on this list are approved at the time of printing. Check with a counselor or www.ASSIST.org for the most recent list of approved courses.

### AREA 1 ENGLISH COMMUNICATION

**CSU:** 3 courses required, one from each group below.
**UC:** 2 courses required, one from Group A and B.

**GROUP A: ENGLISH COMPOSITION (Code = IA)**

1 course, 3 semester units, (4-5 quarter units)

- **ENGL 100 C** College Writing 3
- **ENGL 100HC** Honors College Writing 3

**GROUP B: CRITICAL THINKING - ENGLISH COMPOSITION (Code = IB)**

1 course, 3 semester units, (4-5 quarter units)

- **ENGL 104 C** Critical Analysis/Writing About Literature 3
- **ENGL 104HC** Honors Critical Analysis/Writing About Literature 3
- **ENGL 201 C** Intermediate College Writing 3
- **PHIL 172 C** Critical Thinking/Writing 3

**GROUP C: ORAL COMMUNICATION (Code = IC) (CSU requirement only)**

1 course, 3 semester units, (4-5 quarter units)

- **SPCH 100 C** Human Communication 3
- **SPCH 100HC** Honors Human Communication 3

---

### AREA 2 MATHEMATICAL CONCEPTS & QUANTITATIVE REASONING

1 course, 3 semester units, (4-5 quarter units)

**MATH (Code = 2A)**

- **MATH 100 C** Math for Liberal Arts Students 3
- **MATH 115 C** Finite Mathematics 3
- **MATH 120 C** Intro Probability and Statistics 4
- **MATH 120HC** Honors Intro Prob & Stat 4
- **MATH 130 C** Survey of Calculus 4
- **MATH 141C** College Algebra 4
- **MATH 150AC** Calculus and Analytic Geometry 4
- **MATH 150BC** Calculus and Analytic Geometry 4
- **MATH 250AC** Intermediate Calculus 4
- **MATH 250BC** Intermediate Calculus 4
- **PSY 161 C** Probability & Stats-Social Sci 4
- **SOC 161 C** Probability & Stats-Social Sci 4

**MATH (Code = 3A)**

- **ART 100 C** Fundamentals of Art 3
- **ART 101 C** Introduction to Art 3
- **ART 111 C** Survey of Art History I 3
- **ART 112 C** Survey of Art History II 3
- **ART 112HC** Honors Survey of Art History II 3
- **ART 114 C** Modern Art History 4
- **ART 212 C** Asian Art History 3
- **ART 313 C** World Art History 3
- **DANC 101 C** Multicultural Dance in the U.S. 3
- **DANC 120 C** Dance History 3
- **ENGL 125 C** The Film 3
- **ENGL 125HC** Honors The Film 3
- **INDS 110 C** Contemporary Multicultural Arts 3
- **MUS 103AC** Theory and Musicianship I 4
- **MUS 113 C** Jazz History 3
- **MUS 115 C** Music Cultures of the World 3
- **MUS 116 C** Music Appreciation 3
- **MUS 117 C** American Popular Music 3
- **MUS 118 C** Introduction to Opera 3
- **MUS 118BC** Honors Introduction to Opera 3
- **MUS 119 C** History of Rock Music 3
- **MUS 120 C** Survey of Music History 3
- **THEA 100 C** Introduction to Theater 3
- **THEA 102 C** World Theater History 3
- **THEA 102HC** Honors World Theater History 3
- **THEA 104 C** Introduction to Theater Appreciation 3
- **THEA 107 C** Ethnic Influences in U. S. Theater 3

**MATH (Code = 2B)**

- **MATH 115 C** Finite Mathematics 3
- **MATH 120 C** Intro Probability and Statistics 4
- **MATH 130 C** Survey of Calculus 4
- **MATH 141C** College Algebra 4
- **MATH 150AC** Calculus and Analytic Geometry 4
- **MATH 150BC** Calculus and Analytic Geometry 4
- **MATH 250AC** Intermediate Calculus 4
- **MATH 250BC** Intermediate Calculus 4
- **PSY 161 C** Probability & Stats-Social Sci 4
- **SOC 161 C** Probability & Stats-Social Sci 4

**MATH (Code = 3B)**

- **MATH 102 C** Introduction to Literature 3
- **MATH 110 C** Humanities and the Arts 3
- **MATH 111 C** Humanities and the Arts 3
- **MATH 115 C** Finite Mathematics 3
- **MATH 120 C** Intro Probability and Statistics 4
- **MATH 130 C** Survey of Calculus 4
- **MATH 141C** College Algebra 4
- **MATH 150AC** Calculus and Analytic Geometry 4
- **MATH 150BC** Calculus and Analytic Geometry 4
- **MATH 250AC** Intermediate Calculus 4
- **MATH 250BC** Intermediate Calculus 4
- **PSY 161 C** Probability & Stats-Social Sci 4
- **SOC 161 C** Probability & Stats-Social Sci 4

### AREA 3 ARTS AND HUMANITIES

At least 3 courses, with at least one from the Arts and one from the Humanities; 9 semester units, (12-15 quarter units)

**A. ART (Code = 3A)**

- **ART 100 C** Fundamentals of Art 3
- **ART 101 C** Introduction to Art 3
- **ART 111 C** Survey of Art History I 3
- **ART 112 C** Survey of Art History II 3
- **ART 112HC** Honors Survey of Art History II 3
- **ART 114 C** Modern Art History 4
- **ART 212 C** Asian Art History 3
- **ART 313 C** World Art History 3
- **DANC 101 C** Multicultural Dance in the U.S. 3
- **DANC 120 C** Dance History 3
- **ENGL 125 C** The Film 3
- **ENGL 125HC** Honors The Film 3
- **INDS 110 C** Contemporary Multicultural Arts 3
- **MUS 103AC** Theory and Musicianship I 4
- **MUS 113 C** Jazz History 3
- **MUS 115 C** Music Cultures of the World 3
- **MUS 116 C** Music Appreciation 3
- **MUS 117 C** American Popular Music 3
- **MUS 118 C** Introduction to Opera 3
- **MUS 118BC** Honors Introduction to Opera 3
- **MUS 119 C** History of Rock Music 3
- **MUS 120 C** Survey of Music History 3
- **THEA 100 C** Introduction to Theater 3
- **THEA 102 C** World Theater History 3
- **THEA 102HC** Honors World Theater History 3
- **THEA 104 C** Introduction to Theater Appreciation 3
- **THEA 107 C** Ethnic Influences in U. S. Theater 3

**B. HUMANITIES (Code = 3B)**

- **ENGL 102 C** Introduction to Literature 3
- **ENGL 110 C** Humanities and the Arts (same as INDS 100 C) 3
- **ENGL 111 C** Humanities and the Arts (same as INDS 101 C) 3
- **ENGL 207 C** The Short Story 3
- **ENGL 208 C** Asian-American Literature 3
- **ENGL 211 C** English Literature - Part One 3
- **ENGL 212 C** English Literature - Part Two 3
- **ENGL 221 C** American Literature - Part One 3
- **ENGL 222 C** American Literature - Part Two 3
- **ENGL 234 C** Shakespeare 3
- **ENGL 234HC** Honors Shakespeare 3
- **ENGL 239 C** Survey of Children’s Literature 3
- **ENGL 247 C** Voices of America 3
- **ENGL 250 BC** World Literature 3
- **ENGL 250BC** World Literature 3
- **FREN 203 C** Intermediate French III 4
- **FREN 204 C** Intermediate French IV 4
- **HIST 110AC** Western Civilization I 3
- **HIST 110BC** Western Civilization II 3
- **HIST 112 C** World Civilization I 3
- **HIST 113 C** World Civilization II 3
**ANTHROPOLOGY and ARCHAEOLOGY (Code = 4A)**

- HIST 160AC Asian Civilization 3
- HIST 160BC Asian Civilization 3
- HIST 165C History of Mexico 3
- HIST 165C Middle Eastern History 3
- HIST 180C People and Culture in East Asia 3

+ IND 100C Humanities and the Arts (same as ENGL 110C) 3
+ IND 101C Humanities and the Arts (same as ENGL 111C) 3

**ETHNIC STUDIES (Code = 4C)**

- ETH 130 C African-American History 3
- ETH 130HC Honors Principles of Economics (Macro) 3
- ETH 130HC Honors Principles of Economics (Micro) 3
- ETH 130HC Honors Principles of Economics 3
- ETH 130C Principles of Economics (Macro) 3
- ETH 130C Principles of Economics (Micro) 3

**ECONOMICS (Code = 4B)**

- ECON 100C Principles of Economics (Macro) 3
- ECON 100HC Honors Principles of Economics (Macro) 3
- ECON 105C Principles of Economics (Micro) 3
- ECON 105HC Honors Principles of Economics 3
- ECON 110C Survey of Economics 3

**GEOGRAPHY (Code = 4E)**

- GEOG 100C World Geography 3
- GEOG 100HC Honors World Geography 3
- GEOG 130C California Geography 3
- GEOG 140C Weather and Climate 3
- GEOG 160C Cultural Geography 3
- GEOG 260C Economic Geography 3

**HISTORY (Code = 4F)**

- HIST 130C African-American History 3
- HIST 141C Chicana/o History 3
- HIST 110AC Western Civilization I 3
- HIST 110BC Western Civilization II 3
- HIST 112C World Civilization I 3
- HIST 112HC Honors World Civilization I 3
- HIST 113C World Civilization II 3
- HIST 151C Survey of British History 3
- HIST 152C Survey of British History 3

**LANGUAGE OTHER THAN ENGLISH (Code = 6A)**

(UC Requirement only) Complete one of the following:

1. Complete two years of high school foreign language in the same language with a grade of "C" or better.

2. Earn a score of 3 or higher on the Foreign Language Advanced Placement test.

3. Earn a minimum score of 550 on the SAT II Subject Test in languages other than English.

4. Complete course 102 in a Foreign Language at Cypress College or equivalent courses at another college or university.

5. Completion with "C" grade or better 2 years of formal schooling at the 6th grade level or higher at an institution where the language of instruction is not English.

Cypress College courses that meet the proficiency Level:

- CHIN 102 C Elementary Chinese-Mandarin I 5
- FREN 102 C Elementary French II 5
- GERM 102 C Elementary German II 5
- JAPN 102 C Elementary Japanese II 5
- SPAN 102 C Elementary Spanish II 5
- SPAN 102HC Honors Elementary Spanish II 5
- SPAN 201C Spanish for Spanish Speakers 5
- SPAN 101 C and 102 C combined are equivalent to SPAN 201C

**CSU GRADUATION REQUIREMENT IN U.S. HISTORY, CONSTITUTION AND AMERICAN IDEALS - Not part of IGETC:** may be completed prior to transfer; 6 units, one course from Group 1 and one course from Group 2.

**POLITICAL SCIENCE (Code = 7A)**

- * POSC 100 C Government of the United States 3
- * POSC 100HC Honors Government of the United States 3

**HISTORY (Code = 7B)**

- * HIST 162AC History of the Americas 3
- * HIST 162BC History of the Americas 3
- * HIST 170 C History of the United States 3
- * HIST 171 C History of the United States 3
- * HIST 171HC Honors History of the U. S. 3

---

**LEGEND**

* Course is listed in more than one area but shall not be certified in more than one area.
+ Transfer credit is limited by either UC or CSU or both.

Please consult with a counselor, or the Transfer Center located in the Fine Arts Building - 1st floor. Duplicate credit is not awarded for a non-honors section and an honors section of the same class.

**NOTE:**

Courses approved for Fall, 1991 may be taken PRIOR TO FALL, 1991.

Courses approved for Fall, 1992 or later may be certified only if taken when the course is on the official IGETC list.

Check with the Transfer Center or your counselor for a list of the courses which have been added or deleted since the original list was published in 1991.

**GENERAL EDUCATION CERTIFICATION**

Students planning to graduate from one of the campuses of the California State University or University of California must complete a minimum number of general education breadth courses. Cypress College is permitted to certify completion of the lower division general education requirement. Certification is not automatic. To meet general education requirements and obtain certification, students must:

- Complete the pattern of courses in the categories listed.
- Apply for GE certification through the Admissions and Records Office by the published deadline during the semester in which requirements will be completed or thereafter. Students with transcripts from other educational institutions should see a counselor to obtain a supplemental “pass along” form which must be attached to the certification application. Courses completed at educational institutions outside the United States cannot be used for “pass along.” These courses must be evaluated by the university during the application process. Students do not have to be currently enrolled in Cypress College to apply for GE certification.

Standard Definitions

Definition of Advisory
When a course has an advisory, it means that a student is recommended to have certain preparation before entering the course. The preparation is considered advantageous to a student’s success in the course. Since the preparation is recommended, the student is advised, but not required, to meet the condition before or in conjunction with enrollment in the course or educational program (eligibility for ENGL 100 C is recommended for POSC 100 C).

Definition of ASSIST
ASSIST is a computerized student-transfer information system that can be accessed over the World Wide Web. It displays reports of how course credits earned at one California college or university can be applied when transferred to another. ASSIST is the official repository of articulation for California’s colleges and universities and therefore provides the most accurate and up-to-date information available about student transfer in California. ASSIST is available at: www.assist.org.

Definition of CAN
The California Articulation Number (CAN) System is a statewide numbering system independent from course numbers assigned by local colleges. A CAN number signals that participating California colleges and universities have determined that courses offered by other campuses are equivalent in content and scope to courses offered on their own campuses, regardless of their unique titles or local identifying numbers. Thus, if a schedule of classes or catalog lists a course bearing a CAN number, students on one campus can be assured that it will be accepted in lieu of the comparable CAN course noted in the catalog or schedule of classes of another campus. For example, CAN ECON 2 on one campus will be accepted as meeting the requirement of the designated CAN ECON 2 course on other participating community college or university campuses.

The CAN numbering system is useful for students attending more than one community college and is applied to many of the transferable, lower division courses students need as preparation for their intended major. Because these course requirements may change, however, and because courses are continually being redefined, qualified for, or deleted from the CAN database, students should always check with their campus’ counselors, articulation officer, or the transfer center director to determine how CAN-designated courses fit into their educational plans for transfer.

Students should consult the ASSIST database at www.assist.org for specific information on course agreements. The counselors and Transfer Center staff can help students interpret this information.

Definition of Corequisite
When a course has a corequisite, it means that a student is required to take another course concurrent with or prior to enrollment in the course. Knowing the information presented in the corequisite course is considered necessary in order for a student to be successful in the course (completion of, or concurrent enrollment in, MATH 040 C is required for CHEM 107 C).

It is the student’s obligation to know and meet course corequisites. These are stated in the course description section of the Schedule of Classes and the current College Catalog. The student may be required to file proof of meeting corequisites.

Definition of Prerequisite
When a course has a prerequisite, it means that a student must have certain knowledge to be successful in the course. The prior knowledge may be a skill (type 35 wpm), an ability (speaks and writes Spanish fluently), a test score, or a successful completion of a prior course (must have completed ENGL 060 C with a grade of “C” or better). Completion of the prerequisite is required prior to enrolling in the course. Successful completion of a prerequisite course means that a grade of CR, P, or NCR grades are not acceptable.

Prerequisites for all courses are explained in the Schedule of Classes and the current College Catalog under the listing for the class. It is the student’s obligation to know and meet course prerequisites. The student may be required to file proof of meeting prerequisites.

Definition of Unit
Course work at Cypress College is measured in terms of semester units. A course requires a minimum of three hours of student work per week, per unit, including class time and/or demonstrated competency for each unit of credit, prorated for short term, laboratory and activity courses.

Definition of Electives
An elective is a course not required for graduation or for the fulfillment of requirements for a program. For example, a science student might take electives from non-science areas, which might include history, art, English, music, or political science. A history student might take electives from biology, chemistry, art, music or English literature. To assist in choosing electives, a student should consult a counselor and the catalog of the college to which he/she expects to transfer.
Description of Courses

The following section includes a description of every course which may be studied at Cypress College. The prerequisite(s) for the class is stated, if applicable.

The program of instruction related to the numbering of courses is divided into major categories:

• College and university parallel courses (transfer courses,) have title numbers ranging from 100 through 299. If appropriate to the student’s major, they usually will be accepted as transfer units to institutions of higher education for their full credit value.

• Several general education courses, in addition to occupational, vocational and technical courses will bear the title numbers ranging from 001 through 099 and generally are not transferable to institutions of higher education except as they apply to major programs in the California State Universities. Students are advised to confer with their counselors regarding the transferability of these courses to particular colleges or universities.

Students entering Cypress College should consult with college counselors in planning their programs of study. The faculty and counseling staff of Cypress College will assist students in every way possible to make wise vocational and educational plans. Students, however, must assume the responsibility for their own choices and plans.

NON-DEGREE CREDIT courses indicated as NON-DEGREE CREDIT do earn credit, but the credit is not counted toward the Associate Degree. These classes are intended to help students gain the skills they need to perform in college level degree applicable courses. NON-DEGREE CREDIT classes count toward the following categories: Athletic Eligibility, Social Security Benefits, Work Study and Financial Aid, Veterans’ Benefits, Associated Student Body Office and Full-Time Status. All other Cypress College courses are degree applicable.

UC/CSU designated courses are transferable to the campuses of the University of California and the California State University system. Those courses that are not marked UC are not transferable to the University of California campuses. Confer with a counselor for information regarding transferability of courses marked UC Limitation. Students can view a complete list of Cypress College courses that are transferable to the UC at www.assist.org.

CSU GE - These courses satisfy general education breadth requirements for California State Universities.

AA GE - Courses which satisfy general education requirements for the Associate Degree.

IGETC - Intersegmental General Education Transfer Curriculum is a series of courses that Cypress College students may use to satisfy lower division general education requirements at any CSU or UC campus.

CAN - Courses with California Articulation Numbering designations are transferable and will be accepted in lieu of an identically designated CAN course at any other institution participating in the California Articulation Numbering system.

CUL PL - Courses with the Cultural Pluralism designation are ones which meet the Cypress College cultural pluralism graduation requirement.

RDG - Courses with the Reading Proficiency designation are ones which meet the Cypress College reading proficiency graduation requirement.
ASSOCIATE IN SCIENCE DEGREE ACCOUNTING
This curriculum is designed to prepare the student for employment in the field of general bookkeeping and accounting. A graduate from this program should be equipped to meet the demands of any organization requiring skills in general accounting, cost accounting and analysis of financial information.

To earn an Associate Degree students must complete: (1) all major course requirements with a minimum grade of “C”; (2) 25 units of General Education Graduation Requirements; (3) the cultural pluralism and reading requirements; (4) any elective courses to complete a minimum of 60 units; and, (5) have a minimum GPA of 2.0. At least 50% of all major course work must be completed at Cypress College.

Required courses are listed in suggested sequence:

ACCOUNTING TRANSFER PROGRAM
Students should consult a counselor or www.assist.org for lower division major requirements for most California public universities. (See the Standard Definitions section of the catalog for a description of ASSIST.) Students transferring to an independent college/university should consult the catalog of the individual school and a counselor for lower division major requirements.

Accounting (ACCT)

ACCT 011 C PAYROLL ACCOUNTING
2 Units
Two hours lecture and
One hour laboratory TBA per week.
Prerequisite: ACCT 101 C. This course is a thorough study of payroll computation techniques and payroll taxes. The course is of a non-technical nature and is intended to give students a practical working knowledge of current payroll tax laws. $3.00 Laboratory Fee - PAYABLE AT REGISTRATION.

ACCT 099 C BOOKKEEPING PRINCIPLES & PRAC.
3 Units
Three hours lecture and
One hour laboratory TBA per week.
This is a basic course in financial record keeping using the double-entry system for recording transactions. A systematic introduction to journals, ledgers, and financial statements as utilized in sole proprietorships will be taught. $3.00 Laboratory Fee – PAYABLE AT REGISTRATION.

ACCT 101 C FINANCIAL ACCOUNTING
4 Units
Five hours lecture per week.
Credit by Examination
UC/CSU, CAN BUS 2
A course in beginning accounting meets transfer requirements to four-year colleges and universities and provides a foundation for vocational accounting or other areas of business administration. This course describes and illustrates financial accounting principles including classification of accounts, recording of financial transactions, presentation of financial statements, and fundamentals of the accounting cycle as applied to service and merchandising enterprises.
ACCT 102 C MANAGERIAL ACCOUNTING
4 Units
Five hours lecture and
One hour laboratory TBA per week.
UC/CSU, CAN BUS 4
Prerequisite: ACCT 101 C, with a grade of “C” or better. Advisory: Knowledge of spreadsheet software recommended. This course provides a foundation for advanced courses in managerial accounting. Instructional topics include the application of managerial accounting to a manufacturing environment, job and process cost accounting systems, cost allocation, cost-volume-profit analysis, absorption and variable costing, differential analysis for decision making, capital investment analysis, budgeting, financial statement analysis, standard costing, and responsibility accounting in a decentralized operation. Computer applications are integrated into the homework. This course is required of all accounting and business administration majors. $3.00 Laboratory Fee – PAYABLE AT REGISTRATION.

ACCT 103 C COMPUTERIZED ACCOUNTING
1 Unit
One hour lecture and
One hour laboratory TBA per week.
CSU
Prerequisite: ACCT 099 C or 101 C. This course introduces students to starting and using a small business computerized accounting system. Students will utilize computerized accounting software to create a chart of accounts, record journal entries, prepare financial statements, and create supporting reports useful in making business decisions. $3.00 Laboratory Fee – PAYABLE AT REGISTRATION.

ACCT 112 C INCOME TAX PROCEDURES
3 Units
Three hours lecture per week.
CSU
Prerequisite: ACCT 101 C. This course is an introduction to Federal Income Tax as applied to individuals, partnerships, and corporations. The application of laws and regulations to the preparation of income tax returns is involved.

ACCT 190 C ACCOUNTING SYS. DESIGN & APPL
3 Units
Three hours lecture and
One hour laboratory TBA per week.
CSU
Prerequisite: ACCT 101 C. The course offers the student a hands-on approach to computerized accounting. Students will explore different computerized accounting systems such as General Ledger, Accounts Receivable, Accounts Payable, Payroll and Inventory. $3.00 Laboratory Fee – PAYABLE AT REGISTRATION.

ACCT 201 C INTERMEDIATE ACCOUNTING
3 Units
Three hours lecture per week.
CSU
Prerequisite: ACCT 101 C. This course covers intermediate accounting theory and practice. The subject areas include preparation and theory of principle accounting statements; recording, valuation, and presentation of cash: temporary investments; receivables, inventories, plant and equipment; intangible assets and liabilities; stockholders equity, retained earnings and paid-in-capital, statements and financial statement analysis.

ACCT 202 C COST ACCOUNTING
3 Units
Three hours lecture per week.
CSU
Prerequisite: ACCT 102 C. This course covers the nature, objectives, and procedures of cost accounting and managerial control of operations. It includes job, process, and standard costing; accounting for manufacturing overhead, direct materials and direct labor; budgeting; and cost records and reports.

ACCT 203 C AUDITING
3 Units
Three hours lecture per week.
CSU
Prerequisite: ACCT 101 C. This course will focus on procedures involved in verifying the records and financial statements of a business. The subject areas include ethics and liabilities, internal control, statistical sampling, work papers, audit procedures for cash, receivables, inventories, plant assets, liabilities, and owner’s equity.

ACCT 204 C ACCT-GOVT & NONPROFIT ENTITIES
3 Units
Three hours lecture per week.
CSU
Prerequisite: ACCT 101 C. This course introduces financial accounting concepts as they apply to governmental and not-for-profit entities; federal, state and local governments, school districts, universities, hospitals, religious and social service organizations. The focus is on the principles and procedures of accounting, financial reporting, budgeting and auditing requirements.

ASSOCIATE IN SCIENCE DEGREE
AIR CONDITIONING AND REFRIGERATION
This program is designed as the bridge between Engineering and Technology. It will provide students with technical skills to support engineering applications. Graduates of the program will be at the leading edge of the application of new engineering solutions to production in industry. High school preparation usually includes one year of algebra, one year of drafting, and one year of geometry.

To earn an Associate Degree students must complete:
(1) all major course requirements with a minimum grade of “C”; (2) 25 units of General Education Graduation Requirements; (3) the cultural pluralism and reading requirements; (4) any elective courses to complete a minimum of 60 units; and, (5) have a minimum GPA of 2.0. At least 50% of all major course work must be completed at Cypress College.

INDUSTRIAL TECHNOLOGY
TRANSFER PROGRAM
AIR CONDITIONING SYSTEMS OPTION
Students should consult a counselor or www.assist.org for lower division major requirements for most California public universities. (See the Standard Definitions section of the catalog for a description of ASSIST.) Students transferring to an independent college/university should consult the catalog of the individual school and a counselor for lower division major requirements.
Air Conditioning and Refrigeration (AC/R)

AC/R 050 C  AIR CONDITIONING AND REFRIGERATION - SPECIAL PROJECTS
½ - 2 Units (Variable Unit Class) (May be taken for credit 4 times)
One and one-half hour to six laboratory hours per week depending on the units desired.
Corequisite: Completion of, or concurrent enrollment in, AC/R 101 C and AC/R 102 C, or AC/R 111 C and AC/R 112 C. This course is designed for students who have demonstrated interest and capability for increased knowledge and experience in air conditioning and refrigeration topics not ordinarily covered in the curriculum. Students will participate in independent study or research on assigned projects.

AC/R 101 C  REFRIGERATION PRINCIPLES AND PRACTICE - LECTURE
4 Units
Four hours lecture per week.
CSU
Corequisite: Concurrent enrollment in AC/R 102 C. This course is a basic study of vapor compression refrigeration cycle and system components. The course consists of lectures supported by many visual aids.

AC/R 102 C  REFRIGERATION PRINCIPLES AND PRACTICE - LABORATORY
4 Units
Three hours lecture and
Three hours laboratory per week.
CSU
Corequisite: Concurrent enrollment in AC/R 101 C. This course includes laboratory projects and demonstrations involving design, assembly and operation of compression systems; basic liquid and vapor control, metering and modulating devices; design and construction of system piping, including techniques of shaping, forming, soldering and welding; dehydration of systems and charging methods.

AC/R 103 C  PSYCHROMETRICS
2 Units
One and one-half hour lecture and
One and one-half hour laboratory per week.
CSU
This course is a study of the behavior of air vapor mixtures with an emphasis on application of the psychrometric chart. Processes such as heating, cooling, dehumidifying, and evaporative cooling are studied.

AC/R 111 C  ELECTRICAL CONTROLS FOR AIR CONDITIONING AND REFRIGERATION - LECTURE
4 Units
Four hours lecture per week.
CSU
Corequisite: Concurrent enrollment in AC/R 112 C. This course includes the basic concepts of electrical principles as used in Air Conditioning and Refrigeration. Schematic reading, single-phase motor starting and electrical safety will be covered.

AC/R 112 C  ELECTRICAL CONTROLS FOR AIR CONDITIONING AND REFRIGERATION - LECTURE/LABORATORY
4 Units
Three hours lecture and
Three hours laboratory per week.
CSU
Corequisite: Concurrent enrollment in AC/R 111 C. This course emphasizes laboratory projects and experiments in the principles and application of electric circuits, equipment and controls as used in air conditioning and refrigeration. Included are schematic reading and circuit wiring.

AC/R 113 C  LOW VELOCITY DUCT SELECTION
2 Units
One and one-half hour lecture and
One and one-half hour laboratory per week.
CSU
This course is a study of fans, outlets and ducting for air conditioning systems. The procedure for designing a duct system using the ASHRAE duct friction chart and the circular duct sizing calculator is emphasized.

AC/R 130 C  PNEUMATIC CONTROL FOR A/C
4 Units
Three hours lecture and
Three hours laboratory per week.
CSU
Advisory: Completion of, or concurrent enrollment in AC/R 111, AC/R 112, MATH 020. A course designed to instruct the students in the application of air conditioning pneumatic controls as is used in commercial building systems. Students will apply the theories and skills taught in the classroom on laboratory mock-ups simulating industry standards.

AC/R 131 C  DIRECT DIGITAL CONTROLS FOR A/C
4 Units
Three hours lecture and
Three hours laboratory per week.
CSU
Prerequisite: AC/R 130 C. A course designed to instruct the student in the application of direct digital controls as used in commercial building systems. Students will apply the theories and skills taught in the classroom on laboratory mock-ups simulating industry standards.

AC/R 201 C  AIR CONDITIONING AND REFRIGERATION SYSTEMS ADVANCED
4 Units
Four hours lecture per week.
CSU
Prerequisite: AC/R 101 C, AC/R 102 C, AC/R 111 C, AC/R 112 C. Corequisite: Concurrent enrollment in AC/R 203. This is an advanced course with emphasis on the refrigeration cycle. Pipe sizing, compressor sizing, h.p. requirements, single and two stage refrigeration systems, absorption systems, centrifugal systems and other advanced refrigeration systems will be included.
AC/R 202 C  AIR CONDITIONING AND REFRIGERATION ADVANCED - LECTURE/LABORATORY
5 Units
Three and one half hours lecture and Four and one half hours laboratory per week.
CSU
Prerequisite: AC/R 101 C, AC/R 102 C, AC/R 103 C, AC/R 111 C, AC/R 112 C and AC/R 113 C. This is an advanced course in which the student will measure air and water flow, KW, find EER and COP. The student will wire and troubleshoot complex electrical controls for refrigeration and air conditioning systems. Psychrometric applications to air problems and system capacity will be emphasized. The student will use recovery and recycling machines, and will recover refrigerant from operating laboratory systems.

AC/R 203 C  REFRIGERATION LAYOUT AND DESIGN
1 1/2 Units
One and one-half hour lecture and One and one-half hour laboratory per week.
CSU
Prerequisite: AC/R 101 C, AC/R 102 C, AC/R 111 C, AC/R 112 C. Corequisite: Concurrent enrollment in AC/R 201 C. This is an advanced course with emphasis on the refrigeration cycle. The student will select components and design systems, using the knowledge gained in AC/R 201 C.

AC/R 211 C  AIR CONDITIONING HEAT LOAD
4 Units
Four hours lecture per week.
CSU
Prerequisite: AC/R 101 C, AC/R 102 C, AC/R 103 C, AC/R 111 C, AC/R 112 C. Corequisite: Concurrent enrollment in AC/R 213 C; and completion of, or concurrent enrollment in, AC/R 113. This is an advanced air conditioning class in which the student will learn how to calculate the heat load of a building.

AC/R 212 C  MECHANICAL CODES AND MECHANICAL COST ESTIMATING
5 Units
Three and one half hours lecture and Four and one half hours laboratory per week.
CSU
Prerequisite: AC/R 101 C, AC/R 102 C, AC/R 111 C, AC/R 112 C and completion of, or concurrent enrollment in, AC/R 113 C. This course is an advanced lab class in which the student will develop a material and labor cost estimate and prepare construction bids for air conditioning systems. Building and mechanical codes and inspection procedures will be covered. Estimating processes by spreadsheet will be introduced.

AC/R 213 C  AIR CONDITIONING LAYOUT AND DESIGN
2 Units
One and one-half hour lecture and One and one-half hour laboratory per week.
CSU
Prerequisite: AC/R 101 C, AC/R 102 C, AC/R 103 C, AC/R 111 C, AC/R 112 C. Corequisite: Concurrent enrollment in AC/R 211 C and completion of, or concurrent enrollment in, AC/R 113 C. This course is an advanced course in which the student will use the knowledge gained in AC/R 211 C to design an air conditioning system for a building.

AC/R 298 C  AIR CONDITIONING/REFRIGERATION SEMINAR
1/2 - 3 Units (Variable Unit Class) (May be taken for credit 4 times)
Lecture/discussion hours will vary according to credit given.
CSU
This is a course for students who wish to increase their knowledge of air conditioning and refrigeration. Various topics will be offered. Unit credit may range from 1/2 to 3 units in any given semester. Consult the class schedule to verify credit for a particular semester.

ASSOCIATE IN SCIENCE DEGREE AIRLINE CUSTOMER SERVICES

The Associate Degree in Airline Customer Services provides students with the customer service experiences, communication skills, professional image practice, and technical training necessary for pursuing a career as a Reservations Agent, Gate Agent, Ticket Agent, or Customer Services Manager. Students will develop a working knowledge of the airline industry and learn the basic skill requirements necessary to work as a customer services representative for a major airline.

To earn an Associate Degree students must complete: (1) all major course requirements with a minimum grade of “C”; (2) 25 units of General Education Graduation Requirements; (3) the cultural pluralism and reading requirements; (4) any elective courses to complete a minimum of 60 units; and, (5) have a minimum GPA of 2.0. At least 50% of all major course work must be completed at Cypress College.

ADVANCED FLIGHT ATTENDANT CERTIFICATE

The Flight Attendant Program provides students with the customer service experiences, communication skills, professional image practice, and technical understanding necessary for pursuing a career as a flight attendant. Because the airline recruiting and training programs for flight attendants are so rigorous, students learn valuable information that enhances their chance for a successful career in the exciting travel industry.

To earn an Advanced Flight Attendant certificate, complete the required courses as listed with a minimum grade of "C". At least 50% of all course work must be completed at Cypress College.

Required courses are listed in suggested sequence:

AIRLINE AND TRAVEL CAREERS TRANSFER PROGRAMS
Students should consult a counselor or www.assist.org for lower division major requirements for most California public universities. (See the Standard Definitions section of the catalog for a description of ASSIST.) Students transferring to an independent college/university should consult the catalog of the individual school and a counselor for lower division major requirements.

Airline and Travel Careers (ATC)
ATC 050 C SPECIAL PROJECTS - AIRLINE
2 Units (May be taken for credit two times.)
One hour lecture and
Three hours laboratory TBA per week.
Corequisite: Completion of, or concurrent enrollment in ATC 070 C and/or ATC 170 C. Advisory: Concurrent enrollment in ATC 270 C or ATC 274 C. This course provides students with service learning opportunities that put into practice the abstract theories of their course work. Students will develop their public contact and customer care skills as they host various campus, community, civic, and travel-related events. Service learning offers students an opportunity to improve their self-directed and critical thinking skills – abilities considered essential in the airline and travel industries. To prepare for industry employment, students will update their career portfolios and practice interviewing on video.

ATC 070 C PROFESSIONAL IMAGE
1½ Units
One and one half hours lecture per week.
Presenting a professional image can make the difference in achieving personal career success. This course studies the power of visual perception, attire, grooming, body language, and oral communication. Students will learn about the basic principles of dressing for success, using appropriate business etiquette, and developing their personal style for professional success.

ATC 101 C INTRO TO TRAVEL CAREERS
3 Units
Three hours lecture per week.
CSU
This course introduces students to operations and career opportunities in the airline and travel industries. The history, definition, organization, and industry trends will be reviewed. Internet research will be utilized and students will prepare a personalized career project.

ATC 123 C TRAVEL SALES & TOUR OPERATIONS
3 Units
Three hours lecture per week.
CSU
Students will learn the essentials of travel sales and tour operations, including the latest trends, itinerary planning, and the technologies available to travel/tourism consultants in the leisure, recreational, and corporate travel markets.
ATC 126 C TRAVEL OFFICE MANAGEMENT
3 Units
Three hours lecture per week.
CSU
This course is a study of management practices in the travel/tourism business, including ARC requirements, location and staffing, sales reports and agency accounting. Travel markets, product lines, marketing techniques, advertising, and promotions are explored. Techniques for personal and telephone selling and guidelines for handling job stress, sales, and client crises are included.

ATC 170 C JOB SKILLS COMMUNICATION
1½ Units
One and one half hours lecture per week.
CSU
Students will update and/or prepare a career portfolio, including resume, work samples, and recommendations. Video will be used to help students achieve maximum effectiveness in mock-interviews. Recommend taking in sequence with ATC 070 C.

ATC 174 C DESTINATIONS: AMERICAS/EUROPE
3 Units
Three hours lecture per week.
CSU
This course introduces students to world geography from a travel and tourism perspective. Students will learn about domestic and international travel considerations including itineraries, currencies, travel documents, customs, language, health requirements, and time considerations for locations throughout the Americas and Europe.

ATC 175 C DESTINATIONS: AFRICA/PACIFIC
3 Units
Three hours lecture per week.
CSU
This course continues the study of world geography from a travel and tourism perspective. Students will examine international travel considerations including itineraries, currencies, travel documents, customs, language, health requirements, and time considerations for the following locations: Africa, the Middle East, Asia, and the Pacific Islands.

ATC 182 C MULTICULTURAL HOSPITALITY
3 Units
Three hours lecture per week.
CSU
Whether traveling for business or pleasure, in the role of a host or a guest, students will examine the rules and taboos of multicultural hospitality throughout the world. Students will learn the appropriate greetings, gifts, food, and serving considerations for a range of cultures while considering the historical and social contexts that contributed to these customs. Students will study how, despite cultural differences, people can work toward goals of common courtesy and respect.

ATC 183 C CUSTOMER CARE: AIRLINE/TRAVEL
3 Units
Three hours lecture per week.
CSU
This course examines the priority of customer service and satisfaction in the competitive airline industry. Topics include the safety regulations and service standards of the Federal Aviation Administration, the Department of Transportation, and airlines themselves. Students will study these standards in relation to current performance, public opinion, and service ideology. Students will also investigate how airlines differentiate their service to be competitive in a particular market niche. Students will “shop” airlines and service related businesses to gain tools for developing a personal approach to customer care.

ATC 191 C AIRLINE RESERVATIONS: APOLLO
3 Units
Two hours lecture and
Three hours laboratory per week.
CSU, Credit by Examination
This course is an introduction to APOLLO, the computer reservations system used by United Airlines and one of the two major systems used by travel consultants. Students will learn how to build PNR’s (passenger name records), quote fares, and calculate prices through hands-on applications on computers. $4.00 Laboratory Fee - PAYABLE AT REGISTRATION.

ATC 192 C AIRLINE RESERVATIONS: SABRE
3 Units
Two hours lecture and
Three hours laboratory per week.
CSU
This course is an introduction to SABRE, the computer reservations system used by American Airlines and one of the two major systems used by travel consultants. Students will learn how to build PNR’s (passenger name records), quote fares, and calculate prices through hands-on applications on computers. $4.00 Laboratory Fee - PAYABLE AT REGISTRATION.

ATC 270 C AIRLINE OPERATIONS
3 Units
Three hours lecture per week.
CSU
Advisory: Concurrent enrollment in ATC 050 C recommended. This course is designed for students interested in working in the airline industry as flight attendants or customer service representatives (i.e. ground, reservations, ramp, or ticketing agents). Students will learn airline terminology, city codes, the 24-hour clock, airline operations, and industry hiring standards.

ATC 274 C PASSENGER SERVICES & SAFETY
3 Units
Three hours lecture per week.
CSU
In this course special emphasis is placed on emergency procedures and federal regulations. The essential professional attitude and teamwork needed to successfully perform as a crew member to insure onboard passenger safety and comfort will be covered.
ANTHROPOLOGY TRANSFER PROGRAM
Students should consult a counselor or www.assist.org for lower division major requirements for most California public universities. (See the Standard Definitions section of the catalog for a description of ASSIST.) Students transferring to an independent college/university should consult the catalog of the individual school and a counselor for lower division major requirements.

Anthropology (ANTH)

ANTH 102 C CULTURAL ANTHROPOLOGY
3 Units
Three hours lecture per week.
UC/CSU, AA GE, CSU GE, IGETC, CAN ANTH 4
This course is an introduction to the cross-cultural study of man’s behavior. The course includes a study of the nature and evolution of culture, social organization, family structure, religion, language, and other basic topics.

ANTH 104 C COMPARATIVE CULTURES
3 Units
Three hours lecture per week.
UC/CSU, CSU GE, IGETC
This course is a cross-cultural survey of comparative cultures, comparative analysis of different modes of production, modes of reproduction, domestic economics, political economies, and ideologies. There is a study and analysis of a broad selection of human societies, which will provide a perspective on how human problems have been solved and the possibilities for new solutions to our own problems.

ANTH 121 C INDIANS OF NORTH AMERICA
3 Units
Three hours lecture per week.
Credit/No Credit/Letter Grade Option
UC/CSU, AA GE, CSU GE, IGETC, CAN ANTH 2
This course is a survey of North American Indian culture areas. Subject matter includes peopling of the New World, traditional culture, the impacts of Euro American culture and native peoples cultures on one another, and contemporary issues (e.g., discrimination, sovereignty, assimilation, Red Power, health, Pan-Indianism).

ANTH 201 C PHYSICAL ANTHROPOLOGY
4 Units
Three hours lecture
Two hours laboratory and
One hour laboratory/quiz and problem solving per week.
Credit/No Credit/Letter Grade Option
UC/CSU, AA GE, CSU GE, IGETC, CAN ANTH 2
This is an introductory course in genetics, evolutionary theory and primatology. It includes the study of the primate fossil record, with primary emphasis on human evolution and human variation.
ANTH 203 C  INTRODUCTION TO ARCHAEOLOGY
3 Units
Three hours lecture per week.
Credit/No Credit/Letter Grade Option
UC/CSU, AA GE, CSU GE, IGETC, CAN ANTH 6
This is a survey of the science of archaeology; its development, methods, theories and objectives. Discoveries and their discoverers will be covered. Pre-history in both the Old World and the New World will be presented with emphasis on the latter.

ANTH 231 C  FIELD COURSE IN ARCHAEOLOGY
3 Units (May be taken for credit 2 times)
One hour lecture and
Six hours laboratory per week.
Credit/No Credit/Letter Grade Option
CSU
Practical experience in site survey and field excavation on a local archaeological site, laboratory analysis, lectures on methodology, local prehistory, and museum preparation will be presented in a fieldwork setting.

ANTH 298 C  ANTHROPOLOGY SEMINAR
1/2 - 3 Units (Variable Unit Class) (May be taken for credit 4 times)
Lecture/discussion hours will vary with credit given.
UC Credit Limitation/CSU
Prerequisite: May be required. (See class schedule). This is a lecture/discussion type course developed on a particular limited problem or topic of interest to students. It is designed for able students who wish to increase their knowledge on a particular topic concerning which no other regular class is offered. A paper or group activity may be requested. Credit may range from 1/2 to 3 units. Consult the class schedule for the offerings in a particular semester.

ANTH 299 C  ANTHROPOLOGY INDEPENDENT STUDY
1 Unit (May be taken for credit 3 times)
Varying hours of scheduled conferences per week.
UC Credit Limitation/CSU
Prerequisite: Approved Independent Study Learning Contract. Independent study is for able students who wish to extend their knowledge of a particular area through individual research and study. It is thought that topics might develop out of a curiosity stimulated in a regular class. The student would then contact the supervising instructor to develop a contract for his/her particular interest so that they could learn more regarding their special topic.

**ART TRANSFER PROGRAM**

Students should consult a counselor or www.assist.org for lower division major requirements for most California public universities. (See the Standard Definitions section of the catalog for a description of ASSIST.) Students transferring to an independent college/university should consult the catalog of the individual school and a counselor for lower division major requirements.

**Art (ART)**

**ART 100 C**   FUNDAMENTALS OF ART

3 Units

*Three hours lecture per week.*

Credit/No Credit/Letter Grade Option

UC/CSU, AA GE, CSU GE, IGETC

This introductory course investigates the visual elements and principles of design through lectures, reading, films and hands-on experience. It also examines, in the same manner, historical styles and themes in art as well as materials and techniques. *Cost of museum visit will not exceed $15.00.*

**ART 110 C**   INTRODUCTION TO ART

3 Units

*Three hours lecture per week.*

Credit/No Credit/Letter Grade Option

UC/CSU, AA GE, CSU GE, IGETC

This course is designed to expose the student to art from prehistoric times to the present: its purposes, materials, themes, history, and significance. It also acquaints the student with art and artists’ roles in present and past societies, and helps the student understand the uses of materials and visual elements (i.e., line, color, etc.) to communicate ideas in architecture, sculpture, painting, ceramics, crafts, filmmaking, printmaking, etc. Eligibility for ENGL 100 C recommended. *Cost of museum visit will not exceed $15.00.*

**ART 111 C**   SURVEY OF ART HISTORY I

3 Units

*Three hours lecture per week.*

Credit/No Credit/Letter Grade Option

UC/CSU, AA GE, CSU GE, IGETC

This course studies the development of ancient and medieval architecture, sculpture and painting in the Western and Eastern cultures. Emphasis is placed on examining how art records and shapes history, how style communicates the ideas of the artist and his culture, and how symbols, techniques, materials and subjects are used and transferred from one culture to another. Eligibility for ENGL 100 C recommended. *Cost of museum visit will not exceed $15.00.*

**ART 112 C** SURVEY OF ART HISTORY II

3 Units

*Three hours lecture per week.*

Credit/No Credit/Letter Grade Option

UC Credit Limitation/CSU, AA GE, CSU GE, IGETC

This course studies the development of architecture, sculpture and painting in the Western world from the Renaissance through the twenty-first century. Emphasis is placed on examining how art records and shapes history, how style communicates the ideas of the artist and his culture, and how symbols, techniques, materials and subjects are used and transferred from one culture to another. Eligibility for ENGL 100 C recommended. *Cost of museum visit will not exceed $15.00.*

**ART 112HC** HONORS SURVEY OF ART HISTORY II

3 Units

*Three hours lecture per week.*

Credit/No Credit/Letter Grade Option

UC Credit Limitation/CSU, AA GE, CSU GE, IGETC

This is an enhanced course that studies basic art theory and the development of architecture, sculpture, and painting of the Western world from the Renaissance through the twenty-first century. Emphasis is placed on examining how art records and shapes history, how style communicates the ideas of the artist and his culture, and how symbols, techniques, materials and subjects are used and transferred from one culture to another. Eligibility for ENGL 100 C recommended. *Cost of museum visit will not exceed $15.00.*

**ART 114 C** MODERN ART HISTORY

3 Units

*Three hours lecture per week.*

Credit/No Credit/Letter Grade Option

UC/CSU, AA GE, CSU GE, IGETC

This course deals with the nature of twentieth and twenty-first century art and its origins in the late nineteenth century. Emphasis is placed on examining how art reflects history, how style communicates the ideas of the artist and his/her culture and how symbols, techniques, materials and subjects are used and expanded in twentieth and twenty-first century artistic expression. Eligibility for ENGL 100 C recommended. *Cost of museum visit will not exceed $15.00.*
ART 115 C  MUSEUM SURVEY  
3 Units (May be taken for credit 4 times)  
Three hours lecture per week.  
Credit/No Credit/Letter Grade Option  
CSU, AA GE  
In this course various local museums and galleries will be visited and their collections studied. Field trips to museums and galleries will alternate with classroom slide lectures designed to provide background information and suggested techniques for viewing and analyzing the art in each collection.

ART 120 C  TWO-DIMENSIONAL DESIGN  
3 Units  
Two hours lecture and Four hours laboratory per week.  
UC/CSU, AA GE, CSU GE, CAN ART 14  
Using the elements and principles of art, two-dimensional images are created. As a foundation for all the visual arts, this course studies the concepts, vocabulary, techniques and materials necessary for the successful creation of two-dimensional design. Laboratory fees are used for materials provided by the Art Department. $10.00 PAYABLE AT REGISTRATION.

ART 121 C  DESIGN CONCEPTS  
3 Units  
Two hours lecture and Four hours laboratory per week.  
UC/CSU  
This course explores three-dimensional (3-D) forms, space manipulation and color interactions with an emphasis on professional three-dimensional (3-D) design presentations through the use of a variety of materials and tools, including power equipment. $10.00 fee for materials used in common - PAYABLE AT THE BOOKSTORE.

ART 122 C  GALLERY/PORTFOLIO DESIGN  
3 Units (May be taken for credit 4 times)  
Two hour lecture and Four hours laboratory per week.  
CSU  
This course provides practical experience in gallery operation, art exhibit installation, and artist portfolio preparation. Students will have an opportunity to collaborate in the planning, designing, and installing of art exhibitions in the college gallery and to visit and evaluate exhibitions in other local galleries and museums. Students will also create individual art installations and professional artist portfolios.

ART 125 C  AN INTRODUCTION TO MIXED MEDIA  
3 Units (May be taken for credit 4 times)  
Two hours lecture and Four hours laboratory per week.  
UC/CSU, AA GE  
This course is designed to explore traditional and non-traditional use of materials. It focuses on interdisciplinary attitudes in 20th Century Art and explores a variety of contemporary mixed-media approaches such as collage, assemblage and combine paintings.

ART 130 C  PRINTMAKING  
3 Units (May be taken for credit 4 times)  
Two hours lecture and Four hours laboratory per week.  
UC/CSU  
This course will introduce the artist to concepts and techniques of drawing, design, and color through the use of fine art printing media such as etching, lithography, and woodcut. Assignments in this course are flexible based upon personal interest. $10.00 laboratory fee - PAYABLE AT BOOKSTORE.

ART 140 C  ADVERTISING/GRAPHIC DESIGN 1  
3 Units  
Two hours lecture and Four hours laboratory per week.  
CSU  
Prerequisite: ART 120 C or concurrent enrollment. This is a basic course in advertising/graphic design, with emphasis on problem solving in lettering, typography and trademark design. The course includes development of layout skills, marker rendering, and presentation skills. Projects include lettering design, layout, trademark design, and typography. Students are introduced to computer generated graphics and electronic design. $15.00 Laboratory Fee - PAYABLE AT REGISTRATION.

ART 141 C  ADVERTISING/GRAPHIC DESIGN 2  
3 Units  
Two hours lecture and Four hours laboratory per week.  
CSU  
Prerequisite: ART 140 C. This is an intermediate course in advertising/graphic design with emphasis upon development of a highly comprehensive finished portfolio. Course includes refinement of design and layout skills and development of technical emphasis in use of stat-camera, typesetting procedures and desktop publishing software as related to advertising, packing and graphic design. $15.00 Laboratory Fee – PAYABLE AT REGISTRATION.

ART 142 C  ADVERTISING/GRAPHIC DESIGN 3  
3 Units  
Two hours lecture and Four hours laboratory per week.  
CSU  
Prerequisite: ART 141 C. This is an advanced course in advertising/graphic design with emphasis upon development of comprehensive finished portfolio pieces. This course includes group and individual design projects planned to provide experience in all steps of graphic design from concepts and development of a campaign continuity to production specifications. Special attention and emphasis is placed on planning and preparation of an advertising/graphic portfolio. $15.00 Laboratory Fee - PAYABLE AT REGISTRATION.

ART 149 C  AIRBRUSH  
2 Units (May be taken for credit 4 times)  
One hour lecture and Three hours laboratory per week.  
CSU  
This class will cover basic airbrush techniques and opportunities relating to fine art, illustration and photography.
ART 150 C  CERAMICS HANDBUILDING
3 Units
Two hours lecture and
Four hours laboratory per week.
UC/CSU, AA GE, CSU GE, CAN ART 6
Basic information about ceramics will be covered. Learning to construct with off wheel (handbuilding) techniques will be applied to convey ideas, images, and feelings. Visual vocabulary as it pertains to all of the arts will be stressed. Basic technology of clay, glazes, and firing procedures are included. $15.00 fee for materials used in common - PAYABLE AT REGISTRATION.

ART 151 C  CERAMICS THROWING
3 Units
Two hours lecture and
Four hours laboratory per week.
UC/CSU, AA GE, CSU GE
Basic information about ceramics will be covered. With an emphasis on learning to use the potter’s wheel as a tool, students will use it to convey ideas, images, and feelings. Visual vocabulary as it pertains to all of the arts is emphasized. Basic technology of clay, glazes, and firing techniques are integral to this course. $15.00 fee for materials used in common - PAYABLE AT REGISTRATION.

ART 152 C  TECHNICAL AND CONCEPTUAL CERAMICS
3 Units
Two hours lecture and
Four hours laboratory per week.
UC/CSU
Prerequisite: ART 150 C or ART 151 C. This course deals with advanced technical skills in ceramic construction and visual concepts. Learning to identify one’s personal aesthetic will be emphasized. Application of that aesthetic will be explored. Clay, glazes, and firing techniques are integral to this course. $15.00 fee for materials used in common - PAYABLE AT REGISTRATION.

ART 153 C  ADVANCED CERAMICS
3 Units (May be taken for credit 4 times)
Two hours lecture and
Four hours laboratory per week.
UC/CSU
Prerequisite: ART 150 C or ART 151 C and completion of ART 152 C. Advanced technical and conceptual skills will be covered. Synthesizing the individual development of a personal aesthetic will be stressed. Application of this aesthetic will be used to create ceramic objects. Further technology of clay, glazes, and firing possibilities is expected. $15.00 fee for materials used in common - PAYABLE AT REGISTRATION.

ART 154 C  RAKU CERAMICS
3 Units (May be taken for credit 4 times)
Two hours lecture and
Four hours laboratory per week.
UC/CSU
Prerequisite: ART 150 C or ART 151 C and ART 152 C and ART 153 C. This class which explores raku process and philosophy is designed for the advanced ceramic student. Developing a personal aesthetic towards raku will be emphasized. Experimentation of raku glazes will be stressed. $15.00 fee for materials used in common - PAYABLE AT REGISTRATION.

ART 155 C  ART - OPEN LAB
½ - 2 Units (Variable Unit Class) (May be taken for credit 4 times)
One-and-one-half hours to Six hours laboratory per week.
Credit/No Credit
CSU
Prerequisite: Concurrent enrollment in any art class. This course is designed as an open laboratory. Working time can be anytime the laboratory is open on an individual basis. This open lab with flexible hours and variable units is designed to provide students with space and equipment needed to complete art assignments; therefore, concurrent enrollment in any art studio class is required. Twenty-seven (27) hours are required for each ½ unit up to 108 hours for two (2) units. Each subsequent credit represents advancing levels of achievement. Levels must be taken in sequence.

ART 174 C  JEWELRY DESIGN
2 Units (May be taken for credit 4 times)
One hour lecture and
Three hours laboratory per week.
CSU
This is an introductory course covering the design and construction of jewelry and small fabricated metal pieces. Emphasis will be placed on fabrication and lost wax techniques and their design potential. $10.00 fee for materials used in common - PAYABLE AT THE BOOKSTORE.

ART 179 C  DRAWING FOR NON-ART MAJORS
2 Units
One hour lecture and
Three hours laboratory per week.
Credit/No Credit/Letter Grade Option
UC/CSU
The purpose of this course is to approach drawing in a traditional and an experimental manner for the non-art major. Self-expression will be stressed as the student draws from natural and geometric subjects. A variety of drawing media will be explored, such as graphite pencil, charcoal, conte, pen and ink, and mixed media.

ART 182 C  FREEHAND DRAWING
3 Units (May be taken for credit 4 times)
Two hours lecture and
Four hours laboratory per week.
UC/CSU, AA GE, CSU GE, CAN ART 8
This course is designed to explore traditional and experimental drawing. Perceptual skills and self-expression will be stressed. The student will work from nature, man-made objects, and photographic images. Non-objective and abstract considerations will be examined in representational and experimental drawing. A variety of black and white and color drawing media will be explored such as graphite pencil, charcoal, conte, pen and ink, colored pencil, pastel and colored ink.
ART 185 C  LIFE DRAWING  
3 Units  (May be taken for credit 4 times)  
Two hours lecture and  
Four hours laboratory per week.  
UC/CSU, AA GE, CAN ART 24  
Life Drawing is an introduction to the representational drawing of the human figure: (1) as a means to a more penetrating perception of visual phenomena, (2) as a foundation for painting, and (3) as a means of creative expression. The course provides opportunity for exploration of various methods, approaches, and media in figure drawing. This course satisfies requirements for units in Life Drawing for transfer.  

ART 187 C  RENDERING  
2 Units  
One hour lecture and  
Three hours laboratory per week.  
CSU  
Advisory: ART 180 C is recommended. Students will learn to create convincing visual representations of exteriors, interiors and objects through drawing and painting. Selected mediums will come from pencil, pens, colored pencils, markers and pastels to achieve finished dramatic presentations. Use of perspective techniques is an integral part of creating convincing drawings.  

ART 188 C  WATERCOLOR PAINTING  
2 Units  (May be taken for credit 4 times)  
One hour lecture and  
Three hours laboratory per week.  
UC/CSU, AA GE  
The first credit will be an introduction to image making on paper using transparent watercolor media. Techniques covered include traditional transparent watercolor, acrylic polymer media used transparently and as gouache, collage, transfers, and mixed media techniques appropriate to paper supports. The remaining credits are for the advanced watercolor painting student in which further study and development of an individual style will take place. A professional attitude will be encouraged. The production of a series of works with emphasis on the development of creative solutions will be the goal of the class.  

ART 189 C  FUNDAMENTALS OF PAINTING  
3 Units  (May be taken for credit 4 times)  
Two hour lecture and  
Four hours laboratory per week.  
UC/CSU, AA GE, CSU GE  
The purpose of this course is to approach painting as a creative and problem solving process. Emphasis will be placed on the acquisition of technical/formal skills and the development of a personal artistic vision. This course will include a variety of media and the fundamentals of composition, color theory, and craftsmanship as applied to painting and the fine arts.  

ART 191 C  LIFE PAINTING  
2 Units  (May be taken for credit 4 times)  
One hour lecture and  
Three hours laboratory per week.  
UC/CSU  
Prerequisite: ART 186 C, or ART 189 C. Life Painting is an introduction to painting the human figure, as a means to a more developed perception of visual phenomena, and as a means of creative expression. The course provides the opportunity for examination of historical and contemporary examples of figure painting and for exploration of various methods, approaches and media. This course satisfies the requirements for units in lower division Life Painting for transfer.  

ART 212 C  ASIAN ART HISTORY  
3 Units  
Three hours lecture per week.  
UC/CSU, AA GE, CSU GE, IGETC  
The artistic achievements of India, China, Japan, and Southeast Asia will be examined as a reflection of the philosophy, religion, values and concerns of each culture. Eligibility for ENGL 100 C recommended. Cost of museum visit will not exceed $15.00.  

ART 213 C  PRE-COLUMBIAN ART  
3 Units  
Three hours lecture per week.  
UC/CSU, AA GE, CSU GE, IGETC  
This course is a survey of the cultural achievements in architecture, sculpture, painting and ceramics of Pre-Columbian Mexico, Central and South America from formative through Classic times. In addition, the native class status, daily life, religion, politics, and various methods for discovering these ancient cultures will be examined. Lectures, music, slides, films, artifacts and museum visits will supplement the course.  

ART 242 C  ADVERTISING PRODUCTION PREPARATION  
2 Units  
One hour lecture and  
Three hours laboratory per week.  
CSU  
Prerequisite: ART 140 C or taken concurrently. This is a course intended to provide advertising/graphic design students with practical knowledge of preparation of camera-ready art for printed reproduction. Class projects provide experience involving steps from layout to paste-up. Projects and topics include exercises in type selection, copy fitting, desktop publishing, Photostat camera usage, color separation and production instructions to the printer.  

ART 244 C  ILLUSTRATION  
3 Units  (May be taken for credit 3 times)  
Two hours lecture and  
Four hours laboratory per week.  
CSU  
Prerequisite: ART 182 C or taken concurrently. This is an introductory to intermediate course in the art of illustration. Primary emphasis is on the design and execution of illustrations for various uses in a variety of media. Course content includes designing to communicate a message, composition, style, development of preliminary drawings, preparation of drawings for printed reproduction, and experiments in the use of various media.
ART 298 C  ART SEMINAR
½ - 3 Units (Variable Unit Class) (May be taken for credit 4 times)
Hours will vary with credit given.
UC Credit Limitation/CSU
Prerequisite: May be required. Various classes may be offered which are designed to meet the interests and needs of the student and faculty.

ART 299 C  ART INDEPENDENT STUDY
½ - 2 Units (Variable Unit Class) (May be taken for credit 4 times)
One half to two hours conference per week.
UC Credit Limitation/CSU
Prerequisite: Approved Independent Study Learning Contract. This is a course that is designed for the student to pursue an increased knowledge of a particular art discipline. Unit credit may range from ½ to 2 units in any given semester; units earned will be based on 18 hours for each ½ unit.

ANIMATION 2D COMPUTER GRAPHICS CERTIFICATE
This Animation 2D Computer Graphics Certificate provides the skills necessary for publishing animation on web sites. Students will learn to create digital drawings, paintings and illustrations for the purpose of creating two-dimensional animated cartoons and interactive games suitable for the Internet and CD-ROMs. Emphasis is placed on development of a portfolio for employment and/or advancement.

To earn a certificate, complete the required courses as listed with a minimum grade of “C”. At least 50% of all course work must be completed at Cypress College.

Required courses are listed in numeric sequence:
Course#  Title Units
ART 120 C  Two-Dimensional Design 3
ART 182 C  Freehand Drawing 3
ACG 102 C  Intro to Mac WEB Graphics 3
or
ACG 103 C  Intro to Win WEB Graphics (3)
ACG 134 C  Digital Imaging/Mac 3
or
ACG 135 C  Digital Imaging/Win (3)
ACG 164 C  Multimedia Authoring/Mac 3
or
ACG 165 C  Multimedia Authoring/Win (3)

Total Units Required 15

COMPUTER GRAPHICS CERTIFICATE
The computer Graphics program provides the skills necessary to create raster based digital drawings, paintings and illustrations. Emphasis is placed on development of a portfolio for employment and/or advancement.

To earn a certificate, complete the required courses as listed with a minimum grade of “C”. At least 50% of all course work must be completed at Cypress College.

Required courses are listed in numeric sequence:
Course#  Title Units
ACG 104 C  Intro to Mac 3D Graphics 3
or
ACG 105 C  Intro to Win 3D Graphics (3)
ACG 120 C  3D Modeling/Mac 3
or
ACG 121 C  3D Modeling/Win (3)
ACG 150 C  Intermediate Animation/Mac 3
or
ACG 151 C  Intermediate Animation/Win (3)
ACG 156 C  Advanced Animation/Mac 3
or
ACG 157 C  Advanced Animation/Win (3)
ACG 180 C  Digital Video/Mac 3
or
ACG 181 C  Digital Video/Win (3)

Total Units Required 15

**Art – Computer Graphics (ACG)**

**ACG 100 C** INTRO TO COMPUTER GRAPHICS/MAC

3 Units

*(Same as MMCG 100 C)*

*Two hours lecture and Three hours laboratory per week.*

*CSU Corequisite: Concurrent enrollment in ACG 199 C.* This course focuses on the use of paint, drawing and page layout programs. The use of various input and output devices will be covered. Designed for artists to input, create, manipulate and output graphic imagery. This class is intended as a gateway into the varied offerings of the Art Computer Graphics program, where the student can pursue more in-depth study on the topic(s) that most attracted them during this introductory class.

*$15.00 Laboratory Fee - PAYABLE AT REGISTRATION.*
ACG 101 C  INTRO TO COMPUTER GRAPHICS/WIN
3 Units
(Same as MMCG 101 C)
Two hours lecture and
Three hours laboratory per week.
CSU
Corequisite: Concurrent enrollment in ACG 199 C. This course focuses on the use of paint, drawing and page layout programs. The use of various input and output devices will be covered. Designed for artists to input, create, manipulate and output graphic imagery. This class is intended as a gateway into the varied offerings of the Art Computer Graphics program, where the student can pursue more in-depth study on the topic(s) that most attracted them during this introductory class. $15.00 Laboratory Fee - PAYABLE AT REGISTRATION.

ACG 102 C  INTRO TO MAC WEB GRAPHICS
3 Units
(Same as MMCG 102 C)
Two hours lecture and
Three hours laboratory per week.
CSU
Corequisite: Concurrent enrollment in ACG 199 C. This course focuses on the use of Macintosh software used in electronic publishing and animation. This class is intended as a gateway into the varied offerings of the Art Computer Graphics program, where the student can pursue more in-depth study on the topic(s) that most attracted them during this introductory class. $15.00 Laboratory Fee - PAYABLE AT REGISTRATION.

ACG 103 C  INTRO TO WIN WEB GRAPHICS
3 Units
(Same as MMCG 103 C)
Two hours lecture and
Three hours laboratory per week.
CSU
Corequisite: Concurrent enrollment in ACG 199 C. This course focuses on the use of Microsoft Windows software used in electronic publishing and animation. This class is intended as a gateway into the varied offerings of the Art Computer Graphics program, where the student can pursue more in-depth study on the topic(s) that most attracted them during this introductory class. $15.00 Laboratory Fee - PAYABLE AT REGISTRATION.

ACG 104 C  INTRO TO MAC 3D GRAPHICS
3 Units
(Same as MMCG 104 C)
Two hours lecture and
Three hours laboratory per week.
CSU
Corequisite: Concurrent enrollment in ACG 199 C. This is an overview of 3D computer graphics, with an emphasis on 2D paint and 3D modeling & animation software used in animation on the Macintosh. This class is intended as a gateway into the varied offerings of the Art Computer Graphics program, where the student can pursue more in-depth study on the topic(s) that most attracted them during this introductory class. $15.00 Laboratory Fee - PAYABLE AT REGISTRATION.

ACG 105 C  INTRO TO WIN 3D GRAPHICS
3 Units
(Same as MMCG 105 C)
Two hours lecture and
Three hours laboratory per week.
CSU
Corequisite: Concurrent enrollment in ACG 199 C. This is an overview of 3D computer graphics, with an emphasis on 2D paint and 3D modeling & animation software used in animation on a Windows computer. This class is intended as a gateway into the varied offerings of the Art Computer Graphics program, where the student can pursue more in-depth study on the topic(s) that most attracted them during this introductory class. $15.00 Laboratory Fee - PAYABLE AT REGISTRATION.

ACG 111 C  ELECTRONIC ILLUSTRATION USING MICROSOFT WINDOWS
3 Units
Two hours lecture and
Three hours laboratory per week.
CSU
Prerequisite: ACG 101 C or MMCG 101 C or qualify through portfolio review. Corequisite: Concurrent enrollment in ACG 199 C. The course focuses on the creation of Postscript images for the integration into Desktop Publishing and as stand-alone images allowing high resolution output. It offers the professional artist basic Microsoft Windows skills needed for employment and/or advancement. $15.00 Laboratory Fee – PAYABLE AT REGISTRATION.

ACG 112 C  ELECTRONIC ILLUSTRATION/MAC
3 Units
Two hours lecture and
Three hours laboratory per week.
CSU
Corequisite: Concurrent enrollment in ACG 199 C. Advisory: ACG 100 C or MMCG 100 C or ACG 101 C or MMCG 101 C or ACG 102 C or MMCG 102 C or ACG 103 C or MMCG 103 C and ART 120 C or by consent of instructor pending portfolio review. This course focuses on the Macintosh generation of Postscript (vector) images for the integration into desktop publishing/page layout software and as stand-alone images allowing high resolution output. The course offers the professional artist basic Macintosh skills needed for employment and/or advancement. $15.00 Laboratory Fee – PAYABLE AT REGISTRATION.
ACG 113 C  ELECTRONIC ILLUSTRATION/WIN
3 Units
Two hours lecture and
Three hours laboratory per week.
CSU
Corequisite: Concurrent enrollment in ACG 199 C. Advisory:
ACG 112 C or ACG 113 C or by consent of instructor pending portfolio review. This course focuses on the Windows generation of Postscript (vector) images for integration into desktop publishing/page layout software and as stand-alone images allowing high-resolution output. The course offers the professional artist basic Windows skills needed for employment and/or advancement. $15.00 Laboratory Fee - PAYABLE AT REGISTRATION.

ACG 114 C  ELECTRONIC ILLUSTRATION
2/MAC
3 Units
Two hours lecture and
Three hours laboratory per week.
CSU
Corequisite: Concurrent enrollment in ACG 199 C. Advisory:
ACG 112 C or ACG 113 C or by consent of instructor pending portfolio review. This course is intended for the graphic designer, illustrator and fine artist, focusing on the advanced usage of several 2D vector based drawing software packages. The course focuses on the advanced usage of Macintosh generation of Postscript (vector) images for integration into desktop publishing/page layout software and as stand-alone images allowing high-resolution output. The course offers the professional artist advanced Macintosh skills needed for employment and/or advancement. $15.00 Laboratory Fee - PAYABLE AT REGISTRATION.

ACG 115 C  ELECTRONIC ILLUSTRATION
2/WIN
3 Units
Two hours lecture and
Three hours laboratory per week.
CSU
Corequisite: Concurrent enrollment in ACG 199 C. Advisory:
ACG 112 C or ACG 113 C or by consent of instructor pending portfolio review. This course is intended for the graphic designer, illustrator and fine artist, focusing on the advanced usage of several 2D vector based drawing software packages. The course focuses on the advanced usage of Windows generation of Postscript (vector) images for integration into desktop publishing/page layout software and as stand-alone images allowing high-resolution output. The course offers the professional artist advanced Windows skills needed for employment and/or advancement. $15.00 Laboratory Fee - PAYABLE AT REGISTRATION.

ACG 120 C  3D MODELING/MAC
3 Units
(Same as MMCG 120 C)
Two hours lecture and
Three hours laboratory per week.
CSU
Corequisite: Concurrent enrollment in ACG 199 C. Advisory:
ACG 114 C or by consent of instructor pending portfolio review. This course focuses on computer generated 3D design techniques through the use of Macintosh based three-dimensional design programs. The course emphasis is on the introduction of three-dimensional concepts, the use of modeling tools, menu structures and modeling building applications of 3D design systems. Skills taught in this course will give students the ability to create original three-dimensional computer generated models of organic or mechanical design and animate them. $15.00 Laboratory Fee – PAYABLE AT REGISTRATION.

ACG 121 C  3D MODELING/WIN
3 Units
(Same as MMCG 121 C)
Two hours lecture and
Three hours laboratory per week.
CSU
Corequisite: Concurrent enrollment in ACG 199 C. Advisory:
ACG 114 C or by consent of instructor pending portfolio review. This course focuses on computer generated 3D design techniques through the use of Windows based three-dimensional design programs. The course emphasis is on the introduction of three-dimensional concepts, the use of modeling tools, menu structures and modeling building applications of 3D design systems. Skills taught in this course will give students the ability to create original three-dimensional computer generated models of organic or mechanical design and animate them. $15.00 Laboratory Fee – PAYABLE AT REGISTRATION.

ACG 132 C  ELECTRONIC PAINT/MAC
3 Units
(Same as MMCG 132 C)
Two hours lecture and
Three hours laboratory per week.
CSU
Corequisite: Concurrent enrollment in ACG 199 C. Advisory:
ACG 112 C or ACG 113 C or by consent of instructor pending portfolio review. The course focus is on the usage of Macintosh based software using a variety of natural-media software for the manipulation of bit-mapped (raster) images. Course topics include creation of original drawings; paintings and illustrations, using an assortment of digitally based chalks, pens, paints, inks, papers and textures. The course offers the professional artist raster based digital drawing/painting and illustration skills, on a Macintosh computer, needed for employment and/or advancement. $15.00 Laboratory Fee – PAYABLE AT REGISTRATION.
ACG 133 C  
**ELECTRONIC PAINT/WIN**

3 Units
(Same as MMCG 133 C)

Two hours lecture and
Three hours laboratory per week.

**CSU**

Corequisite: Concurrent enrollment in ACG 199 C. Advisory: ACG 100 C or MMCG 100 C or ACG 101 C or MMCG 101 C or ACG 102 C or MMCG 102 C or ACG 103 C or MMCG 103 C and ART 120 C or by consent of instructor pending portfolio review. The course focus is on the usage of Microsoft Windows based software using a variety of natural-media software for the manipulation of bit-mapped (raster) images. Course topics include: creation of original drawings, paintings and illustrations, using an assortment of digitally based chalks, pens, paints, inks, papers and textures. The course offers the professional artist raster based digital drawing/painting and illustration skills, on a Windows computer, needed for employment and/or advancement. $15.00 Laboratory Fee – PAYABLE AT REGISTRATION.

ACG 134 C  
**DIGITAL IMAGING/MAC**

3 Units
(Same as MMCG 134 C)

Two hours lecture and
Three hours laboratory per week.

CSU

Corequisite: Concurrent enrollment in ACG 199 C. Advisory: ACG 100 C or MMCG 100 C or ACG 101 C or MMCG 101 C or ACG 102 C or MMCG 102 C or ACG 103 C or MMCG 103 C and ART 120 C or by consent of instructor pending portfolio review. The course focus is on the usage of Macintosh based software for the manipulation of bit-mapped (raster) images using illustrative, photographic, scanned and video images as the basis for image manipulation. Course topics include: image enhancement, editing, composite, retouching, photo montages, prepress, color separations and web based images. $15.00 Laboratory Fee – PAYABLE AT REGISTRATION.

ACG 135 C  
**DIGITAL IMAGING/WIN**

3 Units
(Same as MMCG 135 C)

Two hours lecture and
Three hours laboratory per week.

CSU

Corequisite: Concurrent enrollment in ACG 199 C. Advisory: ACG 100 C or MMCG 100 C or ACG 101 C or MMCG 101 C or ACG 102 C or MMCG 102 C or ACG 103 C or MMCG 103 C and ART 120 C or by consent of instructor pending portfolio review. The course focus is on the usage of Microsoft Windows based software for the manipulation of bit-mapped (raster) images using illustrative, photographic, scanned and video images as the basis for image manipulation. Course topics include: image enhancement, editing, composite, retouching, photo montages, prepress, color separations and Web-based images. $15.00 Laboratory Fee – PAYABLE AT REGISTRATION.

ACG 136 C  
**DIGITAL IMAGING 2/MAC**

3 Units
(Same as MMCG 136 C)

Two hours lecture and
Three hours laboratory per week.

CSU

Corequisite: Concurrent enrollment in ACG 199 C. Advisory: ACG 100 C or MMCG 100 C or ACG 101 C or MMCG 101 C or ACG 102 C or MMCG 102 C or ACG 103 C or MMCG 103 C or by consent of instructor pending portfolio review. The course focus is on the advanced usage of Macintosh based software for the manipulation of bit-mapped (raster) images using illustrative, photographic, scanned and video images as the basis for image manipulation. Course topics include: image enhancement, editing, composite, retouching, photo montages, prepress, color separations and web based images. $15.00 Laboratory Fee – PAYABLE AT REGISTRATION.

ACG 137 C  
**DIGITAL IMAGING 2/WIN**

3 Units
(Same as MMCG 137 C)

Two hours lecture and
Three hours laboratory per week.

CSU

Corequisite: Concurrent enrollment in ACG 199 C. Advisory: ACG 100 C or MMCG 100 C or ACG 101 C or MMCG 101 C or ACG 102 C or MMCG 102 C or ACG 103 C or MMCG 103 C and ART 140 C or by consent of instructor pending portfolio review. The course focus is on the advanced usage of Windows based software for the manipulation of bit-mapped (raster) images using illustrative, photographic, scanned and video images as the basis for image manipulation. Course topics include: image enhancement, editing, composite, retouching, photo montages, prepress, color separations and web based images. $15.00 Laboratory Fee – PAYABLE AT REGISTRATION.

ACG 140 C  
**DESKTOP PUBLISHING 1/MAC**

3 Units

(Same as MMCG 140 C)

Two hours lecture and
Three hours laboratory per week.

CSU

Corequisite: Concurrent enrollment in ACG 199 C. Advisory: ACG 100 C or MMCG 100 C or ACG 101 C or MMCG 101 C or ACG 102 C or MMCG 102 C or ACG 103 C or MMCG 103 C or ART 140 C or by consent of instructor pending portfolio review. This course focuses on the use of Macintosh software as an Ad-design tool to generate digital “camera ready” page layouts, integrating graphics, illustrations, photographs and text. Emphasis is placed on design of the page, precision and accuracy allowed by the computer, and varied output options for color compositions and separations. Course topics include: page design, page layout, text editing, font manipulation, importing artwork, prepress tools, spot and color separations. $15.00 Laboratory Fee – PAYABLE AT REGISTRATION.
ACG 141 C  DESKTOP PUBLISHING 1/WIN  
3 Units  
Two hours lecture and  
Three hours laboratory per week.  
CSU  
Corequisite: Concurrent enrollment in ACG 199 C. Advisory: ACG 100 C or MMCG 100 C or ACG 101 C or MMCG 101 C or ACG 102 C or MMCG 102 C or ACG 103 C or MMCG 103 C and ART 140 C or by consent of instructor pending portfolio review. This course focuses on the use of Microsoft Windows software as an Ad-design tool to generate digital “camera ready” page layouts, integrating graphics, illustrations, photographs and text. Emphasis is placed on design of the page, precision and accuracy allowed by the computer, and varied output options for color composites and separations. Course topics include page design, page layout, text editing, font manipulation, importing artwork, prepress tools, spot and color separations. $15.00 Laboratory Fee – PAYABLE AT REGISTRATION.

ACG 142 C  DESKTOP PUBLISHING 2/MAC  
3 Units  
Two hours lecture per week and  
Three hours laboratory per week.  
CSU  
Corequisite: Concurrent enrollment in ACG 199 C. Advisory: ACG 140 C or ACG 141 C or by consent of instructor pending portfolio review. This course focuses on the intermediate use of Macintosh software as an Ad-design tool to generate page layouts, integrating graphics, illustrations, photographs and text. Emphasis is placed on the design of multi page layout for various types of publications, prepress, color separation and providing digital “camera ready” files for commercial projects. $15.00 Laboratory Fee - PAYABLE AT REGISTRATION.

ACG 143 C  DESKTOP PUBLISHING 2/WIN  
3 Units  
Two hours lecture and  
Three hours laboratory per week.  
CSU  
Corequisite: Concurrent enrollment in ACG 199 C. Advisory: ACG 140 C or ACG 141 C or by consent of instructor pending portfolio review. This course focuses on the intermediate use of Windows software as an Ad-design tool to generate page layouts, integrating graphics, illustrations, photographs and text. Emphasis is placed on the design of multi page layout for various types of publications, prepress, color separation and providing digital “camera ready” files for commercial projects. $15.00 Laboratory Fee - PAYABLE AT REGISTRATION.

ACG 146 C  DESKTOP PUBLISHING 3/MAC  
3 Units  
Two hours lecture and  
Three hours laboratory per week.  
CSU  
Corequisite: Concurrent enrollment in ACG 199 C. Advisory: ACG 140 C or ACG 141 C or by consent of instructor pending portfolio review. This course focuses on the advanced use of Macintosh based software as an Ad-design tool to generate digital “camera ready” page layouts, integrating graphics, illustrations, photographs and text. Emphasis on computer assisted layout, design and production techniques used in a “hands on” environment to create Visions magazine. $15.00 Laboratory Fee - PAYABLE AT REGISTRATION.

ACG 147 C  DESKTOP PUBLISHING 3/WIN  
3 Units  
Two hours lecture and  
Three hours laboratory per week.  
CSU  
Corequisite: Concurrent enrollment in ACG 199 C. Advisory: ACG 140 C or ACG 141 C or by consent of instructor pending portfolio review. This course focuses on the advanced use of Windows based software as an Ad-design tool to generate digital “camera ready” page layouts, integrating graphics, illustrations, photographs and text. Emphasis on computer assisted layout, design and production techniques used in a “hands on” environment to create Visions magazine. $15.00 Laboratory Fee - PAYABLE AT REGISTRATION.

ACG 150 C  INTERMEDIATE ANIMATION/MAC  
3 Units  
(Same as MMCG 150 C)  
Two hours lecture and  
Three hours laboratory per week.  
CSU  
Corequisite: Concurrent enrollment in ACG 199 C. Advisory: ACG 120 C or MMCG 120 C or ACG 121 C or MMCG 121 C or by consent of instructor pending portfolio review. The course focuses on intermediate skills in 3D computer modeling and animation with a Macintosh software program that is a standard in the industry. The course focus is on intermediate techniques in modeling, texturing, lighting, motion control, and rendering animations for various purposes. Skills taught in this course will give students the ability to create original three-dimensional computer generated models of intermediate organic or mechanical design with a high degree of realism and resolution. Animation techniques explored will provide cinematic realism and presentation. $15.00 Laboratory Fee – PAYABLE AT REGISTRATION.

ACG 151 C  INTERMEDIATE ANIMATION/WIN  
3 Units  
(Same as MMCG 151 C)  
Two hours lecture and  
Three hours laboratory per week.  
CSU  
Corequisite: Concurrent enrollment in ACG 199 C. Advisory: ACG 120 C or MMCG 120 C or ACG 121 C or MMCG 121 C or by consent of instructor pending portfolio review. The course focuses on intermediate skills in 3D computer modeling and animation with a Windows software program that is a standard in the industry. The course focus is on intermediate techniques in modeling, texturing, lighting, motion control, and rendering animations for various purposes. Skills taught in this course will give students the ability to create original three-dimensional computer generated models of intermediate organic or mechanical design with a high degree of realism and resolution. Animation techniques explored will provide cinematic realism and presentation. $15.00 Laboratory Fee – PAYABLE AT REGISTRATION.
ACG 156 C  ADVANCED ANIMATION/MAC
3 Units
(Same as MMCG 156 C)
Two hours lecture and
Three hours laboratory per week.
CSU
Corequisite: Concurrent enrollment in ACG 199 C. Advisory: ACG 150 C or MMCG 150 C or ACG 151 C or MMCG 151 C or by consent of instructor pending portfolio review. The course focuses on advanced skills in 3D computer modeling and animation with a Macintosh software program that is a standard in the industry. The course focus is on advanced techniques in modeling, texturing, lighting, motion control, and rendering animations for various purposes. Skills taught in this course will give students the ability to create original three-dimensional computer generated models of advanced organic or mechanical design with a high degree of realism and resolution. Animation techniques explored will provide cinematic realism and presentation. The course will combine 3D modeling and animation with 2D graphics imagery through mapping, editing techniques and visual effects. $15.00 Laboratory Fee – PAYABLE AT REGISTRATION.

ACG 157 C  ADVANCED ANIMATION/WIN
3 Units
(Same as MMCG 157 C)
Two hours lecture and
Three hours laboratory per week.
CSU
Corequisite: Concurrent enrollment in ACG 199 C. Advisory: ACG 150 C or MMCG 150 C or ACG 151 C or MMCG 151 C or by consent of instructor pending portfolio review. The course focuses on advanced skills in 3D computer modeling and animation with a Windows software program that is a standard in the industry. The course focus is on advanced techniques in modeling, texturing, lighting, motion control, and rendering animations for various purposes. Skills taught in this course will give students the ability to create original three-dimensional computer generated models of intermediate organic or mechanical design with a high degree of realism and resolution. Animation techniques explored will provide cinematic realism and presentation. The course will combine 3D modeling and animation with 2D graphics imagery through mapping, editing techniques and visual effects. $15.00 Laboratory Fee – PAYABLE AT REGISTRATION.

ACG 162 C  MULTIMEDIA/MAC
3 Units
(Same as MMCG 162 C)
Two hours lecture and
Three hours laboratory per week.
CSU
Corequisite: Concurrent enrollment in ACG 199 C. Advisory: ACG 102 C or MMCG 102 C or ACG 103 C or MMCG 103 C and ART 120 C or by consent of instructor pending portfolio review. The course focuses on the Macintosh generation of multi-media content for integration into interactive visual presentations. Students will create personal interactive presentations by using drawings, photographs, charts, graphs, sound, text and 2D animation. The final presentations will use various outputs including Web, CD, videotape, color and black and white laser printers etc. The course offers the professional artist Macintosh multi media skills needed for employment and/or advancement. $15.00 Laboratory Fee – PAYABLE AT REGISTRATION.

ACG 163 C  MULTIMEDIA/WIN
3 Units
(Same as MMCG 163 C)
Two hours lecture and
Three hours laboratory per week.
CSU
Corequisite: Concurrent enrollment in ACG 199 C. Advisory: ACG 102 C or MMCG 102 C or ACG 103 C or MMCG 103 C and ART 120 C or by consent of instructor pending portfolio review. The course focuses on the Windows generation of multi-media content for integration into interactive visual presentations. Students will create personal interactive presentations by using drawings, photographs, charts, graphs, sound, text and 2D animation. The final presentations will use various outputs including Web, CD, videotape, color and black and white laser printers etc. The course offers the professional artist Windows multi media skills needed for employment and/or advancement. $15.00 Laboratory Fee – PAYABLE AT REGISTRATION.

ACG 164 C  MULTIMEDIA AUTHORING/MAC
3 Units
(Same as MMCG 164 C)
Two hours lecture and
Three hours laboratory per week.
CSU
Corequisite: Concurrent enrollment in ACG 199 C. Advisory: ACG 162 C or MMCG 162 C or ACG 163 C or MMCG 163 C or by consent of instructor pending portfolio review. The course focuses on the advanced usage of Macintosh generated multi-media content for integration into interactive visual presentations. Students will create advanced personal interactive presentations for CD-ROMs, WEB, videodiscs and videotape. Current software and hardware tools and techniques for designing and programming interactive multimedia presentations will be explored. The course offers the professional artist advanced Macintosh multi media skills needed for employment and/or advancement. $15.00 Laboratory Fee – PAYABLE AT REGISTRATION.

ACG 165 C  MULTIMEDIA AUTHORING/WIN
3 Units
(Same as MMCG 165 C)
Two hours lecture and
Three hours laboratory per week.
CSU
Corequisite: Concurrent enrollment in ACG 199 C. Advisory: ACG 162 C or MMCG 162 C or ACG 163 C or MMCG 163 C and ART 120 C or by consent of instructor pending portfolio review. The course focuses on the advanced usage of Windows generated multi-media content for integration into interactive visual presentations. Students will create advanced personal interactive presentations for CD-ROMs, WEB, videodiscs and videotape. Current software and hardware tools and techniques for designing and programming interactive multimedia presentations will be explored. The course offers the professional artist advanced Windows multi media skills needed for employment and/or advancement. $15.00 Laboratory Fee – PAYABLE AT REGISTRATION.
ACG 180 C DIGITAL VIDEO/MAC
3 Units
(Same as MMCG 180 C)
Two hours lecture and
Three hours laboratory per week.
CSU
Corequisite: Concurrent enrollment in ACG 199 C. Advisory:
ACG 100 C or MMCG 100 C or ACG 101 C or MMCG 101 C
or ACG 102 C or MMCG 102 C or ACG 103 C or MMCG 103
and ART 120 C or by consent of instructor pending portfolio
review. The course includes the study and hands on use of
Macintosh computers, assorted software, CD-ROMs,
videodiscs, and other tools and techniques used for digitizing,
editing and composition of video and audio sources. The
course is to provide a thorough introduction to the world of
desktop video used in the fields of multimedia, video editing
(both on line and off line) and the creation of Quicktime movies.
$15.00 Laboratory Fee – PAYABLE AT REGISTRATION.

ACG 181 C DIGITAL VIDEO/WIN
3 Units
(Same as MMCG 181 C)
Two hours lecture and
Three hours laboratory per week.
CSU
Corequisite: Concurrent enrollment in ACG 199 C. Advisory:
ACG 100 C or MMCG 100 C or ACG 101 C or MMCG 101 C
or ACG 102 C or MMCG 102 C or ACG 103 C or MMCG 103
and ART 120 C or by consent of instructor pending portfolio
review. The course includes the study and hands on use of
Windows computers, assorted software, CD-ROMs,
videodiscs, and other tools and techniques used for digitizing,
editing and composition of video and audio sources. The
course is to provide a thorough introduction to the world of
desktop video used in the fields of multimedia, video editing
(both on line and off line) and the creation of Quicktime movies.
$15.00 Laboratory Fee – PAYABLE AT REGISTRATION.

ACG 199 C COMPUTER GRAPHICS STUDIO
0 Units (May be taken for credit 4 times)
Three hours laboratory per week.
CSU
Prerequisite: Concurrent enrollment in Fine Arts Computer
Graphic class(es) or seminar. This is an open studio course
for students who are currently enrolled in a fine arts com-
puter graphics course. The studio facility is equipped with
computers, software, and related equipment for student use
in completing computer graphics course projects.

Asian Studies
TRANSFER PROGRAM
Students should consult a counselor or www.assist.org for
lower division major requirements for most California pub-
lic universities. (See the Standard Definitions section of the
catalog for a description of ASSIST.) Students transferring
to an independent college/university should consult the cat-
alog of the individual school and a counselor for lower divi-
sion major requirements.

Astronomy
Division of Science/Engineering/Mathematics

Division Dean – Mohammad Entezampour

Faculty
Ron Armale

Counselors

Astronomy (ASTR)
ASTRONOMY TRANSFER PROGRAM
Students should consult a counselor or www.assist.org for
lower division major requirements for most California pub-
lic universities. (See the Standard Definitions section of the
catalog for a description of ASSIST.) Students transferring
to an independent college/university should consult the cat-
alog of the individual school and a counselor for lower divi-
sion major requirements.

ASTR 116 C INTRODUCTION TO ASTRONOMY
3 Units
Three hours lecture per week.
Credit/No Credit/Letter Grade Option
UC Credit Limitation/CSU, AA GE, CSU GE, IGETC
This course is an introduction to the ideas and concepts, and
theories of astronomy. Topics include the night sky, history of
astronomy, the solar system, extra solar planets, stars and
the interstellar medium, galaxies and cosmology, and extra-
terrestrial life in the universe. Visits to local observatories
and planetaria may be arranged. High School Algebra or
equivalent is recommended. Duplicate credit not granted for
ASTR 116HC.

ASTR 116HC HONORS INTRO TO
ASTRONOMY
3 Units
Three hours lecture per week.
UC Credit Limitation/CSU, AA GE, CSU GE, IGETC
This course is an enhanced introduction to the concepts and
theories of astronomy. Topics include the night sky, history of
astronomy, the solar system, the sun, moon, planets, extra
solar planets, stars and the interstellar medium, black holes,
galaxies, cosmology, and life in the universe. Visits to local
observatories and planetariums may be arranged. Duplicate
credit not granted for ASTR 116 C.
ASTR 117 C  ASTRONOMY LABORATORY
1 Unit
Three hours laboratory per week.
UC Credit Limitation/CSU, AA GE, CSU GE, IGETC
Corequisite: Completion of, or concurrent enrollment in, ASTR 116 C. This course comprises an introduction to techniques of Astronomical measurement and analysis of Astronomical data. Emphasis will be on understanding how scientific knowledge is constructed, i.e. answering the question: how do we know what we know about the universe? Students will perform hands-on measurements, observations and exercises in data analysis relating to the solar system, stars, galaxies, large-scale structure of the universe, and cosmology. Students will use the World Wide Web to access current Astronomical data and images. Field trips to local sites of astronomical interest may be arranged. Duplicate credit not granted for ASTR 117 C.

ASTR 117HC  HONORS ASTRONOMY LABORATORY
1 Unit
Three hours laboratory per week.
UC Credit Limitation/CSU, AA GE, CSU GE, IGETC
Prerequisite: Completion of, or concurrent enrollment in, ASTR 116HC. This enhanced course comprises an introduction to Astronomical measurement and analysis of Astronomical data. Emphasis will be on how scientific knowledge is constructed, i.e. answering the question: how do we know what we know about the universe? Students will perform hands-on measurements, observations and exercises in data analysis relating to the solar system, stars, galaxies, large-scale structure of the universe, and cosmology. Students will learn how to use a telescope, which may be computer controlled and take digital images. Students will access the World Wide Web to access Astronomical data and images. Field trips to local sites of astronomical interest may be arranged. Duplicate credit not granted for ASTR 117 C.

Automotive Collision Repair
Division of Vocational Education

Division Dean – Steve Donley

Faculty
Anthony Jones
Daniel Snook

Counselor
Jane Jepson

ASSOCIATE IN SCIENCE DEGREE
AUTOMOTIVE COLLISION REPAIR
The following program is designed to prepare students for employment as automotive collision technicians and in numerous other related areas of the automotive and transportation industry. Training is given in both theory and practical skills. Directed practical work is given in all areas of automotive collision repair under simulated on-the-job conditions. The program suggested will provide the student the opportunity to acquire the knowledge and skills demanded of the modern automotive collision technician.

To earn an Associate Degree students must complete:
(1) all major course requirements with a minimum grade of “C”; (2) 25 units of General Education Graduation Requirements; (3) the cultural pluralism and reading requirements; (4) any elective courses to complete a minimum of 60 units; and, (5) have a minimum GPA of 2.0. At least 50% of all major course work must be completed at Cypress College.

Required Courses are listed in suggested sequence:
Course #  Title                              Units
ACR 010AC  Automotive Collision Repair      6
ACR 010BC  Advanced Automotive Collision Repair 6
ACR 010CC  Advanced Automotive Collision Repair 6
ACR 010DC  Advanced Automotive Collision Repair 6
ACR 011 C  Auto Painting and Refinishing        4, 4
ACR 012 C  Automotive Damage Appraisal       3
ACR 030 C  Advanced Auto Collision and Electrical Component Repair 4
ACR 040 C  Automotive Body/Structural Alignment and Repair 4

Total Units Required 43

Electives
ACR 013 C Computerized Automotive Damage Appraisal 3
ACR 020AC Auto Detailing & Car Care 3
ACR 050 C Automotive Collision - Special Projects 1 - 3
ACR 060 C Collision Repair Management 3
ACR 070 C Automotive Color Matching 3

TOTAL UNITS REQUIRED 49

AUTOMOTIVE COLLISION REPAIR CERTIFICATE
Primary emphasis is to prepare the student for occupational competency. To earn a certificate, complete the required courses as listed with a minimum grade of “C”. At least 50% of all course work must be completed at Cypress College.

Required courses are listed in suggested sequence:
Course #  Title                              Units
ACR 010AC  Automotive Collision Repair      6
ACR 010BC  Advanced Automotive Collision Repair 6
ACR 010CC  Advanced Automotive Collision Repair 6
ACR 010DC  Advanced Automotive Collision Repair 6
ACR 011 C  Auto Painting and Refinishing        4, 4
ACR 012 C  Automotive Damage Appraisal       3
ACR 030 C  Advanced Auto Collision and Electrical Component Repair 4
ACR 040 C  Automotive Body/Structural Alignment and Repair 4
ENGL 095 C Effective Writing 3

Select a minimum of 3 Units from the elective courses listed below

Total Units Required 3

84 / Automotive Collision Repair
AUTOMOTIVE DAMAGE APPRAISAL CERTIFICATE

The following program is designed to prepare students for employment as automotive damage appraisers. Training is given in both theory and practical application. Directed practical work is given in all areas of automotive damage appraisal.

To earn a certificate, complete the required courses as listed with a minimum grade of "C". At least 50% of all course work must be completed at Cypress College.

Required courses are listed in numeric sequence:

Automotive Collision Repair (ACR)

ACR 010AC  AUTOMOTIVE COLLISION REPAIR
6 Units
Three hours lecture and
Nine hours laboratory per week.
This course covers principles and fundamentals of automotive collision repair with emphasis on tools of the trade and their proper use and metal working characteristics, including auto body sheet metal welding.

ACR 010BC  ADVANCED AUTOMOTIVE COLLISION REPAIR
6 Units
Three hours lecture and
Nine hours laboratory per week.
Prerequisite: ACR 010AC with a grade of “C” or better. This course covers the advanced metal straightening, including measuring and straightening equipment; door replacement; door repair panel replacement and alignment; front sheet metal repairs and alignment including theory and fundamentals; bumper repair replacement and alignment and bumper energy absorbing systems.

ACR 010CC  ADVANCED AUTOMOTIVE COLLISION REPAIR
6 Units
Three hours lecture and
Nine hours laboratory per week.
Prerequisite: ACR 010BC with a grade of “C” or better. This course will cover major body repairs with welded panel replacement, panel alignment, upholstery removal and replacement. Glass removal and replacement with advanced metal work, including straightening of frames and the types of equipment.

ACR 010DC  ADVANCED AUTOMOTIVE COLLISION REPAIR
6 Units
Three hours lecture and
Nine hours laboratory per week.
Prerequisite: ACR 010CC with a grade of “C” or better. Students will learn advanced experiences in all areas of auto collision repairs, body electrical systems, MIG, welding, power windows, tail gates, management, employer-employee relations, shop-related business procedures and rust proofing.

ACR 011 C  AUTO PAINTING AND REFINISHING
4 Units (May be taken for credit 3 times)
Two hours lecture and
Six hours laboratory per week.
In the first credit students will learn the use of basic auto refinishing materials, equipment, procedures and techniques necessary to properly prepare and refinish the modern automobile. The second credit will teach students how to perform advanced prepping and painting of complete paint jobs and spot blending. In the final section the students will learn the use of basic auto custom painting materials, equipment, procedures, and techniques necessary to properly prepare and paint automotive vehicles.

ACR 012 C  AUTOMOTIVE DAMAGE APPRAISAL
3 Units
Three hours lecture per week.
This course is designed to prepare students to enter the field of automotive collision appraisal. Students will learn how to make repair estimates on damaged vehicles. The class will cover frame straightening, glass, paint and use of various manuals.

ACR 013 C  COMPUTERIZED AUTOMOTIVE DAMAGE APPRAISAL
3 Units
Three hours lecture per week.
Prerequisite: ACR 012 C or equivalent, or minimum of one year estimating experience. This course is designed for students who have had previous estimating training or some experience in automotive damage appraisal. Students will learn computer-based estimating software used in the collision repair industry. The course will give the student an opportunity to develop skills in computer-assisted estimate writing.

ACR 020AC  AUTO DETAILING & CAR CARE
3 Units
Two hours lecture and
Three hours laboratory per week.
This course is an introductory automotive detailing and car care course. Detail chemicals, processes, tools and equipment are covered in the class. Topics include the theory, diagnosis of paint conditions, and communication with the customer. Laboratory activities will emphasize skill competency in paint condition identification, washing, waxing, polishing, and interior care.

ACR 020BC  ADVANCED AUTO DETAILING
3 Units
Two hours lecture and
Three hours laboratory per week.
Prerequisite: ACR 020AC. This is an advanced course in automotive detailing and car care. Topics include: starting a detailing business, location determination, customer service, and advanced detailing techniques. Laboratory activities include receipt and delivery of customer vehicles, use of chemicals, and advanced detailing.

ACR 030 C  ADVANCED AUTO COLLISION AND ELECTRICAL COMPONENT REPAIR
4 Units
Three hours lecture and
Four hours laboratory per week.
Prerequisite: Completion of, or concurrent enrollment in, ACR 010BC, ACR 010CC, or ACR 010DC; or employment in the industry. This course will include advanced techniques in Auto Collision Repair. Topics included are: collision related electrical repairs, supplemental restraint systems (SRS), sheet mold compound (SMC), interior and exterior plastic repairs, plastic welding, bumper energy absorbing systems, air conditioning, sun roofs, metal inert gas welding (MIG), tool repair, aluminum repair and welding. Students are given practical applications for diagnosis, repair and servicing on both laboratory and live projects.
ACR 040 C  AUTOMOTIVE BODY/STRUCTURAL ALIGNMENT AND REPAIR
4 Units
Three hours lecture and
Three hours laboratory per week.
Prerequisite: Completion of, or concurrent enrollment in ACR 010BC, ACR 010CC, or ACR 010DC; or employment in the industry. This course will emphasize the diagnosis and restructuring of the unitized automobile and light truck frame and body, use of manuals, structural restoration, gauge, universal, and dedicated measurement, sectioning techniques, corrosion control, welding techniques, relationship of suspension and structural repair and maintenance of hydraulic pumps and rams.

ACR 050 C  AUTOMOTIVE COLLISION - SPECIAL PROJECTS
1 - 3 Units (Variable Unit Class) (May be taken for credit 4 times)
One hour lecture and
Six hours laboratory per week.
Prerequisite: Completion of, or concurrent enrollment in, ACR 010BC, ACR 010CC, or ACR 010DC, ACR 011 C, ACR 012 C, ACR 030 C, ACR 040 C. This course is designed to offer students a supervised independent program to continue and broaden their studies in automotive collision repairs.

ACR 055 C  AUTOMOTIVE COLLISION - WORK EXPERIENCE - VOCATIONAL
1 - 4 Units (Variable Unit Class) (May be taken for credit 4 times)
One hour lecture per week.
Prerequisite: Must be enrolled in seven units, including work experience. Concurrent enrollment in Automotive Collision Program. The course requires a minimum of five hours employment in an automotive collision related occupation per week. Refer to class schedule for an explanation of unit credit.

