

Dean's Message

The Division of Health Sciences is comprised of eight major program areas: Dental Assisting, Dental Hygiene, Diagnostic Medical Sonography, Health Information Technology, Mortuary Science, Nursing, Psychiatric Technology, and Radiologic Technology. Our academic programs are accredited and lead to degrees, licenses, and certificates in a variety of Health Sciences disciplines. To provide our students with hands-on training and practical experience, the Health Science Division has contracts with approximately 100 health care facilities in Southern California.

The Cypress College Health Sciences Division is known for academic excellence and has gained recognition for consistently high student pass rates and outstanding scores on both state and national board examinations.

Our Mission is "To provide high quality educational opportunities for student learning and successful pursuit of careers and/or higher education in the health sciences."

I am extremely proud of the diverse, dedicated, and highly qualified faculty and staff members who contribute to the mission of our Division.

This website provides an overview of our programs and I invite you to browse through our web site to learn more about the Division of Health Sciences. Please contact us at (714) 484-7283 if you would like additional information as you consider your plans for educational and professional advancement.

John Sciacca, M.A., Ph.D., M.P.H.
Dean, Division of Health Sciences
