Institutional Effectiveness Partnership Initiative (IEPI)

Institutional Effectiveness Partnership Initiative Purpose and Mission
IEPI is a collaborative effort to help colleges and districts improve their fiscal and operational effectiveness and promote student success, while also reducing accreditation sanctions and audit findings.

Three Components of the IEPI:

1. Framework of Indicators
   With input from internal and external stakeholders, a framework of indicators was developed to help establish college institutional effectiveness goals. The framework focuses on fiscal viability, accreditation, student performance, and compliance with state and federal guidelines.

2. Partnership Resource Teams
   The state has invested resources for partnership resource teams to be available to colleges and districts with interest in receiving support on self-identified issues.

3. Professional Development
   The CCC system is focused on increasing the percentage of students who successfully complete their educational objectives. Professional development opportunities are available to help colleges and districts achieve this goal.

Per SB 852 and SB 860, CCC’s must develop 4 Framework Indicators that serve 4 operational areas. Indicator definitions can be found at: https://misweb.cccco.edu/ie/Documentation.aspx