ACR 060 C  COLLISION REPAIR MANAGEMENT
3 Units
Three hours lecture per week.
This course is designed for those interested in management practices of the collision repair industry. There will be special emphasis on management concepts, productivity control, labor and parts, pricing, essential financial statements and budgeting. In addition, inventory control, customer relations, insurance company billing and negotiation guidelines as applicable to the collision repair industry will be covered.

ACR 070 C  AUTOMOTIVE COLOR MATCHING
3 Units
Three hours lecture per week.
This course is an introduction to the concepts and techniques of matching color applied to automobiles. The course covers color theory, application theory, matching solid colors, metallic and two or three stage colors. The class will be using automotive paint mixing systems. The student will be required to provide certain safety and respiratory protection equipment.

ACR 298 C  AUTOMOTIVE COLLISION REPAIR SEMINAR
½ - 3 Units (Variable Unit Class) (May be taken for credit 4 times)
Lecture/discussion hours will vary according to unit credit given.
CSU
This is a course for students who wish to increase their knowledge of automotive collision repair. Various topics will be offered. Unit credit may range from ½ to 3 units in any given semester. Consult the class schedule to verify credit for a particular semester.

Automotive Technology
Division of Vocational Education

Jane Jepson

ASSOCIATE IN SCIENCE DEGREE
AUTOMOTIVE TECHNOLOGY

The following program is designed to prepare students for employment as automotive technicians and in numerous other related areas of the automotive and transportation industry. Training is given in both theory and practical skills. Directed practical work is given in all areas of automotive maintenance and repair under simulated on-the-job conditions. The sequence in which courses are taken may be modified to meet individual needs.

To earn an Associate Degree students must complete:
(1) all major course requirements with a minimum grade of “C”; (2) 25 units of General Education Graduation Requirements; (3) the cultural pluralism and reading requirements; (4) any elective courses to complete a minimum of 60 units; and, (5) have a minimum GPA of 2.0. At least 50% of all major course work must be completed at Cypress College.

Required courses are listed in suggested sequence:

AUTOMOTIVE TECHNOLOGY CERTIFICATE - BRAKE AND ALIGNMENT SPECIALIST

This program is designed to prepare students for employment as automotive brake and alignment technicians. Training is given in theory and practical skills. Directed practical work is given in areas of automotive maintenance and repair under simulated on-the-job conditions. Particular emphasis is placed on those competencies required of brake, suspension, and alignment technicians. The program will provide the student the opportunity to acquire the knowledge and skills demanded of the modern automotive brake, suspension, and alignment technician. The sequence in which courses are taken may be modified to meet individual needs.

To earn a certificate, complete the required courses as listed with a minimum grade of "C". At least 50% of all course work must be completed at Cypress College.

ELECTRICAL SYSTEMS SPECIALIST CERTIFICATE

This program is designed to prepare students for employment as an automotive electrical system specialist. Course work includes theory and operation of electrical systems, the use of test instruments, and skill competency in electrical system diagnosis and repair. The program will provide the student the opportunity to acquire the knowledge and skills demanded of the modern automotive electrical system specialist. The sequence in which the courses are taken may be modified to meet individual needs.
To earn a certificate, complete the required courses as listed with a minimum grade of “C”. At least 50% of all course work must be completed at Cypress College.

Total Units Required 16

Automotive Technology (AT)
AT 025 C AUTOMOTIVE ENGINE REPAIR AND MACHINING
12 Units
Nine hours lecture and
 Nine hours laboratory per week.
Prerequisite: Completion of, or concurrent enrollment in, AT 101 C, or AT 131 C, or successful completion of high school/Rop Automotive Program. This course covers the acquisition of practical skills needed for accurate engine diagnosis and repair and all phases of engine rebuilding machine work. Demonstrated lecture, simulated problem diagnosis, and practical application on live vehicles will be used. Individualized instruction on Automotive rebuilding tools and machinery is an integral part of this course. Engine theory, practical and theoretical high performance application is part of the course. Preparation for ASE certification will be covered.

AT 026 C AUTOMOTIVE CHASSIS AND BRAKE SYSTEM
12 Units
Nine hours lecture and
 Nine hours laboratory per week.
Prerequisite: Completion of, or concurrent enrollment in AT 101 C, or AT 131 C, or successful completion of high school/Rop Automotive Program. This course covers operating principles, design, service, repair and diagnosis of chassis and brake systems of domestic and import vehicles. Major topics of study will be wheel alignment techniques, wheel balance, power steering systems, hydraulics, disc and drum brake systems, and power assisting systems, including brake boost and hydro boost. Application will be applied under simulated repair shop procedures using live vehicles. Preparation for ASE certification will be covered.

AT 027 C AUTOMATIC TRANSMISSIONS AND POWER TRAINS
12 Units
Nine hours lecture and
 Nine hours laboratory per week.
Prerequisite: Completion of, or concurrent enrollment in AT 101 C, or AT 131 C, or successful completion of high school/Rop Automotive Program. This course will include operating principles, design, repair, overhaul and service procedures of automatic transmissions, 4 and 5 speed synchronmesh transmissions, clutch assemblies, drive lines, final drive axles and transaxle units. Demonstrated lectures and shop laboratory work on automatic transmissions will be covered with emphasis on procedures to industry standards. Practical application will be under simulated shop conditions on live vehicles. Preparation of ASE certification will be covered.

AT 028 C AUTOMOTIVE TUNE-UP AND EMISSION CONTROLS
12 Units
Nine hours lecture and
 Nine hours laboratory per week.
Prerequisite: Completion of, or concurrent enrollment in AT 101 C, or AT 131 C, or successful completion of high school/Rop Automotive Program. This course will include operating principles, design, and repair procedures of automotive electrical and fuel systems. In addition, alternators, starters, batteries, standard and electronic ignition systems, computerized engine management systems, emission control systems to include positive crankcase ventilation, evaporative controls, exhaust control systems, and electronic engine control systems will be covered. Legal aspects of the emission control program will also be covered. Practical application will be under simulated shop conditions on "live" vehicles. Preparation for VIP, MVPC licensing and ASE certification will be covered.

AT 030 C AUTOMATIC TRANSMISSION - ADVANCED
4 Units
Three hours lecture and
 Three hours laboratory per week.
Prerequisite: AT 027 C. This course will include advanced techniques in diagnostic procedures of automatic transmission problems, modifications and update. Demonstrated lectures and shop laboratory work on overdrive and front wheel drive units will be covered as well as operating principles of lock-up torque converter, electronic controlled units, overdrive and front wheel drive transmission.
AT 041 C AUTOMOTIVE AIR CONDITIONING
4 Units
Three hours lecture and
Three hours laboratory per week.
This course emphasizes the acquisition of the practical skills needed both to understand principles of refrigeration and perform system diagnosis and repair. Demonstrated lecture, shop lab simulators and live vehicles will be used to learn service diagnosis, repair and installation of air conditioning systems including automatic temperature control. Safety and environmental concerns along with CFC recovery, recycling, retrofitting, and R-134a will be covered.

AT 044 C ELECTRICAL, FUEL AND TUNE-UP – ADVANCED
4 Units
Four hours lecture and
Two hours laboratory per week.
Prerequisite: Completion of, or concurrent enrollment in, AT 028 C. The course includes advanced principles, design and repair procedures of automotive electrical and fuel systems, including air pollution controls. Demonstrated lectures and shop-laboratory work using modern testing equipment, oscilloscopes, dynamometer and other diagnostic equipment are included. Practical application under simulated repair shop conditions on over-the-road live vehicles is an integral part of the course.

AT 050 C SPECIAL PROJECTS – AUTOMOTIVE TECHNOLOGY
1 - 3 Units (Variable Unit Class) (May be taken for credit 3 times)
One hour lecture and
Six hours laboratory per week.
Prerequisite: Completion of one of the following: AT 025 C, AT 026 C, AT 027 C, or AT 028 C. This course will include supervised independent lab work on lab units and live vehicles. This class is designed to allow the student to gain more practical experience repairing components and servicing automotive systems already covered by the completion of the prerequisite. Only approved project work will be allowed.

AT 055 C AUTOMOTIVE TECHNOLOGY - WORK EXPERIENCE - VOCATIONAL
1 - 4 Units (Variable Unit Class) (May be taken for credit 4 times)
One hour lecture per week
and a Job Site.
Prerequisite: Must be enrolled in seven units, including work experience. Concurrent enrollment in Automotive Technology Program. The course requires a minimum of five hours employment in an automotive servicing-related occupation per week. Refer to class schedule for an explanation of unit credit.

AT 060 C DIESEL ENGINES
6 Units
Three hours lecture and
Nine hours laboratory per week.
Prerequisite: AT 025 C, AT 101 C, AT 131 C, or employment in the field. This course is a comprehensive study of light diesel engines as used in passenger cars, light marine propulsion applications (power and sailboats), stationary and auxiliary power plants (generators). The course will include servicing, overhaul, troubleshooting and diagnosis of the diesel engine and auxiliary systems. Practical application will be on laboratory engines and/or live diesel engines.

AT 061 C INTRODUCTION TO ELECTRIC AND HYBRID VEHICLES
2 Units
Two hours lecture and
One hour laboratory per week.
This course is an introductory course in electric (EV) and electric/hybrid vehicles as used in the transportation industry. Topics include the theory, design, operation, maintenance, and repair of batteries, motors, controllers, chargers, and regenerative braking systems. Technician safety is also covered.

AT 062 C INTRODUCTION TO GASEOUS FUEL SYSTEMS AND VEHICLE CONVERSION
4 Units
Four hours lecture and
Two hours laboratory per week.
This course is an introductory course on alternative fuels as used in the transportation industry. Various fuels will be compared, with an emphasis on compressed natural gas. Topics include the theory, design, operation, conversion, diagnosis, and repair of gaseous fuel systems. Laboratory activities will emphasize skill competency in vehicle preparation, fuel system conversion and the diagnosis and repair of alternative fuel vehicles.

AT 065 C BASIC AUTOMOTIVE ELECTRICITY AND ELECTRONICS
4 Units
Three hours lecture and
Three hours laboratory per week.
This is an introductory course in the concepts of electrical and electronic control of the automobile. Course instruction will include lecture, demonstration and student application in the use of test equipment on simulator board and on-car diagnosis with electrical diagrams charts, and schematics.

AT 067 C DIAGNOSTICS & DIGITAL METERS
1 Unit
One hour lecture per week.
This course covers concepts of testing electrical and electronic circuits of an automobile using a multi-meter. Advanced diagnostic concepts and circuit testing of automobile systems is a large component of the course. Demonstrated lecture in conjunction with collaborative work groups is emphasized. Practical application in the use of multimeters on live circuits and simulator boards is an integral part of the course.

</tbody>
</table>
AT 092 C  DIAGNOSTICS & SCAN-TOOLS
2 Units
One and a half hours lecture and
One and a half hours laboratory per week.
This course emphasizes diagnostic strategies, repair and
service of power-train control systems using scan tools.
Demonstrated lecture in combination with shop laboratory
activities using a variety of scan-tools is included. Practical
application on “live” vehicles is an integral part of the course.
Topics include testing engine control systems, diagnostic
trouble codes, data stream, OBD I and OBD II systems.

AT 093 C  DIAGNOSTICS & DIGITAL SCOPES
2 Units
One and a half hours lecture and
One and a half hours laboratory per week.
This course includes advanced principles and procedures of
power train control diagnosis. Demonstrated lectures in con-
junction with shop laboratory work using digital storage oscil-
lloscopes is included. Practical application under simulated
shop conditions on “live” vehicles is an integral component of
this course. Topics include lab scope functions, sensor eval-
uation and analysis, actuator diagnosis and circuit testing.

AT 094 C  DIAGNOSTICS & OBD II
2 Units
One and a half hours lecture and
One and a half hours laboratory per week.
This course emphasizes operating principles, diagnostic
strategies and repair procedures of the OBD II system.
Demonstrated lecture in conjunction with shop laboratory
work are emphasized. Practical application on laboratory
vehicles is an integral component of the course. This course
meets Bureau of Automotive Repair requirements for smog
check technician licensing.

AT 095 C  ADVANCED CLEAN AIR CAR
COURSE
1½ Units
One and one half hour lecture and
One quarter hours laboratory per week.
This course covers operating procedures, diagnostic strate-
gies, and repair procedures for loaded mode emissions test-
ing. Course emphasizes baseline techniques, five gas analy-
sis and lab scope use. Practical application using lab scopes,
scan tools and emissions analyzer are an essential part of
the course. Course meets BAR smog check licensing
requirements.

AT 101 C  SURVEY OF THE AUTOMOBILE
3 Units
Three hours lecture per week.
CSU
This course provides fundamental knowledge of the auto-
mobile, including engines, power trains, suspension and brakes,
electrical and fuel systems. Other areas of instruction will be
in the use of tools and equipment normally used in automo-
tive service and repair.

AT 131 C  AUTOMOTIVE FUNDAMENTALS
4 Units
Three hours lecture and
Three hours laboratory per week.
CSU
This course provides fundamental knowledge of the automo-
BILE, including engines, power trains, suspension and brakes,
electrical and fuel systems. Other areas of instruction will be
in the use of tools and equipment normally used in automo-
tive service and repair. Emphasis will be on the operating
principles, nomenclature of car care, inspection, preventive
maintenance, and minor repair procedures.

AT 298 C  AUTOMOTIVE SERVICE SEMINAR
½ - 3 Units (Variable Unit Class) (May be taken for
credit 4 times)
Lecture/discussion hours will vary
according to units given.
CSU
This is a course for students who wish to increase their
knowledge of automotive repair. Various topics will be
offered. Unit credit may range from ½ to 3 units in any given
semester. Consult the class schedule to verify credit for a
particular semester.

ASSOCIATE IN SCIENCE DEGREE AVIATION
MANAGEMENT
This curriculum is designed to assist the management stu-
dent preparing to enter the aviation industry. By selecting
proper electives, the student may develop needed skills
and understanding in the fields of flight services, airport
management, cargo and freight handling or travel services.

To earn an Associate Degree students must complete all
graduation requirements to include: (1) all major course
requirements with a minimum grade of “C” or better;
(2) 25 units of General Education Graduation Require-
ments; (3) the cultural pluralism and reading requirements;
(4) any elective courses to complete a minimum of 60 units;
and, (5) have a minimum GPA of 2.0. At least 50% of all
major course work must be completed at Cypress College.
Required courses are listed in suggested sequence:

PROFESSIONAL PILOT CERTIFICATE

This curriculum is designed to prepare the student to a proficiency level required for entry into the commercial pilot profession. To qualify for the certificate, the student must have attained the FAA Commercial Pilot Certificate with instrument and flight instructor ratings.

To earn a certificate, complete the required courses as listed with a minimum grade of “C”. At least 50% of all course work must be completed at Cypress College.

Required courses are listed in suggested sequence:

<table>

ARTICULATION AGREEMENTS ARE IN EXISTENCE FOR TRANSFER PROGRAMS TO THE FOLLOWING UNIVERSITIES:

Arizona State University
California State University, Los Angeles
San Jose State University
Southern Illinois University
Students should consult a counselor or www.assist.org for lower division major requirements for most California public universities. (See the Standard Definitions section of the catalog for a description of ASSIST.) Students transferring to an independent college/university should consult the catalog of the individual school and a counselor for lower division major requirements.

Aviation (AVIA)

Through arrangements with the University of Southern California (USC) and Loyola Marymount University (LMU), two-, three-, and four-year Air Force Reserve Officers Training Corps (AFROTC) programs are available to all qualified students at Cypress College. For additional information, contact USC or LMU.

Through arrangement with California State University Long Beach, both two-year and four-year Air Force Reserve Officer Training Corps (AFROTC) programs are available to all qualified, full-time students. Academic units earned in this program are counted as elective units toward fulfillment of graduation requirements. Successful completion of the AFROTC programs leads to a commission as an officer in the United States Air Force. Those students who qualify and desire to enter Air Force pilot training will be given flight instruction in either the two- or four-year program. Competitive scholarships are available to qualified students. All scholarship students receive tuition, laboratory and book fees, and $100 a month. Students on scholarship must successfully complete courses in English composition, mathematical reasoning, and foreign language. For additional information, contact the Department of Aerospace Studies (AFROTC) at California State University Long Beach, CA 90840-5530, (562) 985-5743.

CERTIFIED PILOTS - CREDIT BY EXAMINATION

The Professional Pilot program at Cypress College is intended to prepare a student for employment in the aviation industry. Although the college offers only ground instruction and ground trainer instruction, it is recognized that flight training and pilot certificates are also required for employment.

In order to complete qualifications for employment, the student arranges for, and secures, the flight training necessary for the needed pilot certificates and ratings. Cypress College and the North Orange County Community College District assume no responsibility or liability for the flight training so obtained.

Unit credit (no grade) may be awarded through the Credit by Examination process (see index). Pilot certificates and ratings issued to the student by the Federal Aviation Administration will be used as evidence and certification of competency. A maximum of 12 units will be granted via Credit by Examination.

AVIA 050 C SPECIAL PROJECTS - AVIATION
2 Units (May be taken for credit 4 times)
One hour lecture and
Three hours laboratory per week.
This course includes individually directed research by independent study, dealing with present and future problems of the aviation industry. The student applies previously learned principles and procedures to practical problems to develop increased understanding and to demonstrate knowledge of the subject.

AVIA 055 C WORK EXPERIENCE - VOCATIONAL
1 - 4 Units (Variable Unit Class) (May be taken for credit 4 times)
One hour lecture per week.
Prerequisite: Must be enrolled in seven units, including work experience. Concurrent enrollment in Aviation Program. The course requires a minimum of five hours per week employment in an aviation-related occupation.

AVIA 090 C FLIGHT TRAINING - PRIVATE PILOT
2 Units
Hours as required by FAA.
Credit/No Credit, Credit by Examination
Prerequisite: FAA Private Pilot Certificate and completion of at least three units of AVIA (132 C or above) with a grade of "C" or better. This is a credit/no credit course for the student who has earned the Private Pilot Certificate. Credit may be granted by meeting the above prerequisites and following the current Credit by Examination procedures as published in this catalog.

AVIA 091 C FLIGHT TRAINING - INSTRUMENT RATING
2 Units
Hours as required by FAA.
Credit/No Credit, Credit by Examination
Prerequisite: FAA Private Pilot Certificate with Instrument Rating and completion of at least three units of AVIA (132 C or above) with a grade of "C" or better. This is a credit/no credit course for the student who has earned the Instrument Rating on their Pilot Certificate. Credit may be granted by meeting the above prerequisites and following the current Credit by Examination procedures as published in this catalog.

AVIA 092 C FLIGHT TRAINING - COMMERCIAL PILOT
2 Units
Hours as required by FAA.
Credit/No Credit, Credit by Examination
Prerequisite: FAA Commercial Pilot Certificate and completion of at least three units of AVIA (132 C or above) with a grade of "C" or better. This is a credit/no credit course for the student who has earned the Commercial Pilot Certificate. Credit may be granted by meeting the above prerequisites and following the current Credit by Examination procedures as published in this catalog.
AVIA 093 C  FLIGHT TRAINING - FLIGHT INSTRUCTOR
1 - 5 Units  (Variable Unit Class)  (May be taken for credit 4 times)
Hours as required by FAA
Credit/No Credit, Credit by Examination
Prerequisite: FAA Pilot Certificate with Instrument Rating and completion of at least three units of AVIA (132 or above) with a grade of “C” or better. This is a credit/no credit course for the student who has earned the Flight Instructor Certificate. One unit of credit may be granted for each of the following Flight Instructor Certificates or Ratings: Airplane Single Engine, Airplane Multi-Engine, Rotorcraft, Glider and Instrument. Credit may be granted by meeting the above prerequisites and following the current Credit by Examination procedures as published in this catalog.

AVIA 100 C  INTRODUCTION TO AVIATION
3 Units
Three hours lecture per week.
CSU
This course is a general introductory course covering the development of aviation and its importance in the economy. Special emphasis is placed on the history of aviation, the airlines and general aviation.

AVIA 104 C  AIR TRANSPORTATION
3 Units
Three hours lecture per week.
CSU
Prerequisite: Completion of or concurrent enrollment in AVIA 100 C or AVIA 132 C. This course emphasizes the historical development and present status of air transportation; facilities, State and Federal regulations, legal characteristics, problems and services of United States air carriers and the organization and function of the FAA, NTSB, IATA and ICAO.

AVIA 112 C  AIRLINE/AVIATION MANAGEMENT
3 Units
Three hours lecture per week.
CSU
Prerequisite: AVIA 104 C or HTC 270 C or concurrent enrollment and eligibility for ENGL 060 C. This course covers the application of management principles to aviation enterprises. These enterprises include airlines, general aviation and travel agencies. Major areas of study include planning, organization, regulations, manpower management, facilities, marketing, administration and decision making process.

AVIA 116 C  AVIATION LAW
3 Units
Three hours lecture per week.
CSU
Prerequisite: AVIA 100 C or AVIA 132 C or concurrent enrollment or some aviation background and eligibility for ENGL 060 C. The course covers the regulations and liabilities of public and private air carriers, both domestic and foreign use. It includes a study of the development of aviation law through enactment of laws and judicial decisions applying those laws. Local, Federal and international laws forming the present legal structure and possible future changes are studied, as well as rights and liabilities of aviators and operators.

AVIA 132 C  PRIVATE PILOT
4 Units
Three hours lecture and
Three hours laboratory per week.
CSU
This course is an introduction to basic principles of aviation, meteorology, navigation, radio communication and Federal Aviation Regulations to qualify the student for the FAA written examination for the Private Pilot Certificate and meets the FAA requirement for ground instruction.

AVIA 136 C  AIR NAVIGATION
3 Units
Three hours lecture per week.
CSU
Prerequisite: Completion of or concurrent enrollment in AVIA 132 C. This course is a study of pilotage, dead reckoning, and radio navigation techniques; solution and application of navigation problems. This course meets partial fulfillment of the requirements of the FAA for ground instruction.

AVIA 140 C  METEOROLOGY
3 Units
Three hours lecture per week.
CSU
Prerequisite: Completion of or concurrent enrollment in AVIA 132 C. This is a course of study of weather recognition, icing, fog, fronts, clouds, weather maps and symbols, forecasting pressure patterns, wind systems, temperature-humidity-dew point relationships, precipitation, with emphasis on the practical application of this knowledge to safe flying practices. The services and assistance available from the US Weather Bureau will be highlighted. The course meets the meteorology requirements of the FAA for ground instruction.

AVIA 144 C  AIRCRAFT AND ENGINES
3 Units
Three hours lecture per week.
CSU
Prerequisite: Completion of or concurrent enrollment in AVIA 132 C. This course is a study of the theory of flight, aircraft design, construction, operation limitations, repair and maintenance, maintenance records and aircraft accessories. Engine study includes principles of internal combustion engines, engine design and construction, fuel, lubrication and cooling systems, propellers, trouble shooting and preventive maintenance. This course meets partial fulfillment of the requirements of the FAA for ground instruction.

AVIA 148 C  AIR TRAFFIC CONTROL
3 Units
Three hours lecture per week.
CSU
Prerequisite: AVIA 132 C or equivalent, eligibility for ENGL 060 C. This course is a study of rules and procedures involving the movement and control of airborne and ground traffic during VFR and IFR conditions, including tower control, manual and radar approach, departure control, and enroute control. Presentation of this material is designed to also aid pilots in understanding and benefiting from the Air Traffic Control System.
AVIA 152 C  GLIDER THEORY  
3 Units  
Three hours lecture per week.  
CSU  
This is an introductory course in glider flying including theory of flight, weather, Federal Aviation Regulations, as well as principles and techniques of cross-country and competition flying. It prepares the student for the FAA Private Pilot-Glider written examination.

AVIA 160 C  AIRCRAFT SURVIVAL  
3 Units  
Three hours lecture per week.  
Prerequisite: Student pilot certificate or equivalent. This course contains survival information required by pilots flying in the Southwestern United States. The course will detail facts pilots should know, procedures they should follow, and equipment they should obtain to improve their chances for survival if they should be forced to land at sea, in the desert, in the mountains or in an urban area.

AVIA 164 C  AIRCRAFT SURVIVAL – BASIC LABORATORY  
1 Unit  
One hour laboratory per week plus  
Thirty-six hours TBA (field trips).  
CSU  
Prerequisite: Completion of, or concurrent enrollment in, AVIA 160 C. This is a laboratory course including classroom discussion and field trips which give practical demonstrations of material covered during the AVIA 160 class. Two (2) field trips to local mountains and two (2) weekend trips to desert areas are a part of this curriculum.

AVIA 196 C  GROUND TRAINER LAB - INSTRUMENT FLIGHT  
1 Unit (May be taken for credit 4 times)  
One hour lecture and  
One hour laboratory per week.  
Credit/No Credit/Letter Grade Option  
CSU  
Prerequisite: Completion of, or concurrent enrollment in, AVIA 232 C or AVIA 240 C. This course offers the student the opportunity to develop and maintain necessary instrument flight skills. Laboratory time will be divided between instrument ground trainer and audio visual aids. Flight time in the approved ground trainers may be applied toward requirements for both attaining and maintaining flight ratings. (Course may be repeated for credit.)

AVIA 220 C  ADVANCED AIR NAVIGATION  
2 Units  
Two hours lecture per week.  
CSU  
Prerequisite: Completion of or concurrent enrollment in AVIA 136 C. This is a course stressing advanced navigation methods and principles including radio and electronic navigation aids, celestial navigation, computerized flight planning and cruise control.

AVIA 224 C  AIRCRAFT STRUCTURES  
3 Units  
Three hours lecture per week.  
CSU  
Prerequisite: Completion of or concurrent enrollment in AVIA 132 C. This is a study of aircraft nomenclature, flight control systems, weight and balance analysis, aircraft loading practices, and non-metallic construction materials and techniques. Application of maintainability practices as defined by the Federal Aviation Regulations will be covered.

AVIA 228 C  AIRCRAFT POWERPLANTS  
3 Units  
Three hours lecture per week.  
Prerequisite: Completion of or concurrent enrollment in AVIA 132 C. This is a study of turbine and reciprocating propulsion units. Theoretical cycles and basic engine design are covered. Types and materials of construction, nomenclature, repair and servicing, as well as fundamental systems, maintainability and reliability methods are studied.

AVIA 232 C  INSTRUMENT RATING  
3 Units (May be taken for credit 3 times)  
Three hours lecture per week.  
Credit by Examination (for first credit only)  
CSU  
Prerequisite: AVIA 136 C, AVIA 140 C or 120 hours of flight time. This course is an introduction to basic principles of aviation, meteorology, navigation, radio communication and Federal Aviation Regulations to qualify the student for the FAA written examination for the Private Pilot Certificate and meets the FAA requirements for ground instruction. Credit by Examination procedures as published in this catalog.

AVIA 236 C  AERODYNAMICS  
3 Units  
Three hours lecture per week.  
CSU  
Prerequisite: Sophomore standing in Aviation Program, eligibility for MATH 040 C and PHYS 130 C. This course is a study of the basic principles of aerodynamics. A consideration of airfoil shapes and characteristics, viscous effects, propellers, and aircraft performance viewed in terms of basic laws of physics, aircraft limitations and Federal Aviation Regulations. Emphasis will be on physical aspects of flight time.

AVIA 240 C  COMMERCIAL PILOT SEMINAR  
3 Units (May be taken for credit 3 times)  
Three hours lecture per week.  
CSU  
Prerequisite: AVIA 136 C, AVIA 140 C, or Pilot Certificate. This course is a review of current Federal Aviation Regulations and Government Publications for the active pilot; aircraft loading and weight and balance; review of the aeronautical knowledge required to pass the FAA Commercial Pilot written examination. This course meets partial fulfillment of the FAA requirements for ground instruction. (Only the first credit may count toward the Aviation Major requirements. Ground Instrument Trainer flight time is available by concurrent enrollment in AVIA 196 C).
AVIA 244 C AVIATION INSTRUCTOR
3 Units
Two and one-half hours lecture and
One and one-half hour laboratory per week.
CSU
Prerequisite: AVIA 240 C and 120 hours of flight time. This course is a study of principles of learning and teaching, elements of practical educational psychology, and a review of current trends and techniques in aviation instruction. Class participation in lesson preparation is included. This course meets partial fulfillment of the requirements of the FAA for ground instruction.

AVIA 248 C FLIGHT ENGINEER
9 Units
Nine hours lecture per week.
CSU
Prerequisite: AVIA 232 C and AVIA 240 C, or instrument rating and commercial pilot certificate. This course prepares the student for the FAA Flight Engineer’s Basic and Turbo Jet written examination. The student will become familiar with construction features and component functions, normal operations, trouble analysis, and isolation and correcting of faults in the airplane and power plant system. The student will also know the proper procedures for ground and in-flight emergencies, as well as the reasons for operating in an approved manner and the possible effects if improper methods are used.

AVIA 298 C AVIATION SEMINAR
½ - 3 Units (Variable Unit Class) (May be taken for credit 4 times)
Lecture/discussion hours vary according to credit given.
CSU
This is a course for students who wish to increase their knowledge of Aviation. Various topics will be offered. Unit credit may range from ½ to 3 in any given semester. Consult the class schedule to verify credit for a particular semester.

BIOLOGICAL SCIENCES TRANSFER PROGRAM
Students should consult a counselor or www.assist.org for lower division major requirements for most California public universities. (See the Standard Definitions section of the catalog for a description of ASSIST.) Students transferring to an independent college/university should consult the catalog of the individual school and a counselor for lower division major requirements.

Biology (BIOL)

BIOL 101 C GENERAL BIOLOGY
5 Units
Four hours lecture and
Three hours laboratory per week.
Credit/No Credit/Letter Grade Option
No Credit if taken after BIOL 174 C, BIOL 176 C or BIOL 177 C.
UC Credit Limitation/CSU, AA GE, CSU GE, IGETC, CAN BIOL 2
Advisory: High school chemistry or CHEM 101 C or CHEM 107 C are recommended. The course is a survey of modern biological concepts from the areas of molecular, cellular, organismic, and population biology, stressing evolution as the central theme of modern biology. The study of the flow of energy through biological systems is emphasized. This is a general education course in the biological science area. This course will satisfy the Biological Sciences portion of the state college and university general education requirement. Duplicate credit not granted for BIOL 101HC.

BIOL 101HC HONORS GENERAL BIOLOGY
5 Units
Four hours lecture and
Three hours laboratory per week.
No Credit if taken after BIOL 174 C, BIOL 176 C or BIOL 177 C.
UC Credit Limitation/CSU, AA GE, CSU GE, IGETC
Advisory: High school chemistry or CHEM 101 C or CHEM 107 C are recommended. The course is an enhanced survey of modern biological concepts for Honors students. The emphasis of this course is on contemporary readings of relevant biology literature. Written essays pertaining to current issues in biology will be paramount. The class will be conducted as a seminar and will require a significant research project that uses correct documentation skills. The course will develop increased critical thinking, reading and writing skills. BIOL 101HC will satisfy the Geological Sciences portion of the state college and university general education requirement. Duplicate credit not granted for BIOL 101HC.

BIOL 102 C HUMAN BIOLOGY
3 Units
Three hours lecture per week.
Credit/No Credit/Letter Grade Option
UC/CSU, AA GE, CSU GE, IGETC
The course is a study of modern biological concepts presented in a human context. The concepts will include human evolution, anatomy, physiology, genetics, population biology, and ecological principles. Included in the course will be discussion on current topics on environmental and public health issues as they relate to the human condition. (Not open to students with credit in BIOL 101 C.)
BIOL 111C PRINCIPLES OF BIOLOGY 1
3 Units
Three hours lecture per week.
UC Credit Limitation/CSU, AA GE, CSU GE, IGETC
Prerequisite: Completion of or concurrent enrollment in CHEM 111AC. This is the first course in a two-semester lecture sequence for biology majors. This course presents the biochemistry and molecular biology of cells. In addition, cell principle, cell structure and function, cell growth and reproduction, the development of animals, and Mendelian and molecular genetics will be presented. Finally, population genetics and microevolution will be introduced. This course will meet the preparation needs of students transferring to upper division biology study. Eligibility for English 100 C is recommended.

BIOL 112C PRINCIPLES OF BIOLOGY 1 LAB
2 Units
Six hours laboratory per week.
UC Credit Limitation/CSU, AA GE, CSU GE, IGETC
Prerequisite: Completion of or concurrent enrollment in BIOL 111 C. This is a laboratory course that complements BIOL 111 C. The course explores modern experimental molecular, biochemical, and cellular biology techniques. This course may be taken concurrently with or subsequently to BIOL 111 C. Both BIOL 111 C and BIOL 112 C are required for the biology major. Eligibility for English 100 C is recommended.

BIOL 113C PRINCIPLES OF BIOLOGY 2
3 Units
Three hours lecture per week.
UC Credit Limitation/CSU, AA GE, CSU GE, IGETC
Prerequisite: Completion of BIOL 111 C or equivalent course with a “C” or better. This is the second course in a two-semester lecture sequence for biology majors. This course is designed to familiarize students with the diversity, evolution, physiology, and ecology of living organisms. Population genetics will also be presented. This class is designed for science majors in transfer programs to upper-division study of biology.

BIOL 114C PRINCIPLES OF BIOLOGY 2 LAB
2 Units
Six hours laboratory per week.
UC Credit Limitation/CSU, AA GE, CSU GE, IGETC
Prerequisite: Completion of or concurrent enrollment in BIOL 113 C. This is a laboratory course that complements BIOL 113 C in a two-semester sequence for biology majors. This course is designed to familiarize students with the diversity, evolution, physiology, and ecology of living organisms. Population genetics will also be presented. This course may be taken concurrently with or after BIOL 113 C. Both BIOL 113 C and BIOL 114 C are required for the biology major.

BIOL 107C NUTRITION & WORLD FOOD ISSUES
3 Units
Three hours lecture per week.
Credit/No Credit/Letter Grade Option
UC/CSU, AA GE
This course is a study of basic nutritional requirements for the human, including a survey of anatomical and physiological principles. A study of the human diet in the context of disease prevention, world food supply, and ecological factors will also be included.

BIOL 103C HUMAN ECOLOGY
3 Units
Three hours lecture per week.
Credit/No Credit/Letter Grade Option
UC/CSU, AA GE, CSU GE, IGETC
This course is a study of the ecological principles which form the basis for understanding human existence in relation to environmental quality. The topics include human, biological, and cultural evolution, ecological principles, human population problems, and problems relating to energy development and pollution. The development of an earthmanship ethic toward the world will be stressed.

BIOL 122C MARINE BIOLOGY
5 Units
Four hours lecture and
Three hours laboratory per week.
Credit/No Credit/Letter Grade Option
UC/CSU, AA GE, CSU GE, IGETC
Prerequisite: High school biology with a grade of “B” or better. This is a survey of the natural history and biology of marine organisms, and includes an introduction to physical and chemical oceanography, marine ecology, and energy flow within the marine environment, as well as some basic biological concepts using live ecosystems as examples. Pollution and conservation of the marine environment will also be considered. The course satisfies the biological science with a laboratory transfer requirement of universities and state colleges. A single optional boat field trip may be scheduled with a charter cost not to exceed $30.00.

BIOL 125C ISLAND BIOLOGY
2 Units (May be taken for credit 4 times)
Twenty-four hours lecture and
Thirty-six hours laboratory, including field study.
Credit/No Credit/Letter Grade Option
CSU
This course is designed to acquaint the student with the nature and diversity of island life. It offers the student an opportunity to study marine communities. The course emphasizes marine life forms and includes a consideration of marine wilderness and conservation problems, as well as biological processes as they occur on islands. A weekend field trip for snorkeling, free diving and field study is an integral part of the course.

BIOL 127C NATURAL HISTORY
5 Units
Four hours lecture and
Three hours laboratory per week.
Credit/No Credit/Letter Grade Option
UC/CSU, AA GE, CSU GE, IGETC
This course is a study of population and community ecology of major world biomes, such as grasslands, deserts, and tropical and temperate forests. Adaptive responses of the plant and animal inhabitants of these areas will be stressed. The disruptive effects of pollutants will be considered, as will conservation and preservation of major ecosystems. This general education course in the biological science area satisfies the laboratory natural science transfer requirement for universities and state colleges.
BIOL 128 C PLANTS AND SOCIETY
5 Units
Four hours lecture and
Three hours laboratory per week.
Credit/No Credit/Letter Grade Option
UC/CSU, AA GE, CSU GE, IGETC
Plant structure, function, genetics, evolution, and domestication are studied. Economic, aesthetic, and ecological roles of plants, as well as, the role of plants as a force in the historical molding of civilization are continuous themes throughout the course. The laboratory portion will emphasize plant structure, function, propagation, and the importance of plants and plant products in everyday life. The experience will introduce the student to basic scientific principles and techniques using plants and their products to gain an understanding of science and its value in today's society. Not open to students with credit in BIOL 108 C or BIOL 108LC.

BIOL 160 C INTEGRATED MEDICAL SCIENCE
3 Units
Three hours lecture per week.
Credit/No Credit/Letter Grade Option
CSU, AA GE
This is a one-semester course that includes a systematic coverage of fundamental physical/chemical principles, basic biological concepts, and fundamentals of anatomy and physiology. The course is designed for various allied health programs (psychiatric technician, mortuary science, court reporting, etc.) or others who desire a background in human biology.

BIOL 161 C INTEGRATED MEDICAL SCIENCE LAB
1 Unit
Three hours laboratory per week.
Credit/No Credit/Letter Grade Option
CSU
Prerequisite: Completion of, or concurrent enrollment in, BIOL 160 C. The course is a one-semester laboratory that offers the student exposure to the basic principles discussed in BIOL 160 C. The course is designed primarily for allied health vocational programs that require a laboratory course, but is open to other interested students.

BIOL 176 C ECOLOGY
3 Units
Three hours lecture per week.
Credit/No Credit/Letter Grade Option
UC/CSU
Prerequisite: BIOL 113 C. This course presents ecological principles and their relevance at several levels of organization. Individuals, populations, communities, and ecosystems are studied along with the interactions of these levels of organization with the physical and biotic environment.

BIOL 177 C GENETICS
3 Units
Three hours lecture per week.
Credit/No Credit/Letter Grade Option
UC/CSU
Prerequisite: BIOL 111 C. This course presents an introduction to genetics and the genetics of populations. Basic features of the replication and expression of DNA, cell division and gene transmission are considered. Recombination and mutation in diploid organisms are discussed. Concepts of genetic variability and natural selection in populations are presented.

BIOL 180 C SUMMER FIELD BIOLOGY
5 Units
Eighteen hours lecture and
Fourteen hours laboratory per week for four weeks.
Credit/No Credit/Letter Grade Option
CSU
This course includes two weeks of classroom preparation in the biology of selected natural areas and two weeks of driving, camping, hiking or other activity to study the natural history of a particular biotic region.

BIOL 196 C REGIONAL FIELD BIOLOGY
1 - 4 Units (Variable Unit Class) (May be taken for credit 4 times)
Nine hours lecture and
Twenty-seven hours laboratory, including field study for one unit of credit.
Credit/No Credit/Letter Grade Option
CSU
This course involves lecture and field study of selected biological communities of California, Mexico and the Channel Islands. During a given semester, multiple sections may be offered to different study areas. The study areas include, but are not limited to, Death Valley, Newport Bay, the Sierra Nevada, Santa Catalina and other islands, and Baja California. Field trips are required.

BIOL 210 C ANATOMY AND PHYSIOLOGY
5 Units
Three hours lecture and
Six hours laboratory per week.
Credit/No Credit/Letter Grade Option
CSU, AA GE, CSU GE
The course includes a study of the normal structure and function of the human body using mammalian specimens as examples. Selected physiological exercises are included which often utilize the student's own body function. This course is designed for students pursuing the health professions (registered nursing, radiological technology, medical records technology, dental hygiene, respiratory therapy, etc.), physical education majors, and any other interested students. (Not open to students with credit in BIOL 240 C.) Strongly recommended background is BIOL 160 C, or one semester each of college biology/chemistry, or one year each of high school biology/chemistry completed within the last five years.

BIOL 220 C MEDICAL MICROBIOLOGY
4 Units
Three hours lecture and
Three hours laboratory per week.
Credit/No Credit/Letter Grade Option
CSU
This course is a study of the diagnosis, etiology, transmission, pathology, and control of infectious disease. Special attention is given to the topics of immunology and chemotherapy. Laboratory emphasis is placed on providing experience and insight into the processes of specimen handling, isolation, identification, and sensitivity testing of pathogenic microorganisms. Aseptic techniques are stressed throughout the course. This course is recommended for students of nursing (RN), dental technology, medical records, and baccalaureate degree medical or public health programs. Recommended background is one year each, high school chemistry/biology, or one semester each, college chemistry/biology. If the student has no science background, prior completion of BIOL 160 C is strongly recommended.

<tbody>
<tr>
<td>BIOL 230 C</td>
<td>GENERAL ANATOMY</td>
<td>4</td>
<td>Two hours lecture and Six hours laboratory per week.</td>
<td>No Credit/Letter Grade Option</td>
<td>UC/CSU, AA GE, CSU GE, IGETC, CAN BIOL 10</td>
<td>This course presents a logical analysis of body tissues, organs, and systems. It stresses the microscopic, developmental, and gross anatomy of mammals, with special emphasis on human anatomy. Special attention is given to pathological as well as normal conditions. The laboratory work includes study of fresh and preserved specimens and models. It is designed primarily for physical education and allied health majors. High school biology and chemistry, or equivalent is recommended background. Students are encouraged to take BIOL 101 C and BIOL 160 C if they have no previous science background.</td>
</tr>
<tr>
<td>BIOL 234 C</td>
<td>ORAL HISTOLOGY AND EMBRYOLOGY</td>
<td>3</td>
<td>Two hours lecture and Three hours laboratory per week.</td>
<td>No Credit/Letter Grade Option</td>
<td>CSU</td>
<td>Prerequisite: Satisfactory completion of BIOL 210 C and concurrent enrollment in DH 101 C and DH 106 C. This course is an introduction to the microscopic characteristics of the tissues, histology, and embryology of the head and neck with an emphasis on the structure of the oral cavity.</td>
</tr>
<tr>
<td>BIOL 235 C</td>
<td>HEAD AND NECK ANATOMY</td>
<td>2</td>
<td>Two hours lecture per week.</td>
<td>No Credit/Letter Grade Option</td>
<td>CSU</td>
<td>Prerequisite: BIOL 234 C, DH 101 C, and DH 106 C. This course is a study of the gross anatomical structures of the head and neck. The relationship and function of the organs of the head and neck regions in the human body are studied, with an emphasis on structures and innervations of the oral cavity.</td>
</tr>
<tr>
<td>BIOL 240 C</td>
<td>HUMAN PHYSIOLOGY</td>
<td>5</td>
<td>Three hours lecture Four hours laboratory and Two hours lecture/discussion per week.</td>
<td>No Credit/Letter Grade Option</td>
<td>UC/CSU, CSU GE, IGETC, CAN BIOL 12</td>
<td>Prerequisite: BIOL 230 C and CHEM 101 C, or BIOL 210 C. This is an in-depth study of human function. Special attention is given to the abnormal as well as the normal functional state. The laboratory experience includes selected exercises that emphasize the interrelationships between structure and function. It is designed for all majors that require a separate course in physiology, including nursing and physical education majors.</td>
</tr>
<tr>
<td>BIOL 262 C</td>
<td>GENERAL MICROBIOLOGY</td>
<td>5</td>
<td>Three hours lecture and Six hours laboratory per week.</td>
<td>No Credit/Letter Grade Option</td>
<td>UC/CSU, CSU GE, IGETC, CAN BIOL 14</td>
<td>Prerequisite: One year each of high school biology/chemistry, or one semester each of college biology/chemistry. This course includes a study of the taxonomy, cytology, physiology, ecology, genetics, and evolution of microorganisms. Laboratory emphasis is placed on the techniques of microbial isolation, cytology, culture, and physiological investigation. Fungi, protozoa, bacteria, rickettsias, chlamydiases, and viruses will also be considered. This course is recommended for nursing students pursuing a bachelor's degree and biology majors with career objectives in microbiology (in addition to the sequence for majors). Prior completion of, or concurrent enrollment in CHEM 111AC is recommended.</td>
</tr>
<tr>
<td>BIOL 278 C</td>
<td>MOLECULAR BIOLOGY</td>
<td>4</td>
<td>Four hours lecture per week.</td>
<td>No Credit/Letter Grade Option</td>
<td>UC/CSU</td>
<td>Prerequisite: BIOL 177 C and CHEM 211AC. This course presents mechanisms of gene expression and its regulation at the transcriptional and translational levels in eukaryotic and prokaryotic systems. The structure and biosynthesis of proteins and nucleic acids, as well as the importance of viral life cycles in understanding basic cellular processes, will be included. The major biochemical pathways in cells, with an emphasis on the thermodynamic constraints on living systems, will also be studied.</td>
</tr>
<tr>
<td>BIOL 279 C</td>
<td>MOLECULAR BIOLOGY LABORATORY</td>
<td>1</td>
<td>Three hours laboratory per week.</td>
<td>No Credit/Letter Grade Option</td>
<td>UC/CSU</td>
<td>Corequisite: BIOL 278 C. This course presents an introduction to the laboratory techniques of molecular biology. Exercises will include procedures associated with the purification of genomic DNA, cell transformation plasmid purification, and endonuclease restriction experiments. Students will learn the use of micropipets, agarose gel electrophoresis, PCR, and biological resources on the World Wide Web.</td>
</tr>
<tr>
<td>BIOL 298 C</td>
<td>BIOLOGY SEMINAR</td>
<td>½ - 3</td>
<td>Lecture/discussion hours or Laboratory hours determined by course offering.</td>
<td>No Credit/Letter Grade Option</td>
<td>UC Credit Limitation/CSU</td>
<td>Prerequisite: Concurrent enrollment in any other biology course. These seminars are designed to intensify knowledge in a variety of biological topics. They may include lectures, discussions, field excursions, and other activities at the discretion of the instructor. Actual seminar topics will be listed in the class schedule for a particular semester.</td>
</tr>
</tbody>
</table>
BIOL 299 C  INDEPENDENT STUDY FOR BIOLOGY
½ - 2 Units (Variable Unit Class) (May be taken for credit 4 times)
Minimum three hours research per week per unit.
Credit/No Credit/Letter Grade Option
UC Credit Limitation/CSU
Prerequisite: Approved Independent Study Learning Contract. This is for biology majors who have demonstrated interest and capability for increased knowledge of biological and medical sciences through individual study, small group discussion/conference, special laboratory projects, or field research projects.

Business – See Accounting (ACCT), or Management (MGT), or Marketing (MKT), or Office Administration (OFF)

CHEM 060 C  CHEMISTRY REVIEW
1 Unit (May be taken for credit 4 times)
One hour lecture per week.
Credit/No Credit
This course is a review of the concepts and principles of general, inorganic, and organic chemistry, as taught in: Introduction to Chemistry (CHEM 101 C), Fundamentals of College Chemistry (CHEM 107 C), and/or General Chemistry (CHEM 111AC & 111BC). It is recommended for students who have completed or are currently enrolled in one of the previously named courses.

CHEM 100 C  CHEMISTRY FOR DAILY LIFE
4 Units
Three hours lecture and Three hours laboratory per week.
UC Credit Limitation/CSU, AA GE, CSU GE, IGETC
The course is designed for the non-science major seeking a laboratory science. The course will adopt a non-mathematical approach to explain the fundamental concepts of chemistry. From this foundation, the course will focus on topics that are related to the impact that chemistry has on our society. The topics covered include the chemistry of air, water, food, drugs and the environment. Current topics of interest will also be presented in a cooperative learning environment. The laboratory section will provide hands-on experience with many of the lecture topics.

CHEM 101 C  INTRODUCTION TO CHEMISTRY
5 Units
Four hours lecture
One hour discussion/quiz
Two hours laboratory and One hour problem solving per week.
UC Credit Limitation/CSU, AA GE, CSU GE, IGETC, CAN
CHEM 6
Advisory: MATH 020 C. This course is the first semester of a two-semester sequence (CHEM 101 C and CHEM 201 C), and includes the study of basic concepts and principles of general, inorganic, and organic chemistry. Laboratory includes gravimetric and volumetric analysis, and experiments designed for identification of organic compounds. It is especially recommended for students in health and life sciences. No credit if taken after CHEM 111AC.
CHEM 103 C  CHEMISTRY IN A CHANGING WORLD
3 Units
Three hours lecture per week.
Credit/No Credit/Letter Grade Option
UC Credit Limitation/CSU, AA GE, CSU GE, IGETC
This is a general education course in chemistry. A non-mathematical approach will be taken to examine the fundamental concepts of chemistry and their application to various facets of life in a highly technological society. Topics will include a discussion of chemicals in air, water, food, drugs, and the environment, as well as areas of current interest. Duplicate credit not granted for CHEM 103HC.

CHEM 103HC  HONORS CHEM IN A CHANGING WORLD
3 Units
Three hours lecture per week.
UC Credit Limitation/CSU, AA GE, CSU GE, IGETC
This course is an enhanced survey of modern chemical concepts for Honors students. The emphasis of this course is on contemporary readings of relevant chemistry literature. Written essays pertaining to current issues in chemistry will be paramount. The class will be conducted in seminar format and will require a significant research project that uses correct documentation skills. The course will develop increased critical thinking, reading and writing skills. CHEM 103HC will satisfy the Physical Sciences portion of the state college and university general education requirement. Duplicate credit not granted for CHEM 103 C.

CHEM 107 C  FOUNDATIONS OF CHEMISTRY
5 Units
Four hours lecture
One hour discussion/quiz
Two hours laboratory and
One hour problem solving per week.
UC Credit Limitation/CSU, AA GE, CSU GE, IGETC
Prerequisite: One year high school algebra or MATH 020 C and completion of, or concurrent enrollment in MATH 040 C is required. This course provides an introduction to the chemical elements and general principles and laws of modern inorganic chemistry. This course includes a study of chemical reactions, basic atomic theory, and molecular structure, as well as chemical bonding and the behavior of gases. Laboratory includes gravimetric and volumetric analysis, elementary qualitative analysis, and experiments in solution chemistry. This course applies to the Physical Sciences portion of the state college and university general education requirement. CHEM 107 is a recommended preparatory course for students planning to take CHEM 111AC and CHEM 111BC. No credit if taken after CHEM 111AC.

CHEM 111AC  GENERAL CHEMISTRY
5 Units
Three hours lecture
Four hours laboratory and
Two hours discussion/quiz per week.
UC/CSU, AA GE, CSU GE, IGETC, CAN CHEM 2
Prerequisite: Two years of High School algebra or MATH 040 C. CHEM 107 C with a grade of “C” or better, or a passing score on the Chemistry Proficiency Test. Topics covered include the general principles of inorganic chemistry with associated laboratory analysis and chemical computations. This includes properties of solutions, solution stoichiometry, gases, thermochemistry, atomic structure and periodicity, and the chemistry of liquids and solids.

CHEM 111BC  GENERAL CHEMISTRY
5 Units
Three hours lecture and
Four hours laboratory and
Two hours discussion/quiz per week.
UC Credit Limitation/CSU, AA GE, CSU GE, IGETC, CAN CHEM 4
Prerequisite: Completion of CHEM 111AC with a grade of “C” or better. Topics covered include chemical kinetics, behavior of chemical systems in equilibrium, acid-base, thermodynamics, electrochemistry and transition elements. Molecular orbital theory is introduced and included in discussions of coordination compounds. Laboratory work includes experimental studies of chemical kinetics, equilibria, thermodynamics, and electrochemistry that require quantitative analytical methods. Included in the course also are procedures for qualitative analysis of groups of metal ions.

CHEM 112 C  CHEMISTRY FOR ENGINEERS
3 Units
Three hours lecture per week.
UC Credit Limitation/CSU
Prerequisite: Completion of CHEM 111AC with a grade of “C” or better. Topics covered include chemical kinetics, behavior of chemical systems in equilibrium, acid-base, thermodynamics, electrochemistry, and transition elements. Molecular orbital theory is introduced and included in discussions of coordination compounds.

CHEM 200 C  INTRO ORGANIC CHEMISTRY LEC.
3 Units
Three hours lecture per week.
UC Credit Limitation/CSU, CSU GE
Prerequisite: CHEM 107 C or CHEM 101 C with a grade of “C” or better. This course is an introductory study of the compounds of carbon, including the aliphatic and aromatic derivations. It is recommended for students of dental hygiene, home economics, pre-nursing, life science, and health science.

CHEM 200LC  INTRO ORGANIC CHEMISTRY LAB
3 Units
One hour lecture and
Six hours laboratory per week.
UC Credit Limitation/CSU, CSU GE
Prerequisite: Completion of, or concurrent enrollment in, CHEM 200 C. This course is a laboratory study of the principles and methods of working with organic compounds.
CHEM 201 C  BASIC ORGANIC AND BIOCHEMISTRY
5 Units
Four hours lecture and
Two hours laboratory and
One hour discussion/quiz and
One hour problem solving per week.
CSU, CAN CHEM 8
Prerequisite. CHEM 101 C. This course is the second semester of a two-semester sequence (CHEM 101 C and CHEM 201 C). This course is a study of organic chemistry: structures, nomenclature, reactions, and functions of organic and biochemical compounds; and includes cell structure, metabolism, bioenergetics, biochemical genetics, and mechanisms of vitamin and enzyme action. This course is designed for the health professions. No credit if taken after CHEM 211 C.

CHEM 205 C  ANALYTICAL CHEMISTRY
4 Units
Two hours lecture
Six hours laboratory per week.
UC/CSU, CAN CHEM 12
Prerequisite: CHEM 111BC or CHEM 112 C. This is an introduction to analytical methods of chemical analysis. It includes gravimetric and volumetric methods for qualitative and quantitative determination of chemical compounds. Laboratory work emphasizes the use of modern chemical instrumentation methods and the tools for spectroscopic analysis, chromatography, potentiometric titration, NMR, electrochemical analysis, and mass spectrometry.

CHEM 211AC  ORGANIC CHEMISTRY
5 Units
Three hours lecture and
Four hours laboratory and
Two hours discussion/quiz per week.
UC/CSU
Prerequisite: Completion of CHEM 111BC with a grade of "C" or better. This course is a comprehensive introductory course in the fundamental concepts, principles, and methods of organic chemistry. This course covers the study of simple functional, multifunctional, and heterocyclic compounds, aliphatic, and aromatic, with emphasis upon molecular structure, bonding, reaction mechanisms, modern instrumental tools and analysis. Laboratory work includes quantitative chemical measurements, synthesis, and separation of organic compounds, and qualitative analysis. This course is primarily designed for majors in chemistry, biochemistry, life sciences, and premedical/dental programs.

CHEM 211BC  ORGANIC CHEMISTRY
5 Units
Three hours lecture and
Four hours laboratory and
Two hours discussion/quiz per week.
UC/CSU
Prerequisite: CHEM 211AC. This course is a continuation of CHEM 211AC. This course includes the study of aldehydes and ketones, carboxylic acids, amines, carboxylic acid derivatives, multifunctional and heterocyclic compounds, the effects of neighboring groups on reactivity, and strategy in organic synthesis. Laboratory work includes quantitative chemical measurements, synthesis, and separation of organic compounds, and qualitative organic analysis. This course is designed primarily for majors in chemistry, biochemistry, life sciences, and professional medical/dental programs.

CHEM 298 C  CHEMISTRY SEMINAR
½ - 3 Units (Variable Unit Class) (May be taken for credit 4 times)
Lecture/discussion hours or
Laboratory hours determined by course offering.
UC Credit Limitation /CSU
Prerequisite: May be required. Seminars are designed to help students conceptualize and intensify knowledge in a variety of chemical topics. They may include lecture, discussions, and other activities at the discretion of the instructor. Actual seminar topics will be listed in the class schedule for a particular semester. Consult the class schedule to verify unit credit and prerequisites for a particular semester.

Students transferring to an independent college/university should consult the catalog of the individual school and a counselor for lower division major requirements.
CHIN 098 C  CHINESE SEMINAR
½ - 3 Units (Variable Unit Class) (May be taken for credit 4 times)
One half to three hours lecture per week.
Credit/No Credit/Letter Grade Option
This seminar is for students who wish to extend their knowledge of literature, language and culture through small group discussion.

CHIN 101 C  ELEMENTARY CHINESE - MANDARIN I
5 Units
Five hours lecture and
One hour laboratory TBA per week.
Credit/No Credit/Letter Grade Option
UC/CSU, AA GE, CSU GE, CAN CHIN 2
The course emphasizes the acquisition of basic skills in pronunciation, listening, speaking, reading, and writing, and the grammar and vocabulary necessary to acquire these skills. Students will be introduced to customs, culture, and geography of China through lectures, films, and reading assignments.

CHIN 102 C  ELEMENTARY CHINESE - MANDARIN II
5 Units
Five hours lecture and
One hour laboratory TBA per week.
Credit/No Credit/Letter Grade Option
UC/CSU, AA GE, CSU GE, IGETC, CAN CHIN 4
Prerequisite: CHIN 101 C with grade of “C” or better or one year of Chinese at high school or another college with grade of “C” or better. This course continues to emphasize the acquisition of basic skills in pronunciation, listening and speaking, reading, and writing, and the grammar and vocabulary necessary to acquire these skills. Students will increase their knowledge of the customs, culture, and geography of China and other Chinese speaking countries/areas through lectures, reading, writing assignments, and film.

CHIN 298 C  CHINESE SEMINAR
½ - 3 Units (Variable Unit Class) (May be taken for credit 4 times)
One half to three hours lecture per week.
Credit/No Credit/Letter Grade Option
UC Credit Limitation/CSU
This seminar is for students who wish to extend their knowledge of literature, language and culture through small group discussion.

CISCO NETWORKING CERTIFICATE
This curriculum prepares the students for a career in the area of computer networking. The program is designed to teach students the skills needed to design, build, and maintain small to medium-size networks. The certificate totals 12 units in required courses.

To earn a certificate, computer the required courses as listed with a minimum grade of “C”. At least 50% of all course work must be completed at Cypress College.

Required courses are listed in suggested sequence:

ASSOCIATE IN SCIENCE DEGREE COMPUTER APPLICATIONS
The Associate in Science Degree Computer Applications program provides theoretical and practical knowledge to students in the area of computer applications. This degree program focuses on recent developments and current discoveries in computer applications from academia and business related industries. This degree program is aimed at students who need to apply an understanding of computer applications to an on-the-job learning environment.

To earn an Associate Degree students must complete:
(1) all major course requirements with a minimum grade of “C”; (2) 25 units of General Education Graduation Requirements; (3) the cultural pluralism and reading requirements; (4) any elective courses to complete a minimum of 60 units; and, (5) have a minimum GPA of 2.0. At least 50% of all major course work must be completed at Cypress College.
ASSOCIATE IN SCIENCE DEGREE COMPUTER INFORMATION SYSTEMS

This curriculum prepares the student for a career in the area of computer information systems. The program is designed to develop a working knowledge of what is required to be successful in business computer information systems.

To earn an Associate Degree students must complete: (1) all major course requirements with a minimum grade of "C"; (2) 25 units of General Education Graduation Requirements; (3) the cultural pluralism and reading requirements; (4) any elective courses to complete a minimum of 60 units; and, (5) have a minimum GPA of 2.0. At least 50% of all major course work must be completed at Cypress College.

COMPUTER APPLICATIONS CERTIFICATE

This curriculum gives the student a working knowledge for a career in the area of computer applications. The certificate totals 27-29 units in required courses.

To earn a certificate, complete the required courses as listed with a minimum grade of "C". At least 50% of all course work must be completed at Cypress College.

ADVANCED COMPUTER OFFICE APPLICATIONS CERTIFICATE

This certificate program will provide the student with higher level skills needed to work in a business office environment or in an Information Technology department. Successful completion will enable the student to work in the capacity of office assistant, computer application specialist, or administration assistant.

To earn a certificate, complete the required courses as listed with a minimum grade of "C". At least 50% of all course work must be completed at Cypress College.

ASSOCIATE IN SCIENCE DEGREE COMPUTER PROGRAMMING

This program prepares the student for a career in the area of computer programming. The curriculum is designed to develop a working knowledge of what is required to be successful in business computer programming.

To earn an Associate Degree students must complete: (1) all major course requirements with a minimum grade of "C"; (2) 25 units of General Education Graduation Requirements; (3) the cultural pluralism and reading requirements; (4) any elective courses to complete a minimum of 60 units; and, (5) have a minimum GPA of 2.0. At least 50% of all major course work must be completed at Cypress College.
COMPUTER SOFTWARE AND APPLICATION CERTIFICATE
This certificate focuses on business software applications used to manage and format information in word processing, in a spreadsheet or database, for desktop publishing, on the Internet, or as a Web page. Students apply their software application knowledge to on-the-job learning situations.

To earn a certificate, complete the required courses as listed with a minimum grade of “C”. At least 50% of all course work must be completed at Cypress College.

Required courses are listed in numeric sequence:
Course # Title Units
CIS 101 C Beginning Computer Keyboarding (3)
CIS 150 C Intro. to Business Computers 3
CIS 108 C Introduction to Internet 2
CIS 225 C Advanced Word Processing 2
CIS 155 C Web Publishing w/MS FrontPage 2
Total Units Required 16 - 17

INTERNET AND DATA COMMUNICATIONS CERTIFICATE
This certificate program provides theoretical and practical knowledge to students in the areas of Personal Computer Networking, Internet, and Web Publishing. This certificate program focuses on recent developments and current discoveries in data communications and Web technologies.

To earn a certificate, complete the required courses as listed with a minimum grade of “C”. At least 50% of all course work must be completed at Cypress College.

Required courses are listed in numeric sequence:
Course # Title Units
CIS 107 C Introduction to Windows 1
CIS 108 C Introduction to Internet 2
CIS 109 C Bus. Applications-The Internet 2
CIS 150 C Intro. to Business Computers 3
or
CIS 217 C Visual Basic Programming 3
CIS 155 C Web Publishing w/MS FrontPage 2
CIS 179 C Intro. to Web Page Design 2
CIS 180 C Data Comm. & Network Admin. 2
CIS 181 C Network Software Admin/Install 1
CIS 227 C JavaScript Programming 2
Total Units Required 17

JAVA PROGRAMMING CERTIFICATE
This program is designed to develop a working knowledge of what is required to be successful in business computer programming using Java. A curriculum consisting of: beginning and advanced Java programming courses.

To earn a certificate, complete the required courses as listed with a minimum grade of “C”. At least 50% of all course work must be completed at Cypress College.

Required courses are listed in numeric sequence:
Course # Title Units
MKT 222 C Principles of Marketing 3
MKT 210 C Consumer Behavior 3
MKT 103 C Principles of Advertising 3
CIS 108 C Introduction to Internet 3
CIS 109 C Bus. Applications-The Internet 2
CIS 179 C Intro. to Web Page Design 2
CIS 115 C Desktop Publishing PageMaker 2
Total Units Required 17

MICROSOFT ACCESS CERTIFICATE
This program is designed to develop a working knowledge of what is required to be successful in business using Microsoft Access. A curriculum consisting of: beginning and advanced Access courses.

To earn a certificate, complete the required courses as listed with a minimum grade of “C”. At least 50% of all course work must be completed at Cypress College.

Required courses are listed in numeric sequence:
Course # Title Units
CIS 211 C Introduction to Programming 3
CIS 226 C Java Programming 3
CIS 234 C Advanced Java Programming 3
Total Units Required 9
MICROSOFT EXCEL CERTIFICATE
This program is designed to develop a working knowledge of what is required to be successful in business using Microsoft Excel. A curriculum consisting of: beginning and advanced Excel courses.

To earn a certificate, complete the required courses as listed with a minimum grade of “C”. At least 50% of all course work must be completed at Cypress College.

Required courses are listed in numeric sequence:
Course# Title Units
CIS 111 C Computer Literacy – Introduction to Information Systems 3
CIS 132 C Spreadsheet – Excel for Windows 3
CIS 241 C Spreadsheet – Advanced MS Excel 3
Total Units Required 9

ORACLE DATABASE ADMINISTRATOR CERTIFICATE
This curriculum prepares the students for a career in the area of enterprise database. The program is designed to teach students the skills needed to create, maintain, and fine-tune an enterprise database. The certificate totals 9 units in required courses.

To earn a certificate, complete the required courses as listed with a minimum grade of “C”. At least 50% of all course work must be completed at Cypress College.

Required courses are listed in numeric sequence:
Course# Title Units
CIS 236 C Intro to Oracle: SQL & PL/SQL 3
CIS 237 C Oracle: Architecture and Admin 3
CIS 238 C Oracle: Backup and Recovery 3
Total Units Required 9

VISUAL BASIC PROGRAMMING CERTIFICATE
This program is designed to develop a working knowledge of what is required to be successful in business computer programming. A curriculum consisting of: beginning, intermediate, and advanced Visual Basic programming courses.

To earn a certificate, complete the required courses as listed with a minimum grade of “C”. At least 50% of all course work must be completed at Cypress College.

Required courses are listed in suggested sequence:
Course # Title Units
CIS 211 C Introduction to Programming 3
CIS 217 C Visual Basic Programming 3
CIS 219 C Advanced Visual Basic 3
Total Units Required 9

VISUAL C++ PROGRAMMING CERTIFICATE
This program is designed to develop a working knowledge of what is required to be successful in business computer programming. A curriculum consisting of: beginning, intermediate, and advanced C++ programming courses.

To earn a certificate, complete the required courses as listed with a minimum grade of “C”. At least 50% of all course work must be completed at Cypress College.

Required courses are listed in suggested sequence:
Course # Title Units
CIS 211 C Introduction to Programming 3
CIS 223 C C++ Programming 3
CIS 224 C C++ and Windows Programming 3
Total Units Required 9

WEB PAGE DESIGN CERTIFICATE
This certificate focuses on the current development in Web page technologies used in academia and the business industry. This certificate prepares students to design and modify Web pages using current software programs or programming languages and apply their knowledge to on-the-job learning situations.

To earn a certificate, complete the required courses as listed with a minimum grade of “C”. At least 50% of all course work must be completed at Cypress College.

Required courses are listed in suggested sequence:
Course # Title Units
CIS 108 C Introduction to Internet 2
CIS 179 C Intro. to Web Page Design 2
CIS 227 C JavaScript Programming 2
CIS 155 C Web Publishing w/MS FrontPage 2
CIS 109 C Bus. Applications-The Internet 2
CIS 226 C Java Programming 3
CIS 223 C C++ Programming 3
Total Units Required 16

ADVANCED WEB PAGE DESIGN CERTIFICATE
The Advanced Web Page Design Certificate offers comprehensive and latest programming technologies in the area of Web publishing and Web site management. This certificate is designed for students who need to apply for positions such as Web Programmer, Web Master, Marketing and Advertising Coordinator, Administrative Assistant, and Technical Support.

To earn a certificate, complete the required courses as listed with a minimum grade of “C”. At least 50% of all course work must be completed at Cypress College.

Required courses are listed in numeric sequence:
Course# Title Units
CIS 184 C MS Win 2000 Professional 2
CIS 211 C Introduction to Programming 3
CIS 227 C JavaScript Programming 2
CIS 228 C Dynamic HTML Programming 2
CIS 226 C Java Programming 3
CIS 229 C Intro to XML Programming 2
CIS 185 C Microsoft Windows 2000 Server 2
Total Units Required 16

WINDOWS NETWORKING CERTIFICATE – SYSTEMS ADMINISTRATOR
This curriculum prepares students for a certificate in administration of a Microsoft network. The certificate does not look into designing and planning aspects of Windows networking; instead it is intended for those individuals who need to gain skills in day-to-day general network administration, configuration, and support tasks.

To earn a certificate, complete the required courses as listed with a minimum grade of “C”. At least 50% of all course work must be completed at Cypress College.

Required courses are listed in suggested sequence:
Course # Title Units
CIS 180 C Data Comm. & Network Admin. 2
CIS 184 C MS Win 2000 Professional 2
CIS 185 C Microsoft Windows 2000 Server 2
CIS 188 C Microsoft Windows TCP/IP 2
CIS 187 C MS Win 2000 Exchange Server 3
CIS 194 C Internet Security (ISA) Server (2)
CIS 298 C Internet Security (ISA) Server (2)
Total Units Required 10-11

108 / Computer Information Systems
WINDOWS NETWORKING CERTIFICATE – SYSTEMS ENGINEER
This certificate program prepares the students for a career using Microsoft networks on a more advanced level in today’s businesses. This program includes skills in planning, designing, implementing, and managing a Microsoft network.

To earn a certificate, complete the required courses as listed with a minimum grade of “C”. At least 50% of all course work must be completed at Cypress College.

Required courses are listed in suggested sequence:
Course # Title Units
CIS 184 C MS Win 2000 Professional 2
CIS 185 C Microsoft Windows 2000 Server 2
CIS 188 C Microsoft Windows TCP/IP 2
CIS 189 C MS Win 2000 Active Directory 3
CIS 192 C Directory Services Design 2
or
CIS 298 C Directory Services Design (2)

CIS 193 C Network Infrastructure Design 2
or
CIS 298 C Network Infrastructure Design (2)

CIS 187 C MS Win 2000 Exchange Server 3
or
CIS 194 C Internet Security (ISA) Server (2)

CIS 298 C Internet Security (ISA) Server (2)
Total Units Required 15-16

COMPUTER INFORMATION SYSTEMS TRANSFER PROGRAM
Students should consult a counselor or www.assist.org for lower division major requirements for most California public universities. (See the Standard Definitions section of the catalog for a description of ASSIST.) Students transferring to an independent college/university should consult the catalog of the individual school and a counselor for lower division major requirements.

Computer Information Systems (CIS)
CIS 050 C INTRO-COMP & SOFTWARE CONCEPTS
2 Units
Two hour lecture and
One hour laboratory TBA per week.
NON-DEGREE CREDIT
This course is designed to teach the basics of computer hardware and software. Students will receive hands-on experience using various types of software. Students may elect to take this class as a preparation for CIS 111 C, CIS 150 C, or CIS 250 C. $3.00 Laboratory Fee - PAYABLE AT REGISTRATION.

CIS 075 C BUSINESS SKILLS DEVELOPMENT
½ - 10 Units (Variable Unit Class) (May be taken for a cumulative total of 10 units)
(Open Entry-Open Exit)
One half to ten hours lecture and
One and a half to thirty hours laboratory TBA per week.
Credit/No Credit/Letter Grade Option
This variable unit, open entry/open exit course with flexible hours is designed for the student who needs to gain marketable job skills in a short period of time. Occupational training will be provided in the areas of computer applications, information processing, office occupations, and communication skills.
$5.00 Laboratory Fee - PAYABLE AT REGISTRATION.

CIS 090 C MS OFFICE - WORD MOUS PREP
½ Unit
One half hour lecture per week.
Credit/No Credit/Letter Grade Option
This eight-hour lecture presents the skills needed to pass the Microsoft Office User Specialist (MOUS) exam in Microsoft Word. Students will review the areas covered in the Core and Expert level exams as well as test-taking strategies. Students must successfully pass a MOUS Word exam to receive credit for the class. $50.00 Laboratory Fee - PAYABLE AT REGISTRATION.

CIS 091 C MS OFFICE - EXCEL MOUS PREP
½ Unit
One half hour lecture per week.
Credit/No Credit/Letter Grade Option
This eight-hour lecture presents the skills needed to pass the Microsoft Office User Specialist (MOUS) exam in Microsoft Excel. Students will review the areas covered in the Core and Expert level exams as well as test-taking strategies. Students must successfully pass a MOUS Excel exam to receive credit for the class. $50.00 Laboratory Fee - PAYABLE AT REGISTRATION.

CIS 092 C MS OFFICE - ACCESS MOUS PREP
½ Unit
One half hour lecture per week.
Credit/No Credit/Letter Grade Option
This eight-hour lecture presents the skills needed to pass the Microsoft Office User Specialist (MOUS) exam in Microsoft Access. Students will review the areas covered in the exam as well as test-taking strategies. Students must successfully pass a MOUS Access exam to receive credit for the class. $50.00 Laboratory Fee – PAYABLE AT REGISTRATION.

CIS 093 C MS OFFICE - POWERPOINT MOUS PREP
½ Unit
One half hour lecture per week.
Credit/No Credit/Letter Grade Option
This eight-hour lecture presents the skills needed to pass the Microsoft Office User Specialist (MOUS) exam in Microsoft PowerPoint. Students will review the areas covered in the exam as well as test-taking strategies. Students must successfully pass a MOUS PowerPoint exam to receive credit for the class. $50.00 Laboratory Fee - PAYABLE AT REGISTRATION.
CIS 101 C  BEGINNING COMPUTER KEYBOARDING
1 - 3 Units  (Variable Unit Class)(May be taken for credit 3 times)
(Open Entry-Open Exit)
One to three hours lecture
Three to nine hours laboratory per week.
CSU
This course is designed for all students whose keyboarding skills will be primary and/or secondary to their vocation and/or for personal use. Beginning Computer Keyboarding provides basic keyboarding skills by touch, using a microcomputer with a 10-key pad. Students will also receive basic formatting instructions for letters, memoranda, tables, and reports. $5.00 Laboratory Fee - PAYABLE AT REGISTRATION.

CIS 102 C  INTERMEDIATE COMP. KEYBOARDING
3 Units
Three hours lecture
Two hours laboratory per week.
CSU
Prerequisite: CIS 101 C, or CIS 125 C, or a basic knowledge of word processing and the ability to type 20 wpm. Intermediate Computer Keyboarding is designed for all students whose keyboarding skills will be primary and/or secondary to their vocation and/or for personal use. This course focuses on building speed and accuracy, arranging letters, memos, reports, business forms, and tables in proper format. Advanced word processing features will be taught in this class. $5.00 Laboratory Fee - PAYABLE AT REGISTRATION.

CIS 103 C  ADVANCED COMPUTER KEYBOARDING
3 Units
Three hours lecture and
Two hours laboratory per week.
CSU
Prerequisite: CIS 102 C, or CIS 112 C or a basic knowledge of word processing and the ability to type 30 wpm. This course teaches formatting a variety of business documents using advanced word processing features. Integration of word processing with spreadsheet and presentation software will be introduced in the class. Keyboarding speed and accuracy development are integrated into the class. $5.00 Laboratory Fee - PAYABLE AT REGISTRATION.

CIS 107 C  INTRODUCTION TO WINDOWS
1 Unit
One hour lecture and
One hour laboratory TBA per week.
CSU
This course is designed to use Microsoft Windows on the personal computer. It covers the graphical user interface, and how to manipulate Windows, using Help, and launching Applications. $3.00 Laboratory Fee - PAYABLE AT REGISTRATION.

CIS 108 C  INTRODUCTION TO INTERNET
2 Units
Two hours lecture and
One hour laboratory TBA per week.
CSU
This course will prepare students to use the Internet, a worldwide computer network. Emphasis is on introducing the features of Internet, including electronic mail, Telnet, FTP (File Transfer Protocol), Usenet, and Gopher, as well as other Internet services and utilities. Students will explore the vast resources of the Internet and learn to access information using a variety of hands-on methods. $3.00 Laboratory Fee - PAYABLE AT REGISTRATION.

CIS 109 C  BUS. APPLICATIONS-THE INTERNET
2 Units
Two hours lecture and
One hour laboratory TBA per week.
CSU
This course will prepare students to use the Internet with a business or home-based business. Emphasis will be placed on doing business over the Internet. Students learn how to use common Internet browsers, how to publish a Web page to conduct business on the Internet, how to use E-mail, how to do marketing and market research on the Internet, and how other businesses are using the Internet. $3.00 Laboratory Fee - PAYABLE AT REGISTRATION.

CIS 110 C  LINUX OPERATING SYSTEM
3 Units
Three hours lecture and
Two hours laboratory TBA per week.
CSU
This course is an introduction to the Linux operating system. Topics include installing, configuring, maintaining, administering, and troubleshooting of the Linux Operating System. It provides preparation for the Sair Linux Certification. $3.00 Laboratory Fee – PAYABLE AT REGISTRATION.

CIS 111 C  COMPUTER LITERACY - INTRODUCTION TO INFORMATION SYSTEMS
3 Units
Three hours lecture and
Two hours laboratory TBA per week.
UC/CSU, AA GE, CSU GE, CAN BUS 6
This course provides an overview of the fundamental concepts and terminology of information systems, including lab experience with the IBM personal computer. Students will learn the uses of word processing, spreadsheet, and data base programs in the business and educational environment. $3.00 Laboratory Fee - PAYABLE AT REGISTRATION.

CIS 112 C  DOCUMENT Formatting
3 Units
Two hours lecture and
Three hours laboratory per week.
CSU
Prerequisite: CIS 101 C, or CIS 125 C, or a basic knowledge of word processing and the ability to type 20 wpm. This course is designed to teach formatting of letters, tables, reports, and other business documents used in business and industry. Keyboarding speed and accuracy development are integrated into the class. $5.00 Laboratory Fee - PAYABLE AT REGISTRATION.

</tbody>
</table>
CIS 155 C  WEB PUBLISHING W/MS FRONTPAGE  
2 Units  
(Same as MMIS 155 C)  
Two hours lecture and  
One hour laboratory TBA per week.  
CSU  
Corequisite: CIS 108 C. This course offers the introductory features of Microsoft FrontPage and how it can be utilized in a business environment. Topics include introducing FrontPage, creating and revising Web pages, using links, images, and task lists, creating tables, frames, borders, and form applications. $2.00 Laboratory Fee - PAYABLE AT REGISTRATION.  

CIS 160 C  INFORMATION SYSTEMS MANAGEMENT  
3 Units  
Three hours lecture per week.  
CSU  
This course is for students interested in managing a Computer Information Systems Center. The subject areas to be studied are planning, equipping, staffing, and managing a computerized business office.  

CIS 179 C  INTRO. TO WEB PAGE DESIGN  
2 Units  
Two hours lecture and  
One hour laboratory TBA per week.  
CSU  
This course introduces students to Web publishing with HTML (HyperText Markup Language) for business and personal applications. Students will learn fundamentals of the Internet and how to employ HTML techniques to convey their messages, and design a professional-looking Web site. Emphasis is placed on learning the HyperText Markup Language from the basic tags to the advanced topics such as tables, forms, graphics, and creation of the business-related Web pages. $3.00 Laboratory Fee - PAYABLE AT REGISTRATION.  

CIS 180 C  DATA COMM. & NETWORK ADMIN.  
2 Units  
Two hours lecture and  
One hour laboratory per week.  
CSU  
This course is a comprehensive introductory overview of today's technology in networking and telecommunications. Moreover, this course will provide basic hands-on commands on how to operate a local area network software (LAN). Topics include communication concepts, communication components and hardware, communication media, topologies, protocols, local and wide area networks, disk management, network utilities, file usage, users, and printer management. It is designed for managers, analysts, operators/technicians, and others with an interest in data communications and system administration. Computer-related projects will be completed in the laboratory. $3.00 Laboratory Fee - PAYABLE AT REGISTRATION.  

CIS 181 C  NETWORK SOFTWARE ADMIN/INSTALL  
1 Unit  
One hour lecture and  
One hour laboratory per week.  
CSU  
This course provides textbook and hands-on experience covering the duties of a LAN administrator. The course also includes hands-on practice of installing local area networks (LANs), including network boards, cables, and operating software. Topics include using network printers, backing up the network, network security, log in scripts, network accounting, network E-mail, server resources, custom menus, server and workstation hardware, server and workstation software, and troubleshooting. Computer-related projects will be completed in the laboratory. $3.00 Laboratory Fee - PAYABLE AT REGISTRATION.  

CIS 184 C  MS WIN 2000 PROFESSIONAL  
2 Units  
Two hours lecture and  
One hour laboratory per week.  
Credit/No Credit/Letter Grade Option  
CSU  
This course introduces students to Microsoft Windows 2000 Professional on the personal computer. Students will learn the features and architecture of Windows 2000 operating system. This course will cover an overview of Windows 2000 installation, working with files and folders, how to manipulate Windows 2000 desktop settings, configuring browser as well as client software, user management, and working with graphics. $3.00 Laboratory Fee - PAYABLE AT REGISTRATION.  

CIS 185 C  MICROSOFT WINDOWS 2000 SERVER  
2 Units  
Two hours lecture and  
One hour laboratory per week.  
Credit/No Credit/Letter Grade Option  
CSU  
This course introduces students to Microsoft Windows 2000 Server and enterprise networks. Topics include installing Windows 2000, administrating user accounts, managing system resources, installing active directory, and implementing DNS service. $3.00 Laboratory Fee - PAYABLE AT REGISTRATION.  

CIS 186 C  MS WIN INFORMATION SERVER  
2 Units  
Two hours lecture and  
One hour laboratory per week.  
Credit/No Credit/Letter Grade Option  
CSU  
This course introduces students to Microsoft Windows Information Server and enterprise networks. Students learn an overview of the Windows 2000 environment, installing and administrating Internet Information Server, domain management, and networking. Emphasis is placed on managing Internet Information Server, setting up user accounts and user access, and managing resources. Students should be familiar with the basic concepts of data communications and using Microsoft Windows 2000. $3.00 Laboratory Fee - PAYABLE AT REGISTRATION.

</table>
CIS 217 C  VISUAL BASIC PROGRAMMING
3 Units
Three hours lecture and
Two hours laboratory TBA per week.
UC/CSU
Prerequisite: CIS 211 C. This course is designed to extend
the skills already acquired in BASIC programming to busi-
ness and industrial applications. The advanced concepts
include a structured design approach to the creation, main-
teinance, and processing of sequential and random files, and
the development of graphic output. $3.00 Laboratory Fee - PAYABLE AT REGISTRATION.

CIS 219 C  ADVANCED VISUAL BASIC
3 Units
Three hours lecture and
Two hours laboratory TBA per week.
CSU
Prerequisite: CIS 217 C. This is an advanced course in
Visual Basic programming. Special emphasis will be placed
on the application of the Visual Basic language to solve busi-
ness problems, including requirements definition, design,
construction, testing, and documenting. Multiple forms,
objects, controls, Object Linking and Embedding (OLE), and
the use of the data control object to interface with databases
external to Visual Basic will be covered. $3.00 Laboratory Fee - PAYABLE AT REGISTRATION.

CIS 221 C  SYSTEM ANALYSIS AND DESIGN
3 Units
Three hours lecture per week.
CSU
Prerequisite: CIS 211 C. This course provides an introduction
to the systems approach to problem solving. Basic systems
concepts in business data processing are covered with
attention given to the understanding of the application, pro-
cedure, flowcharting, and the management derived.

CIS 223 C  C++ PROGRAMMING
3 Units
(Same as MMIS 223 C)
Three hours lecture and
Two hours laboratory TBA per week.
UC/CSU, CAN CSCI 16
Prerequisite: CIS 211 C or MMIS 211 C. This course is
designed for students who have some experience with struc-
tured programming techniques. Students will learn the C++
programming language as it applies to business applications.
Documenting, coding, entering, computing and executing pro-
grams will take place on the personal computer. $3.00 Lab-
oratory Fee - PAYABLE AT REGISTRATION.

CIS 224 C  C++ AND WINDOWS
3 Units
Three hours lecture and
Two hours laboratory TBA per week.
UC/CSU
Prerequisite: CIS 223 C with a grade of "C" or better, or the
equivalent programming experience. Students will design,
code, and test programs using object-oriented programming
concepts and the C++ language system. Emphasis will be
placed on solving business problems using C++. $3.00 Lab-
oratory Fee - PAYABLE AT REGISTRATION.

CIS 226 C  JAVA PROGRAMMING
3 Units
(Same as MMIS 226 C)
Three hours lecture and
Two hours laboratory TBA per week.
CSU
Prerequisite: CIS 211 C or MMIS 211 C. This course intro-
duces students to the Java programming language. Students
will learn the language syntax, how to design and debug pro-
grams, and how to use Java programs with HTML pages.
$2.00 Laboratory Fee – PAYABLE AT REGISTRATION.

CIS 227 C  JAVASCRIPT PROGRAMMING
2 Units
(Same as MMIS 227 C)
Two hours lecture and
One hour laboratory TBA per week.
CSU
Prerequisite: CIS 179 C. This course teaches the students to
use the JavaScript programming languages to enhance Web
pages. Emphasis is placed on creating HTML pages that
include JavaScript programs. The student will learn the basic
syntax of the JavaScript language, how to create JavaScript
programs inside HTML documents, and how to use
JavaScript programs to enhance Web pages. $5.00 Labora-
tory Fee - PAYABLE AT REGISTRATION.

CIS 228 C  DYNAMIC HTML PROGRAMMING
2 Units
(Same as MMIS 228 C)
Two hours lecture and
One hour laboratory TBA per week.
Credit/No Credit/Letter Grade Option
CSU
Prerequisite: CIS 179 C. This course introduces students to
advanced topics in Web publishing to develop more sophisti-
cated layouts, font scheme, and interactivity for their pages.
Students will learn the Cascading Style Sheet (CSS) which
permits more control of desktop publishing, document layout,
and text formatting. Emphasis is placed on learning Cascading
Style Sheet, multiple page layers, and scripting. Using these
tools and techniques, students will learn to create dynamic
effects based on users interaction, simple animation, drop-
down menu, and other sophisticated and useful design effects.
$3.00 Laboratory Fee – PAYABLE AT REGISTRATION.

CIS 229 C  INTRO TO XML PROGRAMMING
2 Units
(Same as MMIS 229 C)
Two hours lecture and
One hour laboratory TBA per week.
Credit/No Credit/Letter Grade Option
CSU
Prerequisite: CIS 228 C or MMIS 228 C. This is a class in
Web documents management. The course is ideal for stu-
dents interested in next-generation web publishing who want
to gain a working knowledge of XML and use it to build a wide
range of dynamic effects and compelling Web applications
from formatting and managing documents to E-commerce
and searching and managing data. In this class, students will
master the fundamentals of XML, including XSL (Extensible
Stylesheet Language), DTDs (Document Type Definitions),
CSS (Cascading Style Sheets) and XML schemas. This
course is designed for those with experience in creating Web
pages and who have some knowledge of style sheets. $3.00 Labora-
tory Fee – PAYABLE AT REGISTRATION.

<td></td>
</tr>
<tr>
<td>CIS 238 C</td>
<td>ORACLE: BACKUP AND RECOVERY</td>
<td>3</td>
<td>2</td>
<td>3</td>
<td>This course introduces the students to the critical task of planning and implementing database backup and recovery strategies. The class addresses backup and recovery techniques and examines various backup, failure, restore, and recovery scenarios. In the hands-on exercises, students examine backup methodologies based on business requirements in a mission critical enterprise. Students utilize multiple strategies and Oracle tools such as Recovery Manager to perform backup, restore, and recovery operations. $3.00 Laboratory Fee – PAYABLE AT REGISTRATION.</td>
<td></td>
</tr>
</tbody>
</table>
CIS 241 C SPREADSHEET-ADVANCED MS EXCEL
3 Units
Three hours lecture and
Two hours laboratory TBA per week.
CSU
Prerequisite: CIS 132 C. This course is designed to introduce students to the use of advanced spreadsheet tools in the solution of problems. Students will use Visual Basic to develop Excel applications. $3.00 Laboratory Fee – PAYABLE AT REGISTRATION.

CIS 242 C DATABASE-ADVANCED MS ACCESS
3 Units
Three hours lecture and
Two hours laboratory TBA per week.
CSU
Prerequisite: CIS 142 C. This course teaches advanced topics in Microsoft Access. Students will learn how to design and implement complex databases; how to use Structured Query Language; and how to create complex queries, complex forms, and complex reports. Other topics include how to write Microsoft Access programs using Visual Basic and how to use Access with other applications. $3.00 Laboratory Fee – PAYABLE AT REGISTRATION.

CIS 250 C WORD PROC.-MACHINE OPERATIONS
1 - 8 Units (Variable Unit Class) (May be taken for a cumulative total of 8 units)
(Open Entry-Open Exit)
One to eight hours lecture and
Three to Twenty-Four hours laboratory TBA per week.
CSU
This course consists of basic and advanced text editing performed using a variety of word processing software. Software taught includes, but is not limited to, WordPerfect and Microsoft Word. Students will enroll for one or two units of credit on one software at a time. One unit of credit will be given upon successful completion of the first unit of instruction. Only upon successful completion of the first unit of instruction will the student be eligible for the second unit of credit for the semester. Knowledge of keyboarding recommended. $5.00 Laboratory Fee - PAYABLE AT REGISTRATION.

CIS 251 C ADVANCED WORD PROCESSING
1 - 5 Units (Variable Unit Class) (May be taken for a cumulative total of 5 units)
(Open Entry-Open Exit)
One hour lecture and
Three hours laboratory TBA per week.
CSU
Prerequisite: Two units of CIS 250 C. This course is designed as a continuation of CIS 250 C. Advanced applications include, but are not limited to, desktop publishing, macros, merging, and records processing. $5.00 Laboratory Fee - PAYABLE AT REGISTRATION.

CIS 255 C MACHINE DICTATION & TRANS.
1 Unit
One hour lecture and
Two hours laboratory TBA per week.
CSU
Prerequisite: CIS 101 C, or CIS 125 C, or a minimum of 20 wpm. This course is designed to provide instruction in the use of modern dictation equipment. Emphasis is placed on employing effective dictation and transcription techniques using acceptable formats. $5.00 Laboratory Fee - PAYABLE AT REGISTRATION.

CIS 298 C COMPUTER INFO SYSTEMS SEMINAR
½ - 3 Units (Variable Unit Class) (May be taken for credit 4 times)
Lecture/laboratory hours determined by course offering.
Credit/No Credit/Letter Grade Option
CSU
Prerequisite: Determined by subject matter of seminar. This course will utilize a lecture and/or lab approach for students enrolled in the Computer Information Systems Program to increase their knowledge in applied areas. Topics will be offered to increase the student’s knowledge of the computer information systems profession by updating content on recent changes and requirements and by preparing for new trends in Computer Information Systems.

CIS 299 C CIS INDEPENDENT STUDY
½ - 2 Units (Variable Unit Class) (May be taken for credit 4 times)
One-half to two hours lecture per week.
CSU
Prerequisite: Approved Independent Study Learning Contract. This course is designed for students who wish to gain further experience, knowledge, or expertise beyond their current offerings in their area of study. The number of class hours or activities per week will be determined by the scope of the topic. The instructor will devise learning strategies to be followed by the student. Students must obtain permission from the program coordinator to be enrolled in this class.

Computer Science

Alice Payne
ASSOCIATE OF SCIENCE IN COMPUTER SCIENCE

This curriculum prepares the student for a career in the area of computer science or as a foundation for transfer to a bachelors program at a four year college or university.

To earn an Associate Degree students must complete:
(1) all major course requirements with a minimum grade of "C"; (2) 25 units of General Education Graduation Requirements; (3) the cultural pluralism and reading requirements; (4) any elective courses to complete a minimum of 60 units; and, (5) have a minimum GPA of 2.0. At least 50% of all major course work must be completed at Cypress College.

Required Courses are listed in suggested sequence:

COMPUTER SCIENCE TRANSFER PROGRAM
Students should consult a counselor or www.assist.org for lower division major requirements for most California public universities. (See the Standard Definitions section of the catalog for a description of ASSIST.) Students transferring to an independent college/university should consult the catalog of the individual school and a counselor for lower division major requirements.

Computer Science (CSCI)
CSCI 080 C COMPUTER SCIENCE LABORATORY
0 Units (May be taken for credit 4 times)
Laboratory hours vary according to use on individual basis
Credit/No Credit
Corequisite: Concurrent enrollment in at least one of the following: CSCI 123 C, CSCI 133 C, CSCI 185AC, CSCI 186 C, CSCI 205 C, or CSCI 241 C. This is an open laboratory course for students who are currently enrolled in a computer science lecture course. The laboratory is equipped with computers and data processing hardware for use by students in completing their computer science projects. Use of the facility can be scheduled on an individual basis any time it is open.

CSCI 123 C INTRO TO PROG CONCEPTS IN C++
4 Units
Four hours lecture and
One hour laboratory TBA per week.
UC/CSU
Prerequisite: MATH 141 C and MATH 142 C, or three years in equivalent college preparatory mathematics in high school with at least a "C" average. Concurrent enrollment in CSCI 080 C. This course is an introduction to the basic principles of programming using C++ as the development tool. Topics include the structure and design of algorithms, input/output, branching structures, functions, recursion, built-in data types, arrays, structures, files, pointers and elementary operations on linked structures. The object-oriented programming paradigm will be introduced. Topics include encapsulation, polymorphism, libraries, streams, inheritance and abstract data types. Students will design algorithms, write external and internal documentation and design and write source code in C++. $4.00 Laboratory Fee - PAYABLE AT REGISTRATION.

CSCI 133 C DATA STRUCTURES IN C++
4 Units
Four hours lecture and
One hour laboratory TBA per week.
UC/CSU
Prerequisite: CSCI 123 C with a grade of "C" or better. Concurrent enrollment in CSCI 080 C. This course is a course in algorithm design and data structures implemented using C++. Data structures examined are arrays, linked lists, stacks, queues, trees, tables, and graphs. Algorithm topics include hashing, sorting heaps, searches and algorithm efficiency using Big-O notation. Students will create and modify class libraries to implement these structures. $4.00 Laboratory Fee - PAYABLE AT REGISTRATION.

CSCI 185AC COMPUTER SCIENCE I
4 Units
Four hours lecture and
One hour (minimum) laboratory per week.
UC/CSU, AA GE, CSU GE
Prerequisite: MATH 142 C, or three and one-half years of high school college preparatory mathematics, with grades of "C" or better. Concurrent enrollment in CSCI 080 C. This is an introductory course in basic principles and operation of digital computers. It includes the study of binary and hexadecimal arithmetic, Boolean algebra, computer logic, problem-solving methodology, computer programming with ADA, and program documentation. Elementary numerical techniques are used for problem solving. $4.00 Laboratory Fee - PAYABLE AT REGISTRATION.

CSCI 186 C DATA STRUCTURES
4 Units
Four hours lecture and
One hour (minimum) laboratory per week.
UC Credit Limitation/CSU, CSU GE
Prerequisite: CSCI 185AC, with a grade of "C" or better. Concurrent enrollment in CSCI 080 C. This course includes problem solving methodology with the development and application of data structures, including records, multidimensional arrays, stacks, queues, linked lists, trees, sorting, searching, and recursion, using ADA. $4.00 Laboratory Fee - PAYABLE AT REGISTRATION.
CSCI 205 C FORTRAN PROGRAMMING
3 Units
Three hours lecture and
One hour (minimum) laboratory per week.
UC/CSU, CSU GE, CAN CSCI 4
Prerequisite: MATH 142 C, or MATH 130 C, or three and
one-half years of high school college preparatory mathemat-
ics. Corequisite: Concurrent enrollment in CSCI 080 C. This
is a course for science, engineering, and mathematics stu-
dents to acquaint them with the use of digital computers and
to enable them to write programs in the FORTRAN lan-
guage. Elementary numerical methods, algorithms, flow-
charting, and program documentation are included. $4.00
Laboratory Fee - PAYABLE AT REGISTRATION.

CSCI 241 C ASSEMBLY LANGUAGE
PROGRAMMING
4 Units
Four hours lecture and
One hour laboratory TBA per week.
UC/CSU
Prerequisite: CSCI 185AC or CSCI 133 C with a grade of “C”
or better. Corequisite: Concurrent enrollment in CSCI 080 C.
This course is an introduction to assembly language program-
ning. It includes reviews of computer organization, program-
ing techniques and concepts, addressing techniques,
input/output, hardware architecture, and data structures.
$4.00 Laboratory Fee - PAYABLE AT REGISTRATION.

CSCI 298 C COMPUTER SCIENCE SEMINAR
½ - 3 Units (Variable Unit Class) (May be taken for
credit 4 times)
Lecture/laboratory hours vary with credit given.
UC Credit Limitation/CSU
This is a lecture/discussion approach to special topics involv-
ing computer science. It may be a problem session related to
a particular course in the curriculum, or a study of topics not
ordinarily covered within the curriculum. Consult the class
schedule to verify unit credit for a particular semester.

CSCI 299 C COMPUTER SCI INDEPENDENT
STUDY
½ - 2 Units (Variable Unit Class) (May be taken for
credit 4 times)
Six hours assigned independent study or research per
week for maximum credit.
UC Credit Limitation/CSU
Prerequisite: Approved Independent Study Learning Con-
tact. This course is for students who have demonstrated
interest and capability for increased knowledge of computer
science topics not ordinarily covered in the curriculum. Stu-
dents will participate in independent study or research on
assigned projects under faculty supervision.

Continuing
Education Program
The Division of Health Science offers courses through
extended day sessions at Cypress College and through the
Adult Continuing Education Department of the North
Orange County Community College District. Continuing
education courses are designed for programs within the
Health Science Division.

General inquiries and application to programs may be
obtained from the Health Science Counseling Office (ext.
47270). The classes offered are approved by the California
Board of Regional Nursing (Provider Number 00110), for
the number of hours the class meets. Request list of
approved classes from the Health Science Division.

Counseling and Student Development (COUN)

COUN 060 C  ACADEMIC SUCCESS AND COLLEGE SURVIVAL
1 Unit
One hour lecture per week.
Credit/No Credit
This course is designed to help students who are experiencing difficulties in succeeding in college. Students will learn skills such as time management, decision-making, and study skills which will enable them to identify and overcome educational difficulties.

COUN 071 C  CAREER PREPARATION AND LIFE MANAGEMENT
3 Units
Two hours lecture and Three hours laboratory per week.
Credit/No Credit/Letter Grade Option
NON-DEGREE CREDIT
Prerequisite: Entry in Special Assistance Program - Disabled Student Programs and Services. This course is designed for students needing special assistance in career planning, job search techniques, personal adjustment, life management and academic skills.

COUN 072 C  LEARNING DISABILITIES ASSESSMENT
½ Unit
(Open Entry/Open Exit)
One-half hour lecture per week.
Credit/No Credit
NON-DEGREE CREDIT
Prerequisite: Learning Disability Specialist Approval. Intensive diagnostic learning assessment for students with learning disabilities whose learning disabilities have impeded academic performance. Emphasis is on assessing specific academic and learning modality strengths and weaknesses. Development of an individual education plan (IEP) outlining long term goals/short term objectives for identified eligible students with learning disabilities.

COUN 073 C  COMPUTER ACCESS I
3 Units
Two hours lecture and Three hours laboratory per week.
Credit/No Credit/Letter Grade Option
Prerequisite: Eligibility for services from the Disabled Students Programs and Services office. This course is designed for students with verified disabilities. This course provides training in the use of assistive technology which enhances a disabled student’s ability to access and use personal computers. The course will also cover word processing and an introduction to the Internet.

COUN 074 C  COMPUTER ACCESS II
3 Units (May be taken for credit 2 times)
Two hours lecture and Three hours laboratory per week.
Credit/No Credit/Letter Grade Option
Prerequisite: COUN 073 C. This course is designed for students with verified disabilities. This course provides training in more advanced computer concepts using prescribed assistive technology. The course will also cover intermediate to advanced Internet skills. Students will enhance computer access skills through completion of assigned projects in a variety of formats (word processing, spreadsheets, presentations, and publications).

COUN 075 C  COMPUTER ACCESS PROJECTS
1 Unit (May be taken for credit 2 times)
Three hours laboratory per week.
Credit/No Credit/Letter Grade Option
Prerequisite: Student must be eligible for services and instruction from Disabled Student Programs and Services through appropriate verification of a primary disability by certificated personnel and be able to benefit from programs and services offered by the High Tech Center. Completion of COUN 074 C. This course is designed for students with learning, visual, physical, or hearing disabilities. This course provides additional training for students who require access to specialized technologies in order to complete assignments for other classes in which they are concurrently enrolled and to also continue to develop advanced strategies in adaptive equipment.

