Citrix

Install Citrix ICA Client in Window Xp using Internet Explorer (Citrix ICA client works with IE, Firefox, and Google Chrome)

1. Open a Internet Explore, and go to
   https://citrixhs.cypresscollege.edu (off campus)
   https://citrix3 (On campus)

2. After the page loads up, Click on the link call “Metaframe Presentation server client for win-32 windows” at the right bottom corner which circled in red. If you can not find the link on the page, the client is already installed in your computer. You can skip this part, and go to part 2.

3. Clikc on "Run", and let the installation run throught.
4. After the installation finished, just log into the our citrix website, and start the application by one click on the application icon. A little window box will appear for the first time. Check the "Do not show me the warning for this program again", and click on "Allow"
