Saturday Deadline for ‘W’ Drops is Among Important A&R Info

Registration for Spring 2010 begins on Tuesday, December 1. Students can find their times in MyGateway.

This Saturday — November 21 — is the deadline for instructors to withdraw students from semester-length classes. Students will receive a “W” for the semester. This date also applies to students planning to drop semester length classes.

Deadline information for classes that meet less than the full semester can be found under the CRN in the Class Schedule. Instructors can also find this information printed on class rosters.

All instructor withdrawals and student drops are processed through MyGateway/WebStar.

Other than the nightly maintenance between midnight and 6 a.m., MyGateway is available 24/7.

As this semester winds down, it's also time for students to register for the spring.

Priority registration starts on Tuesday, December 1, while continuing students register between December 2 and 9. New and returning students begin registration on Monday, December 14. A month later, on January 14, special admit students can begin selecting classes in MyGateway.

Because of the reduced number of sections available, it is important for students to utilize their registration dates and times. This information is available to students when they login to MyGateway.

Students who are enrolled in a course and will receive a grade or a “W” at the end of Fall 2009 are considered continuing students for Spring 2010. Registration appointments for continuing students are based on units/hours earned through Summer 2009 at both Cypress and Fullerton Colleges.

Returning students are those who have had a break in attendance of one or more semesters. These students must submit an online application for admission before receiving a registration email. Although returning students have earned units at Cypress and/or Fullerton, they do not receive priority registration until the term that follows their return.

Registration appointments for new and returning students are based on the date the application for admission was received.

Men’s Soccer, Women’s Volleyball Reach Firsts

The men's soccer team has reached the playoffs for the first time in the program's history. Their opening game will be played at Santa Ana College on Saturday, November 21, at 11 a.m. The team is coached by Ed Kephart, who is in his first season with the Chargers.

The Women’s Volleyball team also established a first by capturing the Orange Empire Conference championship. In the regular-season finale on Wednesday night, the Chargers defeated Riverside 3-0 to capture the conference title. Volleyball playoff information was pending at press time.
SCIENCE LECTURE SERIES

Tuesday, December 8th at 12:30-2:00 PM in
CCComplex 216

K. C. Cole, USC Professor, LA Times Science Writer

The Uncle of the Atom Bomb: Frank Oppenheimer and the World He Made Up

What happens to a person schooled in art, science and “ethical culture” who finds himself a pacifist building an atomic bomb, a physicist exiled from science because of his outspoken efforts to stop nuclear madness, a New York Jew raising cattle and teaching high school in the Colorado mountains? If you’re Frank Oppenheimer, you use what you’ve learned from art and science and teaching and ranching to make up your own world ... a “museum of human awareness”--The Exploratorium in San Francisco. Based on a newly published memoir/biography of the kid brother of J. Robert Oppenheimer, “father” of the atomic bomb, this talk will recount not just Frank’s journey, but also the story of how KC Cole, a young political writer who thought an “accelerator” was a gas pedal, stumbled on Frank’s marvelous Exploratorium, fell in love with physics, and got hooked on science for life.

Talks are geared toward the general public. No science background is required, and all are welcome! K.C. Cole, a long-time science writer for the Los Angeles Times, is currently a professor at USC’s Annenberg School of Journalism. Cole’s writing has appeared in The New Yorker, The New York Times, The Smithsonian, The Columbia Journalism Review, Newsweek, Esquire, Ms., The Washington Post and many other publications; her work was featured in The Best American Science Writing 2004 and 2005, and The Best American Science and Nature Writing 2002. She is the author of 8 non-fiction books.

Kent Ludwig's new adaptation of the Dumas novel is a fast-paced, and swashbuckling romp that echoes the classic Hollywood film versions of the story. The flamboyant musketeers — and the plucky kid sister of their new recruit D’Artagnan— brawl their way through the henchmen of Cardinal Richelieu to preserve the honor of their Queen. It's 'all for one and one for all!' in this new version that reawakens the romantic appeal of this timeless classic. **Performs: Nov. 13, 14, 19, 20, 21 @ 8pm. Nov. 22 @ 4pm.**