COUN 100 C  COLLEGE ORIENTATION FOR THE LEARNING DISABLED
2 Units
Two hours lecture per week.
Credit/No Credit/Letter Grade Option
CSU
Prerequisite: Entry in Special Assistance Program - Disabled Student Programs and Services. This course will facilitate an awareness of community and college support services, provide experimental activity in the use of these support services, coordinate student assessment, provide vocational and educational planning, and give orientation into college life.

COUN 105 C  STRESS AND ANXIETY MANAGEMENT
1 Unit (May be taken for credit 4 times)
(Open Entry/Open Exit)
One hour lecture per week.
Credit/No Credit
CSU, CSU GE
This is an open entry/open exit course designed to increase the student’s awareness of the effects of stress and anxiety on academic performance and daily life. Emphasis will be placed on understanding effective and ineffective responses to stress/anxiety and on planning a personal stress/anxiety management program. Students will explore and practice a variety of practical management techniques. $3.00 Materials Fee - PAYABLE AT REGISTRATION.
COUN 110 C  TEACHING AS A CAREER
3 - 4 Units  (Variable Unit class)
Two hours lecture per week.
Credit/No Credit/Letter Grade Option
CSU
This course is designed as an introduction to the teaching profession where students will examine concepts and issues related to education in a democratic society within historical, social, philosophical, legal and political contexts. Students will develop personal knowledge and understanding of (1) the competing purpose and values of schools in society, (2) the nature of teaching and the teaching profession, (3) the impact of local, state, and federal government policies on schools, and (4) contemporary educational issues. Course content and assignments will be related to their field experience (a minimum of 45 hours of classroom fieldwork is required for 3 units; 90 hours for 4 units).

COUN 111 C  TEACHING IN DIVERSE CLASSROOMS
1 Unit
One hour lecture per week.
CSU
This course will provide an introduction to teaching and learning skills for students interested in the teacher preparation program. The course will address the qualities of an effective teacher, components and purposes of an effective professional portfolio, and critical issues in diverse contemporary classrooms. Students will begin their professional portfolio, begin classroom observations, and learn about their own learning needs and styles. (10 hours of Fieldwork required per semester)

COUN 135 C  LEADERSHIP
3 Units
Three hours lecture per week.
CSU
This course includes the study and practical application of group and individual leadership techniques. It is designed to improve awareness of group dynamics, listening skills, personal values, decision-making, problem solving and organizational development. Duplicate credit not granted for COUN 135HC.

COUN 135HC  HONORS LEADERSHIP
3 Units
Three hours lecture per week.
CSU
This course is designed for Honors students and requires leadership participation in a campus or community organization. It includes the study and practical application of group and individual leadership techniques. It is designed to improve awareness of group dynamics, listening skills, personal values, decision-making, problem solving and organizational development. It emphasizes critical analysis of leaders in the news, history or literature. Duplicate credit not granted for COUN 135 C.

COUN 140 C  EDUCATIONAL PLANNING
½ Unit
One half hour lecture per week.
Credit/No Credit
CSU
This course is required the first semester of attendance as part of the matriculation process for all new students who are taking more than two classes or who plan to earn the Associate Degree, obtain a Certificate, or transfer to a four year college. The course includes orientation to college life and responsibilities, college requirements and regulations, career guidance, and development of a personal educational plan. $6.00 Materials Fee - PAYABLE AT REGISTRATION. Duplicate credit not granted for COUN 140HC.

COUN 140HC  HONORS EDUCATIONAL PLANNING
½ Unit
One half hour lecture per week.
Credit/No Credit
CSU
This course is an enhanced orientation to college life and responsibilities. It includes Cypress College regulations, Certificate, Associate Degree, and transfer requirements, career guidance and development of a personal educational plan. Emphasis will be placed on use of student support services and researching transfer options. $6.00 Materials Fee - PAYABLE AT REGISTRATION. Duplicate credit not granted for COUN 140 C.

COUN 141 C  CAREER EXPLORATION
1 Unit
18 hours lecture and
Three hours (minimum) laboratory
as assigned per semester.
Credit/No Credit
CSU, CSU GE
This class is for students who are undecided about their educational or career goals. Using a career planning process, students assess interests, skills, personality, values, life and work style choices. Students research potential educational and career goals and relate their self-assessment information to occupational possibilities and college majors. $3.00 Laboratory Fee - PAYABLE AT REGISTRATION.

COUN 144 C  WOMEN AND CAREERS
1 Unit
18 hours lecture and
Three hours (minimum) laboratory
as assigned per semester.
Credit/No Credit
CSU, CSU GE
This course is designed to help women expand their self-image to know themselves better by providing personal exploration through testing, values clarification and skills analysis. The course provides creative job search techniques- application and resume writing, interviewing, decision-making and goal setting. $3.00 Laboratory Fee - PAYABLE AT REGISTRATION.
COUN 145 C  CHANGING CAREERS
1 Unit
18 hours lecture and
Three hours (minimum) laboratory
as assigned per semester.
Credit/No Credit
CSU, CSU GE
This course is designed to provide personal exploration through testing, values clarification and skills analysis. It provides creative job search techniques - applications, resume writing, interviewing, decision-making and goal setting. $3.00 Laboratory Fee - PAYABLE AT REGISTRATION.

COUN 146 C  DECISION MAKING
1 Unit
One hour lecture per week.
Credit/No Credit/Letter Grade Option
CSU, CSU GE
This course is designed to teach students decision-making concepts and skills for application in career planning, educational planning, and everyday life. Emphasis will be placed on practicing decision-making through class discussions, role-playing, and simulation.

COUN 147 C  PEER ADVISING
1 Unit
18 hours lecture per semester.
Credit/No Credit
CSU
This course is designed to provide skills in specific peer advisement situations, observations, and communications. Training in active listening, group processes, and role-playing are emphasized. May be repeated with instructor’s approval for a maximum of 2 units.

COUN 148 C  HUMAN POTENTIAL
1 Unit
18 hours lecture per semester.
Credit/No Credit/Letter Grade Option
CSU
This experiential course enables students to examine and assess their strengths, values, decision-making skills and potential in order to plan realistic educational goals.

COUN 150 C  ACADEMIC AND LIFE SUCCESS
3 Units
Three hours lecture per week.
CSU, CSU GE
This course will provide students with knowledge, information, and practical skills to better understand themselves as students, people and members of society. It will assist them in achieving academic, and life goals and to develop plans and strategies to successfully meet those goals.

COUN 151 C  CAREER AND LIFE PLANNING
3 Units
Three hours lecture per week and
Three hours (minimum) laboratory
as assigned per semester.
CSU, CSU GE
A complete class in career/life planning, including introduction to the tools for dealing with change; an analysis of desired lifestyles; self-assessment; overcoming obstacles, and analysis of work, its organizations, and where you want to work; decision-making, people, environments, career-researching and job-finding, resumes, interviewing, and goal setting. $3.00 Laboratory Fee - PAYABLE AT REGISTRATION.

COUN 152 C  DIVERSITY IN THE WORLD OF WORK
3 Units
Three hours lecture per week.
CSU, CSU GE
This course will explore the past, present and future working conditions and challenges of men, women, and children, various ethnic and cultural groups, people of different socioeconomic status, and people with disabilities and exceptionalities as factors which relate to employment opportunities and conditions.

COUN 156 C  SELF-CONCEPT
1 Unit
One hour lecture per week.
Credit/No Credit
CSU
This course introduces the student to the self-concept theory and will assist him/her in acquiring the psychological characteristics necessary to meet daily challenges. Emphasis will be placed on the enhancement of academic performance and success by developing a stronger self-concept.

COUN 160 C  COLLEGE/UNIVERSITY TRANSITION
1 Unit
One hour lecture per week.
Credit/No Credit/Letter Grade Option
CSU
This course is designed for students and the parents of students who plan to transfer to a college or university. Topics include the value of pursuing higher education, selection of a transfer institution, admissions, academic requirements, financial aid options, special programs, priority filing deadline, and developing an autobiographical essay. $4.00 Laboratory Fee - PAYABLE AT BOOKSTORE.

COUN 160HC  HONORS COLLEGE/UNIVERSITY TRANSITION
1 Unit
One hour lecture per week.
Credit/No Credit/Letter Grade Option
CSU
This course is required during the first semester of attendance as part of the matriculation process for Honors Program students. The course is an enhanced orientation to the transfer process. Topics include the value of pursuing higher education, selection of a transfer institution, admission, academic requirements, financial aid options, special programs, priority filing deadlines, developing an autobiographical essay and personal portfolio. Emphasis will be placed on researching and evaluating transfer options. Duplicate credit not granted for COUN 160 C.

COUN 215 C  TUTORING TECHNIQUES
1 Unit
18 hours lecture per semester.
Credit/No Credit
CSU
This course is designed to train tutors to assist students in acquiring the necessary knowledge and skills that will enable them to meet challenges posed by academic and vocational classes. Emphasis will be placed on learning reinforcement skills, learning styles, the affective domain, ethnic awareness and sensitivity, and verbal and non-verbal communication. Discussions will focus on solving general and specific problems that tutors face on interacting with their clients.
COUN 298 C  COUNSELING AND GUIDANCE SEMINAR
½ - 3 Units (Variable Unit Class) (May be taken for credit 4 times)
Hours vary according to units assigned.
Credit/No Credit/Letter Grade Option
CSU
Various classes may be offered which are designed to meet the interests and needs of the students and faculty.

COUN 299 C  COUNSELING - INDEPENDENT STUDY
½ - 2 Units (Variable Unit Class) (May be taken for credit 4 times)
(Open Entry/Open Exit)
Hours vary according to units assigned.
Credit/No Credit
CSU
Prerequisite: Approved Independent Study Learning Contract.
This course is designed for students who wish to explore in-depth various guidance-related topics. Students develop an Independent Study Learning Contract with the instructor that details the objectives and course content and scope to be completed by the student. Consult class schedule to verify credit for a particular term.

Note: Students are advised to contact a Business counselor for any questions regarding this program.

CALIFORNIA COURT REPORTERS BOARD ACCREDITATION
ACCREDITED COURT REPORTING PROGRAM
In order for the person to qualify from a school to take the state licensing examination, the person shall complete a program at a recognized school. For information concerning the minimum requirements that a court reporting program must meet in order to be recognized contact:

The Court Reporter's Board of California
2535 Capitol Oaks Drive, Suite 230
Sacramento, CA 95833

CYPRESS COLLEGE BUSINESS/CIS DIVISION COURT REPORTING PROGRAM
This program was approved by the Court Reporter's Board on March 7, 1978. Academic courses completed in Adult Education are not transferable. Courses taken in Distance Education will be evaluated on an individual basis for transferability and hour requirements. Private school academics may be evaluated for certification to take the CSR examination. The California Court Reporter's Board sets the standards for hours of training under the following listed categories. The Cypress College program exceeds all state requirements. The student may go on to earn an Associate in Arts Degree or other specialized certificate. Students must furnish their own equipment, paper, and other supplies. Student must enter the program with a basic typing speed of 25 words per minute.
1. Machine Shorthand & Transcription – 2300 hours
   (Lab hours do not count for machine credit in this category, per the CR Board.)

CORE REQUIREMENTS:
   CTRP 040 C  80
   CTRP 041 C  80
   CTRP 042 C-045 C  320
   CTRP 046 C-049 C  320
   CTRP 057 C-060 C  320
   CTRP 061 C  80
   CTRP 052 C  80
   CTRP 053 C  80
   CTRP 054 C  80
   CTRP 055 C  80
   CTRP 056 C  80
   Total Hours 1600

Core Requirements must be completed in order to qualify. Transfer students must demonstrate course comparability in speed building categories.

ELECTIVES – After completing the core requirements, students may gain additional machine hours by completing any of the following.
   CTRP 050 C  80
   (Students must complete a 10-minute qualifier, ½ unit, to qualify to take the CSR examination.)
   CTRP 075 C  320
   CTRP 090 C  80
   CTRP 094 C  80
   CTRP 095 C  80
   CTRP 096 C  80
   CTRP 089 C  80
   Total Hours 800

2. ENGLISH - 215 Hours required
   MGT 055 C Business English 48

   Sacramento, CA 92583

Note: This program was accredited by the Court Reporter's Board on March 7, 1978. ALL CANDIDATES MUST HAVE A HIGH SCHOOL DIPLOMA OR EQUIVALENT TO TAKE THE CSR EXAMINATION. (Revised March 18, 2002)

CAPTIONING CERTIFICATE
The Captioning Certificate is designed to prepare students to enter the field of closed captioning. Students will progress through several levels of speed building refining their writing styles and modifying their Computer Aided Transcription dictionary in order to meet the rigorous demands of realtime writing in the captioning arena.

To earn a certificate, complete the required courses as listed with a minimum grade of “C”. At least 50% of all course work must be completed at Cypress College.

Required courses are listed in suggested sequence:
   Course #  Title  Units
   CTRP 085 C  Comp. Aided Trans: Dict. Bldg.  1
   CTRP 082 C  Comp. Aided Trans: ProCAT  1
   or CTRP 083 C  Comp. Aided Trans: Stenograph  (1)
   or CTRP 084 C  Comp. Aided Trans: Eclipse  (1)
   or CTRP 070 C  Comp. Aided Trans: StenoCAT  (1)
   or CTRP 090 C  Court/Conf. Rptg.: Literary  3
   or CTRP 096 C  Court & Conf. Rptg.: Lit. III  3

Recommended Elective
   CTRP 089 C  Court & Conf. Rptg.: Lit. II  2
CART* CERTIFICATE

*COMMUNICATION ACCESS REALTIME TRANSLATION
STUDENTS MUST FURNISH THEIR OWN MACHINE AND PAPER

The CART (Communication Access Realtime Translation) Certificate will provide the student with an opportunity for future employment as a classroom captionist shadowing a hearing-impaired individual, providing a realtime translation of all proceedings. The training program provides for an internship experience, where students will learn first-hand the job duties of a CART reporter.

To earn a certificate, complete the required courses as listed with a minimum grade of “C”. At least 50% of all course work must be completed at Cypress College.

TEXT-ENTRY SPECIALIST: BUSINESS CERTIFICATE
STUDENTS MUST FURNISH THEIR OWN MACHINE AND PAPER

The Text-Entry Specialist: Business Certificate is designed to prepare the student for entry-level employment in law offices, insurance companies, police departments, and businesses using a steno machine for text-entry to enter data, rather than a computer keyboard. The Text-Entry Specialist records information and prepares reports, business documents, and legal documents in final format.

To earn a certificate, complete the required courses as listed with a minimum grade of “C”. At least 50% of all course work must be completed at Cypress College.

Required courses are listed in suggested sequence:
Course #  Title                          Units

Total Units Required: 34-35

Court Reporting (CTRP)

CTRP 040 C BEG. MACHINE SHORTHAND THEORY
3 Units

Three hours lecture and Two hours laboratory per week.
Credit/No Credit/Letter Grade Option

This first semester course covers the basic theory of machine shorthand and mastery of the keyboard. This course meets partial requirements of the Court Reporter’s Board and the National Court Reporter’s Association. Recommend concurrent enrollment in CTRP 041 C. Three hours of course observation required.

CTRP 041 C COURT REPORTING THEORY REVIEW
1 –3 Units (Variable Unit Class) (May be taken for credit 3 times)
(Open Entry-Open Exit)
Two hours lecture and Three hours laboratory per week.
Credit/No Credit/Letter Grade Option
Prerequisite: Concurrent enrollment in or completion of CTRP 040 C. This course covers the basic theory of court reporting which emphasizes reporting theory, reading fluency, and transcribing skills. This course meets partial requirements of the Court Reporter’s Board and the National Court Reporter’s Association.

CTRP 042 C MACHINE SHORTHAND SPEED BLDG 1
½ - 2 Units (Variable Unit Class) (May be taken for credit 4 times)
(Open Entry-Open Exit)
One hour lecture and Four hours laboratory per week.
Credit/No Credit/Letter Grade Option
Prerequisite: Completion of CTRP 041 C. This course promotes further development of speed and accuracy in taking dictation on the machine. The student will review theory and develop sufficient skills to take new material dictation at 80 wpm for a minimum of three minutes with 95 percent accuracy. Units of credit will be granted when the speed and accuracy objective is attained. This course meets partial requirements of the Court Reporter’s Board and the National Court Reporter’s Association.

CTRP 043 C MACHINE SHORTHAND SPEED BLDG 2
½ - 2 Units (Variable Unit Class) (May be taken for credit 4 times)
(Open Entry-Open Exit)
One hour lecture and Four hours laboratory per week.
Credit/No Credit/Letter Grade Option
Prerequisite: Completion of CTRP 042 C. This course promotes further development of speed and accuracy in taking dictation on the machine. The student will review theory and develop sufficient skills to take new material dictation at 100 wpm for a minimum of five minutes with 95 percent accuracy. Units of credit will be granted when the speed and accuracy objective is attained. This course meets partial requirements of the Court Reporter’s Board and the National Court Reporter’s Association.
CTRP 044 C  MACHINE SHORTHAND SPEED  
BLDG 3  
½ - 2 Units (Variable Unit Class) (May be taken for credit 4 times)  
(Open Entry-Open Exit)  
One hour lecture and  
Four hours laboratory per week.  
Credit/No Credit/Letter Grade Option  
Prerequisite: Completion of CTRP 043 C. This course promotes further development of speed and accuracy in taking dictation on the machine. The student will review techniques of writing and develop sufficient skills to take new material dictation at 120 wpm for five minutes with 95 percent accuracy. Units of credit will be granted when the speed and accuracy objective is attained. This course meets partial requirements of the Court Reporter’s Board and the National Court Reporter’s Association for speed level on jury charge material.

CTRP 045 C  MACHINE SHORTHAND SPEED  
BLDG 4  
½ - 2 Units (Variable Unit Class) (May be taken for credit 4 times)  
(Open Entry - Open Exit)  
One hour lecture and  
Four hours laboratory per week.  
Credit/No Credit/Letter Grade Option  
Prerequisite: Completion of CTRP 044 C. This course promotes further development of speed and accuracy in taking dictation on the machine. The student will review techniques of writing and develop sufficient skills to take new material dictation at 140 wpm for five minutes with 95 percent accuracy. Units of credit will be granted when the speed and accuracy objective is attained. This course meets partial requirements of the Court Reporter’s Board and the National Court Reporter’s Association for speed level on jury charge material.

CTRP 046 C  MACHINE SHORTHAND SPEED  
BLDG 5  
½ - 2 Units (Variable Unit Class) (May be taken for credit 4 times)  
(Open Entry-Open Exit)  
One hour lecture and  
Four hours laboratory per week.  
Credit/No Credit/Letter Grade Option  
Prerequisite: Completion of CTRP 045 C. This course promotes further development of speed and accuracy in taking dictation on the machine. The student will develop sufficient skills to take new material dictation at 160 wpm for five minutes with 98 percent accuracy. Units of credit will be granted when the speed and accuracy objective is attained. This course meets the requirements of the Court Reporter’s Board and the National Court Reporter’s Association for speed level on question and answer and trial testimony.

CTRP 047 C  MACHINE SHORTHAND SPEED  
BLDG 6  
½ - 2 Units (Variable Unit Class) (May be taken for credit 4 times)  
(Open Entry-Open Exit)  
One hour lecture and  
Four hours laboratory per week.  
Credit/No Credit/Letter Grade Option  
Prerequisite: Completion of CTRP 046 C. This course promotes further development of speed and accuracy in taking dictation on the machine. The student will develop sufficient skills to take new material dictation at 180 wpm for ten minutes with 98 percent accuracy. Units of credit will be granted when the speed and accuracy objective is attained. This course meets the requirements of the Court Reporter’s Board and the National Court Reporter’s Association for speed level on question and answer and trial testimony.

CTRP 048 C  MACHINE SHORTHAND SPEED  
BLDG 7  
½ - 2 Units (Variable Unit Class) (May be taken for credit 4 times)  
(Open Entry-Open Exit)  
One hour lecture and  
Four hours laboratory per week.  
Credit/No Credit/Letter Grade Option  
Prerequisite: Completion of CTRP 047 C. This course promotes further development of speed and accuracy in taking dictation on the machine. The student will develop sufficient skills to take new material dictation at 200 wpm for fifteen minutes with 98 percent accuracy. Units of credit will be granted when the speed and accuracy objective is attained. This course meets the requirements of the Court Reporter’s Board and the National Court Reporter’s Association for speed level on question and answer and trial testimony.

CTRP 049 C  MACHINE SHORTHAND SPEED  
BLDG 8  
½ - 2 Units (Variable Unit Class) (May be taken for credit 4 times)  
(Open Entry-Open Exit)  
One hour lecture and  
Four hours laboratory per week.  
Credit/No Credit/Letter Grade Option  
Prerequisite: Completion of CTRP 048 C. This course promotes further development of speed and accuracy in taking dictation on the machine. The student will develop sufficient skills to take new material dictation at 220 wpm for five minutes with 98 percent accuracy. Units of credit will be granted when the speed and accuracy objective is attained. This course meets the requirements of the Court Reporter’s Board and the National Court Reporter’s Association for speed level on question and answer and trial testimony.
CTRP 050 C CSR/RPR DIRECTED PRACTICE
½ - 2 Units (Variable Unit Class) (May be taken for credit 4 times)
(Open Entry-Open Exit)
One hour lecture and
Four hours laboratory per week.
Credit/No Credit/Letter Grade Option
Prerequisite: Completion of CTRP 049 C. This course promotes a further development of speed and accuracy in taking dictation on the machine. The student will develop sufficient skills to take new material dictation at speeds up to 240/260 wpm. Units of credit will be granted when the speed and accuracy objective is attained. This course meets the requirements of the Court Reporter’s Board and the National Court Reporter’s Association for speed level on question and answer and trial testimony.

CTRP 051 C COURT/CONF. REPORTING:
LEGAL
1 - 3 Units (Variable Unit Class) (May be taken for credit 4 times)
(Open Entry-Open Exit)
Two hours lecture
Three hours laboratory per week.
Prerequisite: CTRP 071 C and CTRP 042 C. This course consists of an application of court reporting theory to the keyboard to develop dictation rates of 60-100 wpm for a minimum of three minutes with 95 percent accuracy. Emphasis is on jury charge, literary, and question and answer material. Legal vocabulary, acceptable California formats, and court reporting punctuation rules are introduced. Three hours of court observation required.

CTRP 052 C COURT/CONF. RPTG: MEDICAL
1 - 3 Units (Variable Unit Class) (May be taken for credit 4 times)
(Open Entry-Open Exit)
Two hours lecture
Three hours laboratory per week.
Prerequisite: HS 145 C and CTRP 044 C. This course applies court reporting theory to the keyboard to develop dictation rates of 120-140 words per minute for a minimum of three minutes with 95 percent accuracy with emphasis on medical terminology. Three hours of court observation required.

CTRP 053 C COURT/CONF. RPTG: CONGRESSIONAL
1 - 3 Units (Variable Unit Class) (May be taken for credit 4 times)
Two hours lecture
Three hours laboratory per week.
Prerequisite: CTRP 045 C. This course offers further development of speed and accuracy in taking dictation to increase machine shorthand speed and strengthen transcription skills with emphasis on congressional record material, at speeds ranging from 160-180 wpm for a minimum of three minutes with 95 percent accuracy.

CTRP 054 C TWO/FOUR VOICE TESTIMONY
½ - 3 Units (Variable Unit Class) (May be taken for credit 4 times)
(Open Entry-Open Exit)
Two hours lecture and
Three hours laboratory per week.
Credit/No Credit/Letter Grade Option
Prerequisite: CTRP 073CC and CTRP 044 C. This course develops familiarity with a simulated courtroom scene consisting of the judge, the clerk, attorneys for the plaintiff and the defendant, and a witness participating in two/four-voice dictation. Students will identify each speaker with appropriate machine designations in multi-voice testimony at 120-140 wpm for a minimum of three minutes, transcribed in proper format with 98 percent accuracy.

CTRP 055 C COURT/CONF. RPTG: JURY CHARGE 1
½ - 3 Units (Variable Unit Class) (May be taken for credit 4 times)
(Open Entry-Open Exit)
Two hours lecture
Three hours laboratory per week.
Credit/No Credit/Letter Grade Option
Prerequisite: CTRP 045 C. This course presents an intensive application of court reporting theory to develop further reading and transcribing skills in jury charge, opening and closing arguments, legal opinion and other courtroom material at speeds ranging from 160 to 180 wpm. This course prepares the student for the machine portion of the RPR examination.

CTRP 056 C COURT/CONF. RPTG: JURY CHARGE 2
½ - 3 Units (Variable Unit Class) (May be taken for credit 4 times)
(Open Entry-Open Exit)
Two hours lecture
Three hours laboratory per week.
Credit/No Credit/Letter Grade Option
Prerequisite: CTRP 055 C. This course presents an intensive application of court reporting theory to develop further reading and transcribing skills in jury charge, opening and closing arguments, legal opinion and other courtroom material at speeds ranging from 180 to 200 wpm. This course prepares the student for the machine portion of the RPR examination.

CTRP 057 C MACH. SHORTHAND
CHALLENGE - 160
½ - 2 Units (Variable Unit Class) (May be taken for credit 4 times)
(Open Entry-Open Exit)
One hour lecture and
Four hours laboratory per week.
Credit/No Credit/Letter Grade Option
Prerequisite: CTRP 045 C and CTRP 054 C. This course is designed for the advanced court reporting student and the transfer student to gain additional proficiency in taking multi-voice testimony in a simulated environment at 160 wpm. Live reading will be introduced.
CTRP 058 C  MACH. SHORTHAND  
CHALLENGE - 180  
½ - 2 Units (Variable Unit Class) (May be taken for credit 4 times)  
(Open Entry-Open Exit)  
One hour lecture and  
Four hours laboratory per week.  
Credit/No Credit/Letter Grade Option  
Prerequisite: CTRP 057 C. This course is designed for the advanced court reporting student and the transfer student to gain additional proficiency in taking multiple-voice testimony in a simulated environment at 180 wpm. Live reading will be introduced.

CTRP 059 C  MACH. SHORTHAND  
CHALLENGE - 200  
½ - 2 Units (Variable Unit Class) (May be taken for credit 4 times)  
(Open Entry-Open Exit)  
One hour lecture and  
Four hours laboratory per week.  
Credit/No Credit/Letter Grade Option  
Prerequisite: CTRP 058 C. This course is designed for the advanced court reporting student and the transfer student to gain additional proficiency in taking multiple-voice testimony in a simulated environment at 200 wpm. Videotaped testimony and live reading will be introduced.

CTRP 060 C  MACH. SHORTHAND  
CHALLENGE-220  
½ - 2 Units (Variable Unit Class) (May be taken for credit 4 times)  
(Open Entry-Open Exit)  
One hour lecture and  
Four hours laboratory per week.  
Credit/No Credit/Letter Grade Option  
Prerequisite: CTRP 059 C. This course is designed for the advanced court reporting student to gain additional proficiency in taking multiple-voice testimony in a simulated environment at 220 wpm. Videotaped testimony and live reading will be introduced.

CTRP 066 C  MACHINE TRANSCRIPTION - MEDICAL  
2 Units  
One hour lecture and  
Three hours laboratory per week.  
Credit/No Credit/Letter Grade Option  
Prerequisite: CIS 101 C, or CIS 125 C, or a minimum of 20 wpm. Advisory: HS 145 C or a knowledge of medical terminology is recommended. This course is designed to teach medical transcription skills. Physician’s correspondence, case histories, and reports will be transcribed using transcribing machines and a personal computer. $3.00 Laboratory Fee - PAYABLE AT REGISTRATION.

CTRP 067 C  BASIC VOCABULARY DEVELOPMENT  
2 Units  
Two hours lecture per week.  
This course is a basic course designed to enrich vocabulary and improve spelling. The emphasis is on increasing general business and professional terminology.

CTRP 068 C  ADV. VOCABULARY DEVELOPMENT  
1½ Units  
One and one-half hour lecture per week.  
Prerequisite: CTRP 067 C. This course is an advanced course designed to enrich vocabulary and improve spelling. The emphasis is on increasing general business and professional terminology.

CTRP 070 C  COMP. AIDED TRANS: STENOCAT  
1 Unit  
One hour lecture and  
Three hours laboratory TBA per week.  
This course uses computer-based instruction as well as hands-on applications to introduce the court reporting student to Stenocat Computer Aided Transcription software using personal computers.

CTRP 071 C  LEGAL TERMINOLOGY AND RHETORIC  
3 Units  
Three hours lecture per week.  
The course includes instruction in the terminology used in legal proceedings and legal documents. Topics cover both civil and criminal litigation.

CTRP 072 C  LEGAL PROCEDURES  
4 Units  
Four hours lecture and  
One hour laboratory per week.  
Prerequisite: Typing speed of 40 wpm, and CTRP 071 C. This course is designed to train the legal secretarial, paralegal, or court reporting student in legal procedures and practical law office skills and knowledge in the areas of general office duties, non-court documents, the courts, court documents, litigation, appeals, and other court actions. This course may be taught using a computer. Three hours of court observation required.

CTRP 073AC  SPELLING FOR MODERN BUSINESS  
1 Unit  
One hour lecture per week.  
This course is designed as an 18-hour intensive review of frequently misspelled words, homonyms, synonyms, and antonyms. The emphasis will be on business, legal, medical, and technical terminology. This course meets partial requirements of the Court Reporter’s Board for Section II and the Certification Program.

CTRP 073BC  PUNCTUATION-COURT REPORTING  
1 Unit  
One hour lecture per week.  
This course is designed as an 18-hour intensive review of punctuation styles and rules used in court documents, letters, legal office documents, contracts, memorandums, and reports. The emphasis will be on basic punctuation rules as they apply to written business, legal, medical, and technical documents. This course meets partial requirements of the Court Reporter’s Board for Section II and the Certification Program.
CTRP 073CC  FORMATTING, STYLE, AND USAGE  
1 Unit  
One hour lecture per week.  
This course is designed to provide the court reporting student and the computer editor major with instruction in preparing and formatting California court transcripts and depositions. Instruction will include format styles, usage, and fundamentals of document production using the computer.

CTRP 074 C  CSR/RPR EXAM PREPARATION  
½ - 1 Unit (Variable Unit Class) (May be taken for credit 2 times)  
One hour lecture per week.  
Prerequisite: Student must be qualified by an approved court reporting school according to state and national guidelines to take the CSR or RPR examination. This course is designed to prepare the student to successfully pass the written knowledge portion of the CSR and/or RPR examination. This class is a nine-week course offered to coincide with the Fall and Spring CSR and RPR examinations.

CTRP 075 C  SIMULATED COURTROOM  
½ - 6 Units (Variable Unit Class) (May be taken for a cumulative total of 6 units)  
(Open Entry-Open Exit)  
One hour lecture and  
Four hours laboratory per week.  
Prerequisite: CTRP 046 C. This course is designed to offer a simulated courtroom and deposition environment with special emphasis on live reading with 2, 3, 4, and 5-voice dictation practice at speeds ranging from 180 to 200 wpm.

CTRP 076 C  COURT PROCEDURES  
½ - 3 Units (Variable Unit Class)  
Three hours lecture per week.  
Prerequisite: CTRP 072 C for legal secretaries. Completion of CTRP 058 C, 180/5 multiple voice for court reporters. This course provides intensive training in the procedural aspects of the state court system. A heavy emphasis is placed on court structure, pre-trial and trial procedures, law office procedures, ethics, and document production.

CTRP 077 C  DICTATION/TRANSCRIPTION  
½ - 2 Units (Variable Unit Class) (May be taken for credit 4 times)  
(Open Entry-Open Exit)  
One hour lecture and  
Four hours laboratory per week.  
Credit/No Credit  
Prerequisite: Concurrently enrolled in speed building, jury charge, or two/four voice testimony. This course provides further development of speed and accuracy in taking dictation at the machine at intermediate speeds. Emphasis is on reinforcement and improvement.

CTRP 078 C  INTERNSHIP: MEDICAL REPORTING  
2 Units  
Two hours lecture per week and  
Forty hours of internship plus  
Ten hours of observation.  
Prerequisite: CTRP 052 C and HS 145 C. This course is designed to provide the court reporting medical transcriptionist student with practical work experience recording and reporting medical lectures, seminars, and hearings. There will be 40 hours of internship plus 10 hours of observation.

CTRP 079 C  INTERNSHIP: CART  
2 Units  
Two hours lecture per week plus  
Forty hours of internship plus  
Ten hours of observation.  
Prerequisite: CTRP 045 C. This course is designed to provide the CART (Communication Access Realtime Translation) student with practical work experience recording and reporting seminars, hearings, and lectures. There will be 40 hours of internship plus 10 hours of observation.

CTRP 080 C  INTERNSHIP: LAW OFFICE  
2 Units  
Two hours lecture plus  
40 hours in a law office or legal environment plus  
Ten hours of observation.  
Prerequisite: CTRP 072 C. This course offers practical work experience in an approved law office in the County of Orange or Los Angeles. Internship will be scheduled during the semester, depending on available law office openings. This course fulfills partial requirements of the Legal Secretary Certificate and Degree Programs.

CTRP 081 C  INTERNSHIP: COURT REPORTING  
1 - 2 Units (Variable Unit Class)  
Two hours lecture plus  
40 hours in the courtroom or in deposition proceedings plus  
Ten hours of observation.  
Prerequisite: CTRP 047 C. This course offers practical work experience in approved court and deposition proceedings. Internship will be scheduled during the semester, depending on available court and deposition openings. This course fulfills partial requirements of the Court Reporter’s Board.

CTRP 082 C  COMP. AIDED TRANS: ProCAT  
1 Unit  
One hour lecture and  
Three hours laboratory TBA per week.  
Prerequisite: Students must have completed a CAT (Computer-Aided Transcription) dictionary. This course uses computer-based instructions as well as hands-on applications to introduce the court reporting student to ProCAT Computer Aided Transcription software.
CTRP 083 C  COMP. AIDED TRANS: STENOGRAPH
1 Unit
One hour lecture and
Three hours laboratory TBA per week.
Prerequisite: Students must have completed a CAT (Computer-Aided Transcription) dictionary. This course uses computer-based instruction as well as hands-on applications to introduce the court reporting student to Stenograph Computer-Aided Transcription software.

CTRP 084 C  COMP. AIDED TRANS: ECLIPSE
1 Unit
One hour lecture and
Three hours laboratory TBA per week.
Prerequisite: Students must have completed a CAT (Computer-Aided Transcription) dictionary. This course uses computer-based instruction as well as hands-on applications to introduce the court reporting student to ECLIPSE Computer-Aided Transcription software.

CTRP 085 C  COMP. AIDED TRANS: DICT.
BLDG.
1 Unit
One hour lecture and
Three hours laboratory TBA per week.
Prerequisite: Completion of CTRP 043 C. This course will enable court reporting students to start building their personal dictionary using one of several CAT (Computer Aided Transcription) software systems.

CTRP 089 C  COURT & CONF. RPTG.: LIT. II
1/2 - 3 Units (Variable Unit Class) (Open Entry-Open Exit) (May be taken for credit 4 times)
One half to two hours lecture and
One and one half hours to three hours laboratory per week.
Credit/No Credit/Letter Grade Option
Prerequisite: CTRP 044 C. This course is designed to prepare the student to record a variety of literary dictation material at speeds ranging from 140 to 180 wpm. Students will be introduced to a broad spectrum of vocabulary with special emphasis on topics that will lead to a career in Communication Access Realtime Translation (CART) reporting.

CTRP 090 C  COURT/CONF. RPTG: LITERARY
1 - 3 Units (Variable Unit Class) (May be taken for credit 4 times)
(Open Entry-Open Exit)
Two hours lecture and
Three hours laboratory per week.
Prerequisite: CTRP 043 C or 100 words per minute. This course is designed to prepare the student to record a variety of literary dictation material at speeds ranging from 110 to 150 wpm. Students will be introduced to a broad spectrum of vocabulary designed to prepare them for convention reporting, hearing reporting, stenointerpreting, and other alternative careers.

CTRP 091 C  COMPUTERIZED NOTE READING
1 Unit
One hour lecture and
Three hours laboratory per week for nine weeks.
Prerequisite: CTRP 041 C. This course is designed for scopist/computer editors to gain experience in reading other court reporters’ notes. Students will have an opportunity for hands-on learning.

CTRP 092 C  REALTIME WRITING CONCEPTS
2 Units
One hour lecture and
Three hours laboratory per week.
Prerequisite: CTRP 085 C and CTRP 046 C. A programmed approach is used with guided instructions to introduce court reporting students to realtime writing. Students will use their completed electronic dictionary and the appropriate software with which their electronic dictionary is compatible. Students will use hands-on application to write various exercises covering a variety of concepts in realtime.

CTRP 094 C  EXPERT TESTIMONY-PROF REPORTER
2 Units (May be taken for credit 4 times)
Two hours lecture per week.
This class is designed for students and reporters to further develop dictionary refinement and writing skills in realtime. Students must furnish a steno machine, a lap top computer, and other related court reporting supplies.

CTRP 095 C  REALTIME WRITING-PROF REPORTER
2 Units (May be taken for credit 4 times)
Two hours lecture per week.
This class is an advanced realtime writing class designed for students and reporters who studied a non-compatible computer theory. The class focuses on realtime writing concepts and their application to dictionary development, conflict resolution, and non-translates. Students are required to furnish their own steno machine, lap top computer, and other related court reporting supplies.

CTRP 096 C  COURT AND CONF. RPTG.: LIT. III
1 - 3 Units (Variable Unit Class) (May be taken for credit 4 times)
(Open Entry-Open Exit)
Two hours lecture and
Three hours laboratory per week.
Credit/No Credit/Letter Grade Option
Prerequisite: CTRP 046 C or 160wpm. This course is designed to prepare the student to record a variety of literary dictation material at speeds ranging from 180 to 220 wpm. Students will be introduced to a broad spectrum of vocabulary designed to prepare them for convention reporting, hearing reporting, stenointerpreting, and closed captioning.

CTRP 098 C  COURT REPORTING SEMINAR
1/2 - 2 Units (Variable Unit Class) (May be taken for credit 4 times)
Lecture/laboratory hours determined by course offering.
Prerequisite: Determined by subject matter of seminar. This course will utilize a lecture and/or laboratory approach for students enrolled in the Court Reporting Program to increase their knowledge in applied areas. A variety of classes will be offered to increase the student’s knowledge of the court reporting profession by updating content on recent changes and requirements and by preparing for new trends in court reporting.
CTRP 099 C  COURT RPTG. INDEPENDENT STUDY
½ - 2 Units (Variable Unit Class) (May be taken for credit 4 times)
Lecture/laboratory hours determined by course offering.
Credit/No Credit
Prerequisite: Approved Independent Study Learning Contract. The number of class hours or activities per week will be determined by the scope of the topic. The instructor will devise learning strategies to be followed by the student. This course is designed for students who wish to gain further experience, knowledge, or expertise in applied areas of court reporting. Students must obtain permission from the program coordinator to be enrolled in this class. This course does not meet the requirements of the Court Reporting Certificate. This course may be used to fulfill hour requirements as mandated by the Court Reporter's Board.

CTRP 199 C  COURT REPORTING LAB
0 Units
(Open Entry-Open Exit)
This is an open lab course for students who are currently enrolled in the court reporting program. The court reporting lab is equipped with computers, typewriters, video players, tape recorders, stenowriters, and laptop computers for student use in completing assignments related to court reporting class requirements. $3.00 Laboratory Fee - PAYABLE AT REGISTRATION.

DANCE TRANSFER PROGRAM
Students should consult a counselor or www.assist.org for lower division major requirements for most California public universities. (See the Standard Definitions section of the catalog for a description of ASSIST.) Students transferring to an independent college/university should consult the catalog of the individual school and a counselor for lower division major requirements.

Dance (DANC)

DANC 101 C MULTICULTURAL DANCE IN THE US
3 Units
Three hours lecture per week.
UC/CSU, AA GE, CSU GE, IGETC, CUL PL
Social and theatrical dances of the U.S. today will be viewed and examined in terms of cultural influences, historical and social origins, and the functions they fulfill for individual artists, their cultures, and society in general. African American, Asian, Hispanic, European and Native American dances, choreographers and dancers will be studied. The class work will include readings, discussions, group projects, and analysis of dance performances on video and live theater. Attendance at a selected group of performances is required. Cost of dance concert admission will not exceed $30.00.

DANC 102 C CONDITIONING FOR DANCE
1 - 2 Units (Variable Unit Class) (May be taken for credit 4 times)
Two to four hours laboratory per week.
Credit/No Credit/Letter Grade Option
UC Credit Limitation/CSU
This class is designed to prepare a student mentally and physically for dance. Students will learn floor mat exercises and a floor barre to increase flexibility, strength, body alignment and use of turn out. Relaxation and visualization techniques will be covered.

DANC 105 C BALLET
1 - 2 Units (Variable Unit Class) (May be taken for credit 4 times)
Two to four hours laboratory per week.
Credit/No Credit/Letter Grade Option
UC/CSU, AA GE, CSU GE
This course introduces the rudiments of classical ballet to the beginning dance student. The students will develop the strength and coordination to perform the technical skills of basic ballet through barre and center work and by learning simple movement combinations. Ballet terminology will be covered. Dance concert admission will not exceed $10.00.

DANC 106 C CLASSICAL DANCE
1 - 2 Units (Variable Unit Class) (May be taken for credit 4 times)
Two to four hours laboratory per week.
UC/CSU, AA GE, CSU GE
Prerequisite: Demonstrated mastery of beginning level dance technique. This class covers the rudiments of classical dance for the intermediate ballet student. The student will develop technical skills to perform intermediate level steps and combinations of movement. Classical dance terminology will be covered. Dance concert admission will not exceed $10.00.
DANC 107 C  MODERN DANCE  
1 - 2 Units (Variable Unit Class) (May be taken for credit 4 times)  
Two to four hours laboratory per week.  
Credit/No Credit/Letter Grade Option  
UC/CSU, AA GE, CSU GE  
Students will learn basic skills of modern dance with emphasis on body alignment, strength and coordination. Simple movement combinations created to music by new age, jazz and classical composers will be learned. Dance concert admission will not exceed $10.00.

DANC 108 C  FREE FORM DANCE  
1 - 2 Units (Variable Unit Class) (May be taken for credit 4 times)  
Two to four hours laboratory per week.  
UC/CSU, AA GE, CSU GE  
Prerequisite: Demonstrated mastery of beginning level dance techniques. Students will continue to prepare their bodies as an instrument for dance, progressing to longer, faster-paced, more diversified and complex movement combinations. The course work will include some creative dance experiences.

DANC 109 C  DANCE IMPROVISATION  
1 Unit (May be taken for credit 4 times)  
Two hours laboratory per week.  
UC/CSU, CSU GE  
This course is designed to train the mind and body to respond and explore creative movement problems through improvisation. Choreographic concepts will be studied through improvisation.

DANC 110 C  JAZZ DANCE  
1 - 2 Units (Variable Unit Class) (May be taken for credit 2 times)  
Two to four hours laboratory per week.  
Credit/No Credit/Letter Grade Option  
UC/CSU, AA GE, CSU GE  
Students will learn basic skills of jazz dance with emphasis on body alignment, strength and coordination.

DANC 111 C  INTERMEDIATE JAZZ DANCE  
1 - 2 Units (Variable Unit Class) (May be taken for credit 2 times)  
Two to four hours laboratory per week.  
Credit/No Credit/Letter Grade Option  
UC/CSU, AA GE, CSU GE  
Prerequisite: Demonstrated mastery of beginning level dance technique. Class work will deal with technical skills, combinations of steps and the exploration of styles found in television and commercial dance for the intermediate dancer.

DANC 112 C  TAP DANCE I  
1 Unit (May be taken for credit 4 times)  
Two hours laboratory per week.  
Credit/No Credit/Letter Grade Option  
UC/CSU  
Prerequisite: Demonstrated mastery of intermediate dance level technique. This class introduces the basic elements of partnering to the intermediate dancer. The students will develop the strength and coordination to perform the basic skills for both floor partnering and lifts.

DANC 113 C  RHYTHM DANCE  
1 - 1½ Units (Variable unit class) (May be taken for credit 4 times)  
Two to three hours laboratory per week.  
Credit/No Credit/Letter Grade Option  
UC/CSU  
Prerequisite: One semester of DANC 113 C or demonstration of beginning level tap technique. Students will develop skills in rhythm dancing by studying intermediate level movements and combinations with some provision for student composition of dance. Performance skills will be included.

DANC 114 C  HIP HOP DANCE  
1 Unit (May be taken for credit 4 times)  
Two hours laboratory per week.  
Credit/No Credit/Letter Grade Option  
CSU  
Students will learn various forms of beginning hip-hop dancing and acquire a basic history of Hip Hop dancing.

DANC 115 C  DANCE HISTORY  
3 Units  
Three hours lecture per week.  
Credit/No Credit/Letter Grade Option  
UC/CSU, AA GE, CSU GE, IGETC  
Through readings, film and in-class discussion students will study dance from primitive times to present day. Students will also compare various dance techniques, theories and personalities who have contributed to the art. Cost of dance concert not to exceed $10.00.

DANC 116 C  PARTNERING  
1 Unit (May be taken for credit 4 times)  
Two hours laboratory per week.  
UC/CSU  
Prerequisite: Demonstrated mastery of intermediate level technique. This class introduces the basic elements of partnering to the intermediate dancer. The students will develop the strength and coordination to perform the basic skills for both floor partnering and lifts.
DANC 130 C  AFRO-CARIBBEAN DANCE
1 - 2 Units (Variable Unit Class) (May be taken for credit 4 times)
Two hours laboratory per week.
Credit/No Credit/Letter Grade Option
UC/CSU
Students will learn the dance styles and rhythms of African and Caribbean cultures. Dance as an inseparable part of the culture will be discussed. Cost of dance concert not to exceed $10.00.

DANC 131 C  BALLET FOLKLORICO
1 - 2 Units (Variable Unit Class) (May be taken for credit 4 times)
Two to four hours laboratory per week.
Credit/No Credit/Letter Grade Option
UC/CSU
Students will learn combinations based on Mexican folk dances from various regions of Mexico such as Vera Cruz, Jalisco and Pueblo. The cultural background of each dance will be discussed, and students will create a dance using the steps and styles learned in class. Cost of dance concert not to exceed $10.00.

DANC 132 C  FLAMENCO DANCE I
1 - 2 Units (Variable Unit Class) (May be taken for credit 4 times)
Two to four hours laboratory per week.
Credit/No Credit/Letter Grade Option
UC/CSU
Students will study basic Flamenco dance technique and learn movement combinations. This class provides students with the opportunity to develop coordination, rhythm, and performance skills. Some history of Flamenco will be included.

DANC 133 C  DANCE OF ANDALUSIA
1 - 2 Units (Variable Unit Class) (May be taken for credit 4 times)
Two to four hours laboratory per week.
Credit/No Credit/Letter Grade Option
UC/CSU
Prerequisite: DANC 132 C. Students will study the dance of Andalusia, Spain, dance techniques and movement combinations with increasingly difficult rhythmic patterns.

DANC 134 C  LATIN JAZZ
1 - 2 Units (Variable Unit Class) (May be taken for credit 4 times)
Two to four hours laboratory per week.
Credit/No Credit/Letter Grade Option
UC/CSU, AA GE
Students will study and learn basic skills of Latin jazz dance with emphasis on body alignment, strength, and coordination. Students will work on the skills and styles inherent in Jazz dance, Flamenco, Mexican Folklorico and Latin popular rhythms such as Cha Cha Cha, Mambo, Salsa, Merengue, Bolero, Cumbia, Corridos, Flamenco Rumba. Class work will deal with technical skills, combinations of steps and exploration of composition in Latin jazz style.

DANC 136 C  MIDDLE EASTERN DANCE
1 Unit (May be taken for credit 4 times)
Two hours laboratory per week.
Credit/No Credit/Letter Grade Option
UC/CSU
Students will learn the social and stage dances from the Near and Middle East. Course work includes styling, veil work, cymbal playing, improvisation, vocabulary and cultural background of the dances. Cost of dance concert not to exceed $12.00.

DANC 140 C  SUMMER DANCE FESTIVAL
4 - 5 Units (Variable Unit Class) (May be taken for credit 4 times)
Sixteen to Twenty hours of laboratory per week.
CSU
Prerequisite: Audition. The Summer Dance Festival is designed to give both high school and college students the opportunity for intensive study of a variety of dance styles by taking technique classes while rehearsing choreography of faculty and students. All phases of the dance concert process from audition to rehearsal to backstage preparation will be covered.

DANC 202 C  ELEMENTS OF DANCE COMPOSITION AND CHOREOGRAPHY
2 Units (May be taken for credit 4 times)
Two hours lecture and One hour laboratory per week.
UC/CSU
Prerequisite: One semester of DANC 107 C or demonstration of beginning level dance techniques. Students will study the theories and practices involved in basic dance composition. Practical experience in the creation and development of dance composition is continuous throughout the semester.

DANC 203 C  DANCE PRODUCTION
2 - 3 Units (Variable Unit Class) (May be taken for credit 4 times)
Eight to twelve hours laboratory per week.
UC/CSU
This course offers practical experience in the technical aspects of dance production including costume design, set design, makeup, lighting, sound production, and publicity.

DANC 204 C  DANCE REHEARSAL & PERFORMANCE
2 - 3 Units (Variable Unit Class) (May be taken for credit 4 times)
Eight to twelve hours laboratory per week for maximum credit.
UC/CSU
Prerequisite: Audition. Advisory: Concurrent Enrollment in one of the following: DANC 203 C, THEA 149 C, or one from THEA 140 C through THEA 147 C. This course provides the experience of learning and performing choreographic works of faculty, students, and guest artists. All phases of the dance concert process from audition to rehearsal to backstage preparation will be covered.
DANC 205 C   DANCE ENSEMBLE
3 Units  (May be taken for credit 4 times)
Two hours lecture and
Four hours laboratory per week.
UC/CSU
Prerequisite: Audition. Theater and dance students will
intermediate to advanced skill levels will develop their performing
and choreographic skills, learn the basics of fund raising and
promotion of dance while performing at K-12 schools, com-
munity events and dance festivals.

DANC 208 C   POINTE CLASS
1 Unit  (May be taken for credit 4 times)
Two hours laboratory per week.
UC/CSU
Prerequisite: Audition at first class meeting. Students will
learn exercises to develop the strength and coordination to
perform ballet steps in pointe shoes. Proper shoe fit, injury
prevention and correct body alignment will be covered.

DANC 212 C   DANCE FOR STAGE, FILM & VIDEO
1 - 2 Units  (Variable Unit Class)  (May be taken for
credit 4 times)
Two to four hours laboratory per week.
UC/CSU
Prerequisite: Demonstrated mastery of intermediate level
dance technique. This class is designed for the technically
strong dancer. Class work will include instruction in perfor-
ance techniques and various styles of dance used in film,
stage and music videos.

DANC 214 C   DANCE REPERTORY
2 - 3 Units  (Variable Unit Class)  (May be taken for
credit 4 times)
Eight to twelve hours laboratory per week for maximum
credit.
UC/CSU
Prerequisite: Audition. Advisory: Concurrent enrollment in
one of the following: DANC 203 C, THEA 149 C, or one from
THEA 140 C through THEA 147 C. This course provides the
opportunity to rehearse and perform works choreographed
by faculty and/or artist-in-residence under professional work-
ing conditions and requirements. All phases of the dance
concert process from audition to rehearsal to backstage
preparation will be covered.

DANC 215 C   COMMERCIAL DANCE
1 - 2 Units  (Variable Unit Class)  (May be taken for
credit 4 times)
Two to four hours laboratory per week.
CSU
Prerequisite: Demonstration of advanced level dance tech-
nique or by audition. This class is designed for the experi-
enced and technically advanced dancer. Class work will
include instruction in performance techniques and combina-
tions required for television as well as musical comedy dance
performance.

DANC 230 C   DANCE TEACHING
METHODOLOGIES
3 Units
Two hours lecture and
Two hours laboratory per week.
CSU
Prerequisite: Demonstrated mastery of intermediate level
dance technique. Dance teaching methodologies will be
studied and applied as appropriate for teaching in private
dance studios and community centers. Subject matter will
include movement principles, creation of movement
sequences, analysis of music and the creation of lesson
plans for a variety of dance forms.

DANC 296 C   DANCE OPEN LABORATORY
1 - 6 Units  (Variable Unit Class)  (May be taken for
credit 4 times)
(Open Entry/Open Exit)
Two to twelve hours laboratory per week.
UC Credit Limitation/CSU
This is an open entry/open exit class for students to obtain
production experience in dance through dancing, choreo-
graphing, technical work, management, and publicity.

DANC 298 C   DANCE SEMINAR
½ - 3 Units  (Variable Unit Class)  (May be taken for
credit 4 times)
Hours will vary with credit given.
UC Credit Limitation/CSU
Prerequisite: May be required. Various classes may be
offered which are designed to meet the interests and needs
of students and faculty.

DANC 299 C   DANCE - INDEPENDENT STUDY
½ - 2 Units  (Variable Unit Class)  (May be taken for
credit 4 times)
One to four hours per week for maximum credit.
UC Credit Limitation/CSU
Prerequisite: Approved Independent Study Learning Con-
tact. This course is for advanced students who wish to
increase their knowledge of dance and/or performance
through individual study or research. Unit credit may range
from one-half to two units in any given semester.

REGISTERED DENTAL ASSISTANT
The one-year Registered Dental Assistant (RDA) program includes patient care, experiences in a fully equipped on-site facility, and externship experiences in clinics and dental offices. The Cypress College Dental Assistant program is accredited by the Commission on Dental Accreditation, and has been granted the accreditation status of approval with reporting requirements. The Commission is a specialized accrediting body recognized by the Commission on Recognition of Postsecondary Accreditation and by the United States Department of Education.

At the completion of the program the student will be certified by the State of California to take x-rays, and will be eligible to take the California Registered Dental Assistant’s Examination and the National Certification Examination for Dental Assistants. Upon successful completion of the California RDA Examination the student will be licensed to perform all of the expanded functions in the California Dental Practice Act.

Registered Dental Assistants are highly valued by the dental professions and have a choice of work environments from private offices to hospitals and clinics. They are involved in a variety of duties including managing the front office, preparing the patient, taking radiographs, mixing dental materials, and now with expanded functions, not only assisting chairside, but performing certain procedures in the mouth.

PROGRAM GOALS AND OBJECTIVES
The goals and objectives of the Cypress College Dental Assistant Program are the following:

1. To provide the student with the academic knowledge and skill, and competence necessary to qualify for both the National Certification Exam and the California State Registered Dental Assistant Exam.

2. To prepare the student for dental assisting entry-level employment as an integral member of the dental health team.

THE CYPRESS COLLEGE DENTAL ASSISTANT PROGRAM OBJECTIVES ARE TO:

1. Provide a dental assisting program to meet challenges presented by demographic changes of the current decade.

2. Promote a dental assisting curriculum that helps build student’s educational and career goals in a success-oriented learning environment.

3. To provide students with the academic resources and clinical experiences to perform the functions approved by the California Dental Practice Act for a Registered Dental Assistant with competence and judgment.

4. Prepare the student to qualify for certification in Radiology Safety and Coronal Polishing.

5. Prepare the student to attain laboratory competency in the ultrasonic removal of excess cement from coronal surfaces of teeth under orthodontic treatment.

6. Maintain a positive communication network between the advisory committee, dental community, and dental assistant program alumni.

7. To create a safe learning environment in compliance with federal and California state standards and regulations.

MINIMUM STANDARD
1. High School graduation or completion of the General Education Development test (GED) or passing of high school proficiency examination.

2. Minimum age of 17 years. (RDA licensure requires candidate to be a minimum age of 18 years).

3. Completion of ENGL 058 C/ESL 185 C or a comparable course, with grade of “C” or better, or submission of test scores that indicate eligibility for ENGL 060 C/ESL 186 C.

APPLICATION PROCEDURES
1. Meet with a counselor to determine fulfillment of the English requirements. Examples of ways to meet these requirements include taking the English assessment test at Cypress or another college and scoring into ENGL 060 C or ESL 186 C, or completing ENGL 058 C or ESL 185 C at Cypress or a comparable course at another college, with a grade of “C” or better.

2. Complete the Dental Assistant program application which may be obtained from the Health Science Counseling Office, Health Science Building, Cypress College, 9200 Valley View, Cypress, CA 90630. Applications are available February 1 until the program is full.

3. Attach an unofficial copy of your high school transcript, diploma or GED test or high school proficiency examination to the Dental Assistant application.

4. Submit a Cypress College application to the Admissions and Records Office. Fall applications may be submitted beginning March 1.

5. Enrollment is limited to the first 30 qualified applicants.

SELECTION PROCEDURES
Priority will be given to those students who have completed the minimum standards for application.
ASSOCIATE IN SCIENCE DEGREE
REGISTERED DENTAL ASSISTING
This program is designed to enable a student to receive a Dental Assisting Associate in Science Degree. To earn an Associate Degree students must complete all graduation requirements to include: (1) all major course requirements with a “C” or better; (2) 25 units of General Education Graduation Requirements; (3) the cultural pluralism and reading requirements; (4) any elective courses to complete a minimum of 60 units; and, (5) have a minimum GPA of 2.0. At least 50% of all major course work must be completed at Cypress College.

Required Courses are listed in suggested sequence. The following courses must be completed with a minimum grade of “C” to continue in the program.

Total Units Required 29 1/2

All General Education units may be taken prior to enrollment in the program or at the completion of the Certificate Program.

DENTAL ASSISTING CERTIFICATE
Upon completion of the 29 1/2 units of Dental Assistant course work, as listed for the Dental Assistant Associate of Science Degree, the student becomes eligible to apply for the Registered Dental Assistants Examination. To earn a certificate, complete the required major courses as listed for the Dental Assistant Associate Degree with a minimum grade of “C”.

Dental Assistant (DA)
DA 016 C DENTAL MATERIALS
3 Units
Two hours lecture and
Three hours laboratory per week.
Prerequisite: Acceptance into the Dental Assistant Program.
A study of the structure, chemical and physical properties and manipulation of materials used in dentistry will be covered. Laboratory application of dental materials and the relationship of dental materials to the oral environment is included. Emphasis in this course is on specific materials and functions delegated to the registered dental assistant by the State of California. $25.00 Laboratory Fee - PAYABLE AT REGISTRATION.

DA 058 C CLINICAL EXTERNSHIP I
1½ Units
One hour lecture and
Six hours laboratory per week for nine weeks.
Prerequisite: Acceptance in the Dental Assistant Program.
Dental Assistant students work with senior dental students in the Dental Clinic at the University of Southern California under the supervision of a Cypress College faculty member.

DA 059 C CLINICAL EXTERNSHIP II
3 Units
One hour lecture and
Six hours laboratory per week.
Prerequisite: Acceptance in the Dental Assistant Program and completion of first semester. This is the second in a series of clinical externships. The emphasis is on advanced skills and training for the dental assistant.

DA 061 C ORAL ANATOMY/DENTAL ASSISTANT
3 Units
Three hours lecture per week.
Prerequisite: Acceptance in the Dental Assistant Program.
This course prepares the student with the basic dental sciences in order to relate and demonstrate dental chairside procedures. Content includes dental anatomy and physiology, oral embryology and oral histology, tooth morphology, and oral pathology related to sterilization, pharmacology, and pain control.

DA 062 C PREVENTIVE DENTAL HEALTH
2 Units
Two hours lecture per week.
Prerequisite: Acceptance in the Dental Assistant Program.
This course deals with the concepts of dental health and total patient care. This is accomplished by providing instruction and practice of oral hygiene, production of plaque (etiological factors and effective removal of), applied nutrition, and developing a patient education program. In addition, this course covers management of dental and medical emergencies, taking and evaluating a medical/dental history, and systemic diseases with dental care implications.

DA 063 C CHAIRSIDE ASSISTING I
3 Units
Two hours lecture and
Three hours laboratory per week.
Prerequisite: Acceptance in the Dental Assistant Program.
This course provides lecture and laboratory instruction in chairside assisting, including history of dentistry, the dental health team, pre-clinical knowledge and entry-level skills for the assistant, advancing to the application of theoretical knowledge, and principles of restorative dentistry. In addition, students will be provided with a thorough knowledge of infection control in the central environment. Principles and fundamentals of infection control, clinical procedures, sterilization and disinfection will be covered. Content and skills will progress in relation to the complexity of the procedures as the student gains practical experience. $20.00 Laboratory Fee - PAYABLE AT REGISTRATION.
DA 065 C  RADIOLOGY, DENTAL ASSISTANTS  
3 Units  
Two hours lecture and  
Three hours laboratory per week.  
Prerequisite: Enrollment in Dental Assistant program or practicing Dental Assistant enrolled in class to meet state certification. This course covers the didactic, pre-clinical on mannequins and clinical instruction on patients required by the California State Practice Act in regard to radiation safety. Upon successful completion of the course, the student will be certified to take x-rays on patients in the dental office. The student will complete 72 (seventy-two) hours of instruction (two hour lecture, three hours laboratory per week) to meet state requirements. $60.00 Laboratory Fee - PAYABLE AT REGISTRATION.

DA 066 C  CLINICAL DENTAL RADIOLOGY  
1 Unit  
Three hours clinical laboratory per week.  
Prerequisite: Enrollment in the Dental Assistant Program. This course provides advanced clinical instruction on the exposure of intraoral and extroral radiographs. The bisecting angle technique; paralleling technique; panellipse machine; and adjunct dental radiology aids will be utilized. Emphasis in this course is placed upon the student’s performance and demonstrated ability to consistently produce diagnostic radiographs. $40.00 Laboratory Fee - PAYABLE AT REGISTRATION.

DA 067 C  DENTAL SPECIALTIES  
3 Units  
Two hours lecture and  
Three hours laboratory per week.  
Prerequisite: Enrollment in the Dental Assistant Program and successful completion of all first semester courses. This course provides instruction in the principles and procedures to function in the specialty area of dentistry: orthodontics, periodontics, endodontics, pedodontics, prosthodontics, and oral surgery. It also provides information and clinical practice in those functions legally delegated to the Dental Assistant and Registered Dental Assistant in the California Dental Practice Act. It includes rules and regulations implemented by the Board of Dental Examiners pertaining to licensure. $23.00 Laboratory Fee - PAYABLE AT REGISTRATION.

DA 068 C  CHAIRSIDE ASSISTING II  
3 Units  
Two hours lecture and  
Three hours laboratory per week.  
Prerequisite: Enrollment in the Dental Assistant Program and successful completion of the first semester courses and/or an employed dental assistant. This course provides instruction in the principles, instrumentation, and procedures to function as a Registered Dental Assistant according to the legal stipulation in the California Dental Practice Act and implemented by the Board of Dental Examiners.

DA 069 C  CLINICAL EXTERNSHIP III  
2 Units  
Eight hours in offices per week.  
Prerequisite: Enrollment in the Dental Assistant Program and successful completion of first semester. A minimum of eight hours per week will be spent in rotations in dental offices as well as the VA Hospital, Long Beach. Students will assist the dentist in general practice. At the VA, the student will assist in the Periodontal and Endodontic Departments gaining experience in dental specialties and expanded duties.

DA 070 C  DENTAL OFFICE PROCEDURES  
2 Units  
Two hours lecture per week.  
Prerequisite: Acceptance in Dental Assistant Program. This course is designed to provide instruction, both didactic and practical application, in the skills and responsibilities of a dental administrative assistant. In addition, the students will be trained to use the Dentrix Dental Software program to become knowledgeable in all areas of practice management utilizing the computer. These areas include patient files, charting and treatment planning, appointment scheduling, reports and insurance claim processing. $3.00 Laboratory Fee - PAYABLE AT REGISTRATION.

DA 079 C  CAREERS IN DENTISTRY  
1 Unit  
(Same as HS 079 C)  
One hour lecture per week.  
Credit/No Credit/Letter Grade Option  
This course will provide the student with an exposure to various aspects of the profession of dentistry; the duties and responsibilities of each profession will be discussed, including dentistry, dental hygiene, dental assisting and dental technology.

DA 099 C  DENTAL ASSISTING INDEP. STUDY  
½ - 2 Units (Variable Unit Class) (May be taken for credit 4 times)  
Varying hours of scheduled conferences or clinics per week according to instructor.  
Credit/No Credit/Letter Grade Option  
Prerequisite: Approved Independent Study Learning Contract. This course is designed for students with background/experience in Dental Assisting who wish to increase their knowledge and experience in applied areas. Students will participate in independent study on assigned areas under staff supervision.

ASSOCIATE IN SCIENCE DEGREE DENTAL HYGIENE
The Cypress College Dental Hygiene Program is accredited by the Commission on Dental Accreditation, and has been granted the Accreditation status of approval without reporting. The Commission is a specialized accrediting body recognized by the United States Department of Education and the Council on Higher Education Accreditation. This program offers a curriculum that provides the student with the appropriate academic instruction to achieve eligibility for the National Board of Dental Hygiene Examiners written examination, and the California State Board Examination for licensure as a Registered Dental Hygienist, qualifying the candidate as stipulated in the California Dental Practice Act.

To earn an Associate Degree students must complete all graduation requirements to include: (1) all major course requirements with a “C” or better; (2) 25 units of General Education Graduation Requirements; (3) the cultural pluralism and reading requirements; (4) any elective courses to complete a minimum of 60 units; and, (5) have a minimum GPA of 2.0. At least 50% of all major course work must be completed at Cypress College.

PROGRAM GOAL
The goal of the Cypress College Dental Hygiene Program is to provide the student with the educational opportunity to attain the knowledge and skills necessary to qualify for licensure as a Registered Dental Hygienist, and a professional member of the allied health team.

PROGRAM OBJECTIVES
1. Create a learning environment which promotes a quality education for the student’s academic success.

2. Prepare the student to deal effectively with changes in demographics, cultural diversity, information technology and scientific advancement in dental hygiene practice and health care delivery.

3. Promote learning experiences that support a scientific approach to problem solving, and develop the critical thinking skills needed for professional and ethical judgments.

4. Provide the information necessary to establish a clinical or laboratory environment which maintains optimal infection control for safe learning and working conditions.

5. Encourage research and innovation within the dental hygiene profession and application of research principles to clinical practice and professional advancement.

6. Promote clinical competence by introduction of diverse patient experiences and diverse clinical facilities.

7. Provide an educational environment which incorporates data on the latest technologies available in research, equipment and facilities.

8. Discern current information pertinent to the practice of dental hygiene through liaison with the dental community and dental hygiene professionals.

MINIMUM STANDARDS FOR APPLICANTS
1. Eligibility for admission to Cypress College.

2. High school graduation or completion of the General Education Development (GED) test or passing of high school proficiency examination.

3. GPA of 2.5 or higher in all college work completed.

4. Evidence of good physical and mental health as determined by medical examination upon admission to the program and prior to enrollment.

5. Completion of specific science courses with a minimum of “C” grade and overall GPA of 2.5. See list below.

6. Completion of nine units of specific related courses prior to application. See list below.

PREREQUISITES
The following courses must be completed with a minimum grade of “C” and an overall GPA of 2.5

1. Science: All courses must be completed within five years of filing the initial application. Two courses must be completed prior to application; the remainder must be completed no later than the end of the spring semester prior to enrollment in the fall program.

Required courses are listed in suggested sequence:

<table>

SELECTION PROCEDURE
Applications normally exceed capacity. Selection of applicants is based on accumulation of points. Criteria are available in the Health Science Counseling Office. Criteria are subject to change. It is the applicant’s responsibility to verify that evidence of criteria is on file at Cypress College.

APPLICATION PROCEDURES
1. Application packets must be completed in person at the Health Science Counseling Office, Health Science Building, Cypress College, 9200 Valley View, Cypress, CA 90630.

2. Application must be made during the month of February for the following Fall enrollment.
DENTAL HYGIENE CURRICULUM

Dental Hygiene courses must be taken in a specific sequence. Students must obtain a minimum grade of “C” or better in all courses listed in the Dental Hygiene Curriculum to continue in the program. Refer to the General Education Requirement of the college to obtain an Associate Degree.

Upon completion of the Dental Hygiene curriculum listed below and the general education requirements, the student will be eligible for an Associate Degree from Cypress College. Those students who have previously earned an Associate Degree and have completed all the Cypress College Dental Hygiene curriculum requirements will be eligible for a Certificate in Dental Hygiene.

Required Courses are listed in specific sequence:

*May be completed prior to enrollment in the Dental Hygiene Program and must be completed within five years of filing the application and prior to the third semester of the Dental Hygiene Program.

DENTAL HYGIENE CERTIFICATE

Students who have previously earned an Associate Degree and have completed all the Cypress College Dental Hygiene curriculum requirements will be eligible for a Certificate in Dental Hygiene. To earn a certificate, complete the required courses as listed with a minimum grade of “C”. At least 50% of all course work must be completed at Cypress College.

PRE-DENTAL HYGIENE TRANSFER PROGRAM

Students should consult a counselor or www.assist.org for lower division major requirements for most California public universities. (See the Standard Definitions section of the catalog for a description of ASSIST.) Students transferring to an independent college/university should consult the catalog of the individual school and a counselor for lower division major requirements.

Dental Hygiene (DH)

DH 101 C DENTAL ANATOMY & MORPHOLOGY

2 Units
Two hours lecture per week.

Prerequisite: Enrollment in the Dental Hygiene program and all Dental Hygiene program semester 1 courses. This course presents a study in dental anatomy, morphology, and occlusion essential to the proper care of patients during clinical treatment. An emphasis will be placed on the proper identification of oral and dental structures, the utilization of proper terminology, the recognition of normal occlusion in contrast to malocclusion and the clinical significance of temporomandibular joint dysfunction.

DH 104 C ORAL HEALTH ASSESSMENT

3 Units
Three hours lecture per week.

Prerequisite: Current enrollment in the Dental Hygiene Program. This course is a multifaceted course that presents foundation information skills for the beginning student clinician to utilize daily in direct patient care. Primarily, it is an introduction to the recognition, gathering and interpretation of assessment data as an aid to formulating checklist dental hygiene treatment plans. In addition, it provides the basics to dental disease prevention through the dissemination and application of existing dental health knowledge through chairside instruction.

DH 106 C RADIOLOGY TECH./HYGIENISTS

3 Units
Two hours lecture and
Three hours laboratory per week.

Prerequisite: Enrollment in the Dental Hygiene Program. This course for dental hygiene students includes didactic and preclinical instruction in the essential of dental radiography. Lecture emphasizes the technical aspects of radiation production, protection against the hazards of radiation, and utilization of radiographs during patient care. The laboratory provides demonstrations and practical application in the fundamentals of intraoral and extraoral radiographic techniques, processing, mounting and identification of normal anatomical landmarks. $66.00 Laboratory Fee - PAYABLE AT REGISTRATION.
DH 109 C  PRE-CLINICAL DENTAL HYGIENE
4 1/2 Units
Two and one half hours lecture and
Six hours laboratory per week.
CSU
Prerequisite: Enrollment in the Dental Hygiene program and all
support courses. This is the first in a series of four courses
designed to prepare the student for clinical dental hygiene
practice. An emphasis will be on maintenance of aseptic tech-
nique/infection/hazard control, care and operation of dental
equipment, identification and purpose and function of basic
instrumentation skills, instrument sharpening, polishing agents
and methods, topical fluoride application, clinic forms and pro-
cedures, clinic duties, and clinical practice utilizing examination
procedures and scaling techniques on student patient part-
ners. $63.00 Laboratory Fee - PAYABLE AT REGISTRATION.

DH 110 C  CLINICAL DENTAL HYGIENE
6 Units
One hour lecture and
Three hours laboratory and
Twelve hours clinic per week.
CSU
Prerequisite: Current enrollment in Dental Hygiene program
and successful completion of all first semester courses; DH
109 C. This is the second in a series of four courses
designed to prepare the student for clinical dental hygiene
practice. Emphasis is placed on perfecting oral inspection
and medical/dental health history documentation, and devel-
opment of dental hygiene treatment plans. Additional course con-
tent includes: introduction to universal curet instrumentation
and sharpening techniques, root debridement techniques,
oral and subgingival irrigation, gingival curettage, introduc-
tion to hoe and file instrumentation, introduction to ultrasonic
instrumentation and air polishing. Clinical skills will be
demonstrated and evaluated on clinical patients appointed in
the Cypress College Dental Hygiene Clinic.

DH 113 C  GENERAL AND ORAL PATHOLOGY
2 Units
Two hours lecture per week.
CSU
Prerequisite: Current enrollment in Dental Hygiene program
and successful completion of all first semester courses. This
course introduces students to concepts of oral pathology and
specific pathologic processes, including inflammatory and
immunologic defenses, as well as neoplastic, metabolic,
herited and developmental disturbances. A summary of
each condition is presented and includes information to aid
the Dental Hygienist in developing a clinically useful differen-
tial diagnosis.

DH 115 C  ESSENTIALS OF NUTRITION FOR
THE DENTAL HEALTH PROFESSIONAL
2 Units
Two hours lecture per week.
CSU
Prerequisite: Current enrollment in the Dental Hygiene pro-
gram and successful completion of first semester courses.
This course is designed to provide knowledge in nutrition and
biochemistry. Instruction will emphasize the principles of
nutrition, their application to dental health instruction, nutri-
tional counseling, dental survey, and patient nutritional
assessment.

DH 116 C  DENTAL MATERIALS/HYGIENISTS
2 Units
One hour lecture and
Three hours laboratory per week.
CSU
Prerequisite: Current enrollment in the Dental Hygiene pro-
gram and successful completion of first semester courses.
The structure, chemical and physical properties, and manip-
ulation of materials used in dentistry will be covered. Labora-
tory application of dental materials and the relationship of
dental materials to the oral environment is included. Empha-
sis will be placed on specific materials and functions dele-
gated to the registered dental assistant and dental hygienist
by the State of California. $25.00 Laboratory Fee - PAYABLE
AT REGISTRATION.

DH 125 C  PERIO PATHOLOGY & THERAPY
2 Units
Two hours lecture per week.
CSU
Prerequisite: Current enrollment in the Dental Hygiene pro-
gram and successful completion of first semester courses.
This course is designed to provide the dental hygiene stu-
dent with current theory in periodontics. The healthy peri-
odontium as well as the diseased states will be explored.
New surgical concepts and techniques in periodontics will be
discussed. The management of periodontics to clinical treat-
ment will be emphasized.

DH 220 C  CLINICAL DENTAL HYGIENE
6 Units
One hour lecture and
Sixteen hours laboratory per week.
CSU
Prerequisite: Sophomore standing in the Dental Hygiene pro-
gram. This is the third in a series of four courses designed
to prepare the student for clinical dental hygiene practice.
Lecture and clinical instruction will be applied by experience
on clinical patients in the Cypress College Dental Hygiene
facility and off campus clinical site, and/or an enriching facil-
ity. An emphasis will be placed on the assimilation and uti-
lization of previous instruction and demonstration of progres-
sive learning. This course also emphasizes the performance
of those expanded duties in dental hygiene as allowed by the
California State Dental Practice Act and the progressive
development of professional and managerial skills. $23.00
Laboratory Fee - PAYABLE AT REGISTRATION.

DH 221 C  CLINICAL DENTAL HYGIENE
6 Units
One hour lecture and
Sixteen hours laboratory per week.
CSU
Prerequisite: Sophomore standing in the Dental Hygiene pro-
gram; DH 220 C. This is the final course in clinical dental
hygiene designed to prepare the student for clinical dental
hygiene practice and to provide students advanced instruction
in patient care. Lecture and clinical instruction will be applied
by clinical experience on clinical patients in the Cypress Col-
lege Dental facility and off campus clinical site, and/or an
enriching facility. An emphasis will be placed on: (1) periodon-
tal therapy, (2) supportive periodontal treatment, (3) expanded
and supportive periodontal treatment, (3) expanded and sup-
portive procedures, (4) treatment planning, (5) organization
and implementation of a Student Research presentation/Table
Clinic, and (6) the completion and presentation of a Case Pre-
sentation of extensive and comprehensive dental hygiene
treatment of a patient.
DH 230 C  DENTAL SPECIALTIES
2 Units
Two hours lecture per week.
CSU
Prerequisite: Sophomore standing in the Dental Hygiene program. This is a study of the dental hygienist's role within the various dental practices. Each dental specialty practice is studied to establish a proper perspective of dental hygiene in relationship to dentistry and to have a greater comprehension of total patient care.

DH 240 C  COMMUNITY ORAL HEALTH I
2 Units
Two hours lecture per week.
CSU
Prerequisite: Sophomore standing in the Dental Hygiene program. This is the first of two courses designed to provide the student with the knowledge and experience necessary to work within the community in the area of public health. Emphasis will be placed on developing a community health project, use of statistics, and the development of teaching strategies for use in the classroom. Students are expected to work with target groups within the community.

DH 241 C  COMMUNITY ORAL HEALTH II
2 Units
Two hours lecture per week.
CSU
Prerequisite: Sophomore standing in the Dental Hygiene program; DH 240 C. This course is the second of two courses in Community Oral Health to develop principles and practices of dental public health. Emphasis of instruction will be placed on community-wide problems such as water fluoridation and the delivery of care. Students will participate in target groups within the community.

DH 245 C  DENTAL JURISPRUDENCE
2 Units
Two hours lecture per week.
CSU
Prerequisite: Sophomore standing in the Dental Hygiene program. This course offers a study of the fundamental factors necessary to conduct a well-regulated practice based on sound dental management principles within the legal and ethical framework of the State Dental Practice Act. Emphasis is placed on the historical aspects of dental hygiene, the ethical and legal responsibilities of the dental hygienist, interpersonal relations among members of the dental team, and patient-office relationships.

DH 248 C  MEDICAL/DENTAL EMERGENCIES
1 Unit
One hour lecture per week.
CSU
Prerequisite: Enrollment in Dental Hygiene Program or Registered Dental Hygienist. This course will provide the graduating student with a consolidation of information concerning medical/life threatening situations within the dental setting. Early recognition of clinical signs and symptoms, emergency treatment of the condition and CPR Re-certification will be included in this course.

DH 250 C  PHARMACOLOGY
2 Units
Two hours lecture per week.
CSU
Prerequisite: Sophomore standing in the Dental Hygiene program. This course includes the principles of drug interaction with living tissue (pharmacodynamics) and the time course of drugs within living organisms (pharmacokinetics); drug effects on the cardiovascular, autonomic, and central nervous systems; drug management of anxiety, pain and infection as related to dental practice and the harmful aspects of drugs (toxicology).

DH 255 C  DENTAL ANESTHESIOLOGY
2 Units
One hour lecture and Three hours laboratory per week.
CSU
Prerequisite: Sophomore standing in the Dental Hygiene Program. This course includes the theory and techniques of administration of local anesthesia and sedation in dentistry as related to the State Dental Practice Act. The student will administer local anesthesia and nitrous oxide-oxygen sedation in the clinical setting as a component of comprehensive patient care.

DH 260 C  DENTAL CARE FOR SPECIAL NEEDS
2 Units
Two hours lecture per week.
CSU
Prerequisite: Sophomore standing in the Dental Hygiene program; DH 240 C. This course is the second of two courses in Community Oral Health to develop principles and practices of dental public health. Emphasis of instruction will be placed on community-wide problems such as water fluoridation and the delivery of care. Students will participate in target groups within the community.

DH 275 C  CLINICAL DENTAL HYGIENE
½ Unit (May be taken for credit 3 times)
One and one half hours laboratory per week.
Credit/No Credit
CSU
Prerequisite: DH 110 C. This is a clinical course in dental hygiene designed to provide students advanced instruction in patient care. An emphasis will be placed on treatment planning, and clinical instrumentation. This course provides the student with 24 hours of clinical instruction.

DH 299 C  DENTAL HYGIENE INDEP. STUDY
½ - 2 Units (Variable Unit Class) (May be taken for credit 3 times)
Lecture/laboratory hours vary according to units given.
Credit/No Credit/Letter Grade Option
CSU
Prerequisite: Approved Independent Study Learning Contract. This course is designed for students enrolled in the Dental Hygiene Program who wish to increase their knowledge and experience in applied areas. Students will participate in independent study on assigned areas under staff supervision.
Dentistry

DENTISTRY TRANSFER PROGRAM
Professional programs such as dentistry, medicine, pharmacy, optometry, physician assistant, physical therapy and veterinary medicine are most often graduate programs that require a bachelor degree or significant preparation prior to entering the program. The appropriate preparation varies according to the school and specific program. Students are advised to meet with a counselor to discuss options for their bachelor degree and the lower division requirements for the program and school of their choice.

ECONOMICS TRANSFER PROGRAM

MOST CALIFORNIA STATE UNIVERSITIES
Students should consult a counselor or www.assist.org for lower division major requirements for most California public universities. (See the Standard Definitions section of the catalog for a description of ASSIST.) Students transferring to an independent college/university should consult the catalog of the individual school and a counselor for lower division major requirements.

Economics (ECON)

ECON 100 C PRINCIPLES OF ECONOMICS (MACRO)
3 Units

Three hours lecture per week.
Credit by Examination
UC Credit Limitation/CSU, CSU GE, IGETC, CAN ECON 2

The course concentrates on macroeconomic analysis. Topics emphasized are aggregate supply/demand concepts, economic aggregates and the overall functioning of the American economy, with special emphasis on the role of the government. The course includes national income accounting, employment theory, business cycles, fiscal and monetary policy and economic growth. Duplicate credit not granted for ECON 100HC.

ECON 100HC HONORS PRINCIPLES OF ECONOMICS (MACRO)
3 Units

Three hours lecture per week.
UC Credit Limitation/CSU, CSU GE, IGETC

The course is an enhanced study of macroeconomics, focusing on the structure and operation of the American economy. Special topics include simulated practice of fiscal and monetary policy, and web-site updates of statistical economics. Duplicate credit not granted for ECON 100 C.

ECON 105 C PRINCIPLES OF ECONOMICS (MICRO)
3 Units

Three hours lecture per week.
Credit by Examination
UC Credit Limitation/CSU, CSU GE, IGETC, CAN ECON 4

This course concentrates on microeconomic analysis. Topics emphasized are basic structure of the United States economic system, and interrelationships within this structure. The course includes a study of supply and demand, price determination, the market models, resource pricing and allocation, comparative economic systems, and foreign trade/exchange analysis. Duplicate credit not granted for ECON 105HC.

ECON 105HC HONORS PRINCIPLES OF ECONOMICS
3 Units

Three hours lecture per week.
UC Credit Limitation/CSU, CSU GE, IGETC

This course is an enhanced study of microeconomics analysis with special attention given to web-based interactive material on topics such as: price determination; the market models; comparative economic analysis; and international trade and finance. Duplicate credit not granted for ECON 105 C.
ECON 110 C  SURVEY OF ECONOMICS
3 Units
Three hours lecture per week.
Credit/No Credit/Letter Grade Option
UC Credit Limitation/CSU, AA GE, CSU GE, IGETC
Economics 110 C is a survey of the American economic system, with the purpose of developing a level of economic education sufficient for a citizen's understanding of economic issues. Includes price determination, the role of government in economic activity, and economic relations of the United States with foreign nations. Economics 110 C does not meet the course requirements for majors in economics and business administration. No UC credit if taken after ECON 100 C or ECON 105 C.

ECON 130 C  CONSUMER ECONOMICS
3 Units
Three hours lecture per week.
Credit/No Credit/Letter Grade Option
CSU
The student will examine practical consumer choices involving gathering information, spending money, saving/investing and other consumer choices. Emphasis will be given to daily consumer applications of beneficial consumer behavior.

ECON 260 C  ECONOMIC GEOGRAPHY
3 Units
(Same as GEOG 260 C)
Three hours lecture per week.
UC/CSU, CSU GE, IGETC
Investigation and interpretation of the world's economic organization, its natural resources, raw material, crop and crop production, manufacturing and service industries, new trends in producing, and the changing centers of production and consumption are covered in this course.

ECON 298 C  ECONOMICS SEMINAR
½ - 3 Units (Variable Unit Class) (May be taken for credit 4 times)
Lecture/discussion hours will vary with credit given.
UC Credit Limitation/CSU
Prerequisite: May be required. (See class schedule).
This is a lecture/discussion type course developed on a particular limited problem or topic of interest to students. It is designed for able students who wish to increase their knowledge of a particular topic concerning which no other regular class is offered. A paper or group activity may be requested. Credit may range from ½ unit to 3 units. Consult class schedule for the offerings in a particular semester.

ECON 299 C  ECONOMICS INDEPENDENT STUDY
1 Unit (May be taken for credit 3 times)
Varying hours of scheduled conferences per week according to instructor.
UC Credit Limitation/CSU
Prerequisite: Approved Independent Study Learning Contract. Independent study is for able students who wish to extend their knowledge of a particular area through individual research and study. It is thought that topics might develop out of a curiosity stimulated in a regular class. The student would then contact the supervising instructor to develop a contract for his/her particular interest so that they could learn more regarding their special topic.

Electricity (ELEC)
ELEC 051 C  BASIC ELECTRICITY
2 Units
Two hours lecture and
Two hours laboratory per week.
Credit/No Credit/Letter Grade Option
This course provides a non-mathematical treatment of AC and DC circuits including the following: current, voltage, resistance, power, magnetism, relays, motors, generators, automotive electrical system, rectifying circuits, and the use of the oscilloscope and related test equipment. This course is not open to those who have completed a previous college course in electricity or electronics and cannot be counted toward the electronic engineering technology major.

ASSOCIATE IN SCIENCE DEGREE
PRE-ENGINEERING

This Pre-Engineering program is designed to prepare students for junior standing at most CSU and UC institutions.

To earn an Associate Degree students must complete: (1) all major course requirements with a minimum grade of “C”; (2) 25 units of General Education Graduation Requirements; (3) the cultural pluralism and reading requirements; (4) any elective courses to complete a minimum of 60 units; and, (5) have a minimum GPA of 2.0. At least 50% of all major course work must be completed at Cypress College.

Required courses are listed in suggested sequence:

ENGINEERING TRANSFER PROGRAM

Students should consult a counselor or www.assist.org for lower division major requirements for most California public universities. (See the Standard Definitions section of the catalog for a description of ASSIST.) Students transferring to an independent college/university should consult the catalog of the individual school and a counselor for lower division major requirements.

Engineering (ENGR)

ENGR 102 C  ENGINEERING GRAPHICS

3 Units

Two hours lecture and
Four hours laboratory per week.

UC/CSU, CAN ENGR 2

Prerequisite: ENGT 101 C and MATH 020 C, or equivalent high school mathematics, with a grade of “C” or better. Descriptive geometry methods for drawing of points, lines, planes, plane intersections and developments, vector graphics with the use of base line dimensioning, tolerances, weight calculations, notes, bill of materials composition and graphs. The solution of three-dimensional problems arising in various branches of engineering and the elementary introduction to AutoCAD.

ENGR 110 C  ENGINEERING PROBLEM ANALYSIS

(Same as ENGT 110 C)

2 Units

Three hours lecture per week.

Credit/No Credit/Letter Grade Option

UC/CSU

Prerequisite: MATH 040 C. The course is an introduction to science and engineering as professions and associated career responsibilities and opportunities. The course includes a selection of computational and mathematical methods and tools to be found useful in problem solving. The use of pocket calculators in the determination of measurement limitations and errors, dimensional analysis, quantifying laboratory data, graphical techniques, and design theory in engineering analysis is also studied. The course includes the application of engineering and scientific problem methods to introductory mechanics and electricity.

ENGR 201 C  STATICS

3 Units

Three hours lecture per week.

UC/CSU, CAN ENGR 8

Prerequisite: ENGR 110 C, PHYS 201 C or PHYS 221 C, MATH 142 C or MATH 150AC. This course includes the study of force systems, equilibrium conditions, and analytical vector mechanics as applied to practical engineering problems. It also includes force and moment equilibrium analysis of solid bodies, beams, machine members, and structures in two and three dimensions, elementary bending moment and shear analysis of simple beams, distributed beam loading, centroids, friction forces, fluid forces on submerged surfaces, virtual work, and moment of inertia.

ENGR 205 C  ADVANCED ENGINEERING AUTO CAD

3 Units (May be taken for credit 2 times)

Two hours lecture and
Four hours laboratory per week.

UC/CSU, CAN ENGR 6

Prerequisite: ENGT 104 C and ENGR 102 C. This is an advanced course in the use of Computer Aided Design (CAD) systems for projects that emphasize dimensioning and detailing for interchangeable assemblies and 3-D working drawings for mechanical, electrical, and aerospace applications.

$4.00 Laboratory Fee - PAYABLE AT REGISTRATION.

ENGR 210 C  ELECTRIC CIRCUITS

4 Units

Three hours lecture and
Three hours laboratory per week.

UC/CSU, CAN ENGR 6

Prerequisite: PHYS 222 C, MATH 250AC, and ENGR 110 C. The course consists of an analysis of circuits under steady state and transient conditions; network theorems, phasors and steady-state sinusoids.
ASSOCIATE IN SCIENCE DEGREE
DRAFTING ENGINEERING TECHNOLOGY
The primary emphasis is to prepare the student for employment. Students must complete 40 units from the core section and 25 units from General Education.

To earn an Associate Degree students must complete:
(1) all major course requirements with a minimum grade of “C”;
(2) 25 units of General Education Graduation Requirements;
(3) the cultural pluralism and reading requirement;
(4) any elective courses to complete a minimum of 60 units; and,
(5) have a minimum GPA of 2.0. At least 50% of all major course work must be completed at Cypress College.

Required courses are listed in suggested sequence:
Course #  Title  Units
MATH 130 C  Survey of Calculus  4
MATH 141 C  College Algebra  4
MATH 142 C  Trigonometry  4
PHYS 201 C, 202 C  College Physics  4, 4
ENGT 101 C  Technical Drawing  3
ENGT 104 C  Computer Aided Design (AutoCAD 2000)  3
ENGR 102 C  Engineering Graphics  3
ENGR 110 C  Engineering Problem Analysis  2
ENGR 201 C  Statics  3

ENGINEERING TECHNOLOGY TRANSFER PROGRAM
Students should consult a counselor or www.assist.org for lower division major requirements for most California public universities. (See the Standard Definitions section of the catalog for a description of ASSIST.) Students transferring to an independent college/university should consult the catalog of the individual school and a counselor for lower division major requirements.

Other specializations include: Construction, Manufacturing, and Quality Assurance.
ENGT 140 C  AC & DC CIRCUITS I
4 Units
Three hours lecture and
Three hours laboratory per week.
Credit/No Credit/Letter Grade Option, Credit by Examination
CSU
Prerequisite: MATH 040 C may be taken concurrently. This is an introductory course in AC and DC circuits, with emphasis on the measurement of electrical quantities using equipment such as the voltmeter, ammeter, ohmmeter, capacitor checker, oscilloscope, impedance bridge, potentiometer, and wattmeter. Also introduced are some basic electronic circuits using solid-state devices and the use of the transistor tester. This course is designed for those wishing to continue beyond ELEC 051 C or as the first course in an electronic engineering technology program. It is also a required course for all engineering technology students.

ENGT 141 C  AC & DC CIRCUITS II
4 Units
Three hours lecture and
Three hours laboratory per week.
CSU
Prerequisite: MATH 142 C, may be taken concurrently. ENGT 140 C or equivalent; recommended ENGR 110 C. This course includes a comprehensive study of the analysis of AC and DC circuits. It is designed for those majoring in electronics. The following topics are covered: Thevenin’s and Norton’s theorems, network analysis, capacitors, magnetic circuits, inductors, alternating current, complex numbers, series and parallel AC circuits, power factor correction, resonance, and transformers. The laboratory will emphasize analysis of circuits and comparison with calculated values.

ENGT 205 C  ADVANCED ENGINEERING AUTOCAD
3 Units (May be taken for credit 2 times)
Two hours lecture and
Four hours laboratory per week.
CSU
Prerequisite. ENGT 104 C and ENGR 102 C. This is an advanced course of Computer Aided Design CAD (AutoCAD 2000) systems that emphasize the use of surfaces, surfaces of revolution, solids (primitives) and extrusions techniques to create 3D working drawings. To convert 3D drawings by layout methods to 2D drawings that emphasize baseline dimensioning with tolerances, notes, weights and bill of materials. To write unique graphical programs by using LISP. $4.00 Laboratory Fee - PAYABLE AT REGISTRATION.

ENGT 240 C  ELECTRONIC DEVICES & CIRCUITS
4 Units
Three hours lecture and
Three hours laboratory per week.
Credit/No Credit/Letter Grade Option
CSU
Prerequisite: MATH 142 C and ENGT 140 C. Following a review of semiconductor physics and diodes, the following topics are covered with an emphasis on solid-state discrete devices: bipolar junction transistors, amplifier performance, equivalent circuits, bias stabilization, multistage amplifiers, field-effect transistors, thyristors, optoelectronic devices, integrated circuit construction, operational amplifiers, and applications.

ENGT 241 C  DIGITAL DEVICES AND CIRCUITS
4 Units
Three hours lecture and
Three hours laboratory per week.
Credit/No Credit/Letter Grade Option
CSU
Prerequisite: ENGT 140 C. This course emphasizes integrated circuits (ICs) as applied to digital devices, using primarily the functional block approach. The following topics are covered: logic, Boolean algebra, IC logic families, binary numbers, and arithmetic, arithmetic operations, flip-flops, counters, registers, multivibrators, binary codes, memory devices, A to D and D to A conversion and introduction to microprocessors. ENGT 240 C is recommended background.

ENGT 299 C  ENGR TECHNOLOGY IND STUDY
½ - 2 Units (Variable Unit Class) (May be taken for credit 4 times)
Hours and topics by arrangement with instructor.
CSU
Prerequisite: Approved Independent Study Learning Contract. This course is for able students who wish to extend their knowledge of a particular area of engineering technology (electronics, mechanics, etc.) through individual research, study and laboratory work. Students may select their own topics or be assigned a project to work on under supervision.

ENGLISH TRANSFER PROGRAM
Students should consult a counselor or www.assist.org for lower division major requirements for most California public universities. (See the Standard Definitions section of the catalog for a description of ASSIST.) Students transferring to an independent college/university should consult the catalog of the individual school and a counselor for lower division major requirements.

English (ENGL)

PLACEMENT IN ENGLISH COMPOSITION CLASSES
Students are placed in English composition classes according to test scores on the College Test for English Placement (CTEP). Non-native English speakers should take the CELSA Test (see English as a Second Language course program). Students are strongly advised to take a placement test prior to their first registration at Cypress College.

Students with appropriate CTEP scores will be placed in ENGL 100 C (College Writing). Students needing additional fundamental work will be placed in either ENGL 057 C (Reading and Writing I), ENGL 058 C (Reading and Writing II), or ENGL 060 C (College Writing Preparation). AT THE FIRST CLASS MEETING ALL STUDENTS WILL BE REQUIRED TO WRITE A SHORT COMPOSITION IN ORDER TO CONFIRM APPROPRIATE PLACEMENT. ENGL 057 C and ENGL 058 C students’ reading comprehension skills will also be evaluated.

ENGL 060 C students must earn at least a “C” grade to be eligible for ENGL 100 C; ESL 186 C students must earn a “A” for eligibility.

All students are encouraged to fulfill English course requirements as early as possible in their college programs.

READING PROFICIENCY EXAMINATION
The READING PROFICIENCY EXAMINATION which satisfies the Reading Proficiency Graduation Requirement for the Associate Degree, will be administered by the Matriculation Office three times a year during registration activities. See the section in the Schedule of Classes titled, STEP TWO, ENGLISH ASSESSMENT. Proficiency in reading may also be satisfied by receiving a “C” or better in ENGL 096 C, ENGL 102 C, or ENGL 106 C, or by CSU General Education Certification of IGETC certification. No units are given for passing the Reading Proficiency Examination, nor is the total number of units required to complete the Associate Degree lowered. Students who meet the area requirement by the proficiency exam are still required to satisfy the 60-unit requirement for graduation. A student may attempt to pass the proficiency exam only one time.

ENGL 027 C BASIC STUDY SKILLS
3 Units
Three hours lecture and
One hour laboratory TBA per week.
Credit/No Credit/Letter Grade Option
NON-DEGREE CREDIT
The purpose of this course is to assist students with limited academic backgrounds in experiencing college success by taking responsibility for their college experience. Intensive practice and guidance in campus orientation, goal setting, time management, listening and note taking, textbook reading, concentration, memory strategies, and test taking are provided.

ENGL 057 C READING AND WRITING I
4 Units
Four hours lecture and
One hour laboratory TBA per week.
Credit/No Credit/Letter Grade Option
NON-DEGREE CREDIT
Prerequisite: Open only to students who have taken the placement test.
This course is designed for first semester college students and emphasizes basic instruction in reading and writing, including such topics as comprehension, vocabulary development, reading efficiency, study techniques, and basic composition. Individualized instruction is provided.

ENGL 058 C READING AND WRITING II
4 Units
Four hours lecture and
One hour laboratory TBA per week.
Credit/No Credit/Letter Grade Option
NON-DEGREE CREDIT
Prerequisite: Completion of ENGL 057 C with a “C” or better, or acceptable score on the placement test.
This course is designed to prepare students for ENGL 100 C and for the demands of college reading. It emphasizes a comprehensive approach to reading and writing, and includes such topics as: academic comprehension, vocabulary development, and basic academic composition. Individualized instruction is included.

ENGL 060 C COLLEGE WRITING PREPARATION
3 Units
Four hours lecture per week.
Credit/No Credit/Letter Grade Option
Prerequisite: Acceptable score on placement test, ENGL 058 C with a grade of “C” or better, or ESL 186 C with a grade of “C” or better. The course is designed to prepare students for ENGL 100 C. The emphasis is on expository writing of the essay including paragraph structure. The fundamentals of English written expression are reviewed.
Students are advised to take English classes according to scores on the following test:

COLLEGE TEST FOR ENGLISH PLACEMENT (CTEP)
The CTEP is designed to measure the English skills of non-native speakers of English. It is required for proper placement in English courses. Exemptions are: completion of an AA degree or higher, enrollment in one class that has no prerequisite; transcripts/grade reports showing completion of college English with a grade of “C” or better. The CTEP may not be used for placement in ESL courses.

Students with appropriate scores on the CTEP will be advised to take ENGL 100 C (College Writing). Students needing additional fundamental work will be advised to take either ENGL 057 C (Reading and Writing I), ENGL 058 C (Reading and Writing II), or ENGL 060 C (Preparation for College Writing). Students enrolled in pre-English 100 C classes must earn at least a “C” grade in ENGL 060 C to be eligible for enrollment in ENGL 100 C. All students are encouraged to complete their English coursework as early as possible in their educational programs.

Students enrolled in core classes will be required to write an essay on the first day of instruction to verify skill level and assessment placement score.

The Learning Center, located in Room 303 of the Humanities Building, provides students with the opportunity to improve their learning skills as a way of becoming more successful college students. The Center offers a wide variety of tutorial packages. Students may drop in on their own or be referred by instructors and counselors.

ENGL 068 C ENGLISH SKILLS DEVELOPMENT
½ - 10 Units (Variable Unit Class) (May be taken for a cumulative total of 10 units)
(Open Entry-Open Exit)
One hour lecture and
Three hours laboratory TBA per week.
Credit/No Credit/Letter Grade Option
NON-DEGREE CREDIT
This variable unit, open entry/open exit course with flexible hours is designed for the student who needs to improve English or study skills in a short period of time. Skill development opportunities will be provided in the areas of reading, writing, vocabulary, spelling, study skills, and speed reading.

ENGL 075 C BASIC LITERATURE AND WRITING
3 Units
Three hours lecture per week.
Prerequisite: Completion of ENGL 060 C. This class offers instruction in effective writing related to literature, emphasizing short fiction, poetry and drama. Instruction and assignments correlate with reading, the study of composition techniques, and include a review of the grammar, mechanics and usage of standard American English.
ENGL 095 C  EFFECTIVE WRITING  
3 Units  
Three hours lecture per week.  
Credit/No Credit/Letter Grade Option  
AA GE  
Prerequisite: Eligibility for ENGL 060 C. This is a college level course in written communication designed for students majoring in vocational and technical fields. It is designed to develop reading, critical thinking, and writing strategies necessary for the job market and academic success and it fulfills the written communication requirement for the AA or AS degree and also for any vocational certificate available through the college.

ENGL 096 C  COLLEGE READING STRATEGIES  
3 Units  
Three hours lecture and  
One hour laboratory TBA per week.  
Credit/No Credit/Letter Grade Option  
RDG  
Prerequisite: Eligibility for ENGL 060 C or acceptable score on the placement test. This course is designed to prepare students for the demands of college academic reading, i.e., college textbooks, professional journals, and supplemental reading in content areas, and for the demands of technical reading in the workplace. Emphasis is placed on acquiring, applying, adapting, and evaluating effective reading and writing strategies which facilitate optimum learning in the content area classes, as well as developing general and specialized vocabulary and the writing skills required for essay exams, abstracts of professional journal articles, and critical analyses of content area supplemental reading. Completion of this course satisfies the Cypress College Associate Degree Graduation Reading Proficiency Requirement.

ENGL 097 C  MULTICULTURAL LITERATURE  
3 Units  
Three hours lecture per week.  
AA GE, CUL PL  
The course is a study of multicultural literature, by both immigrant and native American writers, which explores varied responses - ethnic, gender, and regional - in the cultural context of a diverse country. Students critically analyze a variety of literary sources, including such genres as fiction, drama, expository writing - essays, journals, autobiography, letters - and other less traditional literary forms - tales, chants, and rituals. The course is designed to enrich students’ lives by exploring the multicultural literary sources of America that contribute to the cultural history and development of contemporary American society. Not open to students with credit in ENGL 247 C.

ENGL 098 C  LANGUAGE ARTS SEMINAR  
½ - 3 Units (May be taken for credit 4 times)  
(Variable Unit Class)  
One half to three hours lecture per week.  
Credit/No Credit/Letter Grade Option  
This seminar is for students who wish to extend their knowledge of English, reading, and study skills through small group discussion.

ENGL 099 C  LEARNING SKILLS - INDEPENDENT STUDY  
½ - 2 Units (Variable Unit Class) (May be taken for credit 3 times)  
16 hours per semester per one-half unit.  
Credit/No Credit  
This course is designed to aid students in achieving success in specific college courses or in the college experience in general. Students will work under the direction of an instructor on a course of study agreed to in an Independent Study Learning Contract and will utilize a self-pacing laboratory approach.

ENGL 100 C  COLLEGE WRITING  
3 Units  
Four hours lecture per week.  
UC Credit Limitation/CSU, AA GE, CSU GE, IGETC, CAN ENGL 2  
Prerequisite: Acceptable score on placement test or ENGL 060 C with a grade of “C” or better or ENGL 095 C with a grade of “C” or better or ESL 186 C with a grade of “A”. This course is a college level course in written communication. It is designed to develop reading, critical thinking, and writing strategies necessary for academic success. The emphasis is on writing expository essays. The course requires the use of research and documentation skills. Duplicate credit not granted for ENGL 100HC.

ENGL 100HC  HONORS COLLEGE WRITING  
3 Units  
Four hours lecture per week.  
UC Credit Limitation/CSU, AA GE, CSU GE, IGETC  
Prerequisite: Acceptable score on placement test or ENGL 060 C, or ENGL 095 C with a grade of “C” or better, or ESL 186 C with a grade of “A”. This course is a college level course enhanced for Honors students. The emphasis is on reading and writing expository essays. The course will develop increased critical thinking, reading and writing skills. The class will be conducted as a seminar and will require a significant research project that uses correct documentation skills. Duplicate credit not granted for ENGL 100 C.

ENGL 102 C  INTRODUCTION TO LITERATURE  
3 Units  
Three hours lecture per week.  
UC/CSU, AA GE, CSU GE, IGETC, CAN ENGL 4, RDG  
Prerequisite: ENGL 100 C with a grade of “C” or better. This course is a continuation of ENGL 100 C. It builds from the inferential reading and expository writing of the first semester course to emphasize comprehension and composition of the analytical and critical essay. The content introduces students to techniques and major authors of narrative fiction, drama, and poetry, providing them with an opportunity to enrich their lives, enhance their understanding of the human condition, and develop an appreciation for good literature. Completion of this course satisfies the Cypress College Associate Degree Graduation Reading Proficiency Requirement.
ENGL 103 C CRITICAL REASONING AND WRITING
3 Units
Three hours lecture per week.
UC/CSU, AA GE, CSU GE, IGETC
Prerequisite: ENGL 100 C with a grade of “C” or better. This course is designed to develop critical thinking, reading and writing skills beyond the level achieved in ENGL 100 C. The course will focus on the development of logical reasoning and analytical and argumentative writing skills.

ENGL 104 C CRITICAL ANALYSIS & LITERATURE
4 Units
Three hours of lecture per week.
UC Credit Limitation/CSU, AA GE, CSU GE, IGETC
Prerequisite: ENGL 100 C with a grade of “C” or better. This course will develop critical thinking, reading and writing skills as they apply to the analysis of literature and literary criticisms from diverse cultural sources and perspectives. There will be an emphasis on the techniques and principles of effective written argument as they apply to literature. Students will demonstrate this understanding by writing and critiquing essays and utilizing research strategies. Duplicate credit not granted for ENGL 104HC.

ENGL 104HC HONORS CRITICAL ANALYSIS & LIT
4 Units
Three hours of lecture per week.
UC Credit Limitation/CSU, AA GE, CSU GE, IGETC
Prerequisite: ENGL 100 C with a grade of “C” or better. This course is a college level course enhanced for honors students. The emphasis is on developing increased critical thinking, reading and writing skills as they apply to the analysis of literature and literary criticism. Writing expanded argumentative research essays, and utilizing enhanced research strategies and documentation skills will be required. The class will be conducted as a seminar. Duplicate credit not granted for ENGL 104 C.

ENGL 105 C CREATIVE WRITING
3 Units (May be taken for credit 2 times)
Three hours lecture per week.
UC/CSU, CAN ENGL 6
Prerequisite: ENGL 100 C. This course provides an opportunity for students to explore their interest in literary creativity by writing short fiction, poetry, and a short play. The writers will gain understanding of each literary type, have an opportunity to create in each area, and be afforded the chance to have their work critiqued in a workshop setting.

ENGL 106 C CRITICAL THINKING
3 Units
Three hours lecture per week.
CSU, AA GE, CSU GE, RDG
Prerequisite: Eligibility for ENGL 100 C. This course develops critical reading, writing and thinking skills. Emphasis is placed on learning the strategies necessary to analyze and evaluate rhetorical and logical elements of written communication. Completion of this course satisfies the Cypress College Associate Degree Graduation Reading Proficiency Requirement.

ENGL 108 C WRITING THE PERSONAL STATEMENT
½ Unit
One half hour lecture per week.
Credit/No Credit
CSU
Prerequisite: ENGL 100 C. This course will teach students how to write an effective personal statement on their transfer applications to four-year institutions. Content strategies and essay format will be discussed and opportunities for multiple drafts will be engaged.

ENGL 110 C HUMANITIES AND THE ARTS
3 Units
(Same as INDS 100 C)
Three hours lecture per week.
UC/CSU, AA GE, CSU GE, IGETC
Prerequisite: Eligibility for ENGL 100 C. This course is a survey of the development of Western culture with a focus upon its Greco-Roman roots, and a study of other important influences, including African, Middle Eastern and Asian. The course covers prehistory to the Renaissance, with emphasis on the arts.

ENGL 111 C HUMANITIES AND THE ARTS
3 Units
(Same as INDS 101 C)
Three hours lecture per week.
UC/CSU, AA GE, CSU GE, IGETC
Prerequisite: Eligibility for ENGL 100 C. This course is a survey of the development of Western culture from the Renaissance to the present, including a study of other important influences from Africa, the Middle East, Asia, and North and South America, with emphasis on the arts.

ENGL 115 C HEMINGWAY’S WORKS
3 Units
Three hours lecture per week.
UC/CSU, AA GE
Prerequisite: Eligibility for ENGL 100 C. This course is a study of Hemingway and representative examples of his fiction. The focus of the course is on the nature of Hemingway as a person and writer and to introduce students to his short stories and novels.

ENGL 120 C TOPICS IN LITERATURE
½ - 3 Units (Variable Unit Class) (May be taken for credit 4 times)
Three hours lecture per week.
UC Credit Limitation/CSU
Topics in language and literature are nine or eighteen week courses designed to provide students with experiences in specialized areas of English and an opportunity to explore and investigate areas of special interest. Courses such as Women’s Voices in Literature, Humor in Literature and Modern British Drama are offered.
ENGL 125 C  THE FILM  
3 Units  
Three hours lecture per week.  
UC Credit Limitation/CSU, AA GE, CSU GE, IGETC  
Prerequisite: ENGL 100 C. This course is a critical study of film as literature that will develop critical thinking and writing skills. Students will study the elements of film making and the historical development of film. Film as a story telling art form will be emphasized. Ten to twelve films will be shown in class for analysis and discussion. Duplicate credit not granted for ENGL 125HC.

ENGL 125HC  HONORS FILM  
3 Units  
Three hours lecture per week.  
UC Credit Limitation/CSU, AA GE, CSU GE, IGETC  
Prerequisite: ENGL 100 C. This course is a critical study of film as a story telling art form enhanced for Honors students. Students study the elements of cinematic storytelling, film's dependence on literature, and the historical development of film. Ten to twelve short and feature films are shown in the course for discussion and analysis. The course is taught in a seminar format. Duplicate credit not granted for ENGL 125 C.

ENGL 126 C  SCREENWRITING  
3 Units (May be taken for credit 2 times)  
Three hours lecture per week.  
UC/CSU, AA GE  
Prerequisite: ENGL 100 C. This course provides students the opportunity to study the art of the screenplay and create their own. Students will critically analyze professional models, view excellent examples of film writing, and work on their own screenplay. Students will have the opportunity to have their work critiqued in a workshop setting.

ENGL 135 C  ADVANCED GRAMMAR AND USAGE  
3 Units  
Three hours lecture per week.  
CSU, AA GE  
Prerequisite: Eligibility for ENGL 100 C. This is an advanced course in English grammar and usage. Students will learn about the origins and development of the English language. Parts of speech, parts of sentences, verb tenses, sentence types, syntax, and standard usage will be emphasized. Students will demonstrate their understanding of English grammar and usage by analyzing standard written English. This course is useful for English, journalism, foreign language, and court reporting students and especially for those planning to enter elementary or secondary teaching.

ENGL 137 C  COLLEGE STUDY STRATEGIES  
3 Units  
Three hours lecture and  
One hour laboratory TBA per week.  
Credit/No Credit/Letter Grade Option  
CSU  
Prerequisite: Eligibility for ENGL 060 C. The purpose of this course is to assist students in mastering effective learning and critical thinking strategies crucial for academic success and professional and personal growth. Goal setting and motivation, learning styles, time management, stress management, academic and professional reading, reading rate improvement, listening for note-taking, concentration, memory, test preparation, and test-taking strategies are primary topics. Completion of this course satisfies the Cypress College Associate Degree Graduation Reading Proficiency Requirement.

ENGL 180 C  COMM. WITH THE DEAF-I  
3 Units  
Three hours lecture per week.  
CSU  
This course gives an overview of the philosophy of Signing Exact English (S.E.E.), its structure, technique, and rationale. Over the course of the semester, a 700-word working vocabulary will be introduced to the students. Competency will be evaluated on the basis of exams, quizzes, essays, assigned readings, and signed classroom presentations.

ENGL 181 C  COMM. WITH THE DEAF-II  
3 Units  
Three hours lecture per week.  
CSU  
Prerequisite: ENGL 180 C. This course is a continuation of beginning sign language with emphasis placed on broadening vocabulary, increased speed and clarity of signs. The first half of the course will deal with simple interpreting and the last half will deal with sign-to-voice interpreting.

ENGL 182 C  COMM. WITH THE DEAF-III  
3 Units  
Three hours lecture per week.  
CSU  
Prerequisite: ENGL 181 C. This course is a continuation of the beginning and intermediate sign language classes. In addition to broadening vocabulary, increasing speed and clarity of signs, emphasis will be placed on expressive and receptive skills in finger spelling, creative signing, combining American Sign Language principles with Signing Exact English, voice to sign interpreting, sign to voice interpreting and simultaneous communication.

ENGL 183 C  EDUCATIONAL INTERPRETING  
3 Units  
Three hours lecture per week.  
CSU  
Prerequisite: ENGL 182 C. This course prepares the student to offer interpreting services for the deaf with specific focus on service provision in educational settings. Over the course of the semester, the students will learn about the models for educational interpreting, explore the rationale, methods, and ethics of educational interpreting and address appropriate methods for delivery of services over a broad range of educational settings. The settings will include the elementary, middle, secondary, and postsecondary levels.
ENGL 201 C  INTERMEDIATE COLLEGE WRITING
3 Units
Three hours lecture per week.
UC/CSU, AA GE, CSU GE, IGETC
Prerequisite: ENGL 100 C with grade of “C” or better. The course continues instruction in the critical thinking and writing skills taught in ENGL 100 C for university-bound students. The sequence of assignments is academically sophisticated, using research methods and synthesizing multiple sources of evidence. The course stresses critical evaluation of sources, integration of a variety of rhetorical strategies, and research and documentation methods necessary for successful academic writing. The course emphasizes critical thinking and the relationship of the writer to the subject and audience. Further emphasis is placed on refining the student’s prose style in expository communication. College level reading assignments are analyzed for their logical structure, credibility of evidence, and style providing models for student writing.

ENGL 207 C  THE SHORT STORY
3 Units
Three hours lecture per week.
UC/CSU, AA GE, CSU GE, IGETC
Prerequisite: ENGL 100 C. This course is an introduction to the short story and related forms of narrative fiction through reading and discussion of selected works. Analysis will emphasize the understanding and appreciation of the short story as a mode of thought and insight into the human condition.

ENGL 208 C  ASIAN-AMERICAN LITERATURE
3 Units
Three hours lecture per week.
UC/CSU, AA GE, CSU GE, IGETC
Prerequisite: ENGL 100 C. This course is a study of Asian-American literature. Students will explore and analyze a variety of social and political issues, such as gender relationships, family relationships, cultural traditions, cultural conflicts, culinary traditions, and stereotypes from an Asian-American perspective. This course is designed to enhance cultural awareness and understanding, while also facilitating personal enrichment through the exploration of a variety of literary sources, including fiction, drama, poetry, journals, biography and film.

ENGL 211 C  ENGLISH LITERATURE: PART ONE
3 Units
Three hours lecture per week.
UC/CSU, AA GE, CSU GE, IGETC, CAN ENGL 8
Prerequisite: ENGL 100 C. The course is an introduction to the major periods and movements, major authors, and major forms from the beginning of English literature to 1760. It considers such authors as Beowulf, Chaucer, Spenser, Shakespeare, Donne, Milton, Dryden, Pope, and Swift.

ENGL 212 C  ENGLISH LITERATURE: PART TWO
3 Units
Three hours lecture per week.
UC/CSU, AA GE, CSU GE, IGETC, CAN ENGL 10
Prerequisite: ENGL 100 C. The course is an introduction to the major periods and movements, major authors, and major forms from 1760 to the present. It considers such authors as Blake, Wordsworth, Coleridge, Byron, Shelley, Keats, Browning, Dickens, Joyce, Hopkins, Yeats, Eliot, Woolf, and Beckett.

ENGL 221 C  AMERICAN LITERATURE: PART ONE
3 Units
Three hours lecture per week.
UC/CSU, AA GE, CSU GE, IGETC, CAN ENGL 14
Prerequisite: ENGL 100 C. This course is a study of the literature of the United States from the Colonial Period through the post Civil War Period. It is designed to increase understanding and appreciation of the development of American culture and literary achievements. The students will experience the many different voices that constitute the literary cultures of the United States. Therefore, the oral tradition of the American Indians, writings by women and the enslaved Blacks as well as the traditional early American writers will be included to reflect organically on the most urgent art and ideas of this early period of our history and literary experience.

ENGL 222 C  AMERICAN LITERATURE: PART TWO
3 Units
Three hours lecture per week.
UC/CSU, AA GE, CSU GE, IGETC, CAN ENGL 16
Prerequisite: ENGL 100 C. This course is designed to be a continuation of ENGL 221 C. A surveying of the literature of the United States from the emergence of modern American literature to the present time. It is designed to increase understanding and appreciation of the development of American culture and literary achievements. Writings by women, American Indians, the American Blacks and other ethnic minorities will be included to reflect organically on the most urgent art and ideas of our history and literary experience.

ENGL 230 C  THEMATIC TOPICS IN LITERATURE
3 Units
Three hours lecture per week.
UC/CSU, AA GE, CSU GE, IGETC, CAN ENGL 8
Prerequisite: ENGL 100 C. This course is designed to provide students with experiences in specialized areas of English and an opportunity to explore and investigate areas of special interest. Courses such as Gender Issues in Literature, Humor in Literature, and Latino Literature are offered. Duplicate credit not granted for ENGL 230HC.

Cypress College 2003-2004
ENGL 247 C  MULTICULTURAL LITERATURE  
3 Units  
Three hours lecture per week.  
UC/CSU, AA GE, CSU GE, IGETC, CUL PL  
Prerequisite: ENGL 100 C. The course is a study of multicultural literature, by both immigrant and native American writers, which explores varied responses - ethnic, gender, and regional - in the cultural context of a diverse country. Students will critically analyze a variety of literary sources, including such genres as fiction, drama, expository writing - essays, journals, autobiography, letters, and other less traditional literary forms - tales, chants, and rituals. The course is designed to enrich students' lives by exploring the multicultural literary sources of America that contribute to the cultural history and development of contemporary American society. Not open to students with credit in ENGL 097 C.

ENGL 298 C  LANGUAGE ARTS SEMINAR  
½ - 3 Units (Variable Unit Class) (May be taken for credit 3 times)  
One-half to three hours conference per week.  
UC Credit Limitation/CSU  
Prerequisite: For the English section, ENGL 100 C; for the foreign language section, four semesters of foreign languages or recommendation of instructor. This seminar is for able students who wish to extend their knowledge of literature, language and culture through small group discussion. Subject matter may concern the work of one author or the literary or cultural characteristics of a particular movement or period.

ENGL 299 C  LANGUAGE ARTS INDEPENDENT STUDY  
½ - 2 Units (Variable Unit Class) (May be taken for credit 3 times)  
One-half to two hours conference per week.  
UC Credit Limitation/CSU  
Prerequisite: Approved Independent Study Learning Contract. This course is for able students who wish to increase their knowledge of literature and/or language through individual study or research. Unit credit may range from ½ to 2 units in any given semester.

ESL 052 C  INTERMEDIATE ESL GRAMMAR 1  
2 Units  
Two hours lecture and  
One hour laboratory TBA per week.  
Credit/No Credit/Letter Grade Option  
NON-DEGREE CREDIT  
Prerequisite: Completion of ESL 072 C or appropriate skills demonstrated through the assessment process. This course is designed for intermediate ESL students to increase their knowledge and usage of English grammar, to review grammar trouble spots according to individual and class needs, and to improve grammatical accuracy and editing skills in writing.

ESL 053 C  INTERMEDIATE ESL GRAMMAR 2  
2 Units  
Two hours lecture and  
One hour laboratory TBA per week.  
Credit/No Credit/Letter Grade Option  
NON-DEGREE CREDIT  
Prerequisite: Successful completion of ESL 072 C or appropriate skills demonstrated through the assessment process. This course is designed for intermediate ESL students to increase their knowledge and usage of English grammar, to review grammar trouble spots according to individual and class needs, and to improve grammatical accuracy and editing skills in writing.

ESL 062 C  ADVANCED ESL GRAMMAR 1  
2 Units  
Two hours lecture and  
One hour laboratory TBA per week.  
Credit/No Credit/Letter Grade Option  
Prerequisite: Completion of ESL 083 C or appropriate skills demonstrated through the assessment process. This course is designed to increase students' knowledge and usage of advanced English grammar, to review grammar trouble spots according to individual and class needs, and to improve grammatical accuracy and editing skills in writing.
Is English your second language? Take the CELSA, the ESL placement test. The CELSA is the right test for you even if:
• you've been in the U.S. for a long time
• you don’t have an accent
• you took “regular” English in high school

ESL courses are designed for your specific training needs.

Students are advised to take ESL classes according to scores on the COMBINED ENGLISH LANGUAGE SKILLS ASSESSMENT (CELSA) TEST FOR NON-NATIVE SPEAKERS OF ENGLISH.

The CELSA test is designed to measure the English skills of non-native speakers of English. The CELSA test is required for proper placement in English as a Second Language (ESL) courses. The CTEP test, which is for native speakers of English, may not be substituted for placement in ESL courses.

However, students scoring high on the CELSA test may be referred to English courses for native speakers after writing a successful composition.

Students with appropriate scores on the CELSA test will be advised to take ESL core classes and elective classes at different levels.

Students enrolled in core classes will be required to write a composition on the first day of instruction to verify skill level and assessment placement score.
ESL 063 C  ADVANCED ESL GRAMMAR 2
2 Units
Two hours lecture and
One hour laboratory TBA per week.
Credit/No Credit/Letter Grade Option
Prerequisite: Completion of ESL 083 C or appropriate skills demonstrated through the assessment process. This course is designed to increase students’ knowledge and usage of advanced English grammar, to review grammar trouble spots according to individual and class needs, and to improve grammatical accuracy and editing skills in writing.

ESL 072 C  HIGH BEGINNING ESL
5 Units (May be taken for credit 2 times)
Five hours lecture and
One hour laboratory TBA per week.
Credit/No Credit/Letter Grade Option
NON-DEGREE CREDIT
Prerequisite: Appropriate skills demonstrated through the assessment process. This multi-skill course is designed for high-beginning students of English to improve listening, speaking, reading, and writing.

ESL 074 C  PRONUNCIATION IMPROVEMENT
2 Units (May be taken for credit 2 times)
Two hours lecture and
One hour laboratory TBA per week.
Credit/No Credit/Letter Grade Option
NON-DEGREE CREDIT
This course is designed to refine pronunciation, to reduce foreign accent, and to build confidence in oral expression. Recommended to all ESL students.

ESL 075 C  INTERMEDIATE CONVERSATION
2 Units (May be taken for credit 2 times)
Two hours lecture and
One hour laboratory TBA per week.
Credit/No Credit/Letter Grade Option
NON-DEGREE CREDIT
Prerequisite: Eligibility for ESL 080 C, ESL 081 C, ESL 082 C or ESL 083 C. This course is designed for intermediate level non-native English speakers to improve oral communication skills related to social, vocational, and academic areas. The emphasis is on conversation, small group discussion, informal speeches, class discussion and listening comprehension.

ESL 076 C  ADVANCED CONVERSATION
2 Units (May be taken for credit 2 times)
Two hours lecture and
One hour laboratory TBA per week.
Credit/No Credit/Letter Grade Option
Prerequisite: Eligibility for ESL 184 C, ESL 185 C, or ESL 186 C. This course is designed for advanced level non-native English speakers to improve oral communication skills related to social, vocational, and academic areas. The emphasis is on conversation, small group discussion, informal and formal speeches, class discussion and listening comprehension.

ESL 078 C  VOCABULARY DEVELOPMENT
2 Units
Two hours lecture and
One hour laboratory TBA per week.
Credit/No Credit/Letter Grade Option
Prerequisite: Eligibility for ESL 184 C, ESL 185 C or ESL 186 C. This is an advanced ESL course in vocabulary development designed to teach various techniques for improving vocabulary. The emphasis is on vocabulary acquisition in preparation for entering fields of higher education or vocational training.

ESL 080 C  LOW INTERMEDIATE ESL 1
5 Units
Five hours lecture and
One hour laboratory TBA per week.
Credit/No Credit/Letter Grade Option
NON-DEGREE CREDIT
Prerequisite: ESL 072 C with a grade of “C” or better or appropriate skills demonstrated through the assessment process. This is a low intermediate integrated skills course designed to improve the reading, grammar, writing, listening comprehension, and speaking skills of non-native speakers with a basic command of English.

ESL 081 C  LOW INTERMEDIATE ESL 2
5 Units
Five hours lecture and
One hour laboratory TBA per week.
Credit/No Credit/Letter Grade Option
NON-DEGREE CREDIT
Prerequisite: ESL 080 C with a grade of “C” or better or appropriate skills demonstrated through the assessment process. This is a low intermediate (Level 1) integrated skills course designed to improve the reading, grammar, writing, listening comprehension, and speaking skills of non-native speakers with a basic command of English.

ESL 082 C  INTERMEDIATE ESL 1
5 Units
Five hours lecture and
One hour laboratory TBA per week.
Credit/No Credit/Letter Grade Option
NON-DEGREE CREDIT
Prerequisite: ESL 081 C with a grade of “C” or better or appropriate skills demonstrated through the assessment process. This is an intermediate integrated skills course designed to improve the reading, composition, grammar, listening comprehension, and speaking skills of non-native speakers with a moderate command of English.

ESL 083 C  INTERMEDIATE ESL 2
5 Units
Five hours lecture and
One hour laboratory TBA per week.
Credit/No Credit/Letter Grade Option
NON-DEGREE CREDIT
Prerequisite: ESL 082 C with a grade of “C” or better or appropriate skills demonstrated through the assessment process. This is an intermediate integrated skills course designed to improve the reading, composition, grammar, listening comprehension, and speaking skills of non-native speakers with a moderate command of English.
ESL 098 C  SEMINAR FOR NON-NATIVE SPEAKERS OF ENGLISH
½ - 3 Units (Variable Unit Class) (May be taken for credit 2 times)
Hours will vary according to units given.
Credit/No Credit/Letter Grade Option
Prerequisite: Completion of all regularly scheduled courses in the skill area(s) desired. This is a course for advanced ESL students who have completed all regular courses and wish to pursue in small group instruction additional course work in one or more of the language skills: listening, speaking, reading, writing and/or culture.

ESL 099 C  INDEPENDENT STUDY FOR NON-NATIVE SPEAKERS OF ENGLISH
½ - 2 Units (Variable Unit Class) (May be taken for credit 3 times)
Two hours conference per week and appropriate number of laboratory hours for maximum credit.
Credit/No Credit
Prerequisite: Approved Independent Study Learning Contract. This is a course designed for advanced ESL students who have completed all regular courses and wish to pursue additional coursework in one or more of the language skills: listening, speaking, reading, writing and/or culture.

ESL 184 C  ADVANCED ESL 1
5 Units
Five hours lecture and
One hour laboratory TBA per week.
UC Credit Limitation/CSU
Prerequisite: ESL 083 C with a grade of “C” or better or appropriate skills demonstrated through the assessment process. This course is an advanced integrated ESL skills course designed to improve the reading, writing, grammar, listening comprehension, and speaking skills of non-native speakers with an advanced command of English.

ESL 185 C  ADVANCED ESL 2
5 Units
Five hours lecture and
One hour laboratory TBA per week.
UC Credit Limitation/CSU
Prerequisite: ESL 184 C with a grade of “C” or better or appropriate skills demonstrated through the assessment process. This course is an advanced integrated ESL skills course designed to improve the reading, writing, grammar, listening comprehension, and speaking skills of non-native speakers with an advanced command of English.

ESL 186 C  ADVANCED ESL WRITING
5 Units
Five hours lecture and
One hour laboratory TBA per week.
UC Credit Limitation/CSU
Prerequisite: ESL 185 C with a grade of “C” or better or appropriate skills demonstrated through the assessment process. This course is designed for the non-native speaker of English as an introduction to college level writing skills. Emphasis is on paragraph and essay development of expository writing. There is practice in reading essays and a novel. The fundamentals of English written expression are reviewed with emphasis on standard American usage problematic to the ESL student. The course is designed to prepare students for ENGL 100 C.

ESL 298 C  ENGLISH AS A SECOND LANGUAGE SEMINAR
½ - 3 Units (May be taken for credit 4 times)
One half to three hours lecture per week.
Credit/No Credit/Letter Grade Option
UC Credit Limitation/CSU
This seminar is for able students who wish to extend their knowledge of literature, language and culture through small group discussion.

Ethnic Studies (ETHS)
ASSOCIATE IN ARTS DEGREE
ETHNIC STUDIES
The Cypress College Associate in Arts Degree in Ethnic Studies is an interdisciplinary program. It is designed to provide students with a knowledgeable view of the culture and institutions that shape the lives of the various under-represented ethnic and gender groups in the United States of America. It is designed to appeal to students from the dominate culture group as well as those from the under-represented groups. Intermixed throughout the curriculum are academic courses that help develop an understanding of the various ways people relate to each other in a pluralistic society. While there is a core of courses designed to give students a common background in multi-culturalism, they may select additional courses in the specific area which most interests them from the elective list.

To earn an Associate Degree students must complete:
(1) all major course requirements with a minimum grade of “C”; (2) 25 units of General Education Graduation Requirements; (3) any elective courses to complete a minimum of 60 units; and, (4) with an overall GPA of 2.0. At least 50% of all major course work must be completed at Cypress College.

Required courses are listed in suggested sequence:
Course # Title Units
ETHS 100 C American Ethnic Studies 3
ENGL 247 C Multicultural Literature 3
PSY/SOC 237 C Cross-Cultural Conflicts in Interpersonal Relationships 3
SOC 225 C Sociology of Women 3
Select a minimum of 12 units from elective courses below 12
Total Units Required 24
MULTICULTURAL MARKETING CERTIFICATE
This certificate program prepares students to work in the marketing field helping businesses and organizations to serve the needs of customers and clients in a culturally diverse society. Bringing together social science, language arts, and marketing, the certificate enables students to combine their knowledge of different cultural groups’ preferences, behaviors, and languages with marketing skills to create effective product development, promotion, distribution, and pricing strategies.

To earn a certificate, complete the required courses as listed with a minimum grade of “C”. At least 50% of all course work must be completed at Cypress College.

Required courses are listed in numeric sequence:

ETHNIC STUDIES TRANSFER PROGRAM
Students should consult a counselor or www assistir g.org for lower division major requirements for most California public universities. (See the Standard Definitions section of the catalog for a description of ASSIST.) Students transferring to an independent college/university should consult the catalog of the individual school and a counselor for lower division major requirements.

ETHS 100C AMERICAN ETHNIC STUDIES
3 Units
Three hours lecture per week.
UC Credit Limitation/CSU, AA GE, CSU GE, IGETC, CUL PL
Advisory: Eligibility for ENGL 100 C. This course serves to broaden the ethnic and racial perspective of students interested in American culture and society. It encompasses an historical overview of the social, cultural, political, and economic aspects of four ethnic groups – African Americans, Native Americans, Chicanos, and Asian Americans – in the United States. Emphasis is placed on the historical and contemporary relationships of these groups with each other and the rest of American society. Duplicate credit not granted for ETHS 100HC, ETHS 231 C, ETHS 231HC, HIST 231 C, HIST 231HC, POSC 231 C, POSC 231HC or SOC 231 C, SOC 231HC.

ETHS 100HC HONORS AMERICAN ETHNIC STUDIES
3 Units
Three hours lecture per week.
UC Credit Limitation/CSU, AA GE, CSU GE, IGETC, CUL PL
Advisory: Eligibility for ENGL 100 C. This course is an enhanced historical study of the social, cultural, political, and economic aspects of four ethnic groups – African Americans, Native Americans, Chicanos, and Asian Americans – in the United States. Emphasis is placed on the historical and contemporary relationships of these groups with each other and the rest of American society. Duplicate credit not granted for ETHS 100C, ETHS 231 C, ETHS 231HC, HIST 231 C, HIST 231HC, POSC 231 C, POSC 231HC, SOC 231 C, SOC 231HC.

ETHS 130C AFRICAN-AMERICAN HISTORY
3 Units
Three hours lecture per week.
UC/CSU, CSU GE, IGETC, CUL PL
Advisory: Eligibility for ENGL 100 C. This course is a survey of the African-American experience in the United States from its African roots to the present day. A special emphasis is placed on the duality of that experience, explored through the ambivalent legacy of racism and the social institutions designed to combat it.

ETHS 141C CHICANA/O HISTORY
3 Units
Three hours lecture per week.
Credit by Examination
UC/CSU, CSU GE, IGETC, CUL PL
Advisory: Eligibility for ENGL 100 C. This course studies Chican/o history and culture from the pre-European conquest era of North America to the contemporary period in the United States. The course examines not only the historical experience of Chicanas/os in this country but also investigates the interconnections of racial and ethnic interaction; issues of class, gender and political economy; and social forces of hegemony. Materials to be considered include works in history, the behavioral sciences, literature, and the arts.

ETHS 142C THE CHICANA/O IN CONTEMPORARY SOCIETY
3 Units
Three hours lecture per week.
UC/CSU, CSU GE, IGETC, CUL PL
This course focuses on the analysis of social institutions in the Chicana/o community and the socio-cultural implications for the development of the Chicana/o. Emphasis is placed on the present contemporary systems such as the educational, political, religious, economic, criminal justice and other social establishments with regard to the Chicana/o. Some field study and research work may be required to provide relevant experiences.

ETHS 176C ASIAN-AMERICAN HISTORY
3 Units
Three hours lecture per week.
UC/CSU, CSU GE, IGETC, CUL PL
Advisory: Eligibility for ENGL 100 C recommended. This is a survey course of Asian-American history from mid-nineteenth century to the present. Elements of Asian-American culture (i.e., art, literature, music, and photography) will be presented in an historical perspective.
ETHS 235 C  THE CIVIL RIGHTS MOVEMENT
3 Units
(Same as SOC 235 C)
Three hours lecture per week.
UC/CSU, CSU GE, CUL PL
This course will explore the principal factors that gave rise to the Civil Rights Movement of the 1950s and 1960s. Sociological models of collective behavior and social movements are utilized to analyze social structures, existing conditions, leadership, goals and tactics, organization, successes and failures and long term results of the Movement.

ETHS 298 C  ETHNIC STUDIES SEMINAR
½ - 3 Units (Variable Unit Class) (May be taken for credit 4 times)
One-half to three hours lecture per week.
UC Credit Limitation/CSU
This is a lecture/discussion course focusing on a particular limited problem or topic of interest to students. It is designed for students who wish to increase their knowledge of a particular topic concerning which no other regular class is offered. A paper or group activity may be requested. Consult the class schedule for the offerings in a particular semester.

ETHS 299 C  ETHNIC STUDIES IND STUDY
½ - 2 Units (Variable Unit Class) (May be taken for credit 4 times)
One-half to two hours conference per week.
UC Credit Limitation/CSU
Prerequisite: Dean approved Independent Study Learning Contract. Independent study is for students who wish to extend their knowledge of a particular area through individual research and study. It is thought that topics might develop out of a curiosity stimulated in a regular class. The student would then contact the supervising instructor to develop a contact for his/her particular interest so he/she could learn more regarding their special topic.

Flight Attendant - See Airline and Travel Careers (ATC)

Foreign Language
For specific foreign language courses see Chinese, Japanese, French and Spanish.
FOREIGN LANGUAGE TRANSFER PROGRAM
Students should consult a counselor or www.assist.org for lower division major requirements for most California public universities. (See the Standard Definitions section of the catalog for a description of ASSIST.) Students transferring to an independent college/university should consult the catalog of the individual school and a counselor for lower division major requirements.

FREN 053 C  BASIC SPOKEN FRENCH
3 Units (May be taken for credit 2 times)
Three hours lecture per week.
Credit/No Credit/Letter Grade Option
This is an introductory course emphasizing oral practice, pronunciation, and vocabulary development. It is designed to develop a speaking knowledge of French for use in everyday conversational situations. It is an ideal preparation for college-level language classes for students with limited language skills. It is not open to native speakers of the language.

FREN 098 C  FRENCH SEMINAR
½ - 3 Units (Variable unit class) (May be taken for credit 4 times)
One half to three hours lecture per week.
Credit/No Credit/Letter Grade Option
This seminar is for students who wish to extend their knowledge of literature, language and culture through small group discussion.

Forestry
FORESTRY TRANSFER PROGRAM
CALIFORNIA STATE UNIVERSITY, HUMBOLDT
Students should consult a counselor or www.assist.org for lower division major requirements for most California public universities. (See the Standard Definitions section of the catalog for a description of ASSIST.) Students transferring to an independent college/university should consult the catalog of the individual school and a counselor for lower division major requirements.

FREN 053 C  BASIC SPOKEN FRENCH
3 Units (May be taken for credit 2 times)
Three hours lecture per week.
Credit/No Credit/Letter Grade Option
This is an introductory course emphasizing oral practice, pronunciation, and vocabulary development. It is designed to develop a speaking knowledge of French for use in everyday conversational situations. It is an ideal preparation for college-level language classes for students with limited language skills. It is not open to native speakers of the language.

FREN 098 C  FRENCH SEMINAR
½ - 3 Units (Variable unit class) (May be taken for credit 4 times)
One half to three hours lecture per week.
Credit/No Credit/Letter Grade Option
This seminar is for students who wish to extend their knowledge of literature, language and culture through small group discussion.
FREN 101 C ELEMENTARY FRENCH I
5 Units
Five hours lecture and
One hour laboratory TBA per week.
Credit/No Credit/Letter Grade Option
UC/CSU, AA GE, CSU GE, CAN FREN 2
Prerequisite: Eligibility for ENGL 100 C or successful prior experience in French. The course emphasizes the acquisition of basic skills in pronunciation, listening, speaking, reading, and writing. Students will be introduced to the culture, history, and geography of France and other French-speaking countries through lectures, slides, films, and reading assignments.

FREN 102 C ELEMENTARY FRENCH II
5 Units
Five hours lecture and
One hour laboratory TBA per week.
Credit/No Credit/Letter Grade Option
UC/CSU, AA GE, CSU GE, IGETC, CAN FREN 4
Prerequisite: FREN 101 C with a grade of “C” or better or one year of high school French with average grade of “C” or better is recommended. The course continues to emphasize the acquisition of basic skills in pronunciation, listening, speaking, reading, and writing. Students will increase their knowledge of the culture, history, and geography of France through lectures, slides, films, and reading and writing assignments.

FREN 200 C CONVERSATIONAL FRENCH
2 Units (May be taken for credit 4 times)
Two hours lecture per week.
Credit/No Credit/Letter Grade Option
CSU, CSU GE
Prerequisite: FREN 102 C. This is a course in practical conversation with emphasis on the idiomatic use of the language. Topics concern French life, culture, and current events. Students prepare for this class through the study of the textbook, magazines, newspapers, and other current material and encounters. This course is conducted wholly in French.

FREN 203 C INTERMEDIATE FRENCH III
4 Units
Four hours lecture and
One hour laboratory TBA per week.
Credit/No Credit/Letter Grade Option
UC/CSU, AA GE, CSU GE, IGETC, CAN FREN 8
Prerequisite: FREN 102 C with a grade of “C” or better or two years of high school French with an average grade of “C” or better is recommended. The course emphasizes the acquisition of an expanded vocabulary and grammatical information to develop speaking, reading and writing skills. New cultural, historic and literary material is introduced through lectures, reading and writing assignments. This course is conducted in French.

FREN 204 C INTERMEDIATE FRENCH IV
4 Units
Four hours lecture and
One hour laboratory TBA per week.
Credit/No Credit/Letter Grade Option
UC/CSU, AA GE, CSU GE, IGETC, CAN FREN 10
Prerequisite: FREN 203 C with grade of “C” or better or three years of high school French with an average grade of “C” or better is recommended. The course emphasizes the mastery and application of all grammatical rules. It requires more advanced reading of modern and classical French, as well as a continued emphasis on oral and written expression. It is designed to help the student acquire a working knowledge of the language and to form the basis for advanced work in literature and science. Continued readings and discussions of French life and culture are an essential factor.

FREN 298 C FRENCH SEMINAR
⅓ - 3 Units (Variable Unit Class) (May be taken for credit 4 times)
One half to three hours lecture per week.
Credit/No Credit/Letter Grade Option
UC Credit Limitation/CSU
This seminar is for able students who wish to extend their knowledge of literature, language and culture through small group discussion.

FREN 299 C FRENCH INDEPENDENT STUDY
⅓ - 2 Units (Variable Unit Class) (May be taken for credit 3 times)
Two hours conference per week for maximum credit.
Credit/No Credit/Letter Grade Option
UC Credit Limitation/CSU
Prerequisite: Approved Independent Study Learning Contract. This course is designed for able students who wish to increase their knowledge of the French language through individual study or research.

GEOGRAPHY TRANSFER PROGRAM

MOST CALIFORNIA STATE UNIVERSITIES AND UNIVERSITIES OF CALIFORNIA

Students should consult a counselor or www.assist.org for lower division major requirements for most California public universities. (See the Standard Definitions section of the catalog for a description of ASSIST.) Students transferring to an independent college/university should consult the catalog of the individual school and a counselor for lower division major requirements.

Geography (GEOG)

GEOG 098 C  GEOGRAPHY NON-TRANSFER SEMINAR

1⁄2 - 2 Units (Variable Unit Class) (May be taken for credit 4 times)

Lecture/discussion hours will vary with credit given.

Prerequisite: May be required. (See class schedule). This course offers a lecture/discussion approach to particular problems for students who wish to increase their knowledge of subjects which are not of a nature generally taught in college. Various topics will be offered according to the interests of the instructor and students as stated in the class schedule. Various types of measuring devices will be used and unit credit may range from 1⁄2 to 2 non-transfer units in any given semester. Consult the class schedule to verify credit for a particular term.

GEOG 100 C  WORLD GEOGRAPHY

3 Units

Three hours lecture per week.

UC Credit Limitation/CSU, AA GE, CSU GE, IGETC

An introduction to today’s physical and political regions emphasizing location, population, political status, land use problems and potentialities and providing opportunities for worldwide research with the use of advanced technology. Duplicate credit not granted for GEOG 100HC.

GEOG 100HC  HONORS WORLD GEOGRAPHY

3 Units

Three hours lecture per week.

UC Credit Limitation/CSU, AA GE, CSU GE, IGETC

An enhanced introduction to today’s physical and political regions emphasizing location, population, political and economic status, differences and similarities, problems and potential and providing opportunities for worldwide research with the use of advanced technology. Duplicate credit not granted for GEOG 100 C.

<td>GEOGRAPHIC INFORMATION SYSTEMS: ADVANCED APPLICATIONS - INTERNSHIP AND FIELDWORK</td>
<td>3</td>
<td>CSU</td>
<td>Internships and fieldwork comprise a significant portion of the students’ work in this Geographic Information Systems (GIS) course. Students are required to participate in 125 hours of supervised field study per semester (7 hours per week) and one hour lecture per week to discuss problem areas related to fieldwork.</td>
</tr>
</tbody>
</table>
GEOG 234 C CURRENT TOPICS IN GIS
3 Units (May be taken for credit 4 times.)
Two hours lecture and
Three hours laboratory per week.
Credit/No Credit/Letter Grade Option
CSU
This is an advanced lecture/discussion project type course
designed to cover current issues and advances in Geo-
graphic Information Systems. It is designed for students who
have experience in GIS applications and wish to update their
knowledge and working skills. A final semester project, utiliz-
ing GIS for a project chosen by the student will be required.
$4.00 Laboratory Fee – PAYABLE AT THE BOOKSTORE.

GEOG 260 C ECONOMIC GEOGRAPHY
3 Units
(Same as ECON 260 C)
Three hours lecture per week.
UC/CSU, CSU GE, IGETC
This course is an investigation and interpretation of the
world’s economic organization, its natural resources, raw
materials, crops and crop production, manufacturing and
service industries, new trends in producing and the changing
centers of production and consumption.

GEOG 298 C GEOGRAPHY SEMINAR
½ - 3 Units (Variable Unit Class) (May be taken for
credit 4 times)
Lecture/discussion hours will vary
with credit given.
UC Credit Limitation/CSU
Prerequisite: May be required. (See class schedule). This is a
lecture/discussion type course developed on a particular
limited problem or topic of interest to students. It is designed
for able students who wish to increase their knowledge of a
particular topic concerning which no other regular class is
offered. A paper or group activity may be requested. Credit
may range from ½ unit to 3 units. Consult class schedule for
the offerings a particular semester.

GEOG 299 C GEOGRAPHY INDEPENDENT
STUDY
1 Unit (May be taken for credit 3 times)
Varying hours of scheduled conferences per week accord-
ing to instructor.
UC Credit Limitation/CSU
Prerequisite: Approved Independent Study Learning Con-
tact. Independent study is for able students who wish to
extend their knowledge of a particular area through individual
research and study. It is thought the topics might develop out
of a curiosity stimulated in a regular class. The student would
then contact the supervising instructor to develop a contract
for his/her particular interest so that they could learn more
regarding their specific topic.

GEOL 055 C GEOLOGIC WORK EXPERIENCE
1-4 Units (Variable Unit Class)
One hour lecture and
Five hours supervised employment per week
in geologically related work for each unit of credit.
Prerequisite: Completion of, or concurrent enrollment in,
GEOL 150 C, GEOL 151 C or GEOL 250 C. This course pro-
vides on-the-job training for selected students with approved
firms. It includes job analysis, job applications, interview, and
employee-employer relations. The course offers practical
experience in geology related fields.

GEOL 100 C PHYSICAL GEOLOGY
3 Units
Three hours lecture per week.
UC/CSU, AA GE, CSU GE, IGETC, CAN GEOL 6
This course is a survey of the composition and structure of
the earth, integrating the processes and forces that operate
underneath and upon the earth’s surface. High school
physics or chemistry, or equivalent is recommended back-
ground. (Not open to students with credit in GEOL 102 C.)

GEOL 101 C PHYSICAL GEOLOGY
LABORATORY
1 Unit
Three hours laboratory per week.
UC/CSU, AA GE, CSU GE, IGETC
Prerequisite: Completion of, or concurrent enrollment in,
GEOL 100 C. This course includes the identification of min-
erals and rocks; understanding of topographic maps, aerial
photographs and other imagery from remote sensing; inter-
pretation of rocks, structures, and geologic processes as
revealed on maps, air photos, and satellite imagery and their
relationship to plate tectonics. (Not open to students with
credit in GEOL 102 C.)
GEOL 102 C  PHYSICAL GEOLOGY - LECTURE/LAB
4 Units
Three hours lecture
Three hours laboratory per week.
UC/CSU, AA GE, CSU GE, IGETC, CAN GEOL 2
This course is an introductory study of the composition, structure, and geologic features of the earth, with emphasis upon the physical forces and events which govern the origin, distribution and change of the earth and its surface. The laboratory work includes identification of rocks and minerals, interpretation of topographic maps and geologic survey data, study of landforms and rock structures, and some field trips. High school physics or chemistry is recommended background. (Not open to students with credit in GEOL 100 C or GEOL 101 C.)

GEOL 103 C  HISTORICAL GEOLOGY
4 Units
Three hours lecture and
Three hours laboratory per week.
UC/CSU, AA GE, CSU GE, IGETC, CAN GEOL 4
This course is an introduction to the scientific method of exploring planetary materials and structures in understanding the origin and development of the earth and its organisms through time. Laboratory involves examining and classifying rock and fossil specimens, analyses of rock and fossil records found on and in the earth, and application of rock and fossil interpretations to historical geology.

GEOL 110 C  GEOLOGIC PHENOMENA
3 Units
Three hours lecture per week.
CSU
This course is designed to acquaint the student with geologic problems and solutions which may affect the student in such areas as catastrophic events, exploration and depletion of natural resources, and geologic methods.

GEOL 115 C  PHYSICAL GEOLOGY FIELD LAB
1 Unit
Three hours laboratory per week.
UC Credit Limitation/CSU, AA GE, CSU GE, IGETC
This course includes field and laboratory study of mineral, rock, and fossil identification; structural and geomorphic features; geologic history; and geologic hazards of selected regions in Southern California. (Not open to students with credit in GEOL 101 C or GEOL 102 C.)

GEOL 120 C  GEOLOGY OF CALIFORNIA
3 Units
Three hours lecture per week.
UC/CSU, AA GE, CSU GE, IGETC
This course is designed to acquaint the student with the physical and historical geology of the natural provinces of California. The mineral deposits, stratigraphic and rock units, tectonic structures, fossils and geomorphology within each province will be examined.

GEOL 130 C  INTRODUCTION TO OCEANOGRAPHY
3 Units
Three hours lecture per week.
UC/CSU, AA GE, CSU GE, IGETC
This course is a survey of the composition and structure of the earth's ocean showing the interrelationship between atmosphere, hydrosphere, lithosphere, and biosphere. The effects of modern technology, ocean resources, and marine pollution will be explored.

GEOL 131 C  INTRO TO OCEANOGRAPHY LAB
1 Unit
Three hours laboratory per week and selected field trips.
UC/CSU, AA GE, CSU GE, IGETC
Prerequisite: Completion of, or concurrent enrollment in, GEOL 130 C. This course includes the identification of earth materials; understanding of bathymetric charts; basic navigation; and methods of oceanographic research.

GEOL 150 C  GEOLOGY TECHNOLOGY
4 Units
Three hours lecture
Two hours laboratory per week.
CSU
Prerequisite: Completion of, or concurrent enrollment in, GEOL 102 C, or GEOL 100 C and GEOL 101 C. This course includes the techniques for development of geologic maps, cross sections, display charts and geologic photography, including remote sensing. It also includes practice in lettering, scaling, and three-dimensional illustration through orthographic and auxiliary projections as applied to preparation and interpretation of geologic maps. Other topics considered include geologic drilling procedures, paleontological and core sampling techniques, and methods used for analysis of geologic samples. Materials, equipment and supplies used by geologists, including their acquisition, operation, maintenance and inventory will be presented. It is recommended that ENGT 101 C be taken prior to, or concurrently with, GEOL 150 C.

GEOL 151 C  GEOLOGY TECHNOLOGY
4 Units
Three hours lecture
Two hours laboratory per week.
CSU
Prerequisite: GEOL 102 C, or GEOL 100 C and GEOL 101 C. This course is the study of construction of a stratigraphic section through use of thickness measurements, use of the Brunton and alidade instruments, field sampling and note taking, and preparation of geologic samples. The use of the computer for analysis of geologic data is considered. An introduction to engineering geology, soils engineering, and geo-physical surveying for geology technicians is presented.

GEOL 180 C  SUMMER FIELD GEOLOGY
5 Units (May be taken for credit 4 times)
Eighteen hours lecture and
Fourteen hours laboratory per week for 4 weeks.
Credit/No Credit/Letter Grade Option
CSU, CSU GE
This four week course consists of two weeks of classroom preparation in the geology of selected areas of the United States and other countries and two weeks of driving, camping, hiking, mapping and collecting through such parks as Zion, Bryce, Capital Reef, Dinosaur, Grand Canyon, Hawaii Volcanoes and Mt. McKinley.
GEOL 190 C ENVIRONMENTAL GEOLOGY
3 Units
Three hours lecture per week.
UC Credit Limitation /CSU, AA GE, CSU GE, IGETC
This course is designed for the non-science major and will integrate the significant principles and concepts of the solid earth, atmosphere, space and hydrospace and relate them to the environment, with special emphasis on resources, wastes and hazards. The perspective will focus on ways in which earth processes generate the varieties of resources useful in humans in the form of metal, non-metals, energy, water, ocean and soil. Hazards such as liquid, solid and radioactive wastes and their effects on environmental deterioration will be studied. Natural hazards such as floods, faults, landslides and earthquakes will be examined. (The course is not open to students who have completed GEOL 100 C or GEOL 102 C.)

GEOL 196 C REGIONAL FIELD GEOLOGY
1 - 2 Units (Variable Unit Class) (May be taken for credit 4 times)
One hour lecture and
Three hours field work per week or equivalent.
Credit/No Credit/Letter Grade Option
CSU
Prerequisite: Completion of, or concurrent enrollment in, GEOL 100 C or GEOL 102 C. This course involves lecture and field study of selected geologic processes of California and other areas. During a given semester, multiple sections may be offered to different study areas or for different selected topics. Study areas include, but are not limited to, Mojave Desert, the Sierra Nevada and coastal ranges. Field trips are required.

GEOL 220 C MINERALOGY
4 Units
Three hours lecture
Three hours laboratory per week.
UC/CSU, IGETC
Prerequisite: GEOL 102 C and CHEM 107 C. The course is the study of the origin, classification, identification, and description of rocks and minerals, with emphasis upon their crystal structure and chemical and physical properties. A consideration of mineral ores and sources, mining and refining methods, and associated economic factors is included. Laboratory work includes simple chemical identification tests of geological specimens through blowpipe analysis, solution methods, and electrochemical instrumentation techniques.

GEOL 250 C GEOLOGY TECHNOLOGY
4 Units
Three hours lecture
Two hours laboratory per week.
CSU
Prerequisite: GEOL 151 C. This course is a continuation of GEOL 150 C and GEOL 151 C with emphasis on field work, including contact mapping, fault mapping, and development of a complete geologic map. Sample analysis of stratigraphic sections and cross sections will be considered. Project work includes research of geologic resource materials and preparation of a complete geologic report utilizing information and techniques presented in GEOL 150 C and GEOL 151 C. Employment opportunities, job applications and the development of a resume will complete the program.

GEOL 298 C GEOLOGY SEMINAR
1⁄2 - 3 Units (Variable Unit Class) (May be taken for credit 4 times)
Lecture/discussion or laboratory hours vary according to credit given.
UC Credit Limitation/CSU
Prerequisite: Concurrent enrollment in any geology course. The seminars are designed to enhance and intensify knowledge in a variety of geologic topics. They may include lectures, discussions, and field excursions at the discretion of the instructor. Specific topics for seminars will be listed in the class schedule for a particular semester.

German (GERM)
GERMAN TRANSFER PROGRAM
Students should consult a counselor or www.assist.org for lower division major requirements for most California public universities. (See the Standard Definitions section of the catalog for a description of ASSIST.) Students transferring to an independent college/university should consult the catalog of the individual school and a counselor for lower division major requirements.

GERM 053 C BASIC SPOKEN GERMAN
3 Units (May be taken for credit 2 times)
Three hours lecture per week.
Credit/No Credit/Letter Grade Option
This is an introductory course emphasizing oral practice, pronunciation, and vocabulary development. It is designed to develop a speaking knowledge of German for use in every-day conversational situations. It is an ideal preparation for college-level language classes for students with limited language skills. It is not open to native speakers of the language.
GERM 101 C  ELEMENTARY GERMAN I
5 Units
Five hours lecture and
One hour laboratory TBA per week.
Credit/No Credit/Letter Grade Option
Credit by Examination
UC/CSU, AA GE, CSU GE, CAN GERM 2
Prerequisite: Eligibility for ENGL 100 C or successful prior experience in German. The course emphasizes the acquisition of basic skills in pronunciation, listening, speaking, reading and writing. Students will be introduced to the culture, history, and geography of Germany through lectures, slides, films, dialogues and reading assignments.

GERM 102 C  ELEMENTARY GERMAN II
5 Units
Five hours lecture and
One hour laboratory TBA per week.
Credit/No Credit/Letter Grade Option
Credit by Examination
UC/CSU, AA GE, CSU GE, IGETC, CAN GERM 4
Prerequisite: GERM 101 C with grade of “C” or better, or one year of high school German with average grade of “C” or better is recommended. The course continues to emphasize the acquisition of basic skills in pronunciation, listening, speaking, reading, and writing. Students will be introduced to further elements of the culture, history, and geography of Germany and German speaking countries through lectures, slides, films, dialogues and reading assignments.

GERM 299 C  GERMAN INDEPENDENT STUDY
½ - 2 Units (Variable Unit Class) (May be taken for credit 3 times)
Two hours conference per week for maximum credit.
Credit/No Credit/Letter Grade Option
UC Credit Limitation/CSU
Prerequisite: Approved Independent Study Learning Contract. This course is designed for able students who wish to increase their knowledge of the German language through individual study or research. Unit credit may range from ½ to 2 units in any given semester. Consult the class schedule to verify credit for particular term.

HEALTH INFORMATION TECHNOLOGY
ASSOCIATE IN SCIENCE DEGREE PROGRAM
AND HEALTH INFORMATION TECHNOLOGY CERTIFICATE

Courses in Health Information Technology prepare individuals to become health information specialists. The health information technician is a member of the health care team assuring that documentation is consistent with professional standards and licensure requirements. To accomplish this, health information technicians monitor and track information recorded in a patient’s medical record which includes the medical history, physical examination, progress notes reflecting treatment, and laboratory and radiology reports. Interacting with physicians, administrators, nurses and other allied health professionals, the health information technician quantifies, manages, and interprets the health record data that becomes the basis for crucial medical and financial decisions. The health information technician functions as the patient advocate in protecting the confidentiality of sensitive health care information recorded in the medical record.

To fulfill these responsibilities, health information technicians develop a broad range of skills. Their clinical knowledge base is essential for them to read and interpret the medical record. Processing health information involves usage of computers and computer applications. In safeguarding medical information, the health information technician becomes familiar with the legal aspects inherent in the delivery of patient care. Health information technicians develop managerial skills working as supervisors and directors of health information departments.

Most (60%) health information technicians currently work in health care facilities where they organize, analyze and generate health data for treatment, reimbursement, planning, quality assessment and research. Other employers of health information professionals include medical group practices, government agencies, insurance companies, utilization review organizations, health maintenance organizations, cancer centers, and consulting firms. Health information specialists can also work in sales and marketing positions for companies that design and supply information systems and materials for health information/medical record departments.

Graphic Arts – See Art – Computer Graphics (ACG)
The program is accredited by the Commission for Accreditation of Allied Health Education Programs in collaboration with the American Health Information Management Association. Graduates of the program are, therefore, eligible to take the national qualifying examination leading to certification as a Registered Health Information Technician.

MINIMUM STANDARDS FOR ENROLLMENT
High school graduation, or completion of the General Education Development (GED) test with a minimum score of 45, or high school proficiency examination.

ENROLLMENT PROCEDURES
1. Students may enroll in either the fall or spring semester.
2. Submit application to College. Students are responsible for furnishing all documents, records, forms and transcripts indicating minimum standards to the Counseling Office.
3. Complete an HI Program Personal Data Sheet. These data sheets may be obtained from the Health Science Counseling Office, Cypress College, 9200 Valley View, Cypress, CA 90630.

REQUIRED CURRICULUM
Transferability of health information is determined by the individual receiving college. To earn an Associate Degree students must complete: (1) all major course requirements with a minimum grade of “C”; (2) 25 units of General Education Graduation Requirements; (3) the cultural pluralism and reading requirements; (4) any elective courses to complete a minimum of 60 units; and, (5) have a minimum GPA of 2.0. At least 50% of all major course work must be completed at Cypress College.

It is recommended that the following required courses be taken prior to enrolling in the Program.

<table>

***This course is a non-paid laboratory experience. Students are assigned to a health care agency.

HEALTH INFORMATION TECHNOLOGY CERTIFICATE
To earn a certificate, students must (1) document a minimum of an Associate Degree; and (2) complete all major course work with a minimum grade of “C”. At least 50% of all major course work must be completed at Cypress College.

HEALTH CARE MANAGEMENT AND SUPERVISION CERTIFICATE
This certificate program helps prepare students to work in the health care field in a management or supervisory capacity. Preparing students to work in a variety of health care delivery settings, including physicians’ offices, hospitals, health maintenance organizations, and insurance companies, the certificate focuses on the leadership, motivation, organization, planning, and other skills needed to manage or supervise others. Created for both (a) students with allied health credentials and (b) students with general business or office experience, it is designed to help students gain entry into the health care field, to move into supervisory positions, and/or to advance in their current positions.

To earn a certificate, complete the required courses as listed with a minimum grade of “C”. At least 50% of all course work must be completed at Cypress College.

Required courses are listed in numeric sequence:

Total Units Required 16

HEALTH CARE MARKETING AND SALES CERTIFICATE
This certificate program provides students with the necessary knowledge and skills to work in the health care field in a marketing or sales capacity. Preparing students to work in a variety of health care delivery settings, including physicians’ offices, hospitals, health maintenance organizations, and insurance companies, the certificate focuses on such areas as: sales and customer service, marketing research, advertising, public relations, and community outreach. It is designed to help students gain entry into the health care marketing and sales field and/or to advance in their current positions.

To earn a certificate, complete the required courses as listed with a minimum grade of “C”. At least 50% of all course work must be completed at Cypress College.
HEALTH INFORMATION CODING CERTIFICATE
Option of the Health Information Technology Program
Because coding is at the heart of both health care reimbursement and clinical analysis, this extremely important aspect of health information management requires a highly trained and accurate professional. This certificate program prepares the individual to assign numerical codes to diagnoses, symptoms, and procedures using the International Classification of Diseases, Ninth Revision, Clinical Modification (ICD-9-CM) and procedures according to Current Procedural Terminology (CPT). Most third party payers, including the federal government and private insurance companies, require submission of codes as part of the hospital and/or physician billing process. Diagnoses and procedures codes are needed for comparing and tracking diseases, clinical research, statistical reporting, market data and planning.

In addition to a high school diploma or equivalent, on-the-job coding experience and a solid coding education are needed to take the certification examination offered by the American Health Information Management Association to become a Certified Coding Specialist.

Individuals skilled in ICD-9-CM coding are employed as coders for hospitals, physicians’ offices, peer review organizations, health maintenance organizations, ambulatory care facilities, skilled nursing facilities, consulting firms, medical billing firms, or insurance companies.

To earn a certificate, complete the required courses as listed with a minimum grade of “C”. At least 50% of all course work must be completed at Cypress College. Upon successful completion of the required courses, the student will receive a certificate of completion from Cypress College.

MINIMUM STANDARDS FOR ENROLLMENT
1. High school diploma or completion of the General Education Development (GED) test with a minimum score of 45, or high school proficiency tests.

2. Eligibility for ENGL 100 C.

ENROLLMENT PROCEDURES
1. Students may enroll in either the fall or spring semester.

2. Submit application to College. Students are responsible for furnishing all documents, records, forms and transcripts indicating minimum standards to the Counseling Office.

3. Complete an HI Program Personal Data Sheet. These data sheets may be obtained from the Health Science Counseling Office, Cypress College, 9200 Valley View, Cypress, CA 90630.

* This course is a non-paid laboratory experience.

HEALTH UNIT COORDINATOR CERTIFICATE
The health unit coordinator coordinates ancillary services and nonclinical aspects of patient care by performing management, communication, and clerical tasks essential to the functioning of a unit. One of the most important tasks performed by unit coordinators is the transcribing of physician’s orders which requires a knowledge of medical terms, symbols, abbreviations, diagnostic and therapeutic procedures, nursing procedures, body structure and functioning and medical science. The health unit coordinator manages the unit by maintaining functioning and medical science. The health unit coordinator manages the unit by maintaining supplies, preparing reports, and maintaining unit records. Patient charts are maintained by the health unit coordinator who enters data according to health facility policies and procedures as patients are admitted, discharged and transferred within the health care facility. Using a variety of tools ranging from memos to telephones to faxes, the unit coordinator performs communication tasks to keep patients, visitors, physicians and health facility staff informed. Opportunities for health unit coordinators exist in any health care facility, e.g., hospitals, ambulatory clinics, surgicenters, long term care facilities, or home health agencies.

Health unit coordinators need to be intelligent, honest, alert, and dependable. They must be accurate at their tasks, show initiative, and be able to follow directions. The health unit coordinator is very important for the efficient functioning of health care units. Patient welfare depends as much upon the efficiency and effectiveness of this individual as on that of the nursing staff. The National Association of Health Unit Coordinators offers a certifying examination to become a Certified Health Unit Coordinator.

To earn a certificate, complete the required courses as listed with a minimum grade of “C”. At least 50% of all course work must be completed at Cypress College.
MEDICAL INSURANCE BILLING SPECIALIST
CERTIFICATE PROGRAM

The Medical Insurance Billing Specialist Program prepares students for employment as a medical insurance billing specialist. In processing insurance claims for health care providers, the medical insurance specialist assists both the health care provider and the patient organize, file, and negotiate health insurance claims of all types. Their primary goals are to assist the consumer in obtaining maximum benefits as well as to tell the patient what checks to write to providers to make sure there is no overpayment. Medical Insurance Specialists work in a variety of health delivery settings: physician’s offices, ambulatory medical groups, hospitals, ambulatory surgery centers, insurance companies, and managed care organizations.

To earn a certificate, complete the required courses as listed with a minimum grade of “C”. At least 50% of all course work must be completed at Cypress College. Upon successful completion of the required curriculum, the student will receive a certificate of completion from Cypress College.

This program is offered subject to final approval by the Chancellor’s Office of the California Community Colleges and the California Postsecondary Education Commission.

MEDICAL QUALITY REVIEW ASSISTANT
CERTIFICATE

Option of the Health Information Technology Program
Quality management is a process undertaken by hospitals and other providers of health care to determine the quality of patient care services delivered. A Quality Review Assistant will work under the supervision of the Director of Quality Management and perform quality assessment activities. These activities may include such data retrieval activities as occurrence or generic screening, comparing medical records against pre-established criteria, maintaining manual or computerized practitioner profiles, collecting follow-up information, or screening for medical staff monitoring and evaluation activities. Individuals interested in this certificate program are encouraged to schedule an appointment with the Health Information Technology Counselor.

To earn a certificate, complete the required courses as listed with a minimum grade of “C”. At least 50% of all course work must be completed at Cypress College.

MEDICAL RECORD CLERK CERTIFICATE

Option of the Health Information Technology Program
The Medical Record Clerk option prepares the individual to perform entry-level clerical functions in a Medical Record Department of health care facilities. Students will demonstrate competency in processing admissions and discharges, assembling health records, analyzing health records for deficiencies, and filing methods. Individuals interested in this certificate program are encouraged to schedule an appointment with the Health Information Technology Program Counselor.

To earn a certificate, complete the required courses as listed with a minimum grade of “C”. At least 50% of all course work must be completed at Cypress College.

Required Courses are listed in suggested sequence:

*This course is a non-paid laboratory experience. Students are assigned to a hospital.
ASSOCIATE IN SCIENCE DEGREE MEDICAL STAFF SERVICES SCIENCE AND CERTIFICATE IN MEDICAL STAFF SERVICES SCIENCE

A Medical Staff Services Professional is a professional administrative assistant who coordinates the activities of the organized medical staff and serves as liaison between the Medical Staff, Nursing Staff, and Administration within parameters established by the Chief Executive Officer of the Hospital. This exciting position offers top management interfacing with Board of Directors, Medical Staff Officers and other leaders in the medical field. The Medical Staff Services Professional assists the medical staff in fulfilling its major responsibility to monitor the quality of patient care delivered by all physicians who are members of the medical staff.

Upon completion of this Associate Degree in Medical Staff Services Science and three years experience, the student is eligible to write the examination offered by the National Association of Medical Staff Services to become a Certified Medical Staff Coordinator. Please refer to www.namss.org for additional information on CMSC exam eligibility.

MINIMUM STANDARDS FOR APPLICANTS

High school graduation or completion of the General Education Development (GED) test with a minimum score of 45 or high school proficiency tests.

APPLICATION PROCEDURES

1. Students may enroll in either the fall or spring semester, or semesters.

2. Submit application to College. Students are responsible for furnishing all documents, records, forms and transcripts indicating minimum standards to the Counseling Office.

3. Complete an HI Technology Program Personal Data Sheet. These data sheets may be obtained from the Health Science Counseling Office, Cypress College, 9200 Valley View, Cypress, CA 90630.

ASSOCIATE IN SCIENCE DEGREE

To earn an Associate Degree students must complete: (1) all major course requirements with a minimum grade of “C”; (2) 25 units of General Education Graduation requirements; (3) the cultural pluralism and reading requirements; (4) any elective courses to complete a minimum of 60 units; and, (5) have a minimum GPA of 2.0. At least 50% of all major course work must be completed at Cypress College.

REQUIRED CURRICULUM

It is recommended that the following three required courses be taken prior to enrolling in the Health Information Technology courses:

Total Units Required 47

*This course is a non-paid laboratory experience. Students are assigned to a hospital.

Health Information Technology (HI)

**HI 080 C  SELECTED TOPICS**

½ - 8 Units (Variable Unit Class) (May be taken for credit 4 times)

Variable hours lecture and
Variable hours laboratory per week.
Credit/No Credit/Letter Grade Option

This course is designed to meet the health information technology student's need for current topics and issues, updated information in health care review of specialized subject matter and/or preparation for health information related certification exams. Content will emphasize clinical application of theoretical principles in the discipline. Computer software, videotapes, resource materials, instructor assessment of individual student knowledge and skills will be utilized.

**HI 100 C  TRENDS IN HEALTH CARE DELIVERY**

2 Units

Two hours lecture per week.

CSU

This course investigates how and where health care is delivered in the United States and examines the different types of health care practitioners; professional healthcare associations; the role of federal, state and local governments in health care; and the impact of managed care organizations. How consumers pay for health care as well as how health care providers receive reimbursement for services are discussed. The principles of customer focused health care are discussed. Current issues affecting the delivery of health care are emphasized. The course is recommended for students interested in health care or preparing for careers in health care.

<tbody>
<tr>
<td>HI 101 C</td>
<td>HEALTH INFORMATION SCIENCE</td>
<td>3</td>
<td>2 hours lecture and 3 hours laboratory per week. CSU</td>
<td>This course is an in-depth investigation of the generic components of the content, use and structure of health care data and data sets and how these components relate to primary and secondary health record systems. Emphasis will be placed on the content of the health record and documentation requirements pursuant to federal/state regulations and voluntary accrediting body standards. Discussions will focus on health care data sets. Laboratory activities will include data entry; assembly and analysis of medical records; filing and retrieval of information; and reading and interpreting medical records. $3.00 Laboratory Fee - PAYABLE AT REGISTRATION.</td>
</tr>
<tr>
<td>HI 102 C</td>
<td>LEGAL ASPECTS OF HEALTH CARE</td>
<td>2</td>
<td>Two hours lecture per week. CSU</td>
<td>The focus of this course is on the legal and ethical issues affecting health care industry, health care providers, and health information managers. State laws, federal regulations, and case precedents form the basis for class discussion. Topics include tort law; confidentiality and release of medical information; informed consent; corporate and personal liability; patient rights; negligence and medical malpractice; contract and labor law; and ethics. Special emphasis is placed on the procedures for safeguarding the security of health care data to prevent inappropriate disclosure of confidential health information.</td>
</tr>
<tr>
<td>HI 103 C</td>
<td>HEALTH CARE STATISTICS</td>
<td>3</td>
<td>Two hours lecture and Three hours laboratory per week. CSU</td>
<td>Prerequisite: HI 101 C with a grade of “C” or better. This course focuses on the effective collection, presentation, and verification of healthcare data necessary for the preparation of administrative and clinical reports. The role of data in clinical research, vital statistics and epidemiology will be discussed. Laboratory activities will focus on manual and automated data presentation techniques and on the interpretation and analysis of healthcare data. The role of the health information professional in transforming data into meaningful information for use in clinical and financial decision-making will be stressed. Data reliability and validity will be emphasized.</td>
</tr>
<tr>
<td>HI 104 C</td>
<td>HEALTH CARE UNIT COORDINATION</td>
<td>4</td>
<td>Three hours lecture and Three hours laboratory per week. CSU</td>
<td>Prerequisite: HS 145 C or equivalent. This course focuses on the development of the knowledge and skills integral to successful coordination of the nonclinical aspects of patient care on a health care unit. Information will be provided on how to admit/discharge/transfer patients; transcribe physicians orders; maintain patient charts and nursing kardex; facilitate communication among patients, visitors, physicians, and nursing staff; maintain and update patient information systems; and respond to medical/nonmedical emergencies. Course content will examine the relationship between an efficient health care unit and the quality of patient care.</td>
</tr>
<tr>
<td>HI 105 C</td>
<td>DIRECTED PRACTICE I</td>
<td>4</td>
<td>Three hours lecture and Four hours directed practice per week. CSU</td>
<td>Prerequisite: HI 101 C and CIS 111 C and enrollment in the Health Information Technology Program. This course is an investigation of the components of the content, use, and structure of health care data and data sets in the following alternative health care settings: long term care, home health, hospice, ambulatory care, behavioral health and rehab services. Emphasis is on analyzing the content of the health record and documentation requirements pursuant to federal/state regulations and voluntary accrediting body standards. Discussions will focus on the opportunities for health information management professional in these different settings. Directed practice activities will focus on the abstracting of data, analysis of findings, and preparation of reports in the alternative health care settings. Students are assigned to an affiliated health related agency for supervised directed practice. Students shall have the status of learner and shall not be considered agency employees, nor shall they replace agency staff. Directed practice is conducted as a nonpaid, laboratory experience.</td>
</tr>
<tr>
<td>HI 110 C</td>
<td>MEDICAL INSURANCE BILLING</td>
<td>3</td>
<td>Three hours lecture per week. CSU</td>
<td>This course focuses on the principles and mechanics of ambulatory care and medical office billing and will cover the entire billing process from the initial verification of insurance benefits, to the submission of the claim form, and to final collections process. It provides exposure to the many types of private and governmental insurance: Medicare, Medicaid, Blue Cross, health maintenance organizations, workers’ compensation, etc. CPT and ICD-9-CM coding principles related to claims submissions will focus on the use of complete diagnostic coding, CPT modifiers and HCPCS Level II codes. The advantages of electronic claims submission will be discussed. Students will learn to complete insurance claim Form 1500, the universally accepted billing format for medical offices.</td>
</tr>
<tr>
<td>HI 112 C</td>
<td>COMPUTERIZED MEDICAL INSURANCE BILLING</td>
<td>2</td>
<td>Two hours lecture per week. CSU</td>
<td>Corequisite: Completion of or concurrent enrollment in HI 110 C or employed as a medical insurance biller. This course focuses on the use of advanced medical practice software for automating medical insurance billing and medical office management. Course activities will include hands on computer practice in data entry, line item posting, electronic submission of claims, and posting payments and adjustments. Computer reports will be used to tracer delinquent accounts and age accounts. Computerized daily reports, bank statements, accounts receivable and related reports will be demonstrated.</td>
</tr>
</tbody>
</table>
HI 115 C  MEDICAL STAFF SERVICES  
3 Units  
Three hours lecture per week.  
CSU  
This comprehensive introductory course in fundamental concepts, principles and organization of the hospital and the medical staff services department includes the purpose and role of an organized medical staff; initial staff appointment; reappointment; privilege delineation; preparing agendas and writing minutes; and monitoring and documenting proctoring, peer review, and quality review. A primary focus of the course is the guidelines for credentialing of physicians and allied health professionals in not only the hospital but also managed care settings. The organization of health care facilities and interdepartmental relationships is discussed. Emphasis will be placed on standards of voluntary accrediting agencies and regulations of federal and state licensing agencies. This course will provide useful information to the individual responsible for credentialing in a managed care organization and is good preparation for the CMSC and CPCs credentialing exams.

HI 203 C  MEDICAL QUALITY MANAGEMENT  
2 Units  
Two hours lecture per week.  
CSU  
Prerequisite: HS 145 C or background in medical terminology. This course is an introduction to the principles of the quality management and improvement process in health care and provides a framework for gaining skills in collecting and analyzing data. Course content includes total quality management, utilization and resource management, risk management, clinical paths, and medical staff peer review. Emphasis is placed on the JCAHO performance improvement standards. Activities focus on the use of quality improvement tools to collect and present quality management data.

HI 204 C  ICD-9-CM CODING  
3 Units  
Two hours lecture and  
Three hours laboratory per week.  
CSU  
Prerequisite: HS 101 C, HS 145 C, and either BIOL 160 C or BIOL 210 C with a grade of "C" or better; or employed as a coder. Principles of nomenclature and classification systems are stressed with emphasis and training in ICD-9-CM. The preparation of abstracts and reports utilizing coding of diseases, conditions, and procedures is addressed with the intention of indexing and retrieving information for administrative, reimbursement and research purposes.

HI 205 C  DIRECTED PRACTICE II  
4 Units  
Three hours lecture and  
Four hours directed clinical practice per week.  
CSU  
Prerequisite: HI 103 C and HI 204 C and counselor approval indicating eligibility to graduate from Health Information Technology Program at the end of the semester. This course will focus on the principles of organization of a health information management department; supervision of human resources in order to develop effective skills in leadership, motivation and team-building techniques; and marketing health information management services. Discussions focus on directed practice activities which will emphasize the collection, analysis and presentation of health care data; quality improvement functions; and coding and abstracting. During the final semester, students are assigned to an affiliated health-related agency for supervised directed practice. Students shall have the status of learner and shall not be considered agency employees, nor shall they replace agency staff. Directed practice is conducted as a nonpaid, laboratory experience.

HI 207 C  CANCER DATA MANAGEMENT  
2 Units  
Two hours lecture per week.  
CSU  
Prerequisite: HI 145 C or employed in the field. Lectures focus on an introduction to the fundamental methods of cancer related data collection consistent with state reporting requirements and voluntary accrediting standards and to the organization of cancer program components and coding. Students will abstract from mock charts.

HI 208 C  CANCER DATA MANAGEMENT  
1 Unit  
Three hours laboratory per week.  
CSU  
Prerequisite: HI 207 C, BIOL 210 C, HS 145 C, or employed in the field. Abstracting fundamentals will be presented. Information on diagnosis, staging and treatment will be presented on the most common sites of cancer. Following this, students will be expected to abstract records on each primary site covered and complete exercises on staging and coding. Students will abstract from mock charts.

HI 210 C  CANCER DATA MANAGEMENT - DIRECTED PRACTICE  
3 Units  
One hour lecture and  
Eight hours laboratory per week.  
CSU  
Prerequisite: HI 207 C, 208 C, and counselor approval indicating eligibility to graduate from Cancer Data Management Program. Lecture and discussion will emphasize selected aspects of cancer data management and supervision. In the supervised experience in performing actual responsibilities which takes place in assigned hospitals and central registries, students shall have the status of learner and shall not be considered agency employees, nor shall they replace agency staff. Directed practice is conducted as a non-paid laboratory experience.

HI 214 C  CPT/AMBULATORY CARE CODING  
3 Units  
Two hour lecture and  
Three hours laboratory per week.  
CSU  
Prerequisite: HI 204 C or employed as a coder. This course focuses on the principles and mechanics of coding procedures according to Current Procedural Terminology and its relationship to the Health Care Common Procedure Coding System (HCPCS). The course will address the requirements for diagnostic and procedure coding in ambulatory care and outpatient surgery centers as well as the relationship of CPT to ambulatory and medical office billing and APCs. In the laboratory, students will solve coding problems using operative reports and encoding software. $3.00 Laboratory Fee - PAYABLE AT REGISTRATION.
HI 215 C  MEDICAL STAFF SERVICES
SCIENCE
2 Units
Two hours lecture per week.
CSU
Prerequisite: HI 115 C. Lecture and discussion focuses on selected aspects of medical staff services departmental management and supervision; due process and peer review hearings; and documentation of Medical Executive Committee activities. Throughout the course, there will be advanced review of office management systems and the student will prepare a medical staff office budget.

HI 220 C  ADVANCED ICD-9-CM CODING
3 Units
Two hour lecture and
Three hours lecture per week.
CSU
Prerequisite: HI 204 C and HS 147 C. Advanced concepts in ICD-9-CM and its application in the prospective payment system are discussed. Lecture will focus on the structure of diagnostic related groups; interpretation of laboratory and radiologic findings; basic pharmacology; and Coding Clinic guidelines. Laboratory activities will include coding actual medical records related to the most common diagnostic related groups using automated encoders. $3.00 Laboratory Fee - PAYABLE AT REGISTRATION.

HI 225 C  INFORMATION TECHNOLOGY
3 Units
Three hours lecture per week.
CSU
Prerequisite: CIS 111 C. This course is an introduction to the concepts of information technology related to health care and the automated tools and techniques for collecting, storing, and retrieving health care data. Emphasis will be on health care information systems, health care networking, telemedicine, telecommunications, image-based document systems, automatic identification and data collection, security and confidentiality, medical informatics, and the computer-based patient record. Activities will center on using file management and spreadsheet applications to automate the collection and analysis of health care information.

HI 245 C  CODING SKILLS LAB
1 - 2 Units (Variable Unit Class) (May be taken for credit 4 times)
(Open Entry/Open Exit)
Three to six hours laboratory per week.
Credit/No Credit/Letter Grade Option
CSU
The focus of this course is one of assisting the students in the development of coding skills and the application of those skills to different types of medical records. Students will code inpatient, emergency department, outpatient surgery, and referred outpatient medical records using the International Classification of Diseases - Ninth Revision - Clinical Modification (ICD-9-CM) and the Healthcare Common Procedure Coding System (HCPCS). The process of interpreting medical record information, choosing the required coding classification and assigning and sequencing codes correctly will be addressed. This course will provide an opportunity for students in the Health Information Technology and Health Information Coding Specialist Programs to demonstrate competencies required for completion of each program. Computer assisted instruction and automated encoders will be used within the course. This course may also be taken to update coding skills.

HI 299 C  INDEPENDENT STUDY
¼ - 2 Units (Variable Unit Class) (May be taken for credit 4 times)
One and a half to two hours lecture per week.
Credit/No Credit/Letter Grade Option
CSU
Prerequisite: Approved Independent Study Learning Contract. This course is designed for students enrolled in the Health Information Technology program or its options who wish to increase their knowledge and experience in applied areas. Students will participate in independent study in assigned areas under staff supervision.

Health Science (HS)

HS 050 C  PREPARATION FOR HEALTH SCIENCE
3 Units
Three hours lecture per week.
Credit/No Credit/Letter Grade Option
This course is designed for students interested in a health science career. The communication, reading and mathematical skills of students will be developed in relation to the various career needs. Remedial and introductory material necessary to enter and complete a Health Science Program are emphasized.

HS 052 C  SELECTED TOPICS - HEALTH SCIENCE
¼ - 2 Units (Variable Unit Class) (May be taken for credit 4 times)
Lecture/discussion hours will vary according to credit given.
Credit/No Credit/Letter Grade Option
Topics related to health science are selected or assigned to enhance training. Films, filmstrips, slides and a variety of resource materials are provided.
HS 055 C RADIOGRAPHY
ASSISTANT/DARKROOM TECHNICIAN
2 Units
Two hours lecture per week.
Credit/No Credit/Letter Grade Option
This course is designed for the student who desires an entry-level job as radiology assistant and/or darkroom technician. The course is a lecture/demonstration class that teaches aseptic technique and darkroom procedures used by Radiology Department personnel in hospitals, physicians’ private offices and clinics. The student gains the knowledge needed to process radiographic film. Film, film holders and intensifying screens are discussed. Patient lifting and transportation procedures required of a Radiology Assistant are demonstrated. Students are required to obtain CPR Certification for this class.

HS 060 C SELECTED TOPICS - NURSING FOUNDATIONS/NURSING PROCESS & PROFESSIONAL NURSING MANAGEMENT I
½ - 2 Units (Variable Unit Class)
Lecture hours vary according to credit given.
Credit/No Credit/Letter Grade Option
Prerequisite: Acceptance in Nursing Program or Psychiatric Technician Program. This course is designed to correlate with Foundations of Nursing and Nursing Process and Professional Nursing Management I, which provides introductory knowledge of the fundamentals of nursing. The assigned topics covered correlate with textbook and module assignments and enhance learning in specific theoretical concepts and nursing techniques. Computer software, video tapes, resource materials, instructor assessment of individual student’s nursing knowledge and skills and individualized instruction are utilized.

HS 061 C SELECTED TOPICS - INTRODUCTORY MEDICAL/SURGICAL NURSING
½ - 2 Units (Variable Unit Class)
Lecture hours vary according to credit given.
Credit/No Credit/Letter Grade Option
Prerequisite: Acceptance in Nursing Program. This course is designed to correlate with NURS 196 C, providing increased knowledge of fundamentals of nursing and more complex nursing skills. The assigned topics covered correlate with the textbook and module assignments and enhance learning in specific theoretical concepts and more complex nursing techniques introduced in NURS 196 C. Films, videotapes, resource materials, instructor assessment of individual student’s nursing knowledge and skills in individualized instruction are utilized.

HS 062 C SELECTED TOPICS - INTERMEDIATE MEDICAL/SURGICAL NURSING
½ - 2 Units (Variable Unit Class)
Lecture hours vary according to credit given.
Credit/No Credit/Letter Grade Option
Prerequisite: Acceptance in Nursing Program. This course is designed to correlate with NURS 292 C, providing an expansion of knowledge of medical/surgical nursing. The assigned topics covered correlate with the textbook and module assignments and aid in providing enhanced learning in specific theoretical concepts and nursing techniques introduced in NURS 292 C. Films, videotapes, resource materials, instructor assessment of individual student’s nursing knowledge and skills in individualized instruction are utilized.

HS 063 C SELECTED TOPICS - MATERNAL/NEWBORN/FAMILY NURSING
½ - 2 Units (Variable Unit Class)
Lecture hours vary according to credit given.
Credit/No Credit/Letter Grade Option
Prerequisite: Acceptance in Nursing Program. This course is designed to correlate with NURS 197 C, providing an expansion of knowledge of maternal health care needs. The assigned topics covered correlate with the textbook and module assignments and enhance learning in specific theoretical concepts and nursing techniques introduced in NURS 197 C. Films, videotapes, resource materials, instructor assessment of individual student’s nursing knowledge and skills in individualized instruction are utilized.

HS 064 C SELECTED TOPICS - PSYCHIATRIC NURSING/NURSING MANAGEMENT VI
½ - 2 Units (Variable Unit Class)
Lecture hours vary according to credit given.
Credit/No Credit/Letter Grade Option
Prerequisite: Acceptance in the Nursing Program. This course correlates with theory, providing enrichment activities enabling the student to better understand psychiatric nursing. The course utilizes audiovisual materials, selected references, as well as group discussion and dialogue.

HS 065 C SELECTED TOPICS - CHILD/FAMILY NURSING
½ - 2 Units (Variable Unit Class)
Lecture hours vary according to credit given.
Credit/No Credit/Letter Grade Option
Prerequisite: Acceptance in Nursing or Psychiatric Technician Program. This is an adjunctive course to be taken concurrently with PT 094 C and/or PT 096 C, or NURS 293 C. This course enables students to utilize the expertise of the instructor/facilitator to meet their self-assessed learning needs. Depth of understanding is increased through the directed use of appropriate audiovisual materials and selected references, as well as group discussion and dialogue.

HS 066 C SELECTED TOPICS - ADVANCED MEDICAL/SURGICAL NURSING
½ - 2 Units (Variable Unit Class)
Lecture hours vary according to credit given.
Credit/No Credit/Letter Grade Option
Prerequisite: Acceptance in the Nursing Program. This course is designed to relate with NURS 297 C. Assigned topics covered correlate with textbook and module assignments in NURS 297 C. Clinical simulations are provided to permit the student practice in the performance of nursing procedures, as well as an opportunity for clinical competency testing. Videos, films, slides, games, resource materials, computer simulations, instructor assessment of student’s nursing knowledge and skills, and individualized instruction are utilized.
HS 067 C  SELECTED TOPICS - LEADERSHIP  
½ - 2 Units (Variable Unit Class)  
Lecture hours vary according to credit given.  
Credit/No Credit/Letter Grade Option  
Prerequisite: Acceptance in the Nursing Program. This course is designed to correlate with NURS 247 C. Depth of understanding of issues related to nursing practice and leadership are increased through the directed use of appropriate audio visual materials and selected references, as well as group discussions and dialogue.

HS 068 C  SELECTED TOPICS - HEALTH CARE AND NURSING NEEDS OF THE OLDER ADULT  
½ - 2 Units (Variable Unit Class) (May be taken for credit 2 times)  
One half hour lecture per week.  
Credit/No Credit/Letter Grade Option  
Prerequisite: Enrollment in NURS 193 C or NURS 294 C. This course will focus on the special nursing and health care needs of the older adult and development of nursing skills necessary to meet those needs. Activities will focus on assisting the student in the further development of assessment skills, interpersonal and communication skills and patient teaching, which are essential in the care of the older adult. This course is an elective for students who desire enrichment in theories related to the care of the older adult.

HS 075 C  MANAGEMENT OF ASSAULTIVE BEHAVIOR  
1 Unit  
One hour lecture per week.  
Credit/No Credit/Letter Grade Option  
This course is designed to teach the student the Miconic System for the management of assaultive behavior. Application to community settings is emphasized.

HS 076 C  BASIC LIFE SUPPORT FOR HEALTH CARE PROVIDERS: “C” CERTIFICATION  
1 Unit (May be taken for credit 2 times)  
One hour lecture per week.  
Credit/No Credit/Letter Grade Option  
This course is required for health care providers. It prepares the student with knowledge and skills required to perform adult one-rescuer CPR, adult two-rescuer CPR, pediatric one-rescuer CPR, child two-rescuer CPR, adult foreign body airway management and pediatric foreign body airway management. The American Heart Association fee for the “C” certification card is $1.00.

HS 077 C  BASIC LIFE SUPPORT CERTIFICATION FOR HEALTH CARE PROVIDERS: “C” CERTIFICATION  
½ Unit (May be taken for credit 4 times)  
One-half hour lecture per week.  
Credit/No Credit/Letter Grade Option  
Prerequisite: Course in Basic Life Support with “C” certification. Current BLS “C” certification is required for health care workers when providing direct patient care. This class prepares the student with current knowledge and skills required to obtain a recertification card from the American Heart Association (fee $1.00).

HS 079 C  CAREERS IN DENTISTRY  
1 Unit  
(Same as DA 079 C)  
One hour lecture per week.  
Credit/No Credit/Letter Grade Option  
This course will provide the student with an exposure to various aspects of the profession of dentistry; the duties and responsibilities of each profession will be discussed, including dentistry, dental hygiene, dental assistant and dental technology.

HS 080 C  SELECTED TOPICS IN NURSING AND ALLIED HEALTH  
½ - 8 Units (Variable Unit Class) (May be taken for credit 10 times)  
One-half to eight hours lecture per week.  
Credit/No Credit/Letter Grade Option  
This course is designed to meet the nursing and allied health science student need for current topics and issues, updated information in health care review of specialized subject material, and/or preparation for health related licensure and certification exams. Content will emphasize clinical application of theoretical principles in the discipline. Computer software, videotapes, resource materials, instructor assessment of individual student knowledge and skills will be utilized.

HS 089 C  HEALTH SCIENCE SEMINAR  
½ - 3 Units (Variable Unit Class) (May be taken for credit 4 times)  
Lecture/discussion hours will vary with credit given.  
Credit/No Credit/Letter Grade Option  
This class will utilize a lecture/discussion approach to various topics within the Health Science programs. A variety of classes will be offered to introduce students to new experiences, update content on current issues, and explore new trends in health care.

HS 090 C  HEALTH SCIENCE - INDEPENDENT STUDY  
½ - 2 Units (Variable Unit Class) (May be taken for credit 4 times)  
Lecture hours vary according to credit given.  
Credit/No Credit/Letter Grade Option  
Prerequisite: Approved Independent Study Learning Contract. This course is designed for students interested in health science programs who wish to increase their knowledge and experience in applied areas. Students will participate in independent study on assigned areas under staff supervision.

HS 100 C  TRENDS IN HEALTH CARE DELIVERY SYSTEMS  
2 Units  
Two hours lecture per week.  
CSU  
This is a core course designed for students interested in the health professions particularly those preparing for careers in health care. It is an overview of health care delivery systems and is required for Health Information Technology majors.
HS 102 C  LEGAL ASPECTS OF HEALTH CARE
2 Units
Two hours lecture per week.
CSU
The focus of this course is on the legal and legislative process affecting health information. It provides exposure to legal terminology and statutes with practical application of these principles and concepts to medical records. Confidentiality, patient access to information, consent to treatment, response to subpoenas, liability, and negligence will be discussed.

HS 140 C  PSYCHO-SOCIAL CONCEPTS IN HEALTH SCIENCE/NURSING
3 Units
Three hours lecture per week.
CSU
This course is designed to introduce Health Science students to psycho-social concepts basic to the development of skills in patient care and interrelationships. Social interaction skills and development patterns of individuals are included. Major social problems are discussed in relation to health care.

HS 145 C  SURVEY OF MEDICAL TERMINOLOGY
3 Units
Three hours lecture per week.
CSU
This course includes fundamentals of word analysis, roots, prefixes and suffixes in an orientation to the body as a whole. A survey of medical terminology of the following body systems includes: skin and breast, musculoskeletal, neurological/psychiatric, cardiovascular, respiratory, digestive, genitourinary, prenatal, maternal, endocrine, and special senses. Anatomical and physiologic terminology, combining forms, diagnostic terms, clinical and surgical procedures, laboratory tests and abbreviations are included. A basic requirement for most career opportunities in the allied health occupations and in the court systems is the comprehension of medical terminology.

HS 146 C  MEDICAL TERMINOLOGY FOR MEDICAL SPECIALTIES
3 Units
Three hours lecture per week.
CSU
Prerequisite: HS 145 C. This course emphasizes knowledge of terminology used in specialty areas of the health care systems. Medical specialties included are anesthesiology, oncology, physical therapy, radiology, and nuclear medicine. Competence in reading, writing, and understanding technically advanced medical terminology is required for successful completion.

HS 147 C  SURVEY OF DISEASE
3 Units
Three hours lecture per week.
CSU
Prerequisite HS 145 C. This course is a survey of general principles of disease, organs, and systems as related to specific diseases. It includes chronic and degenerative diseases; respiratory, bone, and gastrointestinal tract diseases; diseases of the genitourinary systems and reproductive organs, including genetic influences; infectious diseases and neoplasms; disturbances of body fluids and disturbed function. It is required by the State Department of Public Health, Division of Radiologic Health and recommended by the American Society of Radiologic Technology and is also the basic pathology of disease course requirement for Medical Record Technology students.

HS 161 C  DYING AND DEATH, GRIEF AND MOURNING
3 Units
(Same as HSCE 161 C)
CSU
Three hours lecture/discussion per week.
This course is designed to assist individuals in such areas as personal death anxiety and working/living with the terminally ill person. Discussion includes special concerns such as how to handle grief, suicide, hospice, and other related topics.

HS 165 C  A MATTER OF LIFE AND DEATH - MAKING ETHICAL CHOICES IN HEALTH CARE
1 Unit
One hour lecture per week.
CSU
Credit/No Credit/Letter Grade Option
This course will focus on making ethical choices in health care and will include discussion of contemporary ethical questions such as life support, right to refuse treatment and reproductive issues. Ethical issues raised by recent technical developments in health care and the rights and responsibilities of patients and health care professionals will be examined.

HS 168 C  PATIENT CARE SKILLS - OPEN LAB
1/4 - 3 Units (Variable Unit Class) (May be taken for credit 4 times)
(Open Entry-Open Exit)
One and one half to nine hours laboratory per week.
Credit/No Credit
CSU
Prerequisite: Current first year Health Science program student or approved re-entry students needing remedial assistance or current professional license related to a health science program. This open-entry, open-exit course with flexible hours and variable units allows self-paced individualized instruction and/or practice in basic client care skills with Health Science faculty supervision. The course provides students with space and equipment needed to learn client care skills. Health Science program students will complete a self-assessed learning plan prior to beginning their practice sessions. $5.00 Laboratory Fee - PAYABLE AT REGISTRATION.
HS 203 C MEDICAL QUALITY MANAGEMENT
2 Units
Two hours lecture per week.
CSU
Prerequisite: HS 145 C or background in medical terminology. This is an introductory course to acquaint health science students with the history and development of the quality assurance efforts in health care. This course discusses quality assurance techniques, medical staff peer review; utilization review, and risk management along with the roles and responsibilities of individuals involved in the quality assurance process.

HS 267 C INTERNET: THE LINK TO HEALTH CARE INFORMATION
1 Unit (May be taken for credit 2 times)
One hour lecture per week.
Credit/No Credit
CSU
This course will provide hands-on computer experience. The NetScape Navigator browser will be used to access information related to patient care, education, research, government and commerce. Particular emphasis is placed on the adaptability of e-mail, news groups, list servers and the World Wide Web tools to the health care professions and a distance learning/communication situation. $4.00 Laboratory Fee - PAYABLE AT THE BOOKSTORE.

HS 268 C PATIENT CARE SKILLS - OPEN LAB
½ - 3 Units (Variable Unit Class) (May be taken for credit 4 times)
(Open Entry-Open Exit)
One and a half to nine hours of laboratory per week.
Credit/No Credit
CSU
Prerequisite: Current second year Health Science program student or approved re-entry students needing remedial assistance or current professional license related to a health science program. This open-entry, open exit course with flexible hours and variable units allows self-paced individualized instruction and/or practice in advanced client care skills with Health Science faculty supervision. The course provides students with space and equipment needed to learn advanced client care skills. Health Science program students will complete a self-assessed learning plan prior to beginning their practice sessions. $5.00 Laboratory Fee – PAYABLE AT REGISTRATION.

HS 277 C CULTURAL AWARENESS & HEALTH CARE
3 Units
Three hours lecture per week.
CSU, AA GE, CSU GE, CUL PL
This course is designed to examine how cultural differences impact health care and health care delivery. The influence of multiethnic cultures on health care concepts, intervention, and the delivery of health care will be discussed. The course will emphasize communication, beliefs and customs, cultural rituals, ethical and legal implications and staff relations in our multiethnic health care system. The content focuses on expanding sensitivity to cultural diversity in health care and includes medical, social, and legal issues.

HSCE 161 C DYING AND DEATH, GRIEF AND MOURNING
3 Units
(Same as HS 161 C)
CSU
Three hours lecture/discussion per week.
This course is designed to assist individuals in such areas as personal death anxiety and working/living with the terminally ill person. Discussion includes special concerns such as how to handle grief, suicide, hospice, and other related topics.

HSCE 250 C RADIATION LAWS AND ETHICS
3 Units
(Same as RADT 250 C)
This is a concise course to inform the student radiologic technologist, x-ray technician, and/or staff certified radiologic technologist and limited practitioner in State and Federal Radiation Control Regulations toward the legal and ethical implications involved in ionized radiation to the human organism and radiation protection policies. Laws related to radiologic technology, malpractice litigation, preventive measures, and patient rights are discussed. The course will alert the students of their legal responsibilities, rights and duties within the context of their function as a member of the radiology team.
HSCE 260 C  FLUOROSCOPY PERMIT
COURSES
3 Units
(Same as RADT 260 C)
Two and one half hours lecture and
One and one-half hours laboratory per week.
Credit/No Credit/Letter Grade Option
CSU
Prerequisite: Current California Certified Radiologic Technology license. This course will provide the knowledge of skills, attitudes, and competencies to operate fluoroscopy equipment efficiently and safely. Upon successful completion of the course, students will receive a certificate of completion and be eligible for the California State Technologist Fluoroscopy examination. Students must be able to verify CRT status at the first class meeting.

HSCE 262 C  CROSS-SECTIONAL IMAGING
1 Unit
(Same as RADT 262 C)
One hour lecture per week.
Credit/No Credit/Letter Grade Option
CSU
This course correlates knowledge and practice of diagnostic imaging with cross-sectional anatomy of the skull, thorax, abdomen, and pelvis. Diagnostic imaging includes the ability to work with ultrasound, computerized tomography, and magnetic resonance. A knowledge of medical terminology and human anatomy is recommended.

HISTORY TRANSFER PROGRAM
MOST CALIFORNIA STATE UNIVERSITIES
Students should consult a counselor or www.assist.org for lower division major requirements for most California public universities. (See the Standard Definitions section of the catalog for a description of ASSIST.) Students transferring to an independent college/university should consult the catalog of the individual school and a counselor for lower division major requirements.

HIST 110AC  WESTERN CIVILIZATION
3 Units
Three hours lecture per week.
UC Credit Limitation/CSU, AA GE, CSU GE, IGETC, CAN HIST 2
This course is a comprehensive study of the contributions of previous civilizations from prehistoric times to the beginnings of modern nationalism and industrialism in the 18th century. The development of the present-day Western mind and institutions is traced by analyzing the beliefs, myths, accomplishments and problems of the civilizations of Mesopotamia, Egypt, Greece, Rome, the Medieval Period, Renaissance and Reformation, and 17th Century Europe. Eligibility for ENGL 100 C recommended.

HIST 110BC  WESTERN CIVILIZATION
3 Units
Three hours lecture per week.
UC Credit Limitation/CSU, AA GE, CSU GE, IGETC, CAN HIST 4
This course covers the development of Western civilization from the 18th century to the present day. A major part of this course deals with the last 100 years. It covers imperialism, communism, industrialism and nationalism, with related political, social, and cultural issues. Eligibility for ENGL 100 C recommended.

HIST 112 C  WORLD CIVILIZATION I
3 Units
Three hours lecture per week.
UC Credit Limitation/CSU, AA GE, CSU GE, IGETC, CAN HIST 14
This course is a survey of the roots and development of civilizations in Africa, the Americas, Asia, and Europe from the earliest times to AD 1550. Eligibility for ENGL 100 C strongly recommended. Duplicate credit not granted for HIST 110AC or HIST 112HC.

HIST 112HC  HONORS WORLD CIVILIZATION I
3 Units
Three hours lecture per week.
UC Credit Limitation/CSU, AA GE, CSU GE, IGETC
This course is an enhanced survey of the roots and development of the various civilizations in Africa, the Americas, Asia, and Europe from the earliest times to 1550 A.D. Eligibility for ENGL 100 C recommended. Duplicate credit not granted for HIST 110AC or HIST 112 C.

HIST 113 C  WORLD CIVILIZATION II
3 Units
Three hours lecture per week.
UC Credit Limitation/CSU, AA GE, CSU GE, IGETC, CAN HIST 16
This course is a survey of the roots and development of civilizations in Africa, the Americas, Asia, and Europe from AD 1550 to the present. Eligibility for ENGL 100 C strongly recommended. Duplicate credit not granted for HIST 110BC.
HIST 135 C  AFRICAN HISTORY
3 Units
Three hours lecture per week.
UC/CSU
This course is a survey of African history from the earliest beginnings to contemporary time. A special emphasis is placed on the various cultures, demography, and general chronology of the rise and fall of nation states, and the impact of Western culture through the colonial, neo-colonial, and contemporary periods. Eligibility for ENGL 100 C recommended.

HIST 140 C  HISPANIC CIVILIZATION
3 Units
Three hours lecture per week.
Credit/No Credit/Letter Grade Option
UC/CSU
This course is designed to introduce students to Hispanic civilization through the study of the history, beliefs, style of living, and achievements in literature and the fine arts. Pre-Columbian, Spanish, Portuguese, and African contributions are studied in order to provide an understanding of contemporary events and evolving culture in Latin America.

HIST 151 C  SURVEY OF BRITISH HISTORY
3 Units
Three hours lecture per week.
UC/CSU, CSU GE, IGETC
This course is a survey of English history and civilizations from prehistoric times to the end of the Stuart period. The course concentrates on the development of governmental institutions, and the cultural and intellectual foundations of England and its people. Eligibility for ENGL 100 C recommended.

HIST 152 SURVEY OF BRITISH HISTORY
3 Units
Three hours lecture per week.
UC/CSU, CSU GE, IGETC
This course is the continuing survey of the development of the United Kingdom from 1715 to the present. Special emphasis in this course will be placed on England's political and cultural expansion around the globe. Eligibility for ENGL 100 C recommended.

HIST 160AC  ASIAN CIVILIZATION
3 Units
Three hours lecture per week.
UC/CSU, CSU GE, IGETC
This is a comparative history of the civilization of Asia. The course includes all of Asian history from the eastern borders of Europe to the Pacific and from the 19th century to the present day. The comparative perspective will stress the process, patterns, and periods of West, South, East, Southeast, and Central Asia and view their respective evolutionary development, institutions, social breakdown, elite values in crisis, and regional interaction. Eligibility for ENGL 100 C recommended.

HIST 160BC  ASIAN CIVILIZATION
3 Units
Three hours lecture per week.
UC/CSU, CSU GE, IGETC
This is a comparative history of the civilization of Asia. The course includes all of Asian history from the eastern borders of Europe to the Pacific and from the 19th century to the present day. The comparative perspective will stress the process, patterns, and periods of West, South, East, Southeast, and Central Asia and view their respective evolutionary development, institutions, social breakdown, elite values in crisis, and regional interaction. Eligibility for ENGL 100 C recommended.

HIST 162AC  HISTORY OF THE AMERICAS
3 Units
Three hours lecture per week.
UC/CSU, AA GE, CSU GE, IGETC
This course is a survey of the history of the Western hemisphere from its discovery to the wars of independence. This course satisfies the state requirements in American history and institutions for transfer. Eligibility for ENGL 100 C recommended.

HIST 162BC  HISTORY OF THE AMERICAS
3 Units
Three hours lecture per week.
UC/CSU, AA GE, CSU GE, IGETC
This course is a study of the political, social, and economic development of the independent nations of the Western hemisphere from the wars of independence to the present. This course satisfies the state requirements in American history and institutions for transfer. Eligibility for ENGL 100 C recommended.

HIST 163 C  HISTORY OF MEXICO
3 Units
Three hours lecture per week.
UC/CSU, CSU GE, IGETC
The material presented in this course is a social, economic and political history of Mexico from the pre-Columbian period to the present. The lectures are designed to show that present-day Mexican society is a product of the region's geographical position in relation to the rest of Latin America, Europe and the United States, its Indian and European populations, and its Mesoamerican and 16th century-dominant political and economic structures. Although European institutions predominate in Mexico today, the Indian institutions are still present—just more subterranean. Many of Mexico's struggles have dealt with her attempts to bring these societies together in a nation-state.

HIST 165 C  MIDDLE EASTERN HISTORY
3 Units
Three hours lecture per week.
UC/CSU, AA GE, CSU GE, IGETC
Advisory: Eligibility for ENGL 100 C recommended. This course covers the historical development of the Middle East from the rise of Middle Eastern civilization to the present, emphasizing the Islamic religion, art, philosophy, and key political and social conflicts of modern times.
HIST 170 C  HISTORY OF THE UNITED STATES
3 Units
Three hours lecture per week.
UC/CSU, AA GE, CSU GE, IGETC, CAN HIST 8
Advisory: Eligibility for ENGL 100 C. This course is a survey of American history from the colonial foundations to 1877. The course satisfies state requirements in American history and institutions for transfer.

HIST 171 C  HISTORY OF THE UNITED STATES
3 Units
Three hours lecture per week.
UC Credit Limitation/CSU, AA GE, CSU GE, IGETC, CAN HIST 10
Advisory: Eligibility for ENGL 100 C. This course is a survey of American history from 1877 to the present time. This course satisfies state requirements in American history and institutions for transfer. Duplicate credit not granted for HIST 171HC.

HIST 171HC  HONORS HISTORY OF THE U.S.
3 Units
UC Credit Limitation/CSU, AA GE, CSU GE, IGETC
Advisory: Eligibility for ENGL 100 C. This course is an enhanced version of survey of American History from 1877 to the present time. This course satisfies state requirements in American History and institutions for transfer. Duplicate credit will not be granted for HIST 171 C.

HIST 180 C  PEOPLE AND CULTURE IN EAST ASIA
3 Units
Three hours lecture per week.
UC/CSU, CSU GE, IGETC
This course is a general introduction to the East Asian cultural area. East Asia, by definition, is China, Japan, and Korea. The course will emphasize the role of people in the East Asia tradition, including the interaction of environment, world-view, and the fine arts. The focal point will be the human achievements in this tradition, the operation as an entity in the tradition, and how the tradition functions. The fields of art, literature, and music will be an integral part of the study.

HIST 265 C  UNITED STATES MILITARY HISTORY
3 Units
Three hours lecture per week.
CSU
This course examines the evolution of American military and naval practices and institutions as they have developed through the major wars involving the United States. The roles of leadership, foot soldiers, militia, women, diverse multi-cultural groups, and technology and their impact upon warfare will also be discussed. Materials to be used will include documentary videos, as well as works in history, military science, and literature.

HIST 270 C  WOMEN IN UNITED STATES HISTORY
3 Units
Three hours lecture per week.
UC/CSU
This course surveys the economic, social, intellectual, and political history of women in America from colonial times to the present. Special emphasis is placed upon the feminist movement and suffrage struggle of the 19th and 20th centuries.

HIST 275 C  HISTORY OF CALIFORNIA
3 Units
Three hours lecture per week.
UC/CSU, CSU GE, CUL PL
This course surveys the economic, social, ethnic, intellectual, and political history of California from the earliest times to the present. Special emphasis is placed upon the 20th century development of Southern California, particularly in terms of state and local government. Issues of diversity caused by demographic changes will also be explored.

HIST 295 C  RESEARCH METHODS IN ORAL HISTORY
2 Units
(Same as SOSC 295 C)
One hour lecture and
Three hours laboratory per week.
CSU
This course introduces the student to the special techniques of tape recorded interviews to document 20th century history. Areas of study will include interviewing techniques, historical editing, and transcripts of interviews. The course does not satisfy General Education requirements in Social Science.

HIST 298 C  HISTORY SEMINAR
½ - 3 Units (Variable Unit Class) (May be taken for credit 4 times)
Lecture/discussion hours will vary with credit given.
UC Credit Limitation/CSU
This is a lecture/discussion type course developed on a particular limited problem or topic of interest to students. It is designed for able students who wish to increase their knowledge of a particular topic concerning which no other regular class is offered. A paper or group activity may be requested. Credit may range from ½ unit to 3 units. Consult class schedule for the offerings a particular semester.

HIST 299 C  HISTORY INDEPENDENT STUDY
1 Unit (May be taken for credit 3 times)
Varying hours of scheduled conferences per week according to instructor.
UC Credit Limitation/CSU
Prerequisite: Approved Independent Study Learning Contract. Independent study is for able students who wish to extend their knowledge of a particular area through individual research and study. It is thought that topics might develop out of a curiosity stimulated in a regular class. The student would then contact the supervising instructor to develop a contract for his/her particular interest so that they could learn more regarding their special topic.

ASSOCIATE OF SCIENCE DEGREE CULINARY ARTS

The Culinary Arts program provides students with basic competencies in the methods of food handling, cooking, and culinary management. It includes exposure to various styles, and proper use of culinary applications and equipment. The program is designed to help students develop a working knowledge of what is required to be successful for fast track culinary management potential.

To earn an Associate Degree students must complete all graduation requirements to include: (1) all major course requirements with a “C” or better; (2) 25 units of General Education Graduation Requirements; (3) the cultural pluralism and reading requirements; (4) any elective courses to complete a minimum of 60 units; and, (5) have a minimum GPA of 2.0. At least 50% of all major course work must be completed at Cypress College.

Required courses are listed in suggested sequence:

HOSPITALITY, RESTAURANT, CULINARY ARTS TRANSFER PROGRAM

Students should consult a counselor or [www.assist.org](http://www.assist.org) for lower division major requirements for most California public universities. (See the Standard Definitions section of the catalog for a description of ASSIST.) Students transferring to an independent college/university should consult the catalog of the individual school and a counselor for lower division major requirements.

**Hotel, Restaurant, Culinary Arts (HRC)**

**HRC 100 C NUTRITION**

3 Units

*Three hours lecture per week."

*UC/CSU, AA GE, CSU GE, CAN FCS 2*

Prerequisite: Eligibility for ENGL 100 C. This course is a study of the interactions between food and a living organism. Course includes the role of carbohydrates, fats, protein, vitamins, water, minerals, alcohol and drugs in nutritional status. Emphasis is on the practical application of nutritional information to the individual diet and the recognition of nutrition misinformation.

**HRC 101 C INTRO TO HOSPITALITY CAREERS**

3 Units

*Three hours lecture per week."

*CSU*

This course provides an overview of operations and career opportunities including travel industry, hotels, culinary arts, food service management, meeting and event planning and airline customer services. The history, definition, organization, and industry trends will be reviewed for each area of the hospitality industry. Internet research will be utilized and students will prepare a personalized career project and portfolio.

**HRC 120 C SANITATION AND SAFETY**

3 Units

*Three hours lecture per week."

*CSU*

This course is designed to acquaint students with principles of sanitation and safety in any hospitality management facility. The course content includes basic microbiology, the cause, control and investigation of food borne illnesses, sanitary practices in purchasing, storing and preparing food, sanitary maintenance of kitchen, dining room and all equipment, personal hygiene and the safety of all equipment, food handling, vector control and safety practices.

**HRC 121 C SERVSAFE FOOD SAFETY**

1/2 Unit

*One half hour lecture per week."

*CSU*

This course is designed to teach industry employees with food safety and sanitation principles and prepare them to take the Food Safety Certification exam. A certified food handler is required in all California restaurant establishments.
HRC 125 C  DINING ROOM MANAGEMENT  
3 Units  
Two hours lecture and  
Three hours laboratory per week.  
CSU  
Advisory: Completion of or concurrent enrollment in HRC 101 C or HRC 120 C. Students operate a restaurant dining room; emphasis is placed on providing excellent guest service, using a point of sale computer system, staffing, mise en place and those leadership skills required to effectively manage a dining room operation. This course also explores guest service techniques for wines and foods of the world. $25.00 Laboratory Fee – PAYABLE AT REGISTRATION.

HRC 131 C  HOUSEKEEPING & PROPERTY OPS  
3 Units  
Three hours lecture per week.  
CSU  
This course explores hotel housekeeping and property operations, including management strategies, reports, budgets and technical details.

HRC 133 C  HOTEL MANAGEMENT  
3 Units  
Three hours lecture per week.  
CSU  
Advisory: Completion of or concurrent enrollment in HRC 101 C. Students will be introduced to management theory and responsibilities in the hospitality industry including rooms division, food and beverage, engineering, security, marketing, sales, accounting, information management and human resources. Franchises, referral and management organizations, market analyses, feasibility studies, management contracts and product segmentation will also be covered.

HRC 135 C  BASIC COOKING TECHNIQUES  
3 Units  
Two hours lecture and  
Four hours laboratory per week.  
CSU  
Advisory: Completion of or concurrent enrollment in HRC 120 C. Through lecture, demonstration and hands-on practice this course introduces the student to basic cooking skills that can be applied in any level or type of food service operation. Skills developed in this course will provide the foundation for all subsequent restaurant courses. Students will be required to follow food service and hotel management departments’ dress standards. $50.00 Laboratory Fee – PAYABLE AT REGISTRATION.

HRC 136 C  BAKING AND PASTRY  
3 Units  
Two hours lecture and  
Four hours laboratory per week.  
CSU  
This course is designed to develop skills in baking and pastry. The subject area includes: portioning, accuracy in measuring, baking of cakes, pies, breads, rolls, and other yeast and non-yeast products, filling for pies, tarts, meringues, icings, and toppings. $50.00 Laboratory Fee – PAYABLE AT REGISTRATION.

HRC 144 C  QUANTITY COOKING TECHNIQUES  
3 Units  
Two hours lecture and  
Four hours laboratory per week.  
CSU  
Advisory: Completion of or concurrent enrollment in HRC 120 C and HRC 135 C. This course is designed to develop techniques and skills for managing cooking for large groups. Emphasis is on preparation of entrees, including plate garnish, specialty foods, breads, pastries and desserts. $50.00 Laboratory Fee – PAYABLE AT REGISTRATION.

HRC 152 C  MENU/KITCHEN LAYOUT & DESIGN  
3 Units  
Three hours lecture per week.  
CSU  
This course provides students with experience in designing restaurant menus including: themes, item selection, cost/volume/profit/relationships, food cost determination, standard costs, forecasting, sales controls, and menu planning. Students will also analyze and develop solutions to the layout and design of hotel and restaurant kitchen facilities.

HRC 160 C  FRONT OFFICE OPERATIONS  
3 Units  
Three hours lecture per week.  
CSU  
Instruction in front office operation in a hospitality lodging enterprise will be presented. Public and employee relations, guest accommodations/reservations, forecasting, office routines and reports, machine operation, room rates and the application of computer programs will be emphasized.

HRC 164 C  HOSPITALITY LAW  
3 Units  
Three hours lecture per week.  
CSU  
This course is a comprehensive study of the legal aspects of the hospitality industry with an emphasis on compliance and prevention of liabilities. Topics include safety and security, food and alcohol legal responsibilities, selecting and managing employees, managing insurance, regulatory concerns, property management, hospitality operating structures, and hospitality contracts.

HRC 166 C  MANAGING GUEST RELATIONS  
3 Units  
Three hours lecture per week.  
CSU  
This course is designed to provide the student with the basic knowledge of “service” and how it applies to managing guest relations. Service will be examined from the perspective of those who deliver it and those who manage it. A pragmatic approach to the problems of personnel management in the hospitality and travel industry will be discussed.
HRC 231 C  COST CONTROL IN HOSPITALITY
3 Units

Three hours lecture per week.

CSU

This course presents the principles of cost control and revenue management. Topics include: managing revenue and expenses, determining sales forecasts, managing the cost of food, beverages and labor, the production process, pricing, analyzing results, planning for profits, maintaining a revenue control system and using technology to enhance controls. Students learn to identify and solve problems to help keep costs low and profit margins high in hospitality operations.

HRC 232 C  BANQUET & CATERING MANAGEMENT
3 Units

Three hours lecture per week.

CSU

This course covers the marketing and management of catering on and off premises, including special functions. It includes planning, financing, organizing, marketing and operating a catering service. Emphasis is on creating and managing various catered activities.

HRC 233 C  INTERNATIONAL GOURMET FOODS
3 Units

Two hours lecture and Four hours laboratory per week.

CSU

Advisory: Completion of or concurrent enrollment in HRC 120 C and HRC 135 C. This course is designed to acquaint students with techniques in preparation of cuisines from other cultures. Emphasis is on Western European cuisine but content also includes Middle Eastern and Oriental cuisines. Students will have an opportunity to prepare and sample international cuisines. $50.00 Laboratory Fee – PAYABLE AT REGISTRATION.

HRC 243 C  THE ART OF GARDE MANGER
3 Units

Two hours lecture and Four hours laboratory per week.

CSU

Advisory: Completion of or concurrent enrollment in HRC 120 C. This course is designed to develop the specialized skills of garde manger personnel in fine dining restaurants and hotels. The course includes lecture, demonstration and hands-on practice of classical and typical hot and cold food preparation. Emphasis will be placed on the preparation of garnishes, buffet decorations, hot and cold hors d’oeuvres, pates, galantines, aspics, and chaud-froid. $50.00 Laboratory Fee – PAYABLE AT REGISTRATION.

HRC 245 C  ADVANCED COOKING TECHNIQUES
3 Units

Two hours lecture and Four hours laboratory per week.

CSU

Advisory: Completion of or concurrent enrollment in HRC 135 C or HRC 144 C. This is a course designed to allow the student to acquire skills necessary for more advanced methods of food preparation. Topics include poultry, fish, lamb, Galantine, Ballotine, quenelle, aspic and meat carving. Samples of hors d’oeuvres, vegetable and fruit carving and the art of garde manger, choux paste, puff paste and creative decorating will be included. $50.00 Laboratory Fee – PAYABLE AT REGISTRATION.

HRC 295 C  HOSPITALITY INTERNSHIP
3 Units

One hour lecture and Fifteen hours laboratory per week.

CSU

Prerequisite: Completion of first year hotel, food service or culinary arts program recommended. The Hospitality Internship class is the link between academic learning and industry experience. This course requires a minimum of 255 hours work experience with an instructor approved employer in the hotel, restaurant or culinary arts field. Students will compile a comprehensive career portfolio.

HRC 298 C  HOSPITALITY SEMINAR
1/2 - 3 Units (Variable Unit Class) (May be taken for credit 4 times)

Lecture hours vary from zero to three hours and Laboratory hours vary from zero to nine hours per week determined by course offering.

CSU

This course is for students who wish to increase their knowledge of the hotel, restaurant, and/or culinary arts industries. Various topics will be offered. Unit credit may range from 1/2 to 3 units in any given semester. Consult the class schedule to verify credit for a particular semester.

HRC 299 C  HOSPITALITY INDEPENDENT STUDY
1/2 - 2 Units (Variable Unit Class) (May be taken for credit 4 times)

One half to two hours of conference per week.

CSU

Prerequisite: Approved Independent Study Learning Contract. This course is designed for those students who wish to increase their knowledge of the hotel, restaurant, and/or culinary arts industries through professionally directed independent study or research. Unit credit may range from one-half to two units in any given semester.

FAMILY STUDIES (ADVANCED) CERTIFICATE

The Family Studies (ADVANCED) Certificate Program in Human Service is designed as a more complete examination of the many individual and family needs resulting from changing family patterns. Needed skills include parenting in a variety of family situations, communicating in healthy relationships, caregiving in intergenerational families and coping with stress. This program prepares the student in three ways: (1) Providing courses as personal enrichment for the families and individuals in the community (2) Training Human Service workers for employment in schools, health and mental health agencies, rehabilitation centers, halfway houses, senior centers and as support persons to law enforcement and other community agencies (3) Providing the first two years of courses for Family Studies professions such as therapist and administrator which require further college education.

To earn a certificate, complete the required courses as listed with a minimum grade of “C”. At least 50% of all course work must be completed at Cypress College.

GERONTOLOGY CERTIFICATE

The Gerontology Certificate Program in Human Services is a collection of interdisciplinary courses focused on the aging adult and the agency resources available for the elderly. Courses explore appropriate human service agencies, crisis intervention strategies, and the adaptive and mal-adaptive behaviors of the normal aging process. Emphasis will be placed on methods of assisting older persons in health promotion and maintenance, chronic illness and biological deterioration. Death and dying, and the ethical issues that often occur during the last years of life will be examined.

To earn a certificate, complete the required courses as listed with a minimum grade of “C”. At least 50% of all course work must be completed at Cypress College.

Required courses are listed in suggested sequence:

HUMAN SERVICES CERTIFICATE PROGRAM

The Human Services Department includes certificate programs in Alcohol and Drug Studies, Eating Disorders, Family Studies (Basic and Advanced), Human Services Generalist, and Victimology. Each specialization recommends a core of required courses including fieldwork experience, and 6 to 12 units of specialization courses. The curricula are designed so that students with interests in several areas can complete more than one certificate program in an effective and efficient manner. The Alcohol and Drug Certificate program is approved by the California Association of Alcohol/Drug Educators. The Eating Disorders Certificate program is approved by the International Association of Eating Disorders Professionals. Family Studies offers the opportunity to explore today’s changing family values and patterns. Gerontology courses explore appropriate human service agencies, crisis intervention strategies, and the adaptive and maladaptive behaviors of the normal aging process. Victimology explores the network of agencies available for victims and perpetrators. The Human Services Generalist has training in all Human Services areas.

To earn a certificate, complete the required courses as listed with a minimum grade of “C”. At least 50% of all course work must be completed at Cypress College.
HUMAN SERVICES GENERALIST CERTIFICATE
To earn a certificate, complete the required courses as listed with a minimum grade of “C”. At least 50% of all course work must be completed at Cypress College.

TRANSFER PROGRAM - HUMAN SERVICES
The student in human services has the option of completing an Associate in Arts degree with a major in Human Services by completing the general education requirements in addition to the Certificate Program. The program is also designed for students who plan to continue with professional preparation at the university level in social work, human services, criminal justice, gerontology, counseling, and related social service fields.

Students should consult a counselor or www.assist.org for lower division major requirements for most California public universities. (See the Standard Definitions section of the catalog for a description of ASSIST.) Students transferring to an independent college/university should consult the catalog of the individual school and a counselor for lower division major requirements.

Human Services (HUSR)

HUSR 084 C INTRODUCTION TO BEHAVIOR MODIFICATION
¼ Unit
One-half hour lecture per week.

This course is for individuals working in programs for developmentally disabled persons, as well as those interested in the field. It will cover basic information about behaviorally oriented work with such clients, including content on behavior modification, teaching methods and ways to encourage clients.

HUSR 200 C THE HUMAN SERVICES
3 Units
Three hours lecture per week.
CSU, CSU GE

This course covers the history and philosophy of the human services; function and orientation of human services agencies and institutions; human services as careers; opportunities and qualifications at various entry levels of human services employment.
HUSR 210 C  INTRODUCTORY FIELDWORK IN HUMAN SERVICES
3 Units
One hour lecture per week and
125 hours fieldwork per semester.
Credit/No Credit/Letter Grade Option
CSU
This course offers observation and participation in the operations of primary helping services in urban communities, 125 hours supervised field study per semester and one hour lecture per week to discuss problem areas related to fieldwork are required.

HUSR 211 C  ADVANCED FIELDWORK - HUMAN SERVICES
3 Units
One hour lecture per week and
125 hours fieldwork per semester.
Credit/No Credit/Letter Grade Option
Prerequisite: HUSR 210 C. This course is a two-semester sequence of volunteer, or paid, fieldwork experience. The student will apply values, concepts and skills of core human services courses to the actual process of helping people. Emphasis of this semester is on sharpening skills and knowledge gained in the introductory fieldwork experience. There is one hour of classroom experience per week.

HUSR 215 C  INTRODUCTION TO FAMILY STUDIES
3 Units
Three hours lecture per week.
CSU
This course involves intergenerational family studies and related career exploration to introduce Human Services students to family issues and to skills, theories, and competencies needed to empower families for reaching their goals. Various family issues, family/worker relationships, strength-based assessments, resource referral/utilization, community service coordination, and family and worker stress management are covered.

HUSR 221 C  CRISIS INTERVENTION AND REFERRAL SERVICES
3 Units
Three hours lecture per week.
CSU
This course introduces techniques for beginning crisis counseling, including recognition of crisis, assessment of crisis, and referral to the appropriate crisis agency. Special attention will be given to the process of intervention and to the recording of information regarding problems with alcohol and other drugs. Participants will implement a variety of crisis skills through an experiential format.

HUSR 222 C  GROUP LEADERSHIP AND GROUP PROCESS
3 Units
Three hours lecture per week.
CSU
This course examines membership and leadership of various kinds of groups, with emphasis on the total group process. An overview of the various types of groups will be given as well as the values and limitations of groups, cautions and risks of groups and common misconceptions about groups. The student will be offered experience as a group member and a group leader.

HUSR 223 C  HELPING SKILLS IN HUMAN SERVICES
3 Units
Three hours lecture per week.
CSU
This course involves identifying and applying specific helping skills in interpersonal relations. It is designed for persons in helping roles, professional and paraprofessional, volunteer, or friend.

HUSR 224 C  SELF-ESTEEM STRATEGIES IN HUMAN SERVICES
3 Units
Three hours lecture per week.
CSU
This course is designed for those considering a career in management and staff development in Human Services Agencies, with special application to client after-care programs. Theory and technique are combined in this skills class to assist case managers and program directors with assessment and evaluation, individual recovery program development, educational process and materials, and utilization of resources and referral procedures. This course focuses on issues of self-esteem, concept formation, problem solving and decision making for client care and/or staff development.

HUSR 225 C  COUNSELING THE FAMILY OF ADDICTED PERSONS
3 Units
Three hours lecture per week.
UC/CSU
This course presents the dynamics of family systems as they are affected by addiction. Theories of healthy and unhealthy family interaction are explored and the experiential format provides the opportunity for skill development and practical experience.

HUSR 226 C  BEHAVIOR MODIFICATION TECHNIQUES
3 Units
Three hours lecture per week.
CSU
This course includes both theory and practice in behavior modification principles. It teaches skills such as observing and recording behavior, uses of reinforcement, extinction, punishment, etc. Self management techniques to assist in control of one’s own behavior will also be discussed. Topics have wide application in any course of study and will require dealing effectively with others, or with more effective management of oneself.

</thead>
<tbody>
<tr>
<td>HUSR 240 C</td>
<td>DRUGS AND ALCOHOL IN OUR SOCIETY</td>
<td>3</td>
<td>Three hours lecture per week. CSU</td>
<td>This is an introductory course for individuals in any area of human services who wish to increase their knowledge regarding problem drinking/drug abuse. This course will cover the basic causal theories of alcoholism, identification signs and symptoms, dispel some of the myths and provide information on treatment sources. Students will also be introduced to drug problems in general; their misuse and abuse and methods for their control.</td>
</tr>
<tr>
<td>HUSR 241 C</td>
<td>INTERVENTION TREATMENT AND RECOVERY</td>
<td>3</td>
<td>Three hours lecture per week. CSU</td>
<td>This course will serve as an assessment and treatment approach to individuals having problems with alcohol and other drugs. Alcoholism will be studied in its social and clinical context. Attention will be given to the basic theoretical approaches to the disease; however, major emphasis will be focused on the philosophical, organizational, and clinical approaches to treating the alcoholic.</td>
</tr>
<tr>
<td>HUSR 242 C</td>
<td>DRUGS AND PHYSIOLOGY</td>
<td>3</td>
<td>Three hours lecture per week. CSU</td>
<td>The principle thrust of this course is to focus on the effects of alcohol and other drugs on the body and to study the physiology of alcohol in two areas: (1) physical effects of alcohol on the body, and (2) the physiological effects of the disease processes associated with heavy drinking.</td>
</tr>
<tr>
<td>HUSR 250 C</td>
<td>SOCIOLOGY OF AGING</td>
<td>3</td>
<td>Three hours lecture per week. CSU</td>
<td>This course explores the concept of aging and sociological/cultural theories of aging. The gender, cross-cultural, economic, political and social policy aspects of aging in society and the world are examined. Critical life issues for elders and for those who live and work with them are explored. These issues include empowerment, care giving, social support, living arrangements, elder abuse, work, retirement, quality of life and death and dying. Duplicate credit not granted for SOC 250 C.</td>
</tr>
<tr>
<td>HUSR 255 C</td>
<td>INTRODUCTION TO GERONTOLOGY</td>
<td>3</td>
<td>Three hours lecture per week. CSU</td>
<td>This course examines the biological, physiological, cognitive, personality, developmental, and sexual aspects of the ongoing aging process. Critical life issues for elders and for those who live and work with them will be explored. These issues include physical health, mental health, health care policy, care giving, dependency, and positive aging strategies. Duplicate credit not granted for PSY 255 C.</td>
</tr>
<tr>
<td>HUSR 270 C</td>
<td>INTRODUCTION TO VICTIMOLOGY</td>
<td>3</td>
<td>Three hours lecture per week. CSU</td>
<td>This course responds to the emerging social concern regarding the cost of victimization to our society today. It provides education, information on existing resources, and direct participation in the creation and expansion of existing resources.</td>
</tr>
<tr>
<td>HUSR 271 C</td>
<td>SOCIETY AND VICTIMIZATION</td>
<td>3</td>
<td>Three hours lecture per week. CSU</td>
<td>This course will provide understanding of the social problem of victimization with in-depth focus on both perpetrator and victim. Specific issues will be explored including their genesis and specific methods of dealing with problems from the point of view of self-help/support activities and from the clinical approach.</td>
</tr>
<tr>
<td>HUSR 275 C</td>
<td>ETHICAL ISSUES IN HUMAN SERVICES</td>
<td>3</td>
<td>Three hours lecture per week. CSU</td>
<td>This course presents the rules and standards governing the professional conduct of those working in Human Services Agencies. Issues of client/patient rights, confidentiality, physical and emotional abuse, and counselor/client relationships will be explored in great depth.</td>
</tr>
<tr>
<td>HUSR 280 C</td>
<td>EMPLOYEE ASSISTANCE PROGRAMS: PUBLIC AND PRIVATE</td>
<td>3</td>
<td>Three hours lecture per week. CSU</td>
<td>This course presents a conceptual framework for the development and implementation of Employee Assistance Programs, based on organizational and administrative theories. It provides training of skills necessary to help employees overcome such barriers as substance abuse, interpersonal difficulties, and ineffectual stress management.</td>
</tr>
<tr>
<td>HUSR 290 C</td>
<td>HUMAN SERVICES IN CRIMINAL JUSTICE</td>
<td>3</td>
<td>Three hours lecture per week. CSU</td>
<td>This experiential course will survey the historical, and philosophical aspects of criminal behavior and the functions and objectives of parole and probation. Students will examine the skill requirements, the major tasks and responsibilities, the role and function and the overall mission of the service provider in the criminal justice system. The judicial system and its relationship to the criminal offender will be examined as well as modern approaches in the control of crime. Resources for resocializing the offender will be explored.</td>
</tr>
</tbody>
</table>
HUSR 291 C COUNSELING IN CRIMINAL JUSTICE
3 Units
Three hours lecture per week.
CSU
This course explores current theory and practice in the counseling of those in state prison treatment programs. Topics include an overview of the California Department of Corrections, the inmate classification system, specialized inmate management topics, violence and violence management strategies, victim awareness issues, the processes of addiction and recovery, an overview of assessment instruments, an exploration of sociopathy, and group counseling dynamics.

HUSR 292 C INTRODUCTION TO CRIMINOLOGY
3 Units
(Same as SOC 292 C)
Three hours lecture per week.
CSU
This course presents a scientific analysis of the nature, extent, and causes of violations of societal rules of behavior that are formally defined as crime and delinquency. The course includes an analysis of the theoretical perspectives that led to the development of criminal law and the administration of criminal justice, the patterns of criminality and delinquency, the impact of crime on social change, and the labeling, identification, characteristics, and the treatment of criminals and delinquents.

HUSR 293 C CONFLICT RESOLUTION/MEDIATION
3 Units
Three hours lecture per week.
Credit/No Credit/Letter Grade Option
CSU
This course examines the background, development and methodology of non-violent, non-litigious conflict resolution with emphasis on theory and the practice of mediation. This is a state certified course designed to train individuals to be effective in resolving conflict in the family, the community, the classroom and the workplace.

HUSR 294 C CAREERS IN CRIMINAL JUSTICE
3 Units
Three hours lecture per week.
Credit/No Credit/Letter Grade Option
CSU
This course will provide the student with the opportunity to explore, in-depth, the breadth and scope of career opportunities in the field of criminal justice. Specific careers will be explored through guest speakers, field trips, on-site observations and mentoring opportunities. Students will gather knowledge and gain an appreciation for the criminal justice field as a result of this course.

HUSR 295 C CROSS-CULT. STUDY: CRIM. JUST. 3 Units
Three hours lecture per week.
Credit/No Credit/Letter Grade Option
CSU, CUL PL
This course will provide students with the opportunity to explore cross cultural customs and traditions from a criminal justice perspective. Specific cultures that are represented in significant numbers within the United States, will be explored. In this course students will gather knowledge and gain an appreciation for the cross cultural aspects within the field of criminal justice.

HUSR 298 C HUMAN SERVICES SEMINAR ½ - 3 Units (Variable Unit Class) (May be taken for credit 4 times)
Lecture/discussion hours will vary with credit given.
CSU
This is a lecture/discussion type course dealing with a particular limited problem or topic of interest to students. It is designed for students who wish to increase their knowledge of a particular topic that is offered in no other regular class. A paper or group activity may be assigned. Credit may range from ½ to 3 units. Consult class schedule for the offerings a particular semester.

Industrial Education Teaching

INDUSTRIAL EDUCATION TEACHING TRANSFER PROGRAM
Students should consult a counselor or www.assist.org for lower division major requirements for most California public universities. (See the Standard Definitions section of the catalog for a description of ASSIST.) INDS 092 C  WORK EXPERIENCE - GENERAL
3 Units  (May be taken for credit 3 times)
One hour lecture plus minimum of
Five hours of employment per week
for each unit of credit.
Prerequisite: Must be enrolled in seven units, including work
experience. This course provides students with actual work
experience through mutual agreement with selected employ-
ers. Work may include the acquisition of desirable work
habits and attitudes toward jobs. The job held by the student
need not be related to the occupational goal of the student.
The student may earn no more than three credit units per
semester with a maximum total of six during the student’s
enrollment in any community college. Student’s employment
need not be limited to the five-hour increment for which the
student gains credit.

INDS 100 C  HUMANITIES AND THE ARTS
3 Units  (Same as ENGL 110 C)
Three hours lecture per week.
UC/CSU, AA GE, CSU GE, IGETC
Prerequisite: Eligibility for ENGL 100 C. This course is a sur-
vey of the development of Western culture with a focus upon
its Greco-Roman roots, and a study of other important influ-
ences, including African, Middle Eastern and Asian. The
course covers prehistory to the Renaissance, with emphasis
on the arts.

INDS 101 C  HUMANITIES AND THE ARTS
3 Units  (Same as ENGL 111 C)
Three hours lecture per week.
UC/CSU, AA GE, CSU GE, IGETC
Prerequisite: Eligibility for ENGL 100 C. This course is a sur-
vey of the development of Western Culture from the Renais-
sance to the present, including a study of other important influ-
ences from Africa, the Middle East, Asia, and North and
South America, with emphasis on the arts.

INDS 110 C  CONTEMPORARY MULTICULTURAL ARTS
3 Units
Three hours lecture per week.
UC/CSU, AA GE, CSU GE, IGETC, CUL PL
This introductory course investigates contemporary multi-
cultural dance, music, theater, and visual arts as they relate
to mainstream American culture. Works by artists of
diverse cultures including African-American, Asian, His-
ppanic, Native American, gay and lesbian, and differently-
abled will be analyzed.

INDS 120HC  HONORS THEME SEMINAR
1 Unit
One hour lecture per week.
CSU
The Honors Theme Seminar is a course specifically
designed for Honors Program students. Students will dis-
cuss, research, analyze, and write about the Honors Pro-
gram yearly theme.

INDS 298 C  INTERDISCIPLINARY STUDIES - SEMINAR
1⁄2 - 3 Units  (Variable Unit Class)  (May be taken for
credit 4 times)
Varying hours of scheduled conference
per week according to unit credit given.
Credit/No Credit/Letter Grade Option
UC Credit Limitation/CSU
This course is a lecture and/or laboratory workshop
approach to topics that do not fit into a single division.

Japanese (JAPN)

JAPANESE TRANSFER PROGRAM
Students should consult a counselor or www.assist.org for
lower division major requirements for most California pub-
lic universities. (See the Standard Definitions section of the
catalog for a description of ASSIST.) Students transferring
to an independent college/university should consult the cat-
alog of the individual school and a counselor for lower divi-
sion major requirements.
JAPN 098 C  JAPANESE SEMINAR
1⁄2 - 3 Units (May be taken for credit 4 times)
One half to three hours lecture per week.
Credit/No Credit/Letter Grade Option
This seminar is for students who wish to extend their knowledge of literature, language and culture through small group discussion.

JAPN 100 C  SPOKEN JAPANESE FOR BEGINNERS
3 Units (May be taken for credit 2 times)
Three hours lecture per week.
Credit/No Credit/Letter Grade Option
CSU, AA GE
This course is for students who would like to take conversational Japanese without having to learn the complicated writing system. This will be an introduction to spoken Japanese, with emphasis on vocabulary development, use of the common phrases and culturally appropriate language at beginning levels. Conducted mainly in Japanese through the use of the direct teaching method.

JAPN 101 C  ELEMENTARY JAPANESE I
5 Units
Five hours lecture and
One hour laboratory TBA per week.
Credit/No Credit/Letter Grade Option
UC/CSU, AA GE, CSU GE, CAN JAPN 2
Prerequisite: Eligibility for ENGL 100 C or successful prior experience in Japanese. The course emphasizes the acquisition of basic skills in pronunciation, listening, speaking, reading and writing. Students will be introduced to the culture, history and geography of Japan through lectures, slides, videos, photographs, films, and reading assignments.

JAPN 102 C  ELEMENTARY JAPANESE II
5 Units
Five hours lecture and
One hour laboratory TBA per week.
Credit/No Credit/Letter Grade Option
UC/CSU, AA GE, CSU GE, IGETC, CAN JAPN 4
Prerequisite: JAPN 101 C with a grade of “C” or better or one year of high school Japanese with an average of “C” or better is recommended. The course continues to emphasize the acquisition of basic skills in pronunciation, listening, speaking, reading, and writing. Students will increase their knowledge of the culture, history, and geography of Japan through lectures, slides, films, and reading writing assignments.

JAPN 200 C  CONVERSATIONAL JAPANESE
2 Units (May be taken for credit 4 times)
Two hours lecture per week.
Credit/No Credit/Letter Grade Option
CSU, CSU GE
Prerequisite: JAPN 102 C. The course(s) will focus on practical conversation with emphasis on the idiomatic usage of the language. Topics concern Japanese life, culture, and current events. Students will prepare for this class through the study of the required textbook, magazines, newspapers and other current materials. The course is conducted in Japanese.

JAPN 203 C  INTERMEDIATE JAPANESE III
4 Units
Four hours lecture and
One hour laboratory TBA per week.
Credit/No Credit/Letter Grade Option
UC/CSU, AA GE, CSU GE, IGETC, CAN JAPN 8
Prerequisite: JAPN 102 C with a grade of “C” or better or two years of high school Japanese with an average grade of “C” or better is recommended. The course emphasizes the acquisition of advanced skills in listening, speaking, reading, and writing. Students will be introduced to further elements of the culture, history, and geography of Japan through lectures, slides, films, dialogues and reading assignments conducted in Japanese.

JAPN 204 C  INTERMEDIATE JAPANESE IV
4 Units
Four hours lecture and
One hour laboratory TBA per week.
Credit/No Credit/Letter Grade Option
UC/CSU, AA GE, CSU GE, IGETC, CAN JAPN 10
Prerequisite: JAPN 203 C with a grade of “C” or better or three years of high school Japanese with an average grade of “C” or better is recommended. The course emphasizes the acquisition of advanced skills in listening, speaking, reading, and writing. Students will be introduced to further elements of the culture, history, and geography of Japan through lectures, slides, films, dialogues and reading assignments conducted in Japanese.

JAPN 298 C  JAPANESE SEMINAR
1⁄2 - 3 Units (Variable unit class) (May be taken for credit 4 times)
One half to three hours lecture per week.
Credit/No Credit/Letter Grade Option
UC Credit Limitation/CSU
This seminar is for students who wish to extend their knowledge of literature, language and culture through small group discussion.

JAPN 299 C  JAPANESE INDEPENDENT STUDY
1⁄2 - 2 Units (Variable Unit Class) (May be taken for credit 3 times)
One-half to two hours conference per week.
Credit/No Credit/Letter Grade Option
UC Credit Limitation/CSU
Prerequisite: Approved Independent Study Learning Contract. This course is for able students who wish to increase their knowledge of the Japanese language through individual study or research. Unit credit may range from 1⁄2 to 2 units in any given semester.
COMMUNICATIONS TRANSFER PROGRAM
Students should consult a counselor or www.assist.org for lower division major requirements for most California public universities. (See the Standard Definitions section of the catalog for a description of ASSIST.) Students transferring to an independent college/university should consult the catalog of the individual school and a counselor for lower division major requirements.

Journalism/Communications (JOUR)

JOUR 098 COMMUNICATIONS/JOURNALISM SEMINAR
½ - 3 Units (Variable Unit Class) (May be taken for credit 4 times)
One half to three hours lecture per week
This seminar is for students who wish to extend their knowledge of literature, language and culture through small group discussion.

JOUR 101 REPORTING AND WRITING
3 Units
Three hours lecture per week.
UC/CSU, CAN JOUR 2
Prerequisite: Eligibility for ENGL 100 C. The course is an introduction to the fundamentals of news writing and reporting as applied to various communications media with emphasis on the newspaper. Stress is placed on writing, with special attention given to copy preparation, style, leads, organization, grammar and punctuation, news gathering and news value.

JOUR 102 EDITING AND ADVANCED WRITING
3 Units
Three hours lecture per week.
CSU
Prerequisite: JOUR 101 C. This course includes the study and practice of publications copyediting and makeup as well as advanced reporting and writing techniques required in interpretative/investigative reporting and feature writing for newspapers and magazines.

JOUR 110 MASS MEDIA SURVEY
3 Units
Three hours lecture per week.
UC/CSU, AA GE, CSU GE, CAN JOUR 4
This course examines the structures, functions, political, social, and economic impacts of the mass media and support systems. The course also will focus on the historical development of the media and legal and ethical concerns.

JOUR 118 INTRODUCTION TO BROADCASTING
3 Units
(Same as SPCH 118 C)
Three hours lecture per week
CSU, CSU GE
This course covers the history, theory, contemporary issues, and current law in broadcasting designed for students majoring in communications or for those desirous of a liberal education background. It is designed to develop career orientation, reading skills, critical thinking, historical awareness, and preparation for upper division courses in broadcasting.

JOUR 140 PUBLIC RELATIONS AND PUBLICITY
3 Units
CSU
Three hours lecture per week.
Students will study and practice the techniques and responsibilities of industrial, governmental, and civic public relations, with special attention to publicity writing and public relations campaign development.

JOUR 225 NEWSPAPER PRODUCTION
3 Units
(Same as MMJO 225 C)
Three hours lecture per week
CSU
Advisory: 20 words per minute keyboarding helpful. Emphasis is on publishing of the campus newspaper, The Cypress Chronicle. The course is taught in a newsroom using the media convergence model in which students work alongside of, and share their production with, other campus media. Skills developed include reporting, writing, and editing; desktop publishing; desktop editing of photographs and the creation of graphics; and digital photography; plus managing media and advertising.

JOUR 226 ON-LINE PRODUCTION
3 Units
(Same as MMJO 226 C)
Three hours lecture per week
CSU
Advisory: 20 words per minute keyboarding helpful. Emphasis is on creating and maintaining The Cypress Chronicle Web Site, CyChron.com. The course is taught in a newsroom using the media convergence model in which students work alongside of, and share their production with, other campus media. Skills developed include writing for the internet, using digital photography, editing digital video and audio, using on-line publishing software, plus managing media and advertising.
JOUR 228 VISUAL JOURNALISM
3 Units
(Same as MMJO 228 C)
Three hours lecture per week
CSU
Advisory: 20 words per minute keyboarding helpful. Emphasis is on creating visual stories using digital photography and/or videography. The student will plan, photograph or videograph, report, write, layout or edit visual story packages for the campus media. Skills include digital photography and videography, reporting, writing, desktop photographic editing, desktop publishing, and video editing.

JOUR 229 BROADCAST PRODUCTION
3 Units
(Same as MMJO 229 C)
Three hours lecture per week.
CSU
Advisory: 20 words per minute keyboarding helpful. Emphasis is on creating broadcast television and radio-style programming for posting as files and for streaming on the internet as well as for distributing conventionally. The course is taught in a newsroom using the media convergence model in which students work alongside of, and share their production with, other campus media. Skills developed include broadcast writing, videography, audio and video production, and internet distribution, plus managing media and advertising.

JOUR 298 COMMUNICATION/JOURNALISM SEMINAR
½ - 3 Units (Variable Unit Class) (May be taken for credit 4 times)
One half to three hours lecture per week.
UC Credit Limitation/CSU
This seminar is for able students who wish to extend their knowledge of literature, language and culture through small group discussion.

JOUR 299 COMMUNICATIONS/JOURNALISM INDEPENDENT STUDY
½ - 2 Units (Variable Unit Class) (May be taken for credit 3 times)
Two hours conference per week for maximum credit.
CSU
Prerequisite: Approved Independent Study Learning Contract. This course is for able students who wish to increase their knowledge of communications/journalism through individual study or research.

Latin American Studies

LATIN AMERICAN STUDIES TRANSFER PROGRAM
Students should consult a counselor or www.assist.org for lower division major requirements for most California public universities. (See the Standard Definitions section of the catalog for a description of ASSIST.) Students transferring to an independent college/university should consult the catalog of the individual school and a counselor for lower division major requirements.

Law Enforcement

Division of Vocational Education

Division Dean – Steve Donley
Counselor
Jane Jepson

Law Enforcement (AJ)
AJ 100 C  INTRODUCTION TO LAW ENFORCEMENT
3 Units
Three hours lecture per week.
CSU, CAN AJ 2
This is a course to acquaint the student with the historical development of the criminal justice system, criminal behavior, the purpose of criminal law, and the advancement of the ethics and professionalization of the justice system. It provides an overview of the organization of local, state and federal law enforcement agencies and an analysis of professional career opportunities.

AJ 110AC  CRIMINAL LAW
3 Units
Three hours lecture per week.
CSU, CAN AJ 4
Prerequisite: AJ 100 C. This course is a study of the elements of crimes against persons, property and the State as they are recognized in the Penal Code and General Laws of California. Parties in crime, culpability and incomplete offenses are presented from the point of view of the Peace Officer and the Courts.

Liberal Arts

ASSOCIATE IN ARTS DEGREE
The Cypress College Liberal Arts Program for the Associate in Arts Degree is a college-wide interdisciplinary program designed for students who plan to transfer to a California State University or the University of California. The program provides students with an enlightened view of the culture and institutions that shape their lives and provide them with an opportunity to explore areas of individual intellectual curiosity. This is accomplished through diverse methods of inquiry and a deepening knowledge of how to think and communicate clearly. Ultimately, the students are expected to be able to understand and integrate ideas, possess an awareness of our society and its institutions, and interact in a qualitative and positive manner with the world in which they live.

Liberal Arts / 197
Interwoven throughout the Liberal Arts curriculum are academic disciplines that help develop the student’s understanding of his or her concept of self and its relationship in a culturally and intellectually diverse world. This is accomplished through courses that introduce the student to the natural sciences, the social sciences, the humanities and the arts, language and rationality. These disciplines encourage analytical and critical thinking, historical and political awareness, aesthetic expression, communication, and ethics.

Besides completing institutional requirements that foster the development of intellectual curiosity and an enriched cultural and ethical life, the student is expected to pursue his or her individual interests through elective courses that will quantitatively and qualitatively assist the graduate in being a life-long learner. Because of its interdisciplinary approach, the Liberal Arts program does not have a departmental affiliation.

Requirements for the Associate in Arts Degree/Liberal Arts include:

• Completion of the California State University (CSU) or Intersegmental General Education Transfer Curriculum (IGETC) general education plan.
• Completion of an additional 20 transferable units including one (1) unit of physical education for a total of 60 transferable units.
• A 2.0 (“C”) overall grade point average.
• Fulfillment of all graduation requirements*, including completion of at least one 3 unit course in Cultural Pluralism.

*Note: Completion of this option automatically meets the Reading Proficiency requirement.

Liberal Studies

GENERAL LIBERAL STUDIES TRANSFER PROGRAM
Students should consult a counselor or www.assist.org for lower division major requirements for most California public universities. (See the Standard Definitions section of the catalog for a description of ASSIST.) Students transferring to an independent college/university should consult the catalog of the individual school and a counselor for lower division major requirements.

Multiple Subject Matter Program
A Multiple Subject Credential is required to teach elementary school in California. Before entering a Multiple Subject Credential Program a student must either earn a Bachelor Degree and pass the Multiple Subjects Assessment for Teachers or complete a Bachelor Degree that includes an approved Multiple Subject Matter Program that meets the seven areas prescribed by the Commission on Teacher Credentialing. Students should see a counselor for assistance in choosing appropriate classes to meet specific university requirements.

Daniel Pelletier

Library (LIB)

LIB 100 C INTRODUCTION TO RESEARCH
1 Unit
One hour lecture per week.
UC/CSU
This class is designed to introduce students to traditional and electronic library research tools and resources including the Internet. Students learn how to develop research strategies that will enable them to locate, retrieve, analyze, evaluate, and cite appropriate resources on a given topic. Each student will compile and prepare a written bibliography of relevant sources on a topic.

Students transferring to an independent college/university should consult the catalog of the individual school and a counselor for lower division major requirements.

Management (MGT)

CONSUMER RELATIONS

MGT 101 C PERSONAL FINANCE
3 Units
Three hours lecture per week.
Credit/No Credit/Letter Grade Option
CSU
This course encourages the management of personal income and expenses through effective financial planning, budgeting, and investing. By utilizing these tools in a contemporary manner, students will discover opportunities for a much improved standard of living. The topics explored include wealth building, smart consumer purchasing, goal setting, risk taking, tax deferred investing, and credit cards.

ENGLISH-RELATED COURSES

MGT 055 C BUSINESS ENGLISH
3 Units
Three hours lecture per week.
This course includes instruction in techniques of basic grammar, punctuation, vocabulary, spelling, and capitalization. The emphasis is on grammar as used in business communications.

MGT 111 C BUSINESS COMMUNICATIONS
3 Units
Three hours lecture per week.
Credit by Examination
CSU
Prerequisite: MGT 055 C. The course includes instruction in the techniques of specific types of business communication media and in the general principles of effective communication. The elements and principles of written and spoken communications are covered with emphasis on the kind of writing and speaking that is conducted throughout a business career. The importance of communication is stressed. Applying skill and ingenuity in the use of the language is encouraged.

MGT 211 C WRITING FOR BUSINESS
3 Units
Three hours lecture per week.
CSU
Prerequisite: ENGL 100 C with a grade of “C” or better. This course is an introduction to communication skills and knowledge needed in organizations. This course will include communication fundamentals, ethical, legal, multicultural issues, correspondence applications, employment communication, oral and nonverbal communication, report writing, management presentations, research methods, and running effective meetings and conferences. Computer applications will be presented throughout the course.

MATH-RELATED COURSES

MGT 051 C BASIC BUSINESS MATHEMATICS
3 Units
Three hours lecture per week.
This course is a review of the fundamentals of arithmetic with special emphasis given to the solution of problems involving decimals, interest, and business operations. Drills are provided to improve speed and accuracy. This course is recommended for all students majoring in business who lack proficiency in basic mathematics as determined by examination.

MGT 151 C BUSINESS MATHEMATICS
3 Units
Three hours lecture per week.
CSU, AA GE
This course is an introduction to the fundamental operation of arithmetic as applied to business problems. Included are problems in simple and compound interest; bank and purchase discounts, payroll computations, sales and property taxes, depreciation, business financial statements, and distribution of ownership and profits.

ORGANIZATION/PERSOHNEL/ MANAGEMENT-RELATED COURSES

MGT 061 C SURVEY OF BUSINESS
3 Units
Three hours lecture per week.
Credit/No Credit/Letter Grade Option
This course provides a practical overview of business and how it applies to personal growth and success. The areas of study include inflation, social awareness, the stock market, communications, marketing, self-management, human relations, business problems, and future careers. Informal groups, gaming, personal workshop activities, and positive imagery will be utilized.
MGT 075 C  BASIC KEYBOARDING TECH & TERM
½ Unit
One hour lecture and
One hour laboratory per week for nine weeks.
This course is designed for potential managers or people of all professions who need to become familiar with keyboarding (typing on information system workstations or typewriters) for easier and more proficient use of workstations. This course provides basic keyboarding skills and a working knowledge of terminology for the use of information system workstations to access, manipulate, and communicate for better management of information. It is designed for non-secretarial or non-clerical majors.

MGT 085 C  BUSINESS PLANNING
1 Unit
One hour lecture per week.
Credit/No Credit
This course is designed for both prospective and current entrepreneurs. It focuses on the steps involved in starting a business, including choosing the type of business and location, financial and legal considerations, marketing and management strategies. Participants will receive guidance on preparing a complete business plan.

MGT 086 C  BUSINESS FINANCE-RECORDKEEPING
½ Unit
One-half hour lecture per week.
Credit/No Credit
This course addresses financial start-up considerations, sources and uses of capital, bookkeeping and financial statements, as well as tax reporting requirements.

MGT 087 C  OBTAINING AND USING COMPUTERS
½ Unit
One-half hour lecture per week.
Credit/No Credit
This course points out the factors to consider in buying computer equipment and software for a small business and examines the various business functions that computers can perform.

MGT 088 C  MANAGING PERSONNEL
½ Unit
One-half hour lecture per week.
Credit/No Credit
This course focuses on techniques for the recruitment, training, compensation, management and motivation of workers in the business enterprise.

MGT 089 C  BUSINESS LAW-SMALL BUSINESS
½ Unit
One-half hour lecture per week.
Credit/No Credit
This course covers topics including choosing the proper legal form, licenses and permits, contracts, liability issues, and government regulations pertaining to business.

MGT 161 C  INTRODUCTION TO BUSINESS
3 Units
Three hours lecture per week.
Credit/No Credit/Letter Grade Option
UC/CSU, AA GE, CSU GE
This course provides a student-centered perspective covering a survey of principles and practices of international and American businesses. Subject areas include business organizations, marketing, finance, management, small business operations, and human dynamics.

MGT 199 C  MANAGEMENT - INDEPENDENT STUDY
¼ - 2 Units (Variable Unit Class) (May be taken for credit 4 times)
The number of hours of scheduled conferences or activity per week will be determined by the instructor.
CSU
Prerequisite: Approved Independent Study Learning Contract. This course is designed for students who wish to gain experience in management activities or to increase knowledge and experience in applied areas of leadership. Students must obtain permission from instructor of subject area they will be working with and will be under direct supervision of that instructor. This course does not meet requirements of management classes.

MGT 261 C  SMALL BUSINESS MANAGEMENT
3 Units
Three hours lecture per week.
Credit/No Credit/Letter Grade Option
CSU
This course applies principles of management to small business enterprises. The major areas of study include planning, financial problems, organization, personnel relations, marketing decisions, location decisions, and franchising.

MGT 262 C  PRINCIPLES OF MANAGEMENT
3 Units
Three hours lecture per week.
Credit/No Credit/Letter Grade Option
CSU
This course provides a focus on the interrelationships of management decisions. The major areas of study include managerial orientation, planning authority and responsibility, nature of organization, staffing, actuating work accomplishment, and controlling techniques.

MGT 265 C  SOCIAL RESPONSIBILITY OF BUS.
3 Units
Three hours lecture per week.
Credit/No Credit/Letter Grade Option
CSU
This course addresses the social rather than the economic aspects of business responsibility. It considers the structure of business as it affects social responsiveness and accountability in its contribution to the quality of life. It stresses the need of business to develop closer relations with the community, educational, and business leaders as participants and speakers.
MGT 266 C  HUMAN RELATIONS IN BUSINESS
3 Units
Three hours lecture per week.
Credit/No Credit/Letter Grade Option
CSU, AA GE
This course provides an introduction to the principles of human behavior in modern organizations. The emphasis is placed on leadership theory, problems in communication, motivation, and the development of a productive work environment.

MGT 267 C  PRINCIPLES OF SUPERVISION
3 Units
Three hours lecture per week.
CSU
This course presents the fundamental techniques a supervisor needs to know about motivating people, managing a job, and the development of situational leadership styles.

MGT 268 C  HUMAN RESOURCES MANAGEMENT
3 Units
Three hours lecture per week.
CSU
This course provides theories and practices relating to personnel administration, labor-management relations, employee selection, training, performance appraisal, discharge, hours of work and methods of payment, handling of personnel problems, benefit programs, affirmative action, and equal employment.

MGT 269 C  OFFICE MANAGEMENT
3 Units
Three hours lecture per week.
CSU
This course is a study of the problems involved in the organization and management of a business office. The major problems identified and characterized in this course are the impact of automation upon the office manager's job, organizing and planning office work, controlling the people, the forms and the machines that do the work, creating proper human relations by effective supervision, modern personnel practices, employer-employee communications, and analyzing word processing as a method of paperwork cost reduction.

MGT 298 C  MANAGEMENT SEMINAR
⅓ - 3 Units (Variable Unit Class) (May be taken for credit 4 times)
Lecture/discussion hours vary with credit given.
Credit/No Credit
CSU
Prerequisite: May be required. This course provides a lecture/discussion approach to particular problems for students who wish to increase their knowledge of business-related subjects not ordinarily covered in curriculum courses.

MGT 041 C  SURVEY OF BUSINESS LAW
3 Units
Three hours lecture per week.
Credit/No Credit/Letter Grade Option
CSU, AA GE
This course provides a survey of the basic principles of law that apply to business and personal transactions with emphasis given to the substantive law of torts, crimes, contracts, sales, bailments, commercial paper, agency, employment and labor relations, partnerships, corporations, insurance, secured transactions, real property, estates and trusts, and bankruptcy. Other areas of study include the nature and sources of law, the judicial system, domestic relations law, and government regulation of business.

MGT 141 C  PERSONAL LAW
3 Units
Three hours lecture per week.
Credit/No Credit/Letter Grade Option
CSU
This course provides a survey of the basic principles of law that affect the citizens in American society with consideration given to the nature and sources of law, the state and federal judicial system, lawyers, crimes, and torts. The areas of law studied relate to the citizen’s role as family member, student, consumer, insured, tenant, landlord, homeowner, saver, investor, owner of motor vehicle, employee, employer, and estate planner. Eligibility for ENGL 100 C recommended.

MGT 143 C  INTRODUCTION TO LEGAL RESEARCH
1 Unit
One hour lecture per week.
Credit/No Credit/Letter Grade Option
CSU
This course provides an introduction to the nature and use of legal reference material with consideration given to a uniform system of citation. An exposure to legal reference material will include constitutions, statutes and codes, executive orders, administrative agency regulations and rulings, treaties, judicial reports, indexes, digests, citators, treatises, looseleaf services, periodicals, encyclopedias, procedure manuals, and form books.

MGT 240 C  LEGAL ENVIRONMENT OF BUSINESS
3 Units
Three hours lecture per week.
Credit/No Credit/Letter Grade Option
UC Credit Limitation/CSU
This course is an introduction to the legal environment in which a business firm operates. Topics include an introduction to the American legal system, contracts, torts, product liability, forms of business organization, trade regulation, labor law, environmental law, and international business law. Required for Business Administration majors at CSU Fullerton and San Diego State University.
MGT 241 C LEGAL ASPECTS-BUSINESS TRANS.
3 Units
Three hours lecture per week.
Credit/No Credit/Letter Grade Option
UC Credit Limitation/CSU, CAN BUS 8
This course is an introduction to business law principles and cases, including a review of the classes and sources of law, agencies for enforcement, court procedure, and civil and criminal liability. The major subject area studied incorporates a concentrated study of the law of contracts. A special study is made of sales of goods based upon the Uniform Commercial Code with emphasis placed on consumer protection. Required for Business Administration majors at CSU Long Beach, CSU Dominguez Hills, and CSU Cal Poly Pomona.

MGT 242 C AMERICAN JUDICIAL SYSTEM
4 Units
Four hours lecture per week.
Credit/No Credit/Letter Grade Option
CSU
This course provides an introduction to the basic principles of procedural law and the nature of the American judicial system with consideration given to an analysis of the decision making that takes place within the civil, criminal, and administrative agency processes. The areas of procedural law studied include the organization and jurisdiction of the courts, civil and criminal pretrial proceedings, discovery and production of evidence, trial practice, and appellate procedures.

Marine Service Technician
Division of Vocational Education

Division Dean – Steve Donley

Faculty
Russell Sandore

Counselor
Jane Jepson

Marine Service (MRN)

MRN 060 C DIESEL ENGINES
6 Units
Three hours lecture and
Nine hours laboratory per week.
This is a comprehensive study of light diesel engines as used in passenger cars, light marine propulsion applications (power and sailboats), stationary and auxiliary power plants (generators). The course includes servicing, overhaul, troubleshooting and diagnosis of the diesel engine and auxiliary systems. Practical application will be both laboratory engines and/or live diesel engines.

MRN 061 C OUTBOARD ENGINE REPAIR - SERVICE AND MAINTENANCE
6 Units
Three hours lecture and
Nine hours laboratory per week.
This course will cover the complete operating principles, theory and design features of outboard engines. The course will cover the repair, service, maintenance, overhaul and diagnosis of outboard engines such as Mercury, Johnson, and Evinrude. Students will be instructed using lecture/demonstrations and will perform various procedures in a simulated industrial laboratory. Practical experiences will be done on both laboratory units and live projects.

MRN 062 C MARINE DRIVE SYSTEMS FOR RECREATIONAL BOATS
4 Units
Two hours lecture and
Six hours laboratory per week.
This course will cover the operating principles, theory and design features of marine drive systems for recreational boats (stern drives, jet drives, V drives and hydraulic and manual transmission). This course will cover the repair, service, maintenance, overhaul and diagnosis of stern drives, jet drives and inboard transmission systems such as OMC, Mercruiser, Volvo Penta, Panther jet, Berkeley jet, Jacuzzi jet and Borg Warner. Students will perform various procedures in a simulated industry laboratory environment, using both laboratory units and live projects.

MRN 064 C OUTBOARD & STERN DRIVE REPAIR
4 Units
Two hours lecture and
Six hours laboratory per week.
This course is designed to provide the student with advanced experiences in all areas of marine service technology. Students will be working on actual repair projects on outboard engines such as Johnson, Evinrude, Mercury, Yamaha. Stern drives such as Mercruiser, Volvo Penta, OMC, as well as inboards and jet drives will be covered.

MRN 298 C MARINE SERVICE SEMINAR
¼ - 3 Units (Variable Unit Class) (May be taken for credit 4 times)
Lecture/discussion hours will vary according to credit given.
CSU
This is a course for students who wish to increase their knowledge of marine service. Various topics will be offered. Unit credit may range from ¼ to 3 units in any given semester. Consult the class schedule to verify credit for a particular semester.
ASSOCIATE IN SCIENCE DEGREE – MARKETING

This curriculum is designed to assist those students preparing for a career in the distributive occupations. The program is intended to develop basic skills in salesmanship, merchandising, advertising, and other marketing practices.

To earn an Associate Degree students must complete: (1) all major course requirements with a minimum grade of "C"; (2) 25 units of General Education Graduation Requirements; (3) the cultural pluralism and reading requirements; (4) any elective courses to complete a minimum of 60 units; and, (5) have minimum GPA of 2.0. At least 50% of all major course work must be completed at Cypress College.

Required courses are listed in suggested sequence:

Course # Title Units
MGT 161 C Introduction to Business 3
MKT 103 C Principles of Advertising 3
MKT 222 C Principles of Marketing 3
MKT 105 C Principles of Retailing 3
MKT 208 C Principles of Selling 3
MKT 210 C Consumer Behavior 3

Electives
MKT 205 C Multicultural Markets In U.S. 3
MKT 206 C Store Operations 3
MKT 224 C International Marketing 3
MKT 201 C Small Business Promotion 3
ACCT 101 C Financial Accounting 4
MGT 151 C Business Mathematics 3

Total Units Required 21

MARKETING CERTIFICATE

Primary emphasis is to prepare the student for occupational competency. To earn a certificate, complete the required courses as listed with a minimum grade of "C". At least 50% of all course work must be completed at Cypress College.

Required courses are listed in suggested sequence:

Course # Title Units
MGT 161 C Introduction to Business 3
MKT 103 C Principles of Advertising 3
MKT 222 C Principles of Marketing 3
MKT 105 C Principles of Retailing 3
MKT 208 C Principles of Selling 3
MKT 210 C Consumer Behavior 3

AUTO SALES AND SERVICE CERTIFICATE

This program is designed to prepare students for customer service and sales positions in the automotive industry. It provides students with a basic knowledge of automobile operations, general maintenance requirements, and damage appraisal procedures along with marketing and management principles. The certificate will enable students to work in a variety of non technical areas in an automobile dealership, repair shop, or insurance company as a service representative, salesperson, or estimator.

To earn a certificate, complete the required courses as listed with a minimum grade of "C". At least 50% of all course work must be completed at Cypress College.

Required courses are listed in suggested sequence:

Course # Title Units
AT 101 C Survey of the Automobile 3
or
AT 131 C Automotive Fundamentals (4)
ACR 012 C Automotive Damage Appraisal 3
MGT 222 C Principles of Marketing 3
MKT 208 C Principles of Selling 3

Total Units Required 15 – 16

GEOGRAPHIC INFORMATION SYSTEMS/MARKETING CERTIFICATE

This certificate program provides students with the necessary knowledge and skills to use Geographic Information Systems (GIS) mapping techniques in the field of marketing to reach potential customers, evaluate business sites, plan distribution networks and sales territories, and find new business opportunities. The certificate totals 15 units in required courses.

To earn a certificate, complete the required courses as listed with a minimum grade of "C". At least 50% of all course work must be completed at Cypress College.

Required courses are listed in suggested sequence:

Course # Title Units
MKT 222 C Principles of Marketing 3
MKT 210 C Consumer Behavior 3
MKT 224 C International Marketing 3
GEOG 230 C Introduction to Geographic Information Systems 3
GEOG 231 C Geographic Information Systems: Vector Applications 3

Total Units Required 15
HEALTH CARE MARKETING AND SALES CERTIFICATE
This certificate program provides students with the necessary knowledge and skills to work in the health care field in a marketing or sales capacity. Preparing students to work in a variety of health care delivery settings, including physicians’ offices, hospitals, health maintenance organizations, and insurance companies, the certificate focuses on such areas as: sales and customer service, marketing research, advertising, public relations, and community outreach. It is designed to help students gain entry into the health care marketing and sales field and/or to advance in their current positions.

To earn a certificate, complete the required courses as listed with a minimum grade of “C”. At least 50% of all course work must be completed at Cypress College.

Required courses are listed in numeric sequence:
Course # Title Units
HI 100 C Trends in Health Care Delivery 2
HI 102 C Legal Aspects of Health Care 2
HI 115 C Medical Staff Services Science 3
MKT 222 C Principles of Marketing 3
MKT 103 C Principles of Advertising 3
MKT 208 C Principles of Selling 3
Total Units Required 16

INTERNET MARKETING CERTIFICATE
This curriculum prepares students for a career in the area of Internet Marketing. The program is designed to develop a working knowledge of what is required to utilize the Internet as a marketing tool to promote a business, interact with customers, suppliers and distributors, generate sales, and obtain marketing research information. The certificate totals 17 units in required courses.

To earn a certificate, complete the required courses as listed with a minimum grade of “C”. At least 50% of all course work must be completed at Cypress College.

Required courses are listed in numeric sequence:
Course # Title Units
CIS 115 C Desktop Publishing PageMaker 2
CIS 179 C Intro. to Web Page Design 2
CIS 108 C Introduction to Internet 2
CIS 109 C Bus. Applications-The Internet 2
CIS 179 C Intro. to Web Page Design 2
CIS 115 C Desktop Publishing PageMaker 2
Total Units Required 17

MULTICULTURAL MARKETING CERTIFICATE
This certificate program prepares students to work in the marketing field helping businesses and organizations to serve the needs of customers and clients in a culturally diverse society. Bringing together social science, language arts, and marketing, the certificate enables students to combine their knowledge of different cultural groups’ preferences, behaviors, and languages with marketing skills to create effective product development, promotion, distribution, and pricing strategies.

To earn a certificate, complete the required courses as listed with a minimum grade of “C”. At least 50% of all course work must be completed at Cypress College.

Required courses are listed in numeric sequence:
Course # Title Units
SOG 101 C Introduction to Sociology 3
ANTH 102 C Cultural Anthropology 3
or
ETHS 100 C American Ethnic Studies 3
MKT 222 C Principles of Marketing 3
MKT 205 C Multicultural Markets In U.S. 3
Total Units Required 17

Electives:
CHIN 101C Elementary Chinese – Mandarin 5
FREN 101C Elementary French I 5
JAPN 101C Elementary Japanese I 5
SPAN 101C Elementary Spanish I 5
SPAN 201C Spanish for Spanish Speakers 5

PROFESSIONAL MARKETING CERTIFICATE
This certificate program provides students with a working knowledge of the U.S. marketing system and the activities required to satisfy customers’ needs and wants for goods and services. Program is designed for marketing professionals and those wishing to pursue marketing careers.

To earn a certificate, complete the required courses as listed with a minimum grade of “C”. At least 50% of all course work must be completed at Cypress College.

Required courses are listed in suggested sequence:
Course # Title Units
MKT 090 C Marketing Essentials 1
MKT 091 C Advertising & Public Relations 1
MKT 092 C Personal Selling 1
MKT 093 C Target Marketing ½
MKT 094 C Buyer Behavior ½
MKT 095 C Market Distribution Systems ½
MKT 096 C Sales Promotion Techniques ½
MKT 097 C Customer Relations ½
MKT 098 C Int’l Marketing - Small Bus. ½
Total Units Required 6

PROFESSIONAL SELLING CERTIFICATE
This certificate program provides students with the necessary skills and knowledge to carry out the steps in the selling process, from identifying potential customers and conducting sales presentations to making the sale and building positive customer relationships. This program is designed for people wishing to improve their selling skills or to enter the sales profession.

To earn a certificate, complete the required courses as listed with a minimum grade of “C”. At least 50% of all course work must be completed at Cypress College.

Required courses are listed in suggested sequence:
Course # Title Units
MKT 090 C Marketing Essentials 1
MKT 092 C Personal Selling 1
MKT 093 C Target Marketing ½
MKT 094 C Buyer Behavior ½
MKT 096 C Sales Promotion Techniques ½
MKT 097 C Customer Relations ½
Total Units Required 6
SMALL BUSINESS OPERATIONS CERTIFICATE
This certificate program provides students with information on the various steps and management decisions involved in starting and operating a business. Program is designed for both prospective and current business owners.

To earn a certificate, complete the required courses as listed with a minimum grade of "C". At least 50% of all course work must be completed at Cypress College.

Required courses are listed in suggested sequence:

MARKETING TRANSFER PROGRAM
Refer to Catalog under:
BUSINESS ADMINISTRATION—TRANSFER PROGRAM
Students should consult a counselor or www.assist.org for lower division major requirements for most California public universities. (See the Standard Definitions section of the catalog for a description of ASSIST.) Students transferring to an independent college/university should consult the catalog of the individual school and a counselor for lower division major requirements.

Marketing (MKT)

MKT 086 C  SALES PROSPECTING
½ Unit
One half hour lecture per week.
Credit/No Credit
This course focuses on ways to identify prospective customers and generate sales leads using such methods as mailing lists, databases, networking, referrals, and other information sources.

MKT 087 C  SALES PRESENTATIONS
½ Unit
One half hour lecture per week.
Credit/No Credit
This course emphasizes the key elements of effective sales presentations and shows how to make each presentation come alive through the use of verbal, visual, and demonstration techniques.

MKT 088 C  HANDLING SALES OBJECTIONS
½ Unit
One half hour lecture per week.
Credit/No Credit
This course shows how to get past “No,” using various sales strategies to overcome customers’ objections and to emphasize the benefits of a purchase.

MKT 089 C  MAKING THE SALE
½ Unit
One half hour lecture per week.
Credit/No Credit
This course explains how and when to close a sale, focusing on the techniques that can be used to complete the transaction and generate repeat sales and customer referrals.

MKT 090 C  MARKETING ESSENTIALS
1 Unit
One hour lecture per week.
Credit/No Credit
This course covers the business activities necessary to plan, promote, price and distribute a product or service to potential customers. It provides an understanding of the functions of producers, wholesalers, retailers, and others.

MKT 091 C  ADVERTISING & PUBLIC RELATIONS
1 Unit
One hour lecture per week.
Credit/No Credit
This course discusses the roles of advertising and public relations as part of the marketing mix a business puts together, providing strategies for identifying a target audience/choosing a message and media.

MKT 092 C  PERSONAL SELLING
1 Unit
One hour lecture per week.
Credit/No Credit
This course provides instruction in the techniques of finding and contacting sales prospects, identifying needs and wants, giving effective sales presentations, handling objections, and closing the sale.

MKT 093 C  TARGET MARKETING
½ Unit
One half hour lecture per week.
Credit/No Credit
This course provides instruction in the fundamentals of marketing research to identify target markets and find out what customers want. Topics covered include data collection, interview and survey techniques, sources of information, and methods of trend analysis.

MKT 094 C  BUYER BEHAVIOR
½ Unit
One half hour lecture per week.
Credit/No Credit
This course explores the psychology of how and why customers buy, utilizing demographic and lifestyle factors to gain a better understanding of purchase decisions.

MKT 095 C  MARKET DISTRIBUTION SYSTEMS
½ Unit
One half hour lecture per week.
Credit/No Credit
This course provides a thorough view of the distribution process, including the channels, types of retail outlets, methods of transportation, warehousing and inventory control.

Marketing / 207
MKT 096 C  SALES PROMOTION TECHNIQUES  
½ Unit  
One half hour lecture per week.  
Credit/No Credit  
This course will provide information on the wide variety of “non-media” techniques that can be used to promote a business, including cents-off coupons, gifts and contests, special events, participation in trade shows and other promotional devices.

MKT 097 C  CUSTOMER RELATIONS  
½ Unit  
One half hour lecture per week.  
Credit/No Credit  
This course explores the ways to maintain and improve customer relations, develop customer loyalty and increase the level of repeat sales.

MKT 098 C  INT’L MARKETING-SMALL BUS.  
½ Unit  
One half hour lecture per week.  
Credit/No Credit  
This course is a study of the international marketplace and the various opportunities for businesses to sell products and services outside of the U.S.

MKT 103 C  PRINCIPLES OF ADVERTISING  
3 Units  
Three hours lecture per week.  
CSU  
This course is a study of advertising and promotion, including the print media, copy and layout, radio and television commercials, the Internet, public relations, customer preferences and appeals, advertising campaigns, and evaluation. An ad agency point of view is presented creatively for students with interest in communications, photography, art multimedia, business, psychology, or sociology.

MKT 105 C  PRINCIPLES OF RETAILING  
3 Units  
Three hours lecture per week.  
CSU  
This course covers the principles involved in organizing and managing a retailing or E-tailing business, with emphasis on planning, site appeal, merchandise, pricing, and promotion. Students will also learn customer service techniques and ways to enhance the shopping experience.

MKT 201 C  SMALL BUSINESS PROMOTION  
3 Units  
Three hours lecture per week.  
CSU  
This course focuses on the techniques used to promote a small business and develop its marketing strategy. Its emphasis is on creating a marketing plan and devising affordable and effective ways to communicate with customers through local media, and the Internet, sales promotion, publicity, brochures, direct mail and other methods.

MKT 205 C  MULTICULTURAL MARKETS IN U.S.  
3 Units  
Three hours lecture per week.  
CSU, CUL PL  
This course provides comprehensive coverage of the multicultural marketing environment in the United States, taking into consideration the changing needs and growing influence of ethnic and racial minorities, women, and other groups. Exploring the differences and commonalities that exist among the groups, the course examines the role of business and the United States’ marketing system in providing goods and services to meet each group’s needs.

MKT 206 C  STORE OPERATIONS  
3 Units  
Three hours lecture per week.  
CSU  
This course includes principles, procedures and functions of a retail store operation, with emphasis on techniques of buying merchandise. Current trends and practices are analyzed including layout, display, security controls, inventory records, control and management, pricing, coding and marking, receiving and stocking, merchandise planning, marketing, and distinctions between larger and smaller stores.

MKT 208 C  PRINCIPLES OF SELLING  
3 Units  
Three hours lecture per week.  
Credit/No Credit/Letter Grade Option  
CSU  
This course includes instruction in the principles and practices of personal persuasion and selling and development of the techniques that lead to a successful sales personality. The areas of study include buying motives; product knowledge; all phases of the selling process; and the many and varied career opportunities in the sales field.

MKT 209 C  DISPLAY AND SALES PROMOTION  
3 Units  
Three hours lecture per week.  
CSU  
This course is a lecture/lab experience in contemporary merchandising promotion. The subject areas include planning and working with display units and sales promotion materials, customer motivation, design and layout, creative brainstorming, and future trends.

MKT 210 C  CONSUMER BEHAVIOR  
3 Units  
Three hours lecture per week.  
CSU  
This course provides a study of consumers and how they buy. Consumerism, impulse buying, pleasure appeals, packaging, status symbols, the new woman, leisure time, California culture, personality, subliminal effects, and the psychology of advertising are covered.
MKT 222 C  PRINCIPLES OF MARKETING
3 Units
Three hours lecture per week.
CSU
This course is a study of business activities required to plan, price, promote, and distribute goods or services to potential customers. The areas of study include market research and consumer behavior, product development, advertising and sales, branding, pricing, Internet marketing, wholesaling and retailing, and international marketing.

MKT 224 C  INTERNATIONAL MARKETING
3 Units
Three hours lecture per week.
CSU
This course provides comprehensive coverage of the international marketing environment. The areas of study include the global marketplaces; import/exports; foreign economic, political and legal systems; cultural differences; international finance; marketing research; and business plans.

MKT 299 C  MERCHANDISING/MKT-INDEPENDENT STUDY
1 - 3 Units (Variable Unit Class)
Lecture/discussion hours vary with credit given.
CSU
Prerequisite: Approved Independent Study Learning Contract. The course is designed for capable students who wish to extend their knowledge of a particular area of merchandising/marketing through individual research and study.

MATHEMATICS TRANSFER PROGRAM
CALIFORNIA STATE UNIVERSITY, FULLERTON
Students should consult a counselor or www.assist.org for lower division major requirements for most California public universities. (See the Standard Definitions section of the catalog for a description of ASSIST.) Students transferring to an independent college/university should consult the catalog of the individual school and a counselor for lower division major requirements.

Mathematics (MATH)

PLACEMENT IN MATHEMATICS COURSES
Students are placed in most mathematics courses based on prior satisfactory completion of one or more prerequisite courses. Due to the highly sequential nature of the mathematics curriculum, students are required to meet the prerequisite of each mathematics course. Also, students who have completed the most advanced prerequisite course more than two years previously are strongly advised to enroll in or audit the appropriate prerequisite courses again because most students experience a loss of proficiency in the necessary skills after that length of time.

MATH 010 C  BASIC MATHEMATICS
4 Units
Four hours lecture per week.
NON-DEGREE CREDIT
This is a course for students wishing to review basic arithmetic skills. It includes the concepts of adding, subtracting, multiplying, and dividing whole numbers, fractions, mixed numbers, and decimals. Also covered will be percents, ratios, rates, solving proportions, perimeter and area of geometric figures, English and Metric measurements and an introduction to negative numbers. There will be an emphasis on applying the mathematics to real-world situations.

MATH 015 C  PRE-ALGEBRA
4 Units
Four hours lecture per week.
NON-DEGREE CREDIT
This course is designed for students who are planning to study algebra and need a review of the basic skills of arithmetic and an introduction to the basic principles of algebra. Topics covered include integers, fractions, decimals, percent, proportions, exponents, properties of real numbers, evaluation of algebraic expressions, elementary equation solving, formulas, informal geometry, and applications.
Students will find instructors and qualified tutors available for assistance in solving mathematical problems or in understanding mathematical concepts in the Mathematics Learning Center, located in Room 209 of the Science, Engineering, and Math building.

MATHEMATICS LEARNING CENTER

A scientific or graphing calculator is required for all math courses. Please see instructor.

MONDAY . . . . . . . 8AM – 3PM and 5PM – 8PM
TUESDAY . . . . . . . 8AM – 3:30PM and 5PM – 8PM
WEDNESDAY . . . 8AM – 3PM and 5PM – 8PM
THURSDAY . . . . . 8AM – 3:30PM and 5PM – 8PM
FRIDAY . . . . . . . 8AM – 12NOON
SATURDAY . . . . . 12NOON – 3PM
MATH 020 C  ELEMENTARY ALGEBRA
4 Units
Four hours lecture per week.
AAGE
Prerequisite: MATH 015 C OR Pre-algebra with a grade of “C” or better and the assessment process. Proof of prerequisites is required. This course is an introduction to the methods of algebra. It includes the basic operations of real numbers, polynomials, rational expressions, and radical expressions; factoring polynomials; solutions of linear equations, linear inequalities, systems of linear equations, and quadratic equations; and graphing of linear equations, systems, and inequalities.

MATH 025 C  ELEMENTARY ALGEBRA REVIEW
2 Units
Two hours lecture per week.
Credit/No Credit
NON-DEGREE CREDIT
Prerequisite: MATH 020 C OR Algebra I with a grade of “C” or better AND the assessment process. Proof of prerequisites is required. This course is a review of the introductory methods of algebra and is designed for students who have completed Elementary Algebra and plan to enroll in Intermediate Algebra. It includes the basic operations of real numbers, polynomials, rational expressions, and radical expressions; factoring polynomials; solutions of linear equations, linear inequalities, systems of linear equations, and quadratic equations; and graphing of linear equations, systems, and inequalities.

MATH 030 C  PLANE GEOMETRY
4 Units
Four hours lecture per week.
Prerequisite: MATH 020 C or high school algebra I with a grade of “C” or better AND the assessment process. Proof of prerequisites is required. This course is an introduction to Euclidean geometry. It includes elementary logic, deductive reasoning, theorems and proofs, geometric constructions, congruent and similar polygons, circles, geometric loci, areas, perimeters and volumes. Precise definitions and accuracy of statements are stressed as background for analytical reasoning. The course is equivalent to one year of high school geometry.

MATH 040 C  INTERMEDIATE ALGEBRA
4 Units
Four hours lecture and
One hour laboratory TBA per week.
AAGE
Prerequisite: MATH 020 C or Algebra I with a grade of “C” or better OR high school Algebra I with a grade of “B” or better AND the assessment process. Proof of prerequisites is required. This is a second course in algebra that includes the topics of sets, axioms for the real number system, polynomials, solutions of linear and quadratic equations and inequalities, exponents and radicals, linear and quadratic functions and their graphs, exponential and logarithmic functions and systems of equations.

MATH 045 C  INTERMEDIATE ALGEBRA REVIEW
2 Units
Two hours lecture per week.
Credit/No Credit
NON-DEGREE CREDIT
Prerequisite: MATH 040 C OR Algebra II with a grade of “C” or better AND the assessment process. Proof of prerequisites is required. This course is designed for students who have already completed Intermediate Algebra and are planning to enroll in Survey of Calculus, Elementary Functions with Trigonometry, Finite Mathematics, Statistics, or General Chemistry. The topics include sets, axioms for the real number system, polynomials, solutions of linear and quadratic equations and inequalities, exponents and radicals, linear and quadratic functions and radicals, linear and quadratic functions and their graphs, exponential and logarithmic functions and systems of equations. This course does not count toward the Associate Degree.

MATH 055 C  CBEST MATHEMATICS PREPARATION
1 Unit
One hour lecture per week.
Credit/No Credit
This course provides a review of the basic skills and concepts that are tested in the mathematics portion of the California Basic Educational Skills Test (CBEST). It includes estimation, measurement, and statistical principles; computation and problem solving; and numerical and graphic relationships. Eligibility for MATH 100 C is recommended.

MATH 098 C  MATHEMATICS SEMINAR
⅓ - 3 Units (Variable Unit Class) (May be taken for credit 4 times)
Three hours lecture/discussion or scheduled conference per week for maximum credit.
Credit/No Credit
This is a lecture/discussion approach to special topics involving mathematics. It may be a problem session relating to a particular course in the curriculum or a study of topics not ordinarily covered in the curriculum. Consult the class schedule to verify unit credit for a particular semester.

MATH 099 C  MATHEMATICS - INDEPENDENT STUDY
⅓ - 2 Units (Variable Unit Class) (May be taken for credit 4 times)
Two hours assigned independent study or research per week for maximum credit.
Prerequisite: Approved Independent Study Learning Contract. This course is for able students who have demonstrated interest and capability for increased knowledge of mathematical topics not ordinarily covered in curriculum courses. Students will participate in independent study or research on assigned projects under staff supervision.
MATH 100 C  MATH FOR LIBERAL ARTS
STUDENTS
3 Units
Three hours lecture per week.
*UC/CSU, AA GE, CSU GE, IGETC, CAN MATH 2
Prerequisite: MATH 030 C and MATH 040 C OR Plane Geometry and Algebra II with grades of "C" or better AND the assessment process. Proof of prerequisites is required. This is a survey course with selected topics from the history and development of mathematics, elementary logic and set theory, probability, statistics, geometry, and exponential and logarithmic applications. The course is designed for prospective teachers and liberal arts students. *Completion of this course does not satisfy the UC High School Math Entrance Requirement.

MATH 105 C  STATISTICS FOR TEACHERS
4 Units
Four hours lecture per week.
CSU, AA GE
Prerequisite: MATH 030 C and 040 C OR Plane Geometry and Algebra II with grades of "C" or better AND the assessment process. Proof of prerequisites is required. This course is an introduction to probability and statistics through activity-based exploration of randomization, data representation, measures of central tendency and dispersion, analysis of experiments requiring hypothesizing, experimental design and data gathering, and an introduction to the basic laws of probability and set theory, combinations, permutations, and simulations. Algebraic thinking will be used throughout the course. Problem solving processes and strategies are emphasized. This course is designed for prospective elementary and middle school teachers.

MATH 110 C  REAL NUMBERS FOR TEACHERS
4 Units
CSU, AA GE
Prerequisite: MATH 030 C and 040 C OR Plane Geometry and Algebra II with grades of "C" or better AND the assessment process. Proof of prerequisites is required. This course is an introduction to problem solving processes and strategies. Students explore the development and analysis of the structure and operations of the real number system. Students focus on concept and process development using appropriate models, manipulatives, and activities. This course is designed for prospective elementary and middle school teachers.

MATH 115 C  FINITE MATHEMATICS
3 Units
Three hours lecture per week.
UC/CSU, AA GE, CSU GE, IGETC, CAN MATH 12
Prerequisite: MATH 040 C OR Algebra II with a grade of "C" or better AND the assessment process. Proof of prerequisites is required. This course includes graphs and transformations of functions, matrices and linear systems, linear programming, set theory, combinatorial analysis, finite probability, and descriptive statistics. Applications to the fields of business, economics, biological sciences, and behavioral sciences are emphasized.

MATH 120 C  INTRO PROBABILITY & STATISTICS
4 Units
Four hours lecture per week.
UC Credit Limitation/CSU, AA GE, CSU GE, IGETC, CAN STAT 2
Prerequisite: MATH 040 C OR Algebra II with a grade of "C" or better AND the assessment process. Proof of prerequisites is required. This course is an introduction to the elements of statistical analysis which includes an intuitive approach to the study of probability and probability distributions, measures of central tendency and dispersion, sampling techniques, parametric and non-parametric tests of hypotheses, point and interval estimation, linear regression, and correlation. Applications to business, biological sciences, and the social sciences are emphasized. Students will use computer software and/or graphing calculators for statistical analysis of various topics.

MATH 120HC  HONORS INTRO TO PROB & STAT
4 Units
Four hours lecture per week.
UC Credit Limitation/CSU, AA GE, CSU GE, IGETC
Prerequisite: MATH 040 C OR Algebra II with a grade of "C" or better AND the assessment process. Proof of prerequisites is required. This course is an enhanced introduction to the elements of statistical analysis for honors students. It includes an intuitive approach to the study of probability and probability distributions, measures of central tendency and dispersion, sampling techniques, parametric and non-parametric tests of hypotheses, point and interval estimation, linear regression, and correlation. Applications to business, biological sciences, and the social sciences are emphasized. Students will use computer software and/or graphing calculators for statistical analysis of various topics.

MATH 130 C  SURVEY OF CALCULUS
4 Units
Four hours lecture per week.
Credit by Examination
UC Credit Limitation/CSU, AA GE, CSU GE, IGETC, CAN MATH 30
Prerequisite: MATH 040 C OR Algebra II with grades of "C" or better AND the assessment process. Proof of prerequisites is required. This course is an introduction to calculus with emphasis on solution techniques and applications rather than abstract theory. It includes elements of analytic geometry, limits, the derivative, integration as a summation process, exponential and logarithmic functions, integration of basic forms, techniques of integration, an introduction to multi-variable calculus, and curve sketching, with applications from the life sciences, engineering technology, economics, and the social sciences.
MATH 141 C  COLLEGE ALGEBRA
4 Units
Four hours lecture per week.
UC/CSU, AA GE, CSU GE, IGETC, CAN MATH 10
Prerequisite: MATH 030 C and MATH 040 C with grades of "C" or better OR plane geometry and Algebra II with grades of "C" or better AND the assessment process. Proof of prerequisites is required. This is one of two precalculus courses. The topics covered include a review of the fundamentals of algebra; rational, exponential and logarithmic functions; theory of equations and zeros of polynomial functions; systems of equations including linear and quadratic systems; matrices and determinants; sequences and series; mathematical induction; permutations; combinations; binomial theorem; analytic geometry; conic sections; and miscellaneous topics.

MATH 142 C  TRIGONOMETRY
4 Units
Four hours lecture per week.
CSU, AA GE, CSU GE, CAN MATH 8
Prerequisite: MATH 030 C and MATH 040 C with grades of "C" or better OR plane geometry and Algebra II with grades of "C" or better AND the assessment process. Proof of prerequisites is required. This is one of the two precalculus courses. Topics include relations; exponential, logarithmic and trigonometric functions and their graphs; inverses of the functions and their graphs; identities; laws of sines and cosines; solutions of triangles; trigonometric equations; polar coordinates; DeMoivre's Theorem; applications; and translation of axes.

MATH 150AC  CALCULUS AND ANALYTIC GEOMETRY
4 Units
Four hours lecture per week.
Credit by Examination
UC Credit Limitation/CSU, AA GE, CSU GE, IGETC, CAN MATH 18
Prerequisite: MATH 141 C and MATH 142 C OR trigonometry and math analysis/precalculus with grades of "C" or better AND the assessment process. Proof of prerequisites is required. This course is an introduction to mathematical analysis. It includes the study of analytic geometry, functions and limits, continuity, differentiation and integration. Problem work includes applications involving derivatives, definite integrals and indefinite integrals.

MATH 150BC  CALCULUS AND ANALYTIC GEOMETRY
4 Units
Four hours lecture per week.
Credit by Examination
UC/CSU, AA GE, IGETC, CAN MATH 20
Prerequisite: MATH 150AC OR Calculus I and Analytic Geometry with a grade of "C" or better AND the assessment process. Proof of prerequisites is required. This course is a continuation of Mathematics 150AC which includes the study of applications of integration, techniques of integration, indeterminate forms, L'Hopital's rule, improper integrals, infinite sequences and series, Taylor and MacLaurin series, conic sections, plane curves, parametric equations, and polar coordinates.

MATH 150BC  CALCULUS AND ANALYTIC GEOMETRY
4 Units
Four hours lecture per week.
UC/CSU
Prerequisite: MATH 150AC and MATH 150C OR Calculus I and II with grades of "C" or better AND the assessment process. Proof of prerequisites is required. This is the first of two semesters of fundamental discrete mathematical concepts needed in computer related disciplines. The topics covered include logic, truth tables, elementary set theory, functions, relations, proof techniques, combinatorics, probability, and Boolean Algebra. Students will write algorithms using pseudocode and will learn to write formal proofs of mathematical statements.

MATH 171 C  DISCRETE MATHEMATICS
4 Units
Four hours lecture per week.
UC/CSU
Prerequisite: MATH 141 C and MATH 142 C OR Trigonometry and Math Analysis/Precalculus with grades of "C" or better AND the assessment process. Proof of prerequisites is required. This is the second of two semesters of fundamental discrete mathematical concepts and techniques needed in computer related disciplines. Topics include theory of graphs, trees, finite state machines, and linear algebra including vector spaces, inner product spaces, linear transformations, and eigenvalues.

MATH 186 C  TI-85/86 GRAPHING CALCULATOR
1/2 Unit
One half hour lecture per week.
Credit/No Credit
CSU
Prerequisite: MATH 040 C OR Algebra II with a grade of "C" or better AND the assessment process. Proof of prerequisites is required. This is a course for students wishing to gain an introduction to the TI-85 or TI-86 Graphing Calculators. Students are given an orientation of basic graphing calculator functions. Basic topics include home screen calculations, graphing tools, the catalog feature, tables, solver, solving systems of linear equations, programming, and the TI graph link.

MATH 192 C  TI-89/92 GRAPHING CALCULATOR
1/2 Unit
One half hour lecture per week.
Credit/No Credit
CSU
Prerequisite: MATH 150BC OR Calculus II and Analytic Geometry with a grade of "C" or better AND the assessment process. Proof of prerequisites is required. This is a course for students wishing to learn to use a TI-89, TI-92, or TI-92+ Graphing Calculator. Basic topics include home screen calculations, various graphing modes, tables, solving equations and systems of equations, manipulating matrices and vectors, integration and differentiation, programming, and using the TI graph link.
MATH 211 C GEOMETRY FOR TEACHERS
4 Units
Four hours lecture per week.
CSU
Prerequisite: MATH 110 C with a grade of “C” or better. Proof of prerequisites is required. This course is an introduction to problem solving with informal geometry in one, two and three dimensions. Topics include congruence, similarity, constructions, transformations, tessellations, and measurement involving both English and metric units. Emphasis will be on hands-on modeling of real-world geometric situations. This course is designed for prospective elementary school teachers.

MATH 250AC INTERMEDIATE CALCULUS
4 Units
Four hours lecture per week.
Credit by Examination
UC/CSU, AA GE, IGETC, CAN MATH 22
Prerequisite: MATH 150BC OR Calculus II and Analytic Geometry with a grade of “C” or better AND the assessment process. Proof of prerequisites is required. This course is an intermediate course in mathematical analysis. It includes the study of three-dimensional analytic geometry, calculus of functions of several variables, vector calculus, multiple integration, vector fields and theorems, with associated problem applications.

MATH 250BC INTERMEDIATE CALCULUS
4 Units
Four hours lecture per week.
Credit by Examination
UC/CSU, AA GE, IGETC, CAN MATH 24
Prerequisite: MATH 250AC OR Calculus III and Analytic Geometry with a grade of “C” or better AND the assessment process. Proof of prerequisites is required. This course is an introduction to linear algebra and ordinary differential equations. Linear algebra includes matrices, determinants, vector spaces, linear transformations, and characteristic values. Differential equations includes separable, exact, Cauchy-Euler, and nonhomogeneous equations; undetermined coefficients, variation of parameters, series solutions, and systems of differential equations.

MATH 298 C MATHEMATICS SEMINAR
½ - 3 Units (Variable Unit Class) (May be taken for credit 4 times)
Three hours lecture/discussion or scheduled conference per week for maximum credit.
UC Credit Limitation/CSU
Prerequisite: MATH 040 C with grade of “C” or better. This is a lecture/discussion approach to special topics involving mathematics. It may be a problem session related to a particular course in the curriculum, or a study of topics not ordinarily covered in the curriculum. Consult the class schedule to verify unit credit for a particular semester.

MATH 299 C MATHEMATICS INDEPENDENT STUDY
½ - 2 Units (Variable Unit Class) (May be taken for credit 4 times)
Two hours assigned independent study or research per week for maximum credit.
UC Credit Limitation/CSU
Prerequisite: Approved Independent Study Learning Contract. This course is for able students who have demonstrated interest and capability for increased knowledge of mathematical topics not ordinarily covered in curriculum courses. Students will participate in independent study or research on assigned projects under staff supervision.

Medicine

MEDICINE TRANSFER PROGRAM
Professional programs such as dentistry, medicine, pharmacy, optometry, physician assistant, physical therapy and veterinary medicine are most often graduate programs that require a bachelor degree or significant preparation prior to entering the program. The appropriate preparation varies according to the school and specific program. Students are advised to meet with a counselor to discuss options for their bachelor degree and the lower division requirements for the program and school of their choice.

Merchandising

ASSOCIATE IN SCIENCE DEGREE
MERCHANDISING
This program is designed to prepare students for the growing number of positions in retailing and merchandising. The diversified curriculum includes consumer behavior, store operations and a work-study program to be implemented in the second year of study.

To earn an Associate Degree students must complete:
(1) all major course requirements with a minimum grade of “C”;
(2) 25 units of General Education Graduation Requirements;
(3) the cultural pluralism and reading requirement;
(4) any elective courses to complete a minimum of 60 units; and,
(5) have a minimum GPA of 2.0. At least 50% of all major course work must be completed at Cypress College.

Required courses are listed in suggested sequence:
Course # Title Units
MGT 161 C Introduction to Business 3
MKT 210 C Consumer Behavior 3
MKT 103 C Principles of Advertising 3
MKT 208 C Principles of Selling 3
MKT 222 C Principles of Marketing 3
MKT 105 C Principles of Retailing 3
ACCT 101 C Financial Accounting 4
Total Units Required 22

Electives
MGT 151 C Business Mathematics 3
WKEX 191 C Work Experience-Vocational 4-16
MGT 261 C Small Business Management 3
MGT 265 C Social Responsibility of Bus. 3
MGT 041 C Survey of Business Law 3

214 / Merchandising
MERCHANDISING CERTIFICATE
Primary emphasis is to prepare the student for occupational competency. To earn a certificate, complete the required courses as listed with a minimum grade of “C”. At least 50% of all course work must be completed at Cypress College.

Required courses are listed in suggested sequence:

MERCHANDISING TRANSFER PROGRAM
Refer to Catalog under BUSINESS ADMINISTRATION TRANSFER PROGRAM
Students should consult a counselor or www.assist.org for lower division major requirements for most California public universities. (See the Standard Definitions section of the catalog for a description of ASSIST.) Students transferring to an independent college/university should consult the catalog of the individual school and a counselor for lower division major requirements.

Mortuary Science
Division of Health Science

Division Dean – Andrea Hannon

Faculty
Glenn Bower
Jolena Grande
Kathleen Boettger

Counselors
Kelly Carter
Denise Vo

PROGRAM OBJECTIVES
1. To provide a curriculum at the Post Secondary Level of Education designed to enlarge the background and knowledge of students desiring to enter the Funeral Service Profession through education and training in every phase of Funeral Service.

2. To educate students concerning the responsibilities of the Funeral Service Profession to the clients they serve and to the community at large, and to emphasize high standards of ethical conduct.

3. To enable students to develop proficiency and skills necessary to the maintenance of those measures of Public Health, Safety and Welfare identified with the Care of Human Remains.

4. To encourage research in the field of Funeral Service.

5. To qualify students for professional licensure examinations.

MINIMUM STANDARDS FOR APPLICANTS
1. Eligibility for admission to Cypress College.

2. High school diploma, a GED test with a minimum score of 45, or a high school proficiency examination.

3. Present evidence of good physical and mental health.

4. English Placement Test with a score to qualify for ENGL 060 C; ESL 186 C or completion of ENGL 058 C or ESL 185 C with a grade of “C” or better.

5. One year of high school lab science (biology or chemistry) or one semester of college General or Human Biology or Anatomy or Chemistry completed with a cumulative grade of “C” or better.

APPLICATION PROCEDURES
1. Separate application, in addition to the college application form, is required for admission into the Mortuary Science Program. These applications may be obtained from the Health Science Counseling Office, Health Science Building, Cypress College, 9200 Valley View Street, Cypress, CA 90630.

2. A total of 45 new students are selected each spring and fall semester. Applicants may exceed the available seat space. Prioritization of qualified applicants will determine acceptance.

3. Applicants are responsible for submitting all documents (records, forms and transcripts) indicating minimum standards and prerequisites have been met to the Health Science Counseling Office.

SELECTION PROCEDURES
Selection of students for acceptance is based on the date of completed application which includes submission of all transcripts and required documents.

ASSOCIATE IN SCIENCE DEGREE MORTUARY SCIENCE
This program is designed to prepare the student for state licensure where statutory law requires successful completion of the Associate in Science Degree in Mortuary Science and compliance with the statutory pre-mortuary science educational requirements. To earn an Associate Degree students must complete: (1) all major course requirements with a minimum grade of “C”; (2) 25 units of General Education Graduation Requirements; (3) the cultural pluralism and reading requirements; (4) any elective courses to complete a minimum of 60 units; and, (5) have a minimum GPA of 2.0. At least 50% of all major course work must be completed at Cypress College.

GENERAL EDUCATION GRADUATION REQUIREMENTS

| Categories A through E (see listing earlier in catalog) | 25 |
| Cultural Pluralism/Reading Proficiency | 25 |
| Total Units Required | 75 |

NOTE: All General Education Graduation Requirement units may be taken prior to enrollment in the program or at the completion of the Certificate Program.
**MORTUARY SCIENCE CERTIFICATE**

This program is a one year course of study designed for students who wish to prepare for a career and employment as an embalmer/funeral director in a mortuary. It is approved by the California State Board of Funeral Directors and Embalmers and is accredited by the American Board of Funeral Service Education.

To earn a certificate, complete the required major courses as listed with a minimum grade of "C" for each course. At least 50% of all course work must be completed at Cypress College. Upon completion of the prescribed mortuary science courses, the student will then be eligible to write the California Board Examination for Embalmers.

To be eligible to write the National Board Examination, the student must complete the certificate program plus 15 units of General Education outside of the Mortuary Science Program prior to taking the Examination. The 15 units can be taken at any time at any accredited institution. We recommend these units be taken prior to entering the Mortuary Science Program so that the student can write the Examination immediately upon completion of the Program.

The program meets the mortuary science or funeral service educational requirements for most states. Eligibility to write the licensure examination in some states may be contingent upon compliance with additional statutory requirements. Please consult the department for more specific information, or, for further information, contact a Health Science Counselor (714) 484-7270.

### Prerequisites

**BIOL 160 C** Integrated Medical Science  
**or**  
**BIOL 101 C** General Biology  
**or**  
**ENGL 058 C** Reading and Writing II  
**or**  
**ESL 185 C** Advanced English for Non-Native Speakers of English (Level III)

See minimum standards

*All General Education units may be taken prior to enrollment in the program or at the completion of the Certificate Program.

### Mortuary Science (MORT)

**MORT 085 C** MORTUARY SCIENCE - WORK EXPERIENCE  
1 - 4 Units (Variable Unit Class) (May be taken for credit 4 times)  
One hour lecture per week and  
Minimum of five hours employment per week in a mortuary.  
Prerequisite: Admission to Mortuary Science Program. Must be enrolled in seven units or more including work experience. This course requires a minimum of five hours per week employment in a licensed funeral home of the student’s own selection. Discussion of funeral service business and related technical issues are explored. The course includes job analysis, writing a resume, self management, self development, and employer-employee relations. An appreciation for life long learning and advancement in the profession will be developed through group discussion.

**MORT 160 C** ORIENTATION TO FUNERAL SERVICE  
4 Units  
Four hours lecture per week.  
Prerequisite: Admission to Mortuary Science Program; or eligible for admission to the program and employed in funeral service. This course is designed to acquaint the mortuary science student with general information on the practice of the funeral profession. Topics covered include: notification of death, transfer of remains, the arrangement conference, pre-funded/preplanned funerals, shipment of remains, cremation, and aftercare, as well as the basic principles of merchandising as it applies to the funeral profession, construction and features of caskets, outer burial containers, and other funeral related products; and methods of display and presentation. In addition, a survey of the history of funeral service with emphasis on ethnic groups that have influenced contemporary funeral principles and practices as well as the progression of associations and education within funeral service will be discussed.

**MORT 161 C** RESTORATIVE ART I  
2 Units  
One hour lecture and  
Three hours laboratory per week.  
Prerequisite: Completion of, or concurrent enrollment in MORT 163 C. A detailed study is made of each of the facial features and its relationship to a complete restoration. In the laboratory the student has an opportunity to follow through with the modeling in clay of the features studied, both as a single feature and using plaster of Paris heads for reproduction.

| MORT 162 C | EMBALMING I                               | 2     | One hour lecture and Three hours laboratory per week | CSU  
Prerequisite: Completion of or concurrent enrollment in MORT 163 C. This course is designed to include basic orientation, history of embalming to present times, moral and sanitary considerations of embalming, methods of handling human remains, including those of a contagious or infectious nature, demonstration of the various methods of preparation and disinfection treatment of bodies contaminated by radiation. |
| MORT 163 C | EMBALMING ANATOMY/PATHOLOGY I             | 5½    | Five and one-half hours lecture per week | CSU  
Prerequisite: Admission to Mortuary Science Program. This introductory course is designed for the mortuary science student, surveys general anatomical, physiological and pathological concepts processes and terminology important to the funeral service practitioner in understanding the embalming process, articulating with allied health/forensic professionals, interpreting death certificates and protecting oneself and the public against communicable disease. Also considered are those medical and forensic pathologies presenting particular embalming and restorative problems. |
| MORT 164 C | FUNERAL SERVICE THANATOLOGY I             | 2     | Two hours lecture per week | CSU  
Prerequisite: Admission to the Mortuary Science Program. This course is an introduction to thanatology, basic psychological terminology and theories. Emphasis is on the study of grief, bereavement, and mourning. The content provides the knowledge required of the funeral director to work effectively with families as a facilitating agent. The needs of the families served are studied in relation to the design and implementation of the funeral rite. |
| MORT 165 C | FUNERAL SERVICE MANAGEMENT I              | 2     | Two hours lecture per week | CSU  
Prerequisite: Admission to Mortuary Science Program and completion of, or concurrent enrollment in, MORT 160 C. Designed for the mortuary science student, the course is a vocationally oriented survey of funeral service management as it applies to funeral home operations, mortuary management, and financial decision-making. Information presented covers financial statements and their analysis, worksheets, journalizing, receivables, payables, deferrals, and accruals. Inventory costing models, depreciation models, and funeral service payroll accounts are also included. |
| MORT 166 C | EMBALMING II                              | 4     | Three hours lecture and Three hours laboratory per week | CSU  
Prerequisite: MORT 162 C and completion of or concurrent enrollment in MORT 273 C. This is a continuation of MORT 160 C, with emphasis upon the development of embalming techniques, of remains having various diseases, treatment of localized areas by supplemental methods of preservation and the application of embalming theories ranging from pre-embalming analysis to funeral home visitation room appearance in a laboratory environment. |
| MORT 167 C | EMBALMING III                             | 3½    | Three and one-half hours lecture per week | CSU  
Prerequisite: MORT 163 C. Designed for the Mortuary Science student and a continuation of MORT 163 C, the course surveys general anatomical, physiological and pathological concepts as they relate to the various systems of the human body. The digestive, respiratory, urinary, endocrine, nervous and reproductive systems are studied in detail as they relate to preservation and disinfection for safeguard measures in handling and embalming of human remains to protect public health and the embalmer. Throughout the course, terminology is emphasized to facilitate interpretation of death certificates. |
| MORT 270 C | FUNERAL SERVICE CEREMONIES                | 2     | Two hours lecture per week | CSU  
Prerequisite: Admission to the Mortuary Science program and completion of MORT 160 C. This course is designed to introduce the student to funeral service practices and procedures in military, fraternal and religious funerals for a complete understanding of all principles and variations involved. |
| MORT 271 C | RESTORATIVE ART II                        | 2     | One hour lecture and Three hours laboratory per week | CSU  
Prerequisite: MORT 161 C and completion of or concurrent enrollment in MORT 273 C. This is a continuation of MORT 161 C with emphasis upon major restorations and explains how all previous restorative art work can be used to complete each type of case. Color theory and cosmetology are discussed. In the lab the student will perform feature modeling in wax on both plaster of Paris and latex heads. In addition there is practical work in cosmetics, hair dressing, color pigments and preparation of death masks. |
| MORT 272 C | EMBALMING II                              | 4     | Three hours lecture and Three hours laboratory per week | CSU  
Prerequisite: MORT 161 C and completion of or concurrent enrollment in MORT 273 C. This is a continuation of MORT 161 C, with emphasis upon major restorations and explains how all previous restorative art work can be used to complete each type of case. Color theory and cosmetology are discussed. In the lab the student will perform feature modeling in wax on both plaster of Paris and latex heads. In addition there is practical work in cosmetics, hair dressing, color pigments and preparation of death masks. |
| MORT 273 C | EMBALMING ANATOMY/PATHOLOGY II           | 3½    | Three and one-half hours lecture per week | CSU  
Prerequisite: MORT 163 C. Designed for the Mortuary Science student and a continuation of MORT 163 C, the course surveys general anatomical, physiological and pathological concepts as they relate to the various systems of the human body. The digestive, respiratory, urinary, endocrine, nervous and reproductive systems are studied in detail as they relate to preservation and disinfection for safeguard measures in handling and embalming of human remains to protect public health and the embalmer. Throughout the course, terminology is emphasized to facilitate interpretation of death certificates. |
MORT 274 C  FUNERAL SERVICE
THANATOLOGY II
3 Units
Three hours lecture per week.
CSU
Prerequisite: MORT 164 C. This course is a continuation of MORT 164 C, with emphasis on the grief process, normal and abnormal, and the resolution of grief. Follow-up programs initiated by the funeral director are examined in detail as well as community support groups with whom the funeral director participates. Major emphasis is placed on the student identifying problem areas in the field, making a plan for intervention, and making appropriate referrals to community professionals.

MORT 275 C  LAW OF MORTUARY
OPERATION
3 Units
Three hours lecture per week.
CSU
Prerequisite: Admission to Mortuary Science Program and completion of or concurrent enrollment in MORT 160 C. This course designed for the Mortuary Science student, surveys the American legal system, its development, court systems, and the major bodies of law as they relate to the legal environment in which the funeral business operates. The legal aspects of funeral service contracts, funeral service sales, and the use of commercial paper are also considered. This course will also look at the professional ethics used by funeral service providers as it relates to the legal aspects of the funeral home establishment.

MORT 279 C  MORTUARY LAW
3 Units
Three hours lecture per week.
CSU
Prerequisite: Admission to the Mortuary Science Program and completion of MORT 160 C; or eligible for admission to the program and employed in funeral service. This course is designed to introduce the mortuary science student to sources of law, legal status of the dead human body, duty of burial, rights to control funeral arrangements, final disposition, and liability for funeral expenses; torts involving the dead human body and the funeral director; wills, estate, and probate proceedings; cemeteries and related issues; state and federal laws and regulations pertaining to funeral service; as well as the legal aspects of being a licensed funeral director/mortician. Within this framework, relevant statutes, rules and regulations specific to the state of California are considered. Also covered are the Federal Wage and Hour Act, the Federal Truth in Lending Act, Occupational Safety and Health Act regulations, and the Uniform Anatomical Gift Act.

MORT 292 C  FUNERAL SERVICE SCIENCE
2 Units
Two hours lecture per week.
CSU
Prerequisite: Completion of MORT 162 C. The course is designed to familiarize the Mortuary Science student with the nature of chemicals utilized in the mortuary setting, and to provide a qualitative understanding of the chemical aspects of tissue decomposition and preservation. Embalming of protein and the effects relative to the blood, body pigments and tissue staining are a primary emphasis of the course.

MORT 293 C  MORTUARY COMPUTER
APPLICATIONS
2 Units
One and one half hour lecture and
One and one half hour laboratory per week.
CSU
Prerequisite: Admission to the Mortuary Science Program and completion of MORT 160 C. The course is designed to provide the mortuary science student with an overview of considerations relevant to the operation of the funeral home as a small business through the use of hands-on experience with appropriate mortuary science computer software, as well as the Federal Trade Commission Funeral Rule. $3.00 Laboratory Fee - PAYABLE AT REGISTRATION.

MORT 294 C  FUNERAL SERVICE
COUNSELING
4 Units
Four hours lecture per week.
CSU
Prerequisite: MORT 164 C. This is a course aimed at the study of concepts, techniques and procedures used by the funeral director in his/her role as a counselor.

MORT 295 C  FUNERAL SERVICE
MANAGEMENT II
4 Units
Four hours lecture per week.
CSU
Prerequisite: MORT 165 C. The course is a continuation of MORT 165 C designed to introduce the mortuary science student to the basic principles of management as they apply to the practice of the funeral profession; to the financial aspects of funeral business operation, concepts of financial management and the use of financial information in decision-making relative to cost analysis and control, pricing, inventory and in assessing the firm's performance; and credit policies and practices. Emphasis is placed on general management technique and theory as it relates to funeral service practice, and specific areas of funeral service practice and the managerial guidelines for those areas. Basic principles of merchandising, methods of pricing, display, presentation, and control of funeral merchandise as it applies to the funeral profession are also discussed. Additionally, the role and function of an effective manager with emphasis placed on the management functions of planning, organizing, motivating, directing, and controlling, and how to purchase a small business are also covered.

**MULTIMEDIA ART CERTIFICATE**

This certificate provides the skills necessary to create interactive projects for distribution on videotape, CD-ROMs, and Web sites.

To earn a certificate, complete the required major courses as listed with a minimum grade of “C” for each course. At least 50% of all course work must be completed at Cypress College.

Required courses are listed in suggested sequence:

Total Units Required: 27

---

Any one of the following may be substituted for the above except PHOT 103 C, PHOT 215 C, PHOT 207 C because these are prerequisite courses:

- PHOT 050 C Photography Special Projects (This is a portfolio class) 3
- PHOT 104 C Wedding Photography 3
- PHOT 109 C Portrait Photography 3
- PHOT 200 C Conceptual Photography 3
- PHOT 219 C Photography for Publication 3

---

**Multimedia (MM)**

**MM 100 C  INTRODUCTION TO MULTIMEDIA**

3 Units  
*Three hours lecture per week.*  

*CSU*

This team-taught lecture class is designed to introduce the student to the various disciplines involved in the creation of multimedia products. These disciplines include information systems, computer graphics and visual design, digital photography, electronic music, digital journalism and video.

**MM 101 C  INTRO. TO ONLINE LEARNING**

1 Unit  
*One hour lecture per week.*  

*Credit/No Credit/Letter Grade Option*  

*CSU*

This course prepares the student for the online education experience through direct application of online courseware tools such as chat, discussion, file exchange, homepage, course calendar, online gradebook, and external links. It also explores word processing basics, time management, troubleshooting, electronic mail, e-mail attachments, Internet navigation and research, file transfer protocol and other Internet services.

**MM 110 C  VISUAL COMMUNICATION**

3 Units  
*Three hours lecture per week.*  

*UC/CSU*

An introduction to the concepts and techniques of visual perception, color and design. Design elements will be used to create 2-and 3-dimensional images with emphasis on the computer as medium. Emphasis is on thinking processes and problem solving basic to creative visual work.
MMCG 100 C  INTRO TO COMPUTER GRAPHICS/MAC  
3 Units  
(Same as ACG 100 C)  
Two hours lecture and  
Three hours laboratory per week.  
CSU  
Corequisite: Concurrent enrollment in ACG 199 C. This course focuses on the use of paint, drawing and page layout programs. The use of various input and output devices will be covered. Designed for artists to input, create, manipulate and output graphic imagery. This class is intended as a gateway into the varied offerings of the Art Computer Graphics program, where the student can pursue more in-depth study on the topic(s) that most attracted them during this introductory class. $15.00 Laboratory Fee - PAYABLE AT REGISTRATION.

MMCG 101 C  INTRO TO COMPUTER GRAPHICS/WIN  
3 Units  
(Same as ACG 101 C)  
Two hours lecture and  
Three hours laboratory per week.  
CSU  
Corequisite: Concurrent enrollment in ACG 199 C. This course focuses on the use of paint, drawing and page layout programs. The use of various input and output devices will be covered. Designed for artists to input, create, manipulate and output graphic imagery. This class is intended as a gateway into the varied offerings of the Art Computer Graphics program, where the student can pursue more in-depth study on the topic(s) that most attracted them during this introductory class. $15.00 Laboratory Fee - PAYABLE AT REGISTRATION.

MMCG 102 C  INTRO TO MAC WEB GRAPHICS  
3 Units  
(Same as ACG 102 C)  
Two hours lecture and  
Three hours laboratory per week.  
CSU  
Corequisite: Concurrent enrollment in ACG 199 C. This is an overview of the many uses of computer multimedia, with an emphasis on electronic publishing over the Internet. In the course of the semester, the students create a personal Web page enriched with such audiovisual elements as animation, sound, video, 3-D, and different types of still images. This class is intended as a gateway into the varied offerings of the Art Computer Graphics program, where the student can pursue more in-depth study on the topic(s) that most attracted them during this introductory class. $15.00 Laboratory Fee – PAYABLE AT REGISTRATION.

MMCG 103 C  INTRO TO WIN WEB GRAPHICS  
3 Units  
(Same as ACG 103 C)  
Two hours lecture and  
Three hours laboratory per week.  
CSU  
Corequisite: Concurrent enrollment in ACG 199 C. This is an overview of the many uses of computer multimedia, with an emphasis on electronic publishing over the Internet. In the course of the semester, the students create a personal Web page enriched with such audiovisual elements as animation, sound, video, 3-D, and different types of still images. This class is intended as a gateway into the varied offerings of the Art Computer Graphics program, where the student can pursue more in-depth study on the topic(s) that most attracted them during this introductory class. $15.00 Laboratory Fee - PAYABLE AT REGISTRATION.

MMCG 104 C  INTRO TO MAC 3D GRAPHICS  
3 Units  
(Same as ACG 104 C)  
Two hours lecture and  
Three hours laboratory per week.  
CSU  
Corequisite: Concurrent enrollment in ACG 199 C. This is an overview of 3D computer graphics, with an emphasis on 2D paint and 3D modeling & animation software used in animation on the Macintosh. In the course of the semester, students create original 3D still and animation imagery for their portfolio. This class is intended as a gateway into the varied offerings of the Art Computer Graphics program, where the student can pursue more in-depth study on the topic(s) that most attracted them during this introductory class. $15.00 Laboratory Fee – PAYABLE AT REGISTRATION.

MMCG 105 C  INTRO TO WIN 3D GRAPHICS  
3 Units  
(Same as ACG 105 C)  
Two hours lecture and  
Three hours laboratory per week.  
CSU  
Corequisite: Concurrent enrollment in ACG 199 C. This is an overview of 3D computer graphics, with an emphasis on 2D paint and 3D modeling & animation software used in animation on a Windows computer. In the course of the semester, students create original 3D still and animation imagery for their portfolio. This class is intended as a gateway into the varied offerings of the Art Computer Graphics program, where the student can pursue more in-depth study on the topic(s) that most attracted them during this introductory class. $15.00 Laboratory Fee – PAYABLE AT REGISTRATION.
MMCG 120 C  3D MODELING/MAC
3 Units
(Same as ACG 120 C)
Two hours lecture and
Three hours laboratory per week.
CSU
Corequisite: Concurrent enrollment in ACG 199 C. Advisory: ACG 104 C or MMCG 104 C or ACG 105 C or MMCG 105 C and ART 120 C or by consent of instructor pending portfolio review. This course focuses on computer generated 3D design techniques, through the use of Macintosh based three-dimensional design programs. The course emphasis is on the introduction of three-dimensional concepts, the use of modeling tools, menu structures and modeling building applications of 3D design systems. Skills taught in this course will give students the ability to create original three-dimensional computer generated models of organic or mechanical design and animate them. $15.00 Laboratory Fee – PAYABLE AT REGISTRATION.

MMCG 121 C  3D MODELING/WIN
3 Units
(Same as ACG 121 C)
Two hours lecture and
Three hours laboratory per week.
CSU
Corequisite: Concurrent enrollment in ACG 199 C. Advisory: ACG 104 C or MMCG 104 C or ACG 105 C or MMCG 105 C and ART 120 C or by consent of instructor pending portfolio review. This course focuses on computer generated 3D design techniques, through the use of Microsoft Windows based three-dimensional design programs. The course emphasis is on the introduction of three-dimensional concepts, the use of modeling tools, menu structures and modeling building applications of 3D design systems. Skills taught in this course will give students the ability to create original three-dimensional computer generated models of organic or mechanical design and animate them. $15.00 Laboratory Fee – PAYABLE AT REGISTRATION.

MMCG 132 C  ELECTRONIC PAINT/MAC
3 Units
(Same as ACG 132 C)
Two hours lecture and
Three hours laboratory per week.
CSU
Corequisite: Concurrent enrollment in ACG 199 C. Advisory: ACG 100 C or MMCG 100 C or ACG 101 C or MMCG 101 C or ACG 102 C or MMCG 102 C or ACG 103 C or MMCG 103 C and ART 120 C or by consent of instructor pending portfolio review. The course focus is on the usage of Macintosh based software using a variety of natural-media software for the manipulation of bit-mapped (raster) images. Course topics include creation of original drawings; paintings and illustrations, using an assortment of digitally based chalks, pens, paints, inks, papers and textures. The course offers the professional artist raster based digital drawing/painting and illustration skills, on a Macintosh computer, needed for employment and/or advancement. $15.00 Laboratory Fee – PAYABLE AT REGISTRATION.

MMCG 133 C  ELECTRONIC PAINT/WIN
3 Units
(Same as ACG 133 C)
Two hours lecture and
Three hours laboratory per week.
CSU
Corequisite: Concurrent enrollment in ACG 199. Advisory: ACG 100 C or MMCG 100 C or ACG 101 C or MMCG 101 C or ACG 102 C or MMCG 102 C or ACG 103 C or MMCG 103 C and ART 120 C or by consent of instructor pending portfolio review. The course focus is on the usage of Macintosh based software using a variety of natural-media software for the manipulation of bit-mapped (raster) images. Course topics include creation of original drawings; paintings and illustrations, using an assortment of digitally based chalks, pens, paints, inks, papers and textures. The course offers the professional artist raster based digital drawing/painting and illustration skills, on a Windows computer, needed for employment and/or advancement. $15.00 Laboratory Fee – PAYABLE AT REGISTRATION.

MMCG 134 C  DIGITAL IMAGING/MAC
3 Units
(Same as ACG 134 C)
Two hours lecture and
Three hours laboratory per week.
CSU
Corequisite: Concurrent enrollment in ACG 199 C. Advisory: ACG 100 C or MMCG 100 C or ACG 101 C or MMCG 101 C or ACG 102 C or MMCG 102 C or ACG 103 C or MMCG 103 C and ART 120 C or by consent of instructor pending portfolio review. The course focus is on the usage of Macintosh based software for the manipulation of bit-mapped (raster) images using illustrative, photographic, scanned and video images as the basis of image manipulation. Course topics include: image enhancement, editing, composite, retouching, photo montages, prepress, color separations and web-based images. $15.00 Laboratory Fee – PAYABLE AT REGISTRATION.

MMCG 135 C  DIGITAL IMAGING/WIN
3 Units
(Same as ACG 135 C)
Two hours lecture and
Three hours laboratory per week.
CSU
Corequisite: Concurrent enrollment in ACG 199 C. Advisory: ACG 100 C or MMCG 100 C or ACG 101 C or MMCG 101 C or ACG 102 C or MMCG 102 C or ACG 103 C or MMCG 103 C and ART 120 C or by consent of instructor pending portfolio review. The course focus is on the usage of Microsoft Windows based software for the manipulation of bit-mapped (raster) images using illustrative, photographic, scanned and video images as the basis for image manipulation. Course topics include: image enhancement, editing, composite, retouching, photomontages, prepress, color separations and web-based images. $15.00 Laboratory Fee – PAYABLE AT REGISTRATION.
MMCG 136 C  DIGITAL IMAGING 2/MAC
3 Units
(Same as ACG 136 C)
Two hours lecture and
Three hours laboratory per week.
Corequisite: Concurrent enrollment in ACG 199 C. Advisory:
ACG 134 C or MMCG 134 C or ACG 135 C or MMCG 135 C
or by consent of instructor pending portfolio review. The
course focus is on the advanced usage of Macintosh based
software for the manipulation of bit-mapped (raster) images
using illustrative, photographic, scanned and video images as
the basis for image manipulation. Course topics include image
enhancement, editing, composite, retouching, photo mont-
ages, prepress, color separations and web based images.
$15.00 Laboratory Fee – PAYABLE AT REGISTRATION.

MMCG 137 C  DIGITAL IMAGING 2/WIN
3 Units
(Same as ACG 137 C)
Two hours lecture and
Three hours laboratory per week.
Corequisite: Concurrent enrollment in ACG 199 C. Advisory:
ACG 134 C or MMCG 134 C or ACG 135 C or MMCG 135 C
or by consent of instructor pending portfolio review. The
course focus is on the advanced usage of Windows based
software for the manipulation of bit-mapped (raster) images
using illustrative, photographic, scanned and video images as
the basis for image manipulation. Course topics include image
enhancement, editing, composite, retouching, photo mont-
ages, prepress, color separations and web based images.
$15.00 Laboratory Fee – PAYABLE AT REGISTRATION.

MMCG 150 C  INTERMEDIATE ANIMATION/MAC
3 Units
(Same as ACG 150 C)
Two hours lecture and
Three hours laboratory per week.
Corequisite: Concurrent enrollment in ACG 199 C. Advisory:
ACG 120 C or MMCG 120 C or ACG 121 C or MMCG 121 C
or by consent of instructor pending portfolio review. The
course focuses on intermediate skills in 3D computer model-
ing and animation with a Macintosh software program that is
standard in the industry. The course focus is on intermediate
techniques in modeling, texturing, lighting, motion control,
and rendering animations for various purposes. Skills taught
in this course will give the student the ability to create original
three-dimensional computer generated models of advanced
organic or mechanical design with a high degree of real-
ism and resolution. Animation techniques explored will pro-
vide cinematic realism and presentation. $15.00 Laboratory
Fee – PAYABLE AT REGISTRATION.

MMCG 151 C  INTERMEDIATE ANIMATION/WIN
3 Units
(Same as ACG 151 C)
Two hours lecture and
Three hours laboratory per week.
Corequisite: Concurrent enrollment in ACG 199 C. Advisory:
ACG 120 C or MMCG 120 C or ACG 121 C or MMCG 121 C
or by consent of instructor pending portfolio review. The
course focuses on intermediate skills in 3D computer model-
ing and animation with a Windows software program that is
standard in the industry. The course focus is on intermediate
techniques in modeling, texturing, lighting, motion control,
and rendering animations for various purposes. Skills taught
in this course will give the student the ability to create original
three-dimensional computer generated models of advanced
organic or mechanical design with a high degree of real-
ism and resolution. Animation techniques explored will pro-
vide cinematic realism and presentation. $15.00 Laboratory
Fee – PAYABLE AT REGISTRATION.

MMCG 156 C  ADVANCED ANIMATION/MAC
3 Units
(Same as ACG 156 C)
Two hours lecture and
Three hours laboratory per week.
Corequisite: Concurrent enrollment in ACG 199 C. Advisory:
ACG 150 C or MMCG 150 C or ACG 151 C or MMCG 151 C
or by consent of instructor pending portfolio review. The
course focuses on advanced skills in 3D computer modeling
and animation with a Macintosh software program that is a
standard in the industry. The course focus is on advanced
techniques in modeling, texturing, lighting, motion control,
and rendering animations for various purposes. Skills taught
in this course will give the student the ability to create original
three-dimensional computer generated models of advanced
organic or mechanical design with a high degree of real-
ism and resolution. Animation techniques explored will provide
cinematic realism and presentation. The course will combine
3D modeling and animation with 2D graphics imagery through
mapping, editing techniques and visual effects. $15.00 Laboratory
Fee – PAYABLE AT REGISTRATION.

MMCG 157 C  ADVANCED ANIMATION/WIN
3 Units
(Same as ACG 157 C)
Two hours lecture and
Three hours laboratory per week.
Corequisite: Concurrent enrollment in ACG 199 C. Advisory:
ACG 150 C or MMCG 150 C or ACG 151 C or MMCG 151 C
or by consent of instructor pending portfolio review. The
course focuses on advanced skills in 3D computer modeling
and animation with a Windows software program that is a
standard in the industry. The course focus is on advanced
techniques in modeling, texturing, lighting, motion control,
and rendering animations for various purposes. Skills taught in
this course will give the student the ability to create original
three-dimensional computer generated models of advanced
organic or mechanical design with a high degree of realism and
resolution. Animation techniques explored will provide cinematic
realism and presentation. The course will combine 3D model-
ing and animation with 2D graphics imagery through mapping,
editing techniques and visual effects. $15.00 Laboratory Fee –
PAYABLE AT REGISTRATION.
MMCG 162 C  MULTIMEDIA/MAC  
3 Units  
(Same as ACG 162 C)  
Two hours lecture and  
Three hours laboratory per week.  
CSU  
Corequisite: Concurrent enrollment in ACG 199 C. Advisory:  
ACG 102 C or MMCG 102 C or ACG 103 C or MMCG 103 C  
and ART 120 C or by consent of instructor pending portfolio  
review. The course focuses on the Macintosh generation of  
multi-media content for integration into interactive visual pre-  
sentations. Students will create personal interactive presenta-  
tions by using drawings, photographs, charts, graphs,  
sound, text and 2D animation. The final presentations will  
use various outputs including Web, CD, videotape, color and  
black and white laser printers etc. The course offers the pro-  
fessional artist Macintosh multi media skills needed for  
employment and/or advancement. $15.00 Laboratory Fee –  
PAYABLE AT REGISTRATION.

MMCG 163 C  MULTIMEDIA/WIN  
3 Units  
(Same as ACG 163 C)  
Two hours lecture and  
Three hours laboratory per week.  
CSU  
Corequisite: Concurrent enrollment in ACG 199 C. Advisory:  
ACG 102 C or MMCG 102 C or ACG 103 C or MMCG 103 C  
and ART 120 C or by consent of instructor pending portfolio  
review. The course focuses on the Windows generation of  
multi-media content for integration into interactive visual pre-  
sentations. Students will create personal interactive presenta-  
tions by using drawings, photographs, charts, graphs,  
sound, text and 2D animation. The final presentations will  
use various outputs including Web, CD, videotape, color and  
black and white laser printers etc. The course offers the pro-  
fessional artist Windows multi media skills needed for  
employment and/or advancement. $15.00 Laboratory Fee –  
PAYABLE AT REGISTRATION.

MMCG 164 C  MULTIMEDIA AUTHORING/MAC  
3 Units  
(Same as ACG 164 C)  
Two hours lecture and  
Three hours laboratory per week.  
CSU  
Corequisite: Concurrent enrollment in ACG 199 C. Advisory:  
ACG 162 C or MMCG 162 C or ACG 163 C or MMCG 163 C  
or by consent of instructor pending portfolio review. The  
course focuses on the advanced usage of Macintosh gener-  
ated multi-media content for integration into interactive visual  
presentations. Students will create advanced personal inter-  
active presentations for CD-ROMs, Web, videodiscs and  
videotape. Current software and hardware tools and tech-  
niques for designing and programming interactive multimedia  
presentations will be explored. The course offers the pro-  
fessional artist advanced Macintosh multi media skills needed for  
employment and/or advancement. $15.00 Laboratory Fee –  
PAYABLE AT REGISTRATION.

MMCG 165 C  MULTIMEDIA AUTHORING/WIN  
3 Units  
(Same as ACG 165 C)  
Two hours lecture and  
Three hours laboratory per week.  
CSU  
Corequisite: Concurrent enrollment in ACG 199 C. Advisory:  
ACG 162 C or MMCG 162 C or ACG 163 C or MMCG 163 C  
or by consent of instructor pending portfolio review. The  
course focuses on the advanced usage of Windows gener-  
ated multi-media content for integration into interactive visual  
presentations. Students will create advanced personal inter-  
active presentations for CD-ROMs, Web, videodiscs and  
videotape. Current software and hardware tools and tech-  
niques for designing and programming interactive multimedia  
presentations will be explored. The course offers the pro-  
fessional artist advanced Windows multi media skills needed for  
employment and/or advancement. $15.00 Laboratory Fee –  
PAYABLE AT REGISTRATION.

MMCG 180 C  DIGITAL VIDEO/MAC  
3 Units  
(Same as ACG 180 C)  
Two hours lecture and  
Three hours laboratory per week.  
CSU  
Corequisite: Concurrent enrollment in ACG 199 C. Advisory:  
ACG 100 C or MMCG 100 C or ACG 101 C or MMCG 101 C  
or ACG 102 C or MMCG 102 C or ACG 103 C or MMCG 103 C  
and ART 120 C or by consent of instructor pending portfolio  
review. The course includes the study and hands on use of  
Macintosh computers, assorted software, CD-ROMs,  
videographic, and other tools and techniques used for digitizing,  
editing and composition of video and audio sources. The  
course is to provide a thorough introduction to the world of  
desktop video used in the fields of multimedia, video editing  
both on line and off line) and the creation of Quicktime movies.  
$15.00 Laboratory Fee – PAYABLE AT REGISTRATION.

MMCG 181 C  DIGITAL VIDEO/WIN  
3 Units  
(Same as ACG 181 C)  
Two hours lecture and  
Three hours laboratory per week.  
CSU  
Corequisite: Concurrent enrollment in ACG 199 C. Advisory:  
ACG 100 C or MMCG 100 C or ACG 101 C or MMCG 101 C  
or ACG 102 C or MMCG 102 C or ACG 103 C or MMCG 103 C  
and ART 120 C or by consent of instructor pending portfolio  
review. The course includes the study and hands on use of  
Windows computers, assorted software, CD-ROMs,  
videographic, and other tools and techniques used for digitizing,  
editing and composition of video and audio sources. The  
course is to provide a thorough introduction to the world of  
desktop video used in the fields of multimedia, video editing  
both on line and off line) and the creation of Quicktime movies.  
$15.00 Laboratory Fee – PAYABLE AT REGISTRATION.
MMIS 155 C  WEB PUBLISHING W/MS FRONTPAGE
2 Units
(Same as CIS 155 C)
Two hours lecture and
One hour laboratory TBA per week.
CSU
Corequisite: CIS 108 C. This course offers the introductory features of Microsoft FrontPage and how it can be utilized in a business environment. Topics include introducing FrontPage, creating and revising Web pages, using links, images, and task lists, creating tables, frames, borders, and form applications. $2.00 Laboratory Fee - PAYABLE AT REGISTRATION.

MMIS 211 C  INTRODUCTION TO PROGRAMMING
3 Units
(Same as CIS 211 C)
Three hours lecture and
Two hours laboratory TBA per week.
UC /CSU, CAN CSCI 6
This course includes instruction in the development and writing of C++ and Visual Basic programs. The students will design, code, and test programs common to the business environment. $3.00 Laboratory Fee - PAYABLE AT REGISTRATION.

MMIS 223 C  C++ PROGRAMMING
3 Units
(Same as CIS 223 C)
Three hours lecture and
Two hours laboratory TBA per week.
UC /CSU, CAN CSCI 16
Prerequisite: CIS 211 C or MMIS 211 C. This course is designed for students who have some experience with structured programming techniques. Students will learn the C++ programming language as it applies to business applications. Documenting, coding, entering, computing and executing programs will take place on the personal computer. $3.00 Laboratory Fee - PAYABLE AT REGISTRATION.

MMIS 226 C  JAVA PROGRAMMING
3 Units
(Same as CIS 226 C)
Three hours lecture and
Two hours laboratory TBA per week.
CSU
Prerequisite: CIS 211 C or MMIS 211 C. This course introduces students to the Java programming language. Students will learn the language syntax, how to design and debug programs, and how to use Java programs with HTML pages. $2.00 Laboratory Fee - PAYABLE AT REGISTRATION.

MMIS 227 C  JAVASCRIPT PROGRAMMING
2 Units
(Same as CIS 227 C)
Two hours lecture and
One hour laboratory TBA per week.
CSU
Prerequisite: CIS 179 C. This course teaches the students to use the JavaScript programming languages to enhance Web pages. Emphasis is placed on creating HTML pages that include JavaScript programs. The student will learn the basic syntax of the JavaScript language, how to create JavaScript programs inside HTML documents, and how to use JavaScript programs to enhance Web pages. $5.00 Laboratory Fee - PAYABLE AT REGISTRATION.

MMIS 228 C  DYNAMIC HTML PROGRAMMING
2 Units
(Same as CIS 228 C)
Two hours lecture and
One hour laboratory TBA per week.
Credit/No Credit/Letter Grade Option
CSU
Prerequisite: CIS 179 C. This course introduces students to advanced topics in Web publishing to develop more sophisticated layouts, font scheme, and interactivity for their pages. Students will learn the Cascading Style Sheet (CSS) which permits more control of desktop publishing, document layout, and text formatting. Emphasis is placed on learning Cascading Style Sheet, multiple page layers, and scripting. Using these tools and techniques, students will learn to create dynamic effects based on user interaction, simple animation, drop-down menu, and other sophisticated and useful design effects. $3.00 Laboratory Fee – PAYABLE AT REGISTRATION.

MMIS 229 C  INTRO TO XML PROGRAMMING
2 Units
(Same as CIS 229 C)
Two hours lecture and
One hour laboratory TBA per week.
Credit/No Credit/Letter Grade Option
CSU
Prerequisite: CIS 228 C or MMIS 228 C. This is a class in Web documents management. The course is ideal for students interested in next-generation web publishing who want to gain a working knowledge of XML and use it to build a wide range of dynamic effects and compelling Web applications from formatting and managing documents to E-commerce and searching and managing data. In this class, students will master the fundamentals of XML, including XSL (Extensible Stylesheet Language), DTDs (Document Type Definitions), CSS (Cascading Style Sheets) and XML schemas. This course is designed for those with experience in creating Web pages and who have some knowledge of style sheets. $3.00 Laboratory Fee – PAYABLE AT REGISTRATION.
**Multimedia Journalism**

**MMJO 225 C  NEWSPAPER PRODUCTION**  
3 Units  
(Same as JOUR 225 C)  
Three hours lecture per week  
CSU  
Advisory: 20 words per minute keyboarding helpful. Emphasis is on publishing of the campus newspaper, The Cypress Chronicle. The course is taught in a newsroom using the media convergence model in which students work alongside of, and share their production with, other campus media. Skills developed include reporting, writing, and editing; desktop publishing; desktop editing of photographs and the creation of graphics; and digital photography; plus managing media and advertising.

**MMJO 226 C  ON-LINE PRODUCTION**  
3 Units  
(Same as JOUR 226 C)  
Three hours lecture per week  
CSU  
Advisory: 20 words per minute keyboarding helpful. Emphasis is on creating and maintaining The Cypress Chronicle Web Site, CyChron.com. The course is taught in a newsroom using the media convergence model in which students work alongside of, and share their production with, other campus media. Skills developed include writing for the internet, using digital photography, editing digital video and audio, using on-line publishing software, plus managing media and advertising.

**MMJO 228 C  VISUAL JOURNALISM**  
3 Units  
(Same as JOUR 228 C)  
Three hours lecture per week  
CSU  
Advisory: 20 words per minute keyboarding helpful. Emphasis is on creating visual stories using digital photography and/or videography. The student will plan, photograph or videograph, report, write, layout or edit visual story packages for the campus media. Skills include digital photography and videography, reporting, writing, desktop photographic editing, desktop publishing, and video editing.

**MMJO 229 C  BROADCAST PRODUCTION**  
3 Units  
(Same as JOUR 229 C)  
Three hours lecture per week.  
CSU  
Advisory: 20 words per minute keyboarding helpful. Emphasis is on creating broadcast television and radio-style programming for posting as files and for streaming on the Internet as well as for distributing conventionally. The course is taught in a newsroom using the media convergence model in which students work alongside of, and share their production with, other campus media. Skills developed include broadcast writing, videography, audio and video production, and internet distribution, plus managing media and advertising.

**Multimedia Music**

**MMMU 124 C  RECORDING STUDIO I**  
3 Units  
(Same as MUS 124 C)  
Two hours lecture and  
Four hours laboratory per week.  
CSU  
This class covers the fundamental concepts in audio recording technology. Topics include studio business practices, microphones, mixers, signal processors, the sound field, monitors, recording and editing devices, and synchronization.

**MMMU 178 C  DIGITAL MUSIC TECHNOLOGY**  
3 Units  
(Same as MUS 178 C)  
Three hours lecture and  
One and one-half hour laboratory TBA per week.  
CSU  
A comprehensive study of how digital technology is used in the music industry today. Designed for students with interest in songwriting, recording, audio production, and/or multimedia. Students will get hands-on experience with MIDI, keyboard synthesizers, sound modules, sequencers, sound editors, notation software, audio file formats (.wav, .mp3, .mid, etc.), and mastering to compact disc.

**MMMU 224 C  RECORDING STUDIO II**  
3 Units (May be taken for credit 2 times)  
(Same as MUS 224 C)  
Two hours lecture and  
Four hours laboratory per week.  
CSU  
Prerequisite: MUS 124 C or MMMU 124 C. Corequisite: MUS 224LC. This course provides an introduction to digital audio concepts, recorders, synchronization, and the digital audio workstation. Students will be assigned projects in the music department’s recording facilities.

**Multimedia Photography**

**MMPH 101 C  INTRODUCTION TO PHOTOGRAPHY**  
3 Units  
(Same as PHOT 101 C)  
Two hours lecture and  
Four hours laboratory per week.  
Credit by Examination  
UC/CSU, AA GE, CSU GE, CAN ART 18  
Corequisite: PHOT 102 C. This course provides students with an introduction to visual concepts, basic image capture and camera functions with film and digital cameras. Software basics for photographic imaging and digital printing along with traditional black and white film development and photographic printing will be taught. $20.00 Laboratory Fee - PAYABLE AT REGISTRATION.
MMPH 103 C  PHOTOGRAPHIC POSSIBILITIES
3 Units
(Same as PHOT 103 C)
Two hours lecture and
Four hours laboratory per week.
CSU
Corequisite: PHOT 102 C. Advisory: PHOT 101 C or MMPH 101 C. This course is designed to reinforce and enhance the concepts and skills acquired in the Introduction to Photography class. The emphasis will be on the refinement of basic technical skills including black and white processing and printing, film and digital camera operation, basic scanning and image software techniques, and the development of a personal direction in photography for each student. In order to increase the student’s exposure to the medium, the course also includes an introduction to large format cameras including both 2½ and 4x5 format. $20.00 Laboratory Fee – PAYABLE AT REGISTRATION.

MMPH 105 C  PHOTO-GRAPHICS
2 Units (May be taken for credit 3 times)
(Same as PHOT 105 C)
One hour lecture and
Three hours laboratory per week.
CSU
Corequisite: PHOT 102 C. Advisory: PHOT 101 C or MMPH 101 C. A basic class in darkroom techniques utilizing graphic arts film and developers. Darkroom manipulations during the photo process are used to give the student a working knowledge of the possibilities offered by unique photo control methods. $20.00 Laboratory Fee – PAYABLE AT REGISTRATION.

MMPH 109 C  PORTRAIT PHOTOGRAPHY
3 Units (May be taken for credit 3 times)
(Same as PHOT 109 C)
Two hours lecture and
Three hours laboratory per week.
CSU
Corequisite: PHOT 102 C. Advisory: PHOT 103 C or MMPH 103 C. This course is designed to give the student a working knowledge of portrait styles and techniques. The student will practice techniques for working with people in a studio situation. The student will work with both natural and artificial lighting and learn the possibilities and limitations of both. Camera formats will range from 35mm to 4x5. Students will have an opportunity to investigate and imitate the styles of well-known portrait photographers. $20.00 Laboratory Fee – PAYABLE AT REGISTRATION.

MMPH 200 C  CONCEPTUAL PHOTOGRAPHY
3 Units (May be taken for credit 2 times)
(Same as PHOT 200 C)
Two hours lecture and
Four hours laboratory per week.
CSU
Prerequisite: PHOT 103 C or MMPH 103 C with a grade of “C” or better. Corequisite: PHOT 102 C. This course is designed to give the student a thorough understanding of how issues and concepts are related to the processes used to communicate them. The student will become familiar with major artists whose work employs non-traditional processes. The thrust of the course work will revolve around the different ways that a variety of processes can be used to communicate ideas. $20.00 Laboratory Fee – PAYABLE AT REGISTRATION.

MMPH 203 C  LIGHTING AND STUDIO TECHNIQUES
3 Units (May be taken for credit 3 times)
(Same as PHOT 203 C)
Two hours lecture and
Four hours laboratory per week.
CSU
Corequisite: PHOT 102 C. Advisory: PHOT 103 C or MMPH 103 C. This course acquaints the student with lighting and studio techniques as commonly used in professional photographic applications. The emphasis will be on light and the use of lighting equipment in both studio and location situations. $20.00 Laboratory Fee – PAYABLE AT REGISTRATION.

MMPH 205 C  STUDIO PRACTICES
3 Units (May be taken for credit 3 times)
(Same as PHOT 205 C)
Two hours lecture and
Four hours laboratory per week.
CSU
Corequisite: PHOT 102 C. Advisory: PHOT 103 C or MMPH 103 C. This course is designed to familiarize the student with image conceptualization and the differing technical alternatives used in commercial studio photography. Students will learn specialized professional camera, darkroom and digital techniques utilized by professional studio photographers. $20.00 Laboratory Fee – PAYABLE AT REGISTRATION.

MMPH 207 C  COLOR PHOTOGRAPHY
3 Units (May be taken for credit 3 times)
(Same as PHOT 207 C)
Two hours lecture and
Four hours laboratory per week.
CSU
Corequisite: PHOT 102 C. Advisory: PHOT 103 C or MMPH 103 C. The course is designed for the advanced student and provides a solid background in the theory and practice of color photography. Students will explore the possibilities and limitations of traditional and digital color processes, including color negative and color positive printing methods. Emphasis will be placed on both technical and aesthetic expression of color, from initial image capture to finished print, along with color symbolism and its use as a compositional tool. $35.00 Laboratory Fee – PAYABLE AT REGISTRATION.

MMPH 208 C  ADVANCED COLOR PHOTOGRAPHY
3 Units
(Same as PHOT 208 C)
Two hours lecture and
Four hours laboratory per week.
CSU
Prerequisite: PHOT 207 C or MMPH 207 C with a grade of “C” or better. Corequisite: PHOT 102 C. This is an advanced color photography course designed to increase the students understanding and ability to use advanced applications of traditional and digital color photography. Professional approaches, specialty techniques and refinement of the use of color will be emphasized in both shooting and the darkroom. Transparency shooting, printing, lighting, contrast control and related digital applications will be the primary focus of the course. $35.00 Laboratory Fee – PAYABLE AT REGISTRATION.
MMPH 215 C  DIGITAL PHOTOGRAPHY  
3 Units  (May be taken for credit 3 times)  
(Same as PHOT 215 C)  
Two hours lecture and  
Four hours laboratory per week.  
CSU  
Corequisite:  PHOT 102 C.  Advisory:  PHOT 103 C or MMPH 103 C.  This course is designed to integrate electronic imaging into the advanced student’s visual repertoire. Combining creative studio/camera practices with computer technology, the course concentrates on the production and processing of images with current electronic photographic tools and the application of electronic media to all areas of photography (commercial, illustration, portraiture, journalism, forensic, industrial, scientific, etc.). Included are techniques for lighting, background control, selection and manipulation, digitization, image capture and processing. $35.00 Laboratory Fee – PAYABLE AT REGISTRATION.

MMPH 216 C  ADVANCED DIGITAL PHOTOGRAPHY  
3 Units  (May be taken for credit 3 times)  
(Same as PHOT 216 C)  
Two hours lecture and  
Four hours laboratory per week.  
CSU  
Prerequisite:  PHOT 215 C or MMPH 215 C with a grade of “C” or better.  Corequisite:  PHOT 102 C.  This course is designed to provide the student with advanced knowledge of techniques and skills in the application of electronic and digital/computer technologies to all areas of the photographic medium. (Commercial, Illustration, Portraiture, Journalism, Forensic, Industrial, Scientific, etc.) The integration of technical skills and aesthetic expression will be emphasized along with advanced scanning, printing, and image recording techniques. Projects will require exploration and experimentation integrating digital image making into the creative process. The objective is to merge traditionally different modes of photographic expression while studying the aesthetic traditions that have influenced photographers in their use of digital technologies. Students develop the skills necessary to create their own unique body of work using digital photographic technologies. $35.00 Laboratory Fee - PAYABLE AT REGISTRATION.

MMPH 217 C  3D PHOTO IMAGING  
3 Units  (May be taken for credit 3 times)  
(Same as PHOT 217 C)  
Two hours lecture and  
Four hours laboratory per week.  
CSU  
Prerequisite:  PHOT 103 C or MMPH 103 C with a grade of “C” or better.  Corequisite:  PHOT 102 C.  This course is designed to provide the student with advanced knowledge of 3D photographic imaging technologies as they relate to the study of light, form, and three-dimensional space. Students will study lighting, form, and space in virtual environments of their own creation. A diverse assortment of 3D software will be utilized to instruct students in how forms are visually perceived and modified based on the way light describes them. The relationship between 2D and 3D imaging applications will be discussed as well as the integration of the two for a variety of commercial photography and multimedia applications. These include studio background creation, special visual effects, game production, photo illustration, and digital composites. $35.00 Laboratory Fee – PAYABLE AT REGISTRATION.

Multimedia Theater Arts

MMTA 143 C  STAGECRAFT  
3 Units  (May be taken for credit 2 times)  
(Same as THEA 143 C)  
Two hours lecture and  
Three hours laboratory per week.  
UC/CSU  
This course explores the planning and execution of scenic elements for the stage with an emphasis on design, construction and methods of shifting scenery.

MMTA 144 C  LIGHTING DESIGN FUNDAMENTALS  
3 Units  (May be taken for credit 2 times)  
(Same as THEA 144 C)  
Two hours lecture and  
Three hours laboratory per week.  
UC/CSU  
This course involves the study and execution of stage lighting with emphasis on equipment, control, color, and their relationship to design.

MMTA 241 C  COMPUTER DRAWING FOR THEATER  
3 Units  (May be taken for credit 2 times)  
(Same as THEA 241 C)  
Two hours lecture and  
Three hours laboratory per week.  
CSU  
Students will receive instruction and practice in computer drawing specifically for theatrical use. Course content will include techniques necessary to generate floor plans, elevations, renderings, light plots and supporting documentation such as materials lists and lighting instrument schedules.

MMTA 244 C  INTELLIGENT LIGHTING  
3 Units  (May be taken for credit 2 times)  
(Same as THEA 244 C)  
Two hours lecture and  
Three hours laboratory per week.  
CSU  
This course involves the study and execution of stage lighting making use of individually programmable or “intelligent” lighting with emphasis on equipment, control, color and their relationship to design. Cost for theater tickets not to exceed $100.

COMMERCIAL MUSIC - MANAGEMENT CERTIFICATE

A synthesis of Music and Business courses, this certificate enables students to develop the management, marketing, and entrepreneurial skills necessary for success in the Music Industry.

To earn a certificate, complete the required courses as listed with a minimum grade of “C”. At least 50% of all course work must be completed at Cypress College.

Required courses are listed in suggested sequence:

Course # Title Units
MUS 111 C Music Business 3
MUS 212 C Music Promotion & Distribution 3
MKT 222 C Principles of Marketing 3
MGT 261 C Small Business Management 3
MGT 266 C Human Relations in Business 3
or
MUS 117 C American Popular Music (3)

Total Units Required 15

Recommended Electives
CIS 111 C Computer Literacy-Introduction to Information Systems (3)
MKT 224 C International Marketing (3)
MUS 055 C Music Work Experience (1)

ASSOCIATE IN ARTS DEGREE – MUSIC

The Associate in Arts Degree in Music is designed to prepare the student for a career as a professional musician. This curriculum includes music history and theory, as well as applied instruction and performance experience on his or her particular instrument.

To earn an Associate Degree students must complete: (1) all major course requirements with a minimum grade of “C”; (2) 25 units of General Education Graduation Requirements; (3) the cultural pluralism and reading requirements; (4) any elective courses to complete a minimum of 60 units; and, (5) have a minimum GPA of 2.0. At least 50% of all major course work must be completed at Cypress College.

Required courses are listed in suggested sequence:

Course # Title Units
MUS 103AC Theory and Musicianship I 4
MUS 103BC Theory and Musicianship II 4
MUS 203AC Theory and Musicianship III 4
MUS 203BC Theory and Musicianship IV 4
MUS 120 C Survey of Music History 3
MUS 122 C Concert Hour 1,1
MUS 135 C Beginning Piano 1,1
MUS 236 C Intermediate Piano 1,1
MUS 225 C Applied Music 1,1,1

Select a minimum of 1 unit each semester from the following performing ensembles for a total of 4 units:

MUS 175 C Swing Band 1,1,1,1
MUS 260 C Classical Guitar Ensemble 1,1,1,1
MUS 271 C Symphony Orchestra 1,1,1,1
MUS 273 C Concert Band 1,1,1,1
MUS 274 C Cypress Symphonic Winds 1,1,1,1
MUS 276 C Jazz Band 1,1,1,1
MUS 277 C Jazz Lab Band 1,1,1,1
MUS 280 C Jazz/Musical Theater Choir 1,1,1,1
MUS 281 C Concert Choir 1,1,1,1
MUS 282 C Cypress Masterworks Chorale 1,1,1,1
MUS 283 C Cypress Singers 1,1,1,1
MUS 284 C Cypress Meistersingers 1,1,1,1
MUS 285 C Chamber Singers 1,1,1,1
MUS 287 C Cypress Jazz Singers 1,1,1,1
MUS 289 C Gospel Choir 1,1,1,1

Total Units Required 33

RECORDING ARTS CERTIFICATE

This program was developed for prospective record producers, recording engineers, and songwriters, giving them an insider’s look at the way music is recorded today. Students will gain hands-on experience in “state of the art” facilities.

To earn a certificate, complete the required courses as listed with a minimum grade of “C”. At least 50% of all course work must be completed at Cypress College.

Required courses are listed in suggested sequence:

Course # Title Units
MUS 055 C Music Work Experience 1
MUS 111 C The Music Business 3
MUS 124 C Recording Studio I 3
MUS 178 C Digital Music Technology 3
MUS 224 C Recording Studio II 3
MUS 224LC Recording Studio Lab 1
MUS 176 C Popular Songwriting 3
or
MUS 177 C Songwriting Workshop (3)

Total Units Required 17

MUSIC TRANSFER PROGRAM

Students should consult a counselor or wwwassist.org for lower division major requirements for most California public universities. (See the Standard Definitions section of the catalog for a description of ASSIST.) Students transferring to an independent college/university should consult the catalog of the individual school and a counselor for lower division major requirements.

Music (MUS)

MUS 055 C MUSIC WORK EXPERIENCE
1 - 4 Units (Variable unit class) (May be taken for credit 4 times)

One hour lecture per week.
Corequisite: Must be enrolled in seven units, including work experience. This course provides 1 unit of credit for a minimum employment of 5 hours per week for 18 weeks. Students may take a maximum of 4 units each semester. (20 hours per week for 18 weeks).

</table>
MUS 135 C  BEGINNING PIANO
1 Unit (May be taken for credit 2 times)
One hour lecture and
One hour laboratory and
One hour laboratory TBA per week.
Credit/No Credit/Letter Grade Option
UC/CSU, CSU GE
This course is a study of basic piano techniques in a class situation. Includes functional use of basic chordal and scale material, reading music notation and rhythms, and presentation of elementary piano study as a basis for lifelong growth in music as art. Required of music majors whose piano skills are non-existent or very limited. Open to all students.

MUS 143 C  BEGINNING STRINGS
1 Unit (May be taken for credit 4 times)
One hour lecture and
One hour laboratory and
One hour laboratory TBA per week.
UC/CSU, CSU GE
This course teaches the fundamentals of string playing for anyone interested in learning to play the violin, viola, violoncello, or string bass. Students must supply their own instruments. Open to all students, no previous experience necessary.

MUS 146 C  WOODWIND CLASS
1 Unit (May be taken for credit 4 times)
One hour lecture and
One hour laboratory and
One hour laboratory TBA per week.
UC/CSU, CSU GE
This is a course for students who wish to play flute, oboe, clarinet, bassoon, or saxophone. Students must supply their own instruments. Open to all students, no previous experience necessary.

MUS 150 C  BEGINNING BRASS
1 Unit (May be taken for credit 4 times)
One hour lecture and
One hour laboratory and
One hour laboratory TBA per week.
UC/CSU, CSU GE
This course teaches the fundamentals of brass playing for anyone who is interested in learning to play the trumpet, French horn, trombone, baritone, or tuba. Students must supply their own instruments. Open to all students, no previous experience necessary.

MUS 152 C  PERCUSSION CLASS
1 Unit (May be taken for credit 4 times)
One hour lecture and
One hour laboratory and
One hour laboratory TBA per week.
UC/CSU
This is a course for students who wish to play drums, timpani, mallet instruments, and other percussion instruments. The class will emphasize basic music reading and rhythmical accuracy. Open to all students, no previous experience necessary.

MUS 156 C  JAZZ IMPROV - INSTRUMENTAL
1 Unit (May be taken for credit 4 times)
One hour lecture and
Two hours laboratory and
One and a quarter hours laboratory TBA per week.
UC/CSU
Advisory: Intermediate level ability on instrument of choice.
This class provides instrumental students with the tools and techniques for jazz improvisation. Analysis of harmonic and melodic materials, extensive listening, and performance exercises will assist the student in his/her development as an improver.

MUS 157 C  JAZZ IMPROVISATION - VOCAL
1 Unit (May be taken for credit 4 times)
One hour lecture and
One hour laboratory and
One and one quarter hours laboratory TBA per week.
UC/CSU
This course offers vocal students training in jazz song-styling techniques focusing on swing, ballad, Latin, blues, and contemporary styles. Topics include rhythmic and melodic improvisation, microphone technique, and scat singing.

MUS 171 C  CYPRESS CHAMBER ORCHESTRA
1 Unit (May be taken for credit 4 times)
Three hours rehearsal and
One and one quarter hours laboratory TBA per week.
CSU
Prerequisite: Audition. The Cypress Chamber Orchestra is dedicated to the rehearsal and performance of standard and contemporary literature for strings, woodwinds, brass, and percussion. The ensemble performs in concert each semester.

MUS 175 C  SWING BAND
1 Unit (May be taken for credit 4 times)
Three hours rehearsal and
One and one-quarter hours in sectional rehearsals, recording, program production and/or concerts per week.
UC/CSU
Prerequisite: Audition. Students in this class will be involved in the rehearsal and concert performance of swing music in the style of the “Big Band Era” from the 1930’s to 1950’s.

MUS 176 C  POPULAR SONGWRITING
3 Units
Three hours lecture and
One hour laboratory TBA per week.
CSU
Prerequisite: MUS 101 C or MUS 103AC. Advisory: Concurrent enrollment in MUS 238 C. This is an introductory to intermediate course in popular songwriting. Students will learn keyboard skills and notation. They will analyze melody, harmony, song form, rhythm, and lyrics as they apply to popular music. Emphasis will be placed on original compositions, and composition by well-known songwriters and recording artists.
MUS 177 C  SONGWRITING WORKSHOP
3 Units (May be taken for credit 4 times)
Three hours lecture and
One hour laboratory TBA per week.
CSU
Prerequisite: MUS 176 C. Advisory: Concurrent enrollment in
MUS 238 C. This is an intermediate to advanced workshop in
popular songwriting. Students will analyze melody, harmony,
song form, rhythm, and lyrics as they apply to popular songs.
Emphasis will be placed on original compositions, while
studying compositions by well-known songwriters and
recording artists.

MUS 178 C  DIGITAL MUSIC TECHNOLOGY
3 Units
(Same as MMMU 178 C)
Three hours lecture and
One and one-half hour laboratory TBA per week.
CSU
A comprehensive study of how digital technology is used in
the music industry today. Designed for students with interest
in songwriting, recording, audio production, and/or multime-
dia. Students will get hands-on experience with MIDI, key-
board synthesizers, sound modules, sequencers, sound edi-
tors, notation software, audio file formats (.wav, .mp3, .mid,
etc.), and mastering to compact disc.

MUS 203AC   THEORY AND MUSICIANSHIP III
4 Units
Five hours lecture and
One hour laboratory TBA per week.
UC/CSU
Prerequisite: MUS 103BC. This course is a continuation of MUS
103BC. Topics include nondominant seventh chords, modula-
tion, secondary dominant and leading-tone chords, binary and
ternary form, analysis, sight-singing and ear-training.

MUS 203BC   THEORY AND MUSICIANSHIP IV
4 Units
Five hours lecture and
One hour laboratory TBA per week.
UC/CSU
Prerequisite: MUS 203AC. This course is a continuation of MUS
203AC. Topics include borrowed chords, the Neapolitan
sixth chord, the augmented sixth chords, ninth, eleventh, and
thirteenth chords, sonata-allegro form, chromatic mediant rela-
tionships, musical composition, sight-singing and dictation.

MUS 212 C  MUSIC PROMOTION &
DISTRIBUTION
3 Units
Three hours lecture per week.
CSU
Music entrepreneurs will learn business procedures to form
their own company, emphasizing strategies for the sale and
promotion of music. The course covers topics such as the
music marketing environment, hands-on marketing tech-
niques, online sales and promotion, and the effects of tech-
nology in music publishing.

MUS 218 C  OPERA HISTORY AND
LITERATURE
3 Units
Three hours lecture and
One hour laboratory TBA per week.
Credit/No Credit/Letter Grade Option
UC/CSU
This course deals with the evolution of opera as a multimedia
art form. Emphasis is placed on social and cultural influences
affecting the development of its history and performance
dates from the 17th century to the present. Music of indi-
vidual composers from various music periods will be studied.
Recordings, films, and field trips are used to supplement
class discussions. Open to all students. Cost of music con-
cert will not exceed $30.00.

MUS 224 C  RECORDING STUDIO II
3 Units (May be taken for credit 2 times)
(Same as MMMU 224 C)
Two hours lecture and
Four hours laboratory per week.
CSU
Prerequisite: MUS 124 C or MMMU 124 C. Corequisite: MUS
224LC. This course provides an introduction to digital audio
concepts, recorders, synchronization, and the digital audio
workstation. Students will be assigned projects in the music
department's recording facilities.

MUS 224LC  RECORDING STUDIO LAB
1 Unit (May be taken for credit 2 times)
Forty-eight hours laboratory per semester in the Recording
Studio facilities.
Credit/No Credit
CSU
Corequisite: MUS 224 C. This course affords supplemental lab
time for students enrolled in MUS 224 C. Students will complete
individual and/or group projects in recording demonstrating their
proficiency with studio techniques, recording, signal processing,
mixdown, and audio production.

MUS 225 C  APPLIED MUSIC
1 Unit (May be taken for credit 4 times)
One hour lecture, and one half-hour lesson with a private
instructor, and 5 hours of practice in the practice rooms per
week.
UC/CSU
Prerequisite: Audition and concurrent enrollment in a per-
forming ensemble. For the student seeking individual instruc-
tion on piano, voice, guitar, or any standard band or orches-
tra instrument. A performance at Faculty Juries is required
each semester. Vocal and instrumental students should con-
currently enroll in a choir or band class, pianists and gui-
tarists should consult with faculty for an appropriate concur-
cent course.

MUS 227 C  INTERMEDIATE VOICE
1 Unit (May be taken for credit 2 times)
One hour lecture and
One hour laboratory and
One hour laboratory TBA per week.
UC/CSU
Prerequisite: MUS 126 C or by audition. This course contin-
ues the study of vocal performance techniques at an inter-
mediate level. As with the beginning level voice class, the
intermediate course deals primarily with tone production,
breath control, diction, and choices of popular and traditional
song literature.
### MUS 229 C  VOCAL REPERTOIRE
1 Unit *(May be taken for credit 4 times)*

One hour lecture and
One hour laboratory per week.

UC/CSU

Prerequisite: MUS 227 C or by audition. This class provides a workshop environment for the study of vocal repertoire at the intermediate-to-advanced level. Repertoire will be drawn from traditional styles such as art songs, lieder, arias, and oratorios, as well as jazz, musical theater, and contemporary music. Students will focus on the development of their lyric diction and performance skills while being exposed to a wide variety of vocal literature.

### MUS 231 C  INTERMEDIATE GUITAR
1 Unit *(May be taken for credit 2 times)*

One hour lecture and
One hour laboratory and
One hour laboratory TBA per week.

UC/CSU

Prerequisite: MUS 130 C, or by audition. This course continues the study of guitar performance at an intermediate level. Study focuses on the areas of technique, note reading, scales, and chords. A variety of musical styles, from classical to rock, are included in the repertoire.

### MUS 232 C  CLASSICAL GUITAR
1 Unit *(May be taken for credit 4 times)*

One hour lecture and
One hour laboratory per week.

UC/CSU

Prerequisite: Audition. This course involves group instruction in classical guitar technique and interpretation of solo and ensemble literature for the instrument.

### MUS 235 C  COMMERCIAL GUITAR AND BASS
1 Unit *(May be taken for credit 4 times)*

One hour lecture and
One hour laboratory per week.

UC/CSU

Prerequisite: Audition. This course emphasizes blues, jazz, and rock techniques for intermediate-to-advanced guitarists and bassists. Topics include scales in all positions, chords, arpeggios, accompaniment styles, reading chord charts and sheet music, and practical theory. Students will obtain vocational “real world” experience to prepare them for careers as a professional guitarist and/or bassist.

### MUS 236 C  INTERMEDIATE PIANO
1 Unit *(May be taken for credit 2 times)*

One hour lecture and
One hour laboratory and
One hour laboratory TBA per week.

UC/CSU

Prerequisite: MUS 135 C or by audition. This is a study of keyboard literature and techniques in a class situation. Emphasis is on individual progress in execution and interpretation. Designed for both music majors and non-majors whose piano skills are beyond Beginning Piano but not yet ready for Applied Music.

### MUS 238 C  POPULAR PIANO
1 Unit *(May be taken for credit 4 times)*

One hour lecture and
One hour laboratory per week.

UC/CSU

Prerequisite: MUS 135 C or by audition. This course deals with the study of basic chords to allow keyboard freedom in improvising and song arranging with the use of melody and accompaniment to develop a creative style of playing, essential in popular music. It is designed for non-music majors as well as music majors.

### MUS 247 C  ADVANCED WOODWINDS
1 Unit *(May be taken for credit 4 times)*

One hour lecture and
One hour laboratory and
One hour laboratory TBA per week.

UC/CSU

Prerequisite: MUS 146 C or by audition. This is a course for advanced students who wish to play flute, oboe, clarinet, bassoon or saxophone. Students must supply their own instruments.

### MUS 260 C  CLASSICAL GUITAR ENSEMBLE
1 Unit *(May be taken for credit 4 times)*

One hour lecture per week.

UC/CSU

Prerequisite: Audition. The Cypress Classical Guitar Ensemble is dedicated to the rehearsal and performance of standard and contemporary duets, trios, quartets, and large ensemble pieces for the classical guitar. The ensemble participates in a department recital each semester.

### MUS 261 C  STRING ENSEMBLE
1 Unit *(May be taken for credit 4 times)*

One hour lecture and
One hour laboratory per week.

UC/CSU

Prerequisite: Audition. The Cypress String Ensemble is dedicated to the rehearsal and performance of standard and contemporary duets, trios, quartets, and large ensemble pieces for the violin, viola, cello and contrabass. The ensemble participates in a department recital each semester.

### MUS 263 C  BRASS ENSEMBLE
1 Unit *(May be taken for credit 4 times)*

One hour lecture and
One hour laboratory and
One hour laboratory TBA per week.

UC/CSU

Prerequisite: Audition. The ensemble will rehearse and perform traditional and contemporary brass ensemble literature. This class is open to performers on trumpet, French horn, trombone, baritone, and tuba. Performances will be scheduled each semester.

### MUS 271 C  SYMPHONY ORCHESTRA
1 Unit *(May be taken for credit 4 times)*

Three hours rehearsal and
One and one-quarter hours in sectional rehearsals, recording, program production and/or concerts per week.

UC/CSU

Prerequisite: Audition. This course deals with the rehearsal and performance of standard symphony orchestra literature.
MUS 273 C  CONCERT BAND
1 Unit (May be taken for credit 4 times)
Three hours rehearsal and
One and one-quarter hours in sectional rehearsals, recording, program production and/or concerts per week.
UC/CSU
Prerequisite: Audition. The student will be involved in the rehearsal and performance of standard wind and band literature. Performances required in the course of the semester may include concerts and tours.

MUS 274 C  CYPRESS SYMPHONIC WINDS
1 Unit (May be taken for credit 4 times)
Three hours rehearsal and
One and one-quarter hours in sectional rehearsals, recording, program production and/or concerts per week.
UC/CSU, AA GE
Prerequisite: Audition. The Cypress Symphonic Wind Ensemble is dedicated to the rehearsal and performance of standard and contemporary literature for woodwinds, brass, and percussion. Performances required in the course of the semester may include concerts and tours.

MUS 276 C  JAZZ BAND
1 Unit (May be taken for credit 4 times)
Three hours rehearsal and
One and one-quarter hours in sectional rehearsals, recording, program production and/or concerts per week.
UC/CSU
Prerequisite: Audition. This course studies the rehearsal and performance of jazz band literature. Sight reading is emphasized as a musical concept. The band performs in concert each semester, and student compositions and arrangements are encouraged.

MUS 277 C  JAZZ LAB BAND
1 Unit (May be taken for credit 4 times)
Three hours rehearsal and
One and one-quarter hours in sectional rehearsals, recording, program production and/or concerts per week.
UC/CSU
Prerequisite: Audition. This course deals with the rehearsal and performance of contemporary studio and commercial jazz literature. Sight reading is emphasized as a musical concept. The band performs in concert each semester, and student compositions and arrangements are encouraged.

MUS 280 C  JAZZ/MUSICAL THEATER CHOIR
1 Unit (May be taken for credit 4 times)
Three hours rehearsal and
One and one-quarter hours in sectional rehearsals, recording, program production and/or concerts per week.
UC/CSU, AA GE
Prerequisite: Audition. This course is a vocal ensemble for beginning to advanced singers that focuses on repertoire from jazz, musical theater and popular styles. The ensemble will perform in concerts and may also participate in music festivals appropriate to this type of vocal group. Open to both music majors and non-majors.

MUS 279 C  CYPRESS SYMPHONY
1 Unit (May be taken for credit 4 times)
Three hours rehearsal and
One and one-quarter hours in sectional rehearsals, recording, program production and/or concerts per week.
UC/CSU
Prerequisite: Audition. This course is open to students of all levels and majors. The Symphony presents four major concerts each year and participates in regional music festivals. Open to all singers from the college and neighboring communities.

MUS 280 C  CONCERT CHOIR
1 Unit (May be taken for credit 4 times)
Three hours rehearsal and
One and one-quarter hours in sectional rehearsals, recording, program production and/or concerts per week.
UC/CSU
Prerequisite: Audition. The Concert Choir performs an extensive repertoire ranging from Renaissance, Classical, and Baroque selections to contemporary Spirituals, Jazz, and Musical Theater. The choir presents four major concerts each season and participates in regional choral festivals. Open to all singers from the college and neighboring communities. Prospective singers should call for an audition appointment.

MUS 282 C  CYPRESS MASTERWORKS CHORALE
1 Unit (May be taken for credit 4 times)
Three hours rehearsal and
One and one-quarter hours in sectional rehearsals, recording, program production and/or concerts per week.
UC/CSU, AA GE, CSU GE
Prerequisite: Audition. The Masterworks Chorale (80-110 singers) presents four major concerts each year with emphasis on masterworks for choir and orchestra. The Chorale participates in regional music festivals, performs at numerous locations throughout the Los Angeles basin, and tours internationally. Open to students and members of the community with prior singing experience.

MUS 283 C  CYPRESS SINGERS
1 Unit (May be taken for credit 4 times)
Three hours rehearsal and
One and one-quarter hours in sectional rehearsals, recording, program production and/or concerts per week.
UC/CSU
Prerequisite: Audition. The Cypress Singers is a group of 18 sopranos and altos which rehearse and perform a variety of repertoire ranging from Renaissance madrigals to contemporary music. The Singers perform in concerts and festivals each year as scheduling permits. Open to both music majors and non-majors by audition.

MUS 284 C  CYPRESS MEISTERSINGERS
1 Unit (May be taken for credit 4 times)
Three hours rehearsal and
One and one-quarter hours in sectional rehearsals, recording, program production and/or concerts per week.
UC/CSU
Prerequisite: Audition. This course is designed to accommodate beginning to advanced singers who wish to participate in a choir for basses, baritones and tenors. This ensemble will present several concerts each year and is designed to accommodate both music majors and non-majors.
MUS 285 C  CHAMBER SINGERS
1 Unit  (May be taken for credit 4 times)
Three hours rehearsal and
One and one-quarter hours in sectional rehearsals, record-
ing, program production and/or concerts per week.
UC/CSU
Prerequisite: Audition. The Chamber Singers is a select
group of 24 mixed voices performing a variety of classical
repertoire ranging from Renaissance madrigals to contem-
porary literature. The ensemble performs four major concerts
per year, participates in regional music festivals, and per-
forms at numerous locations throughout the Los Angeles
basin. Open to both students and members of the community
with extensive singing experience.

MUS 286 C  STAR CAROLERS
½ Unit (May be taken for credit 4 times)
One and one-half hours rehearsals and
Three-quarters of an hour in performance, sectional
rehearsals and program production per week.
UC/CSU
This course is designed to accommodate beginning to
advanced singers who wish to participate in a vocal ensemble
that focuses on repertoire for the holiday season. The caroling
groups will perform at the annual choral department winter
concert in December and at a variety of locations in Cypress
and surrounding communities. The course is designed to
accommodate both music majors and non-majors.

MUS 287 C  CYPRESS JAZZ SINGERS
1 Unit (May be taken for credit 4 times)
Three hours rehearsal and
One and one-quarter hours in sectional rehearsals, record-
ing, program production and/or concerts per week.
UC/CSU
Prerequisite: Audition. This course focuses on the rehearsal
and performance of traditional and contemporary vocal jazz
repertoire accompanied by a small instrumental ensemble.
Some emphasis will be placed upon vocal improvisation
in the jazz style. The ensemble will perform in concerts and
may also participate in jazz and choral music festivals. Stu-
dent compositions and arrangements are encouraged.

MUS 288 C  GOSPEL CHOIR
1 Unit (May be taken for credit 4 times)
Three hours rehearsal and
One and one-quarter hours in sectional rehearsals, record-
ing, program production and/or concerts per week.
UC/CSU
Prerequisite: Audition. A choir of mixed voices dedicated to
the study, rehearsal, and public performance of anthems,
spirituals and gospel (traditional and contemporary) music.
This class provides for the learning of the fundamentals of
choir singing. Subsequent enrollment in additional semes-
ters will provide additional skill and competency develop-
ment within the subject matter.

MUS 289 C  GO SPEL CHOIR
1 Unit (May be taken for credit 4 times)
Three hours rehearsal and
One and one-quarter hours in sectional rehearsals, record-
ing, program production and/or concerts per week.
UC/CSU
Prerequisite: Audition. A choir of mixed voices dedicated to
the study, rehearsal, and public performance of anthems,
spirituals and gospel (traditional and contemporary) music.
This class provides for the learning of the fundamentals of
choir singing. Subsequent enrollment in additional semes-
ters will provide additional skill and competency develop-
ment within the subject matter.

MUS 290 C  MUSICAL THEATER PRODUCTION
1 - 3 Units  (Variable Unit Class) (May be taken for
credit 4 times)
Twelve hours laboratory per week for maximum credit.
UC/CSU
Prerequisite: Audition. The student will participate in the
study of acting, singing, dancing and instrumental accompa-
niment. Through a rehearsal process the student will partici-
pate in the preparation of a musical production for public per-
formance. Accompanying responsibilities might encompass
areas of technical theater.

MUS 291 C  MUSICAL THEATER TECHNIQUES
3 Units (May be taken for credit 4 times)
(Same as THEA 126 C)
Two hours lecture and
Four hours laboratory per week.
UC/CSU, AA GE, CSU GE
Students will investigate performance methods of musical
theater as they relate to the onstage performer. All styles of
musical theater may be covered and performance in a work-
shop setting of musical theater literature is required.

MUS 298 C  MUSIC SEMINAR
½ - 3 Units  (Variable Unit Class) (May be taken for
credit 4 times)
Lecture/laboratory hours vary with credit given.
UC Credit Limitation/CSU
Prerequisite: May be required. Various classes may be
offered which are designed to meet the interests and needs
of students.

MUS 299 C  MUSIC INDEPENDENT STUDY
1 - 2 Units  (Variable Unit Class) (May be taken for
credit 4 times)
Two hours conference per week for maximum credit.
UC Credit Limitation/CSU
Prerequisite: Approved Independent Study Learning Con-
tact. This course is designed for capable students who wish
to increase their knowledge and experience in performance
or applied areas. Unit credit may range from 1 to 2 units in
any given semester. Consult the class schedule to verify
credit for a particular term.

PHILOSOPHY OF NURSING EDUCATION
The philosophy of the Cypress College Associate in Science Degree Nursing Program recognizes the individual as a whole person who moves toward goals of self-realization and fulfillment. The individual is self-directed and is responsible for his/her own actions as well as the consequences of the actions. The faculty of the Department of Nursing supports this view of the individual in its approach to the teaching of nursing.

TEACHING/LEARNING
The nursing faculty believes that learning is a dynamic process which results in behavioral changes. Learning occurs throughout the life cycle and can aid in maximization of any individual’s potentials. The individual student’s potentials are developed through use of the nursing process, a professional proactive approach to problem-solving that may augment the level of health of selected patients and their families. The curriculum provides opportunities for facilitating learning based on individual styles of learning. Self-motivation and active participation in the classroom and clinical laboratory are necessary components of the learning process for adult learners.

The curriculum is organized into learning modules for each unit of content in each nursing course. The modules detail the learning experiences as identified in each course outline. Multiple methods of instruction are utilized to address the content being studied in order to enhance learning, and to provide for individual differences in both teaching and learning styles. The structure and content of the modules is designed to support the department’s philosophy of nursing education which recognizes the student as an individual who moves toward goals of self-realization and fulfillment. The modular approach assists the individual to be self-directed and responsible for his/her own learning.

ROLE OF THE TEACHER AND STUDENT
The role of the teacher is to identify the learning needs of the student and to facilitate the student’s optimal level of learning achievement. A systematic approach, similar to the nursing process, is utilized to assist the student in assessment of learning needs, development of learning goals, selection and implementation of learning methods and strategies, and evaluation of outcomes. Differences in individual needs, learning styles, ethnicity and cultural background are essential considerations in effective teacher-student relationships.

CURRICULUM MODEL
The nursing curriculum model is based on a conceptual framework which focuses on the individual within his/her family and community. The individual exhibits needs at varying levels within the biopsychosocial/spiritual domains. The purpose of the model is to provide a framework to which the students can relate course content and nurse-patient interaction. The conceptual model encourages the use of varied theories which explain a person’s behavior in response to his/her environment. Abraham Maslow’s Hierarchy of Needs is emphasized to examine human needs and behavior as the person moves toward the ultimate goal of self-actualization. Learning experiences are planned to incorporate the health needs of individuals in all age and developmental groups at various placements on the health-illness continuum.

NURSING AND THE NURSING PROCESS
The function of nursing is to identify the needs of the client/family and to promote or support the client’s/family’s optimal level of adaptation on the health-illness continuum. The nurse’s role is to assess and diagnose the behavioral responses and intervene on behalf of the client to achieve maximal wellness. The nursing process, based on the application of principles derived from the biological and behavioral sciences, is used as a systematic approach in the planning, implementation, and evaluation of individualized nursing care for a client/family.
NURSING AND PERSONAL RESPONSIBILITY FOR HEALTH PROMOTION PRACTICES
The Cypress College nursing faculty recognizes the value of high-level wellness and supports the concept of the nurse being a positive role model for health practices. Each nursing faculty member and each nursing student will assume personal responsibility for implementing behaviors which promote positive growth on the wellness continuum. The entering student needs to be aware of his/her health-promoting behaviors in the area of general health (i.e., rest and sleep, nutrition, therapeutic recreation). The student should also be aware of and avoid behaviors detrimental to health which include substance abuse (use of illicit drugs, misuse of either prescribed or over-the-counter medications, smoking, intake of potential toxins) and eating disorders.

SPECIAL REQUIREMENTS, EQUIPMENT AND EXPENSES INCURRED BY NURSING STUDENTS UPON ENROLLMENT IN THE NURSING PROGRAM
This information is intended to assist those who are planning enrollment in the registered nursing program in preparing for educational expenses. In addition to enrollment fees payable at registration, the nursing student incurs additional expenses necessary for attendance and satisfactory completion of the program. Advance planning can help prevent financial hardship upon acceptance into the program. It is the goal of the nursing department to require only those purchases that are essential to success in the program in order to minimize student expense, yet these costs do exceed those typically encountered in general education courses. The nursing student should anticipate an expenditure of approximately $2,000 over the two years of enrollment in nursing program courses.

For each nursing course the student is required to purchase assigned textbooks, modules, scantron forms, notebook, paper and other writing supplies. Nursing textbooks are expensive in comparison to other non-technical books because they must be frequently revised, contain tables, graphs, diagrams and photographs. Nursing texts are a major expense for students and a majority of the texts used for the program courses must be purchased at the beginning of the first semester of enrollment. Textbooks for specialty areas may be purchased at the beginning of those courses. In addition, supplemental texts may be recommended to assist the student in meeting learning objectives.

Clinical practice is at sites throughout Orange and Los Angeles counties. Clinical rotations may be scheduled for both day and evening shifts in order to provide the best learning opportunities. The student will need reliable personal transportation in order to travel to assigned hospitals at least two days a week in each nursing course.

The nature of the learning experiences in the registered nursing program requires that students engage in direct patient care in assigned clinical facilities. All enrolled students are required to meet the same health and safety standards required of nurses in the contracted clinical facilities. For this reason each student enrolled in the nursing program must complete the following requirements at his/her own expense prior to the first day of attendance:

1. Physical examination with health clearance indicating good physical and mental health status with no limitations to providing direct patient care.
2. Proof of current immunizations.
3. Testing for communicable diseases including, but not limited to, the following: Tuberculosis, rubella, rubeola, varicella, hepatitis.
4. Malpractice insurance.
5. Current CPR certification at the Professional Health Provider level.

In addition, the student will need to purchase required uniforms, name badge, stethoscope, protective goggles and other equipment required for clinical practice.

The general information provided here is designed to assist you in planning for your expenses when enrolled in the nursing program. Information regarding the specific requirements in place at the time of initial enrollment into nursing clinical courses is provided at a mandatory orientation meeting scheduled for applicants selected each semester.

ASSOCIATE IN SCIENCE DEGREE PROGRAM REGISTERED NURSING
The program educates nursing students for patient/client services in a variety of health care settings. Clinical experience in hospitals and other health care agencies is correlated with classroom instruction. At the satisfactory completion of all courses and the specified general education requirements at Cypress College, the individual will receive an Associate in Science degree and will be eligible to write the Registered Nursing State Licensing Examination. (If you have been convicted of a felony, you will be required to state this on the licensure examination application. It may affect your eligibility to write this examination.)

The nursing program is accredited by California State Board of Registered Nursing. For the requirements to complete the Associate in Science Degree, see the Graduation Requirements for the Associate Degree section of this catalog.

MINIMUM STANDARDS FOR APPLICANTS
1. Eligibility for admission to Cypress College.
2. High school graduation, or passing of the General Educational Development Test (GED), or the High School Proficiency Test, or a graduate of an accredited college.
3. Good physical and mental health as determined by a medical examination upon admission to the program. In compliance with the State Board of Registered Nursing Guidelines, no student with impaired health status (which includes use of legal or illegal drugs, alcohol, or other chemicals) shall be admitted or allowed to remain enrolled in the Nursing Program. Students applying to the Nursing Program with a history of substance abuse, physical impairment, or mental/emotional impairment shall be
required to provide proof of active participation in a recognized treatment program at the time of application. Evidence of continuing rehabilitation may be required if admitted or re-admitted to the Nursing Program. These standards are necessary for the Cypress College Registered Nursing Program to be in compliance with the Board of Registered Nursing Guidelines and maintain full accreditation.

4. Total college grade point average (GPA) of 2.0 (“C”) or better.
5. Eligibility for ENGL 100 C, as determined by counselor from placement test scores and other data or completion of ENGL 060 C with a “C” or better.
6. NURS 190 C, (2 Units), with a grade of “C” or better.
7. BIOL 210 C, (5 units), or comparable Anatomy and Physiology course with lab (taken within five years of enrollment in the nursing program) with a grade of “C” or better. (Chemistry is strongly recommended.)

Note: If Anatomy (BIOL 230 C) is taken separately, it must be completed prior to application and Physiology (BIOL 240 C) must be completed prior to entering the nursing program. (7-9 Units).

APPLICATION PROCEDURES
A separate application, in addition to the college application form, is required for admission into the Nursing Program. These applications must be obtained and completed, in person, at the Health Science Division Counseling Office, Cypress College, 9200 Valley View, Cypress, CA 90630. Please note: F-1 Visa students will not be accepted for admission into any program when applications for qualified U.S. citizens exceed space available.

APPLICATION DEADLINES
FALL CLASS ADMISSION (August start)
February—First ten (10) working days—may be extended until class limit is met—Application must be completed in person at the Health Science Counseling Office, Health Science Building (TE III).
March 15—All supporting documents must be returned to the Health Science Counseling Office. It is the applicant’s responsibility to insure that all documents have been received.
May 31—Selection of class completed.

SPRING CLASS ADMISSION (January start)
September—First ten (10) working days—may be extended until class limit is met—Applications must be completed in person at the Health Science Counseling Office, Health Science Building (TE III).
October 15—All supporting documents, records and forms must be returned to the Health Science Counseling Office. It is the applicant’s responsibility to insure that the documents have been received.
December 31—Selection of class completed.

Note: Contact the Health Science Counseling Office for specific final days of application and the last day to return materials because of holidays or weekends. All applicants who wish to remain on the applicant list must file an updated application every year during the application period in September. Your name will remain on the rank and chronological list to be considered for selection. If you have completed additional requirement classes you will need to come to the Health Science Counseling office to file an Application for Reevaluation form during the application period in either September or February. Please check brochure for dates. Contact the Health Science Counseling Office for further information. Selection criteria subject to change, contact the Health Science Counselors for current information.

REGISTERED NURSING CURRICULUM
Nursing courses must be taken in specific sequence. For further information, see a Health Science Counselor. The student must attain a minimum grade of “C” in each required course to continue in the program.

Required Courses are listed in required sequence:

</tbody>
</table>

*May be taken prior to program for selection purposes, but must be completed at least by semester indicated
**Proficiency Examination available—see Health Science Counselor.
***Must be taken within five years of application.
All nursing courses are challengeable. See Nursing Program Director.
Graduation requirements: Cultural Pluralism (beginning Fall 2000 catalog, the nursing program meets the requirement) and Reading Proficiency. See Counselor/Catalog.

TRANSFER OF CREDIT
Transfer credit for nursing courses taken from another accredited institution may be granted provided the applicant meets the Cypress College Department of Nursing entrance requirements and space is available in the program. Contact the Health Science Counseling Office for written policy and procedure.

Credit will be granted on an individual basis after evaluation by the Department of Nursing. Transfer credit for equivalent general education courses required by the Department of Nursing will be granted if the course has been completed at an accredited college.

Any required course in the biological or social sciences listed below, completed over five years previous to the time the student applied to the program, must be repeated or the student may receive credit by challenge examination, or be evaluated on an individual basis.

BIOL 210 C Anatomy and Physiology
BIOL 220 C Medical Microbiology

CAREER MOBILITY: LICENSED VOCATIONAL NURSE/LICENSED PSYCHIATRIC TECHNICIAN TO REGISTERED NURSE
The nursing program provides an opportunity for Licensed Vocational Nurses and Licensed Psychiatric Technicians to complete the Registered Nursing curriculum. The individual completing the registered nursing program and general education requirements is eligible to take the Registered Nursing State Licensing Examination. As a graduate of the Cypress College Registered Nursing Program, the student will receive an Associate in Science degree.

MINIMUM STANDARDS FOR APPLICANTS
1. Eligibility for admission to Cypress College.
2. High school graduation or passing of the General Education Development (GED) test or the High School Proficiency Test or a graduate of an accredited college.
3. Good physical and mental health as determined by a medical examination upon admission to the program. In compliance with the State Board of Registered Nursing Guidelines, no student with impaired health status (which includes use of legal or illegal drugs, alcohol, or other chemicals) shall be admitted or allowed to remain enrolled in the Nursing Program. Students applying to the Nursing Program with a history of substance abuse, physical impairment, or mental/emotional impairment shall be required to provide proof of active participation in a recognized treatment program at the time of application. Evidence of continuing rehabilitation may be required if admitted or re-admitted to the Nursing Program. These standards are necessary for the Cypress College Registered Nursing Program to be in compliance with the Board of Registered Nursing Guidelines, and maintain full accreditation.
4. Verification of completion of a program or its equivalent preparing for a Licensed Vocational Nurse or Psychiatric Technician.
5. Successful completion of the Career Mobility Proficiency Exams. (See Health Science Counselor for specific information on testing criteria and procedures.)
6. Successful completion of the Career Mobility Clinical Skills Validation Performance Exam. (See Health Science Counselor for specific information on testing criteria and procedures.)
7. Total college grade point average (GPA) of 2.0 (“C”) or better.
8. Eligibility for ENGL 100 C, as determined by counselor from placement test scores, completion of ENGL 060 C with a grade of “C” or better, and other data.

PREREQUISITES
Completion of the following courses with a grade of “C” or better:

*May be challenged by examination. Contact Health Science Counselor for testing dates.
*Required course which must be taken prior to admission to the nursing program. The course is designed to assist career mobility students preparing to enter the Registered Nursing Program. Applicants to the career mobility program will be assigned a placement number on the qualified-mobility placement list upon successful completion of this course with a grade of “C” or better.
**Must be taken within ten years of application.
+May be in progress at the time of application, but must be completed prior to acceptance in the Nursing Program

APPLICATION DEADLINES
FALL OR SPRING CLASSES
October through April applications must be completed in person at the Health Science Counseling Office. A counseling appointment is mandatory to review program and application procedure.

APPLICATION REQUIREMENTS
1. Must have completed all prerequisites.
2. Possess a current California LVN or PT license.
3. Must have completed application procedures, and have placement on the applicant list.
4. Satisfactory completion of NURS 090 C, with a grade of “C” or better.
5. File application for placement on the Mobility Placement List following satisfactory completion of NURS 090 C. This form is available from the Health Science Counseling Office.

ASSOCIATE IN SCIENCE DEGREE FOR REGISTERED NURSES FROM A DIPLOMA SCHOOL OF NURSING

This program is designed to enable a Registered Nurse from a diploma school of nursing to earn an Associate in Science Degree. Diploma Nursing School graduates with a current California license will receive 40 units of credit towards an Associate in Science Degree upon completion of general education and residency requirements at Cypress College. For the requirements to complete the Associate in Science Degree, see the Graduation Requirements for the Associate Degree section of this catalog. A petition is required for students requesting a waiver if 50% of their coursework in the major was not completed at Cypress College. See your Health Science Counselor.

MINIMUM STANDARDS FOR APPLICANTS

1. Applicants must meet Cypress College entrance requirements.
2. Verification of completion of a program or its equivalent, preparing for a Licensed Vocational Nurse.
3. Satisfactory completion of BIOL 210 C, with Lab, 5 Units (or equivalent) with a grade of “C” or better.
4. Satisfactory completion of (or concurrent enrollment in) BIOL 220 C, (or equivalent) with a grade of “C” or better.

APPLICATION DEADLINES

October through April—Applications must be completed in person at the Health Science Counseling Office. A counseling appointment is mandatory to review program and application procedure.

SELECTION PROCEDURE

Applications normally exceed capacity. Applicants should obtain specific information and counseling information sheets from the Health Science Counseling Office. It is the applicant’s responsibility to verify that documents, transcripts and records are on file.

CAREER MOBILITY: LICENSED VOCATIONAL NURSE TO NON-DEGREE REGISTERED NURSE

A Licensed Vocational Nurse may apply for admission to the Nursing Program to meet the requirements for licensure of the State Board of Registered Nursing in California. Thirty-Unit Option applicants shall have equal access to open space in the required nursing courses.

CAREER MOBILITY: LICENSED VOCATIONAL NURSE TO NON-DEGREE REGISTERED NURSE

A Licensed Vocational Nurse may apply for admission to the required nursing courses.

NURSE TO NON-DEGREE REGISTERED NURSE

Thirty-Unit Option applicants shall have equal access to open space in the required nursing courses.

CAREER MOBILITY: LICENSED VOCATIONAL NURSE TO NON-DEGREE REGISTERED NURSE

A Licensed Vocational Nurse may apply for admission to the required nursing courses.

NURSE TO NON-DEGREE REGISTERED NURSE

Thirty-Unit Option applicants shall have equal access to open space in the required nursing courses.

NURSE TO NON-DEGREE REGISTERED NURSE

Thirty-Unit Option applicants shall have equal access to open space in the required nursing courses.

CAREER MOBILITY: LICENSED VOCATIONAL NURSE TO NON-DEGREE REGISTERED NURSE

A Licensed Vocational Nurse may apply for admission to the required nursing courses.

NURSE TO NON-DEGREE REGISTERED NURSE

Thirty-Unit Option applicants shall have equal access to open space in the required nursing courses.

CAREER MOBILITY: LICENSED VOCATIONAL NURSE TO NON-DEGREE REGISTERED NURSE

A Licensed Vocational Nurse may apply for admission to the required nursing courses.

NURSE TO NON-DEGREE REGISTERED NURSE

Thirty-Unit Option applicants shall have equal access to open space in the required nursing courses.

CAREER MOBILITY: LICENSED VOCATIONAL NURSE TO NON-DEGREE REGISTERED NURSE

A Licensed Vocational Nurse may apply for admission to the required nursing courses.

NURSE TO NON-DEGREE REGISTERED NURSE

Thirty-Unit Option applicants shall have equal access to open space in the required nursing courses.

CAREER MOBILITY: LICENSED VOCATIONAL NURSE TO NON-DEGREE REGISTERED NURSE

A Licensed Vocational Nurse may apply for admission to the required nursing courses.

NURSE TO NON-DEGREE REGISTERED NURSE

Thirty-Unit Option applicants shall have equal access to open space in the required nursing courses.

CAREER MOBILITY: LICENSED VOCATIONAL NURSE TO NON-DEGREE REGISTERED NURSE

A Licensed Vocational Nurse may apply for admission to the required nursing courses.

NURSE TO NON-DEGREE REGISTERED NURSE

Thirty-Unit Option applicants shall have equal access to open space in the required nursing courses.

CAREER MOBILITY: LICENSED VOCATIONAL NURSE TO NON-DEGREE REGISTERED NURSE

A Licensed Vocational Nurse may apply for admission to the required nursing courses.

NURSE TO NON-DEGREE REGISTERED NURSE

Thirty-Unit Option applicants shall have equal access to open space in the required nursing courses.

CAREER MOBILITY: LICENSED VOCATIONAL NURSE TO NON-DEGREE REGISTERED NURSE

A Licensed Vocational Nurse may apply for admission to the required nursing courses.
Nursing Four Year

TRANSFER PROGRAM
Students should consult a counselor or www.assist.org for lower division major requirements for most California public universities. (See the Standard Definitions section of the catalog for a description of ASSIST.) Students transferring to an independent college/university should consult the catalog of the individual school and a counselor for lower division major requirements.

Nursing (NURS)

NURS 090 C  TRANSITIONS TO NURSING PROCESS & PROFESSIONAL NURSING MANAGEMENT
3½ Units
Two hours lecture and
Four and one-half hours laboratory per week.
Prerequisite: Licensed Vocational Nurse (LVN), or Licensed Psychiatric Technician (LPT) and successful completion of career mobility proficiency exams and skills validation test.
This course is designated for the LVN/LPT who is preparing to enter the Registered Nursing career ladder program. The course will enhance theoretical and technical nursing skills in areas such as communication, asepsis, fluid and electrolytes, and pharmacology. Students will develop in-depth skill in utilization of the nursing process. Major emphasis is placed on assessment of patients’ biopsychosocial needs. This course emphasizes specific knowledge and skills not included in LVN/PT curricula.

NURS 091 C  STRATEGIES FOR SUCCESS IN NURSING
½ Unit
One-half hour lecture per week.
Credit/No Credit/ Letter Grade Option
NON-DEGREE CREDIT
This course is designed as a preparatory seminar for nursing students. The course will begin to develop the skills needed to succeed in a health care curriculum where students must be able to assimilate knowledge and apply it in a clinical practice setting. The course will provide students with behavioral and problem solving tools to develop personal and professional strategies for success in the health care field.

NURS 095 C  REGISTERED NURSING WORK EXPERIENCE
1 - 4 Units (Variable Unit Class) (May be taken for credit 4 times)
One hour lecture and
Five hours (minimum) employment per week in an approved acute health care agency.
Prerequisite: Successful completion of NURS 193 C and concurrent enrollment in the Registered Nurse Program. This course focuses upon exploring work related issues in an acute medical-surgical hospital setting. The course will provide work experience enabling students to apply previously learned theory and clinical skills in which the student has demonstrated competence. As required by Board of Registered Nursing regulations, no new skills will be taught.

NURS 099 C  NURSING INDEPENDENT STUDY
½ - 2 Units (Variable Unit Class) (May be taken for credit 4 times)
Hours will vary according to units given.
Credit/No Credit/ Letter Grade Option
Prerequisite: Approved Independent Study Learning Contract. This course is designed for capable students enrolled in the Registered Nursing program or options of the program who wish to increase their knowledge and experience in applied areas. Students will participate in independent study on assigned areas under staff supervision.

NURS 101 C  CRITICAL THINKING AND NURSING PROCESS
½ - 2 Units (Variable Unit Class) (May be taken for credit 4 times)
Hours will vary according to units given.
Credit/No Credit/ Letter Grade Option
CSU
Prerequisite: Acceptance in the Nursing Program or Registered Nurse. The focus of this course is one of assisting students in the development of critical thinking skills and the application of those skills to the nursing process. The role of analysis, synthesis and theory in the nursing process will be addressed. Case studies and nursing situations will be presented and the student will be guided through analysis of data in order to develop appropriate nursing diagnoses, patient outcomes and nursing interventions. This course is an elective for students who desire additional assistance in developing nursing process skills. Computer simulations and computer testing will be used within this course.

NURS 103 C  BASIC HEALTH ASSESSMENT
½ Unit
One hour lecture per week for nine weeks.
Credit/No Credit/ Letter Grade Option
CSU
Prerequisite: NURS 192 C, Licensed Psychiatric Technician, Licensed Vocational Nurse, Registered Nurse. This elective course provides specialized nursing knowledge in assessing basic health status in the non-pregnant adult. Nursing process is the framework that includes techniques for both patient history and physical assessment. Nursing implications of selected common health problems are emphasized.

NURS 104 C  INTRODUCTION TO ECG INTERPRETATION
½ Unit
One hour lecture per week for nine weeks.
Credit/No Credit/ Letter Grade Option
CSU
Prerequisite: NURS 192 C, Licensed Vocational Nurse, Registered Nurse. This elective course provides specialized nursing knowledge in assessing and caring for patients experiencing selected common cardiac dysrhythmias. These include sinus, atrial, AV heart blocks, junctional, and ventricular dysrhythmias. Initial patient monitoring, lead placement, techniques and equipment utilized to measure and identify cardiac arrhythmias are addressed in introductory terms. Basic therapies and nursing implications for these dysrhythmias are discussed.
NURS 105 C  BASIC CARDIO-PULMONARY NURSING
½ Unit
One hour lecture per week for nine weeks.
Credit/No Credit/Letter Grade Option
CSU
Prerequisite: NURS 292 C, Registered Nurse. This elective course provides specialized nursing knowledge in common cardiopulmonary health problems and their nursing implications. Nursing process serves as the framework for this exploration. Duplicate credit not granted for NURS 105HC.

NURS 105HC  HONORS BASIC CARDIOPULMONARY NURSING
½ Unit
One hour lecture per week for nine weeks.
CSU
Prerequisite: NURS 292 C, Registered Nurse. This elective course is enhanced for honors students. Students shall develop increased knowledge of cardio-pulmonary health problems as they analyze expanded concepts of the nursing process and health care delivery. Duplicate credit not granted for NURS 105 C.

NURS 107 C  PAIN MANAGEMENT FOR NURSES
1 Unit
One hour lecture per week.
Credit/No Credit/Letter Grade Option
CSU
Prerequisite: NURS 192 C or licensed health care professional. Corequisite: Concurrent enrollment in, or successful completion of NURS 191 C or licensed health care professional. This course introduces the student to pain assessment and management strategies for use in daily clinical practice, based on the California Board of Registered Nursing’s Pain Management Policy. Physiologic, psychologic, sociologic, and cultural aspects of pain are examined within the context of the nursing process. The student will learn to effectively prevent and control patient pain and improve patient outcomes by pharmacologic and non-pharmacologic means. Ethical issues and barriers to effective pain management are considered.

NURS 108 C  NURSING CARE OF THE ORTHOPAEDIC PATIENT
½ Unit
One-half hour of lecture per week.
Credit/No Credit/Letter Grade Option
CSU
Prerequisite: Successful completion of NURS 192 C or licensure as an RN, LVN, RPT, LPT. This course is an overview of the general concepts of orthopaedic nursing including assessment, orthopaedic injuries, patient complications, and orthopaedic patient care. Designed to give the participant an introduction to the specialty of orthopaedic nursing, this course includes study of the care of patients experiencing orthopaedic trauma, traction or cast treatment, total joint arthroplasty, spinal surgery, amputation, as well as orthopaedic complications. The content of the course is based on orthopaedic nursing practice standards and patient teaching implications as developed by the National Association of Orthopaedic Nurses.

NURS 109 C  RN PRACTICUM & CAREER DEV.
1 - 4 Units (Variable Unit Class) (May be taken for credit 4 times)
One half hour lecture and
One and one half hours laboratory to
Ten and one half hours laboratory per week.
Credit/No Credit/Letter Grade Option
CSU
Prerequisite: Successful completion of NURS 193 C. Corequisite: Concurrent enrollment in Registered Nursing Program. This course focuses upon exploring work related issues in an acute hospital setting. The course will provide opportunities enabling students to apply previously learned theoretical and clinical skills in which the student has demonstrated competence. The course may provide exposure to additional areas of care with the agreement of the faculty and instructor and previous enrollment in nursing practicum. Requires a minimum eight hours employment per week in an approved acute care agency. As required by the Board of Registered Nursing regulations, no new skills will be taught.

NURS 190 C  INTRO NURSING CONCEPTS
2 Units
Two hours lecture per week.
CSU
This course introduces the health science student to the theoretical basis of nursing and health care, including psychosocial concepts inherent to development of skills needed for patient care and the nurse-patient relationship. Professional nursing roles and interaction skills are applied to the health care setting. The effects of developmental patterns on individual health care needs are introduced. Major social and cultural issues in relation to health care are discussed. Teaching/learning strategies unique to health care, nursing, and clinical instruction are explored. $19.00 Laboratory Fee – PAYABLE AT REGISTRATION.

NURS 191 C  PHARMACOLOGY IN NURSING I
1 Unit
One hour lecture per week.
CSU
Prerequisite: Acceptance in the Nursing Program, LVN or PT. Corequisite: NURS 192 C and NURS 193 C. This course introduces the principles of medication administration, laws governing drugs, and the role of the nurse in administering medications in the health care setting. Drug action, preparations, and basic pharmacologic terminology are included. Criteria for monitoring drug interactions, with emphasis on the older adult, is presented. The general effects of pharmacological agents on the autonomic and central nervous systems are introduced. The therapeutic effects, interactions, adverse effects, and the identification of nursing responsibilities in administering anti-inflammatory drugs are emphasized. Mathematical concepts related to metric, apothecary, and household systems of measurement, and temperature and systems conversions are taught. Ratio and proportion and evaluation of intake and output measurements are introduced.
NURS 192 C  FUNDAMENTALS OF NURSING
4 1/2 Units
Two and one-half lecture hours and
Six laboratory hours per week.
CSU
Prerequisite: Acceptance in the Nursing Program; NURS 190 C, BIOL 210 C. Corequisite: NURS 191 C. This course is an introduction to the nursing process, applying Maslow’s hierarchy to nursing technology and the scientific mind. The course is designed to provide the student with fundamental provider of care roles and critical thinking skills in order to develop and deliver a basic plan of care. The nursing management portion of the course is designed to socialize the beginning nursing student to the professional role of nursing. Models of health care delivery systems and organizations will be explored. Nursing issues regarding patient rights, ethical and legal standards, and the use of professional communication will be applied to nursing theory and practice. $19.00 Laboratory Fee – PAYABLE AT REGISTRATION.

NURS 193 C  INTRO TO MED-SURG/GERO NURSING
3 1/2 Units
One and one-half lecture hours and
Six laboratory hours per week.
CSU
Prerequisite: NURS 190 C, NURS 192 C. Corequisite: NURS 191 C. This course provides specialized knowledge to plan and deliver nursing care, based on the nursing process, to the older adult. Included in the healthy aging concept is a compilation of age-associated issues and preventive health considerations for the senior. This course is designed to socialize the beginning nursing student to the professional role of nursing as it relates to the care of the older adult. Models of health care delivery systems and organizations for the senior will be explored. Nursing issues regarding patient rights, ethical and legal standards, and the use of professional therapeutic communication will be applied to nursing theory and practice.

NURS 195 C  PHARMACOLOGY IN NURSING II
1 Unit
One hour lecture per week.
CSU
Prerequisite: Acceptance in the Nursing Program, LVN, PT or completion of NURS 191 C and NURS 193 C. This pharmacology course correlates with the content in NURS 196 C and NURS 197 C. Theoretical concepts for the assessment of patient responses to medication and the safe administration of medications in health care settings will be emphasized. By the end of this course, students will demonstrate competency on a written exam in advanced calculations using ratio and proportion methods to calculate dosages for parenteral medications and IV flow rates for mainlines and piggyback medications. The therapeutic effects, interactions, adverse effects, and the identification of nursing implications of drug administration will be presented for selected drug categories (cardiac-pulmonary medications, antibiotics, gastrointestinal/antacids, coagulation/vascular medications, vitamins, estrogens, oxytocia, renal medications, and insulin and hypoglycemic).

NURS 196 C  MED-SURG NURSING I
5 Units
Two and one-quarter hours lecture and
Eight and one-quarter hours laboratory per week.
CSU
Prerequisite: NURS 191 C, and NURS 193 C. Corequisite: NURS 195 C. This course prepares the student to apply the nursing process to develop nursing care strategies. Focus will be on complex nursing interventions that require psychosocial assessment and therapeutic communications. The course introduces the student to the basic concepts of patient teaching and the role of research application. The professional nursing management portion of the course is designed to build on previous knowledge and skills. Emphasis will be on enhancing styles of effective communication, psychosocial assessment and intervention, and patient teaching skills. The student will learn to apply Maslow’s theory in prioritizing patient needs in multiple patient situations. The student will have the opportunity to learn and practice accountability and responsibility for professional actions as a member of the health care team.

NURS 197 C  MATERNAL/NEWBORN NURSING
3 1/2 Units
One and three-quarter hours lecture and
Five and one-quarter hours laboratory per week.
CSU
Prerequisite: NURS 196 C. Corequisite: NURS 195 C. This course assists the student in applying previously learned concepts of the nursing process to the specialized population of the pregnant woman, newborn, and family. The professional management and leadership of this course will focus on the understanding of legal responsibilities, styles of leadership, and beginning research utilization. Emphasis will be placed on collegial communications which will enhance the student’s understanding of the need for accountability and responsibility as a professional member of the health care team. Based on previous learning, the student will be expected to identify and prioritize patient needs for a group of assigned patients.

NURS 209 C  ADV RN PRACTICUM & CAREER DEV
1 - 4 Units (Variable Unit) (May be taken for credit 4 times)
One half hour lecture and
One and a half to ten and one half laboratory per week.
Credit/No Credit/Letter Grade Option
CSU
Prerequisite: Successful completion of NURS 292 C. Corequisite: Concurrent enrollment in the Registered Nursing Program or permission of the Director of Nursing. This course focuses upon exploring work related issues in an acute hospital setting. The course will provide opportunities enabling students to apply previously learned theory and clinical skills in which the student has demonstrated competence. The course may provide exposure to acute areas of complex care with the agreement of the facility and instructor and previous enrollment in nursing practicum. Requires a minimum eight hours employment per week in an approved acute care agency. As required by the Board of Registered Nursing regulations, no new skills will be taught.
NURS 291 C  PHARMACOLOGY IN NURSING III
1 Unit
One hour lecture per week.
CSU
Prerequisite: Acceptance in the Nursing Program, LVN, PT or completion of NURS 195 C, NURS 197 C. Corequisite: NURS 292 C. This course correlates with the content in NURS 292 C, NURS 293 C, and NURS 294 C. Theoretical concepts for the safe assessment and administration of medications in the health care setting are emphasized. The role of the nurse in evaluating patient response to drugs will be emphasized. The therapeutic effects, interactions, adverse effects, and the identification of nursing implications of drug administration will be presented for selected drug categories (endocrine/hormonal, antineoplastic/antimetabolites, anti-convulsants, antipsychotic, antidepressants, antiparkinson, and anticholinergics). Assessment and evaluation of the nutritional and fluid and electrolyte needs of the adult and geriatric patient will be presented. Replacement therapies, and IV calculations will be emphasized.

NURS 292 C  MED-SURG NURSING II
5 Units
Two and one-quarter hours lecture and
Eight and one-quarter hours laboratory per week.
CSU
Prerequisite: NURS 195 C and NURS 197 C, and acceptance in the Nursing Program. Corequisite: NURS 291 C. This course prepares the student to apply the nursing process to individuals with more complex nursing care, developmental, and sociological needs. Prioritizing nursing care for multiple patients will be emphasized. Health education needs of patients and barriers to learning will be explored. Students will learn to recognize the need for current application of research utilization to improve nursing care. The professional role of the nurse in assisting clients to locate and utilize appropriate community resources will be emphasized. Managerial skills will be fostered in the area of team management, quality assessment, and change agent strategies. Personal professional development issues will cover continuing education, value systems, self-analysis, and health care team collaborations.

NURS 293 C  MENTAL HEALTH NURSING
3 1/2 Units
One and three-quarter hours lecture and
Five and one-quarter hours laboratory per week.
CSU
Prerequisite: NURS 291 C and NURS 292 C. This course presents historical, cultural, and contemporary research concepts as related to the mental health-illness continuum. Through use of the nursing process and communication, individual emotional needs are assessed and nursing interventions are theoretically designed to promote more effective resolution of these needs. Emphasis is placed on interpersonal process through self-awareness, use of self as a therapeutic agent, and use of community resources. The professional role of the nurse is expanded in the areas of ethical, legal, and patient advocacy issues of the mentally ill.

NURS 294 C  GERIATRIC NURSING
3 Units
One and one-half hour lecture and
Four and one-half hours laboratory per week.
CSU
Prerequisite: NURS 291 C and NURS 292 C. Corequisite: NURS 293 C. This course builds on previous medical-surgical knowledge and skills in applying the nursing process to the older adult with complex multiple system problems. Emphasis will be on lifestyle and physical changes, the process of initiating health referrals, and the outcome criteria for evaluating the client’s response to teaching and learning. The student will also explore interventions to increase the client’s capacity in relation to activities of daily living. This course emphasizes the professional role of the nurse in assisting clients to locate and utilize appropriate community resources. Managerial skills will be fostered in the area of team management, quality assessment, and change agent strategies. Personal professional developmental issues will cover continuing education, value systems, self-analysis, and health care team collaboration.

NURS 295 C  PHARMACOLOGY IN NURSING IV
1 1/2 Unit
One-half hour lecture per week.
CSU
Prerequisite: Acceptance in the Nursing Program, LVN, PT or completion of NURS 291 C, NURS 292 C, NURS 293 C and NURS 294 C. Corequisite: NURS 296 C. This course correlates with the content in NURS 294 C, and NURS 297 C. Theoretical concepts for the safe assessment and administration of medications in the health care setting are emphasized. The role of the nurse in evaluating patient response to drugs will be emphasized. The therapeutic effects, interactions, adverse effects, and the identification of nursing implications of drug administration in pediatric and acute medical-surgical conditions will be presented. Dosage calculations for pediatric clients, physiological differences in the adult versus pediatric clients, and fluid resuscitations for burn clients will be presented.

NURS 296 C  CHILD/FAMILY NURSING
3 1/4 Units
One and three-quarter hours lecture and
Five and one-quarter hours laboratory per week.
CSU
Prerequisite: NURS 291 C, NURS 292 C, NURS 293 C and NURS 294 C. Corequisite: NURS 295 C. This course assists the student in applying previously learned nursing concepts and skills to the pediatric patient. The student will apply growth and development concepts to the care of multiple patients, utilizing appropriate teaching strategies for children and families in preparation for home care. Accountability, outcome evaluation, professional development, health care team dynamics, ethical issues, and professional trends will be examined. Participation in facility in-service projects and use of current literature is expected.
NURS 297 C MED-SURG NURSING III
5 Units
Two and one-quarter hours of lecture and
Eight and one-quarter hours of laboratory per week.
CSU
Prerequisite: NURS 291 C, and NURS 296 C. Corequisite:
NURS 295 C.
This course provides advanced theory neces-
sary to administer comprehensive nursing care to adults with
acute unstable medical-surgical disorders. The professional
nursing management component will examine accountabil-
ity, outcome evaluation, professional development, health
care team dynamics, ethical issues, and professional trends.
The skills and knowledge transfer component will provide the
student with multiple learning tools for applying theory to pro-
mote synthesis and competence necessary for entry into
practice. Minimum $22.00 – Maximum $25.00 Laboratory
Fee – PAYABLE AT REGISTRATION.

ASSOCIATE IN SCIENCE DEGREE
ADMINISTRATIVE ASSISTANT
This curriculum is designed to prepare students for employ-
ment in a business office as an administrative assistant or
administrative secretary. Upon completion, the student will
have completed a variety of training in the creation of busi-
ness documents, using the Internet, the daily procedures of
an office, and the current computer software being used in
today's office.

To earn a certificate, complete the required courses as
listed with a minimum grade of “C”. At least 50% of all
course work must be completed at Cypress College.

Required courses are listed in suggested sequence:
Course # Title Units
CIS 102 C Intermediate Comp. Keyboarding 3
or
CIS 112 C Document Formatting (3)
CIS 103 C Advanced Computer Keyboarding 3
or
CIS 113 C Business Simulations (3)

Office Administration
(Off)

SEE - COMPUTER INFORMATION SYSTEMS FOR Typing/Keyboarding Classes

OFF 045 C OFFICE PROCEDURES
3 Units
Three hours lecture and
One hour laboratory TBA per week.
Prerequisite: CIS 101 C or concurrent enrollment in CIS 101 C.
This is an introductory course to study the functions of the business office. Students will learn the skills, tasks, and the personal and business behavior needed to work in an office environment.
$3.00 Laboratory Fee - PAYABLE AT REGISTRATION.

OFF 048 C RECORDS ADMINISTRATION
1 Unit
One hour lecture and
Two hours laboratory TBA per week.
Credit/No Credit/Letter Grade Option
This course is an introduction to the principles and procedures of the alphabetic filing system in Records Administration. The instructions will include the ARMA (Association of Records Managers and Administrators, Inc.) system filing rules as well as the storage, destruction, transfer, and tracking of records.
$3.00 Laboratory Fee - PAYABLE AT REGISTRATION.

OFF 049 C COMPUTERIZED OFFICE PROCEDURES
4 Units
Four hours lecture and
One hour laboratory TBA per week.
Prerequisite: CIS 102 C, or CIS 112 C or a working knowledge of word processing with a typing speed of 30 wpm. This course prepares management or office personnel for work in a computerized office environment. This course teaches the use of computers integrated into modern office functions. Students learn to perform electronic calendaring, filing, scheduling, office budgeting, and advanced word processing techniques.
$5.00 Laboratory Fee - PAYABLE AT REGISTRATION.
Optometry

OPTOMETRY TRANSFER PROGRAM
Professional programs such as dentistry, medicine, pharmacy, optometry, physician assistant, physical therapy and veterinary medicine are most often graduate programs that require a bachelor degree or significant preparation prior to entering the program. The appropriate preparation varies according to the school and specific program. Students are advised to meet with a counselor to discuss options for their bachelor degree and the lower division requirements for the program and school of their choice.

Pharmacy

PHARMACY TRANSFER PROGRAM
Professional programs such as dentistry, medicine, pharmacy, optometry, physician assistant, physical therapy and veterinary medicine are most often graduate programs that require a bachelor degree or significant preparation prior to entering the program. The appropriate preparation varies according to the school and specific program. Students are advised to meet with a counselor to discuss options for their bachelor degree and the lower division requirements for the program and school of their choice.

PHILOSOPHY AND RELIGIOUS STUDIES TRANSFER PROGRAM
Students should consult a counselor or www.assist.org for lower division major requirements for most California public universities. (See the Standard Definitions section of the catalog for a description of ASSIST.) Students transferring to an independent college/university should consult the catalog of the individual school and a counselor for lower division major requirements.

Philosophy and Religious Studies (PHIL)

PHIL 098 C PHILOSOPHY NON-TRANSFER SEMINAR
½ - 2 Units (Variable Unit Class) (May be taken for credit 4 times)
Lecture/discussion hours will vary with credit given. Prerequisite: May be required. (See class schedule). This course offers a lecture/discussion approach to particular problems for students who wish to increase their knowledge of subjects which are not of a nature generally taught in college. Various topics will be offered according to the interests of the instructor and students as stated in the class schedule. Various types of measuring devices will be used and unit credit may range from ½ to 2 non-transfer units in any given semester. Consult the class schedule to verify credit for a particular term.

PHIL 100 C INTRODUCTION TO PHILOSOPHY
3 Units
Three hours lecture per week.
UC/CSU, AA GE, CSU GE, IGETC, CAN PHIL 2
This course is a survey of the mysteries and meaning of human life and philosophy's efforts to deal with them. How philosophy originated; how it differs from religion, science and art; its implications for, and impact on Western civilization. The main concerns of philosophy: man, reason, religion, art, language, truth, knowledge and freedom. These and other topics of interest to the student and per instructor will be investigated. Eligibility for ENGL 100 C recommended.

PHIL 110 C RELIGIONS OF THE EAST
3 Units
Three hours lecture per week.
UC/CSU, CSU GE, IGETC
This course is an examination of the philosophical foundations of religion, and an elaboration of the precise Eastern contributions of Hinduism, Buddhism, Confucianism, Taoism, Zen Buddhism and others as deemed necessary by the instructor. A field trip may be required by the instructor. Eligibility for ENGL 100 C recommended.

PHIL 120 C RELIGIONS OF THE MIDDLE EAST AND WEST
3 Units
Three hours lecture per week.
UC/CSU, CSU GE, IGETC
This course is a review of the "religions of the Book", especially Zoroastrianism, Judaism, Christianity, and Islam, and the forces which helped shape them. Special emphasis is placed on an objective, scholarly reading of the Judeo-Christian scriptures. The course examines some trends of religion in the 19th and 20th centuries. Eligibility for ENGL 100 C recommended.

PHIL 160 C INTRODUCTION TO ETHICS
3 Units
Three hours lecture per week.
UC/CSU, AA GE, CSU GE, IGETC, CAN PHIL 4
This course is a systematic examination of the concepts of good/right and evil/wrong in classic, modern, and contemporary ethical thought. Concrete application of moral values and principles to daily living are exposed. Eligibility for ENGL 100 C recommended.
PHIL 170 C  LOGIC AND CRITICAL THINKING
3 Units
Three hours lecture per week.
UC/CSU, AA GE, CSU GE, CAN PHIL 6
This course focuses on an understanding of the relationship of language to logic which should lead to the ability to identify and evaluate various inductive and deductive arguments. The course is also concerned that students become aware of semantic confusions and of the nature and importance of definitions. The minimal competence expected of the student is the ability to distinguish fact from judgment, belief from knowledge and skills in inductive and deductive processes, including an understanding of the formal and informal fallacies. The evaluation of an extended argument may be required by the instructor and designed to satisfy the critical thinking requirement for those planning to transfer to the CSU system.

PHIL 172 C  CRITICAL THINKING/Writing
3 Units
Three hours lecture per week.
UC/CSU, AA GE, CSU GE, IGETC
Prerequisite: Successful completion of ENGL 100 C with a grade of "C" or better. This course will cover all the standard topics of a traditional critical thinking course: form vs. content; inductive vs. deductive logic; validity and truth and soundness of arguments; difference between fact, judgment, and belief; requirements of good definitions; and the standard formal and informal fallacies as reflected in evaluative writing. Progress toward the refining of various writing skills will be evaluated in the writing and re-writing of the extended argument as well as other areas of the course. This course is specifically designed to meet the IGETC critical thinking/writing requirement.

PHIL 176 C  PHILOSOPHY OF SCIENCE AND CRITICAL THINKING
3 Units
Three hours lecture per week.
UC/CSU
This course is designed for students who want to understand the structure of science, its methodology, and how it differs from pseudo-science. Emphasis is on the use of critical thinking methods as used in science which includes the ability to distinguish fact from judgment, belief from knowledge, skills used in elementary inductive and deductive processes along with an understanding of the formal and informal fallacies of language and thought. Eligibility for ENGL 100 C recommended; a course in science recommended, but not required.

PHIL 201 C  HISTORY OF PHILOSOPHY: ANCIENT AND MEDIEVAL
3 Units
Three hours lecture per week.
UC/CSU, CAN PHIL 8
This course is an historical introduction to the Western philosophical tradition. Selected philosophers will be examined from each of the following periods: Ancient Greek and Medieval.

PHIL 202 C  HISTORY OF PHILOSOPHY: MODERN
3 Units
Three hours lecture per week.
UC/CSU, CSU GE, IGETC
This is a survey of Western philosophical thought from the Renaissance to the present. The course emphasizes political philosophy, but may also include the development of semantics, epistemology, ethics, logic and/or metaphysics. It examines the influence on modern life of past philosophical movements, as well as the influence of the great philosophers of the past five centuries. Eligibility for ENGL 100 C recommended.

PHIL 225 C  JESUS AND HIS INTERPRETERS
3 Units
Three hours lecture per week.
Credit/No Credit/Letter Grade Option
UC/CSU
This course is a systematic introduction to the historical study of Jesus of Nazareth. It focuses upon: the various ways in which Jesus is depicted in the traditions of the Bible, in particular, the Synoptic Gospels, the Gospel of John, and the epistles of Paul; Jesus as critically reconstructed by New Testament scholarship with a view to answering the question of what (if anything) can be known historically regarding his teaching and life, e.g., whether Jesus considered himself to be the Messiah; and Jesus as variously portrayed in the arts, especially, painting, film, and music.

PHIL 230 C  PHILOSOPHY OF RELIGION
3 Units
Three hours lecture per week.
UC/CSU, CSU GE, IGETC
This course is a philosophical exploration and critique of the grounds of religious concepts and claims. Includes a consideration of man’s religious nature as evidenced by historic, contemporary and “primitive” cultures. The course also examines the nature of religion and the spectrum of positions ranging from monotheism to atheism. There will also be an investigation of the logical, historical and biblical arguments adduced as evidence of a Divine Being along with (a) revelation and faith; (b) mysticism; (c) religious symbolism; (d) life after death; and (e) the special nature of religious language. Eligibility for ENGL 100 C recommended.

PHIL 269 C  PHILOSOPHY, HUMAN SEXUALITY AND RELIGION
3 Units
Three hours lecture per week.
Credit/No Credit/Letter Grade Option
UC/CSU
This interdisciplinary course is a systematic examination of the philosophical and religious aspects of human sexuality. The course includes an historical overview of the major philosophical and religious theories about sexuality in the context of a discussion of basic ethical theories. It specifically examines the topics of sex, gender equality, pornography, premarital sex, fidelity, abortion, homosexuality, romantic love, and marriage and family.
PHIL 298 C  PHILOSOPHY SEMINAR
½ - 3 Units  (Variable Unit Class) (May be taken for credit 4 times)
Lecture/discussion hours will vary
with credit given.
UC Credit Limitation/CSU
Prerequisite: May be required. (See class schedule). This is a
lecture/discussion type course developed on a particular
limited problem or topic of interest to students. It is designed
for able students who wish to increase their knowledge of a
particular topic concerning which no other regular class is
offered. A paper or group activity may be requested. Credit
may range from ½ unit to 3 units. Consult class schedule for
the offerings a particular semester.

PHIL 299 C  PHILOSOPHY INDEPENDENT
STUDY
1 Unit  (May be taken for credit 3 times)
Varying hours of scheduled conferences per week accord-
ing to instructor.
UC Credit Limitation/CSU
Prerequisite: Approved Independent Study Learning Con-
tact. Independent study is for able students who wish to
extend their knowledge of a particular area through individual
research and study. It is thought that topics might develop
out of a curiosity stimulated in a regular class. The student
would then contact the supervising instructor to develop a
contract for his/her particular interest so that they could learn
more regarding their special topic.

COLOR PHOTOGRAPHY CERTIFICATE
The Color Photography Certificate is designed to prepare
the student for entry-level employment within the Photo
Lab/Service Bureau industry. Students are trained in the
use of state-of-the-art printing and processing equipment.

To earn a certificate, complete the required courses as
listed with a minimum grade of “C”. At least 50% of all
course work must be completed at Cypress College.

Required courses are listed in suggested sequence:
Course # Title Units
PHOT 101 C Introduction to Photography 3
PHOT 103 C Photographic Possibilities 3
PHOT 207 C Color Photography 3
PHOT 208 C Advanced Color Photography 3
PHOT 215 C Digital Photography 3
PHOT 216 C Advanced Digital Photography 3
Total Units Required 18
**CREATIVE PHOTO ARTS CERTIFICATE**
The Creative Photo Arts Certificate is designed to prepare students for a career as an individual artist or as an employee in the visual arts.

To earn a certificate, complete the required courses as listed with a minimum grade of “C”. At least 50% of all course work must be completed at Cypress College.

Required courses are listed in suggested sequence:

PHOTOGRAPHY TRANSFER PROGRAM
Students should consult a counselor or www.assist.org for lower division major requirements for most California public universities. (See the Standard Definitions section of the catalog for a description of ASSIST.) Students transferring to an independent college/university should consult the catalog of the individual school and a counselor for lower division major requirements.

Photography (PHOT)

PHOT 050 C PHOTOGRAPHY - SPECIAL PROJECTS
3 Units (May be taken for credit 3 times)
One hour lecture and
Six hours laboratory per week.
Corequisite: PHOT 102 C. Advisory: PHOT 103 C. Designed to allow the student to specialize in one particular phase of photography under the close supervision of the instructor. Students will be required to meet periodic deadlines and do some classroom assignments that are loosely structured to allow creativity. This should be the final class that the student takes before leaving the photography program. $20.00 Laboratory Fee – PAYABLE AT REGISTRATION.

PHOT 055 C PHOTOGRAPHY - WORK EXPERIENCE - VOCATIONAL
1 - 4 Units (Variable Unit Class) (May be taken for credit 4 times)
One hour lecture plus five hours of supervised employment per week.
in photographic occupations for each unit of credit.
Prerequisite: Must be enrolled in seven units, including work experience. Concurrent enrollment in Photography Program. The course requires a minimum of five hours employment in a photography related occupation per week. Refer to class schedule for an explanation of unit credit.

PHOT 101 C INTRODUCTION TO PHOTOGRAPHY
3 Units
(Same as MMPH 101 C)
Two hours lecture and
Four hours laboratory per week.
Credit by Examination
UC/CSU, AA GE, CSU GE, CAN ART 18
Corequisite: PHOT 102 C. This course provides students with an introduction to visual concepts, basic image capture and camera functions with film and digital cameras. Software basics for photographic imaging and digital printing along with traditional black and white film development and photographic printing will be taught. $20.00 Laboratory Fee – PAYABLE AT REGISTRATION.

PHOT 102 C PHOTOGRAPHY - OPEN LAB
0 Units
Laboratory hours vary according to use on individual basis.
CSU
Prerequisite: Concurrent enrollment in a lecture/lab photography class. This is an open laboratory course for students who are currently enrolled in a photography lecture/laboratory class. The laboratory consists of darkroom facilities for black and white and color film processing, black and white and color printing, and a print finishing room.

PHOT 103 C PHOTOGRAPHIC POSSIBILITIES
3 Units
(Same as MMPH 103 C)
Two hours lecture and
Four hours laboratory per week.
CSU
Corequisite: PHOT 102 C. Advisory: PHOT 101 C or MMPH 101 C. This course is designed to reinforce and enhance the concepts and skills acquired in the Introduction to Photography class. The emphasis will be on the refinement of basic technical skills including black and white processing and printing, film and digital camera operation, basic scanning and image software techniques, and the development of a personal direction in photography for each student. In order to increase the student’s exposure to the medium, the course also includes an introduction to large format cameras including both 2½ and 4x5 format. $20.00 Laboratory Fee - PAYABLE AT REGISTRATION.

PHOT 104 C WEDDING PHOTOGRAPHY
3 Units (May be taken for credit 3 times)
Two hours lecture and
Three hours laboratory per week.
CSU
Corequisite: PHOT 102 C. Advisory: PHOT 101 C. This course is designed to acquaint the student with the fundamental concept, equipment demands, and photographic techniques used by contemporary wedding photographers. The course is composed of lectures and outside assignments which will prepare the students for basic application in the field of wedding photography. $20.00 Laboratory Fee - PAYABLE AT REGISTRATION.

PHOT 105 C PHOTOGRAPHICS
2 Units (May be taken for credit 3 times)
(Same as MMPH 105 C)
One hour lecture and
Three hours laboratory per week.
CSU
Corequisite: PHOT 102 C. Advisory: PHOT 101 C. This course is a continuation of PHOT 101 C. The course is designed to acquaint the student with the fundamental concepts, equipment demands, and photographic techniques used by contemporary wedding photographers. The course is composed of lectures and outside assignments which will prepare the students for basic application in the field of wedding photography. $20.00 Laboratory Fee – PAYABLE AT REGISTRATION.

PHOT 107 C BASIC PHOTOGRAPHY
1½ Units
Three hours lecture per week for nine weeks.
CSU
This is a basic non-darkroom photography course designed to teach the student the operation and use of the most commonly available 35mm SLR and similar cameras. The course will consist of lecture, slide presentations, studio and darkroom demonstrations, and field trips.

PHOT 108 C INTERMEDIATE COLOR SLIDE PHOTOGRAPHY
1½ Units
One and one-half hour lecture per week or
Three hours lecture per week for nine weeks.
CSU
Prerequisite: PHOT 107 C. This course is a continuation of PHOT 107 C. The course is designed to expand the student's knowledge and techniques of basic color slide photography. The student will concentrate on specific skills in photographic practice such as portraiture and flash photography.

</table>
PHOT 220 C ALTERNATIVE PHOTO PROCESSES I
3 Units
Two hours lecture and
Four hours laboratory per week.
CSU
Corequisite: PHOT 102 C. Advisory: PHOT 103 C. This class will investigate the artistic aspects and technical procedures used in 19th Century photographic printing of hand coated papers. Class projects will include aspects of graphic arts photography, films and developers. During the semester, students will work with cyanotypes, Kallitypes and kwik print. $35.00 Laboratory Fee - PAYABLE AT REGISTRATION.

PHOT 221 C ALTERNATIVE PHOTO PROCESSES II
3 Units
Two hours lecture and
Four hours laboratory per week.
CSU
Prerequisite: PHOT 220 C with a grade of “C” or better. Corequisite: PHOT 102 C. This class will continue to investigate the artistic aspects and technical procedures used in 19th Century photographic printing of hand coated papers. During the semester, students will work with gum bichromate, salted paper and color key materials. $35.00 Laboratory Fee - PAYABLE AT REGISTRATION.

PHOT 222 C ALTERNATIVE PHOTO PROCESSES III
3 Units
Two hours lecture and
Four hours laboratory per week.
CSU
Prerequisite: PHOT 221 C with a grade of “C” or better. Corequisite: PHOT 102 C. This class will continue to investigate the artistic aspects and technical procedures used in 19th Century photographic printing of hand coated papers. During the semester, students will work with albumen, collodion and palladium/platinum processes. $35.00 Laboratory Fee - PAYABLE AT REGISTRATION.

PHOT 223 C ALTERNATIVE PHOTO PROCESSES IV
3 Units
Two hours lecture and
Four hours laboratory per week.
CSU
Prerequisite: PHOT 222 C with a grade of “C” or better. Corequisite: PHOT 102 C. This class will investigate the artistic aspects and technical procedures used in 19th Century photographic printing of hand coated papers. During the semester, students will work with dye transfer, carbon printing and multi-process projects. $35.00 Laboratory Fee - PAYABLE AT REGISTRATION.

PHOT 298 C PHOTOGRAPHY SEMINAR
½ - 3 Units (Variable Unit Class) (May be taken for credit 4 times)
Lecture/discussion hours vary according to credit given.
CSU
This is a course for students who wish to increase their knowledge of photography. Various topics will be offered. Unit credit may range from ½ to 3 units in any given semester. Consult the class schedule to verify credit for a particular semester.

ASSOCIATE OF ARTS DEGREE IN PHYSICAL EDUCATION

This program is designed to prepare students with a knowledgeable base of physical fitness, health practices, and professional activities for entry into the discipline of physical education/athletics. Further specialization is possible by combining the Associate of Arts Degree with electives chosen from a certificate program in aerobics, aquatics, or coaching. A student may also elect to work toward a transfer program preparing for entry to a four-year institution.

To earn an Associate Degree students must complete: (1) all major course requirements with a minimum grade of “C”; (2) 25 units of General Education Graduation Requirements; (3) the cultural pluralism and reading requirements; (4) any elective courses to complete a minimum of 60 units; and, (5) have a minimum GPA of 2.0. At least 50% of all major course work must be completed at Cypress College.

Required courses are listed in suggested sequence:

ATHLETIC COACH CERTIFICATE
Primary emphasis is to prepare the student for occupational coaching at the high school level. All students must complete 18 units. Course work in PE 235 C may be waived with current Red Cross cards in First Aid and CPR at the discretion of the division.

To earn a certificate, complete the required courses as listed with a minimum grade of “C”. At least 50% of all course work must be completed at Cypress College.

Required courses are listed in suggested sequence:
Course # Title Units
PE 235 C First Aid, CPR, and Emergencies 3
PE 248 C Psychology of Sport 3
PSY 139 C Developmental Psychology 3
or
PSY 140 C Developmental Psychology - Pre-Adult 3
PE 244 C Human Performance 3
or
PE 234 C Contemporary Personal Health (3)
PE 247 C Sports Management 3

Total Units Required 18
(see counselor if physical education major)

Electives
PE 105 C-146 C Physical Education Activity 1
PE 252 C Intro to Physical Education 2
PE 240 C Sports Officiating - Men’s Sports 3
PE 250 C Sport & United States Society 3
PE 265 C Intramural Management 2
PE 266 C Theory of Coaching Basketball 3
PE 267 C Theory of Coaching Baseball 3
PE 280 C-286 C Professional Activities 2
HRC 100 C Nutrition 3
BIOL 210 C Anatomy and Physiology 5

AQUATICS SPECIALIST CERTIFICATE
Primary emphasis is to prepare the student for occupational competency in swimming instruction as recommended by the state of California and the American Red Cross. All students must complete 18 units. Course work in PE 235 C, PE 237 C, and PE 238 C may be waived with current Red Cross cards in First Aid and CPR, Life Saving and Water Safety Instruction at the discretion of the division.

To earn a certificate, complete the required courses as listed with a minimum grade of “C”. At least 50% of all course work must be completed at Cypress College.

Required courses are listed in suggested sequence:
Course # Title Units
PE 135 C Swimming – Intermed/Advanced 1
PE 235 C First Aid, CPR, and Emergencies 3
PE 237 C Lifesaving 1
PE 238 C Water Safety Instruction 2
PE 236 C Prevention and Care of Athletic Injuries 3
PE 244 C Human Performance 3
or
PE 234 C Contemporary Personal Health (3)
PE 299 C Physical Education - Independent Study 1

Select a minimum of 4 units from the electives listed below 4

Total Units Required 18
(see counselor if physical education major)

Electives
PE 136 C Springboard Diving 1
PE 146 C Water Polo 1
PE 149 C Swim for Fitness 1
PE 151 C Swimstastics/Water Exercises 1
PE 152 C Fitness Training Lab - (Nautilus Circuit) ½ - 2
PE 247 C Sports Management 3
PE 248 C Psychology of Sport 3
PSY 140 C Developmental Psychology - Pre-Adult 3
BIOL 210 C Anatomy and Physiology 5
PE 239 C Skin and Scuba Diving 3

HRC 100 C Nutrition 3
BIOL 210 C Anatomy and Physiology 5
SPORTS MANAGEMENT CERTIFICATE
This program is designed to prepare students for management careers in the sports and recreation industries, working with professional, college or high school teams; fitness, athletic, golf and tennis clubs; recreational facilities and parks; or marketing and selling athletic clothing and sports equipment. Combining knowledge of physical education with general business principles, this certificate will help students gain responsible positions in their chosen athletic field.

To earn a certificate, complete the required courses as listed with a minimum grade of “C”. At least 50% of all course work must be completed at Cypress College.

Required courses are listed in numeric sequence:
Course# Title Units
PE 247 C Sports Management 3
PE 248 C Psychology of Sport 3
MGT 161 C Introduction to Business 3
MGT 266 C Human Relations in Business 3
MKT 222 C Principles of Marketing 3

Total Units Required 15

PHYSICAL EDUCATION TRANSFER PROGRAM
Students should consult a counselor or www.assist.org for lower division major requirements for most California public universities. (See the Standard Definitions section of the catalog for a description of ASSIST.) Students transferring to an independent college/university should consult the catalog of the individual school and a counselor for lower division major requirements.

Physical Education (PE)

**All classes with double asterisks are off-campus. Students should allow for travel time.**

PE 083 C FITNESS FOR ATHLETES
1 Unit (May be taken for credit 4 times)
Three hours activity per week.
Credit/No Credit
AA/GE
This course is designed for students to practice in anaerobic and aerobic fitness and flexibility for competition in various intercollegiate sports.

PE 093 C WEIGHT LIFTING FOR ATHLETES
1 Unit (May be taken for credit 4 times)
Three hours activity per week.
Credit/No Credit
AA/GE
This course is an overview of weight lifting techniques that produce muscle mass and strength.

PE 100 C ADAPTIVE P.E. - WEIGHT TRAINING
1 Unit (May be taken for credit 4 times)
Two hours activity per week.
UC Credit Limitation/CSU, AA GE, CSU GE
Prerequisite: Entry into this class will be based on student’s previous medical history. This course is designed to give the disabled student the opportunity to participate in resistive exercises with weights.

PE 101 C ADAPTIVE P.E. - ACTIVITY
1 Unit (May be taken for credit 4 times)
Two hours activity per week.
UC Credit Limitation/CSU, AA GE, CSU GE
Prerequisite: Entry into this class will be based on student’s previous medical history. This course is designed for the disabled student. The class will emphasize modified individual and team sport activities.

PE 104 C ATHLETIC WEIGHT TRAINING
1 1/2 Units (May be taken for credit 4 times)
Three hours activity per week.
UC Credit Limitation/CSU, AA GE, CSU GE
This course is designed with athletes in mind, but not limited to them, to enable them to work out with a prescribed individual weight program at least three days a week. It will involve specific resistance exercises to develop parts of the body used in various types of sports activities. It will also add to the safety of the athletes by helping to prevent injuries.

PE 105 C BADMINTON
1 Unit (May be taken for credit 4 times)
Two hours activity per week.
UC Credit Limitation/CSU, AA GE, CSU GE
This is a course in the fundamental skills of badminton with emphasis on position play and strategy for singles, doubles, and mixed doubles. The class will include rules, etiquette, and mixed doubles. The class will include rules, etiquette, and competition. Equipment is furnished.

PE 107 C TABLE TENNIS
1 Unit (May be taken for credit 4 times)
Two hours activity per week.
UC Credit Limitation/CSU, AA GE, CSU GE
This course will consist of essential strokes with emphasis on the game strategies for singles and doubles play of table tennis. Rules, etiquette and tournament format will be introduced to the class.

**PE 108 C BOWLING
1 Unit (May be taken for credit 4 times)
Two hours activity per week.
UC Credit Limitation/CSU, AA GE, CSU GE
This course teaches the fundamental skills of bowling with emphasis on form, terminology, and scoring. The student will have the opportunity for class competition. The class will be conducted at an off-campus bowling establishment. Facility use fee required. To be paid throughout the semester at the facility.

PE 109 C FUTSAL (INDOOR SOCCER)
1 Unit (May be taken for credit 4 times)
Two hours activity per week.
UC Credit Limitation/CSU, AA GE, CSU GE
The class will provide instruction and practice in the techniques of futsal (indoor soccer). This course will develop skills, provide knowledge of the rules and teach students to analyze techniques, solve tactical problems and improve physical fitness.

PE 114 C CARDIOVASCULAR CONDITIONING
1 Unit (May be taken for credit 4 times)
Two hours laboratory per week.
UC Credit Limitation/CSU, AA GE, CSU GE
This class is designed to provide an individualized exercise program for the student interested in achieving physical fitness through a program of cardiovascular conditioning.

Physical Education / 257
This course emphasizes the basic fundamentals of golf, including rules, etiquette, and terminology. Golfing activity will be held at an on-campus location for the first nine weeks and the second nine weeks will be held at an off-campus golf facility. Facility use fee required. To be paid throughout the semester at the facility.

**PE 117 C GYMNASTICS**
1 Unit (May be taken for credit 4 times)
Two hours activity per week.
UC Credit Limitation/CSU, AA GE, CSU GE
This course is designed to teach basic skills and knowledge necessary to the performance of gymnastic stunts. The class develops agility, balance, timing, flexibility, and strength.

**PE 118 C GYMNASTICS APPARATUS**
1 Unit (May be taken for credit 4 times)
Two hours activity per week.
UC Credit Limitation/CSU, AA GE, CSU GE
This course is designed to give the student concentrated instruction and practice on the uneven bars, horizontal bar, parallel bars, balance beam, side horse, vaulting, and rings.

**PE 119 C GYMNASTICS - TUMBLING**
1 Unit (May be taken for credit 4 times)
Two hours activity per week.
UC Credit Limitation/CSU, AA GE, CSU GE
This course is designed to give the student concentrated instruction and practice in the skills of tumbling, floor exercises, and vaulting skills.

**PE 120 C WALKING FOR FITNESS**
1 Unit (May be taken for credit 4 times)
Two hours activity per week.
UC Credit Limitation /CSU, AA GE, CSU GE
This course will emphasize power walking for health and fitness for men and women who are interested in instruction and practice in cardiovascular walking. The class is designed to decrease the risk of coronary heart disorders by increasing heart efficiency, vital lung capacity and the knowledge of each through aerobic and anaerobic conditioning.

**PE 121 C SURFING**
1 Unit (May be taken for credit 4 times)
Three hours activity per week.
UC Credit Limitation/CSU, AA GE, CSU GE
This course offers students the opportunity to learn and improve the skills of wave riding. Examination and analysis of paddling, wave selection, water safety, equipment, tides, current, and etiquette are emphasized for long boarding and short boarding. Transportation and equipment will not be furnished.

**PE 122 C RACQUETBALL - INDOOR**
1 Unit (May be taken for credit 4 times)
Two hours activity per week.
UC Credit Limitation/CSU, AA GE, CSU GE
This course includes instruction in the fundamentals of indoor racquetball. The emphasis of the class will be on safety, rules, etiquette, and strategy in singles, doubles and cut-throat play. The class will be held at an off-campus facility. Facility use fee of $49.00 is required. Subject to change by facility.

**PE 123 C RACQUETBALL - OUTDOOR**
1 Unit (May be taken for credit 4 times)
Two hours activity per week.
UC Credit Limitation/CSU, AA GE, CSU GE
This course includes instruction in the fundamentals of outdoor racquetball. The emphasis of the class will be on safety, rules, etiquette, and strategy in singles, doubles and cut-throat play. The playing area is three-walled and classes are held on campus.

**PE 129 C STEP AEROBICS**
1 Unit (May be taken for credit 4 times)
Two hours activity per week.
UC Credit Limitation Pending/CSU, AA GE, CSU GE (Ask Penny about this one)
This course provides aerobic development through coordinated stepping movements performed to music. The class will emphasize cardiovascular improvement, muscle development, and decreased body fat.

**PE 131 C SWIMMING**
1 Unit (May be taken for credit 2 times)
Two hours activity per week.
UC Credit Limitation/CSU, AA GE, CSU GE
This course provides basic instruction and practice in the fundamental elements of swimming including beginning diving and water safety instruction. The class is designed to develop proficiency in the basic strokes needed to meet the prerequisites for the senior lifesaving and water safety instruction courses.

**PE 132 C SWIMMING - INTERMEDIATE/ADVANCED**
1 Unit (May be taken for credit 2 times)
Two hours activity per week.
UC Credit Limitation/CSU, AA GE, CSU GE
Prerequisite: Demonstrate ability to swim. This course is designed to develop knowledge and skill in competitive swimming strokes. The swimming strokes to be taught are the American crawl, backstroke, breaststroke, and dolphin butterfly. The class will emphasize the development of cardiovascular aerobic conditioning.

**PE 133 C SPRINGBOARD DIVING**
1 Unit (May be taken for credit 4 times)
Two hours activity per week.
UC Credit Limitation/CSU, AA GE, CSU GE
Prerequisite: Must be able to swim. This course is designed to teach the fundamentals of springboard diving. The beginning diver will learn diving progression for the front, back, reverse, inward and twisting dives.
PE 139 C TENNIS  
1 Unit (May be taken for credit 4 times)  
Two hours activity per week.  
UC Credit Limitation/CSU, AA GE, CSU GE  
The course will place emphasis on tennis fundamentals including forehand, backhand and the serve. The course also includes rules, court strategy, and etiquette of singles and doubles play. Tournaments will be conducted during class sessions. Students must provide their own equipment.

PE 141 C SPECIALIZED TENNIS SKILLS  
½ - 2 Units (Variable Unit Class) (May be taken for credit 4 times)  
One hour activity per week for each  
½ unit of credit earned.  
UC Credit Limitation/CSU, AA GE, CSU GE  
Prerequisite: PE 139 C with a grade of "C" or better. This class is designed for students desiring instruction from intermediate to advanced tennis. The class provides the opportunity to put techniques into practice through placement in the various levels of tennis ability.

**PE 142 C MOUNTAINEERING/ROCK CLIMBING  
1 Unit (May be taken for credit 4 times)  
One hour lecture and  
One hour activity per week.  
UC Credit Limitation/CSU, AA GE, CSU GE  
This course is designed for those students wishing to develop skills in mountaineering/rock climbing. Teaching emphasis is on preparation, knowledge of equipment, physical techniques, and the mental approach to climbing. Facility use fee of $60.00 required. Subject to change by facility.

PE 144 C VOLLEYBALL  
1 Unit (May be taken for credit 2 times)  
Two hours activity per week.  
UC Credit Limitation/CSU, AA GE, CSU GE  
The course will include teaching of the basic skills of volleyball with emphasis on strategy and rules. The students will be offered the opportunity for class and interclass competition.

PE 145 C VOLLEYBALL - INTERMED/ADVANCED  
1 - 1½ Unit (Variable Unit Class) (May be taken for credit 2 times)  
Two to three hours activity per week.  
UC Credit Limitation/CSU, AA GE, CSU GE  
Prerequisite: Previous volleyball experience. This course is designed to provide advanced skill development and strategies of volleyball. This class provides intermediate and advanced players an opportunity to practice competitive techniques in game situations.

PE 146 C WATER POLO  
1 Unit (May be taken for credit 4 times)  
Two hours activity per week.  
UC Credit Limitation/CSU, AA GE, CSU GE  
Prerequisite: To include at least one of the following: PE 134 C or Red Cross Intermediate Swimmer's card. Basic instruction will be given in the fundamental skills of water polo. Instruction will emphasize passing, shooting, dribbling, conditioning, game strategy, and terminology. The course will include aquatic drills, scrimmages and appropriate learning activities for the intermediate and advanced water polo player.

PE 148 C LOW-IMPACT AEROBICS  
1 Unit (May be taken for credit 4 times)  
Two hours activity per week.  
UC Credit Limitation/CSU, AA GE, CSU GE  
This course provides an aerobic workout without jogging, running, jumping or other high impact type movements which might result in over stress to feet, ankles, knees, hips or the spinal column. The exercise sessions will include simple dance steps, dynamic full body movements, muscle toning, stretching and relaxation techniques. The course is designed to prevent injury and is ideal for beginning aerobizers, the overweight individual, injured or recuperating students, and older students as well as the general student population. This class is designed for both men and women.

PE 149 C SWIM FOR FITNESS  
1 Unit (May be taken for credit 4 times)  
Two hours activity per week.  
UC Credit Limitation/CSU, AA GE, CSU GE  
Prerequisite: PE 134 C or ability to swim. This class will emphasize swimming for health and physical fitness. The class is designed to decrease the risk of coronary heart disorders by increasing heart efficiency, vital lung capacity, and the knowledge of each through the use of aerobic and anaerobic conditioning. Participating adults and others seeking a fitness program may expect to improve their overall fitness level through aquatic training.

PE 150 C RHYTHMIC AEROBIC EXERCISE  
1 Unit (May be taken for credit 4 times)  
Two hours activity per week.  
UC Credit Limitation/CSU, AA GE, CSU GE  
This course provides aerobic development through rhythmic, high impact movements. The class activities will emphasize stretching, walking, jogging, running, and rope jumping in a dance setting to music.

PE 151 C SWIMNASTICS/WATER EXERCISES  
1 Unit (May be taken for credit 4 times)  
Two hours activity per week.  
UC Credit Limitation/CSU, AA GE, CSU GE  
This class is designed to provide calisthenic type exercises and routines using the resistance of the water as a means for developing cardiovascular endurance, strength, flexibility, and coordination. Students will be able to improve posture and appearance through performance and understanding of using the water as a resistance. Non-swimmers welcome.

PE 152 C FITNESS TRAINING LAB - (NAUTILUS CIRCUIT)  
½ - 2 Units (Variable Unit Class) (May be taken for credit 4 times)  
18 hours of activity required for each  
½ unit up to 72 hours for 2 units.  
UC Credit Limitation/CSU, AA GE, CSU GE  
This course is designed as an open-entry laboratory. Workouts can be scheduled any time the lab is open on an individual basis. The equipment and routines utilized in this circuit training facility are designed with the non-athlete in mind. Circuit training has proven especially beneficial for women, older men, and others not interested in competitive weight training but desiring good muscle tone and cardiovascular fitness. This type of training gives maximum return in a controlled workout with flexible hours and variable units.
PE 153 C AEROBIC CYCLING - STATIONARY
1 Unit (May be taken for credit 4 times)
Two hours activity per week.
UC Credit Limitation/CSU, AA GE, CSU GE
The students will exercise twice a week on bicycle ergometers. This aerobic exercise will improve aerobic capacity, oxygen pulse, oxygen uptake capacity, blood pressure, and heart rate. Student evaluation will consist of a pre- and post-test of aerobic fitness, flexibility, and body composition/fat percent.

PE 154 C FITNESS TESTING WITH EXERCISE PRESCRIPTION
2 Units (May be taken for credit 4 times)
One hour lecture and
Two hours activity per week.
CSU, AA GE, CSU GE
Prerequisite: Physician’s clearance required for persons age 35 or over.
This course will evaluate the fitness level of individuals by modern scientific equipment in the Human Performance Laboratory. Based on the results of a battery of tests, an exercise prescription will be developed to meet individual goals. Student progress will be evaluated with post-testing.

PE 156 C POWER TRAINING
½ - 2 Units (Variable Unit Class) (May be taken for credit 4 times)
18 hours of activity required for each
½ unit up to 72 hours for 2 units.
UC Credit Limitation/CSU, AA GE, CSU GE
This course is an open laboratory experience for those people who want to get maximal physical return for a limited time invested. This class is designed to provide instruction and supervision of students with individualized power training programs using free weights exclusively. It is for men and women of all ages who are interested in muscle toning, muscle rehabilitation, and/or weight redistribution. Workout times are adjusted to the individual’s schedule with flexible hours and variable units.

**PE 157 C SPECIALIZED GOLF SKILLS
1 Unit (May be taken for credit 4 times)
Two hours activity per week.
UC Credit Limitation/CSU, AA GE, CSU GE
Prerequisite: PE 116 C.
This course will emphasize advanced golf techniques and playing strategies. The class will provide advanced and low handicap golfers the opportunity to enhance their skills and techniques in execution of golf scoring strategies. Facility use fee required. To be paid throughout the semester at the facility.

**PE 159 C STRENGTH TRAINING - (OLYMPIC WEIGHTS)
½ - 2 Units (Variable Unit Class) (May be taken for credit 4 times)
18 hours of activity required for each
½ unit up to 72 hours for a total of 2 units.
UC Credit Limitation/CSU, AA GE, CSU GE
This course is an open laboratory experience for those people who want to get maximal physical return for a limited time invested. The class is designed to provide instruction and supervision of students with individualized strength programs using Universal and Olympic weights exclusively. It is for men and women of all ages who are interested in muscle toning, muscle rehabilitation, and/or weight redistribution. Workout times are adjusted to the individual’s schedule with flexible hours and variable units.

ACTIVITIES DESIGNED FOR, BUT NOT LIMITED TO, WOMEN

PE 160 C BASKETBALL
1 Unit (May be taken for credit 4 times)
Two hours activity per week.
UC Credit Limitation/CSU, AA GE, CSU GE
This activity class stresses development of the fundamental skills of basketball. Game strategies including various offenses and defenses will be analyzed and applied through team competition.

PE 161 C BODY CONDITIONING AND FITNESS
1 Unit (May be taken for credit 4 times)
Two hours activity per week.
UC Credit Limitation/CSU, AA GE, CSU GE
This course is designed for students to participate in a comprehensive fitness program which includes stretching, cardiovascular, and strengthening exercises. The exercises help develop agility, improve coordination, and increase endurance while normalizing body weight and improving muscle tone.

PE 162 C CONDITIONING FOR ATHLETES
1 ½ Units (May be taken for credit 4 times)
Three hours activity per week.
UC Credit Limitation/CSU, AA GE, CSU GE
This course is designed for individualized instruction and practice in the areas of weight training, weight lifting, anaerobic and aerobic fitness, and flexibility for competition in various intercollegiate sports.

PE 163 C KICK-BOXING
1 Unit (May be taken for credit 4 times)
Two hours laboratory per week.
UC Credit Limitation/CSU, AA GE, CSU GE
Instruction in forms of kick-boxing that stress cardiovascular endurance, strength development, and improved flexibility. The aerobic workout will include influences from several martial arts. The sparring and self defense aspects of kickboxing will be included.

**All classes with double asterisks are off-campus. Students should allow for travel time.
PE 170 C SELF DEFENSE
1 Unit (May be taken for credit 4 times)
Two hours activity per week.
UC Credit Limitation/CSU, AA GE
This course provides instruction in developing both physical and cognitive skills in personal safety and self-protection. Through planned scenarios, students will gain a continual awareness of their surroundings. Through different forms of martial arts training, students will practice both defensive and offensive moves against various forms of attacks, including weapons. Proficiency in the practical, effective, and tactical use of movement, leverage, strikes, and use of everyday objects as weapons is stressed.

PE 171 C SOCCER
1 Unit (May be taken for credit 4 times)
Two hours activity per week.
UC Credit Limitation/CSU, AA GE, CSU GE
This class will provide instruction and practice in the techniques of soccer for women. This course will develop skills, knowledge of rules, analysis of techniques and game strategies.

PE 172 C SOFTBALL
1 Unit (May be taken for credit 4 times)
Two hours activity per week.
UC Credit Limitation/CSU, AA GE, CSU GE
The course will emphasize basic skills of softball including techniques, strategies of offense and defense, rules and terminology.

PE 173 C SONG LEADER TRAINING
2 Units (May be taken for credit 4 times)
Ten hours activity per week.
CSU, AA GE, CSU GE
Prerequisite: Spirit Squad tryouts. This course is designed for song leaders emphasizing rhythm, exercise, and dance routines with leadership training for the purpose of adding and promoting school spirit.

PE 174 C INLINE SKATING
1 Unit (May be taken for credit 4 times)
Two hours activity per week.
UC Credit Limitation/CSU, AA GE, CSU GE
The course will place emphasis on inline skating fundamentals including turning, stopping, skating posture and balance. The course of study will also include terminology, etiquette and aerobic and anaerobic fitness training. Rental fee is required if the student does not supply his/her own skates and safety equipment such as helmet, wrist, elbow and knee pads.

PE 177 C SONG AND YELL LEADER WORKSHOP - MINI COURSE
1 Unit (May be taken for credit 4 times)
Two hours activity per week.
CSU, AA GE, CSU GE
Prerequisite: Spirit Squad tryouts. This course is designed for song and yell leaders emphasizing rhythm, exercise, and gymnastics with leadership training for the purpose of adding and promoting school spirit.

PE 178 C WEIGHT TRAINING
½ - 1 Unit (Variable Unit Class) (May be taken for credit 4 times)
One or two hours activity per week.
UC Credit Limitation/CSU, AA GE, CSU GE
This weight training class stresses techniques of lifting that will produce muscle tone and strength for women.

PE 179 C YELL LEADER TRAINING
2 Units (May be taken for credit 4 times)
Ten hours activity per week.
CSU, AA GE, CSU GE
Prerequisite: Spirit Squad tryouts. This course is designed for yell leaders emphasizing exercise, gymnastics, partner stunts and pyramids with leadership training for the purpose of developing and promoting school spirit, including intercollegiate competition.

$ACTIVITIES\ \DESIGNED\ \FOR,\\ \BUT\ \NOT\ \LIMITED\ \TO,\ MEN$

PE 180 C BASEBALL
1 Unit (May be taken for credit 4 times)
Two hours activity per week.
UC Credit Limitation/CSU, AA GE, CSU GE
The class includes instruction in the fundamental skills of baseball with emphasis on techniques, game strategy, and the correct methods to play the game. The course includes drills and team competition.

PE 181 C BASKETBALL
1 Unit (May be taken for credit 4 times)
Two hours activity per week.
UC Credit Limitation/CSU, AA GE, CSU GE
The class includes instruction in the fundamental skills of basketball with an emphasis on strategy and team play. The class will include rules, drills, and team competition. Equipment is furnished.

PE 182 C BODY BUILDING/BODY DEVELOPMENT AND WEIGHT LIFTING
½ - 1 Unit (Variable Unit Class) (May be taken for credit 4 times)
One or two hours activity per week.
UC Credit Limitation/CSU, AA GE, CSU GE
This course includes building and developing the body through the use of progressive resistance exercises, as well as instruction in the proper techniques of power lifting.

PE 187 C PHYSICAL FITNESS
½ - 1 Unit (Variable Unit Class) (May be taken for credit 4 times)
One or two hours activity per week.
UC Credit Limitation/CSU, AA GE, CSU GE
This course emphasizes physical fitness for men which will be achieved through the use of resistive exercises and body building routines.

PE 189 C SOCCER
1 Unit (May be taken for credit 4 times)
Two hours activity per week.
UC Credit Limitation/CSU, AA GE, CSU GE
The class will provide instruction and practice in the techniques of soccer for men. This course will develop skills, knowledge of rules, analysis of techniques and game strategies.

PE 190 C SOFTBALL
1 Unit (May be taken for credit 4 times)
Two hours activity per week.
UC Credit Limitation/CSU, AA GE, CSU GE
The course will emphasize basic skills of softball including techniques and strategies of offense and defense, rules and terminology.
PE 193 C  WEIGHT TRAINING/WEIGHT LIFTING  
½ - 1 Unit (Variable Unit Class) (May be taken for credit 4 times)  
One or two hours activity per week.  
UC Credit Limitation/CSU, AA GE, CSU GE  
This weight training class stresses techniques of lifting that will produce muscle tone and strength.  

PE 194 C  WRESTLING  
1 Unit (May be taken for credit 4 times)  
Two hours activity per week.  
UC Credit Limitation/CSU, AA GE, CSU GE  
This course will include instruction in the fundamental skills and knowledge necessary for successful participation in amateur wrestling. The class will develop endurance, flexibility and strength.  

PE 197 C  RECREATIONAL FOOTBALL  
1 Unit (May be taken for credit 4 times)  
Two hours activity per week.  
UC Credit Limitation/CSU, AA GE, CSU GE  
The course will include the basic fundamentals of flag and touch football. The class will emphasize rules, safety procedures, and team play.  

INTERCOLLEGIATE ATHLETICS  

INTERCOLLEGIATE ATHLETICS  
2 Units  
PE 202 C Baseball - Men  
***PE 203 C Basketball - Men  
***PE 204 C Basketball - Women  
PE 207 C Soccer - Women  
PE 208 C Golf  
PE 209 C Soccer - Men  
PE 210 C Softball - Women  
PE 211 C Swimming - Men  
PE 212 C Swimming - Women  
PE 213 C Tennis - Men  
PE 214 C Tennis - Women  
PE 218 C Volleyball - Women  
PE 219 C Water Polo  
**PE 220 C *Wheelchair Basketball  
PE 221 C Wrestling  
PE 222 C Badminton - Women  
UC Credit Limitation/CSU, AA GE, CSU GE  
Prerequisite: Must meet the California Community College Commission on Athletics eligibility requirements, pass a physical examination prior to intercollegiate competition, and participate in the Cypress College accident-injury insurance plan, a $10.00 (***$5.00) Fee - PAYABLE AT REGISTRATION is required. In order to participate in intercollegiate athletics, all students must enroll in one of the above classes. The most qualified student athletes will be selected to represent the college during the season. These classes satisfy the physical education graduation requirement. These sports will stress fundamentals, team/individual play, and mental and physical conditioning. Daily practice or a minimum of ten hours per week is required.  

*Prerequisite: Entry into this class will be based upon the student’s previous medical history. (COA rules and hours do not apply).  

**Accident -Injury insurance fee not required at registration for PE 220 C.  

THEORY - PHYSICAL EDUCATION  

PE 231 C  ELEMENTARY SCHOOL MOVEMENT - PHYSICAL EDUCATION  
3 Units  
Two hours lecture and  
Two hours activity per week.  
CSU, CSU GE  
This course is designed to acquaint the elementary school major with physical education programs in grades K-6. The course includes observation, visitation, and actual teaching field work at an elementary school in the Cypress School District. The campus laboratory includes methods, skills, and activities used in teaching elementary physical education. The class is required for elementary education majors and required for recreation and physical education majors.  

PE 234 C  CONTEMPORARY PERSONAL HEALTH  
3 Units  
Three hours lecture per week.  
Credit by Examination  
UC/CSU, AA GE, CSU GE  
The course explores advances in the medical science field as they relate to personal health and dispels myths and misconceptions. Health issues that will be covered in the course are stress management, substance abuse, alcoholism, smoking as an addiction, sexuality, marriage, birth, sexually transmitted diseases, nutrition, cancer, aging and death, and obesity.  

PE 235 C  FIRST AID, CPR AND EMERGENCIES  
3 Units  
Three hours lecture per week.  
UC/CSU, CSU GE  
This course includes the theory and implementation of the skills necessary in response to an emergency. Successful completion of the course will qualify the student for the American Red Cross "Responding to Emergencies" First Aid Certificate, Adult, Child and Infant CPR Certificates, and Automated External Defibrillation Certificate. Costs may include materials for the construction of a First Aid Kit. There is a required $4.00 Red Cross Service Fee - PAYABLE AT REGISTRATION.  

PE 236 C  PREVENTION AND CARE OF ATHLETIC INJURIES  
3 Units  
Two hours lecture and  
Three hours laboratory per week.  
UC/CSU  
This course is designed for future trainers, coaches, and physical therapists in the field of sports medicine. The course concentrates on the prevention, evaluation, treatment and rehabilitation of athletic injuries. Methods of taping and the use of training room equipment will also be covered.  

262 / Physical Education
PE 237 C  LIFESAVING
1 Unit
One hour lecture and
One hour laboratory per week.
UC/CSU, CSU GE
Prerequisite: The prospective student should be familiar with
and have average skill in the following swimming strokes: 
American crawl, breaststroke, sidestroke, and the elemen-
tary backstroke. This course is designed to develop and per-
fect the basic swimming strokes needed to successfully exe-
cute the various lifesaving skills, as well as improve general 
skills and proficiency in the water. Upon completion of the 
class, a student who successfully passes written and practi-
cal exams will be qualified to be certified for an American 
Red Cross Emergency Water Safety, Basic Lifeguarding, or 
Lifeguard Training Certificate. $4.00 Laboratory Fee - 
PAYABLE AT REGISTRATION.

PE 238 C  WATER SAFETY INSTRUCTION
2 Units
One hour lecture and
Two hours activity per week.
UC/CSU
Prerequisite: Seventeen years of age minimum, American 
Red Cross precourse written and skills test. Advisory: PE 134 
C or equivalent: Competency in swimming, diving, and water 
safety skills. This American Red Cross course will prepare 
instructor candidates to teach a variety of American Red Cross 
swimming and water safety courses to people of all ages. 
Upon satisfactory completion, the student will receive an 
American Red Cross Water Safety Instructor certificate. This 
class does not meet the requirements for P.E. activity classes. 
$4.00 Laboratory Fee - PAYABLE AT REGISTRATION.

PE 239 C  SKIN AND SCUBA DIVING
3 Units
Two hours lecture and
Three hours activity per week.
CSU
Prerequisite: Qualification as an intermediate swimmer, 
passed PE 134 C, PE 237 C or PE 238 C. This course is 
designed to instruct the novice diver in the fundamentals of 
skin and SCUBA diving. The class will include instruction in 
the use of mask, fins and snorkel, as well as instruction in the 
safe use of self-contained, underwater, breathing apparatus 
(SCUBA). The class will place an emphasis on safety, skill 
development, psychological adjustments and cardiovascular 
conditioning. Upon successful completion of the class, the 
student will be certified as an N.A.U.I., Open Water I, SCUBA 
diver. The student will be responsible for equipment rental 
and boat fees, as well as purchasing some basic personal 
gear. This class does not meet the requirement for a physical 
education activity class.

PE 240 C  SPORTS OFFICIATING - MEN'S 
SPORTS
3 Units (May be taken for credit 2 times)
Two hours lecture and
Two hours laboratory TBA per week.
UC Credit Limitation/CSU
This class provides practical experience with an emphasis 
on knowledge and interpretation of the rules of sporting 
events. The rules and mechanics of officiating football, bas-
ketball, baseball, softball and other sports will be covered. 
This course can be used for recreation majors, physical edu-
cation majors, and people involved in community athletic 
organizations. The course will also explore avenues of 
employment related to sports officiating.

PE 242 C  WHEELCHAIR ATHLETICS
2 Units (May be taken for credit 4 times)
One hour lecture and
Three hours laboratory per week.
CSU, CSU GE
Prerequisite: Entry into this class will be based on the stu-
dent's previous medical history. The course includes instruc-
tion and participation in the fundamentals of the spectrum of 
wheelchair athletics. The course is expressly designed for, 
but not limited to, those students with permanent disability of 
the lower extremities who are therefore unable to participate 
in regular able-bodied athletics. The emphasis is on rules, 
safety, general awareness of wheelchair athletic alternatives 
with specific skill development in wheelchair basketball and 
wheelchair tennis leading to competition in California and 
U.S. wheelchair basketball and tennis programs.

PE 244 C  HUMAN PERFORMANCE
3 Units
Three hours lecture per week.
UC Credit Limitation/CSU, AA GE, CSU GE
Lectures will provide guidelines for lifetime fitness with a 
combined approach of exercise physiology, nutrition and bio-
mechanics. Students will develop a working knowledge of 
physiological adaptations to aerobic and anaerobic exercise, 
of nutritional programs to achieve and maintain ideal body 
weight, and of desirable lifestyle management behaviors to 
improve wellness and human performance.

PE 247 C  SPORTS MANAGEMENT
3 Units
Two hours lecture and
Three hours activity per week.
CSU
This course consists of how to organize, manage, plan, staff, 
direct and control a sports program. The course also 
includes such areas as budget, facilities, scheduling, offi-
cials, transportation, public relations, parent and booster 
clubs, purchase and care of athletic equipment, fund raising, 
and marketing.

PE 248 C  PSYCHOLOGY OF SPORT
3 Units
Three hours lecture per week.
CSU
This course consists of the study of athletes on all levels of 
competition. The course includes such areas as psychology 
of competition, understanding coaches, goal setting, motiva-
tion, anxiety and stress, relaxation, relationships, eligibility, 
and drug abuse in sports. The class also prepares the com-
community college athlete for competition at the university level.

Physical Education / 263
PE 250 C  SPORT & UNITED STATES SOCIETY  
3 Units  
Three hours lecture per week.  
CSU, CUL PL  
This course examines sport in the United States society, and how various ethnic and minority groups have influenced sport participation at the local, state and national levels. Influences of other cultures outside of the United States will be reviewed and analyzed. A review of sport history from both the international and national perspective will be conducted with communication and media influences also examined.

PE 252 C  INTRO TO PHYSICAL EDUCATION  
2 Units  
Two hours lecture per week.  
CSU  
Introduction and orientation to physical education as a profession and as an academic discipline. Explores subdisciplines, opportunities in the field, philosophy, scientific foundation, and analyzes and evaluates individuals that have influenced these trends and issues in the 21st Century.

PE 261 C  PROFESSIONAL ACTIVITIES - TENNIS  
2 Units (May be taken for credit 2 times)  
One hour lecture and  
Two hours activity per week.  
UC Credit Limitation/CSU  
This course is designed for students who are interested in pursuing tennis instruction and coaching as a career. The class will emphasize skills needed to teach the sport of tennis. Students will be responsible for performing and teaching various skills. Students must provide their own equipment.

PE 262 C  PROFESSIONAL ACTIVITIES - VOLLEYBALL (Coed)  
2 Units (May be taken for credit 2 times)  
One hour lecture and  
Two hours activity per week.  
UC Credit Limitation/CSU  
This course is designed for men and women physical education and recreation majors. This class will emphasize development and improvement of fundamental volleyball skills. Course content will include strategy and team organization through participation, analysis of rules, instructional procedures and coaching techniques.

PE 263 C  PROFESSIONAL ACTIVITIES - WRESTLING  
2 Units (May be taken for credit 2 times)  
One hour lecture and  
Two hours activity per week.  
UC Credit Limitation/CSU  
This course will include instruction and practice in the fundamental wrestling techniques basic to successful performance in amateur wrestling. The class will include all aspects of offense, defense and additional areas such as equipment, budget, scheduling, and scouting. This class does not meet the requirements for P.E. activity classes.

PE 264 C  THEORY OF COACHING FOOTBALL  
3 Units  
Two hours lecture and  
Three hours laboratory per week.  
UC Credit Limitation/CSU  
This course includes the study of the various aspects of coaching football. The emphasis of the class will be on the theory of how to organize a football program, offense, defense and the kicking game. The lab consists of scouting and/or coaching football.

PE 265 C  INTRAMURAL MANAGEMENT  
2 Units (May be taken for credit 4 times)  
One hour lecture and  
Three hours laboratory per week.  
CSU  
This course will emphasize effective management skills for an intramural program. The class will include group organization, promotion and supervision of campus intramural activities.

PE 266 C  THEORY OF COACHING BASKETBALL  
3 Units  
Two hours lecture and  
Three hours laboratory per week.  
UC Credit Limitation/CSU  
This course includes the study of various aspects of coaching basketball. The emphasis of the class will be on the theory of how to organize a basketball program, individual skills, and offensive and defensive team play. The lab consists of scouting and/or coaching basketball.

PE 267 C  THEORY OF COACHING BASEBALL  
3 Units  
Two hours lecture and  
Three hours activity per week.  
UC Credit Limitation/CSU  
This course includes the study of various aspects of coaching baseball. The emphasis of the class will be on the theory of how to organize a baseball program, develop individual skills, and coach offensive and defensive teamwork. The lab consists of scouting and coaching baseball.

PE 280 C  PROFESSIONAL ACTIVITIES - BASEBALL  
2 Units (May be taken for credit 2 times)  
One hour lecture and  
Two hours activity per week.  
UC Credit Limitation/CSU  
This course is designed to emphasize the learning of skills and fundamentals of the game of baseball. The class will include activities that will develop the psychological as well as the physical preparation of a baseball player. The theory and practical experiences related to offensive and defensive phases of the game will also be covered.
PE 281 C  PROFESSIONAL ACTIVITIES - BASKETBALL
2 Units (May be taken for credit 2 times)
One hour lecture and
Two hours activity per week.
UC Credit Limitation/CSU
This course is designed for physical education and recreation majors. The course will include a comprehensive analysis of the principles of movement, motor skills, and the strategy concepts used in basketball.

PE 282 C  PROFESSIONAL ACTIVITIES - SOFTBALL
2 Units (May be taken for credit 2 times)
One hour lecture and
Two hours activity per week.
UC Credit Limitation/CSU
This course is designed for physical education and recreation majors. The course will emphasize development and improvement of fundamental skills, including strategy, team organization, rules and instructional procedures.

PE 284 C  PROFESSIONAL ACTIVITIES - SOCCER
2 Units (May be taken for credit 2 times)
One hour lecture and
Two hours activity per week.
UC Credit Limitation/CSU
This course is designed for physical education majors. The course will include a comprehensive analysis of fundamental skills, game strategy, team offense and team defense through participation, analysis of rules and instructional procedures.

PE 286 C  PROFESSIONAL ACTIVITIES - WEIGHT TRAINING
2 Units (May be taken for credit 2 times)
One hour lecture and
Two hours activity per week.
UC Credit Limitation/CSU
Prerequisite: PE 152 C, PE 156 C, or PE 159 C. This course is a study of weight training theory with emphasis on kinesiology and biomechanical principles. The class will provide the student with an understanding of various anaerobic training techniques and their applications.

PE 298 C  PHYSICAL EDUCATION SEMINAR
½ - 3 Units (Variable Unit Class) (May be taken for credit 4 times)
Lecture/discussion hours will vary with credit given.
UC Credit Limitation/CSU
This class will utilize a lecture/lab activity approach to various topics in physical education. A variety of classes will be offered in order to introduce able bodied students to new experiences in physical education.

PE 299 C  PHYSICAL EDUCATION INDEPENDENT STUDY
½ - 2 Units (Variable Unit Class) (May be taken for credit 4 times)
A maximum of six hours laboratory per week.
UC Credit Limitation/CSU
Prerequisite: Approved Independent Study Learning Contract. This course is designed for students who wish to gain experience in teaching physical education classes or to increase their knowledge and experience in applied areas (coaching and teaching). Students must obtain permission from the instructor in the subject area they will be working with, and will be under the direct supervision of that instructor. This course does not meet requirements of physical education activity classes.

Alice Payne

Physical Science (PHSC)

PHSC 117 C  COSMOLOGY
1 Unit
One hour lecture per week.
CSU
Prerequisite: ASTR 116 C or ASTR 101 C. The course includes a study of black holes, galactic evolution, methods and assumptions of cosmology, the big bang, geometry and models, the inflationary universe, anthropic principle, destiny of the universe, particle theory, and grand unification.

PHSC 196 C  FIELD STUDIES IN PHYS SCI
2 Units (May be taken for credit 4 times)
One hour lecture and
Three hours laboratory per week.
CSU
This course involves lecture and field study in the physical sciences. During a given semester, multiple sections may be offered to different study areas or for different selected topics. Study areas include, but are not limited to, star gazing in the Santa Ana mountains or Anza area; viewing museums, planetaria, observatories; or listening to lectures. Field trips are required.
PHSC 298 C  PHYSICAL SCIENCE SEMINAR  
½ - 3 Units (Variable Unit Class) (May be taken for credit 4 times)  
Three hours lecture/discussion per week for maximum credit.  
UC Credit Limitation/CSU  
This course is for students who wish to increase their knowledge in various fields in the physical sciences. Various topics may be offered, such as the metric system of measurement, observational astronomy, etc., according to the interests of the instructor and students as stated in the class schedule. Consult the class schedule to verify unit credit and topics for a particular semester.

PHSC 299 C  PHYS SCI INDEP STUDY  
½ - 2 Units (Variable Unit Class) (May be taken for credit 4 times)  
Three hours laboratory or project research per week for maximum credit.  
UC Credit Limitation/CSU  
Prerequisite: Approved Independent Study Learning Contract. This course is for able students who have demonstrated interest and capability for increased knowledge of physical science through individual study, small group discussion conferences, or special laboratory project work. Independent laboratory or field study projects with staff supervision may be approved with written reports required.

Physical Therapy  
PHYSICAL THERAPY TRANSFER PROGRAM  
Professional programs such as dentistry, medicine, pharmacy, optometry, physician assistant, physical therapy and veterinary medicine are most often graduate programs that require a bachelor degree or significant preparation prior to entering the program. The appropriate preparation varies according to the school and specific program. Students are advised to meet with a counselor to discuss options for their bachelor degree and the lower division requirements for the program and school of their choice.

Physician Assistant  
PHYSICIAN ASSISTANT TRANSFER PROGRAM  
Professional programs such as dentistry, medicine, pharmacy, optometry, physician assistant, physical therapy and veterinary medicine are most often graduate programs that require a bachelor degree or significant preparation prior to entering the program. The appropriate preparation varies according to the school and specific program. Students are advised to meet with a counselor to discuss options for their bachelor degree and the lower division requirements for the program and school of their choice.

PHYSICS TRANSFER PROGRAM  
Students should consult a counselor or www.assist.org for lower division major requirements for most California public universities. (See the Standard Definitions section of the catalog for a description of ASSIST.) Students transferring to an independent college/university should consult the catalog of the individual school and a counselor for lower division major requirements.

Physics (PHYS)  
PHYS 021 C  PROBLEM SOLVING-MECHANICS  
1 Unit  
One hour lecture per week.  
Credit/No Credit  
NON-DEGREE CREDIT  
Advisory: Students are recommended to be enrolled in PHYS 201 C or PHYS 210 C. This course is designed as a problem solving session and examination of the concepts in classical mechanics as taught in the first semester of College Physics (PHYS 201 C) or Physics (PHYS 210 C).

PHYS 022 C  PROBLEM SOLVING-ELECTRICITY  
1 Unit  
One hour lecture per week.  
Credit/No Credit  
NON-DEGREE CREDIT  
Advisory: Students are recommended to be enrolled in PHYS 202 C or PHYS 211 C. This course is designed as a problem solving session and examination of the concepts in electricity, magnetism, and optics as taught in the second semester of College Physics (PHYS 202 C) or Physics (PHYS 211 C).

PHYS 023 C  PHYS 221 C PROBLEM SOLVING  
1 Unit  
One hour lecture per week.  
Credit/No Credit  
NON-DEGREE CREDIT  
Corequisite: PHYS 221 C. This course is designed as a problem solving session and examination of the concepts in classical mechanics as taught in the first semester of General Physics (PHYS 221 C).

POLITICAL SCIENCE TRANSFER PROGRAM
Students should consult a counselor or [www.assist.org](http://www.assist.org) for lower division major requirements for most California public universities. (See the Standard Definitions section of the catalog for a description of ASSIST.) Students transferring to an independent college/university should consult the catalog of the individual school and a counselor for lower division major requirements.

Political Science (POSC)

POSC 098 C POLITICAL SCIENCE NON-TRANSFER SEMINAR
½ - 2 Units (Variable Unit Class) (May be taken for credit 4 times)
Lecture/discussion hours will vary with credit given.
Prerequisite: May be required. (See class schedule). This is a lecture/discussion approach to particular problems for students who wish to increase their knowledge of subjects which are not of a nature generally taught in college. Various topics will be offered according to the interests of the instructor and students as stated in the class schedule. Various types of measuring devices will be used and unit credit may range from ½ to 2 non-transfer units in any given semester. Consult the class schedule to verify credit for a particular term.

POSC 100 C GOVERNMENT OF THE UNITED STATES
3 Units
Three hours lecture per week.
UC Credit Limitation/CSU, AA GE, CSU GE, IGETC
This course covers the political theories and practices of United States Government, at national, state and local levels. This course satisfies the requirements of United States Constitution and government. Eligibility for ENGL 100 C recommended. Duplicate credit not granted for POSC 100 HC.

POSC 100HC HONORS GOVERNMENT OF THE UNITED STATES
3 Units
Three hours lecture per week.
UC Credit Limitation/CSU, AA GE, CSU GE, IGETC
This course is an enhanced college level course enhanced for honor students. This course covers the political theories and practices of the United States Government at national, state and local levels. This course satisfies the United States Constitution CSU graduation requirement. Eligibility for ENGL 100 C recommended. Duplicate credit not granted for POSC 100 C.

POSC 130 C POLITICAL COMMUNICATION
3 Units
Three hours lecture per week.
UC/CSU, CSU GE, IGETC
This course covers the theory and application of rhetorical criticism to contemporary and political communication events. Stress will be placed on the rhetorical/political strategies used to advance concepts and policy options.

POSC 135 C PARTIES, POLITICAL ACTION COMMITTEES AND CAMPAIGNS
3 Units
Three hours lecture per week.
CSU
This course is an analysis of the challenges faced by the Democratic and Republican parties as they are being replaced by campaign management firms (CMF’s), Political Action Committees (PAC’s) and electronic media advertising. Special emphasis is given to critical analysis of the presidential election campaign process, and of the resulting implications of the democratic process in the United States. Eligibility for ENGL 100 C recommended.

POSC 155 C LEGAL METHOD AND THE LEGAL ASSISTANT
3 Units
Three hours lecture per week.
CSU
This is the basic orientation course to provide the student with an examination of court systems, legal research and case analysis. It provides the student with an understanding of the ethics and standards of the legal profession, especially the relationship of legal assistant to client and attorney.

POSC 209 C URBAN POLITICS
3 Units
Three hours lecture per week.
UC/CSU, CSU GE, IGETC, CUL PL
This course is a concentrated study of urban America with particular emphasis on the challenging problems facing the country’s metropolitan areas. The approach will be interdisciplinary in order to facilitate conceptual learning and a balanced understanding of the urban dilemma. Major areas of study will include the history and development of urban United States intergovernmental relations, poverty, racial and ethnic relations, pollution, crime, public services, education, planning and renewal.
POSC 210 C  CONTEMPORARY POLITICAL ISSUES IN AMERICA
3 Units
Three hours lecture per week.
UC/CSU, AA GE, CSU GE, IGETC
This course is an intensive study of issues associated with the concepts of democracy, federalism, separation of powers, judicial review, preservation of individual rights and related topics.

POSC 215 C  COMPARATIVE POLITICAL SYSTEMS
3 Units
Three hours lecture per week.
UC/CSU, AA GE, CSU GE, IGETC
This course is a comparative study of the political theories and practices of selected European and non-Western political systems. Also included in the course is a careful analysis of the dynamics of political change and its relationship to economic and social development. Eligibility for ENGL 100 C recommended.

POSC 220 C  INTRODUCTION TO PUBLIC ADMINISTRATION
3 Units
Three hours lecture per week.
CSU
This course will concentrate on giving the student a background in fiscal policy (budgeting), personnel, policy-making, and general organization.

POSC 230 C  INTRODUCTION TO INTERNATIONAL RELATIONS
3 Units
Three hours lecture per week.
UC/CSU, AA GE, CSU GE, IGETC
This course is a study of relations of nations including the function of power, diplomacy, international law and organization, and economic factors. Special emphasis will be placed on such concepts as war, nationalism, imperialism, ideological conflict and collective security, and how these concepts affect American foreign policy. Eligibility for ENGL 100 C recommended.

POSC 298 C  POLITICAL SCIENCE SEMINAR
½ - 3 Units (Variable Unit Class) (May be taken for credit 4 times)
Lecture/discussion hours will vary with credit given.
UC Credit Limitation/CSU
Prerequisite: May be required. (See class schedule). This is a lecture/discussion type course developed on a particular limited problem or topic of interest to students. It is designed for able students who wish to increase their knowledge of a particular topic concerning which no other regular class is offered. A paper or group activity may be requested. Credit may range from ½ unit to 3 units. Consult class schedule for the offerings a particular semester.

POSC 299 C  POLITICAL SCIENCE INDEPENDENT STUDY
1 Unit (May be taken for credit 4 times)
Varying hours of scheduled conferences per week according to instructor.
UC Credit Limitation/CSU
Prerequisite: Approved Independent Study Learning Contract. Independent study is for able students who wish to extend their knowledge of a particular area through individual research and study. It is thought that topics might develop out of a curiosity stimulated in a regular class. The student would then contact the supervising instructor to develop a contract for his/her particular interest so that they could learn more regarding their special topic.

Pre-Professional Programs
Dentistry
Medicine
Optometry
Pharmacy
Physician Assistant
Physical Therapy
Veterinary Medicine

Professional programs such as dentistry, medicine, pharmacy, optometry, physician assistant, physical therapy and veterinary medicine are most often graduate programs that require a bachelor degree or significant preparation prior to entering the program. The appropriate preparation varies according to the school and specific program. Students are advised to meet with a counselor to discuss options for their bachelor degree and the lower division requirements for the program and school of their choice.

Psychiatric Technology / 269
PROGRAM OBJECTIVES
This program aims to prepare a student to meet the requirements for licensure as a Psychiatric Technician in the state of California. A Psychiatric Technician is a licensed member of the professional services team working with people who are emotionally or developmentally disabled. Employed by private and state hospitals, developmental centers, and many community facilities, Psychiatric Technicians will also find a variety of jobs available in the fields of correction and human services. These include day care centers, substance abuse programs, forensic facilities, special education and many other areas promoting mental health. There are career advancement opportunities available in the areas of counseling, education, nursing, and vending of services.

The program is accredited by, and conforms to, the regulations of the California Board of Vocational Nursing and Psychiatric Technicians. Upon successful completion of the program, graduates are eligible to take the State Board Licensure Examination.

MINIMUM STANDARDS FOR APPLICANTS
1. Graduation from high school, completion of the General Education Development (GED) test with a minimum score of 45, or passing the high school proficiency examination. Possession of an associate or higher degree satisfies this requirement.
2. Completion of ENGL 058 C/ESL 185 C or a comparable course with a grade of "C" or better, or submission of test scores that indicate eligibility for ENGL 060 C/ESL 186 C.

APPLICATION PROCEDURES
1. Meet with a counselor to determine fulfillment of the English requirement.
2. Complete the Psychiatric Technician program application, which may be obtained from the Health Science Counseling office, the Health Science Division office, or the director of the Psychiatric Technician Program
3. Attach supporting documentation. This includes copy of high school diploma, GED, or college degree; proof of meeting the English requirement; transcripts of academic work completed at other schools, and proof of work in progress (progress note from instructor).

SELECTION CRITERIA
1. Twenty-four (24) students are selected for admission each semester. The program begins in the fall and spring of each year. The number of applicants usually exceeds available seats.
2. Applicants who meet the minimum standards will be assigned points based on required non-clinical courses completed or in progress. Points will only be assigned when supported by appropriate documentation.
3. Selection criteria is subject to change. See a Health Science Counselor for current selection criteria.
4. Upon selection for the program but prior to the start of classes, the candidate will be required to obtain a physical examination and required immunizations.
5. Students selected for admission to the program must obtain a professional provider level cardiopulmonary resuscitation (CPR) card prior to attending clinical training and must maintain current certification throughout the program.

ASSOCIATE IN SCIENCE DEGREE
PSYCHIATRIC TECHNOLOGY
While the state of California does not require an Associate Degree for licensure as a Psychiatric Technician, the student may elect to earn one. To receive an Associate in Science Degree, the student must complete all Psychiatric Technician course requirements with a minimum grade of "C". At least 50% of the Psychiatric Technician course requirements must be completed at Cypress College. A minimum of 19 additional General Education/Graduation Requirements must be earned with an overall GPA of 2.0.

To earn an Associate Degree students must complete:
(1) all major course requirements with a minimum grade of "C";
(2) 25 units of General Education Graduation Requirements;
(3) the cultural pluralism and reading requirements;
(4) any elective courses to complete a minimum of 60 units; and,
(5) have a minimum GPA of 2.0. At least 50% of all major course work must be completed at Cypress College.

Required courses are listed in suggested sequence:
Note: A current "C" cardiopulmonary resuscitation (CPR) certification must be maintained by all students admitted to the program.

*Courses may be taken without official acceptance into the program. All other required courses must be taken after official acceptance.

All general education units may be taken prior to enrollment in the program or at the completion of the course work required by the BVNPT for licensure eligibility.
PSYCHIATRIC TECHNOLOGY CERTIFICATE

This program aims to prepare a student to meet the requirements for licensure as a Psychiatric Technician in the state of California. A Psychiatric Technician is a licensed member of the professional services team working with people who are emotionally or developmentally disabled. Historically employed by private and state hospitals, developmental centers, and many community facilities, Psychiatric Technicians will increasingly find a variety of jobs available in the fields of corrections and human services. These include day care centers, substance abuse programs, forensic facilities, special education and many other areas promoting mental health. The program is accredited by and conforms to the regulations of the California Board of Vocational Nurses and Psychiatric Technicians. Upon successful completion of the program, graduates are eligible to take the State Board Licensure Examination.

To earn a certificate, complete the required courses with a minimum grade of “C”. At least 50% of all course work must be completed at Cypress College. Upon completion of the 51 units of required course work, the student becomes eligible to apply to the BVNPT for licensure examination.

Prerequisite Courses:

---

**Psychiatric Technology (PT)**

**PT 085 C PSYCHIATRIC TECHNICIAN - WORK EXPERIENCE**

1 - 4 Units (Variable Unit Class) (May be taken for credit 4 times)

One hour lecture and
Five hours (minimum) related employment per week.
Credit/No Credit/Letter Grade Option

Prerequisite: Concurrent enrollment in Psychiatric Technician Program. This course provides practical work experience for students caring for individuals with developmental disabilities in community settings.

**PT 092 C INTRODUCTION TO DEVELOPMENTAL DISABILITIES I**

7 Units

Four and one-half hours lecture and
Nine hours laboratory per week.

Prerequisite: PT 091 C. This course explores the philosophy and principles directing the delivery of care and service to individuals with developmental disabilities residing in California. It offers clinical experiences in a variety of settings and prepares students for the safe administration of medications to patients/clients. Students learn how to teach self-help and independent living skills to individuals with developmental disabilities. $3.00 Laboratory Fee – PAYABLE AT REGISTRATION.

**PT 093 C CARE AND TREATMENT OF THE INDIVIDUALS WITH DEVELOPMENTAL DISABILITIES**

6¼ Units

Three and one-half hours lecture and
Nine hours laboratory per week.

Prerequisite: PT 091 C, PT 092 C. This course includes the study of the causative factors of developmental disabilities, the medical and physical treatment modalities, the prevention of developmental disabilities, human developmental deviations, as well as pharmacological interventions and special dietary needs. The behavior modification segment stresses the theory and application of behavioral techniques advocating only the presentation and removal of positive reinforcement.

**PT 094 C MENTAL DISABILITIES LEVEL I**

6¼ Units

Three and one-half hours lecture and
Nine hours laboratory per week.

Prerequisite: PT 091 C. This course is designed to assist the student in caring for the mentally disabled client at the tertiary level of intervention. Emphasis is placed on assessment and intervention of the chronically hospitalized individual. $3.00 Laboratory Fee – PAYABLE AT REGISTRATION.

**PT 095 C NURSING SCIENCE FOR PSYCHIATRIC TECHNICIANS**

8 Units

Five hours lecture and
Nine hours laboratory per week.

Prerequisite: BIOL 160 C, PT 091 C. This course explores the disease process of medical/surgical conditions relative to etiology, pathology, and treatment modalities. The therapeutic use of medication, the principles of nutrition, and the application of the nursing process are presented in classroom instruction and implemented in clinical practice.

**PT 096 C MENTAL DISABILITIES LEVEL II**

6¼ Units

Three and one-half hours lecture and
Nine hours laboratory per week.

Prerequisite: PT 091 C, PT 094 C. This course prepares the student to intervene at the primary and secondary level of treatment in the care of individuals with mental disabilities. Primary interventions include prevention of mental disabilities through the education of individuals at risk, while secondary interventions are aimed at identified clients during periods of increased stress. $3.00 Laboratory Fee – PAYABLE AT REGISTRATION.
PT 110 C  NURSING SCIENCE I  
7 Units  
Four and one half hours lecture and  
Seven and one half hours laboratory per week.  
CSU  
Prerequisite: Acceptance into the Psychiatric Technology Program. This course presents fundamental concepts and scientific principles of nursing care. It begins to prepare students for the safe administration of medications by introducing them to the modern systems of measurement. Principles discussed in lecture will be applied in the clinical setting.

PT 115 C  NURSING SCIENCE II  
7 Units  
Four and one half hours lecture and  
Seven and one half hours laboratory per week.  
CSU  
Prerequisite: PT 110 C. This course explores the disease process of medical/surgical conditions relative to etiology, pathology, and treatment modalities. The therapeutic use of medication, the principles of nutrition, and the application of the nursing process are presented in classroom instruction and implemented in clinical practice.

PT 120 C  DEVELOPMENTAL DISABILITIES I  
7 ½ Units  
Four and one half hours lecture and  
Nine hours laboratory per week.  
CSU  
Prerequisite: PT 115 C and PSY 139 C. This course explores the philosophy and principles directing the delivery of care and service to persons with developmental disabilities residing in California. Students learn how to teach self-help and independent living skills to persons with developmental disabilities.

PT 125 C  DEVELOPMENTAL DISABILITIES II  
6 ¼ Units  
Three hours lecture and  
Ten and one half hours laboratory per week.  
CSU  
Prerequisite: PT 120 C. This course focuses on the cause and treatment of developmental disabilities. The theory and application of behavioral techniques advocating only the presentation and removal of positive reinforcement is presented. Pharmacological interventions and special dietary needs are also covered.

PT 130 C  MENTAL DISABILITIES I  
6 ½ Units  
Three hours lecture and  
Ten and one half hours laboratory per week.  
CSU  
Prerequisite: PT 125 C. This course is designed to assist the student in caring for the mentally disabled client at the tertiary level of intervention. Emphasis is placed on assessment and intervention of the chronically hospitalized individual.

PT 135 C  MENTAL DISABILITIES II  
7 ½ Units  
Four and one half hours lecture and  
Nine hours laboratory per week.  
CSU  
Prerequisite: PT 130 C. This course prepares the student to intervene at the primary and secondary levels of treatment in the care of individuals with mental disabilities. Primary interventions include prevention of mental disabilities through the education of individuals at risk, while secondary interventions are aimed at identified clients during periods of increased stress.

PSYCHOLOGY TRANSFER PROGRAM  
CALIFORNIA STATE UNIVERSITY, FULLERTON  
Students should consult a counselor or www.assist.org for lower division major requirements for most California public universities. (See the Standard Definitions section of the catalog for a description of ASSIST.) Students transferring to an independent college/university should consult the catalog of the individual school and a counselor for lower division major requirements.

Psychology (PSY)  
PSY 101 C  GENERAL PSYCHOLOGY  
3 Units  
Three hours lecture per week.  
UC/CSU, AA GE, CSU GE, IGETC, CAN PSY 2  
Prerequisite: Eligibility for ENGL 100 C. This course is a scientific consideration of the psychological foundations of behavior. It will investigate psychological development, motivation, sensation, perception, learning, thinking, language, psychological measurement, and principles of mental illness and mental health.
PSY 110 C  INTRODUCTION TO APPLIED PSYCHOLOGY  
3 Units  
Three hours lecture per week.  
CSU, CSU GE  
This course applies the essentials of psychology to development and learning, motivation, social influences, mental health, and personal life planning. It may not be substituted for PSY 101 C or PSY 202 C in completing a year of psychology for the transfer major.

PSY 120 C  HUMAN SEXUALITY  
3 Units  
(Same as SOC 120 C)  
Three hours lecture per week.  
Credit/No Credit/Letter Grade Option  
UC/CSU, CSU GE, IGETC  
Prerequisite: Eligibility for ENGL 060 C. This course is an overview of the psychological, sociological and psychobiological aspects of human sexuality. The course takes an interdisciplinary approach dealing with the entire area of human sexual behavior viewed in the context of the total integrated personality.

PSY 130 C  PSYCHOLOGY OF ASSERTION  
3 Units  
Three hours lecture per week.  
Credit/No Credit/Letter Grade Option  
CSU  
This course teaches the discrimination between assertive, nonassertive, aggressive, verbal and nonverbal behaviors; identifies the concept of personal rights; examines the relationship between thinking, feeling and acting (cognitive restructuring); provides an opportunity for direct application of assertion theories through structured practice (behavior rehearsal); demonstrates the relationship between principles of assertion and other behavioristic philosophies. The emphasis will include developing and exploring assertive options within one’s sex role, work role, student role, parent/child role, marital role and friendship role.

PSY 139 C  DEVELOPMENTAL PSYCHOLOGY  
3 Units  
Three hours lecture per week.  
Credit/No Credit/Letter Grade Option  
UC/CSU, CSU GE, IGETC  
This is a study of emotional, intellectual, social and physical growth patterns from conception to death. It emphasizes an integrated approach to each life phase. It also examines the influence of heredity and environment in the life span. The study also includes applicable theories of development.

PSY 140 C  DEVELOPMENTAL PSYCHOLOGY - PRE-ADULT  
3 Units  
Three hours lecture per week.  
CSU  
This course in developmental psychology is limited to infancy, childhood and adolescence. Materials from a variety of sources have been selected for this multi-media approach.

PSY 161 C  PROBABILITY & STATS-SOCIAL SCI.  
4 Units  
(Same as SOC 161 C)  
Four hours lecture per week.  
UC Credit Limitation/CSU, AA GE, CSU GE, IGETC, CAN PSY 6  
Prerequisite: Math 040 C or 2 years of high school Algebra with grades of “C” or better. This course provides an introduction to fundamental statistical concepts relevant to the social sciences but applicable to all disciplines. A conceptual approach is used to introduce students to topics of descriptive and inferential statistics including sampling, probability, central tendency, variability, correlation, regression, point estimation, interval estimation, and hypothesis testing. Also introduced are non-parametric statistics, such as chi-square, and parametric statistics, such as t-tests and ANOVA. Computers and calculators will be utilized. The use of current statistical software is emphasized. Data sets and problems will be from psychology, sociology, anthropology, economics, geography, and political science. This course is open to all students who meet the prerequisite, and it is required for psychology majors. This course is strongly recommended for all social science majors. Students who receive credit for this course may not receive credit for MATH 120 C.

PSY 162 C  COMPUTER APPLICATIONS OF BEHAVIORAL STATISTICS  
1 Unit  
(Same as SOC 162 C)  
One hour lecture per week.  
CSU  
Prerequisite: Concurrent enrollment in, or satisfactory completion of, MATH 120 C or PSY 161 C, with a grade of “C” or better. This course introduces students to the use of computer programs used for statistical analysis and handling of data gathered in the social sciences, business, life sciences and the physical sciences. Students will use computer applications relevant to current trends in academic and private sectors. The access of online statistical information and sources of data on will also be examined.

PSY 202 C  RESEARCH METHODS IN PSYCHOLOGY  
4 Units  
Three hours lecture  
Two hours laboratory and  
One hour problem solving/quiz per week.  
UC/CSU, IGETC, CAN PSY 8  
Prerequisite: PSY 101 C and PSY 161 C. This course encompasses the technical aspects of designing and implementing research in the cognitive and behavioral sciences. Concepts of experimental methods are presented so that there is the appropriate application of the scientific method to psychological research. The use of current technology in the acquisition, processing, and analysis of data is integrated into the theoretical and conceptual aspects of the research process. Emphasis is placed on proper communication and presentation of completed research.
PSY 212 C UNDERSTANDING CHILDHOOD TRAUMA AND THE EFFECTS OF ABUSE
3 Units
Three hours lecture per week.
CSU
This course examines the causes of child abuse and traumatization, the effects of trauma, and commonly accepted ways to assist children of trauma. Trauma includes the effects of abuse, neglect, witnessing, and experiencing extraordinary events. Legal and foster care issues will also be investigated.

PSY 215 C PARENTING SKILLS
3 Units
(Same as SOC 215 C)
Three hours lecture per week.
CSU
This course is designed to build realistic expectations in parenting, acquire parenting skills and deal constructively with varied aspects of childrearing. A special emphasis will be placed on reviewing contemporary discipline and guidance techniques and on exploring resources available in the community for parenting. The course includes developmental states from birth through adulthood.

PSY 217 C PARENTING THE OPPOSITIONAL AND DEFIANT CHILD, AGE 2-13
1 Unit
(Same as SOC 217 C)
One hour lecture per week.
Credit/No Credit/Letter Grade Option
CSU
This course is designed for natural or foster parents who have children 2 to 13 years of age who exhibit oppositional, willful, disobedient and defiant behavior. Empirically proven techniques to manage this behavior will be taught using the University of Massachusetts Program.

PSY 218 C PARENTING THE ABUSED AND TRAUMATIZED CHILD/adolescent
¼ Unit
(Same as SOC 218 C)
One-half hour lecture per week.
Credit/No Credit/Letter Grade Option
CSU
This is a parenting course for foster parents and other adult caregivers of abused children. The causes, symptoms, treatment modalities and parenting techniques needed to parent these children will be examined.

PSY 219 C PARENTING THE CHILD/adolescent WITH ATTENTION DEFICIT HYPERACTIVITY DISORDER
¼ Unit
(Same as SOC 219 C)
One-half hour lecture per week.
Credit/No Credit/Letter Grade Option
CSU
This course is a practical introduction in the causes and professional interventions for Attention Deficit Hyperactivity Disorder "ADHD". A major emphasis will be on treatment techniques parents can use to assist a child or adolescent with attention deficit hyperactivity disorder. Home, medical, school and social-psychological interventions will be presented.

PSY 221 C THE BRAIN AND BEHAVIOR
3 Units
Three hours lecture per week.
UC/CSU, IGEC
Prerequisite: PSY 101 C with a grade of "C" or better. This course examines the neurophysiological processes associated with behavior and mental processes. Emphasis is placed on the structure and function of the brain and other central nervous system structures. Related processes such as the autonomic nervous system, the endocrine system and the immune system are also studied. Specific topics studied in the context of the brain include learning, sensation, perception, emotion, motivation, cognition, memory, stress, psychological disorders, and brain dysfunction.

PSY 222 C ABNORMAL PSYCHOLOGY
3 Units
Three hours lecture per week.
UC/CSU, CSU GE, IGEC
Prerequisite: PSY 101 C with a grade of "C" or better. This course considers and explores problems of adjustment ranging from mild social and personal stress (life-change), to profound personal disorganization and disintegration, over against a backdrop (within the context of) health, wellness, and the process of individual well-being. The course incorporates theories of maladaptation and the specific types of treatment, with attention given to resources available to individuals in need of medical and psychological aid.

PSY 233 C PSYCHOLOGY OF ADJUSTMENT
3 Units
Three hours lecture per week.
CSU, CSU GE
This course is an intensive inquiry into the self, with emphasis on self-understanding, interpersonal communication, and development of personality dealing with problems and circumstances encountered in adult living. The goal of the course is integration of recognized principles of psychology into everyday life.

PSY 237 C CROSS-CULTURAL CONFLICTS IN INTERPERSONAL RELATIONSHIPS
3 Units
(Same as SOC 237 C)
Three hours lecture per week.
UC/CSU, CSU GE, IGEC, CUL PL
This course is an introduction to the psychological factors involved in cross-cultural differences including ethnic and racial differences. It explores personal processes and individual conflicts as people from differing ethnic backgrounds interact in personal and work relationships, as immigrants, in international business, or as tourists. Varying customs, social patterns and family dynamics of major local cultural groups will be discussed within this context. Methods of conflict resolution will be emphasized. Eligibility for ENGL 100 C recommended.

PSY 240 C CHILD DEVELOPMENT & EDUCATION
3 Units
Three hours lecture per week.
CSU
This course explores the physical, cognitive, communicative/linguistic, and socio-emotional development of the child from conception through adolescence across diverse cultures with an emphasis on the learning process. Education and teaching issues related to children are highlighted.
PSY 247 C PSYCHOBIOLOGY SEMINAR
½ - 2 Units (Variable Unit Class)
One hour lecture and
One full-day seminar
Additional hours TBA if maximum credit is desired.
UC Credit Limitation/CSU
This is a lecture/discussion approach to various topics concerning the biological basis of behavior. The course will focus on the interpretation of endocrine, neurological and anatomical systems to environmental forces. Numerous topics of general interest will be discussed such as memory, emotion, sensory processes, etc.

PSY 255 C INTRODUCTION TO GERONTOLOGY
3 Units
(Same as HUSR 255 C)
Three hours lecture per week.
UC/CSU
This course examines the biological, physiological, cognitive, developmental, and sexual aspects of the ongoing aging process. Critical life issues for elders and for those who live and work with them will be explored. These issues include physical health, mental health, health care policy, care giving, dependency, and positive aging strategies. Duplicate credit not granted for HUSR 255 C.

PSY 298 C PSYCHOLOGY TRANSFER SEMINAR
½ - 3 Units (Variable Unit Class) (May be taken 4 times for credit)
Lecture/discussion hours will vary with credit given.
UC Credit Limitation/CSU
Prerequisite: May be required. (See class schedule). This is a lecture/discussion type course developed on a particular limited problem or topic of interest to students. It is designed for able students who wish to increase their knowledge of a particular topic concerning which no other regular class is offered. A paper or group activity may be requested. Credit may range from ½ unit to 3 units. Consult class schedule for the offerings a particular semester.

PSY 299 C PSYCHOLOGY INDEPENDENT STUDY
1 Unit (May be taken for credit 3 times)
Varying hours of scheduled conferences per week according to instructor.
UC Credit Limitation/CSU
Prerequisite. Approved Independent Study Learning Contract. Independent study is for able students who wish to extend their knowledge of a particular area through individual research and study. It is thought that topics might develop out of a curiosity stimulated in a regular class. The student would then contact the supervising instructor to develop a contract for his/her particular interest so that they could learn more regarding their special topic.

ASSOCIATE IN SCIENCE DEGREE
RADIOLOGIC TECHNOLOGY

PROGRAM MISSION STATEMENT
The philosophy of the Department of Radiologic Technology recognizes the individual as a whole person who moves toward goals of self realization and fulfillment. The student is self directed, active, positive, and is responsible for his/her own actions as well as the consequences of the actions. The Department of Radiologic Technology will provide the following:

1. Occupational training in radiologic technology science: The purpose of this instruction is to qualify the student for examination by the: American Registry of Radiologic Technologists and the California Department of Health Services. The program will prepare the student for gainful employment in radiologic technology.

2. Students will be evaluated on knowledge, affective, and psychomotor domains to include critical thinking and problem solving. Measurable objective tests and clinical observation for competency will be utilized to determine student progress. Role playing and simulation will enhance the student’s learning of radiographic positioning and image formation to include radiation protection for both the student and the patient. Students will follow the master plan of education which is listed in the college catalog. Radiology students must complete the general education requirements, for the Associate Degree, prior to the completion of the program OR have appropriate transcripts which indicate an Associate Degree, or Undergraduate Degree, and/or Graduate Degree.

3. Clinical experience for the radiologic technology student is in a contracted affiliated medical center under direct and/or immediate supervision. Refer to the Clinical supervision Policy in the Department Student Policy Manual.

4. During clinical experience the student will be evaluated on: a) critical thinking skills which identify the ability to make valid decisions in a clinical setting; and b) problem solving skills which include case studies listing procedure goals, observations, options and consequences.

5. The program faculty will survey completers of the radiologic technology program to determine quantitative and qualitative outcomes which will facilitate program improvement.
To earn an Associate Degree students must complete: (1) all major course requirements with a minimum grade of "C"; (2) 25 units of General Education Graduation Requirements; (3) the cultural pluralism and reading requirements; (4) any elective courses to complete a minimum of 60 units; and, (5) have a minimum GPA of 2.0. At least 50% of all major course work must be completed at Cypress College. The student will be able to complete the radiologic technology program including the foundation courses and general education courses in six semesters and one summer session as a full time student.

After receiving the degree and after completing the clinical internship, the student will be eligible to apply for admission to the state examination and the certification examination administered by the American Registry of Radiologic Technologists (ARRT). The program in Radiography is accredited by the Joint Review Committee on Education in Radiologic Technology (JRCERT).

RADIOLOGIC TECHNOLOGY CERTIFICATE
To earn a certificate, students must have previously earned an Associate Degree and have completed all of the Cypress College Radiologic Technology Program requirements with a minimum grade of "C". At least 50% of all course work must be completed at Cypress College.

MINIMUM STANDARDS FOR APPLICANTS
1. Eligibility for admission to Cypress College.
2. High school graduation, or completion of the General Education Development (GED) test, or high school proficiency test.
3. Minimum age of 17 years.
4. Present evidence of good physical and mental health, as determined by medical examination upon admission to program and prior to enrollment.
5. Overall GPA of 2.0 in all college classes taken.
6. Must have own transportation to all affiliated hospitals.
7. Eligibility for ENGL 100 C.
8. Completion of 9 units of General Education. (See General Education requirements in catalog.)
9. Enrollment in, or completion of, program prerequisites.

APPLICATION PROCEDURES
1. A separate application, in addition to the college application form, is required for admission into the Radiologic Technology program.
2. Application must be completed in person at the Health Science Counseling Office - in the month of February.
3. All documents (records, forms, transcripts) must be returned to the Health Science Counseling Office by the last school day in March.
4. It is the applicant’s responsibility to verify that evidence of criteria is on file.

SELECTION PROCEDURES
Applications normally exceed capacity. Selection of applicants is based on accumulation of points. (Criteria is subject to change. For information see a Health Science Counselor.)

PROGRAM PREREQUISITES
Foundation courses are required prior to admission to the program. The following required courses plus a minimum of 9 general education units must be completed by the end of the spring semester with a minimum grade of "C" in each course to be considered for the fall (August) class.

To earn an Associate Degree students must complete: (1) all major course requirements with a minimum grade of "C"; (2) 25 units of General Education Graduation Requirements; (3) the cultural pluralism and reading requirements; (4) any elective courses to complete a minimum of 60 units; and, (5) have a minimum GPA of 2.0. To earn an Associate Degree students must complete: (1) all major course requirements with a minimum grade of "C"; (2) 25 units of General Education Graduation Requirements; (3) the cultural pluralism and reading requirements; (4) any elective courses to complete a minimum of 60 units; and, (5) have a minimum GPA of 2.0. At least 50% of all major course work must be completed at Cypress College. The student will be able to complete the radiologic technology program including the foundation courses and general education courses in six semesters and one summer session as a full time student.

After receiving the degree and after completing the clinical internship, the student will be eligible to apply for admission to the state examination and the certification examination administered by the American Registry of Radiologic Technologists (ARRT). The program in Radiography is accredited by the Joint Review Committee on Education in Radiologic Technology (JRCERT).

RADIOLOGIC TECHNOLOGY CERTIFICATE
To earn a certificate, students must have previously earned an Associate Degree and have completed all of the Cypress College Radiologic Technology Program requirements with a minimum grade of "C". At least 50% of all course work must be completed at Cypress College.

MINIMUM STANDARDS FOR APPLICANTS
1. Eligibility for admission to Cypress College.
2. High school graduation, or completion of the General Education Development (GED) test, or high school proficiency test.
3. Minimum age of 17 years.
4. Present evidence of good physical and mental health, as determined by medical examination upon admission to program and prior to enrollment.
5. Overall GPA of 2.0 in all college classes taken.
6. Must have own transportation to all affiliated hospitals.
7. Eligibility for ENGL 100 C.
8. Completion of 9 units of General Education. (See General Education requirements in catalog.)
9. Enrollment in, or completion of, program prerequisites.

APPLICATION PROCEDURES
1. A separate application, in addition to the college application form, is required for admission into the Radiologic Technology program.
2. Application must be completed in person at the Health Science Counseling Office - in the month of February.
3. All documents (records, forms, transcripts) must be returned to the Health Science Counseling Office by the last school day in March.
4. It is the applicant’s responsibility to verify that evidence of criteria is on file.

SELECTION PROCEDURES
Applications normally exceed capacity. Selection of applicants is based on accumulation of points. (Criteria is subject to change. For information see a Health Science Counselor.)

PROGRAM PREREQUISITES
Foundation courses are required prior to admission to the program. The following required courses plus a minimum of 9 general education units must be completed by the end of the spring semester with a minimum grade of "C" in each course to be considered for the fall (August) class.

276 / Radiologic Technology
ULTRASOUND/MEDICAL SONOGRAPHY PROGRAM

PROGRAM MISSION STATEMENT

The philosophy of the Department of Radiologic Technology recognizes the individual as a whole person who moves toward goals of self realization and fulfillment. The student is self directed, active, positive, and is responsible for his/her own actions as well as the consequences of the actions. The Department of Radiologic Technology will provide the following:

1. Occupational training in Diagnostic Medical Sonography. The purpose of this instruction is to qualify the student for examination by the American Registry of Diagnostic Medical Sonography and to prepare the student for gainful employment in Diagnostic Medical Sonography.
2. Students will be evaluated on knowledge, affective, and psychomotor domains to include critical thinking and problem solving. Measurable objective tests and clinical observation for competency will be utilized to determine student progress. Role playing and simulation will enhance the student’s learning of medical sonography and image protocol to include patient care and safety. Students will follow the master plan of education which is listed in the college catalog.
3. Clinical experience for the Diagnostic Medical Sonography student is in a contracted affiliated medical center, physician office, or medical clinic under direct and immediate supervision. Refer to the Clinical Supervision Policy in the Department Student Policy Manual.
4. Combination of didactic and clinical experience will not exceed 40 (forty) hours per week and are subject to rearrangement.
5. During Clinical experience the student will be evaluated on: a) critical thinking which will identify the ability to make valid decisions in a clinical setting; and b) problem solving skills which include case studies listing procedure goals, observations, options, and consequences.
6. The program faculty will survey completers of the Diagnostic Medical Sonography program to determine quantitative and qualitative outcomes which will facilitate program improvement.

MINIMUM STANDARDS TO APPLY

1. Eligibility for admission to Cypress College.
2. High school diploma or GED test, or the high school proficiency examination.
3. Minimum age of 17 years.
4. Present evidence of good physical and mental health, as determined by medical examination upon admission to program and prior to enrollment.
5. Overall GPA of 2.0 in all college classes taken.
6. Must have own transportation to all affiliated hospitals.
7. Eligibility for ENGL 100 C.
8. See “Prerequisites and Requirements” for specific course prerequisites needed to apply.

PREREQUISITES AND REQUIREMENTS

1. The following Foundation courses must be completed by the end of the spring semester with a minimum “C” grade in each course. Any course with a grade lower than a “C” may only be repeated once.

Total Units Required 56 1/2

2. Complete Foundation courses listed above OR completion of a Joint Review Committee on Education in Radiologic Technology approved program in Radiologic Technology and currently registered by the American Registry of Radiologic Technologists.
APPLICATION AND SELECTION PROCEDURE
1. A separate application, in addition to the college application, is required for admission into the Ultrasound/Medical Sonography Program.
2. Application must be completed in person at the Health Science Counseling Office in the month of February.
3. All documents (GED and/or high school and college transcripts) must be returned to the Health Science Counseling Office by the last school day in March.
4. Copies of ARRT Registry, CRT Licensure and Certificate of Completion from AMA approved Radiologic Technology program must be attached with application in place of college transcript.
5. Practical Radiologic Technology years of experience must be verified by completion of the work experience form by the employer.
6. An appointment with Health Science counselor or attendance at a program information meeting is recommended to discuss selection criteria and deadlines for application process. Selection criteria will award points to practical and formal radiologic technology experience as well as grade point average in program prerequisites. Selection criteria is subject to change.
7. Class enrollment is based on the number of approved clinical education centers available. Student capacity is also determined by the Joint Review Commission in Education in Diagnostic Medical Sonographers.

*May be taken prior to enrollment in the program

Radiologic Technology (RADT)

RADT 055 C  RADIOGRAPHY ASSISTANT/DARKROOM TECHNICIAN
2 Units
Two hours lecture per week.
Credit/No Credit/Letter Grade Option
This course is designed for the student who desires an entry level job as radiology assistant and/or darkroom technician. The course is a lecture/demonstration class that teaches aseptic technique and darkroom procedures used by Radiology Department personnel in hospitals, physicians’ private offices and clinics. The student gains the knowledge needed to process radiographic film. Film, filmholders and intensifying screens are discussed. Patient lifting and transportation procedures required of a Radiology Assistant are demonstrated. Students are required to obtain CPR certification for this class.

RADT 060 C  INTRODUCTION TO FUNDAMENTAL MEDICAL SONOGRAPHIC THEORY
2 Units
One and one half hours lecture and
One and one half hours laboratory per week.
NON-DEGREE CREDIT
Credit/No Credit
This course is designed for the student interested in pursuing the sonography program and introduces fundamental sonography theory with emphasis on definition of common ultrasound terminology and ultrasound equipment. The student will relate this basic theory to preparatory sonographic scanning techniques which will include manipulation of the sonographic transducer to determine anatomic presentation. The student will learn rudimentary operation of the sonographic machine in an affiliated hospital setting.

RADT 142 C  RADIOLOGIC ELECTRONICS
4 Units
Four hours lecture per week.
CSU
This course is designed as an introductory course for students preparing for courses in radiologic technology. Emphasis is placed on electrical topics both general and applied, since X-ray machines are electrically powered and the whole process of X-ray production is primarily an electric phenomenon. The material is concept-oriented, since the radiographer is concerned with the application of the concepts to X-ray related problems.

RADT 146 C  INTRODUCTION TO RADIOGRAPHY
4 Units
Four hours lecture per week.
CSU
This course includes history of radiology, fundamentals of darkroom procedure, X-ray film characteristics, radiographic equipment and accessories, principles of radiation protection, physical and psychological aspects of patient care, introduction to radiologic procedures and terminology.

<tbody>
<tr>
<td>RADT 148 C</td>
<td>RADIOLOGIC TECHNOLOGY</td>
<td>4</td>
<td>Three hours lecture and</td>
<td>Three hours laboratory per week. CSU</td>
<td><strong>Prerequisite:</strong> Admission to Radiologic Technology Program. This course offers a study of the principles of radiographic exposure, geometry of radiographic image, factors influencing radiographic quality, beam restricting and attenuating devices. The course also offers a study of fluoroscopic and recording devices, radiation protection and quality assurance. $50.00 Laboratory Fee—PAYABLE AT REGISTRATION.</td>
</tr>
<tr>
<td>RADT 150 C</td>
<td>RADIOLOGIC-POSITIONING</td>
<td>5</td>
<td>Four hours lecture and</td>
<td>Three hours laboratory per week. CSU</td>
<td><strong>Prerequisite:</strong> Admission to Radiologic Technology Program. This course offers positioning nomenclature, positioning methods for the upper and lower extremities, pelvis, chest, gastrointestinal exams, practical applications of radiograph evaluation and radiation protection. $50.00 Laboratory Fee - PAYABLE AT REGISTRATION.</td>
</tr>
<tr>
<td>RADT 153 C</td>
<td>RADIOGRAPHY PATIENT CARE</td>
<td>2</td>
<td>Four hours lecture per</td>
<td>for nine weeks. CSU</td>
<td>This course is a lecture/demonstration class designed to teach aseptic techniques and special procedures used by radiology personnel. It will include demonstrations of techniques in areas such as operating rooms, isolation rooms, diagnostic and fluoroscopic radiology rooms, the nursery, ER, and ICU rooms. Students will be required to obtain CPR certification for this class.</td>
</tr>
<tr>
<td>RADT 162 C</td>
<td>RADIOLOGY SPECIAL PROCEDURES</td>
<td>3</td>
<td>Two and one-half hours</td>
<td>lecture and One and one-half hours laboratory per week. CSU</td>
<td><strong>Prerequisite:</strong> Satisfactory completion of first semester in the Radiologic Technology Program. This course provides the student with the theory and practice of basic techniques of venipuncture and the administration of contrast media. Emphasis will be placed on the types of contrast agents used for the various radiographic procedures. The student will simulate both needle insertion for contrast media injection and connect the drip infusion contrast media. Basic Pharmacology will be discussed. The student will be introduced to fundamental principles of computer technology for imaging modalities. Special imaging modalities such as: Digital Angiography; Computerized Tomography; Magnetic Resonance Imaging; Medical Sonography; Nuclear Medicine; and Radiation Therapy will be surveyed. $22.00 Laboratory Fee - PAYABLE AT REGISTRATION.</td>
</tr>
<tr>
<td>RADT 170 C</td>
<td>ULTRASOUND PHYSICS</td>
<td>1½</td>
<td>One and one-half hour</td>
<td>lecture per week. CSU</td>
<td><strong>Prerequisite:</strong> Admission into the Ultrasound/Medical Sonography Program. This course is directed toward the learning of basic concepts of mathematics and general physics, and acoustical physics as applied to diagnostic medical sonography. Emphasis is placed on concepts of reflection and scattering that are applied toward the usefulness of ultrasound as an imaging tool. Doppler physics is introduced toward the application of doppler sonographic instruments.</td>
</tr>
<tr>
<td>RADT 173 C</td>
<td>ULTRASOUND INSTRUMENTATION</td>
<td>1½</td>
<td>One and one-half hour</td>
<td>lecture per week. CSU</td>
<td><strong>Prerequisite:</strong> Admission into the Ultrasound/Medical Sonography Program. This course will provide lecture and demonstrations covering the areas of ultrasonic propagation principles, transducer, parameters, interactive properties of ultrasound with human tissues, possible biological effects, basic types of equipment, instrumentation, and quality control. Students will learn quality assurance technique.</td>
</tr>
<tr>
<td>RADT 175 C</td>
<td>ULTRASOUND ABDOMINAL SCANNING</td>
<td>3</td>
<td>Two and one-half hours</td>
<td>lecture and One and one-half hour laboratory per week. CSU</td>
<td><strong>Prerequisite:</strong> Admission into the Ultrasound/Medical Sonography Program. Ultrasound abdominal scanning is a study of the clinical applications of abdominal sonography. It will include abdominal vasculature; lymphatic and retroperitoneal systems; liver and intrahepatic biliary systems; gallbladder and extrahepatic biliary systems; pancreas; spleen; kidneys; and adrenal glands. Interpretation of clinical laboratory tests, related clinical signs and symptoms, and normal and abnormal sonographic patterns will be discussed. This course includes a laboratory section on basic scanning techniques and protocol.</td>
</tr>
<tr>
<td>RADT 176 C</td>
<td>ABDOMINAL PATHOLOGY</td>
<td>1½</td>
<td>One and one-half hour</td>
<td>lecture per week. CSU</td>
<td><strong>Prerequisite:</strong> RADT 175 C. This course will discuss the manifestations of pathology and disease conditions and their relevance to sonographic procedures. The student will describe abdominal scanning techniques and procedures appropriate for the disease process. The course will support the student in the clinical phase of sonographic training. Sonographic technique and actual pathologic cases will be discussed.</td>
</tr>
</tbody>
</table>
RADT 186 C OBSTETRIC/GYNECOLOGY SCANNING 3 Units
Three hours lecture per week
CSU
Prerequisite: Satisfactory completion of RADT 170 C, RADT 173 C, RADT 175 C, RADT 207 C, and RADT 262 C with a grade of "C" or better. Obstetric/Gynecology Scanning is a study of the clinical applications within the sonographic specialties of obstetric/gynecology, which include: female reproductive system, the indications for gynecology scanning, sonographic depiction of embryo and fetal anatomy and abnormalities, maternal anatomy and complications, and gynecological sonography to include abnormalities and pathology. Topics of discussion include related clinical symptoms and laboratory tests. This course includes a demonstration section on basic scanning techniques and protocol.

RADT 196 C RADIOGRAPHY-SELECTED TOPICS 1 - 2 Units (Variable Unit Class) (May be taken for credit 4 times)
Lecture hours will vary according to credit given.
Credit/No Credit/Letter Grade Option
CSU
Prerequisite: RADT 251 C. Current trends and new advances in diagnostic imaging will be selected for intensive class discussion. This course will support the student in the clinical internship phase. Radiographic technique and actual case studies will be discussed.

RADT 207 C CLINICAL EDUCATION-I 4 Units
Twenty-nine hours/week of directed practice.
CSU
Prerequisite: Admission into the Ultrasound/Medical Sonography Program. This course is offered as clinical in-service training within a department of medical sonography at selected affiliated hospital/medical center. This course will provide the basic instruction and scanning experience in abdominal sonography. The student will be able to demonstrate the ability to perform sonographic examinations of the abdomen and superficial structures according to protocol guidelines established by the program and the clinical education center utilizing real time equipment.

RADT 208 C CLINICAL EDUCATION-II 6 Units
Thirty-four hours/week of directed practice.
CSU
Prerequisite: Satisfactory completion of RADT 170 C, RADT 173 C, RADT 175 C, RADT 207 C, and RADT 262 C with a grade of "C" or better. This course is offered as clinical in-service training within a department of radiology at a selected affiliated hospital/medical center. This course will provide the basic instruction and scanning experiences in obstetrics and gynecology sonography. The student will be able to demonstrate the ability to perform sonographic examinations of the gravid and non gravid pelvis according to the protocols established by the program and clinical education center utilizing real time equipment with both transabdominal and endocavity transducers.

RADT 209 C CLINICAL EDUCATION-III 3 Units
Thirty-eight hours of clinical directed practice for ten weeks.
CSU
Prerequisite: Satisfactory completion of RADT 176 C, RADT 186 C, and RADT 208 C with a grade of "C" or better. This course is offered as clinical in-service training within a department of radiology at a selected affiliated hospital/medical center. This course will provide the basic instruction and scanning experiences in breast, thyroid, scrotum and doppler sonography. The student will be able to demonstrate the ability to perform sonographic examinations of the abdomen and superficial structures, non-cardiac chest and pelvis according to protocols established by the program and clinical education center using real time equipment.

RADT 210 C ULTRASOUND SEMINAR 1 Unit
One hour lecture per week.
CSU
Prerequisite: Satisfactory completion of RADT 176 C, RADT 186 C, and RADT 208 C with a grade of "C" or better. This course will be taught by both department staff and outside speakers and will include discussion of interesting and/or rare cases pertaining to clinical symptoms, sonographic patterns and technical pitfalls.

RADT 247 C RADIOGRAPHIC POSITIONING 5 Units
Four hours lecture and Three hours laboratory per week.
CSU
Prerequisite: Satisfactory completion of first semester Radiologic Technology Program. This course offers positioning nomenclature, positioning methods for the bony thorax, vertebral column, skull, facial bones, salivary glands, paranasal sinuses, mastoid, soft tissue and other special examinations. Pediatric radiography and a continuation of radiograph evaluation and radiation protection are also discussed. $33.00 Laboratory Fee - PAYABLE AT REGISTRATION.

RADT 250 C RADIATION LAWS AND ETHICS 3 Units
(Same as HSCE 250 C)
Three hours lecture per week.
CSU
Prerequisite: RADT 142 C, or RADT 146 C, or a limited permit in X-ray technology. This is a concise course to inform the student radiologic technologist, X-ray technician, and/or staff certified radiologic technologist and limited practitioner in State and Federal Radiation Control Regulations the legal and ethical implications involved in ionized radiation to the human organism and radiation protection policies. Laws related to radiologic technology, malpractice litigation, preventive measures, and patient rights are discussed. The course will alert the students of their legal responsibilities, rights and duties within the context of their function as a member of the radiology team.
RADT 251 C  RADIOLOGY EXTERNSHIP
4 Units
Two hours lecture
Sixteen hours supervised training per week and observation in an approved hospital.
CSU
Prerequisite: Satisfactory completion of first semester Radiologic Technology program. The class period provides an introduction to special imaging procedures and other imaging modalities.

RADT 254 C  RADIOLOGIC INTERNSHIP
6 Units
Forty hours laboratory per week.
CSU
Prerequisite: Satisfactory completion of the second semester of the Radiologic Technology Program. This course begins the twelve month continuous internship phase of the Radiologic Technology program. Students are assigned to selected clinical education centers which provide supervised clinical training with the Department of Radiology. Internship of 40 hours per week extends through intersessions and are subject to rearrangement by hospital/facility.

RADT 255 C  RADIOLOGIC INTERNSHIP
8 Units (May be taken for credit 2 times)
Forty hours laboratory per week.
CSU
Prerequisite: Satisfactory completion of RADT 254 C. This course provides for continuation of the twelve month internship phase of the Radiologic Technology program. The supervised clinical in-service training component is provided in a Department of Radiology in selected hospitals. Internship of 40 hours per week extends throughout intersessions and is subject to rearrangement by hospital/facility request. Students must meet the program competency requirements and designated hours of clinical internship for completion of the program.

RADT 260 C  FLUOROSCOPY PERMIT COURSE
3 Units
(Same as HSCE 260 C)
Two and one-half hours lecture and
One and one-half hours laboratory per week.
Credit/No Credit/Letter Grade Option
CSU
Prerequisite: Current California Certified Radiologic Technology license. This course will provide the knowledge of skills, attitudes, and competencies to operate fluoroscopy equipment efficiently and safely. Upon successful completion of the course, students will receive a certificate of completion and be eligible to qualify for the California State Technologist Fluoroscopy examination. Students must be able to verify CRT status at the first class meeting.

RADT 262 C  CROSS - SECTIONAL IMAGING
1 Unit
(Same as HSCE 262 C)
Two hours lecture per week for nine weeks.
Credit/No Credit/Letter Grade Option
CSU
This course correlates knowledge and practice of diagnostic imaging with cross-sectional anatomy of the skull, thorax, abdomen, and pelvis. Diagnostic imaging includes the ability to work with ultrasound, computerized tomography, and magnetic resonance. A knowledge of medical terminology and anatomy is recommended.

RADT 264 C  VASCULAR SONOGRAPHY TECHNOLOGY
3 Units
Three hours lecture per week.
CSU
Prerequisite: A.R.D.M.S. (American Registry of Diagnostic Medical Sonographers) Registered Medical Sonographer and/or knowledge of basic ultrasound equipment and scanning techniques. This course focuses toward learning the hemodynamic principles of normal and pathological vascular ultrasound procedures. Concepts of color and pulsed wave doppler sonography as they apply to vascular imaging will be discussed. Emphasis on vascular anatomy, physiology and pathology to include vascular scanning protocol. Basic ultrasound physics and instrumentation will be reviewed. A working knowledge of basic ultrasound equipment, scanning techniques, and familiarity with color doppler sonography is recommended. This course will prepare the student for the Registered Vascular Technology (RVT) examination.

RADT 266 C  PRINC. OF BREAST ULTRASOUND
3 Units
Three hours lecture per week.
CSU
Prerequisite: American Registry of Diagnostic Medical Sonography license and/or knowledge of basic ultrasound equipment and scanning techniques. This course will provide instruction for learning the normal and pathological appearance of breasts using ultrasound to include images that relate to mammography and MRI. Included in this course is the physiology of benign and malignant breast tumors and diagnostic procedures. The content will follow the ARDMS guidelines toward the goal of preparing the student to pass the ultrasound registry breast exam.

RADT 299 C  RADIOLOGIC TECHNOLOGY INDEPENDENT STUDY
½ - 2 Units (Variable Unit Class) (May be taken for credit 4 times)
Lecture/lab hours will vary according to credit given.
CSU
Prerequisite: Approved Independent Study Learning Contract. This course is designed for capable students enrolled in the Radiologic Technology program or options of the program who wish to increase their knowledge and experience in performance on applied areas. Students will participate in independent study on assigned areas under staff supervision.
Real Estate

Division of Business and Computer Information Systems

Division Dean – Dave Wassenaar

Counselors
Jean England
Don Tyrrell

Real Estate (RE)

RE 091 C REAL ESTATE EXAM PREPARATION
2 Units
Three hours lecture per week for twelve weeks.
Credit/No Credit/Letter Grade Option
This course is designed specifically to help non-licensees prepare for the California Real Estate Sales License Examination. The emphasis will be placed on a review of past questions and the rationale for the correct answers. The course will be directed exclusively toward the state examination and will cover only those areas stressed in past examinations.

RE 101 C REAL ESTATE PRINCIPLES
3 Units
Three hours lecture per week.
CSU
This course is an introduction to real estate principles and practices in California. The subject areas include acquisition of title, forms of ownership, real estate law and regulations, real estate contracts, appraisal, escrow, leases, landlord-tenant relationships, and land use. It is a pre-license course and a prerequisite for several real estate courses. It satisfies a requirement of the California Department of Real Estate for the Broker’s license. To qualify to take an examination for a real estate salesperson license after January 1, 1986, an applicant must have completed the college-level course Real Estate Principles.

RE 102 C LEGAL ASPECTS OF REAL ESTATE
3 Units
Three hours lecture per week.
CSU
Prerequisite: RE 101 C or current real estate license. This course is designed to interpret real estate valuation principles and methods used in establishing market value in real estate, and to develop the knowledge and skills necessary for application or interpretation of appraisal information. It includes cost, income and market approaches to value. The course meets a requirement for a real estate broker’s license, and a requirement for a newly licensed salesperson.

RE 121 C ESCROW PRINCIPLES
3 Units
Three hours lecture per week.
CSU
This course provides a case method presentation in escrow proceeding including actual processing of sales escrows. This course is one of a group of real estate courses that may be used to fulfill one of the elective courses toward a real estate broker’s license and one of the two elective salesperson’s license qualification course requirements.

RE 201 C REAL ESTATE PRACTICE
3 Units
Three hours lecture per week.
CSU
Prerequisite: RE 101 C or current real estate license. This course provides the fundamentals of conducting a real estate business. This course is one of a group of college-level courses which must be successfully completed before taking the Department of Real Estate broker’s license examination. Real Estate Practice may also be used to fulfill one of the two elective salesperson’s license qualification course requirements.

RE 202 C REAL ESTATE FINANCE
3 Units
Three hours lecture per week.
CSU
Prerequisite: RE 101 C. This course offers an applied analysis of current methods, instruments, laws, money markets, and interest rates as it pertains to the financing of real property. The course concludes with an evaluation of apparent trends for the future. It meets the California Department of Real Estate requirements for the broker’s examination.

RE 203 C RE APPRAISAL-RESIDENTIAL
3 Units
Three hours lecture per week.
CSU
Prerequisite: RE 101 C or current real estate license. This course is designed to interpret real estate valuation principles and methods used in establishing market value in real estate, and to develop the knowledge and skills necessary for application or interpretation of appraisal information. It includes cost, income and market approaches to value. The course meets a requirement for a real estate broker’s license, and a requirement for a newly licensed salesperson.

RE 204 C REAL ESTATE APPRAISAL - INCOME
3 Units
Three hours lecture per week.
CSU
Prerequisite: RE 203 C or appraisal experience. This course is a continuation of the appraisal techniques studied in RE 203 C and covers property other than the single-family residence. The income approach and capitalization techniques are emphasized. Also included is an in-depth study of discounted cash flow and the valuation of partial and leasehold interests.
RE 206 C  REAL ESTATE ECONOMICS
3 Units
Three hours lecture per week.
CSU
Prerequisite: RE 101 C or current real estate license. This course provides a study of economic trends and factors influencing real estate; i.e., real estate and business cycles. This course is one of a group of real estate courses required before taking the real estate broker’s license examination. This course may also be used to fulfill one of the two elective salesperson’s license qualification course requirements.

Recreation
Division of Physical Education and Athletics
Division Dean – Diane Henry

Faculty
Larry Beidler
Scott Pickler

Counselor
Dana Bedard

TRANSFER PROGRAM - RECREATIONAL LEADERSHIP
Students should consult a counselor or www.assist.org for lower division major requirements for most California public universities. (See the Standard Definitions section of the catalog for a description of ASSIST.) Students transferring to an independent college/university should consult the catalog of the individual school and a counselor for lower division major requirements.

Recreation (REC)
REC 100 C  INTRODUCTION TO LEISURE SERVICES/RECREATION
3 Units
Three hours lecture per week.
CSU, CAN REC 2
This course is the foundation for an introduction to the broad field of recreation and leisure services. The class will include the relationship of recreation to the individual and society.

REC 101 C  PRINCIPLES OF COMMUNITY RECREATION
3 Units
Three hours lecture per week.
CSU
This course is an introduction to a variety of recreational activities suitable for a community recreation program. The class will study the various agencies and institutions that provide opportunities for community recreation. The class will emphasize interrelationships of these agencies.

REC 102 C  RECREATION LEADERSHIP
2 Units
Two hours lecture and
Two hours laboratory per week.
CSU
This course will provide the theory and activity in teaching leadership in playground and recreational activities. The class will identify methods, techniques, planning procedures, organizing techniques, along with the evaluation of these procedures and techniques.

REC 103 C  ORGANIZATION OF FALL SPORTS ACTIVITIES IN RECREATION
2 Units
One hour lecture and
Two hours laboratory per week.
CSU
This course is a survey of basic terminology and skills of fall sports. The basic techniques of teaching, organizing, and promoting interest in individual and team fall sports are included. Students will be involved in organizing and promoting the college intramural sports program.

REC 104 C  ORGANIZATION OF SPRING SPORTS ACTIVITIES IN RECREATION
2 Units
One hour lecture and
Two hours laboratory per week.
CSU
This course is a survey of basic terminology and skills of spring sports. The basic techniques of teaching, organizing, and promoting interest in individual and team spring sports are included. Students will be involved in organizing and promoting the college intramural sports program.

REC 106 C  OUTDOOR RECREATION - CAMP COUNSELING
3 Units
Three hours lecture per week.
CSU
This course will emphasize the history, development and trends of organized camping and other outdoor recreation skills. The class will include leadership training in camp counseling with special emphasis on practical skills in camping, fire building, outdoor cooking, tenting, and camp crafts. This class is recommended for recreation majors and students interested in outdoor recreation.

REC 107 C  RECREATION FOR SPECIAL GROUPS
3 Units
Three hours lecture per week.
CSU
This class is an introduction to the relationship of recreation and special groups (i.e., teenagers, senior citizens, and the disabled). The course will emphasize social development and how to integrate special groups into recreation programs with adoption of all forms of recreation for use by these groups.

SOC 295 C RESEARCH METHODS IN ORAL HISTORY
2 Units
(Same as Hist 295 C)
One hour lecture and
Three hours laboratory per week.
CSU
This course introduces students to the special techniques of tape-recorded interviews to document 20th century history. Areas of study will include interviewing techniques, historical editing and transcripts of interviews. This course does not satisfy General Education requirements in Social Science.

SOSC 298 C SOCIAL SCIENCE SEMINAR
½ - 3 Units (Variable Unit Class) (May be taken for credit 4 times)
Lecture/discussion hours will vary with credit given.
UC Credit Limitation/CSU
Prerequisite: May be required. (See class schedule). This is a lecture/discussion type course developed on a particular limited problem or topic of interest to students. It is designed for able students who wish to increase their knowledge of a particular topic concerning which no other regular class is offered. A paper or group activity may be requested. Credit may range from ½ unit to 3 units. Consult class schedule for the offerings a particular semester.

SOSC 299 C SOCIAL SCIENCE INDEPENDENT STUDY
½ - 2 Units (Variable Unit Class) (May be taken for credit 3 times)
Two hours scheduled conference per week for maximum credit.
UC Credit Limitation/CSU
Prerequisite: Approved Independent Study Learning Contract. Independent study is for able students who wish to extend their knowledge of a particular area through individual research and study. It is thought that topics might develop out of a curiosity stimulated in a regular class. The student would then contact the supervising instructor to develop a contract for his/her particular interest so that they could learn more regarding their special topic.

Students transferring to an independent college/university should consult the catalog of the individual school and a counselor for lower division major requirements.
Sociology (SOC)

SOC 101 C  INTRODUCTION TO SOCIOLOGY
3 Units
Three hours lecture per week.
Credit by Examination
UC/CSU, AA GE, CSU GE, IGETC, CAN SOC 2
Prerequisite: Eligibility for ENGL 100 C. This course is an introduction to sociology through the study of cultural origins, personality development, social interaction, community organization, collective behavior, institutional growth, social change, and social movements.

SOC 102 C  SOCIAL PROBLEMS
3 Units
Three hours lecture per week.
UC/CSU, IGETC, CAN SOC 4
Prerequisite: SOC 101 C. This course is an introduction to sociology through the study of selected contemporary social problems in American society. It includes problems of race, poverty, sex inequality, aging, drug abuse, and education. Alternative approaches to the resolution of these problems and identification of institutions and organizations involved in their resolution are emphasized.

SOC 120 C  HUMAN SEXUALITY
3 Units
(Same as PSY 120 C)
Three hours lecture per week.
Credit/No Credit/Letter Grade Option
UC/CSU, CSU GE, IGETC
Prerequisite: Eligibility for ENGL 060 C. This course is an introduction to the psychological, sociological and psychobiological aspects of human sexuality. The course takes an interdisciplinary approach dealing with the entire area of human sexual behavior viewed in the context of the total integrated personality.

SOC 161 C  PROBABILITY & STATS-SOCIAL SCI
4 Units
(Same as PSY 161 C)
Four hours lecture per week.
UC Credit Limitation/CSU, AA GE, CSU GE, IGETC
Prerequisite: MATH 040 C or two years high school algebra with grades of "C" or better. This course introduces students to topics of descriptive and inferential statistics including sampling, probability, central tendency, variability, correlation, regression, point estimation, interval estimation, and hypothesis testing. Also introduced are non-parametric statistics, such as chi-square, and parametric statistics, such as t-tests and ANOVA. Computers and calculators will be utilized. The use of current statistical software is emphasized. Data sets and problems will be from psychology, sociology, anthropology, economics, geography, and political science. This course is offered to all students who meet the prerequisite, and it is required for psychology majors. This course is strongly recommended for all social science majors. Students who receive credit for this course may not receive credit for MATH 120 C.

SOC 162 C  COMPUTER APPLICATIONS OF BEHAVIORAL STATISTICS
1 Unit
(Same as PSY 162 C)
One hour lecture per week.
CSU
Prerequisite: Concurrent enrollment in, or satisfactory completion of, MATH 120 C or PSY 161 C, with a grade of "C" or better. This course introduces students to the use of computer programs used for statistical analysis and handling of data gathered in the social sciences, life sciences, and physical sciences. Students will use computer applications relevant to current trends in academic and private sectors. The access of online statistical information and sources of data is also examined.

SOC 211 C  MEDICAL SOCIOLOGY
3 Units
Three hours lecture per week.
CSU
This course will examine Holistic Health/Wellness, stress and its relationship to disease, alternative health care modalities and the future of medicine. It is designed to provide an overview of social and cultural aspects of health and disease as well as societal efforts to cope with rising costs and demographic changes.

SOC 215 C  PARENTING SKILLS
3 Units
(Same as PSY 215 C)
Three hours lecture per week.
CSU
This course is designed to build realistic expectations in parenting, acquire parenting skills and deal constructively with varied aspects of childrearing. A special emphasis will be placed on reviewing contemporary discipline and guidance techniques and on exploring resources available in the community for parenting. The course includes developmental states from birth through adulthood.

SOC 217 C  PARENTING THE OPPOSITIONAL AND DEFIANT CHILD, AGE 2-13
1 Unit
(Same as PSY 217 C)
One hour lecture per week.
Credit/No Credit/Letter Grade Option
CSU
This course is designed for natural or foster parents who have children 2 to 13 years of age who exhibit oppositional, willful, disobedient and defiant behavior. Empirically proven techniques to manage this behavior will be taught using the University of Massachusetts Program.

SOC 218 C  PARENTING THE ABUSED AND TRAUMATIZED CHILD/ADOLESCENT
½ Unit
(Same as PSY 218 C)
One-half hour lecture per week.
Credit/No Credit/Letter Grade Option
CSU
This is a parenting course for foster parents and other adult caregivers of abused children. The causes, symptoms, treatment modalities and parenting techniques needed to parent these children will be examined.

Sociology / 285
SOC 219 C PARENTING THE CHILD/adolescent With Attention Deficit Hyperactivity Disorder
½ Unit
(Same as PSY 219 C)
One-half hour lecture per week.
Credit/No Credit/Letter Grade Option
CSU
This course is a practical introduction in the causes and professional interventions for Attention Deficit Hyperactivity Disorder “ADHD”. A major emphasis will be on treatment techniques parents can use to assist a child or adolescent with attention deficit hyperactivity disorder. Home, medical, school and social-psychological interventions will be presented.

SOC 225 C SOCIOLOGY OF WOMEN
3 Units
Three hours lecture per week.
UC/CSU, CSU GE, IGETC
This course covers an identification and analysis of the status of women in American society. It will emphasize a survey of the cultural, social, psychological and economic history of women. Contemporary issues and their relation to the role definition of women today.

SOC 235 C THE CIVIL RIGHTS MOVEMENT
3 Units
(Same as ETHS 235 C)
Three hours lecture per week.
UC/CSU, CSU GE, CUL PL
This course will explore the principal factors that gave rise to the Civil Rights Movement of the 1950s and 1960s. Sociological models of collective behavior and social movements are utilized to analyze social structures, existing conditions, leadership, goals and tactics, organization, successes and failures and long term results of the Movement.

SOC 237 C CROSS-CULTURAL CONFLICTS IN INTERPERSONAL RELATIONSHIPS
3 Units
(Same as PSY 237 C)
Three hours lecture per week.
UC/CSU, CSU GE, IGETC, CUL PL
This course is an introduction to the psychological factors involved in cross-cultural differences including ethnic and racial differences. It explores personal processes and individual conflicts of people from differing United States ethnic backgrounds interacting in personal and work relationships, as immigrants, in international business, or as tourists. Varying customs, social patterns and family dynamics of major local cultural groups will be discussed within this context. Methods of conflict resolution will be emphasized. Eligibility for ENGL 100 C recommended.

SOC 250 C SOCIOLOGY OF AGING
3 Units
(Same as HUSR 250 C)
Three hours lecture per week.
CSU
This course explores the concept of aging and sociological/cultural theories of aging. The gender, cross-cultural, economic, political and social policy aspects of aging in society and the world are examined. Critical life issues for elders and for those who live and work with them are explored. These issues include empowerment, care giving, social support, living arrangements, elder abuse, work, retirement, quality of life and death and dying. Duplicate credit not granted for HUSR 250 C.

SOC 275 C MARRIAGE AND FAMILY
3 Units
Three hours lecture per week.
Credit/No Credit/Letter Grade Option
CSU, AA GE
This course is a study of the psychological and biological factors involved in family relationships, courtship, marital adjustments and parenthood.

SOC 292 C INTRODUCTION TO CRIMINOLOGY
3 Units
(Same as HUSR 292 C)
Three hours lecture per week.
CSU
This course presents a scientific analysis of the nature, extent, and causes of violations of societal rules of behavior that are formally defined as crime and delinquency. The course includes an analysis of the theoretical perspectives that led to the development of criminal law and the administration of criminal justice, the patterns of criminality and delinquency, the impact of crime on social change, and the labeling, identification, characteristics, and the treatment of criminals and delinquents.

SOC 298 C SOCIOLOGY SEMINAR
½ - 3 Units (Variable Unit Class) (May be taken for credit 4 times)
Lecture/discussion hours will vary with credit given.
UC Credit Limitation/CSU
Prerequisite: May be required. (See class schedule). This is a lecture/discussion type course developed on a particular limited problem or topic of interest to students. It is designed for able students who wish to increase their knowledge of a particular topic concerning which no other regular class is offered. A paper or group activity may be requested. Credit may range from ½ unit to 3 units. Consult class schedule for the offerings a particular semester.
SOC 299 C  SOCIOMETRY INDEPENDENT STUDY
1 Unit (May be taken for credit 3 times)
Varying hours of scheduled conferences per week according to instructor.
UC Credit Limitation/CSU
Prerequisite: Approved Independent Study Learning Contract. Independent study is for able students who wish to extend their knowledge of a particular area through individual research and study. It is thought that topics might develop out of a curiosity stimulated in a regular class. The student would then contact the supervising instructor to develop a contract for his/her particular interest so that they could learn more regarding their special topic.

SPANISH TRANSFER PROGRAM
Students should consult a counselor or www.assist.org for lower division major requirements for most California public universities. (See the Standard Definitions section of the catalog for a description of ASSIST.) Students transferring to an independent college/university should consult the catalog of the individual school and a counselor for lower division major requirements.

SPAN 050 C  PUBLIC SERVICE SPANISH
3 Units
Three hours lecture per week.
Credit/No Credit/Letter Grade Option
This course is a basic communication course, for students who want to acquire a speaking knowledge for vocational needs in the fields of health-care, social welfare, law enforcement, hotel and restaurant industries, and business in general. Consideration also will be given to cultural topics. It is assumed that the student has no prior knowledge of the language.

SPAN 053 C  BASIC SPOKEN SPANISH
3 Units (May be taken for credit 2 times)
Three hours lecture per week.
Credit/No Credit/Letter Grade Option
This is a basic introductory course which emphasizes oral practice, pronunciation and vocabulary development. It is designed to develop a speaking and understanding knowledge of Spanish for use in everyday conversational situations. It is not open to native speakers of the language.

SPAN 098 C  SPANISH SEMINAR
1/4 - 3 Units (Variable unit class) (May be taken for credit 4 times)
One hour to three hours lecture per week.
Credit/No Credit/Letter Grade Option
This seminar is for able students who wish to extend their knowledge of literature, language and culture through small group discussion.

SPAN 101 C  ELEMENTARY SPANISH I
5 Units
Five hours lecture and
One hour laboratory TBA per week.
Credit/No Credit/Letter Grade Option
UC Credit Limitation/CSU, AA GE, CSU GE, CAN SPAN 2
The course emphasizes the acquisition of basic skills in pronunciation, listening, speaking, reading, and writing. Students will be introduced to the culture, history, and geography of Spain and Latin America through lectures, slides, films, and reading assignments. Duplicate credit not granted for SPAN 101HC.

SPAN 101HC  HONORS ELEMENTARY SPANISH I
5 Units
Five hours lecture and
One hour laboratory TBA per week.
UC Credit Limitation/CSU, AA GE, CSU GE, CAN SPAN 2
This course offers an introduction to Elementary Spanish enhanced for Honors students in a seminar type setting. Students will acquire basic skills in pronunciation, listening, speaking, reading and writing. Students will be introduced to the culture, history, and geography of Spain and Latin America through lectures, slides, films, and reading assignments. Students will create original dialogues and current event discussions. Duplicate credit not granted for SPAN 101 C.

SPAN 102 C  ELEMENTARY SPANISH II
5 Units
Five hours lecture and
One hour laboratory TBA per week.
UC Credit Limitation/CSU, AA GE, CSU GE, IGETC, CAN SPAN 4
Prerequisite: SPAN 101 C with a grade of “C” or better, or one year of high school Spanish with a grade of “C” or better is recommended. The course continues to emphasize the acquisition of basic skills in pronunciation, listening, speaking, reading, and writing. Students will increase their knowledge of the culture, history, and geography of Spain and Latin America through lectures, slides, films, and reading and writing assignments. Duplicate credit not granted for SPAN 102HC.
SPAN 102HC HONORS ELEMENTARY SPANISH II
5 Units
Five hours lecture and
One hour laboratory TBA per week.
UC Credit Limitation/CSU, AA GE, CSU GE, IGETC
Prerequisite: SPAN 101 C with a grade of "C" or better, or
one year of high school Spanish with a grade of "C" or better
is recommended. This course is a continuation of elementary
Spanish enhanced for honors students in a seminar setting.
Students will create original dialogues and participate in cur-
rent events discussions in order to increase their knowledge
of the culture, history, and geography of Spain and Latin
America. Lectures, slides, films, and reading and writing
assignments will also be used. Duplicate credit not granted
for SPAN 102 C.

SPAN 200 C CONVERSATIONAL SPANISH
2 Units (May be taken for credit 4 times)
Two hours lecture per week.
Credit/No Credit/Letter Grade Option
CSU, CSU GE
Prerequisite: SPAN 102 C. The course emphasizes extensive
practice in oral expression and listening comprehension at
intermediate and advanced levels of competency. The mate-
rials used provide a systematic practice of grammatical con-
cepts, literary analysis and cultural appreciation.

SPAN 201 C SPANISH FOR SPANISH
SPEAKERS
5 Units
Five hours lecture and
One hour laboratory TBA per week.
Credit/No Credit/Letter Grade Option
UC Credit Limitation/CSU, AA GE, CSU GE, IGETC
Prerequisite: A native or near-native speaking knowledge of
Spanish for those who have had little or no formal education
in the language. This course will offer intensive training in
oral and written Spanish for those who speak it, but have had
little or no formal training in the language. Emphasis will be
placed on improvement of oral expression, Spanish gram-
mar, readings in Hispanic literature and composition skills.
Students may not receive credit for both SPAN 101C/102C
and SPAN 201 C.

SPAN 203 C INTERMEDIATE SPANISH III
4 Units
Four hours lecture and
One hour laboratory TBA per week.
Credit/No Credit/Letter Grade Option
UC/CSU, AA GE, CSU GE, IGETC, CAN SPAN 8
Prerequisite: SPAN 102 C with a grade of "C" or better, or two
years of high school Spanish with a grade of "C" or better
is recommended. The course introduces the student to the
more formal aspects of literary analysis and cultural appreci-
ation through a selection of readings by modern Spanish and
Spanish American authors. It also provides extensive prac-
tice in oral and written expression and a thorough review of
grammatical concepts.

SPAN 204 C INTERMEDIATE SPANISH IV
4 Units
Four hours lecture and
One hour laboratory TBA per week.
Credit/No Credit/Letter Grade Option
UC/CSU, AA GE, CSU GE, IGETC, CAN SPAN 10
Prerequisite: SPAN 203 C with a grade of "C" or better, or
three years of high school Spanish with a grade of "C" or bet-
ter is recommended. The course continues to emphasize
acquisition of the more formal aspects of literary analysis and
cultural appreciation through a selection of advanced read-
ings by modern Spanish and Spanish American authors. It
also provides extensive practice in oral and written expres-
sion and a thorough review of grammatical concepts.

SPAN 298 C SPANISH SEMINAR
½ - 3 Units (Variable Unit Class) (May be taken for
credit 4 times)
One half to three hours lecture per week.
Credit/No Credit/Letter Grade Option
UC Credit Limitation/CSU
This seminar is for able students who wish to extend their
knowledge of literature, language and culture through small
group discussion.

SPAN 299 C SPANISH INDEPENDENT STUDY
½ - 2 Units (Variable Unit Class) (May be taken for
credit 3 times)
Two hours conference per week
for maximum credit.
Credit/No Credit/Letter Grade Option
UC Credit Limitation/CSU
Prerequisite: Approved Independent Study Learning Con-
tact. This course is designed for able students who wish to
increase their knowledge of language through individual
study or research.

Speech (SPCH)

SPCH 050 C EFFECTIVE ORAL COMMUNICATION
3 Units (May be taken for credit 2 times)
Three hours lecture per week.
Credit/No Credit/Letter Grade Option
AA GE
The course is designed to teach the non-transfer student effective communication techniques in everyday situations. Emphasis is placed on developing speaking skills in both preparation and delivery of original material and in developing self-confidence. This course is especially helpful for students who speak English as a second language.

SPCH 098 C SPEECH SEMINAR
½ - 3 Units (Variable Unit Class) (May be taken for credit 4 times)
One half to three hours lecture per week.
This seminar is for students who wish to extend their knowledge of literature, language and culture through small group discussion.

SPCH 100 C HUMAN COMMUNICATION
3 Units
Three hours lecture per week.
UC Credit Limitation/CSU, AA GE, CSU GE, IGETC , CAN SPCH 4
Introduction to the fundamentals and principles which underlie effective speech communication. Practical experience, emphasizing content, organization and delivery, will be required in at least three speaking situations, specifically including persuasive and informative speaking. Duplicate credit not granted for SPCH 100HC.

SPCH 100HC HONORS HUMAN COMMUNICATION
3 Units
Three hours lecture per week.
UC Credit Limitation/CSU, AA GE, CSU GE, IGETC
This course is a college level course enhanced for Honors students. This course will introduce students to fundamental and advanced principles which underlie effective speech communication and will offer an overview of the disciplinary field of speech communication. Enhanced practical applications, emphasizing content, organization, and delivery will be required in at least four speaking situations, specifically including persuasive and informative speaking. Principles of rhetorical criticism will also be studied. Duplicate credit not granted for SPCH 100 C.

SPCH 105 C INTERPERSONAL COMMUNICATION
3 Units
Three hours lecture per week.
CSU, CSU GE, CAN SPCH 8
The purpose of this course is to improve the student's understanding and ability to deal effectively with people. Major theories in the field of interpersonal communication will be studied so the student can develop a basic understanding of them and also acquire skills for self improvement. Methods of instruction include lecture, discussion, simulation experiments, and small group activities. No formal speeches are required.

SPCH 118 C INTRODUCTION TO BROADCASTING
3 Units
(Same as JOUR 118 C)
Three hours lecture per week.
CSU, CSU GE
This course covers the history, theory, contemporary issues, and current law in broadcasting designed for students majoring in communications for those desirous of a liberal education background. It is designed to develop career orientation, reading skills, critical thinking, historical awareness, and preparation for upper division courses in broadcasting. This course also meets the requirements for credit in JOUR 118 C.

SPCH 120 C INTERCULTURAL COMMUNICATION
3 Units
Three hours lecture per week.
UC/CSU, CAN SPCH 10
This course focuses on the cultural and social variables, communication theories and practices, and communicative styles that affect the communication process between members of different cultures. It includes an assessment of all the communication problems that occur between members of different cultures and on methods and techniques of adapting communication in an effort to overcome such difficulties. Eligibility for ENGL 100 C recommended.

SPCH 124 C SMALL GROUP COMMUNICATION
3 Units
Three hours lecture per week.
UC/CSU, CAN SPCH 10
This course is an introduction to theoretical and applied concepts in small group communication through participation and observation, analysis, and evaluation of group processes. Elements of small group behavior to be studied include leadership, roles, norms, networks, conflict and cohesion needs, and decision making.

SPCH 135 C ESSENTIALS OF ARGUMENTATION
3 Units
Three hours lecture per week.
UC/CSU, AA GE, CSU GE, CAN SPCH 6
This course is a study of argumentation—logic, reasoning, analysis of issues, audience analysis, evidence, refutation, case construction—and its relationship to advocacy. Emphasis is placed on the development of critical thinking skills.
SPCH 138 C FORENSICS  
1 - 2 Units (Variable Unit Class) (May be taken for credit 2 times)  
(Open Entry/Open Exit)  
One hour lecture and  
One hour laboratory per week.  
CSU, CSU GE  
This course is designed to prepare students to participate in intercollegiate speech competition. Practical experience, emphasizing content, organization and delivery will be offered in debate, persuasive speaking, informative speaking, extemporaneous speaking, impromptu speaking and oral interpretation.

SPCH 220 C THE RHETORIC OF THE CITY  
3 Units  
Three hours lecture per week.  
CSU, AA GE, CSU GE  
This course will examine the communicative meanings found in the culture, environment, history and social structure of a specific city. Students will be exposed to an interdisciplinary focus on a specific city and will examine the communicative interrelationships between the city and its populace. Duplicate credit not granted for SPCH 220HC.

SPCH 220HC HONORS RHETORIC OF THE CITY  
3 Units  
CSU, AA GE, CSU GE  
This course is a college level course enhanced for Honors students. This course will be conducted as a seminar. This course will examine the communicative meanings found in the culture, environment, history and social structure of a specific city. Students will be exposed to an interdisciplinary focus on a specific city and will examine the communicative interrelationships between the city and its populace. Duplicate credit will not be granted for SPCH 220 C.

SPCH 238 C FORENSICS  
1 - 2 Units (Variable Unit Class) (May be taken for credit 2 times)  
(Open Entry/Open Exit)  
One hour lecture and  
One hour laboratory per week.  
CSU, CSU GE  
This course is designed to prepare students to participate in intercollegiate speech competition. Practical experience, emphasizing content, organization and delivery will be offered in debate, persuasive speaking, informative speaking, extemporaneous speaking, impromptu speaking and oral interpretation.

SPCH 298 C SPEECH SEMINAR  
½ - 3 Units (Variable Unit Class) (May be taken for credit 4 times)  
One half to three hours lecture per week.  
UC Credit Limitation/CSU  
This seminar is for students who wish to extend their knowledge of literature, language and culture through small group discussion.

SPCH 299 C SPEECH INDEPENDENT STUDY  
½ - 2 Units (Variable Unit Class) (May be taken for credit 3 times)  
One-half to two hours conference per week.  
UC Credit Limitation/CSU  
Prerequisite: Approved Independent Study Learning Contract. This course is for able students who wish to increase their knowledge of speech/communication/language through individual study or research.

Teaching

TEACHING TRANSFER PROGRAM  
Public school teaching credentials in the State of California are regulated by the State Legislature and administered by the Commission on Teacher Credentialing. All campuses of the California State Universities offer programs leading to a teaching credential.

Students planning to teach at the elementary school level will need to earn a Multiple Subject Credential. Usually, students pursuing a Multiple Subject Credential should complete course requirements for the Liberal Studies Major, Child Development Major, or Human Services Major.

Students planning to teach at the junior or senior high school level will need to earn a Single Subject Credential which authorizes the holder to teach in a designated subject area. Students should consult with their counselor to determine acceptable Single Subject Credential areas and applicable academic major programs of study which may be pursued at a university.

In general, students interested in teaching should plan to complete their lower division general education course work before transferring to a university. Many students choose to complete the bachelor’s degree before beginning their teacher training; however, with careful planning one may begin a credential program once they have attained junior standing at a university.

Students should consult a counselor or www.assist.org for lower division major requirements for most California public universities. (See the Standard Definitions section of the catalog for a description of ASSIST.) Students transferring to an independent college/university should consult the catalog of the individual school and a counselor for lower division major requirements.

ASSOCIATE IN ARTS DEGREE THEATER ARTS
This program is designed to prepare the student for certain occupations related to civic recreation departments and community theater.

To earn an Associate Degree students must complete: (1) all major course requirements with a minimum grade of "C"; (2) 25 units of General Education Graduation Requirements; (3) cultural pluralism and reading requirements; (4) any elective courses to complete a minimum of 60 units; and, (5) have a minimum GPA of 2.0. At least 50% of all major course work must be completed at Cypress College.

Required courses are listed in suggested sequence:
Course # Title Units
THEA 100 C Introduction to the Theater 3
THEA 120 C Acting I 3
THEA 143 C Stagecraft 3
THEA 124 C Acting II 3
THEA 144 C Lighting Design Fundamentals 3
THEA 129 C Voice and Diction 3
THEA 145 C Stagecraft 3
THEA 220 C Scene Study 3
THEA 225 C Directing for the Theater 3
THEA 121 C Dynamic Movement for the Stage 2
THEA 222 C Acting for the Camera 2
THEA 144 C Lighting Design Fundamentals 3
THEA 149 C Stage Crew Activity 2
THEA 126 C Musical Theater Techniques 3
Total Units Required 41 - 42

ACTING - DIRECTING CERTIFICATE
The primary emphasis of the Certificate Program is to prepare the student for occupational competency. To earn a certificate, the required courses as listed must be completed with a minimum grade of "C". At least 50% of all course work must be completed at Cypress College.

Required courses are listed in suggested sequence:
Course # Title Units
THEA 100 C Introduction to the Theater 3
THEA 120 C Acting I 3
THEA 147 C Stage Makeup 3
THEA 102 C World Theater History 3
THEA 124 C Acting II 3
THEA 145 C Fundamentals of Costume Design 3
THEA 129 C Voice and Diction 3
THEA 143 C Stagecraft 3
THEA 220 C Scene Study 3
THEA 225 C Directing for the Theater 3
THEA 121 C Dynamic Movement for the Stage 2
THEA 122 C Acting for the Camera 2
THEA 144 C Lighting Design Fundamentals 3
THEA 149 C Stage Crew Activity 2
THEA 126 C Musical Theater Techniques 3
Total Units Required 42 - 43

*Students with an acting emphasis are required to audition for performance classes in at least two semesters of their tenure. THEA 130 C, THEA 132 C, THEA 234 C.

COSTUME/MAKEUP DESIGN CERTIFICATE
The certificate in costume/makeup design is designed to prepare the student for occupational competency in the field of costume/makeup design for theater.

To earn a certificate, the required courses as listed must be completed with a minimum grade of "C". At least 50% of all course work must be completed at Cypress College.

Required courses are listed in suggested sequence:
Course # Title Units
THEA 145 C Fundamentals of Costume Design 3
ART 185 C Life Drawing 3
THEA 147 C Stage Makeup 3
THEA 247 C Prosthetic Makeup 3
THEA 149 C Stage Crew Activity 3
Total Units Required 15

LIGHTING/AUDIO DESIGN CERTIFICATE
This certificate in lighting/audio design is designed to prepare the student in occupational competency in lighting and sound design for theater.

To earn a certificate, the required courses must be completed as listed with a minimum grade of "C". At least 50% of all course work must be completed at Cypress College.

Required courses are listed in suggested sequence:
Course # Title Units
MUS 124 C Recording Studio I 3
THEA 142 C Theater Sound and Recording Techniques (2)
THEA 144 C Lighting Design Fundamentals 3
THEA 149 C Stage Crew Activity 3
THEA 245 C Design for Theater 3
ART 182 C Freehand Drawing 3
Total Units Required 14 – 15

SCENERY DESIGN CERTIFICATE
The scenery design certificate is designed to prepare the student for occupational competency in the field of scenic design.

To earn a certificate, the required courses as listed must be completed with a minimum grade of "C". At least 50% of all course work must be completed at Cypress College.
Theater Arts (THEA)

THEA 100 C  INTRODUCTION TO THE THEATER
3 Units
Three hours lecture per week.
Credit/No Credit/Letter Grade Option
UC/CSU, AA GE, CSU GE, IGETC

This course is designed for those who wish to explore thoroughly the performing arts with special attention given to a survey of all the contributing elements. Such methodology as lecture, demonstration, small group discussion, guest performers, and speakers from all areas of theater will be used. The course is designed to prepare the student for other course offerings in the theater curriculum.

THEA 102 C  WORLD THEATER HISTORY
3 Units
Three hours lecture per week.
UC Credit Limitation/CSU, AA GE, CSU GE, IGETC

The student will investigate the history of the influence of differing cultures, traditions, and technologies on the development of the theater as a social institution through comparative study of plays, historical events, and the theatrical environment. Theater practice from prehistory to the present will be studied. Attendance at theater productions may be required. Duplicate credit not granted for THEA 102HC.

THEA 104 C  INTRODUCTION TO THEATER APPRECIATION
3 Units (May be taken for credit 4 times)
Two hours lecture and
Credit/No Credit/Letter Grade Option
Two hours laboratory per week.
UC Credit Limitation/CSU, AA GE, CSU GE, IGETC

This course will investigate how various racial, national, religious, linguistic, or cultural heritages have influenced the American theater in literature and styles of production. Such methodology as lecture, small group discussion, guest speakers and performers representative of the new trends in dramatic literature will be used. Students will be given the opportunity to create their own stories through dramatic literature.

THEA 107 C  ETHNIC INFLUENCES IN U. S. THEATER
3 Units
Three hours lecture per week.
UC/CSU, AA GE, CSU GE, IGETC, CUL PL

This course will investigate how various racial, national, religious, linguistic, or cultural heritages have influenced the American theater in literature and styles of production. Such methodology as lecture, small group discussion, guest speakers and performers representative of the new trends in dramatic literature will be used. Students will be given the opportunity to create their own stories through dramatic literature.

THEA 108 C  STAGE AND SCREENWRITING
3 Units (May be taken for credit 2 times)
Three hours lecture per week.
CSU, AA GE, CSU GE

Beginning playwrights and screenwriters discover the basic craft of creating scripts for stage, screen and television. The class will concentrate on student’s current work and illustrations will be drawn from scripts that have shaped our modern consciousness.

THEA 120 C  ACTING I
3 Units
Two hours lecture and
Four hours laboratory per week.
Credit/No Credit/Letter Grade Option
UC/CSU, AA GE, CSU GE, CAN DRAM 8

Acting methods of the modern actor will be studied. Students will use craft preparations which will enable them to bring emotional and behavioral truth to the roles they create. Exercises in relaxation, sensory awareness, emotional freedom and the creation of truthful behavior will be practiced.
THEA 121 C  DYNAMIC MOVEMENT FOR THE STAGE  
2 Units (May be taken for credit 2 times)  
One hour lecture and  
Three hours laboratory per week.  
UC/CSU, CSU GE  
Students learn the art of physical communication. Students will discover and explore structured physical play, unarmèd stage combat and stimulus response exercises. Basic anatomy as it relates to motion and communication will be examined. This class is designed for actors and all students.

THEA 124 C  ACTING II  
3 Units (May be taken for credit 3 times)  
Two hours lecture and  
Four hours laboratory per week.  
UC/CSU, CAN DRAM 22  
Prerequisite: THEA 120 C or audition. Advisory: Concurrent enrollment or completion of THEA 121 C or THEA 129 C. Students will master a dynamic craft approach to creating roles in theater, film and television. Much of the work in class is videotaped.

THEA 125 C  ACTING TECHNIQUES  
2 Units (May be taken for credit 2 times)  
One and one-half hours lecture and  
One and one-half hours laboratory per week.  
Credit/No Credit/Letter Grade Option  
UC/CSU  
The study and exercise of acting and character analysis for the modern theater will be examined through scene study and performance. The fundamentals of staging and an evaluation of the actor’s obligations to the script will be introduced.

THEA 126 C  MUSICAL THEATER TECHNIQUES  
3 Units (May be taken for credit 4 times)  
(Same as MUS 291 C)  
Two hours lecture and  
Four hours laboratory per week.  
UC/CSU, AA GE, CSU GE  
Students will investigate performance methods of musical theater as they relate to the onstage performer. All styles of musical theater may be covered and performance in a workshop setting of musical theater literature is required.

THEA 129 C  VOICE AND DICTION  
3 Units (May be taken for credit 2 times)  
Three hours lecture per week.  
Credit/No Credit/Letter Grade Option  
UC/CSU, AA GE, CSU GE  
This is a course in the study of and exercise in voice production and articulation with the goal of producing Standard American speech. Special attention is given to diction for actors, classroom teachers and students with minor speech defects. Stress is placed on individual exercises designed to give conscious control of speech functions. Attendance at theater productions may be required.

THEA 130 C  ACTING WORKSHOP  
3 Units (May be taken for credit 4 times)  
Three hours lecture and  
Six hours laboratory per week.  
UC/CSU  
This performance laboratory will emphasize the application of the principals and theory of creative acting. Faculty and theater students will initiate and prepare performance projects for an invited audience. These projects will emphasize the performers with limited use of production elements.

THEA 132 C  MUSICAL THEATER WORKSHOP  
2 - 3 Units (Variable Unit Class) (May be taken for credit 4 times)  
Twelve hours laboratory per week for maximum credit.  
UC/CSU, AA GE, CSU GE  
Prerequisite: Audition. Advisory: Concurrent enrollment in one of the following: DANC 203 C, THEA 149 C, or one from THEA 140 C through THEA 147 C. The student will participate in the preparation of a musical production through acting, singing, dancing and/or instrumental accompaniment. Performers will make use of production elements and performance techniques.

THEA 133 C  REHEARSAL AND PERFORMANCE  
2 - 3 Units (Variable Unit Class) (May be taken for credit 4 times)  
Twelve hours laboratory per week for maximum credit.  
UC/CSU, AA GE, CSU GE  
Prerequisite: Audition. Advisory: Concurrent enrollment in one of the following: DANC 203 C, THEA 149 C, or one from THEA 140 C through THEA 147 C. This course teaches the practical application of acting and production techniques, i.e., acting, stage managing, backstage operation. Students will participate in the rehearsal and performance of a public production occurring in the Theater Arts Department.

THEA 134 C  AUDITIONS FOR THEATER/FILM  
1 Unit (May be taken for credit 4 times)  
One hour lecture and  
One hour laboratory per week.  
CSU  
Prerequisite: Audition. Theater students will initiate and then perform or demonstrate skills that verify their proficiency with the fundamentals of stage design areas and/or acting. Final projects will be presented to a jury composed of fellow theater/dance faculty and students.

THEA 140 C  THEATER CRAFTS  
3 Units  
Two hours lecture and  
Four hours laboratory per week.  
UC/CSU, CAN DRAM 12  
Theater crafts offers a survey of lighting, sound, theatrical equipment, and scenic construction techniques through lecture, demonstration, and laboratory experience. Information is applicable to all formal theatrical productions.
THEA 142 C  THEATER SOUND AND RECORDING TECHNIQUES
2 Units (May be taken for credit 2 times)
One hour lecture and
Three hours laboratory per week.
CSU
The student will be involved in control room procedure and equipment selection and use. The course covers the technical as well as the artistic aspects of sound recording. Emphasis will be placed on the practical use of audio equipment.

THEA 143 C  STAGECRAFT
3 Units (May be taken for credit 2 times)
(Same as MMTA 143 C)
Two hours lecture and
Three hours laboratory per week.
UC/CSU
This course explores the planning and execution of scenic elements for the stage with an emphasis on design, construction and methods of shifting scenery.

THEA 144 C  LIGHTING DESIGN FUNDAMENTALS
3 Units (May be taken for credit 2 times)
(Same as MMTA 144 C)
Two hours lecture and
Three hours laboratory per week.
UC/CSU
This course involves the study and execution of stage lighting with emphasis on equipment, control, color, and their relationship to design.

THEA 145 C  FUNDAMENTALS OF COSTUME DESIGN
3 Units (May be taken for credit 2 times)
Two hours lecture and
Three hours laboratory per week.
UC/CSU, CSU GE
Students will study costume history, design, and basic construction techniques as an introduction to basic theatrical costuming. Fabrics and their various uses will be investigated.

THEA 146 C  SCENE PAINTING
3 Units
Two hours lecture and
Three hours laboratory per week.
UC/CSU
Various methods of painting theatrical scenery will be explored. Tools to be used will include brush, roller, spray guns, and sponges. Students will duplicate stucco, wood grain, wallpaper, masonry and architectural detail on rigid scenery and scenic drops.

THEA 147 C  STAGE MAKEUP
3 Units
Two hours lecture and
Three hours laboratory per week.
UC/CSU
Students will receive instruction and practice in a laboratory setting in all phases of makeup specifically designed for theatrical use.

THEA 148 C  PRODUCTION TECHNIQUE LABORATORY
½ - 12 Units (Variable Unit Class) (May be taken for credit 4 times)
(Open Entry/Open Exit)
Two hours laboratory per week for each ½ unit earned.
CSU
Prerequisite: Involvement in the Production Program. This is an open entry/open exit class for students to obtain production experience in theater and dance through acting, directing, technical work, management, and publicity.

THEA 149 C  STAGE CREW ACTIVITY
2 - 3 Units (Variable Unit Class) (May be taken for credit 4 times)
Twelve hours laboratory per week for maximum credit.
UC/CSU, AA GE, CSU GE
Stage Crew Activity is an integral part of total theatrical training and experience. Through participation in various areas of backstage responsibilities such as scenery construction, properties, lighting, and costuming the actor/performer as well as the technician learns to identify those elements which enhance performance technique.

THEA 220 C  SCENE STUDY
3 Units (May be taken for credit 2 times)
Two hours lecture and
Four hours laboratory per week.
UC/CSU
Prerequisite: THEA 120 C or Audition. Advisory: Concurrent enrollment or completion of THEA 121 C or THEA 129 C. The actor will examine and practice the fundamental skills required to perform in historical and stylized dramatic works. The reading and performance of dramatic literature that varies from classical texts to avant-garde works and non-traditional sources are required.

THEA 222 C  ACTING FOR THE CAMERA
2 Units (May be taken for credit 2 times)
One hour lecture and
Three hours laboratory per week.
Credit/No Credit/Letter Grade Option
UC/CSU
Prerequisite: THEA 120 C or Audition. A practical approach to the acting methods and techniques used in television and feature film will be examined. Emphasis will be placed on the study of various acting techniques and skills necessary for working in a film/video medium. Guidelines for comprehending and solving common acting problems inherent with working on camera will be stressed.

THEA 223 C  TELEVISION PRODUCTION I
3 Units (May be taken for credit 2 times)
Two hours lecture and
Four hours laboratory per week.
CSU
This introductory course will focus on multi-camera studio production, covering numerous aspects of pre-production and production, including, but not limited to: Directing, Writing, Producing, Acting, Camera work, Technical Direction, Floor Management, Lighting and Sound.
THEA 225 C  DIRECTING FOR THE THEATER  
3 Units (May be taken for credit 2 times)  
Three hours lecture per week.  
UC/CSU  
The director’s purpose in the theater will be examined through current craft approaches and through a historical context. Practical experience in directing through class projects will be stressed.

THEA 226 C  ADVANCED MUSICAL THEATER  
3 Units (May be taken for credit 4 times)  
Two hours lecture and  
Four hours laboratory per week.  
CSU  
Prerequisite: Audition. Students will explore scene work and audition techniques for musical theater. This course is designed for the performance oriented student.

THEA 232 C  MUSICAL THEATER PRODUCTION  
2 - 3 Units (Variable Unit Class) (May be taken for credit 4 times)  
Eight to twelve hours laboratory per week.  
CSU  
Prerequisite: Audition. Advisory: Concurrent enrollment in one of the following: DANC 203 C, THEA 149 C or one from THEA 140 C through THEA 147 C. The students will prepare a work of musical theater for public performance through play analysis, character analysis, style analysis and rehearsal using vocal skills, choreographic movement and acting techniques.

THEA 234 C  ENSEMBLE ACTING  
2 - 3 Units (Variable Unit Class) (May be taken for credit 4 times)  
Twelve hours laboratory per week for maximum credit.  
UC/CSU  
Prerequisite: Audition. Advisory: Concurrent enrollment in one of the following: DANC 203 C, THEA 149 C or one from THEA 140 C through THEA 147 C. This is a performance oriented course that concentrates on training students in the methodology and advanced skills of ensemble acting during a rehearsal period. Production support in the areas of stage management, backstage operations, sound, makeup, costumes, and house management are also introduced by practical involvement in the unique demands of producing an ensemble performance.

THEA 235 C  EXPERIMENTAL THEATER  
2 Units (May be taken for credit 4 times)  
Six hours laboratory per week.  
UC/CSU  
This course consists of short-term projects in theater production (selection to be made by the department). Recent projects have included student-directed one-act plays, touring shows designed for elementary school children, and puppet plays.

THEA 241 C  COMPUTER DRAWING FOR THEATER  
3 Units (May be taken for credit 2 times)  
(Same as MMTA 241 C)  
Two hours lecture and  
Three hours laboratory per week.  
CSU  
Students will receive instruction and practice in computer drawing specifically designed for theatrical use. Course content will include techniques necessary to generate floor plans, elevations, renderings, light plots and supporting documentation such as materials lists and lighting instrument schedules.

THEA 244 C  INTELLIGENT LIGHTING  
3 Units (May be taken for credit 2 times)  
(Same as MMTA 244 C)  
Two hours lecture and  
Three hours laboratory per week.  
CSU  
This course involves the study and execution of stage lighting making use of individually programmable or “intelligent” lighting with emphasis on equipment, control and color and their relationship to design. Attendance at performances using intelligent lighting will be required. Cost for theater tickets not to exceed $100.00.

THEA 245 C  DESIGN FOR THEATER  
3 Units  
Two hours lecture and  
Three hours laboratory per week.  
UC/CSU  
Basic principles of design as applied to the visual aspects of theater will be studied. Students will examine styles, techniques, and methods of design for the theater and translate those into visual forms of set, costume, and lighting.

THEA 247 C  PROSTHETIC MAKEUP  
3 Units  
Two hours lecture and  
Three hours laboratory per week.  
CSU  
Prerequisite: THEA 147 C. Students will explore the techniques of special effects makeup. The basic construction of foam latex appliances, dental casting, ventilated hairpieces and simple mechanical mask construction will be utilized. Responsibility for coordination of makeup for public performance is required of each student.

THEA 298 C  THEATER ARTS SEMINAR  
½ - 3 Units (Variable Unit Class) (May be taken for credit 4 times)  
Lecture/laboratory hours vary with credit given.  
UC Credit Limitation/CSU  
Prerequisite: May be required. Various classes may be offered from semester to semester which are designed to meet the interests and needs of the students.
THEA 299 C  THEATER ARTS INDEPENDENT STUDY
½ - 2 Units (Variable Unit Class) (May be taken for credit 4 times)
Two hours conference per week for maximum credit.
UC Credit Limitation/CSU
Prerequisite: Approved Independent Study Learning Contract.
This course is designed for capable students who wish to increase their knowledge and experience in theater. Unit credit may range from ½ to 3 units in any given semester.

Travel Careers - See Airline and Travel Careers (ATC)

Undeclared or Undecided

TRANSFER PROGRAM
Students should consult a counselor or www.assist.org for lower division major requirements for most California public universities. (See the Standard Definitions section of the catalog for a description of ASSIST.) Students transferring to an independent college/university should consult the catalog of the individual school and a counselor for lower division major requirements.

Veterinary Medicine

VETERINARY MEDICINE TRANSFER PROGRAM
Professional programs such as dentistry, medicine, pharmacy, optometry, physician assistant, physical therapy and veterinary medicine are most often graduate programs that require a bachelor degree or significant preparation prior to entering the program. The appropriate preparation varies according to the school and specific program. Students are advised to meet with a counselor to discuss options for their bachelor degree and the lower division requirements for the program and school of their choice.

Welding

Division of Vocational Education

Division Dean – Steve Donley

Counselor
Jane Jepson

WELD 040 C MATERIAL FABRICATION MACHINING
4 Units (May be taken for credit 2 times)
Two hours lecture and Six hours laboratory per week.
This is a course designed to prepare the student with skills in machine tool equipment used by industry. Students will be instructed in the use of the lathe, drill press, grinder, shaper, milling machine and measuring instruments. Machine and sheet metal fabrication will prepare the student in the use of metals in the joining, forming and cutting of materials. Laboratory fees for materials provided by the Department. Fee is paid in the Bookstore as needed during the semester.

WELD 060 C WELDING/METAL FABRICATION
3 Units (May be taken for credit 4 times)
Two hours lecture and Four hours laboratory per week.
Prerequisite: Previous welding experience. This course includes the fundamentals and theory of oxyacetylene and metallic arc welding, with practical application to joint preparation and fabrication. Selection and use of additive electrodes to ferrous and non-ferrous metals are included. Laboratory fees for materials provided by the Department. Fee is paid in the Bookstore as needed during the semester.

WELD 298 C WELDING SEMINAR
½ - 3 Units (Variable Unit Class) (May be taken for credit 4 times)
Lecture/discussion hours will vary According to units given.
CSU
This is a course for students who wish to increase their knowledge of welding. Various topics will be offered. Unit credit may range from ½ to 3 units in any given semester. Consult the class schedule to verify credit for a particular semester.

ASSOCIATE IN SCIENCE DEGREE WORD PROCESSING

This curriculum is designed to prepare students for employment in the field of word processing or any related area in which word processing skills are needed. A job simulation will give the students practical experience in all phases of word processing.

To earn an Associate Degree students must complete: (1) all major course requirements with a minimum grade of "C"; (2) 25 units of General Education Graduation Requirements; (3) any elective courses to complete a minimum of 60 units; and, (4) with an overall GPA of 2.0. At least 50% of all major course work must be completed at Cypress College.

Required courses are listed in suggested sequence:

Work Experience (WKEX)

WKEX 092 C WORK EXPERIENCE - GENERAL
1 - 3 Units (Variable Unit Class) (May be taken for credit 3 times)
One hour lecture plus
Five hours (minimum) employment in a business-related occupation per week.
Prerequisite: Must be enrolled in seven units, including work experience. This course is designed to provide instruction and general advisement related to actual work experience. For the employed student who has either not yet declared a major or whose employment and major are not related. Students must carry a minimum of seven units, which may include Work Experience. Students may enroll up to a maximum of three semesters, earning up to 9 units of credit.

WKEX 191 C WORK EXPERIENCE - VOCATIONAL
1 - 4 Units (Variable Unit Class) (May be taken for credit 4 times)
One hour lecture plus
Five hours (minimum) employment in a business-related occupation per week.
CSU
Prerequisite: Must be enrolled in seven units, including work experience. This course is designed to provide instruction and general advisement related to actual work experience. Employment and major must be related. Students must carry a minimum of seven units, which may include Work Experience, and be appropriately declared a business major. Students may enroll up to a maximum of four semesters, earning up to 16 units of credit.

Cypress College 2003-2004
Instructional Divisions

Each academic division is located in a “House”, usually in a separate campus building. Divisional faculty members and counselors have offices conveniently located adjacent to classrooms. In addition, each building provides lounge and study areas to encourage student participation in divisional activities, and two buildings also provide food services.

Business and Computer Information Systems
CARNegie HOUSE
This building was named after Andrew Carnegie, a manufacturer, publicist, and distributor of wealth for the improvement of mankind.

PROGRAMS
Business Administration Transfer, Accounting, Court Reporting, Captioning, Text Entry, Computer Editor, Computer Information Systems, Management, Marketing, Merchandising, Real Estate, Secretarial - Certified Professional, Secretarial - Administrative Assistant, Secretarial - Administrative Support, Secretarial - Legal, Secretarial - Office Assistant, and Word Processing.

COUNSELOR
England, Jean
Tyrrell, Don

DIVISION DEAN
Wassenaar, Dave

FACULTY
Capsuto, Michael
Dellinger, Patricia
Donley, Steve
Freer, Carolee
Gorno, Ric
Izadi, Behzad
Jianto, Susana
Kishel, Patricia
Miller, Jeanne
Moady, Alireza
McKnight, Richard
Pelachik, Patricia
Ransom, Alan
Reichert, Sue
Saldana, Jesse
Stoltz, Jan
Von Soosten, Ronald
Woo, Donna
Wu, Penn

Fine Arts
BERNSTEIN HOUSE
The Fine and Performing Arts complex was named after Leonard Bernstein, a master showman, conductor, composer, lecturer, pianist, writer, and teacher.

PROGRAMS
Art, Art Computer Graphics, Communications/Journalism, Dance, Multimedia, Music, Photography, Theater Arts

COUNSELORS
Laguana, Renay
Ssensalo-Collins, Renee

DIVISION DEAN
Brown, Kaleta

FACULTY
Ball, Sheridan
Berger, Ellen
Beyer, George
Burchfield, Jerry
DeCoro, Helena
Disney, Betty
Gallo, Joseph
Glattly, Marilyn
Holmes, Ian
Hormel, James
Johnson, Michael
Johnson, Robert
Majarian, Mark
Mendes, Roger
Mercer, Robert
Paiement, Paul
Patti, Joyce
Polsky, Diana
Reid, Kathryn
### Health Science

**SCHWEITZER HOUSE**

This building was named after Albert Schweitzer, a German scholar, humanitarian and founder of the Schweitzer Hospital in Lambarene, Gabon, Africa.

**PROGRAMS**

- Registered Dental Assistant
- Dental Hygiene
- Health Information Technology
  - Health Care Management and Supervision Certificate
  - Health Care Marketing and Sales Certificate
  - Health Information Coding Specialist
  - Health Unit Coordinator Certificate
- Medical Insurance Billing Specialist Certificate
- Medical Quality Review Assistant Certificate
- Medical Record Clerk Certificate
- Medical Staff Services Science
- Mortuary Science
- Registered Nursing
- Career Mobility Nursing
- Psychiatric Technician
- Radiologic Technology
  - Ultrasound/Medical Sonography Certificate
  - Radiology Assistant/Darkroom Technician Program

**COUNSELORS**

- Carter, Kelly
- Vo, Denise

**DIVISION DEAN**

- Hannon, Andrea

---

### Language Arts

**TWAIN HOUSE**

This complex was named after Mark Twain, an American humorist and writer.

**PROGRAMS**

- English, ESL (English for Non-Native Speakers), Foreign Language, Speech

**COUNSELORS**

- Lawson, Velia
- Mosqueda-Ponce, Therese
- Pelletier, Daniel

**DIVISION DEAN**

- Young, Eldon

**FACULTY**

- Borla, Linda
- Brydges, Michael
- Chi, Hong
- Daniels, Joan C
- Deutsch, Nancy
- Dickey, Cherie
- Diep, Christie
- Forman, Mary K.
- Friess, Donna
- Ganer, Patricia
- Herrera, E. Alexis
- Jones, Sarah
- Kashi, Barbara
- Keel, Lawrence J.
- Klein, S. Margaret
- Koeppel, Liana
- Lambros, John
- Licari, Charles
- Lin, Jian-er
- Llanos, Kathy
- Marshall, Barbara
- McAlister, Kathleen
- McPherson, Debra
- Moran, Olga
- Nabahani, Melanie
- Oliveira, Fernando
- Payne, John
- Puma, Jessica
- Robertson, Alison
- Rosenberg, Stuart
- Schaefer, Sandra
- Sonne, Kathryn
- Takahashi, K. Mariye
- Talwar, Ambika
- Wada, Kathryn
- Wahbe, Randa
- Wise, Kimberly
- Wood, Jane
Physical Education
THORPE HOUSE
This complex was named after Jim Thorpe, an American football, track, and baseball star, who is considered one of the greatest athletes of all time.

PROGRAMS
Physical Education - Teaching, Recreation

COUNSELOR
Bedard, Dana

DIVISION DEAN
Henry, Diane

FACULTY
Baca, J. Anthony
Beidler, Larry
Bottiaux, Paul
Haas, D. Ray
Mohr, Margaret
Picker, Brad
Picker, Scott
Pinkham, William
Rubino, Kenneth
Welliver, Nancy

Science/Engineering/Mathematics
EINSTEIN HOUSE
This building was named after Albert Einstein, a great American physicist and mathematician.

PROGRAMS
Biological Sciences/Life Sciences, Biology, Chemistry, Computer Science, Physical Science, Engineering - Chemical, Civil, Electrical, Mechanical, Engineering Technology, Forestry, Geology, Industrial Technology, Mathematics, Physical Therapy, Physics, Pre-Dentistry, Pre-Medicine, Pre-Optometry, Pre-Pharmacy, Pre-Veterinary

COUNSELORS
Nordee, Tom
Payne, Alice

STUDENT DEVELOPMENT INSTRUCTOR
Mattson, Carol

DIVISION DEAN
Entezampour, Mohammad

FACULTY
Allison, Minnie
Armale, Ron
Baldwin, William
Castle, Victoria
Centobene, William
Coopman, Jennifer
Fee, Richard
Flynn, Russell
Gibby, Cheryl
Gill, David
Godshalk, Kathryn
Gold, Stephen
Hamman, Elizabeth
Harkrider, Robert
Hess, Kathleen
Mao, Chaolin
Merickel, Karen
Mintzer, Alex
Morvan, Laurie
Mottershead, Allen
Nusbaum, David
Owens, Eunjoo
Paek, Sylvia
Petrie, David
Plett, Christina
Rajab, Adel
Shrout, Cynthia
Siragusa, Chris
Spooner, Stephanie
Subramaniam, Brinda
Vandergrift, Robert
Watson, Karen
Social Science

MUIR HOUSE
This complex was named after John Muir, an American naturalist and explorer whose conservation efforts helped to establish Sequoia and Yosemite as national parks and to cause the first federal conservation laws to be passed.

PROGRAMS
Anthropology, Asian Studies, Developmentally Disabled Care Providers, Drugs and Alcohol, Economics, Eating Disorders, Ethnic Studies, Family Studies-Basic & Advanced, Geographic Information Systems, Geography, History, Human Services Generalist, Latin American Studies, Liberal Studies, Philosophy, Political Science-Pre-Legal, Public Service, Psychology, Sociology, Victimology

COUNSELORS
Lawson, Velia
Mosqueda-Ponce, Therese
Pelletier, Daniel

DIVISION DEAN
Willoughby, Dan - Interim

FACULTY
Adams, Virgil III
Alibrandi, Lucinda
Cavin, Robert “Greg”
Cooney, Neill
Curiel, Larry
Dedic, James
Doak, Les
Edwards, Cyril
Flores, Michael
Halahmy, David
Heusser, Willis
Johnson, Susan
Killen, Brian
Koerper, Henry
Lewis, Carol
Lind, Daniel
Martinez, Randall
Mathews, Eapen-Peter
Mendoza, Armando
Odebunmi, Fola
Phillips, James
Polizzi, Nicholas
Rhymes, Regina
Sandoval, Carlos
Schick, P. Charlene
Vega-Pritchett, Amy
Zager, Gary

Vocational/Technical

EDISON HOUSE
The Vocational/Technical complex was named after Thomas A. Edison, who established the world’s first “invention factory” dedicated solely to testing, proving, and inventing useful products.

PROGRAMS
Air Conditioning and Refrigeration, Airline and Travel Careers, Automotive Collision Repair, Automotive Technology, Aviation - Commercial Pilot; Aviation - Management, Hotel, Restaurant, Culinary Arts, Industrial Arts - Teaching, Marine Service Technician

COUNSELOR
Jepson, Jane

DIVISION DEAN
Donley, Steve

FACULTY
Alexander, John
Bettendorf, Richard
Beard, Michael
Bird, Michael
Clark, Lisa
Jones, Anthony
Orozco, Luciano
Reiland, Kathleen
Sallade, Douglas
Sandore, Russell
Sherard, Charles
Snook, Dan
Trulock, Ronald
2002 - 2003 Administration and Faculty Accomplishments

Adams, Virgil III - Human Services
B.A., California State University, San Bernardino
M.A., Azusa Pacific University

Alexander, John - Automotive Technology
B.A., California State University, Long Beach

Alibrandi, Lucinda - Human Services
B.A., Wichita State University
Ph.D., University of California, Irvine

Allison, Minnie Tashima - Mathematics
B.S., Indiana State University
B.S.E.E., University of Dayton
M.M., Utah State University

Alvarez, Kathleen - Dental Hygiene

Armale, Ron - Physics/Astronomy
B.S., California State Polytechnic University, Pomona
M.S., Ph.D., University of California, Irvine

Ashburn, Shirley - Nursing
B.S.N., M.S., Ohio State University

Austin, Peggy Jean - Librarian
B.A., University of California, Davis
M.L.S., University of California, Los Angeles

Azen, Robert L. - Biology
B.A., M.A., California State University, Fullerton

Baca, J. Anthony - Physical Education
B.A., University of California, Santa Barbara
M.A., California State University, Long Beach

Baldwin, William - Computer Science
B.A., California State University, Fullerton
M.S., National University

Ball, Sheridan - Music
B.A., M.A., University of Northern Colorado
D.M.A., University of Southern California

Barajas, Frank - History
A.A., Moorpark College
B.A., M.A., California State University, Fresno
Ph.D., Claremont Graduate University

Bartlett, Kimberly
A.A., Glendale Community College, Glendale Arizona
B.A., Arizona State University
Ph.D., University of California, Santa Barbara

Beard, Michael - Automotive Technology

Bedard, Dana - Counselor/Student Development
B.A., University of California, San Diego
M.S., California State University, Long Beach

Beidler, Larry E. - Physical Education
A.A., Santa Ana College
B.A., California State University, Long Beach
M.Ed., Azusa Pacific University

Berggren, Gail - Counselor/Workforce Prep
A.A., Coastline College
B.A., M.S., California State University, Fullerton

Berger, Ellen - Art
A.A., Pasadena City College
B.A., California State University, Fullerton
M.A., California State University, Long Beach

Bettendorf, Richard - Automotive Technology
B.V.E., M.S., California State University, Los Angeles

Beyer, George - Music
B.M., M.M., California State University, Fullerton

Bird, Michael - Culinary Arts

Billie, Jeannie - Psychiatric Technician

Boettger, Kathleen - Mortuary Science
B.A., California State University, Los Angeles
M.S., California State University, Fullerton

Borla, Linda - English
B.A., M.A., California State University, Fullerton

Bottiaux, Paul - Physical Education, Student Activities
B.S., Michigan State University
M.S., California State University, Fullerton

Bower, Glenn - Mortuary Science
B.A., California Lutheran University, Thousand Oaks
M.S., National University, San Diego

Boyce, Jane C. - Psychiatric Technology
B.S.N., California State University, Fullerton
M.S., California State University, Long Beach
Adult Nurse Practitioner

Brown, Dana - Health Science
M.A., California State University, Long Beach
J.D., Western State University, College of Law
R.H.I.T., Cypress College

Brydges, Michael - Speech
A.A., Mt. San Antonio College
B.A., M.A., California State University, Los Angeles

Burchfield, Jerry - Photography/Fine Arts
B.A., M.A., M.F.A., California State University, Fullerton

Byrnes, Nancy - Vice President
A.S., University of Bridgeport
B.A., Notre Dame College
M.P.A., University of San Francisco
Ed. D., University of California, Los Angeles

Capsuto, Michael - Accounting
B.S., Roosevelt University
M.S., West Coast University
